UNIVERSITY OF MARYLAND CATALOG

The University of Maryland, College Park is the state's flagship university and one of the nation's preeminent public research universities. A global leader in research, entrepreneurship and innovation, the university is home to more than 40,000 students, 10,000 faculty and staff, and 352,000 alumni all dedicated to the pursuit of Fearless Ideas. Located just outside Washington, D.C., we discover and share new knowledge every day through our renowned research enterprise and programs in academics, the arts and athletics. As the nation’s first “Do Good” campus, we are committed to social entrepreneurship.

ABOUT THE UNIVERSITY

- Academic Calendars (p. 12)
- Accreditation (p. 14)
- University Administration and Deans (p. 15)

ACADEMIC CALENDARS

All undergraduate programs, and most graduate programs, follow the semester calendar. Some graduate programs follow the 12-week term calendar. Consult the individual department or program for the appropriate calendar to use. For current year academic deadlines and other scheduling information, see Academic Deadlines (http://www.registrar.umd.edu/deadlines.html).

- Semester Calendar (p. 12)
- 12-Week Calendar (p. 12)

Semester Calendar 2020-2021

Fall Semester - 2020

Event	Date
First Day of Classes	August 31 (Monday)
Labor Day	September 7 (Monday)
Thanksgiving Recess	November 25-November 29 (Wednesday-Sunday)
Last Day of Classes	December 14 (Monday)
Reading Day	December 15 (Tuesday)
Final Exams	December 16-22 (Wednesday-Tuesday)
Commencement - Main Ceremony[1]	December 20 (Sunday)
Commencement - College/ Department Ceremonies[1]	December 21,22 (Monday, Tuesday)

[1] See http://commencement.umd.edu for any updates.

Winter Term - 2021

Event	Date
Classes Begin	January 4 (Monday)
Dr. Martin Luther King Holiday	January 18 (Monday)
Classes End	January 22 (Friday)

Spring Semester - 2021

Event	Date
First Day of Classes	January 25 (Monday)
Spring Break	March 14-21 (Sunday-Sunday)
Last Day of Classes	May 11 (Tuesday)
Reading Day	May 12 (Wednesday)
Final Exams	May 13-19 (Thursday-Friday)
Commencement - College/ Department Ceremonies[1]	May 20 (Thursday)
Commencement - College/ Department Ceremonies[1]	May 22 (Saturday)
Commencement - Main Ceremony and College/ Department Ceremonies [1]	May 21 (Friday)

[1] See http://commencement.umd.edu for any updates.

Summer Term - 2021

Event	Date
Sessions I and I-A Begin	June 1 (Tuesday)
Session I-A Ends	June 18 (Friday)
Session I-B Begins	June 21 (Monday)
Independence Day Holiday	July 5 (Monday)
Sessions I and I-B End	July 9 (Friday)
Sessions II and II-C Begin	July 12 (Monday)
Session II-C Ends	July 30 (Friday)
Session II-D Begins	August 2 (Monday)
Sessions II and II-D End	August 20 (Friday)

All dates are subject to change. Updates and future academic calendars can be viewed at https://www.provost.umd.edu/calendar/.

12-Week Term Calendar 2020-2021

Fall Term - 2020

Event	Date
First Day of Classes	August 31 (Monday)
Labor Day	September 7 (Monday)
Last Day of Classes	November 20 (Friday)

Winter Term - 2021

Event	Date
Classes Begin	November 30 (Monday)
Winter Break	December 25 (Friday) through January 3 (Sunday)
Dr. Martin Luther King Holiday	January 18 (Monday)
Last Day of Classes	February 19 (Friday)

Spring Term - 2021

Event	Date
First Day of Classes	March 1 (Monday)
Spring Break	March 14-21 (Sunday-Sunday)
Last Day of Classes	May 19 (Wednesday)

Summer Term - 2021

Event	Date
First Day of Classes	June 1 (Tuesday)
Independence Day Holiday	July 5 (Monday)
Last Day of Classes	August 20 (Friday)

All dates are subject to change. Updates and future academic calendars can be viewed at https://www.provost.umd.edu/calendar/.

ACCREDITATION

The University of Maryland, College Park is accredited by the Middle States Commission on Higher Education (MSCHE), http://www.msche.org (http://www.msche.org/), under the authority of the U.S. Department of Education. In addition, individual colleges, schools, and departments are accredited by a number of other groups:

Accreditors Approved by the U.S. Secretary of Education

- Academy of Nutrition and Dietetics, Accreditation Council for Education in Nutrition and Dietetics
- American Psychological Association, Committee on Accreditation
- American Speech-Language-Hearing Association, Council on Academic Accreditation in Audiology and Speech-Language Pathology
- American Veterinary Medical Association, Council on Education
- Commission on English Language Program Accreditation
- Council on Education for Public Health
- National Association of Schools of Dance, Commission on Accreditation
- National Association of Schools of Music, Commission on Accreditation

Other Accreditors

- American Association for Marriage and Family Therapy, Commission on Accreditation for Marriage and Family Therapy Education
- American Library Association (ALA)
- Association to Advance Collegiate Schools of Business (AACSB)
- Council for the Accreditation of Educator Preparation (CAEP)
- Accreditation Board of Engineering and Technology (ABET)
- Accrediting Council on Education on Journalism and Mass Communications (ACEJMC)
- Institute of Food Technologists
- Landscape Architecture Accreditation Board (LAAB)
- Maryland State Department of Education (MSDE)
- National Architectural Accrediting Board (NAAB)
- National Association of Schools of Public Affairs and Administration
- Planning Accreditation Board

Evaluated Rather Than Accredited

- Maryland Sea Grant College (National Sea Grant Review Panel)
- Water Resources Center (United States Department of the Interior, U.S. Geological Survey)

For more information about Accreditation see https://provost.umd.edu/accreditation (https://provost.umd.edu/accreditation/).

UNIVERSITY ADMINISTRATION AND DEANS

Administration

President **Darryll J. Pines**

Senior Vice President and Provost **Mary Ann Rankin**

Vice President for Student Affairs **Patty Perillo**

Vice President for Administration and Finance **Carlo Colella**

Vice President for Diversity and Inclusion **Georgina Dodge**

Vice President for Information Technology and Chief Information Officer **Jeffrey Hollingsworth**

Vice President for University Relations **Jackie Lewis**

Vice President for Research **Laurie Locascio**

Vice President for Legal Affairs and General Counsel **Michael Poterala**

Deans

Dean of the College of Agriculture and Natural Resources **Craig Beyrouty**

Interim Dean of the School of Architecture, Planning, and Preservation **Donald Linebaugh**

Dean of the College of Arts and Humanities **Bonnie Thornton Dill**

Dean of the College of Behavioral and Social Sciences **Gregory Ball**

Interim Dean of the Robert H. Smith School of Business **Ritu Agarwal**

Dean of the College of Computer, Mathematical, and Natural Sciences **Amitabh Varshney**

Dean of the College of Education **Jennifer King Rice**

Interim Dean of the A. James Clark School of Engineering **Robert Briber**

Associate Provost and Dean of The Graduate School **Steve Fetter**

Dean of the College of Information Studies **Keith Marzullo**

Dean of the Philip Merrill College of Journalism **Lucy Dalglish**

Dean of the School of Public Health **Boris Lushniak**

Dean of the School of Public Policy **Robert Orr**

Associate Provost and Dean for Undergraduate Studies **William A. Cohen**

Dean of University Libraries **Adriene Lim**

Interim Associate Dean and Chair, Department of Veterinary Medicine, Maryland Campus **Xiaoping Zhu**

Division of Academic Affairs

1119 Main Administration Building
301-405-5252
provost@umd.edu
www.provost.umd.edu (http://www.provost.umd.edu)

Mary Ann Rankin, Senior Vice President and Provost

The Senior Vice President and Provost is the chief academic officer of the university with responsibility for guiding the academic development and direction of the institution in accordance with the University's mission. As Senior Vice President, the Provost has budgetary responsibility for campus academic programs and resources and works directly with the President on campus-wide resource allocation. The Provost oversees the development, review, and implementation of all academic policies and regulations; consults closely with the University Senate and other faculty advisory groups on academic programs and policies; and serves as liaison with other university divisions in strategic and long-range planning. The deans of the 12 academic colleges and schools report to the Provost as do the deans for Undergraduate Studies, of the Graduate School, and of the University Libraries. The director of the Institute for Bioscience and Biotechnology Research and the Executive Director of the Universities at Shady Grove, both situated in Rockville, also report to the Provost. Other major academic administrative offices that report to the Provost include: Academic Planning and Programs; Diversity and Inclusion; Faculty Affairs; Enrollment Management; Institutional Research, Planning, and Assessment; International Affairs; Finance and Personnel; Records, Registration, and Extended Studies; the Teaching and Learning Transformation Center; and the Academy for Innovation and Entrepreneurship.

Division of Administration and Finance

2119 Main Administration Building
301-405-1105
vpaf@umd.edu
vpaf.umd.edu (http://vpaf.umd.edu)

Carlo Colella, Vice President, Administration and Finance

The Division of Administration and Finance is responsible for the university's business operations and its 1,352-acre physical environment, including over 14 million square feet of facilities. More than 1,500 staff members ensure a safe, well-maintained and clean environment; facilitate planning for the future of the campus and manage construction; manage financial operations and provide business support services; support transportation demand management; manage the real estate needs of the university, and promote partnerships with surrounding communities.

Our operations include: Community Engagement; Environmental Safety, Sustainability and Risk; Facilities Management; Finance (includes Student Financial Services and Cashiering); Purchasing and Business Services; Public Safety; Real Estate; Transportation Services, and University Human Resources.

Of particular interest to students are the services and resources offered by Public Safety; billing and information provided by Student Financial Services and Cashiering; campus programs related to sustainability and climate action, and services offered by Transportation Services (parking, Shuttle-UM, Smart Commute).

Division of Information Technology

Phone: 301-405-1500
itsc@umd.edu

Jeffery Hollingsworth, Vice President and Chief Information Officer

The Division of Information Technology (DIT) is a strategic asset of the University of Maryland, College Park with the purpose of empowering students, faculty, and staff to use information technology to achieve all the university's three missions of teaching, scholarship, and full engagement in our community and the world.

We are a unit of knowledgeable and diverse staff that strives to build and maintain sound, advanced, secure and efficient information technology systems, capable of effectively serving the UMD community without barriers.

DIT proudly embraces our wide range of individual perspectives and experiences and highly values an open work environment that fosters the free exchange of ideas, mutual respect, and consideration for our differences.

Division of Student Affairs

2108 Clarence M. Mitchell Jr. Building
Phone: 301-314-8428
Fax: 301-314-9606
studentaffairs@umd.edu
www.studentaffairs.umd.edu (http://www.studentaffairs.umd.edu)

Dr. Patricia (Patty) Perillo, Vice President

The Office of the Vice President for Student Affairs provides administrative leadership for 14 departments which oversee student life: Resident Life, Dining Services, Residential Facilities, Counseling Center, Health Center, Recreation & Wellness, Career Center, Student Conduct, The Stamp, Fraternity & Sorority Life, Conferences & Visitor Services, Parent & Family Affairs, Development & External Relations and the Dean of Students Office (inaugural opening 2020).

This office serves as a point of contact for non-academic student services and concerns. In addition, the office provides support for the BETA Team, Student Success, and Omicron Delta Kappa.

Division of University Relations

1132 Main Administration Building
301-405-4680
www.urhome.umd.edu (http://www.urhome.umd.edu)

Jacqueline 'Jackie' Lewis, Vice President

The Division of University Relations encompasses a variety of units whose shared mission is to advance the goals of the university by increasing resources and support, enhancing awareness and affinity, and strengthening and developing relationships with the Maryland family and the greater community. Units of this division include: Development (including school-, college- and unit-based staff), Annual Giving, Corporate and Foundation Relations, Alumni Relations, Strategic Communications, Special Events, Donor Relations and Stewardship and the University of Maryland College Park Foundation. The *Fearless Ideas* campaign, which publicly launched in May 2018, has a goal to raise $1.5 billion in private support for university priorities such as undergraduate scholarships and faculty support. Through this endeavor, University Relations staff will encourage internal and external stakeholders to contribute toward discovering new knowledge, inspiring Maryland pride, transforming the student experience and turning imagination into innovation.

Equity Council

2417 Marie Mount Hall
301-405-2838
www.president.umd.edu/equity-council (https://www.president.umd.edu/equity-council/)

Georgina Dodge, Ph.D., Vice President for Diversity & Inclusion

The Equity Council serves as an advisory group to the President and supports the longstanding and continuous goal of the University of Maryland to be a national leader in recruiting and retaining a diverse community of faculty, staff, and students. The council provides leadership in the articulation and development of affirmative action policies and procedures for the campus community. A particular focus of the Equity Council is to review and recommend, as appropriate, search and selection policies and procedures for the university and its colleges and departments. The Council consists of equity administrators from each Vice President and Dean's office and the Office of the President. The Chief Diversity Officer serves as Chair of the Council.

The current list of equity administrators at the university can be found at the Equity Council website: www.president.umd.edu/equity-council (https://www.president.umd.edu/equity-council/).

Office of Diversity and Inclusion

2417 Marie Mount Hall
Phone: 301-405-2838
Fax: 301-314-9992
diverseterps@umd.edu
www.diversity.umd.edu (http://www.diversity.umd.edu)

Georgina Dodge, Ph.D., Vice President for Diversity & Inclusion

The Office of Diversity & Inclusion (ODI) provides active oversight, coordination, and evaluation of the University of Maryland's equity, diversity and inclusion activities; manages and tracks implementation of the Strategic Plan for Diversity; and encourages and supports the efforts of units to achieve their diversity goals. We invite you to explore our website for information about our office, its activities, and programs, as well as equity and diversity initiatives on campus and beyond.

For more information about ODI please go to http://www.diversity.umd.edu/.

Office of the President

1101 Main Administration Building
Phone: 301-405-5803
Fax: 301-314-9560
president@umd.edu
www.president.umd.edu (http://www.president.umd.edu)

Darryll J. Pines, President

The president is the chief executive officer of the University of Maryland. Eight vice presidents, who report directly to the president, manage different divisions of the campus administration. The Department of Intercollegiate Athletics and the Maryland Fire and Rescue Institute report to the Office of the President. The University Senate, a

representative legislative body of the university, advises the president on academic and other matters.

Office of Undergraduate Studies

2110 Marie Mount Hall
301-405-9363
ugst@umd.edu
www.ugst.umd.edu (http://www.ugst.umd.edu)

William Cohen, Associate Provost and Dean

Director of Administration and External Relations: Jacqueline Kautzer
Associate Dean for General Education: Douglas Roberts
Associate Dean: Cynthia Kay Stevens
Assistant Deans: Eric Van Johnson, Lisa Kiely, Kathryn Robinson, Ann Smith
Assistant Director of Communications and Web Development: Laura Cech

Through its many programs, the Office of Undergraduate Studies serves all undergraduate students at the university and the faculty and staff that support the undergraduate mission of the campus. The Office of Undergraduate Studies is the primary division at the University of Maryland responsible for leadership and oversight of undergraduate curricular and co-curricular education.

For more information about the programs in the Office of Undergraduate Studies, please see this section of the catalog (p. 441).

The Graduate School

2123 Lee Building
7809 Regents Drive
Phone: 301-405-3644
gradschool@umd.edu
www.gradschool.umd.edu (http://www.gradschool.umd.edu)

Steve Fetter, Associate Provost and Dean

The Graduate School, under the leadership of its Dean, establishes and oversees procedures to enact policies and serves as an advocate for excellence in all aspects of graduate education. The Graduate School, on behalf of its Dean, officially admits all students into graduate degree programs and acts as the conferring body for all graduate degrees.

More information on the Graduate School can be found in the Graduate Catalog (https://academiccatalog.umd.edu/graduate/).

University Senate

1100 Marie Mount Hall
Phone: 301-405-5805
Fax: 301-405-5749
senate-admin@umd.edu
www.senate.umd.edu (http://www.senate.umd.edu)

Reka S. Montfort, Executive Secretary and Director

The University Senate, an integral part of the university's system of shared governance, has representation from all segments of the campus community: faculty, staff, undergraduate students, and graduate students. Participation in the Senate or any of its 10 Standing Committees is an honor and a responsibility.

The full Senate meets approximately nine times a year to consider matters of concern to the institution, including academic issues, university policies, plans of organization, and other matters that affect faculty, staff, and students. The Senate advises the president, the chancellor, or the Board of Regents, as appropriate. To become an undergraduate student senator, students must be elected by students in the college or school of their advising college or the Office of Undergraduate Studies in centralized, online elections. Elections are held every year during the spring semester. All students are also encouraged to participate in Senate Standing Committees, such as Student Affairs and Campus Affairs. These committees draw membership from the campus community at large and cover every aspect of campus life and function. Details about the election and committee volunteer processes can be found at www.senate.umd.edu (http://www.senate.umd.edu).

UNDERGRADUATE CATALOG

Welcome to the University of Maryland Undergraduate Catalog . The Undergraduate Catalog provides information pertaining to undergraduate academic programs, including course descriptions and program requirements, and sets forth the university's academic, registration and graduation policies and regulations. A listing of University of Maryland policies and procedures is available at http://www.president.umd.edu/policies/ (https://www.president.umd.edu/administration/policies/).

Program requirements contained in the Undergraduate Catalog supersede any information which may be contained in any bulletin of any school or department. This Undergraduate Catalog also contains hyperlinks to other informational resources at the University of Maryland. The information contained in these hyperlinks is provided as a convenience to the reader and is not part of the Undergraduate Catalog itself.

The provisions of the Undergraduate Catalog are not to be regarded as a contract between the student and the University of Maryland. The university reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings, tuition, fees, other charges, or any other contents of this catalog at any time.

Changes are effected from time to time in the general policies, and academic and graduation requirements. The Undergraduate Catalog will be updated to reflect such changes, as appropriate, but updates may not appear immediately. There are established procedures for making changes that protect the institution's integrity and the individual student's interest and welfare. A curriculum or graduation requirement, when altered, is not normally retroactive unless the change is to the students' advantage and can be accommodated within the span of years normally required for graduation.

Registration Guide: The registration guide outlines registration dates and procedures, and provides information on deadlines, fees, and other student services at the university. The registration guide and schedule of classes are available at www.registrar.umd.edu (http://www.registrar.umd.edu/).

ADMISSIONS INFORMATION

- Office of Undergraduate Admissions (p. 19)
- Freshman Admission (p. 19)
- Transfer Admission (p. 20)
- International Student Admission (p. 21)
- Special Applicants (p. 22)
- Admission to Limited Enrollment Programs (LEP) (p. 23)
- Office of Extended Studies (p. 23)
- Residency Information (p. 24)
- Readmission and Reinstatement (p. 24)

The University of Maryland (UMD) is a publicly funded land grant institution and the flagship of the University System of Maryland. The university's mission statement expresses a commitment to achieving excellence as the state's primary center for research and graduate education and the institution of choice for undergraduate students of exceptional ability and promise. Consistent with this mission, UMD counts the diversity of its students among its greatest strengths and as an integral component of the educational process and a contributing factor to the academic excellence of the institution.

The undergraduate admission process, which reflects the university's educational mission, seeks to identify those applicants, who as individuals and as a group, will enrich and benefit from the campus learning environment, and thus benefit the entire student body. The process is structured to build entering classes of students whose varied backgrounds and experiences provide substantial evidence of their potential to:

1. meet UMD's requirements for academic success,
2. enrich the university as a diverse community,
3. add new perspectives to UMD's curriculum and scholarly pursuits,
4. develop personal skills, including leadership, self-confidence and intellectual engagement, and
5. contribute to the intellectual, cultural, social and political life of the university, state and nation.

As the university must make fine distinctions among large numbers of highly qualified applicants, the ability to assess all information presented in the application consistently becomes increasingly important. Therefore, the university employs a rigorous review process that engages the expertise of professional educators in performing individualized and holistic evaluations of each application. Each applicant is assessed on the basis of achievements and potential in a broad range of academic categories, viewed in the context of the opportunities and challenges the applicant has faced. These categories include, but are not limited to:

1. the strength of educational performance, as measured by the nature and rigor of high school curriculum and academic achievements,
2. the potential for college success, as evidenced by performance on nationally normed standardized tests,
3. the potential to promote beneficial educational outcomes and to make a positive contribution to campus and community life, and
4. persistence and commitment to educational excellence, as evidenced by demonstrated success in facing adversity and overcoming obstacles.

Application Documents

The undergraduate application is only available online through MyCoalition, an application platform provided by the Coalition for College. The application and all required documents must be submitted in order for an admission decision to be rendered. To learn more about MyCoalition and how to submit application documents, please visit www.admissions.umd.edu/apply (https://admissions.umd.edu/apply/).

Office of Undergraduate Admissions

Clarence M. Mitchell Jr. Building
Ground Floor
7999 Regents Drive
College Park, MD 20742
301-314-TERP (8377) or 1.800.422.5867
www.admissions.umd.edu (https://www.admissions.umd.edu/)
ApplyMaryland@umd.edu (applymaryland@umd.edu)

Associate Vice President for Enrollment Management: Barbara Gill

The services offered by the Office of Undergraduate Admissions are designed to meet the individual needs of prospective students. The office provides general information about the University of Maryland through electronic communications, print materials, website, social media, visit programs, information sessions, campus tours and other personal interactions. Admissions staff evaluate undergraduate freshman and transfer applicants (both international and domestic) in order to shape the entering class of students.

Freshman Admission

Fall Semester Freshman Admission

The University of Maryland (UMD) strongly encourages all applicants to apply by our November 1 early action deadline to assure priority consideration for admission, merit scholarships and invitation to special programs. Admission to UMD is competitive. We typically receive more than 30,000 applications for a fall freshman class of approximately 4,300. As a result, we are unable to offer admission to all students who have the ability to be academically successful at the university. A completed application includes a submitted application form, official high school transcript(s), SAT or ACT scores, essay, activities and awards list, school counselor and teacher recommendations and the application fee.

Applying by the November 1 early action deadline is encouraged. Please visit our undergraduate admissions website for updated deadline information (https://admissions.umd.edu/apply/application-deadlines/).

Spring Semester Freshman Admission

Students may be admitted for the spring semester by applying directly for spring admission or by having their fall application identified for spring admission through the application review process (as a result of space limitations). A completed application includes a submitted application form, official high school transcript(s), SAT or ACT scores, essay and activities, school counselor and teacher recommendations and the application fee.

Please visit our undergraduate admissions website for updated deadline information (https://admissions.umd.edu/apply/application-deadlines/).

Freshman Admission Deadlines

- Early action deadline: November 1
- Regular deadline: January 20

Financial Aid Applications

The University of Maryland (UMD) priority deadline for submitting the Free Application for Federal Student Aid (FAFSA) is January 1. Students seeking financial assistance can complete the FAFSA prior to submitting their UMD application, which can be done as early as October 1 when the FAFSA becomes available online. More information is available in the Fees, Expenses and Financial Aid section (p. 26).

Early Admission Options for High-Achieving High School Students

Concurrent Enrollment

Talented high school seniors have the opportunity to enroll at the University of Maryland for two courses, or seven credits, each semester. Successful applicants will have pursued a rigorous high school program and will have indicated exceptional performance and ability achieved over time. To apply, students must submit the completed concurrent enrollment (https://admissions.umd.edu/apply/requirements/special-audiences/) application and fee, high school transcript(s) an essay explaining why they are interested in the program, a letter of recommendation from the high school and a letter of permission from the parents or guardians. Students must live within commuting distance. Tuition is assessed on a per-credit-hour basis. All mandatory fees apply in full.

Summer Enrollment

High school students with a strong high school record may be considered for enrollment in courses during the summer preceding their junior or senior year. They must file an application for admission and submit an official high school transcript. Tuition is assessed on a per-credit-hour basis. All mandatory fees apply in full. For more information, students should visit the Office of Extended Studies (https://oes.umd.edu/incoming-current-visiting-students/summer-session/) website.

Early Admission

Although the University of Maryland (UMD) generally requires applicants to earn a high school diploma prior to their first full-time registration, the university will admit a limited number of well-qualified students without high school diplomas. Successful applicants will have pursued a rigorous high school program and will have indicated exceptional performance and ability achieved over time. Students must be within two credits of high school graduation and have the commitment of the high school to award a diploma after successful completion of the freshman year at UMD. To apply, students must submit the completed application and fee, high school transcript(s), SAT or ACT results, an essay explaining how they will benefit from the program, a letter of permission from the parents or guardians and a letter of support from the high school which details the school's agreement to award the high school diploma. Early admission students are eligible for on-campus housing, scholarships based on academic achievement, the Honors College, College Park Scholars and other living-learning programs. Early application is strongly advised.

High School Equivalency Examination (GED)

Maryland residents who are at least 16 years of age and who have not received a high school diploma may be considered for admission provided they have earned the high school General Education Equivalency (GED) certificate. In order to be considered for admission, the applicant must submit a completed application (including SAT scores if the applicant has been out of high school for less than three years) and present an above average total score as well as above average scores on each of the five parts of the test.

Non-Accredited/Non-Approved High School

Students from non-accredited/non-approved high schools who seek admission to the University of Maryland should contact the Office of Undergraduate Admissions for additional information.

Home-Schooled Students

Home-schooled applicants should meet the same minimum high school course requirements expected of all applicants. Additional information from home-schooled students is required in the following areas of the application:

Transcript: The transcript(s) should provide course descriptions, books used, methods of evaluation and the grades received, as well as a statement providing general information about the home-school curriculum. If college-level courses have been taken simultaneously, an official college transcript should be included with the application.

Letters of Recommendation: The University of Maryland requires two recommendations from all freshman applicants. In the case of home-schooled students, these recommendations should be provided by:

- an individual acting in a supervisory or evaluative capacity with regard to the student's curriculum and
- a teacher in any setting (home-school program, community college course, etc.).

Prior Learning Credit

The University of Maryland (UMD) awards credit for Advanced Placement (AP), International Baccalaureate (IB) and Advanced Level (A-Level)/Advanced Subsidiary Level (AS-Level) exams when an appropriate score has been achieved. It is important to note that not all exams are awarded credit. All UMD departments reserve the right to re-evaluate the content of exams and to change the assignment of credit and course equivalencies. There are other types of college-level exams that may be awarded credit on a case-by-case basis. These include Caribbean Advanced Proficiency Exam (CAPE) or Abitur. For additional information on the transferability of these exams, please see the Prior Learning Credit (https://academiccatalog.umd.edu/undergraduate/registration-academic-requirements-regulations/prior-learning/) section of this catalog.

Transfer Admission

Admission to the University of Maryland is competitive. Students are encouraged to read the Admission Review Factors and Process (https://www.admissions.umd.edu/apply/admission-review-factors-and-process/) for more information regarding our admission process.

Admission is based on the overall strength of the student's academic performance and is assessed through a holistic review process as described in the Statement of Philosophy of Undergraduate Admissions.

In accordance with the Maryland Higher Education Commission and Board of Regents transfer policies (http://www.dsd.state.md.us/comar/comarhtml/13b/13b.06.01.02-1.htm), certain applicants from Maryland public institutions are given special consideration and are admitted when space is available.

The Admission Committee considers the student's academic record and grades received in all college-level courses. Students are expected to have completed English Composition (the equivalent of UMD's ENGL101) and college level mathematics (Fundamental Studies Math or higher) for best consideration in the review process.

Students who graduate from high school and subsequently complete a minimum of 12 semester hours or 18 quarter hours during a regular term excluding summer school, at a regionally accredited college or university are considered transfer applicants. Students who complete fewer than 30 semester or 45 quarter hours are expected to submit high school records and SAT I and/or ACT scores for review. When an applicant has attended more than one institution, a cumulative average for all previous college work attempted will be computed and included in the review process. To be considered, coursework must have been completed at a regionally accredited college or university. Due to space limitations, we are unable to offer admission to all students who have the ability to be successful academically at the University of Maryland.

Application Deadline Dates

Semester	Date
Spring Early Action	August 1
Spring Regular	November 15
Fall Early Action	March 1
Fall Regular	June 1

Transfer from Maryland Public Institutions

Currently, applicants who have attended Maryland public institutions may be admitted in accordance with the criteria outlined in the previous paragraph. The university subscribes to the policies set forth in the Maryland Higher Education Commission (MHEC) and Board of Regents transfer policies. When the number of students desiring admission exceeds the number that can be accommodated in a particular professional or specialized program, admission will be based on criteria developed by the university to select the best-qualified students.

Articulated transfer programs are available at each Maryland public community college. An articulated transfer program is a list of courses that best prepare applicants for a particular course of study at the University of Maryland. Applicants who take appropriate courses specified in the articulated program and earn acceptable grades are guaranteed transfer with no loss of credit. Articulated transfer programs help students plan their new programs after changing career objectives. More information about the articulation system (ARTSYS) (http://artsys.usmd.edu/) is available online. Applicants are encouraged to follow articulated programs to enhance their transition to the University of Maryland.

Transfer Credit

For more information on receiving transfer credit at the University of Maryland, please see the Transfer Credit (p. 79) section of this catalog.

International Student Admission

The University of Maryland seeks to enroll international students who demonstrate strong academic performance with records suggesting potential for success at the university. Admission to the University of Maryland is competitive. Typically, admission is offered to applicants whose academic credentials indicate marks of 'very good' to 'excellent.' Due to space limitations and the competitive nature of undergraduate admission at the University of Maryland, an international applicant should submit a complete application as early as possible, and always before the deadlines listed in this section. Evaluation of an applicant's credentials will take place only after all application materials are received.

Students who are non-U.S. citizens or non-permanent U.S. residents should apply as international applicants. Please refer to the Office of Undergraduate Admissions website for more information regarding English proficiency requirements (https://admissions.umd.edu/apply/admission-requirements/international-applicant-requirements/english-language-proficiency/).

Freshman Admission - International

You are considered a freshman applicant if you have completed fewer than 12 semester hours of university-level credit beyond secondary school at the time you plan to enter the University of Maryland. Successful freshman applicants demonstrate satisfactory completion of diverse college-preparatory subjects in secondary school, proficiency in English and evidence of sufficient funds to cover all expenses. Due to space limitations, we are unable to offer admission to all students who have the ability to be academically successful at the University of Maryland.

The fall (August) deadline for applications to be received is November 1. The spring (January) general deadline is August 1. Applications are considered complete when the online application and all required documents have been submitted. Students are strongly encouraged to complete their application by the early action deadline (https://www.admissions.umd.edu/apply/application-deadlines/) when applicable.

For a listing of required documents, please review the International Application Checklist (https://admissions.umd.edu/apply/checklist/international-checklist/).

Transfer Admission - International

Students who graduate from high/secondary school and subsequently complete a minimum of 12 semester hours or 18 quarter hours during a regular term excluding summer school, at a regionally accredited college or university are considered transfer applicants. Students who complete fewer than 30 semester or 45 quarter hours are expected to submit high/secondary school records and SAT I and/or ACT scores for review. When an applicant has attended more than one institution, a cumulative average for all previous college/university work attempted will be computed and included in the review process. To be considered,

coursework must have been completed at a regionally accredited college or university.

Admission is competitive. Successful transfer applicants demonstrate better than average grades in strong academic courses, proficiency in English and evidence of sufficient funds to cover all expenses. Due to space limitation, we are unable to offer admission to all students who have the ability to be academically successful at the University of Maryland.

The fall early action deadline for applications to be received is March 1. The spring deadline is August 1. Applications are considered complete when the online application and all required documents have been submitted. Students are strongly encouraged to complete their applications by the early action deadline (https://www.admissions.umd.edu/apply/application-deadlines/) when applicable.

For a listing of required documents, please visit review the International Application Checklist (https://admissions.umd.edu/apply/checklist/international-checklist/).

Non-U.S. Academic Credentials

The University of Maryland requires all students with non-U.S. academic credentials to submit a third party academic evaluation for **only post-secondary/university credentials** from one of the two evaluators listed below. Evaluations must be received by the appropriate deadline (https://admissions.umd.edu/apply/application-deadlines/).

- Educational Credential Evaluators (ECE) (https://www.ece.org/ECE/)
  - Start the evaluation process with ECE by visiting their Education Reports page (https://www.ece.org/ECE/Individuals/Education-Reports/).
  - Requirements:
    - course-by-course evaluation
    - original transcript(s) and certified English translation of the transcript(s)
    - grade point average calculation
    - upper division course designation
- Josef Silny & Associates (JS&A) (http://www.jsilny.org/)
  - Start the evaluation process with JS&A by using their application for evaluation form (http://www.transfercredit.umd.edu/silnyform.pdf).
  - Requirements:
    - course-by-course evaluation
    - original transcript(s) and a certified English translation of the transcript(s)
    - grade point average calculation
    - upper division course designation for students with more than one year of post-secondary/university education completed

English Proficiency

Non-native English speakers (regardless of citizenship) who seek admission to the University of Maryland must verify their proficiency in English by taking and submitting an official score report from one of the following English proficiency exams: Test of English as a Foreign Language (TOEFL) or International English Language Test System (IELTS). Please note that while TOEFL or IELTS scores are required to satisfy proficiency in English, the Office of Undergraduate Admissions will conduct a full file review considering all application materials submitted to make a determination about the student's level of English proficiency. Please refer to the Office of Undergraduate Admissions website for more information regarding English proficiency requirements (https://www.admissions.umd.edu/apply/admission-requirements/international-applicant-requirements/english-language-proficiency/).

Visa Requirements

Admitted Students Residing Outside of the United States: To enter the U.S., international students residing abroad will need a valid passport from their country of citizenship and a visa from the U.S. Consulate. In order to obtain a visa for the purposes of studying in the U.S., students **must first be admitted to the university and confirm their enrollment.** Admitted students who have submitted proof of funding to cover the cost of their program of study at University of Maryland will be issued the Certificate of Eligibility form (Form I-20) to obtain an F-1 Visa (Academic Student). Admitted students who are sponsored by agencies, foundations or their home government, or are participating in an established exchange program may be issued the Certificate of Eligibility for Exchange Visitor Status (Form DS-2019) to obtain a J-1 visa.

Admitted Students Currently Residing in the United States: Admitted students currently holding F-1 Student or J-1 Exchange Visitor status need to submit a photocopy of their I-94 Arrival/Departure Record, visa stamp and current Form I-20 or Form DS-2019 form, along with proof of having sufficient funds to cover the cost of their study. Students holding another type of non-immigrant status need to submit a photocopy of their Form I-94 Arrival/Departure Record and visa stamp, and must indicate if they intend to seek a change to F-1 Student or J-1 Exchange Visitor status. Upon admission and submission of the appropriate financial support documentation, the university will then issue the appropriate Certificate of Eligibility Form (I-20 or DS-2019) to the student.

For more information, please visit the Office of International Student and Scholar Services (http://globalmaryland.umd.edu/offices/international-students-scholar-services/) website.

International External Exam

The University of Maryland awards credit for some Advanced Level/Advanced Subsidiary Level (A-Level/AS-Level) Exams taken through Cambridge International Exams (CIE) or other recognized organizations. There are other types of college-level exams that may be awarded credit on a case-by-case basis. For additional information on the transferability of these exams, please see Prior Learning Credit (https://academiccatalog.umd.edu/undergraduate/registration-academic-requirements-regulations/prior-learning/) section of this catalog.

Special Applicants

Golden Identification (Golden ID) Program

The University of Maryland (UMD) participates in the Golden ID Program. This program allows eligible senior citizens to take advantage of the wide variety of course offerings at the university. To be eligible to participate, the individual must be 60 years of age or older, a legal resident of the state of Maryland and retired (not engaged in gainful employment for more than 20 hours a week).

Students who are interested in participating in this program must first be admitted to UMD. They can apply through the Office of Undergraduate Admissions. The appropriate application fee will be assessed.

Additional information on how to apply may be obtained from the Office of Undergraduate Admissions at 301.314.TERP (8377). The Office of the Registrar website provides additional information about the Golden ID Program (http://registrar.umd.edu/current/registration/golden-id.html).

Non-Degree Seeking Students

Applicants who qualify for admission but do not desire to work toward a baccalaureate degree may be admitted as non-degree seeking students.

Non-degree seeking students who have received a baccalaureate degree are advised that no credit earned while enrolled may be applied at a later date to a graduate program. These post-baccalaureate students may enroll in undergraduate courses for which they possess the necessary prerequisites, but may not enroll in courses restricted to graduate students only. Students who wish to take courses at the graduate level (600 and above) must contact the Graduate School for information concerning admission requirements for Advanced Special Student status.

Non-degree seeking students who do not have a baccalaureate degree, or are in progress of completing a baccalaureate degree at the time of application, must submit transcripts and meet regular admission standards. Transcripts are not required from students who have completed baccalaureate degrees from a regionally accredited institution at the time of application. Due to space limitation, several departments require that permission be given in advance to register for classes as a non-degree student. Please contact the Office of Undergraduate Admissions for further information.

Non-degree seeking students who wish to take classes must submit the transfer application, official transcript (if applicable based on the information provided above) and a letter of permission from an academic advisor or dean at their home institution.

Returning Students

Applicants who have not attended school for more than five years should contact the Student Success Office (http://studentsuccess.umd.edu/). Veterans should also contact the University of Maryland Veterans Certification Services at 301.314.8239.

Students returning to the University of Maryland (UMD) after a separation of five calendar years may petition the appropriate dean to have a number of grades and credits from courses previously taken at UMD removed from the calculation of their cumulative grade point averages and from the credits applied toward graduation requirements. See information under Registration (p. 75) and Academic Records and Regulations (p. 64).

Admission to Limited Enrollment Programs (LEP)

The University of Maryland has taken steps to limit enrollment in certain majors in order to maintain high-quality programs. These majors include biochemistry, biological sciences, business, chemistry, communication, computer science, criminology and criminal justice, engineering, environmental sciences and policy (biodiversity and conservation), government and politics, journalism, neuroscience and psychology. Students are encouraged to visit the Office of Undergraduate Admissions website for additional LEP information (https://admissions.umd.edu/explore/limited-enrollment-programs/) or they can contact the office at 301.314.TERP (8377) or lep@umd.edu.

Freshmen

Admission of new freshmen to some LEPs is highly selective. LEPs with highly selective admission for freshmen include biochemistry, biological sciences, business, chemistry, computer science, neuroscience and engineering. Freshman applicants interested in an LEP are encourage to apply by the early action deadline, as space is limited for these programs. Freshmen who are directly admitted to an LEP will be subject to a performance review when they complete 45 college credits. The review varies from program to program, but always includes satisfactory performance in a set of appropriate courses. Students not passing the review will be required to choose another major. See the academic program description for specific details.

Freshmen not directly admitted to an LEP may be assigned to Letters and Sciences. Students are not guaranteed admission to an LEP at a later date, although they may gain admission by meeting the gateway requirements outlined for their particular program. See the following section on LEP transfer admission for further details about this option.

Second Major

Enrolled students interested in adding an LEP as a second major should see Degree Requirements (p. 71).

Transfers

Prospective transfer students and current UMD students wishing to change their major to an LEP must meet a set of gateway courses with minimum grades and obtain the required GPA in order to be considered for admission to the program (space limitations may apply). Additional information for each of the LEPs may be found at lep.umd.edu (https://www.lep.umd.edu/).

Transfer students who are not directly admitted to an LEP upon application to the university will be assigned to Letters and Sciences. Those with fewer than 60 credits will be assigned to Letters and Sciences and will be allowed the opportunity to meet the gateway requirements. Students with more than 60 credits will be admitted to an interim advising program in Letters and Sciences where they will be advised regarding their qualifications for the LEP and, in some cases, students will need to choose another major.

Office of Extended Studies

SUMMER SESSION, WINTER SESSION, UNDERGRADUATE PROGRAMS, AND PROFESSIONAL STUDIES

0132 Main Administration Building
Phone: 301-405-7762
Fax: 301-314-9572
Email: oes@umd.edu
Website: oes.umd.edu (https://oes.umd.edu)

The Office of Extended Studies provides administrative support for Summer Session, Winter Session, Undergraduate Programs, and Professional Studies. These programs offer University of Maryland courses that are taught by UMD faculty.

Summer Session serves current and incoming UMD students, visiting students from other two- and four-year institutions, professionals, and lifelong learners. Summer Session offers flexibility to make progress towards graduation with courses that meet on campus or online during six convenient sessions. Includes **Terp Young Scholars**, a three-week

pre-college program for academically talented high schoolers who earn university credits while exploring university life at UMD.

Winter Session serves current and incoming UMD students, visiting students from other two- and four-year institutions, professionals, and lifelong learners. Held in January, the three-week session offers convenience to keep learning with courses that meet on campus or anywhere online.

Undergraduate Programs includes Freshmen Connection and Undergraduate Programs at the Universities at Shady Grove (USG). **Freshmen Connection** serves spring-admitted freshmen who start UMD in the fall semester and get on track to graduate in four years by earning up to 17 credits toward their undergraduate degree. **Undergraduate Programs at USG** offers a variety of academic programs where students earn a UMD undergraduate degree (final two years) in a world class facilities and conducive learning environment.

Professional Studies includes Graduate, Post-Baccalaureate, Continuing Education, and Executive Education Programs. **Graduate Programs** offer master's degrees and graduate certificates that are crafted with expertise, innovation, and convenience to professionals who want to advance their knowledge and career goals. **Post-Baccalaureate Programs** prepare students for professional schools, graduate programs, and professional achievement. **Continuing Education Programs** offer non-credit learning opportunities through UMD's Open Learning Catalog and UMD MOOCs (Massive Open Online Courses). **Executive Education Programs** serve managers, business leaders, and executives with customized training programs.

Residency Information

Residency Reclassification Services
1130 Clarence M. Mitchell Jr. Building
Phone: 301-314-9596
Fax: 301-314-7915
E-mail: resclass@umd.edu
http://registrar.umd.edu/resreclass.html

Petitions, related documents and questions concerning the Board of Regents Policy on Student Classification for Admission and Tuition Purposes should be directed to Residency Reclassification Services in the Office of the Registrar.

Determination of In-State Status for Admission and Tuition Purposes: See http://www.usmd.edu/regents/bylaws/SectionVIII/viii270.pdf **for the complete text of this policy.**

An initial determination of in-state status will be made by the Office of Undergraduate Admissions at the time a student's application for admission is considered. The determination made at that time, and any determination made thereafter, shall prevail in each semester, and if, the students makes a request to change it. Students may request to change their classification by submitting a timely petition to Residency Reclassification Services in the Office of the Registrar. Determinations are based on the requirements of the residency policy. The deadline for submitting a complete petition, along with all supporting documents, is the first day of the semester in which the student wishes to be classified as in-state. No requests for retroactive change in status will be accepted. A student may only file a Petition for Change in Residency Classification for a current semester according to university established deadlines. In addition, a determination of in-state status is only valid for a term in which a student is registered. Requests for change in residency classification will not be accepted if a student is not registered for that term.

Once a petition has been filed, it may take up to six weeks for an initial decision. During this period of time, or any further period of time required by the university, any fees and charges based on the previous determination must be paid. The student is solely responsible for any late charges incurred by the residency process. If the determination is changed, any excess fees and charges will be refunded. All correspondence from Residency Reclassification Services will be sent by email to the email address that the student has on file with the university. Email is the official form of communication for the University of Maryland. Students should review their inbox and spam folders to insure receipt of all communication sent from Residency Reclassification Services.

Students classified as in-state for admission and tuition purposes are responsible for notifying Residency Reclassification Services in writing within 15 days of any change in their circumstances that might in any way affect their classification at the University of Maryland.

Readmission and Reinstatement

Student Success Office
0110 Hornbake Library
Office of Undergraduate Studies
University of Maryland
College Park, MD 20742
Email: rr-admit@umd.edu

Students who are admitted and do not register for their first semester or cancel registration prior to beginning their first semester must apply again for admission (see Freshman or Transfer Admission). Students who are admitted as 'Term Only' also must apply again for admission if they wish to register for a subsequent term. Students admitted as 'Non-Degree' seeking students, who would like to become degree-seeking students, must apply again for admission (see Transfer Admission).

Students who have matriculated and registered and did not maintain that registration continuously (Fall and Spring semesters) to graduation, must apply for readmission or reinstatement to re-enroll at the University of Maryland.

See 'Withdrawal from the University' on the Registration (p. 75) page for more detailed information.

Readmission

Students must apply for readmission if they interrupt registration for one or more semesters and were not academically dismissed at the conclusion of the last semester of attendance.

Reinstatement

Students who are academically dismissed from the university must apply for reinstatement. All applications for reinstatement are reviewed by a Faculty Petition Board. Students may apply for reinstatement for the semester immediately following dismissal or for any subsequent semester. Only the Faculty Petition Board can grant reinstatement.

Students who are denied reinstatement may be required to comply with specific recommendations made by the Faculty Petition Board in order to be considered for reinstatement in a future semester.

Reinstatement After Withdrawal

Students who withdraw from the university must apply for reinstatement if they interrupt enrollment for one or more semesters.

Students may apply for readmission or reinstatement at www.studentsuccess.umd.edu (http://www.studentsuccess.umd.edu).

Applications

Applications for readmission and reinstatement may be accessed via the web at http://www.studentsuccess.umd.edu/

Application Deadlines (Readmission and Reinstatement)[1]

Semester	Date
Fall	April 1st
Spring	November 1st

[1] Students who wish to re-enroll for summer term must apply for fall re-enrollment. Students who wish to enroll for winter term must apply for spring re-enrollment.

Students who have been **academically dismissed** and wish to return the following semester must apply by:

- June 1st for Fall enrollment
- January 6th for Spring enrollment

All students are encouraged to apply early in order to take advantage of early registration.

Summer School

Students who are dismissed or withdraw at the end of the Fall semester are not eligible to attend Summer Sessions unless or until they are approved for reinstatement. Students dismissed at the end of a Spring semester may attend any Summer Sessions prior to being reinstated, provided the student registered for Summer Session courses prior to dismissal or withdrawal, or has applied for re-enrollment.

Winter Term

Students who are dismissed or who withdraw at the end of the Fall semester may attend Winter Term prior to being reinstated provided the student registered for Winter Term prior to dismissal or withdrawal. Winter Term is offered to students who have attended during the preceding Fall semester. Students with a break in attendance must be re-enrolled to be eligible to attend Winter Term. Students readmitted/reinstated for a sSpring semester may also attend Winter Term.

Clearances

Clearances from Office of Student Conduct, the Office of Student Financial Services and Cashiering, Health Center, International Education Services and/or the Graduate School may be requested of the applicant.

FEES, EXPENSES AND FINANCIAL AID

Departmental Scholarships

0102 Lee Building
Phone: 301.314.TERP (8377)
Fax: 301.405.9265
sfa-scholarships@umd.edu (%20sfa-scholarships@umd.edu)
financialaid.umd.edu (https://financialaid.umd.edu/)

Many of the academic departments at the University of Maryland (UMD) offer merit-based scholarships. Most departments will only consider students who enroll for 12 credits per semester and who have a grade point average (GPA) of at least 3.0. These scholarships may be applicable specifically for freshman, transfer or continuing UMD students. For additional information regarding departmental scholarships (https://financialaid.umd.edu/types-aid-umd-institutional-aid/departmental-scholarships/), please contact the appropriate academic department.

All amounts are estimated and subject to change as final approval has not been granted by the time of publication.

Mandatory Fees

Student Fees Summary

The mandatory fee assessment for undergraduate students is based on number of credit hours as follows:

- Students registered for 9 or more credits: $977.50 per semester;
- students registered for 8 or fewer credits: $455 per semester.

For more information, see billpay.umd.edu/costs. An explanation of each fee type is available below.

Athletic Fee

Charged to all students for the support of the Department of Intercollegiate Athletics. All students are encouraged to participate in the activities of this department or to attend games if they do not wish to participate.

Auxiliary Facilities Fee

Charged to all students. This fee is paid into a fund that is used for capital improvement, expansion, and construction of various campus facilities such as open recreation areas (tennis courts, basketball courts, etc.), transportation alternatives, and the Stamp Student Union physical facilities. These projects are either not funded at all or are funded only partially from other sources.

Performing Arts and Cultural Center Fee

Charged to all students to support the operation of the Clarice Smith Performing Arts Center.

Recreation Services Fee

Charged to all students specifically to support the construction and operation of Ritchie Coliseum and the Campus Recreation Center, a multi-use facility that includes basketball and racquetball courts, indoor and outdoor pools, an indoor jogging track, and multipurpose activity spaces.

Shuttle Bus Fee

Charged to all students for the support of the shuttle bus transportation system.

Stamp Student Union and Recreational Fee

Charged to all students and is used to expand recreational facilities and the Stamp Student Union services.

Student Activities Fee

Charged to all undergraduate students at the request of the Student Government Association. It is used in sponsoring various student activities, student publications, and cultural programs.

Technology Fee

Charged to undergraduate students, to support the improvement of the computer systems on campus.

Telecommunications Fee

Assessed to all students living in university residence halls.

Other Fees

Application Fee For Undergraduate Students

A non-refundable fee of $75 is charged to all new applicants.

Cooperative Education in Liberal Arts, Business, and Science (UNIV098-UNIV099)

Per Semester: $60

Engineering Coop Program (ENCO098-ENCO099)

Per Semester: $60

Enrollment Confirmation Deposit

All newly admitted undergraduate students who intend to matriculate in the Fall or Spring semester must submit a non-refundable $400 deposit, which is credited to their tuition charges when they enroll. Should the student decide not to enroll for the specific semester of application, the $400 deposit is forfeited and cannot be used to offset any account balance, including orientation charges, the student may incur.

Students admitted for the Fall semester must submit this deposit by May 1 or within 30 days from their date of admission, whichever is later, to

reserve their place in the entering class. Students admitted for the Spring semester must submit this deposit by December 1 or within 14 days of their date of admission, whichever is later, to reserve their place in the entering class.

Fees for Auditors

Fees for auditors and courses taken for audit are the same as those charged for courses taken for credit at both the undergraduate and graduate levels. Audited credit hours will be added to hours taken for credit to determine full-time or part-time status for fee assessment purposes. Special Students are assessed fees in accordance with the schedule for the comparable undergraduate or graduate classification.

Late Payment Fee

A 5% fee is incurred on the total account balance at time of assessment once per Fall, and once per Spring on amounts past due. An additional 1.5% fee may be incurred in subsequent months where a past due balance remains.

Late Registration Fee

All students are expected to complete their registration on the regular registration days. Those who do not complete their registration during the prescribed days must pay a $20 late registration fee.

Maryland English Institute Fees

Students enrolled with the Maryland English Institute pay these fees in support of the Institute. The Intensive English program (UMEI001, UMEI002, UMEI003, and UMEI004) is $6,222. The Semi-intensive program (UMEI005) is $4,812 for Undergraduate and $6,515 for Graduate. Students enrolled in the Semi-intensive program may also enroll for regular academic courses and pay the tuition and fees associated with those offerings. The program also offers courses in English Pronunciation (UMEI006) for $2,055, Advanced Writing (UMEI007) for $3,083, and Advanced Oral Communication Skills (UMEI008) for $2,055. Interview Fee is $75 and Microteaching Fee is $100. These charges are subject to change. For more information, please refer to: http://marylandenglishinstitute.com/wpdir/dates-costs/.

Other Special Fees

The university offers a number of courses (MBA, ENTS, Chemical and Life Sciences, Animal Sciences) that have special course fees in addition to, or in lieu of, the standard tuition charges. Students are encouraged to contact the department prior to registering for the class to determine the total cost of the course.

Overdue Library Charges

Different fine rates may apply based on which library collection the overdue material resides. Please see lib.umd.edu/access/fines (https://www.lib.umd.edu/access/fines/) for more information.

Parking Registration Fees

All students enrolled in classes at the university who park a vehicle anytime on campus must register to park each academic year. For additional information, please refer to Department of Transportation Services. (https://transportation.umd.edu/parking/students/fees-and-permit-types/)

Pre-College Orientation Program Registration Fee

- $85 Freshmen (two-day program)
- $85 Transfer (one-day program)
- $20 No show fee
- Parents - No Fee

Property Damage Charge

Students will be charged for damage to property or equipment. When responsibility for the damage can be fixed, the individual student will be billed for it; when responsibility cannot be fixed, the cost of repairing the damage or replacing equipment will be prorated among the individuals involved.

Service Charges for Dishonored Checks

Payable for each check which is returned unpaid by the payee's bank on initial presentation because of insufficient funds, payment stop, post-dating, drawn against uncollected items, etc.

- For checks up to $100: $10
- For checks from $100.01 to $500: $25
- For checks over $500: $50

When a check is returned unpaid, the student must redeem the check and pay any outstanding balance in the account immediately or late fees may be assessed and the account is subject to transfer to the State of Maryland Central Collection Unit for legal follow-up. Additionally, a minimum 17% collection charge is added to the charges posted to the student's account at the time the transfer is made.

Shuttle Bus Fee

Charged to all students for the support of the shuttle bus transportation system.

Special Examination Fee (Credit-by-Exam)

$30 per course for all undergraduates and full-time graduate students; credit-hour charge for part-time graduate students.

Special Fee for Students Requiring Additional Preparation in Mathematics (MATH003, MATH010, MATH011, MATH013 and MATH015) per semester

A fee of $300 is required of students whose curriculum calls for MATH110 or MATH115 and who do not pass the qualifying examination for these courses. This Special Math Fee is in addition to course charge. Students enrolled in this course and concurrently enrolled for nine or more credit hours will be considered as full-time students for purposes of assessing fees.

Withdrawal and Refund of Fees

Students compelled to leave the university at any time during the academic year should meet with their academic college advising office and secure a form for withdrawal. The completed form and identification card are to be submitted to the academic college advising office which will communicate results to the Office of the Registrar. Students will forfeit their right to a refund if the withdrawal action described above is not adhered to. The effective date used in computing refunds is the date the withdrawal form is filed in the academic college advising office. Stop payment on a check, failure to pay the semester bill, or failure to attend classes does not constitute withdrawal. Refund requests should be processed by students with the Office of Student Financial Services and Cashiering. Otherwise, any credit on the student account could be carried over to the next semester. **If a Cancellation of Registration is submitted**

to the Office of the Registrar before the official first day of classes the student is entitled to a full credit of semester tuition.

Undergraduate students withdrawing from the university will be credited for tuition and fees in accordance with the following schedule:

Withdrawal	Refund
Prior to 1st day of classes	100%
1st 10 days of classes	80%
3rd week	60%
4th week	40%
5th week	20%
After 5th week	No refund

Note: First-semester freshmen who receive Title IV aid and who withdraw will receive an adjustment to any disbursed aid in accordance with federal regulations.

Prior to the first day of classes, if full-time undergraduates drop a course or courses, thereby changing the total number of credits for which they are registered to 11 or fewer, charges for the semester will be assessed on the basis of the per-credit-hour fee for part-time students. However, if students later add a course or courses thereby changing the total number of credits registered to 12 or more, they will be billed for the difference between per-credit-hour fees and full-time fees for undergraduates.

If during the first five days of classes full-time undergraduates drop a course or courses thereby changing the total number of credits for which they are registered to 11 or fewer, charges for the semester will be assessed on the basis of part-time charges plus 20% of the difference between the full-time fees and appropriate part-time charges. After the first five days of classes, there is no refund for changing from full-time to part-time status. Students who register as part-time undergraduate students and apply for a refund for courses dropped during the first week of classes will be given an 80% refund. No refund will be made for courses dropped thereafter.

No part of the charges for room and board is refundable except when students officially withdraw from the university or when they are given permission by the appropriate officials of the university to move from the residence halls and/or to discontinue dining hall privileges. In these cases, the room refund will be computed by multiplying the number of periods remaining by the pro rata weekly rate after adjusting for a service charge. Refunds to students having full board contracts will be calculated in a similar manner. No room and/or board refunds will be made after the 14th week of the semester. Students are reminded that reservations for room and board must be canceled by the date published in the residence hall and dining services agreement(s).

In computing refunds to students who have received the benefit of scholarships and loans from university funds, the computation will be made to return the maximum amount to the scholarship and loan accounts without loss to the university.

Merit-Based Financial Assistance

0102 Lee Building
Phone: 301.314.TERP (8377)

sfa-scholarships@umd.edu (%20sfa-scholarships@umd.edu)
financialaid.umd.edu (https://www.financialaid.umd.edu/)

Scholarships

Scholarships are available to the highest-achieving students at the University of Maryland (UMD). There are two types of scholarships, those that are merit-based and those that are need-based. The eligibility criteria for the different UMD merit-based scholarships are listed below. Please be sure to also check out UMD's departmental scholarships (https://financialaid.umd.edu/types-aid-umd-institutional-aid/departmental-scholarships/). Students are encouraged to contact the office or department responsible for selecting the recipients for more information on these programs. Current information about the merit scholarships offered through the Office of Undergraduate Admissions is available in the Finance (https://admissions.umd.edu/finance/) section of their website.

Banneker/Key Scholarship

The University of Maryland seeks to identify and select some of the brightest high school seniors in the nation to continue their education as Banneker/Key Scholars. There are two award levels for Banneker Key Scholarships. The first award level covers the costs of tuition, mandatory fees, room and board, and a book allowance each year for eight undergraduate consecutive semesters. The second award level provides a partial tuition scholarship and a book allowance each year for eight undergraduate consecutive semesters. Scholarship recipients will also be admitted to the Honors College. To be considered for the Banneker/Key Scholarship, students must submit a completed admission application and all required application materials by the November 1 early action deadline. Selected semifinalists are invited to campus for an interview conducted by the Banneker/Key Selection Committee. Factors such as a candidate's involvement in community service, talents or skills, leadership and character all play a part in the final awards. Contact the Office of Undergraduate Admissions (https://admissions.umd.edu/finance/freshman-merit-scholarships/) for more information.

Creative and Performing Arts Scholarships

These are competitive scholarships that are awarded annually. Primary consideration will be given to entering freshmen and transfer students from community colleges that have outstanding talent in art, dance, music or theater. The scholarships cover in-state tuition and mandatory fees and are renewable for up to three years based upon an acceptable level of performance as defined by the respective departments. Additional application materials and information about required auditions are available directly from the College of Arts & Humanities (http://www.arhu.umd.edu).

Dean's Scholarship

This award provides talented prospective freshmen with scholarship support for two to four undergraduate consecutive semesters. Awards ranging from $1,500 for freshman year or $4,500 per year for both freshmen and sophomore years. To be considered, students must submit a completed admission application and all required application materials by the November 1 early action deadline. Contact the Office of Undergraduate Admissions (https://admissions.umd.edu/finance/freshman-merit-scholarships/) for more information.

Frederick Douglass Scholarship

This scholarship is a prestigious University of Maryland award for academically talented transfer students from a Maryland community college. The award covers in-state tuition for four consecutive semesters of undergraduate study. To be eligible students must have completed 56 or more credits or have an associates degree and have a cumulative grade point average of 3.5 or higher. Students who have previously

attended the University of Maryland are ineligible for this scholarship. To apply for the Frederick Douglass Scholarship, candidates must submit a completed admission application (and all required application materials) and the scholarship application by March 1. For more information, please review the Frederick Douglass Scholarship (https://admissions.umd.edu/finance/transfer-merit-scholarships/frederick-douglass-scholarship/) page of the Office of Undergraduate Admissions website.

Kelly, Shipley or Weinberg Regents Scholarships

In order to continue the commitment to outstanding students, the Board of Regents has designated several Regents Scholarships to be awarded to Maryland community college transfer students. To be selected for this award, the transfer student must have exceptional qualifications, including achievement of a 4.0 grade point average, completion of an associate's degree at a Maryland community college, evidence of creative and intellectual activities or scholarly potential and have been admitted to one of the University System of Maryland institutions. The deadline for submitting the candidate's application materials is May 15. The winner may receive the scholarship for two years, totaling no more than four semesters including summer sessions. For information, contact the University System of Maryland System Office at 301.445.1992.

Maryland State Scholarships

The Maryland Higher Education Commission (https://mhec.state.md.us/Pages/default.aspx) (MHEC), awards both need-based and merit-based scholarships to Maryland residents. There are many different programs available, including the Guaranteed Access (GA) Grant, Educational Assistance (EA) Grant and the Legislative Scholarships (Delegate and Senatorial). You may obtain more information about these and other programs by calling MHEC at 800.974.0203. All Maryland residents are expected to apply for State scholarship assistance. The initial application for many of the awards is made through the Free Application for Federal Student Aid (FAFSA). Please note that filing the FAFSA annually by the January 1 deadline is sufficient to apply for most Maryland State Scholarships at UMD, although some may require additional application forms. The application deadline for most programs is March 1. The FAFSA is available online at the Federal Student Aid (https://studentaid.gov/) website.

President's Scholarship

This award provides talented prospective freshmen with scholarship support for eight undergraduate consecutive semesters. Awards ranging from $2,000 to $12,500 per year are offered to incoming freshmen. Students are selected through the admission process with primary consideration given to academic performance in high school (high school courses and achievement), results of standardized test scores (SAT or ACT), extracurricular activities, awards, honors, recommendations and the essay. For full consideration, students must submit a complete application for admission by the November 1 early action deadline. Contact the Office of Undergraduate Admissions (https://admissions.umd.edu/finance/freshman-merit-scholarships/) for more information.

President's Transfer Scholarship

This scholarship is a two-year $5,000 per year scholarship for transfer students. No separate application is required for consideration, recipients are identified through evaluation of admission application materials. The scholarship will be awarded to the most competitive transfer students with the strongest academic records and college grade point averages. Students who are awarded the scholarship will receive notification by mail a few weeks after they receive their letter of admission. Contact the Office of Undergraduate Admissions (https://admissions.umd.edu/finance/transfer-merit-scholarships/) for more information.

Regents Scholars Program

The Regents Scholars Program recognizes the extraordinary achievement of outstanding freshmen students. New awards are made each year in the amount of full in-state tuition, mandatory fees, room, board and a $1,000 stipend. Recipients are automatically admitted to the Honors College. A select number of the top high school scholars in the state will be considered for this most prestigious award. A complete admission application and all required application materials must be submitted the by November 1 early action deadline for consideration. Contact the Office of Undergraduate Admissions (http://www.admissions.umd.edu) for more information.

Scholarships from Other States

Several states have reciprocal agreements with the State of Maryland. Students who are residents of these states may receive funds for study in eligible post-secondary institutions in Maryland. Interested students should contact their state scholarship agencies for information.

Outside Scholarship Searches

A broad range of scholarships are available from private sources. Usually, these awards are not as well publicized as state and university programs. Therefore, students should conduct a scholarship search to locate such sources. The University of Maryland offers access to several services to students to aid them in their searches. Review the Helpful Links (https://financialaid.umd.edu/resources-policies/helpful-links/) page of the Office of Student Financial Aid website for more information on these resources.

University of Maryland Departmental Scholarships

Many of the academic departments at the University of Maryland offer merit-based scholarships. For more information, please visit the Departmental Scholarships (p. 26) section of the catalog.

Need-Based Financial Assistance

0102 Lee Building
Phone: 301.314.TERP (8377)
Fax: 301.405.9265
umdfinaid@umd.edu
financialaid.umd.edu (https://www.financialaid.umd.edu/)

Grants

The Office of Student Financial Aid administers several grant programs for University of Maryland (UMD) undergraduate students. Offers are made based on financial need as determined by the information provided on the Free Application for Federal Student Aid (FAFSA). Grants do not have to be repaid.

Federal Pell Grant

This grant provides a 'foundation' of financial aid, to which aid from other sources may be added. Only undergraduate students who are seeking their first bachelor's degree and have exceptional need may receive a Federal Pell Grant. All undergraduate students will be considered for this grant, regardless of when their completed FAFSA is received. Students may receive the Federal Pell Grant for less than full-time attendance, although the award will be prorated based on the number of credits attempted. Offers range from $657 to $6,345. For more information,

please visit the Federal Aid (https://financialaid.umd.edu/types-aid/federal-aid/) page of the Office of Student Financial Aid website.

University of Maryland Grant

The UMD grant is awarded to full-time undergraduate students that are state of Maryland residents and who demonstrate financial need. To qualify for consideration, students must submit their completed FAFSA by the January 1 priority deadline. Recipients are selected for this award based on the availability of funds and the qualifications of the applicants.

Teacher Education Assistance for College and Higher Education (TEACH) Grant

Through the College Cost Reduction and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant (https://studentaid.gov/understand-aid/types/grants/teach/) which provides grants of up to $3,764 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

To receive the TEACH Grant students must complete the FAFSA, be a U.S. citizen or eligible non-citizen, enrolled as an undergraduate, post-baccalaureate or graduate student, enrolled in coursework necessary to begin a career in teaching or plan to complete such coursework, maintain a cumulative 3.25 GPA and sign a TEACH Grant Agreement to Serve. Questions regarding the TEACH Grant can be emailed to sfaoper@umd.edu.

Loan Programs

Federal Direct Loan Program

The Federal Direct Loan program is a low-interest-rate loan, based on financial need for students who attend college at least half-time. The only application students need to submit to be considered for a Direct Loan is the FAFSA. This loan is borrowed by the student and must be repaid.

There are two types of Direct Loans: subsidized and unsubsidized. The Direct Subsidized Loan is offered to students with demonstrated financial need and is interest-free while students are enrolled at least half-time in a degree-seeking program. Students who do not demonstrate financial need, or who do not demonstrate sufficient need to borrow a full Direct Subsidized Loan, may borrow a Direct Unsubsidized Loan. The Direct Unsubsidized Loan is interest bearing. Students borrowing a Direct Unsubsidized Loan will be required to repay the principal and any interest that may accrue during school attendance. All students who want to apply for either type of Direct Loan must complete the FAFSA. As of July 1, 2019, the Direct subsidized and unsubsidized loans for undergraduate students has a 4.53% fixed interest rate. Students who graduate or drop below half-time status are granted a six-month grace period before repayment of the Direct Loan is required.

The following are the maximum loan amounts per academic year: $5,500 for undergraduate students with freshman status, $6,500 for undergraduate students with sophomore status and $7,500 for undergraduate students with junior or senior status. If students do not demonstrate sufficient need to borrow the maximum Direct Subsidized Loan, they may borrow the difference in a Direct Unsubsidized Loan. The maximum total borrowing limit for most undergraduate students is $31,000.

Federal Direct PLUS Loan

The Federal Direct PLUS Loan is a non-need-based loan, which parents/guardians may borrow to help cover the cost of their dependent children's education. The Direct PLUS Loan enables parents/guardians to borrow up to the student's cost of attendance (https://financialaid.umd.edu/resources-policies/cost-attendance/) (as determined by the school) minus all other financial aid. Otherwise, there is no yearly or cumulative borrowing limit. The student is required to complete the FAFSA in order to apply for the Direct PLUS Loan. After the FAFSA is completed, the parents/guardians must submit the Direct PLUS Loan application (https://studentaid.gov/app/launchPLUS.action?plusType=parentPlus/) through the U.S. Department of Education. The Office of Student Financial Aid will receive the application and review it for calculation and certification of the maximum loan amount that the parent may borrow per student, per year.

The Direct PLUS Loan is granted to borrowers based on credit-worthiness as determined by the U.S. Department of Education. The Direct PLUS Loan has a 7.60% fixed interest rate. The borrower has the option of beginning repayment on the Direct PLUS Loan either 60 days after the loan is fully disbursed or not until six months after the dependent student on whose behalf the parent borrowed ceases to be enrolled on at least a half-time basis.

Self-Help (Work-Study and Employment)

Federal Work-Study

The Federal Work-Study (FWS) Program provides students with the opportunity to earn money to meet their educational and personal expenses through employment. Money earned from the FWS program does not have to be paid back. To be considered for FWS, students must submit their completed FAFSA by the January 1 priority deadline. Pay rates depend on the level of complexity of the work but will be at least the federal minimum wage. Like all university employees, FWS employees receive a paycheck every other week for the hours worked. Most FWS jobs are on campus, though opportunities exist through the Community Service Program for FWS students to work off-campus at several Federal Government Agencies. The number of hours students may work is limited to 20 per week while school is in session and 40 per week during vacations and summer break.

Paid Internships

Students with paid internships sign a contract at the beginning of the semester that states the payment amount for the number of hours to be worked during that semester. The payment amount is advanced to the student's account at the start of each semester. This program differs from Federal Work-Study in that students receive all 'wages' at the beginning of each semester, as opposed to a bi-weekly paycheck and those funds are applied directly to the student's account. Several offices and departments on campus, including Shuttle-UM, Residential Facilities and Dining Services offer paid internships. Students should contact the department or office for which they are interested in working.

Office of Student Financial Aid

1135 Lee Building
Phone: 301.314.TERP (8377)
Fax: 1.301.405.9265
umfinaid@umd.edu
financialaid.umd.edu (https://www.financialaid.umd.edu/)

The Office of Student Financial Aid administers federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. The primary responsibility for financing attendance

at the University of Maryland (UMD) lies with students and families. Scholarships, grants, loans and work-study funds are offered on the basis of academic ability and/or financial need as determined by a federal needs analysis system. It is the intent of the Office of Student Financial Aid to provide assistance to students who might not otherwise be able to pursue college studies due to financial constraints.

Financial aid funds are limited. All new, returning and continuing students must follow these steps to receive priority consideration for financial aid:

1. Submit a completed admission application and all required application materials by the appropriate undergraduate (https://admissions.umd.edu/apply/application-deadlines/) or graduate (https://gradschool.umd.edu/admissions/application-process/) deadline.
2. Each year, complete and submit the Free Application for Federal Student Aid (https://studentaid.gov/h/apply-for-aid/fafsa/) (FAFSA) by the UMD deadline of **January 1**. All applications received by this deadline will receive priority consideration. The FAFSA becomes available on October 1.
    - **New students should not wait to be admitted before filing the FAFSA.** The FAFSA has no bearing on a student's admission decision, however, students will not receive final consideration for aid until they have been offered admission for a degree program.

Estimating Educational Cost

To assist students with estimating what a year at the University of Maryland (UMD) may cost, the Office of Student Financial Aid has prepared estimated cost of attendance (https://financialaid.umd.edu/resources-policies/cost-attendance/) budgets. These budgets include direct university charges (tuition, fees and on-campus room and board) and estimates of indirect expenses (transportation, books, supplies, miscellaneous living expenses and off-campus room and board). Off-campus cost of living expenses are determined based on the average room and board charges for the local area. These are indirect costs, therefore, they will not be billed by the university.

Actual UMD tuition and fees can be found by contacting the Office of Student Financial Services and Cashiering (https://billpay.umd.edu/billing-tuition-and-fees/undergraduate-tuition-and-fees/).

General Regulations Applicable to All Forms of Aid

AID procedures

A financial aid offer is normally a combination of grants, loans and student employment. A financial aid package is determined by the availability of financial aid and the financial circumstances of each student. It is not necessary to submit any special application for university grants. The Office of Student Financial Aid will determine awards that best fit the needs and qualifications of the students.

Change in Financial Situation

It is the student's responsibility to notify the Office of Student Financial Aid of any changes to their financial circumstances during the year.

Citizenship Status

In order to be eligible for federal, state or university financial assistance, students must be United States citizens or eligible non-citizens.

Default/Owe Refund

Students cannot be in default on an educational loan, nor can they owe any refund on a Pell Grant or Supplemental Educational Opportunity Grant (SEOG) previously awarded at any post-secondary institution.

Degree-Seeking

Students must be working toward a degree or certificate in order to be eligible to receive financial aid. Students must be admitted to the university as a degree-seeking student.

Full-Time Status

For most types of aid, students must attempt at least 12 credit hours through the schedule adjustment period each semester in order to receive a full financial aid offer. Please refer to the standards of Satisfactory Academic Progress (https://financialaid.umd.edu/resources-policies/satisfactory-academic-progress/) when considering dropping below 12 credit hours for any given semester.

Reapplication Requirement

Need-based assistance is not automatically renewed from year to year. All students requesting need-based aid must complete and submit the FAFSA annually. Each application must indicate continued financial need and the student must maintain Satisfactory Academic Progress (https://financialaid.umd.edu/resources-policies/satisfactory-academic-progress/).

Receiving a Non-University offer

If a student receives assistance (scholarship or loan) from a non-university source, the university may reduce the financial aid offered by the university. It is the student's responsibility to notify the Office of Student Financial Aid of all outside offers.

Satisfactory Progress

At the end of each semester or upon a student's re-enrollment at the University of Maryland, the student's academic performance is reviewed. The student's Satisfactory Academic Progress (https://financialaid.umd.edu/resources-policies/satisfactory-academic-progress/) is determined to verify if the student is eligible to receive, or continue receiving, financial aid.

Selective Service

To receive federal financial aid, male students must register with Selective Service if they are at least 18 years old and born after December 31, 1959, unless they are not required by law. The federal government will verify compliance of this registration requirement. Students who have questions about Selective Service registration may contact the Selective Service (http://www.sss.gov) at 847.688.6888 or 1.888.655.1825.

Tuition and Bill Payment Information

Office of Student Financial Services and Cashiering
1135 Lee Building
301-314-9000
301-405-0659 fax
billtalk@umd.edu
billpay.umd.edu (https://billpay.umd.edu/)
1-888-313-2404

Tuition and fees for the University of Maryland, College Park, are listed in the next section. The university requires that all deposits and fees be paid by stated deadlines, or penalties may be imposed. Many potential

administrative difficulties can be avoided if students carefully follow published procedures and notify the appropriate office(s) of any changes that might affect their financial obligation to the university. This includes updating your email address so communication concerning your billing is prompt, and notifying the Office of Student Financial Services and Cashiering of changes of address so that mail affecting the student's financial relationship with the university will not be delayed or returned.

Additional information for Summer Session, Winter Session, Freshmen Connection and certain Professional Programs may be found at oes.umd.edu (http://oes.umd.edu).

A deferred-payment plan for fall and spring semesters is available during a set enrollment period. Information regarding the Terp Payment Plan is available at billpay.umd.edu/Tpp (https://billpay.umd.edu/TPP/)

Future registration privileges for active students is granted once the balance on the account is below $250. Returning students will not be permitted to complete future term registration until all past due financial obligations to the university, including library fines, parking violations, and other penalty fees and service charges, are paid in full.

Although the university bills students monthly, it cannot assume their receipt. Students are reminded that it is their responsibility to notify the university of any change in their email address. If a student bill is not received on or before the beginning of each semester, it is the student's responsibility to obtain a copy of the bill. To check your account balance or view your monthly billing statement go to billpay.umd.edu (https://billpay.umd.edu/) and choose 'Access Account' or go to the Financial Service Center, 1135 Lee Building. The office is open Monday, Tuesday, Thursday, and Friday from 8:30 a.m. to 4:30 p.m. and on Wednesday from 9:30 a.m. to 4:30 p.m.

Students are encouraged to utilize electronic payment methods as listed at billpay.umd.edu. All checks or money orders should be made payable to the University of Maryland for the exact amount due and not include any payment in excess. Student's name and student's University ID number should be written on the front of the check. University grants and scholarships will be posted to the student's account. However, the first bill mailed prior to the beginning of each semester may not include these credits.

Students are urged to check their residence hall and dining service agreements for procedures for cancellation of reservations and for deadlines for receiving refunds of deposits. Refunds cannot be made after these deadlines, even if the student decides not to attend the University of Maryland, College Park.

Students will incur a late payment fee in the event of failure to pay a balance on their student account by its due date. A late payment fee of 5% or $10.00, whichever is higher, will be assessed on the total past due amount once per Fall and once per Spring term. An additional 1.5% fee may be charged monthly thereafter on the past due account balance.

Students who fail to pay the indebtedness during the semester in which delinquency occurs will be ineligible to register for subsequent semesters and not be permitted other university privileges including obtaining official transcripts until the debt and the penalty fees are cleared.

In the event a student with a delinquent account becomes registered for a future semester, the account must be settled in full prior to the onset of the future semester, to avoid cancellation of registration for that upcoming term.

The state has established, under legislative mandate, a Central Collections Unit (CCU) within the Department of Budget and Fiscal Planning. The university is required by state law to refer all delinquent accounts to the State Collections Unit. Please note that Maryland law allows the Central Collections Unit to intercept state income tax refunds for individuals with delinquent accounts, and that CCU is authorized to notify a National Credit Bureau of the delinquency at the time the account is referred to it for collection.

Central Collections Unit costs incurred in collecting delinquent accounts will be charged to the student. The minimum collection fee is 17% plus attorney and/or court costs.

No degrees, diplomas, certificates, or transcripts of records will be issued to students who have not made satisfactory settlement of their accounts.

All accounts due from students, faculty, staff, non-students, etc., are included within these guidelines.

Note: Additional Information on Student Financial Obligations, Disclosure of Information, Delinquent Accounts, and Special Fees, can be found in the 'Policy Statements' section at the beginning of this catalog.

Payment of Fees

Online

VISA, MasterCard, American Express, and Discover credit cards; VISA and MasterCard debit cards; and ACH (electronic checking or savings account) payments are accepted. There is no fee for ACH payments.There is a 2.75% processing fee charged by the university third party payment processor for credit and debit card payments. Online payments can be made by visiting billpay.umd.edu (https://billpay.umd.edu/).

In Person or Mailed

All checks, money orders, or postal notes should be made payable to 'University of Maryland.' The student's University ID number must be written on the front.

An Important Fee Notice: Notwithstanding any other provision of this or any other University of Maryland publication, the university reserves the right to make changes in tuition, fees, and other charges at any time deemed necessary by the university and the University System of Maryland Board of Regents. Tuition and fee information is also available online at billpay.umd.edu *(*https://billpay.umd.edu/*).*

2020-2021 Academic Year

Full-time Undergraduate Students

(For billing purposes, a student is considered full-time if the number of credit hours enrolled is 12 or more.)

Maryland Residents (In-state)

Fee	Total Academic Year Cost
Tuition	$8,824
Add Differential Tuition for full-time juniors and seniors majoring in Business, Engineering, or Computer Science regardless of residency	$2,856
Mandatory Fees (includes Tech fee) Maximum charged to all students registered for 9 or more credits	$1,955
Board (Resident Dining Plan - Base Plan)	$4,760
Room (Standard 2-person w/AC, includes Telecom fee)	$8,064

Residents of the District of Columbia, Other States, and Other Countries

Fee	Total Academic Year Cost
Tuition	$34,936
Add Differential Tuition for full-time juniors and seniors majoring in Business, Engineering, or Computer Science regardless of residency	$2,856
Mandatory Fees (includes Tech fee) Maximum charged to all students registered for 9 or more credits	$1,955
Board Contract (Resident Dining Plan - Base Plan)	$4,760
Room (Standard 2-person w/AC, includes Telecom fee)	$8,064

Tuition and Fees for Part-time Undergraduate Students

(For billing purposes, a student is considered part-time if the number of credit hours enrolled is 11 or fewer)

Fee	Total Academic Year Cost
In-State Tuition (per credit hour)	$367
Out-of-State Tuition (per credit hour)	$1,456
Add Differential Tuition for part-time juniors and seniors majoring in Business, Engineering, or Computer Science regardless of residency (per credit hour)	$118
Mandatory Fees (per semester)	
9-11 credit hours (per semester)	$977.50
8 or fewer credit hours (per semester)	$455

For more information regarding the Differential Tuition, please go to the billpay.umd.edu Differential Tuition FAQ document located here. (https://billpay.umd.edu/sites/default/files/inline-files/Differential_Tuition_FAQ%20%281%29.pdf)

Academic Achievement Programs

2204 Marie Mount Hall
301-405-4736 (phone)
301-314-9162 (fax)
www.aap.umd.edu (http://www.aap.umd.edu)

Executive Director: Dr. Jerry L. Lewis

The Academic Achievement Programs (AAP) primarily serves traditionally under-represented and low-income and first-generation college students. Academic support, skill enhancement, academic advising and counseling, and tutoring are provided for these populations and for students with disabilities. Academic Achievement Programs include the Intensive Educational Development (IED), Educational Opportunity Center (EOC), the Ronald E. McNair Post-Baccalaureate Achievement Program (McNair), the Summer Transitional Program, Student Support Services (SSS), Educational Talent Search-Central (ETS-Central) and Educational Talent Search-North (ETS-North). EOC, McNair, SSS and both ETS Central and North are part of the Federal TRIO programs and are funded by the U.S. Department of Education to promote access, provide support services, and motivate traditionally underrepresented students for retention in and graduation from undergraduate programs and prepare for doctoral programs.

Programs

Educational Opportunity Center (EOC)

Dr. Marcal Graham, Associate Director
301-429-5933

UM-EOC is supported by a U.S. Department of Education grant designed to assist persons 19 and older, low-income, and first-generation in pursuing post-secondary educational opportunities. UM-EOC serves primarily Inner-Beltway communities in Prince George's County and provides assistance in the application process for admission to and financial aid for post-secondary education. Specific guidance is given in selecting colleges, completing the FAFSA, and promoting post-secondary education for target populations. EOC also works with high school seniors in some Prince George's County High Schools.

Educational Talent Search Programs North and Central

Ms. Bridget Brandon, Associate Director Talent Search North
301-429-5933

Educational Talent Search programs (ETS) are federally funded by the Department of Education to serve a total of 1,000 students from targeted Prince Georges' County schools. ETS is designed to identify academically talented and promising college students who are in the ninth and tenth grades and are highly likely candidates for competitive higher educational institutions admission/enrollment across the United States. The programs provide guidance, academic advising, coaching, tutoring, parent involvement training/support through high school and assistance with the college enrollment and financial aid process.

Intensive Educational Development (IED)

Vacant, Director, IED and Associate Director, AAP
301-405-4739

IED provides an array of intensive academic and tutorial services to first-year and second-year students who participate in the Summer Transitional Program (STP), eligible first- and second-year transfer students, and other eligible students who seek academic support. The IED program begins with the STP; prospective students who are admitted to the University through the IED program are required to attend this six-week transitional program. Successful completion of the STP is required for admission to the University. Admitted students continue to receive program services throughout their undergraduate career at the University.

Ronald E. McNair Post-Baccalaureate Achievement Program

Dr. Rhea Roper Nedd, Associate Director
301-405-4749

The McNair Post-Baccalaureate Achievement Program (McNair Program) is funded and designed principally to prepare low-income, first-generation college juniors and seniors and/or students from traditionally underrepresented groups to matriculate and retain in graduate programs and earn doctoral degrees. The McNair Program is a year round commitment that consists of monthly workshops during the academic year and a six-week summer research experience that affords McNair Scholars the opportunity to work intimately with faculty mentors on specific research projects. McNair Scholars are required to complete a research abstract/paper for publication, and receive financial support towards presenting their research at conferences. The McNair Program offers instructional courses and workshops, as well as expert training and advice on written and oral communication skills, research methodologies, the preparation of compelling personal statements, admission and financial aid applications, and graduate school admission tests. "Whether or not you reach your goals in life depends entirely on how well you prepare for them and how badly you want them" and the McNair Program is committed to providing services to best equip students with a skill set that leads to the successful completion of doctoral degrees (Dr. Ronald E. McNair).

Student Support Services (SSS)

Dr. Melanie Glover, Associate Director
301-405-4739

SSS is a U.S. Department of Education grant supported program geared toward low-income and first-generation college students. It works in conjunction with the IED Program focusing much of its support to first- and second- year students. SSS provides academic and career advising, tutoring, stress management, and study-skill and test-taking support to eligible low-income and first-generation undergraduate students throughout their time at the University. The SSS program also provides financial aid workshops and assistance, individual and group counseling, and leadership development workshops. In limited cases, SSS provides supplemental grant aid to eligible participants in the program.

Summer Transitional Program (STP)

Vacant, Director, IED and Associate Director, AAP
301-405-4739

The Summer Transitional Program (STP) assists students in both their academic and personal adjustment to the University. It includes very intensive skills enhancement in math, English, and college study strategies, coupled with enrollment in a selected three-credit university course with tutoring to facilitate students' academic adjustment. In addition, students enroll in a one-credit orientation course and participate in weekly individual and/or group counseling sessions. The six-week STP is required of all students admitted to the University through SSS/IED.

Computing Services: Division of Information Technology

1221 McKeldin Library
Phone: 301-405-1500
itsupport@umd.edu
it.umd.edu (http://it.umd.edu)

The Division of Information Technology is part of a University of Maryland student's everyday academic and social life. The division plans, develops, supports, and maintains computing, networking, and telecommunications services for the university community to enhance both day-to-day academic and business goals and to further the university's standard of excellence in education and research.

Many faculty members have integrated technology into courses, both inside and outside of the classroom. Some professors use clickers to collect student feedback during class. Through ELMS, the university's Enterprise Learning Management System (www.elms.umd.edu (http://www.elms.umd.edu)), instructors can provide online course materials, collect assignments, post grades electronically, and hold discussion sessions.

The university's wireless network gives students the ability to connect to the Internet from almost anywhere on campus. Every student living in a residence hall also has a dedicated high-speed data jack to use when connecting to the university network from his or her room. Students also have access to unlimited file storage via their TERPmail (https://terpmail.umd.edu) accounts to use for backing up files, synching files on multiple devices, and collaborating with others.

Service Desk staff (itsupport.umd.edu (http://itsupport.umd.edu), 301-405-1500) are available to answer IT questions and provide tech support, and they can be contacted in person, over the telephone, and via live chat. The Service Desk's IT Service Center website enables you to consult an IT Library of how-to articles and a catalog of IT services, check and subscribe to service alerts, and initiate and track help requests online 24/7.

Discounts on computers and cellular devices and service are also available to University of Maryland students. Terrapin Tech (https://it.umd.edu/terrapin-tech/) manages the exclusive educational discounts for UMD community members and offers extended service plans and extra benefits for customers, including on-campus support and loaner laptops to use when a computer needs to be repaired. Some popular software is available at no cost via downloads or subscriptions through TERPware (https://terpware.umd.edu).

Education Abroad

1118 H.J. Patterson Hall
Phone: 301-314-7746
Fax: 301-314-9135
educationabroad@umd.edu
https://globalmaryland.umd.edu/offices/education-abroad (https://globalmaryland.umd.edu/offices/education-abroad/)
Front Desk: 301-314-7473

Director: Leeanne Dunsmore, Ed.D.

All UMD students can enhance their academic and professional experience through Education Abroad (EA) programs. These academically rigorous overseas programs are designed to broaden and enrich learning in fields of study across all majors, deepen understanding of other languages and cultures, and increase UMD graduates' capacity to compete for successful careers in today's global economy and workforce.

Coursework represents a wide range of disciplines so that participants can study abroad for a semester, short-term or academic year and still complete their degrees on schedule. A growing number of EA programs combine the concepts of global citizenship, civic engagement, and entrepreneurship by engaging students in innovative projects designed to address health, economic, and environmental issues in the communities that host them during their overseas studies. Students are then able to bring their skills back to UMD and their future endeavors.

EA collaborates with UMD faculty and staff, as well as international institutions and affiliated organizations, to support more than 400 international programs in over 65 countries and to integrate overseas coursework into campus curricula. Professional advisors guide students in the selection of suitable programs and the arrangement of academic credit, assist with applications for financial aid, conduct pre-departure orientations, and provide on-call support to participants overseas.

Students interested in overseas studies should ideally visit EA one year before actually submitting an application in order to explore program options and learn more about the next steps in arranging academic credit, completing prerequisites, and obtaining financial aid for their intended programs. When students are prepared to begin applying, they should arrange to meet with an advisor by making an appointment through the online system at: http://globalmaryland.umd.edu/offices/education-abroad/make-appointment (http://globalmaryland.umd.edu/offices/education-abroad/make-appointment/).

Types of Study Abroad Programs

Maryland Semester (Maryland-In), Maryland Short-Term & Freshmen Abroad Programs

EA directly sponsors and administers a wide array of semester and short-term opportunities in partnership with UMD academic departments. These options allow students to receive UMD resident credit. These include semester programs in Buenos Aires, Copenhagen, Florence, Perugia, Nice, Seville, Berlin, Barcelona, Rome and Stockholm, as well as more than 70 short-term courses taught by Maryland faculty during the summer, winter term, and spring break in locations ranging from Morocco to Brazil. This also includes Terrapin Take Off pre-freshman summer programs and Destination Abroad fall semester programs in Rome and Sydney for spring admitted freshmen. In addition to high-quality instruction, UMD programs offer cultural activities, internships, and service opportunities to help students maximize their engagement with the host country's culture.

Exchange Programs

Exchange programs allow UMD students to study for a semester or year at leading universities throughout the world while paying little more than their regular UMD tuition, travel, and overseas living expenses. UMD is part of the prestigious U21 consortium of world-class universities, which share excellence, collaborate across borders, and nurture international knowledge exchange. In exchange for each outgoing student, a student from the overseas host university studies at the College Park campus for an equivalent period. While some exchange programs require foreign language proficiency, many are open to students who speak only English. These programs offer UMD students an outstanding opportunity to develop lasting bonds with local students abroad. UMD students earn transfer credit applied to their UMD degree on all exchange programs.

Approved Programs and Affiliate Programs

EA administers a wide range of programs in collaboration with vetted study abroad providers and universities, including the Council on International Educational Exchange (CIEE), the Institute for the International Education of Students (IES Abroad), the Education Abroad Network (TEAN), American Councils (ACTR), SIT Study Abroad, CET Academic Programs and the University Studies Abroad Consortium (USAC).

Non-Approved Programs

UMD students who wish to study abroad through other institutions must petition to do so. The first step in this process is to speak with an EA advisor. Petitioners must demonstrate a compelling academic reason to participate in a non-approved program and that the program in question meets the same standards required of approved programs. EA strongly encourages students to explore its extensive list of affiliated and approved programs before beginning the petition process.

More information and applications are available at the EA website: http://globalmaryland.umd.edu/offices/education-abroad (http://globalmaryland.umd.edu/offices/education-abroad/).

Guided Study Sessions (GSS)

1117 Edward St. John
301-405-9356
https://tltc.umd.edu/guided-study-sessions (https://tltc.umd.edu/guided-study-sessions/)

What are Guided Study Sessions (GSS)?

The GSS program offers regularly scheduled, collaborative study sessions for students enrolled in historically difficult courses. In GSS, students get together with their classmates to compare notes, discuss important concepts, work on practice problems, develop study strategies, and test themselves before the professor does. Sessions are held for 50 minutes twice a week and are informal—students are encouraged to drop in for as many or as few as they would like. For a full schedule of courses and session times, please visit our website.

Who Leads GSS?

Our GSS Leaders are undergraduate students who previously took their assigned course and earned an A. They attend course lectures for the second time alongside the rest of the class, hearing what they hear and reading what they read. To help put everything in perspective, GSS Leaders plan their sessions to guide students through difficult concepts in an active learning environment.

Honor Societies

Students who excel in scholarship and leadership may be invited to join the appropriate honor society. Honor societies at Maryland include:

- Alpha Chi Sigma (Chemistry)
- Alpha Epsilon (Agricultural Engineering)[1]
- Alpha Epsilon Delta (Pre-Med)[1]
- Alpha Epsilon Rho (Broadcast Journalism)
- Alpha Kappa Delta (Sociology)[1]
- Alpha Lambda Delta (Freshman Scholarship)[1]
- Alpha Phi Sigma (Criminal Justice)
- Alpha Zeta (Agriculture)
- Beta Alpha Psi (Accounting)
- Beta Gamma Sigma (Business Management)
- Black Honors Caucus
- Chi Epsilon (Civil Engineering)[1]
- Delta Nu Alpha (Transportation)
- Delta Phi Alpha (German)
- Delta Sigma Pi (Business)
- Eta Beta Rho (Hebrew)
- Eta Kappa Nu (Electrical Engineering)[1]
- Gamma Theta Upsilon (Geography)[1]
- Golden Key Honor Society (Leadership/Scholarship)[1]
- Kappa Delta Pi (Education)[1]
- Kappa Tau Alpha (Journalism)[1]
- Lambda Pi Eta (Speech Communication)[1]
- Mortar Board National Honor Society (Scholarship)[1]
- National Society of Collegiate Scholars[1]
- Omega Chi Epsilon (Chemistry Engineering)[1]
- Omega Rho (Business)[1]
- Omicron Delta Epsilon (Economics)[1]
- Omicron Delta Kappa (Scholarship/Leadership)[1]
- Order of Omega (Fraternity/Sorority Leadership)[1]
- Phi Alpha Epsilon (Health/Human Resources)
- Phi Alpha Theta (History)[1]
- Phi Beta Kappa (Scholarship)
- Phi Chi Theta (Business and Economics)
- Phi Eta Sigma (Freshman Scholarship)[1]
- Phi Kappa Phi (Senior/Graduate Scholarship)[1]
- Phi Sigma (Biology)[1]
- Phi Sigma Pi (Scholarship/Leadership)[1]
- Phi Sigma Iota (French/Italian)[1]
- Pi Sigma Alpha (Political Science)[1]
- Phi Sigma Theta[1]
- Pi Tau Sigma (Mechanical Engineering)
- Primannum Honor Society[1]
- Psi Chi (Psychology)[1]
- Sigma Alpha Omicron (Microbiology)
- Sigma Delta Chi (Journalism)
- Sigma Delta Pi (Spanish)[1]
- Sigma Tau Delta (English)[1]
- Tau Beta Pi (Engineering)[1]
- Tau Beta Sigma

Intercollegiate Athletics

XFINITY Center
301-314-7075
301-314-7149
www.umterps.com (http://www.umterps.com)

Director of Athletics: Damon Evans

The Department of Intercollegiate Athletics is responsible for directing intercollegiate athletic programs for both women and men, and for managing the campus' athletic facilities.

Women's intercollegiate athletic teams include cross country, field hockey, soccer and volleyball in the fall; basketball, indoor track/field and gymnastics during the winter; and lacrosse, softball and outdoor track/field in the spring. Tennis and golf competition is scheduled in both the fall and spring seasons.

There are men's teams in football and soccer in the fall; basketball and wrestling during the winter; and baseball, lacrosse and outdoor track/field in the spring. Golf competition is scheduled in both the fall and spring seasons.

Men's and women's intercollegiate athletic teams compete in the National Collegiate Athletic Association (NCAA) at the Division I level and in the Big Ten Conference.

Eligibility Requirements

Student-athletes must meet all NCAA, Big Ten and University of Maryland requirements for eligibility. The chart below serves only as a guideline to eligibility rules and does not provide complete detail. All NCAA requirements are available via www.NCAA.org (http://www.NCAA.org).

NCAA Continuing Eligibility and Progress Towards Degree Guidelines

Year of Initial Collegiate Enrollment	Semester of Full-Time Enrollment	NCAA Requirements
Fall 2003 - present	Entering 1st semester (1st year)	Must be certified by the NCAA Eligibility Center
Fall 2003 - present	Entering 2nd semester	6 degree applicable credits earned previous semester
Fall 2003 - present	Entering 3rd semester (2nd year)	18 hours earned during previous regular academic year and 24 for the year earned at UMD, 6 degree applicable credits earned in previous semester, 1.8 NCAA GPA[1]
Fall 2003 - present	Entering 4th semester	6 degree applicable credits previous semester, 1.80 NCAA GPA[1]
Fall 2003 - present	Entering 5th semester (3rd year)	declaration of degree program, 40% of degree requirement completed, 18 degree credits during previous regular academic year, 6 degree applicable credits earned previous semester, 1.90 NCAA GPA[1]
Fall 2003 - present	Entering 6th semester	6 degree applicable credits earned previous semester, 1.90 NCAA GPA[1]
Fall 2003 - present	Entering 7th semester (4th year)	60% of degree requirement completed, 18 degree credits during previous regular academic year, 6 degree applicable credits earned previous semester, 2.00 NCAA GPA[1]
Fall 2003 - present	Entering 8th semester	6 degree applicable credits earned in previous semester, 2.00 NCAA GPA[1]
Fall 2003 - present	Entering 9th semester (5th year)	80% of degree requirement completed, 18 degree credits earned in previous regular academic year, 6 degree applicable credits earned previous semester, 2.00 NCAA GPA[1]

[1] Based on 120 credit degree program

1. Student-athletes are allowed 4 seasons of competition within 5 calendar years from the time they first enroll full-time in a collegiate institution. Some exceptions may apply.
2. Student-athletes must be enrolled full-time to be eligible to practice or compete with their team. If a student-athlete drops below full-time, he/she will immediately be ineligible to practice or compete, and his/her athletics grant-in-aid will be revoked unless otherwise approved by the Department of Athletics. Graduating student-athletes who need less than full-time hours to complete degree requirements may receive an exception to enroll in less than full-time credit hours by completing a prescribed form available in the Gossett Student-Athlete Center (GSAC) and approved by the college and certification officer.
3. Student-athletes are required to meet multiple sets of academic standards in order to maintain eligibility for athletic competition. These standards are dictated by the NCAA, Big Ten Conference, and the University of Maryland Athletics Council. In addition, student-athletes may be required to maintain standards dictated by the college of their major for either admission into a degree program, or maintaining enrollment.
4. Transfer student-athletes must meet all NCAA, Big Ten and UMD requirements in order to be immediately eligible. Please note that in certain cases NCAA and BIG Ten eligibility requirements are more stringent than UMD admissions requirements.
5. Ineligible student-athletes are not permitted to compete or travel.
6. Dismissed and later reinstated student-athletes are ineligible for competition until they meet designated grade point averages.

The Department of Intercollegiate Athletics (ICA) also sponsors a number of awards for achievement in athletics and/or scholarship. For further information, contact GSAC at 301-314-7043.

International Student and Scholar Services

1126 H.J. Patterson Hall
301-314-7740
301-314-3280
http://isss.umd.edu

Director: Susan Dougherty

International students and faculty receive a wide variety of services designed to help them benefit from their experience in the United States. International Student and Scholar Services (ISSS) works closely with the Office of Undergraduate Admissions on the admission of international students. ISSS services include: university sponsorship of international students, orientation programs, immigration and employment seminars

and coffee hours. ISSS advisors counsel international undergraduate students concerning immigration, personal and campus life issues.

F-1 and J-1 status students

The ISSS is the only office on campus authorized to sign immigration documents and advise on the following topics: extension of stay, transfers, off-campus employment authorization, practical training, and course loads.

Students with F-1 or J-1 status are responsible for following the regulations of the U.S. Citizenship and Immigration Service (USCIS) and the Department of State (DOS) pertaining to their visa status.

Maintaining Status

- **Full-time registration**: In order to maintain full-time student status for immigration purposes, F-1 and J-1 undergraduate students are expected to register for and complete a minimum credit load of 12 hours per semester. Pre-approval from ISSS is required if you are going to complete the semester with fewer than 12 credits.
- **Documents:** International students must have a valid passport at all times unless exempt from passport requirements. If your I-20 or DS-2109 will soon expire you should apply for an extension at least 30 days prior to the program completion date on the document. To travel outside the U.S. and re-enter as an F-1 or J-1, an advisor in ISSS must sign your I-20 or DS-2109 before you leave.
- **Health Insurance:** All undergraduate students, regardless of visa status, are required by the University Health Center to carry adequate health insurance. In addition, J-1 students must present copies of their health insurance to ISSS in order to comply with Department of State requirements.

We hope you will find the resources you need in this catalog or by visiting our office. Please contact us if we can be of any further assistance to you.

Thanks for being a part of our global UMD community!

Letters and Sciences

1117 Hornbake Library
301-314-8418 (phone)
301-314-9394 (fax)
askltsc@umd.edu
www.ltsc.umd.edu (http://www.ltsc.umd.edu/)

Assistant Dean/Director: Eric Van Johnson
Associate Director: Ashleigh Brown

Letters and Sciences is the academic home for students exploring a variety of fields before selecting a major, for Freshmen Connection students, for post-baccalaureate students taking additional course work, and for non-degree seeking students taking undergraduate courses. Letters and Sciences may also serve as the academic home for students completing requirements for entry into a Limited Enrollment Program. Letters and Sciences advisors help students to select and schedule courses, engage in academic programs, and learn about campus-wide resources. Letters and Sciences collaborates closely with college advising offices, academic departments, and programs across campus and provides a coordinated advising network that features:

Choosing a Major

Letters and Sciences students receive information about and referral to a wide range of academic programs and services including workshops and information fairs. Letters and Sciences staff specialize in assisting students with major exploration and how to develop strategies and plans for entering Limited Enrollment Programs.

Business Exploration Series

The Letters and Sciences *Business Exploration Series* (BES) is a multidimensional advising resource that provides LTSC students with an opportunity to explore the world of business through: exploratory seminars; business-focused introduction to the university courses; valuable leadership opportunities; and access to guidance and support from knowledgeable advisors.

Stem Exploration Series

The Letters and Sciences *STEM Exploration Series* (SES) is a multidimensional advising resource that provides LTSC students with an opportunity to explore the world of science, technology, engineering, and mathematics through: exploratory seminars; STEM-focused introduction to the university courses; valuable research and leadership opportunities; and access to guidance and support from knowledgeable advisors.

Interim Advising Program

Newly admitted transfer students with more than 60 credits, who were unsuccessful in gaining direct admission to a Limited Enrollment Program, receive advising and assistance from a Letters and Sciences professional staff member during their first two semesters on campus. For this group of students, the university waives the requirement that all students must declare a major by 60 credits.

Transitional Advising Program

Currently enrolled students with more than 60 credits, who are moving between colleges due to change of interest, inability to meet benchmarks, or lack of sufficient GPA, receive advising and academic support. For this group of students, the university waives the requirement that all students must be in a declared major after 60 credits, for one semester.

Credit-by-Exam

Any University of Maryland student interested in credit-by-exam can pick up the form at the Letters and Sciences office.

Pre-Law Advising

Letters and Sciences offers specialized advising for students interested in law. For further information, see the section on Pre-Law Advising in this catalog, visit www.prelaw.umd.edu (http://www.prelaw.umd.edu), or email prelaw@umd.edu.

0110 Hornbake Library, 301-405-2793
www.prelaw.umd.edu (http://www.prelaw.umd.edu)
prelawadvisor@umd.edu

Associate Director: Gregory J. Shaffer, Esq.

The Pre-Law Advising Office within Letters and Sciences serves all current and former students at the University of Maryland interested in pursuing law school and careers in law. The program provides students with law school planning, including individual and group advising, career preparation workshops, admission information, and much more. While

law schools do not require, favor, or prefer specific majors, the pre-law advisor can provide guidance concerning the choice of major. Pre-law does not serve as an undergraduate major, nor does the program require completion of a specific academic curriculum.

Four-Year Baccalaureate Program

Most law schools require applicants to have received a bachelor's degree prior to law school enrollment. A wide variety of majors give students an excellent foundation for law school. The student should select a major and plan an undergraduate experience in which they will be successful and helps them acquire skills that are essential in preparing to perform well on the LSAT, in law school, and ultimately as a lawyer. These skills include imaginative and coherent thinking, critical reasoning, accurate and perceptive reading, and a strong command of the spoken and written language, including grammar.

In some cases, law schools will consider truly outstanding applicants with only three years of academic work, as described below. Law schools do not require the completion of prerequisite courses for admission, but they do require that the student follow one of the standard academic majors offered at the student's undergraduate institution. The LSAT is offered nine times per calendar year and is accepted by all law schools. In specific situations, other standardized tests may be accepted in lieu of the LSAT. More information on the LSAT and related admissions material may be found at www.lsac.org (https://www.lsac.org/) or on various law schools' websites.

Three-Year Arts/Law Degree

The University of Maryland has cooperative agreements with the University of Baltimore School of Law and University of Maryland Francis King Carey School of Law. These agreements provide students at College Park, who are enrolled in any recognized major and meet certain qualifications, with the opportunity to apply to law school one year early. If accepted, the Three-Year Arts/Law Degree program allows students to begin their law school studies prior to their receipt of their baccalaureate degree. Instead, the University of Maryland, College Park awards these students their baccalaureate degree in Arts/Law upon satisfactory completion of the first year of law school. Participation in this program at the University of Maryland, College Park and application to the University of Baltimore Law School or University of Maryland Francis King Carey School of Law under this program does not guarantee admission.

This program is only available with the University of Baltimore Law School and University of Maryland Francis King Carey School of Law and may not be an appropriate choice for all students. Students who consider this program should contact the pre-law advisor for more information or view the website, at www.prelaw.umd.edu (http://www.prelaw.umd.edu).

Maryland Center for Undergraduate Research (MCUR)

1201 (first floor) Marie Mount Hall
301-314-6786
ugresearch@umd.edu
www.ugresearch.umd.edu (http://www.ugresearch.umd.edu)

Director: Francis DuVinage

The Maryland Center for Undergraduate Research (MCUR) is an initiative of the Office of the Dean of Undergraduate Studies. Created as a resource for students and faculty, the center serves as a clearinghouse for information about both on-campus and off-campus research opportunities for undergraduates.

Major programs of the MCUR include Maryland Student Researchers, which permits faculty to list research opportunities open to undergraduates during the academic year, and Maryland Summer Scholars, which provides funding for students to conduct summer research (on campus or elsewhere in the US or abroad as needed) under the mentorship of Maryland faculty members. Students new to research as well as students with previous research experience participate in these programs. MCUR also sponsors Undergraduate Research Day, the university's largest and broadest undergraduate research event, every spring.

Maryland English Institute (MEI)

1117 Cole Student Activities Building
301-405-8634
301-314-9462
mei@umd.edu
www.mei.umd.edu (http://www.mei.umd.edu)

Director: Dr. Elizabeth Driver

The mission of Maryland English Institute (MEI) is to provide English language instruction and assessment at the postsecondary level for speakers of other languages who wish to learn English for academic, professional, or personal reasons. MEI fulfills its mission by providing:

- a full-time, multi-level Intensive English Program
- part-time courses for matriculated University of Maryland students
- courses for international teaching assistants
- assessment of oral communication skills of international teaching assistants
- custom-designed programs for UMD constituents and external organizations

MEI offers rigorous courses of study while providing a positive and supportive learning community and promoting cross-cultural understanding.

Two regular instructional programs are offered for admitted and prospective undergraduate and graduate students who are non-native speakers of English: a bridge program for admitted students and a full-time intensive program for admitted students or independent applicants who do not have UMD admission.

Bridge Program: Advanced English as a Foreign Language (UMEI005): This course is open only to students who are admitted to the University of Maryland. Students who are admitted as bridge program students must satisfactorily complete UMEI005 in their first semester in order to become fully admitted. UMEI005 course sections usually meet four days per week, two hours per day. The program is designed to strengthen the language skills necessary for academic work at the University of Maryland. Undergraduates may enroll in two additional courses totaling eight credits at maximum while they are enrolled in UMEI005. The course is weighted at six credits, but these credits are not applicable to the university degree for UMEI005.

Intensive English Program (UMEI001-UMEI004): This full-time English language program is open to non-native speakers who wish to improve their English for academic, professional or personal reasons.

Students may be admitted to the Intensive English Program in two ways:

1. as a result of the University of Maryland's admissions process for degree programs, or
2. through independent application directly to MEI.

There are three intensive English sessions per year: one for fall semester, one for spring, and a seven-week session in the summer. Each consists of approximately 23 hours of instruction weekly. The fall and spring programs offer five levels of instruction, beginning through advanced. The summer program offers varied levels of instruction with the opportunity to choose from a variety of electives for part of the program.

For independent applicants to MEI, satisfactory completion of the intensive program does not guarantee acceptance into UMD degree programs. Students who already have UMD admission when they enroll at MEI will matriculate into degree programs when they successfully complete the required courses.

Tuition remission cannot be applied to MEI courses.

National Scholarship Office

2403 Marie Mount Hall
301-314-1289
scholarships@umd.edu
www.scholarships.umd.edu (http://www.scholarships.umd.edu/)

Director: Francis DuVinage, Ph.D.

The National Scholarships Office at the University of Maryland, College Park aims to provide undergraduates with the best possible information, guidance and support as they learn about and apply for national scholarships.

National scholarships are competitive, prestigious awards that provide opportunities and support for a wide range of enriching experiences, including study abroad, graduate study (and sometimes undergraduate study also), federal employment, teaching, research, and public service. National scholarships are looking for students (with or without financial need) who are developing strong interests and goals - academic and extracurricular - and who want to take advantage of every constructive opportunity that will help them reach their objectives. Just as each national scholarship offers a different kind of opportunity, each is also looking for a different range of strengths and interests in its applicants. If you develop a strong academic record, are thoughtful about your choices and devote yourself to activities you care about, you may well find one or more scholarship opportunities of interest to you.

The National Scholarships Office strives to make learning about and applying for national scholarships an enlightening experience. In addition to providing information about national scholarships through our website, through group presentations and through individual advising, we also provide individualized guidance and support at every stage of the application process. We invite you to visit our website and to make an appointment with us to learn more about national scholarships that may help you attain your goals.

Oak Ridge Associated Universities

www.orau.org (https://www.orau.org/)

Vice President for Research: Laurie E. Locascio
ORAU Councilor, University of Maryland

Since 1951, students and faculty of University of Maryland have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the US Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science and engineering related disciplines, and details on locations and benefits can be found in the *ORISE Catalog of Education and Training Programs*, which is available at https://orise.orau.gov/about (https://orise.orau.gov/about/), or by calling the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Laurie E. Locascio
Vice President for Research
ORAU Councilor for University of Maryland

Rachel F. Lokitz
ORAU Corporate Secretary
865-241-8872

Visit the ORAU home page at www.orau.org (http://www.orau.org/).

Office of Extended Studies

SUMMER SESSION, WINTER SESSION, UNDERGRADUATE PROGRAMS, AND PROFESSIONAL STUDIES

0132 Main Administration Building
Phone: 301-405-7762
Fax: 301-314-9572
Email: oes@umd.edu
Website: oes.umd.edu (https://oes.umd.edu)

The Office of Extended Studies provides administrative support for Summer Session, Winter Session, Undergraduate Programs, and Professional Studies. These programs offer University of Maryland courses that are taught by UMD faculty.

Summer Session serves current and incoming UMD students, visiting students from other two- and four-year institutions, professionals, and lifelong learners. Summer Session offers flexibility to make progress towards graduation with courses that meet on campus or online during six convenient sessions. Includes **Terp Young Scholars**, a three-week pre-college program for academically talented high schoolers who earn university credits while exploring university life at UMD.

Winter Session serves current and incoming UMD students, visiting students from other two- and four-year institutions, professionals, and lifelong learners. Held in January, the three-week session offers convenience to keep learning with courses that meet on campus or anywhere online.

Undergraduate Programs includes Freshmen Connection and Undergraduate Programs at the Universities at Shady Grove (USG). **Freshmen Connection** serves spring-admitted freshmen who start UMD in the fall semester and get on track to graduate in four years by earning up to 17 credits toward their undergraduate degree. **Undergraduate Programs at USG** offers a variety of academic programs where students earn a UMD undergraduate degree (final two years) in a world class facilities and conducive learning environment.

Professional Studies includes Graduate, Post-Baccalaureate, Continuing Education, and Executive Education Programs. **Graduate Programs** offer master's degrees and graduate certificates that are crafted with expertise, innovation, and convenience to professionals who want to advance their knowledge and career goals. **Post-Baccalaureate Programs** prepare students for professional schools, graduate programs, and professional achievement. **Continuing Education Programs** offer non-credit learning opportunities through UMD's Open Learning Catalog and UMD MOOCs (Massive Open Online Courses). **Executive Education Programs** serve managers, business leaders, and executives with customized training programs.

Office of Multi-Ethnic Student Education (OMSE)

1101 Hornbake Library
301-405-5616
www.omse.umd.edu (https://omse.umd.edu/)

Director: Christopher Lester

The mission of OMSE is to serve undergraduate multi-ethnic students to increase rates of matriculation, retention, graduation and overall GPA. OMSE's academic support activities include a robust, nationally certified, peer-tutorial program with one-on-one sessions, as well as group review sessions, affinity group retention programs and annual events. Our retention and leadership development programs include La Familia for first year Latinx students; Sister to Sister for first year multiethnic female students; College Success Scholars (CSS) program for Black and Latinx males and the OMSE Academic Excellence Honor Society (OAES). The University Partners Program (UPP) provides participants an opportunity to acquire professional development, leadership and diversity skills by attending tailored workshops offered by the National Scholarship Office, Career Center and President's Promise, Education Abroad Office and Research and Libraries. Participants receive incentives and a certificate upon successful completion of the UPP workshop series. Students have many professional opportunities in the office, including work study positions, team leader opportunities and graduate assistantships. As an academic unit, OMSE strives to identify and meet changing needs that affect the success of undergraduate multi-ethnic students. OMSE collaborates with other campus offices and college programs to achieve this goal, as well as to promote a positive community of learners who are sensitive to issues of diversity and social justice. The OMSE office suite contains a tutorial lab and an open workstation lab with disabilities services software. Our space provides all students with an opportunity to learn, grow and connect within a relaxed empowering atmosphere.

Office of the Registrar

First Floor, Clarence M. Mitchell Jr. Building
301-314-8240
www.registrar.umd.edu (http://www.registrar.umd.edu)

University Registrar: Adrian Cornelius

The Office of the Registrar is committed to providing the highest level of customer satisfaction in all aspects of its operation, which includes:

- Coordinating course, final exams, and classroom scheduling
- Overseeing transfer credit, residency reclassifications, and student registration
- Managing grades and degree audits
- Maintaining students' permanent academic records
- Data custody, management, analytics, and reporting
- Producing and managing university ID cards
- Administering academic regulations and records policy (including federal FERPA law) compliances
- Enabling and executing functional oversight of adequate student records systems
- Preparing functional documentation and conducting records management training
- Managing veterans and athlete certifications
- Producing official transcripts, enrollment certifications, diplomas, and graduation verifications
- Servicing inquiries from a wide range of university and external stakeholders and customers

Detailed information on the Office of the Registrar's services is published throughout this catalog.

Orientation

1102 Cole Student Activities Building
Phone: 301-314-8217
Fax: 301-314-1063
askorientation@umd.edu
www.orientation.umd.edu (http://www.orientation.umd.edu)
Other Phone: 301-314-8212

Director: Gerry Strumpf, Ph.D.

The goal of New Student Orientation is to introduce new students to the University of Maryland community. The Orientation Office offers a wide range of transitional programming and services for students and their families as they prepare to attend the University of Maryland.

Introduction to the University (UNIV) Seminars

The Orientation Office coordinates new student seminar courses, UNIV100 and UNIV101. These courses introduce students to the world of higher education and, more specifically, to the University of Maryland. Course topics include career/major exploration, successful studying/test-taking strategies, diversity, time management, and involvement within the University of Maryland. UNIV seminar courses are led by a faculty or staff member and often an undergraduate TA.

New Student Orientation

Held prior to the semester a student enrolls at the University of Maryland, New Student Orientation for first-time freshmen traditionally covers two days; New Student Orientation for new transfer students covers one day. During New Student Orientation, individuals meet with representatives from their academic college for advising and course scheduling. Undergraduate Orientation Advisors (OA) introduce students to academic and student life at the University of Maryland, including student campus services and resources, and opportunities for involvement on campus.

Parent and Family Orientation

Parents and family members of new University of Maryland students are strongly encouraged to attend a one-day Parent and Family Orientation program specifically designed to introduce them to the academic, social, and cultural opportunities of the university, to better prepare them for the issues that are likely to affect their students throughout their matriculation at the University of Maryland, and provide them with numerous resources and information to help their student succeed inside and outside the classroom.

Terp Trips

Terp Trips focus on the continuing transition of parents and family members. Offered to parents and family members on the second day of summer first year freshmen New Student Orientation programs *only*, these one-day programs combine a trip to an area attraction with a small group of other parents/family members and a campus faculty or staff host.

Pre-College Programs

4111 John S. Toll Physics Building
Phone: 301-405-6776
Fax: 301-314-9155
precollege@umd.edu
www.precollege.umd.edu (http://www.precollege.umd.edu)
Upward Bound Programs: 301-405-6776

Executive Director: Georgette Hardy

The University of Maryland Pre-College Programs in Undergraduate Studies is comprised of two federally and state supported TRIO-Upward Bound programs, as well as, the Lift Academy.

- Two Upward Bound Programs (UB)
- Lift Academy

These programs generate the skills and motivation necessary for success in post-secondary education. They immerse high school participants in rigorous academic instruction, tutoring, counseling, and innovative educational experiences throughout the school year and during a summer residential program. Pre-College Programs are part of the Federal TRIO Programs that provide educational opportunity outreach programs designed to motivate and support students from disadvantaged backgrounds.

The UB Programs are open to low-income and/or first-generation college bound high school students in grades 9 through 12, who demonstrate an academic need and want to pursue a four-year post-secondary education. Eligible students must attend target high schools in Prince George's and Montgomery Counties. High school principals, teachers, and counselors recommend students to the program.

Eligibility for the Upward Bound Programs require that students attend Northwood High School in Montgomery County; Bladensburg, Central, High Point, Parkdale, or Northwestern High Schools in Prince George's County.

For students not eligible for Upward Bound's programs, the Lift Academy's summer and academic year programs serve as a supplement to all student's high school experiences by providing opportunities for students to become college ready by building their academic and social skills.

Pre-Health Professions Advising and Programs

1210 H.J. Patterson Hall
301-405-7805
http://www.prehealth.umd.edu/

Director: Wendy Loughlin
Assistant Director: Nick Celedon
Advisor: Courtney Butler
Advisor: Kayla Cullum

The Reed-Yorke Health Professions Advising Office (HPAO), part of the College of Computer, Mathematical, and Natural Sciences, serves University of Maryland students and alumni interested in pursuing careers in medicine, dentistry, optometry, podiatry, and the allied health fields.

Advisors and staff in the HPAO provide students with pre-professional planning, including individual and group advising, career preparation workshops, admission information for pre-professional programs, a committee process to support their professional school applications, and much more. Pre-professional program advising provides the academic, and experiential foundations required for entrance into professional schools.

HPAO advising encompasses the fields of medicine, dentistry, optometry, podiatry, and the allied health professions - which include nursing, occupational therapy, pharmacy, physical therapy and physician assistant, as well as others. The pre-health professional tracks at the University of Maryland are not degree-granting programs. They are recommended programs of study for students interested in each profession.

Students planning to pursue professional programs in medicine, dentistry, optometry, osteopathic medicine, podiatry or the other allied health fields after graduation from University of Maryland must declare an academic major by 60 credits. Students who are undecided about which academic major they will declare may enter Letters and Sciences, where they will receive academic advising, but must adhere to the University of Maryland

requirement that students declare a degree-granting major by the time they reach 60 credits. Pre-professional students who plan to earn a bachelor's degree should declare an academic major by 60 credits. Pre-professional students, including those interested in the allied health fields, may receive advising related to admission to professional school requirements through the Health Professions Advising Office, however the HPAO does not serve as a student's assigned academic advising unit.

Students interested in allied health professions can, and in some cases do transfer to such programs before earning a bachelor's degree. Such students may enter Letters and Sciences, where they will receive academic advising. They should then consult with the HPAO for advising on transferring.

Pre-Dental Hygiene

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Dental Hygiene track prepares students for entrance into a professional curriculum for dental hygiene at institutions that offer a Bachelor of Science in Dental Hygiene. Pre-Dental Hygiene is not a pre-dental major and is not a degree-granting program at the University of Maryland, College Park. A baccalaureate degree program for a Bachelor of Science in Dental Hygiene (B.S.-D.H.) follows a 2+2 model. Students may complete two years of prerequisite courses at the University of Maryland, College Park, and then apply for admission into a professional school program which they will complete after an additional two years.

University of Maryland students also have the option of completing a four-year degree at College Park in a selected major, in addition to completing dental hygiene prerequisites, the 4+2 model. In this case, students will complete degree requirements in their chosen major, as well as the pre-dental hygiene prerequisites for entrance into a professional dental hygiene program. They will then apply for admission into a professional school where they will earn a Bachelor of Science in Dental Hygiene upon successful completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Dental Hygienists Association and the American Dental Association maintain information about individual B.S.-D.H. program prerequisites. See www.adea.org (http://www.adea.org).

Pre-Dentistry

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The pre-professional program for pre-dental students provides advising for students preparing to apply to dental school. The recommendations of American dental schools and the requirements for a baccalaureate degree at the University of Maryland form the basis for the advising.

Four-Year Baccalaureate Program

Pre-dental students at the University of Maryland are encouraged to complete a four-year undergraduate degree, with a diversified curriculum, balancing humanities, social sciences and fine arts courses with science and mathematics courses, prior to entering dental school. Courses in which students work with their hands are also advised. Students in the four-year program must plan an undergraduate experience that satisfies the requirements of their selected major, as well as pre-dental admission requirements. Students should seek pre-dental advising early in order to create an appropriate four-year pre-dental plan. The national association www.adea.org (http://www.adea.org) provides current information for applicants.

Students who have completed AP or IB programs and received credit for courses in the sciences that are required for dental school admission are advised to read the AP/IB section of the HPAO website (http://www.prehealth.umd.edu/ab-and-ib-credit (http://www.prehealth.umd.edu/ab-and-ib-credit/)) and review individual school websites for their specific policies toward this credit.

Three-year Arts-Dentistry Degree Program

For highly motivated and academically talented students, the University of Maryland, College Park and University of Maryland School of Dentistry offer the three-year Arts-Dentistry Program. This program gives students the opportunity to apply to the University of Maryland School of Dentistry one year early. This accelerated program requires students to complete their dental school admission requirements in three years, as they apply to dental school at the end of the second year and the beginning of their third year. Competitive students must apply and be accepted by the University of Maryland Dental School. Students accepted in the combined arts-dentistry program, receive the B.S. degree (Arts-Dentistry) after satisfactory completion of the first year at the dental school and upon the recommendation of the Dean of the School of Dentistry and approval of the University of Maryland, College Park. Participation in the combined-degree program at the University of Maryland, College Park does not guarantee admission to the University of Maryland School of Dentistry.

The HPAO strongly urges incoming students interested in this combined-degree program to identify their interest and consult with the Pre-Health advisor very early in their academic career. Please visit the website for specific details and instruction. This is a highly competitive program for top students with broad exposure to the dental field.

Pre-Medicine (Allopathic, Osteopathic, Optometry, Podiatry)

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

Four-Year Baccalaureate Program

It is recommended that students planning to apply to medical school complete a four-year undergraduate degree prior to entrance into medical school. Students should choose an undergraduate degree program that matches their interests, and should plan how to satisfy their degree requirements and the general education requirements along with the courses in the natural and social sciences required for medical school admission. Students should seek pre-medical advising early in order to create an appropriate four-year academic plan. The HPAO website provides specific information on each of the medical programs. The national associations: AAMC, www.aamc.org (http://www.aamc.org) and AACOM, aacom.org provide current information for applicants.

Students who have completed AP or IB programs and received credit for courses in the sciences that are required for medical school admission are advised to read the AP/IB section of the HPAO website (http://www.prehealth.umd.edu/ab-and-ib-credit (http://www.prehealth.umd.edu/ab-and-ib-credit/)) and review individual school websites for their specific policies toward this credit.

Pre-Nursing

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Nursing track prepares students for entrance into a professional curriculum for nursing at institutions that offer Bachelor of Science in Nursing (B.S.N.) programs. Pre-Nursing is not a degree-granting program at the University of Maryland, College Park. A baccalaureate degree program for a Bachelor of Science in Nursing (B.S.N.) follows a 2+2 model also known as a traditional baccalaureate program. Students may complete two years of prerequisite courses at the University of Maryland, College Park, and then apply for admission into a professional school to complete two years of professional course work, which includes classroom, laboratory, and clinical education. Prerequisite courses are not limited to two years and can be completed in three years.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing approximately twenty to twenty-five credits of nursing prerequisites. This is the Second Degree or Accelerated Second Degree model. In this model, students complete degree requirements in their chosen major, as well as the nursing prerequisites for entrance into an accelerated B.S.N. or C.N.L. program. The institution offering the program confers a Bachelor of Science in Nursing or Clinical Nurse Leader (Masters of Science) upon completion of the program. Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Association of Colleges of Nursing maintains specific information about individual nursing program prerequisites.

University of Maryland, College Park/University of Maryland School of Nursing Guaranteed Admission Pathway for highly motivated and academically talented students: first time freshmen admitted to University of Maryland, College Park are eligible to participate in a guaranteed admission pathway with the University of Maryland School of Nursing. Students may be admitted through a competitive admissions process directly into the pathway upon admission to University of Maryland, College Park or may enter the pathway after matriculation. Students must complete pre-requisite coursework maintaining a 3.25 overall and a 3.0 in the required science coursework in order to be eligible for guaranteed admission to University of Maryland School of Nursing where the rest of their training is completed. For more information visit www.prehealth.umd.edu (http://www.prehealth.umd.edu).

Pre-Occupational Therapy

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Occupational Therapy track prepares students for entrance into a professional curriculum for occupational therapy at institutions that offer professional advanced degrees, including master or doctoral degrees. Pre-occupational therapy is not a degree-granting program at the University of Maryland, College Park. Community colleges and technical schools offer associate degrees or certificates to students who wish to become occupational therapy assistants. Some colleges offer bachelor degrees in occupational therapy, while others offer combined bachelor's and master's degree programs.

Students who wish to enter the occupational therapy profession may choose from several educational paths; they should thoroughly research the different options to determine the best path to their career goals. University of Maryland students have the option of completing a four-year degree at College Park, in their selected major, in addition to completing occupational therapy prerequisites. They may then choose to complete a post-bachelor certificate, Master of Science or doctoral degree in occupational therapy offered by professional schools. Some states require a degree in occupational therapy prior to approving licensure to work as an occupational therapist in that state. The certificate cannot substitute for a degree. Students should become familiar with the laws of the state(s) in which they wish to work if they choose to pursue a certificate rather than a master's or doctoral degree. Most occupational therapy programs require some health-care experience in the occupational therapy field.

Prerequisites may change and can vary from school to school; students are strongly encouraged to contact professional programs for the most current requirements. The American Occupational Therapy Association maintains specific information about individual program prerequisites. See www.aota.org (http://www.aota.org).

Pre-Pharmacy

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Pharmacy track prepares students for entrance into a professional curriculum for pharmacy at institutions that offer a Doctor of Pharmacy (Pharm.D.) degree program. Pre-Pharmacy is not a degree-granting program at the University of Maryland, College Park. A Pharm.D. degree program follows a 2+4 model in which students complete two years of prerequisite courses at the University of Maryland, College Park and then apply for admission into a professional pharmacy school to complete four years of professional coursework, which includes classroom, laboratory, and clinical education. Prerequisite courses are not limited to two years and can be completed in three years.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing pharmacy school prerequisites, a 4 + 4 model. In this model, students complete degree requirements in their chosen major, as well as the Pre-Pharmacy prerequisites for entrance into a professional pharmacy program. The institution offering the program confers a Pharm.D. degree upon completion of the program.

Prerequisites may change and can vary from school to school; students are strongly encouraged to contact professional programs for the most current requirements. The American Association of Colleges of Pharmacy maintains information about individual Pharm.D. program prerequisites. See www.aacp.org (http://www.aacp.org).

Pre-Physical Therapy

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Physical Therapy track prepares students for entrance into a professional curriculum for physical therapy at institutions that offer a doctoral degree. Pre-Physical Therapy is not a degree-granting program at the University of Maryland, College Park.

Most physical therapy schools now confer only doctoral degrees, Doctor of Physical Therapy (D.P.T.). Currently, the accepted, entry-level clinical

degree to practice as a physical therapist is the D.P.T. The length of time to complete the D.P.T. coursework is usually three years. University of Maryland students interested in attending a D.P.T. program need to complete a four-year degree in their selected major in addition to completing physical therapy prerequisites. The coursework required to enter a Doctor of Physical Therapy (D.P.T.) degree program varies depending on the professional schools to which the student intends to apply and the expected year of matriculation into the professional phase of physical therapy. Most physical therapy schools also require some health-care experience in the physical therapy field.

Several educational paths exist for students who wish to enter the physical therapy field. Students are encouraged to thoroughly research this profession and determine which educational path best leads to their particular career goals.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Physical Therapy Association as well as the Physical Therapy Centralized Application Service maintains information about individual program prerequisites. See www.apta.org (http://www.apta.org) and/or www.ptcas.org (http://www.ptcas.org).

Pre-Physician Assistant

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The Pre-Physician Assistant (P.A.) program prepares students for entrance into a professional curriculum for physician assistant at institutions that offer a Master's degree in this field. Pre-Physician Assistant is not a degree-granting program at the University of Maryland, College Park. At the University of Maryland, students may complete the necessary prerequisite courses required by the professional physician assistant programs to which they will be applying. Pre-Physician Assistant typically follows a 4+2 model (though some professional programs may exceed 2 years). Students complete a four-year degree at College Park in their selected major, in addition to completing physician assistant prerequisites in areas including but not limited to science, psychology, and statistics. Most physician assistant schools also require health-care experience, many preferring applicants to have worked directly with patients. The institution offering the program confers a master's degree upon completion of the physician assistant program.

Due to differing prerequisite requirements amongst P.A. programs, students are encouraged to thoroughly research this profession and determine which educational path best leads to their particular career goals. Students should check the particular prerequisites of the P.A. educational programs that interest them.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Academy of Physician Assistants as well as Physician Assistant Education Association maintains information about individual program prerequisites. See www.aapa.org (http://www.aapa.org) and/or www.paeaonline.org (http://www.paeaonline.org).

Other Health Programs

1210 HJ Patterson Hall, 301-405-7805
preprof@umd.edu
prehealth.umd.edu (http://prehealth.umd.edu)

The pre-biomedical science research and medical technology program prepares students for entrance into the professional curriculum for medical technologists and biotechnologists. Pre-Medical Technology is not a degree-granting program at the University of Maryland, College Park.

A degree program for a Bachelor of Science in Medical Technology (B.S.-M.T.) generally follows a 2+2 model. Students may complete two years of prerequisite courses at the University of Maryland, College Park and then apply for admission into a professional school to complete two years of professional coursework, which includes classroom, laboratory, and clinical education.

University of Maryland students also have the option of completing a four-year degree at College Park in their selected major, in addition to completing medical technology prerequisites, the 4 + 2 model. In this model, students complete degree requirements in their chosen major, as well as the pre-medical technology prerequisites for entrance into a professional medical technology program. The institution offering the program confers a Bachelor of Science in Medical Technology degree on completion of the program.

Prerequisites may change; students are strongly encouraged to contact professional programs for the most current requirements. The American Society of Clinical Pathologists and the National Accrediting Agency for Clinical Laboratory Sciences maintain information about individual B.S.-M.T. program prerequisites.

Pre-Law Advising Program

0110 Hornbake Library
301-405-2793
prelawadvisor@umd.edu
prelaw.umd.edu (http://www.prelaw.umd.edu/)

Associate Director: Gregory J. Shaffer, Esq.

The Pre-Law Advising Office within Letters and Sciences serves all current and former students at the University of Maryland interested in pursuing law school and careers in law. The program provides students with law school planning, including individual and group advising, career preparation workshops, admission information, and much more. While law schools do not require, favor, or prefer specific majors, the pre-law advisor can provide guidance concerning the choice of major. Pre-law does not serve as an undergraduate major, nor does the program require completion of a specific academic curriculum.

For more information, see this section of the catalog (p. 39).

Pre-Transfer Advising

0110 Hornbake
301-405-2793
pretransferadvising@umd.edu
www.pretransferadvising.umd.edu (http://www.pretransferadvising.umd.edu/)

Assistant Dean: Lisa Kiely
Assistant Directors: Megan Cleaver, Leah Howell

The Pre-Transfer Advising Program promotes academic success and excellence by assessing the readiness of students who wish to transfer to UMD. Pre-Transfer Advising assists students in estimating time to

degree completion and advises on which courses to take prior to transfer. Advisors also serve as a resource for community college staff.

Student Success Office

0110C Hornbake
rr-admit@umd.edu
www.studentsuccess.umd.edu (http://www.studentsuccess.umd.edu)

Assistant Dean: Lisa Kiely
Coordinator: Paulanne Walker

The Student Success Office is a clearinghouse for services and resources to assist students in the completion of their undergraduate degrees. This includes:

- Coordinating re-enrollment
- Centralizing tutoring resources
- Managing data from exiting students
- Providing leadership on other retention initiatives

For more information, please see www.studentsuccess.umd.edu **(**http://www.studentsuccess.umd.edu**).**

Tutoring

The University of Maryland offers tutoring resources for all students. The following programs offer tutoring for many first- and second-year courses and courses in writing, communication, math, and General Education Fundamental Studies classes. Additional tutoring resources can be found at www.tutoring.umd.edu (http://www.tutoring.umd.edu).

- The Academic Success and Tutorial Services (https://umdtutoring.mywconline.com) initiative of the Academic Achievement Program (2204 Marie Mount Hall) is a resource for all students, with a specific focus on serving students in “high-risk” courses—those with historically high DWF rates.
- The Department of Mathematics (https://www-math.umd.edu/) and Department of Resident Life (http://reslife.umd.edu/) both offer math tutoring in a variety of undergraduate courses.
  - Math Success Program (Oakland Hall) (https://www-math.umd.edu/undergraduate/resources/88-math/undergraduate/257-matlab-tutoring-schedule.html)
  - Department of Mathematics tutoring schedule (0301 Math) (http://www-math.umd.edu/math-tutoring-schedule.html)
  - Department of Mathematics problem solving schedule (1104 Math) (https://www-math.umd.edu/problem-solving-help-sessions.html)
  - MATLAB tutoring schedule (0504 Parking Garage II) (https://www-math.umd.edu/undergraduate/resources/88-math/undergraduate/257-matlab-tutoring-schedule.html)
  - MathNet Test Bank (https://www-math.umd.edu/testbank.html)
- The Grammar Hotline (http://www.english.umd.edu/academics/writingcenter/resources/hotline/) can answer questions on word choice, punctuation, sentence structure, or proper citation.
- The Office of Multi-ethnic Student Education - OMSE (http://omse.umd.edu/tutoring.html) (1101 Hornbake Library) offers a variety of services and programs to enhance the learning experiences and promote the academic success of undergraduate students.
- The Oral Communication Center (http://umdocc.wix.com/blog/)helps students with speaking assignments and hosts workshops on topics such as listening, speaking anxiety, and presentation delivery. The center is staffed by trained undergraduate peer consultants.
- The Writing Center (http://www.english.umd.edu/academics/writingcenter/undergraduate/) (1205 Tawes Hall) is located in the Department of English and provides opportunities for undergraduate students to improve writing and thinking skills in their academic work, and also in preparation for their respective careers. In a comfortable and supportive atmosphere, trained consultants with a variety of majors assist writers individually at all stages of the composing process.

Adele H. Stamp Student Union - Center for Campus Life

Adele H. Stamp Student Union
301-314-DESK
www.thestamp.umd.edu (http://www.thestamp.umd.edu)

The Adele H. Stamp Student Union - Center for Campus Life is the heart of UMD. More than 17,000 students, faculty, staff members, and campus guests visit STAMP daily to take advantage of its services, programs, and facilities. Our mission is to create and sustain a student-centered environment that promotes academic success and personal development; serves as a safe and inviting campus center; and is characterized by a strong commitment to multiculturalism, excellence, and a positive work environment.

STAMP offers lounge and study areas, a variety of information services, recreation and leisure activities, leadership development programs, multicultural involvement and community advocacy programs, arts and entertainment, food and retail outlets (including the official University Book Center), and reservable space for numerous educational events,

conferences, and more. The building's total square footage is more than 300,000 square feet.

Adele H. Stamp Student Union - Center for Campus Life Hours

STAMP is open Monday through Thursday, 7 a.m. to midnight; Friday, 7 a.m. to 1:30 a.m.; Saturday, 8 a.m. to 1:30 a.m., and Sunday, 11 a.m. to midnight during the academic year with modified hours during the summer and university breaks. For more information, see http://thestamp.umd.edu/.

Alumni Association

Samuel Riggs IV Alumni Center
301-405-4678
alumni@umd.edu
www.alumni.umd.edu (http://www.alumni.umd.edu)
800-336-8627

The University of Maryland Alumni Association is the heart of the university, inspiring lifelong connections with a global network of more than 377,000 alumni. Through dynamic programming, membership benefits and more than 50 regional, affinity and academic networks, the Alumni Association serves as a portal through which Terps can connect and engage with the university and each other.

The Alumni Association provides hundreds of programs and initiatives, from events across the nation to virtual professional development and mentorship. The Alumni Association also hosts Terrapins Connect in conjunction with the Career Center to provide an exclusive online mentorship and networking platform for alumni, students and faculty/staff.

Thousands of alumni attend Alumni Association programs each year, including game watches, networking, industry-focused and members-only events. Alumni Association members support and elevate the university and its current and future students, in addition to receiving exclusive benefits.

Department of Fraternity and Sorority Life

0221 Stamp Student Union
301-314-7172
301-314-9393
www.greek.umd.edu (http://www.greek.umd.edu)

Director: Matt Supple

Office Hours: Monday - Friday. 8:30 a.m. - 5:00 p.m.

The Department of Fraternity and Sorority Life oversees all recognized social and cultural/multicultural interest fraternities and sororities. Staff within the department provide advising and support for the 55+ organizations, student leaders, and four student governing councils: the Interfraternity Council (IFC), the Multicultural Greek Council (MGC), the National Pan-Hellenic Council (NPHC) and the Panhellenic Association (PHA). The department also manages the 21 university-owned fraternity and sorority houses and provides resources for the off-campus fraternity and sorority houses.

Dining Services

1109 South Campus Dining Hall
Dining Plans: 301-314-8069
Student Employment: 301-314-8058
umfood@umd.edu
dining.umd.edu (http://dining.umd.edu)

Dining Services at the University of Maryland is one of the largest independent, self-supported university dining programs in the country. In addition to three resident dining halls we operate eighteen cafés, six brand-name quick-service locations, a restaurant, and five convenience shops on the College Park campus. Our operations include athletic concessions, meeting deliveries, and full-service catering.

- Three dining halls. The Diner and South Campus Dining Hall are open the longest hours: 7:00 am Monday to Friday, 10:00 am Saturday and Sunday. These dining halls serve dinner until midnight Sunday to Thursday, and until 10:00 pm on Friday and Saturday. The third dining hall, 251 North, is open Sunday to Friday 11:00 am to 8:30 pm.
- Popular franchises clustered in food courts and cafés tucked in academic buildings offer fresh carryout for times when you would rather grab fresh carryout or a favorite from a brand name quick service spot and go on your way.
- Convenience shops in resident communities offer room snacks, fresh carryout, school supplies and toiletries. The 24Shop, in the Denton Community, is open around the clock when school is in session.
- Mulligan's Grill and Pub on the University Golf Course offers clubhouse cuisine, a relaxing atmosphere, gracious hospitality, and sweeping views of the fairways at lunch and dinner, and for catered events.
- Every permanent Dining Services location accepts Dining Dollars, Terrapin Express, cash and credit cards.

For a complete list of locations, hours, menus, and detailed information about our program visit dining.umd.edu (http://dining.umd.edu/).

Resident Anytime Dining Plans

All University of Maryland Resident Dining Plans offer unlimited seven-day dining hall access. Plan members can come in to any dining hall any time we're open and choose anything we're serving. You can return any number of times, any day of the week, all semester long. Plan members enter using touchless biometrics; guests enter using a dining plan Guest Pass, Dining Dollars, Terrapin Express, cash, or credit.

The three dining halls feature over 42 culinary stations serving hearty breakfasts, classic lunch and dinner entrées with fresh sides, self-serve and composed salads, build-your-own pasta, stuffed-to-order burritos, hot and cold wraps and sandwiches, and rotisserie meats with fresh vegetables. Students will find international food, smoothies, dedicated vegan stations, a Mongolian grill, fresh-baked desserts and soft serve. Come to a dining hall for meals, come back between meals for snacks, stop by late at night for a bedtime treat, meet up with friends to study or socialize – we are your campus kitchen; come in, sit down, and make yourself at home.

Students who live in traditional, on-campus resident halls select one of four Seven-Day Resident Dining Plans:

- Base – Anytime Dining. two Guest Passes
- Base Plus – Anytime Dining, four Guest Passes + 200 Dining Dollars
- ***Preferred – Anytime Dining, six Guest Passes + 300 Dining Dollars***
- Premium – Anytime Dining, eight Guest Passes + 400 Dining Dollars

Dining Dollars on your UMD ID card make it super easy to stop in at a variety of campus locations. While you have unlimited access to dine in three great dining halls, you may find that you're not near a dining hall or you might be off campus at meal time - and there will be times when you want to eat on the go. Use Dining Dollars for fresh carryout, room snacks and supplies.

Bring Dining Dollars to campus convenience shops to get fresh carryout, school supplies and toiletries. Swing by any of the **cafés on campus** for a fresh grab-n-go sandwich, salad, sushi, or Starbucks! Check out the six **brand-name franchises** in the Stamp Student Union and Martin Engineering that accept Dining Dollars. Every permanent Dining Services location accepts Dining Dollars. Look for the logo near the register.

Dining Dollars save you money - while Dining Dollars spend just like cash, you get a significant discount when you buy them as part of your Seven-Day Anytime Dining Plan and there's no tax on the sale when you use them. We recommend the **Preferred Plan** – 300 Dining Dollars to use around campus all semester. That's about 15 to 20 Dining Dollars a week!

Guest Passes can be used to bring guests into the dining halls. Resident students can buy additional discounted guest passes from our office in the South Campus Dining Hall. Alternately, guests are always welcome at the door using Dining Dollars, Terrapin Express, cash, or credit.

Optional Dining Plans

We are pleased to welcome students, faculty, staff and guests to every dining hall, restaurant, shop and café on campus! Members of the campus community can become members of the dining plan program in several ways:

- ***Connector Dining Plans***! Purchase blocks of 50 to 150 dining hall experiences at a significant discount - that works out to between

three and nine nutritious meals a week! Ensure that you have some great on-campus meals and enjoy easy access to fresh, well-cooked food.

- **Five-Day and Seven-Day Anytime Dining Plans**. The Five-Day Plan provides unlimited access to dining halls Monday mornings through Friday evenings. The **Seven-Day Plan** provides unlimited access from move-in until the last day of finals.
- **Blocks of Dining Dollars** - accepted at all permanent Dining Services locations. When you purchase Dining Dollars, you get a discount! They spend like cash and there is no tax on the sale when you use Dining Dollars.
- And remember, we accept cash, credit and Terrapin Express at all locations.

Terrapin Express

1109 South Campus Dining Hall
301-314-8068
terpexp@umd.edu
terrapinexpress.umd.edu (http://terrapinexpress.umd.edu)

Terrapin Express is a prepaid debit account: money you set aside to use at over 50 locations across campus including the University Book Center and University Health Center. Cashiers, copiers, printers and washing machines use your UMD ID card to access account information. To activate your account, call the office or visit the website listed above. Funds roll over from semester to semester; additional funds can be added at any time. For details and a complete listing of participating locations go to terrapinexpress.umd.edu (http://terrapinexpress.umd.edu).

Engagement and Activities

Center for Campus Life
0110 Adele H. Stamp Student Union
301-314-7174
www.thestamp.umd.edu (http://www.thestamp.umd.edu)

The mission of Engagement and Activities areas is to support and complement the university's academic mission and to enhance the educational experience of students through exposure and participation in social, cultural, recreational, leadership, intellectual, and governance activities.

Engagement Area

Staff members work directly with some distinct and growing student constituencies on campus. The staff are available as resources for students and encourage student involvement in all areas of campus. The areas served by the engagement team include **Graduate Student Life, Veteran Student Life, Transfer and Off-Campus Student Life, Transfer 2 Terp** (a learning community for students who have transferred from local community college), and the **Memorial Chapel** as well as its affiliated 14 chaplaincies' work in spiritual diversity. Students are engaged and integrated into the campus community through social, educational, and outreach programs to assist in the transition to collegiate life.

Organization Advising

Major student groups such as the Student Government Association, Graduate Student Government, Peer Leadership Council, TerpVets, the Homecoming Committee, and Student Entertainment Events receive direct advising from Engagement and Activities staff. Other student groups can also obtain help by request. Assistance in programming, securing a faculty advisor, officer transitions, and efforts to create a new organization is available.

Programs and Leisure Learning Opportunities

Staff mentors student volunteers and leaders to provide options for out of class engagement through recreational options that includes: the Art and Learning Center (offering non-credit courses), the Stamp Gallery (featuring regular displays of the visual arts), the TerpZone (bowling, billiards, and more), as well as Stamp Special Events and Programs.

Student Organization Resource Center

Registers all student organizations at the university and provides an online directory of more than 850 groups. Organization support services includes: accounting assistance, advisors' workshops, leadership training programs for organization leaders, involvement sessions offered for classes and semester orientations are some of the ways involvement is nurtured for organizations and individuals. In addition, First Look Fair and Stampfest are large-scale involvement fairs held at the beginning of each semester to showcase the student groups and organizations.

Housing: Resident Life

1102 Annapolis Hall
301-314-2100
reslife@umd.edu
www.reslife.umd.edu (http://www.reslife.umd.edu)

The Department of Resident Life is responsible for management of the residence halls as well as the cultural, educational, recreational, and social programs and activities that create the Maryland Residential Experience for residential students. The department is committed to students' academic and social success in their lives on campus and to the role the residential living experience will play in their successful lives beyond the University of Maryland.

While living in a Maryland residence hall is not required, nine of every ten students in Maryland's freshman class make the choice to live on campus. More than 90 professional and graduate staff and over 500 undergraduate student employees meet the needs of resident students.

The residential program is home to more than 12,000 undergraduate students living in on-campus residence halls and public/private partnership communities. There are 38 on-campus residence halls housing approximately 9,400 undergraduate students. Four different styles of living are available to campus residents: traditional halls, semi-suites, suites, and apartments. Within traditional housing, where most first-year residents live, single, double, triple, and quadruple room occupancy exists. All rooms have a cable and data jack for each student and wi-fi capability. One telephone jack is provided in each room. Capstone on-campus management operates The Courtyards (CTY) and South Campus Commons (SCC), two on-campus apartment-style communities located on University land housing upperclass students. Resident Life's Off-Campus Housing Services Office also offers support and services for students seeking alternative housing options in and around the College Park area."

Our nationally acclaimed living-learning programs include Advanced Cybersecurity Experience for Students (ACES), BioFIRE Living & Learning Center, Carillon Communities, CIVICUS, College Park Scholars, Design |

Cultures and Creativity, Entrepreneurship and Innovation, FLEXUS: The Dr. Marilyn Berman Pollans' Women in Engineering Living & Learning Community, Gemstone, Global Communities, Hinman CEOs, Honors Humanities, Integrated Life Sciences, Jiménez-Porter Writers' House, Language House, University Honors, and the Virtus Men in Engineering Program. All of these programs add to the diversity and quality of on-campus housing options.

First-year students are guaranteed on-campus housing provided they complete their Enrollment Confirmation and On-Campus Housing and Dining Services Agreement along with their enrollment deposit by May 1st. Transfer students who want to live on campus should complete these items as well and will be allotted housing on a space-available basis. Students may apply for housing without confirming University enrollment. The On-Campus Housing and Dining Agreement will be canceled if a student does not enroll at UMD full-time. There is a $25 housing application fee assessed once the student submits the Housing Agreement AND confirms enrollment.

Leadership and Community Service-Learning

Center for Campus Life
1110 Adele H. Stamp Student Union
301-405-9044
www.thestamp.umd.edu/lcsl (http://www.thestamp.umd.edu/lcsl/)

Leadership & Community Service-Learning (LCSL) promotes socially responsible leadership through transformative learning and community engagement. Through our values (collective approach, social responsibility, principled practice, critical inquiry, and engaged scholarship), we work with students, staff, faculty, and community members to achieve our vision of a just world through the practice of socially responsible leadership.

Maryland Mentor Corp (formally AR*AC PNP)

In collaboration with the Prince George's County Public School system, Maryland Mentor Corp (Formally AR*AC PNP) provides high quality mentoring in local schools that enriches learning opportunities for both college and elementary school students. Approximately 250 Maryland federal work-study, volunteer, and intern students serve as reading and math mentors and work with families on literacy in 18 Prince George's County elementary schools. The three core mentoring programs are Maryland Reads (1st and 2nd graders, working on reading and writing skills), Maryland Counts (4th graders, working on math skills), and Maryland Family Literacy program (working with Spanish-speaking families on techniques to encourage reading at home).

Immersion Experiences - Alternative Breaks & Alternative Weekends

The Alternative Breaks (AB) and Alternative Weekends programs engages students in substance free, short-term service-learning experiences. Student participants travel locally, nationally, and internationally in teams during the university's winter, spring, and summer breaks to engage in active service, gain new perspectives on social issues, meet direct community needs and build upon community assets. Students also have the opportunity to engage in alternative week experiences through are AWE program. AB and AWE experiences explore social issues including disaster relief, environmental restoration, immigration, HIV/AIDS, education, homelessness, and healthcare. UMD Alternative Breaks main goal is to develop globally-conscious citizens who are transforming communities for good. Opportunities to be involved include serving as trip participants, trip leaders, interns and staff/faculty advisors.

Maryland LEAD

Out-of-classroom leadership conference, institutes, retreats, and programs focused on teaching socially responsible leadership for personal, professional and civic experiences. The program recognizes leadership as an ability that can be developed in all people, opening doors for individual growth and social change. Signature programs include: the Peer Facilitators, The Terrapin Leadership Institute (TLI), Activation Academy, the Maryland Leadership Conference, Maryland Leadership Summit and Maryland Leadership Advance.

Maryland Leadership Studies Program

Curricular offerings include credit-bearing coursework covering a range of topics including leadership theory and practice, leadership ethics, diversity in leadership, and group and organizational processes. Courses on leadership and identity and other special topics are also available. Students may also pursue a Minor in Leadership Studies and a certificate, offered through the Department of Counseling, Higher Education, and Special Education in the College of Education.

Other curricular programs include online resources for faculty to support service-learning initiatives in the classroom, including a faculty fellow program to enhance service-learning across curriculums.

National Clearinghouse for Leadership Programs (NCLP)

www.nclp.umd.edu (http://www.nclp.umd.edu)

The National Clearinghouse for Leadership Programs (NCLP), through the development of cutting edge resources, information sharing, and symposia, supports leadership development in college students by serving as a central source of professional development for leadership educators across the globe. Housed at the University of Maryland since its creation in the 1990s, NCLP works to connect leadership educators to one another and support those developing leadership programs on their own campuses. NCLP is known world-wide for promoting the Social Change Model of Leadership Development.

Terps for Change

Terps for Change is committed to connecting students with the local community through sustained, collaborative, and meaningful community service-learning. By exploring the root causes through critical reflection and meaningful dialogue, we seek to better understand the systemic complexities of social issues and the action steps we can take to address them. Terps for Change participants volunteer two hours per week and engage in our weekly dialogues that focus on critical reflection and deeper understanding of service-learning and movement towards social change.

Voices of Social Change

Voices of Social Change invites engaging storytellers to share their experiences as active leaders in the local community. The purpose of the program is to honor the social change work of these leaders, to connect people and resources, and to inspire people to engage in social change.

Services 24/7

Services 24/7 is an online directory for residents of Prince George's County looking for organizations that provide human services from afterschool programs, to housing and foreclosure assistance, to veteran services. We serve two purposes: 1. connecting the citizens of Prince George's County with the resources they need to enhance their quality of life and 2. connecting the vast human resource of volunteers in our county to nonprofits in order to increase their capacity to serve. www.services247.umd.edu (https://umd.givepulse.com/group/248707-UMD-Services-247/)

Multicultural Involvement and Community Advocacy

1120 Stamp Student Union
301-314-8600
301-314-2672
mica-contact@umd.edu
www.thestamp.umd.edu/diversity (https://stamp.umd.edu/Multicultural_Involvement_Community_Advocacy/)

The Multicultural Involvement and Community Advocacy Office (MICA), is a unit within the Adele H. Stamp Student Union - Center for Campus Life and the Division of Student Affairs. In support of the university's commitment to diversity, multiculturalism, and social justice, we advance a purposeful campus climate that capitalizes on the educational benefits of diversity, through student-centered advising, advocacy, programs, research, and practices. We encourage student involvement and engagement in the campus and community. MICA serves all students and seeks to empower them through education on issues of race, ethnicity, sexual orientation, gender identity, gender expression, religion and their intersections. All of the activities, programs, services and research of MICA strive towards meeting the common outcome of developing 'good citizens' and committed leaders.

Nyumburu Cultural Center

Nyumburu Cultural Center
301-314-7758
301-314-0383 (fax)
www.nyumburu.umd.edu (http://www.nyumburu.umd.edu)

Director: Dr. Ronald Zeigler

The Nyumburu Cultural Center has served as a major resource of cultural, historical, and social programming at the University of Maryland, College Park for forty-eight years. The center works closely with student, faculty, and community organizations. The Nyumburu Cultural Center offers a variety of socio-cultural, musical, educational and artistic programs to the campus community. The nature of the diverse programming and activities is based on the African American, African, and Caribbean Diaspora experience(s). Nyumburu is home of the Maryland Gospel Choir, Shades of Harlem (performing arts ensemble), The Black Explosion Newspaper, Male Spokesmodel Competition, Miss Unity Scholarship Pageant, Juke Joint, Gospel Happy Hour, Leadership Series, Nyumburu Jazz Club, Kwanzaa Celebration, Cultural Dinner during Black History Month, Literature Conference, Homecoming Alumni Tailgate, Annual Talent Showcase, Annual Student Awards Banquet, Black Male Initiative (BMI) Program, and Sisterhood of Unity and Love (SOUL).

Nyumburu's staff are advisors to many campus student organizations: Black Student Union, African Student Association (ASA), The Maryland Gospel Choir, The Black Explosion Newspaper, Sigma Gamma Rho sorority Inc., Delta Sigma Theta Sorority Inc., Kappa Alpha Psi Fraternity, Inc., and Dimensions Modeling Group to name a few.

Nyumburu presents blues, jazz, and gospel music concerts as well as academic courses in Creative Writing (ENGL274), Blues (AASP298V) and Jazz (AASP298Z) for three credits each. Maryland Gospel Choir students earn 1-credit (MUSC329E), and students who take EDCP108, College and Career Advancement earn 1-credit. Academic and collaborative programming is also done with colleges/departments such as: School of Public Health, Department of African American Studies, and the Clark School of Engineering.

During the summer, Nyumburu sponsors a summer camp program for students from the age of five to sixteen. Through this dynamic eight-week program, opportunities for youth to explore academic, artistic, and athletic interests in a relaxed and creative environment are provided. Camp Shule was established to provide the children of Maryland faculty/staff and local youth with a diverse educational experience.

The Multipurpose Room, conference rooms, computer labs, and the Nyumburu Amphitheatre of the Nyumburu Cultural Center are open to the students, faculty and staff of the University of Maryland. Room reservations are also available at a nominal cost for departmental and off-campus events and programs. Come in and interact with us, meet other students and make your ideas and wishes known. Our staff goal is to make Nyumburu a cultural center that is, **'Your Home Away from Home.'**

Off-Campus Housing Services

B0108 Harford Hall
(December 10, 2019 - Summer 2020)
Google Map Location Google Map Location (https://goo.gl/maps/fcEatddq8z9HjG6E7/)
301-314-3645
301-314-9874
och@umd.edu
www.och.umd.edu (http://www.och.umd.edu)

The Off-Campus Housing Services Office provides information and resources about housing and off-campus living. Resources available online include a searchable web-based housing database listing available rental properties in the area; a roommate finder database where students create a profile and search for others with similar housing needs and interests; as well as an extensive array of educational materials. For assistance in locating housing, please visit www.och.umd.edu (http://www.och.umd.edu) or contact our office.

Office of Student Conduct

2117 Clarence M. Mitchell Jr. Building
Phone: 301-314-8204
Fax: 301-314-9533
studentconduct@umd.edu
www.studentconduct.umd.edu (http://www.studentconduct.umd.edu)

Director: Andrea Goodwin, Ph.D.

It is the mission of the Office of Student Conduct to resolve allegations of misconduct under the *Code of Student Conduct* and *Code of Academic Integrity* in a manner consistent with our core values of fairness, honesty,

integrity, respect, and compassion while promoting the university's educational mission. Essential to this mission is the facilitation of learning and character development of future leaders and sound citizens, which includes involving students in the adjudication process.

General Statement of Student Responsibility

Balancing students' rights with their responsibilities as members of the University community is imperative to creating mature and engaged citizens. The university has the responsibility of protecting the safety, welfare, rights, and property of all members of the campus community as well as ensuring to all members of the campus community the opportunity to pursue their educational objectives. Students at the University of Maryland are expected to uphold the values of the university by conducting themselves in accordance with university policies and procedures. The Office of Student Conduct extends jurisdiction of the *Code of Student Conduct* to include conduct which occurs **off-campus** as a means to enhance the safety and security of students living both **on- and off-campus**. Specific expectations for student behavior are outlined in the *Code of Student Conduct* and the *Code of Academic Integrity* (See www.president.umd.edu/policies/ (http://www.president.umd.edu/policies/)).

Disciplinary Procedures

Students accused of violating university regulations are accorded fundamental due process in disciplinary proceedings. Formal rules of evidence, however, shall not be applicable, nor shall deviations from prescribed procedures necessarily invalidate a decision or proceeding unless significant prejudice to one of the parties may result. University procedures are outlined in the *Code of Student Conduct* and *Code of Academic Integrity,* supplemented by materials provided by the Office of Student Conduct to assist students who are facing allegations of misconduct.

Transportation Services

Regents Drive Garage
301-314-DOTS (x3687)
transportation@umd.edu
www.transportation.umd.edu (http://www.transportation.umd.edu)

The Department of Transportation Services (DOTS) is a self-supported agency under the staff supervision of the Vice President for Administration and Finance, and is the primary agency responsible for administering parking and transit management programs on the College Park campus. DOTS is dedicated to providing service to the campus community through planning, education and enforcement. Honoring the mission and values of the University of Maryland, DOTS strives to provide access to safe, cost-effective, sustainable, and innovative services that anticipate the growing needs of our campus community.

Biking

The University of Maryland is a gold-level Bicycle Friendly Campus. The BikeUMD program, a partnership between DOTS and University Recreation and Wellness, is responsible for bicycle education and encouragement on campus. BikeUMD offers classes, discounted safety gear, sponsored events, group rides and bicycle registration. The RecWell Bike Shop offers free bike maintenance and semester bike rentals. All bicycles on campus are required to be registered. Visit the Bike Index (https://bikeindex.org/umd/) for free registration.

Electric bikes, regular pedal bike and electric scooters (e-scooters) are available through our shared mobility system, Veo. All e-scooter riders should adhere to the university e-scooter regulations and safe riding practices (https://transportation.umd.edu/escooter-regulations/) indicated on our website.

Motorized Scooters

Parking registration is required for any motorized scooter parked on campus. Motorized scooter drivers are required to wear a helmet and eye protection while operating or riding a scooter. Any motorized scooter left unattended in an area not designated for scooter or motorcycle parking is subject to towing. Please visit the DOTS website (https://www.transportation.umd.edu/parking/motorized-cycle/) for more information about motorized scooters and a map of motorized scooter parking locations.

Parking

DOTS is responsible for managing and maintaining approximately 16,500 parking spaces at UMD. All students who plan to park on campus must register online before bringing a car to campus. Online student parking registration begins in July and August for fall or annual parking permits, in January for spring-only parking and in April for summer parking. Parking registration fees are billed to student accounts. Parking is assigned on a first come, first served basis according to credit level and housing status. Please visit the DOTS website (https://www.transportation.umd.edu/parking/students/) for specific parking lot assignment information. *Freshmen resident students are not eligible for campus parking and must apply for an exception to purchase a permit.*

Shuttle-UM

The Shuttle-UM transit system (https://transportation.umd.edu/shuttle-um/), operated by DOTS, is supported mainly by student fees. Shuttle-UM provides commuter, evening, NITE Ride, paratransit and charter services to university students, faculty and staff while classes are in session. DOTS publishes a Campus Connections transit guide each semester, which contains current bus schedules as well as general information about getting around in the DC Metro area. Campus Connections guides are available at the DOTS office in Regents Drive Garage, the information desk at Stamp, residence halls and on the DOTS website. More information about Shuttle-UM is available online.

Social Media

While the DOTS website is the best place to get transportation information and alerts, additional information can be found via @DOTS_UMD (https://twitter.com/DOTS_UMD/) on Instagram and Twitter and DOTSUMD (https://www.facebook.com/dotsumd/) on Facebook

Sustainable Transportation: UMD Smart Commute

UMD Smart Commute is a collection of programs that incentivizes the university community to make sustainable transportation choices. Through the Smart Commute trip planner, students can locate bike paths, carpool buddies and transit options. Smart Commute users who log their sustainable trips can earn reward points that are redeemable for prizes. To sign up for Smart Commute, visit the Smart Commute web platform (https://umd.rideamigos.com/#/).

Transportation to New York, New Jersey, and BWI Airport

DOTS provides transportation to and from New York and New Jersey for Thanksgiving, winter and spring breaks. Registration opens approximately one month before the scheduled trip date. Free shuttle service to and from Baltimore/Washington Thurgood Marshall International Airport (BWI) is available every two hours throughout the day for Thanksgiving, winter and spring breaks. This is a first come, first served service.

Carshare

For students who rarely need access to a vehicle, carsharing is a great alternative to storing a car on campus. With carshare services, members can reserve cars anytime for short trips to the grocery store or day trips throughout the region. To learn more about carsharing, visit our website (https://www.transportation.umd.edu/sustainable-transportation/carshare-zipcar/).

University Book Center

STAMP, Ground Floor and Basement Level
301-314-BOOK
www.umcp.bncollege.com (http://www.umcp.bncollege.com)

The University Book Center, operated by Barnes & Noble College, is the official bookstore for the University of Maryland. The Book Center is the only store that carries textbooks for all of your classes. The store has a large selection of ***used, digital, and rental textbooks*** that are available in many courses. General-interest books, literature, technical books,

and best sellers can be found on the lower level of the store. The Book Center also carries a wide selection of school supplies, and imprinted sportswear and related items. The Book Center's hours of operation and a complete listing of their products and services can be found at www.umcp.bncollege.com (http://www.umcp.bncollege.com).

University Career Center & The President's Promise (UCC/TPP)

3100 Hornbake Library, South Wing
301-314-7225
UCC-studenthelp@umd.edu
www.Careers.umd.edu (http://www.Careers.umd.edu)

Director: Kelley Bishop

The University Career Center & The President's Promise provides comprehensive career assistance for all students enrolled at the University of Maryland, College Park. Designed to support students through each stage of their career development, the Center offers an array of resources, services and programs that empower students to pursue their ambitions and navigate a meaningful career journey.

Center Staff Can Help You:

- address educational and career decisions
- identify useful resources
- take advantage of internships, full-time, part-time and summer employment opportunities
- improve resume and cover letters
- sharpen job search skills and strategies
- plan for graduate and professional school

A Network of Support

Located in the South Wing of Hornbake Library, the Center serves as a hub of career-related activities. The Center also supports distributed offices located in the following schools and colleges:

- College of Agriculture and Natural Resources (https://agnr.umd.edu/student-opportunities/internships-careers/)
- **College of Arts and Humanities**
- **College of Behavioral and Social Sciences**
- **College of Computer, Mathematical and Natural Sciences**
- **School of Public Health**
- The Graduate School (https://gradschool.umd.edu/professionaldevelopment/)

Distributed offices provide advising and programming that targets industries and professional fields related to majors in their respective host school or college. Students may access any of the resources, services and programs based on their career interests and immediate needs.

The Center partners with other campus career operations, including:

- **Robert H. Smith School of Business Career Services**
- **A. James Clark School of Engineering Career Services**
- **School of Public Policy Career Services**

Careers4Terps (Virtual Career Center 24.7.365)

Update your Careers4Terps profiles to manage your career. C4T is your gateway to:

- schedule individual career advising appointments
- access internship and job postings
- receive job and internship notifications related to your specific interests
- receive e-newsletter with event information related to your career interests
- participate in on-campus interviewing to discuss your qualifications with recruiters
- engage with employers through information sessions/networking opportunities

You will also gain access to:

- FOCUS2: Career testing/self-assessment
- InterviewStream: Practice interviewing 24/7/365
- Going Global: Working abroad, visas, international student resources
- Vault: Employer/industry insights, rankings and reviews

Networking Events

Connect with alumni and employers during the academic year. Opportunities include: resume and mock interview clinics, career and employment panels, job shadowing and informational interviews, career and internship fairs, and employer networking sessions

Intern for a Day

Connects undergraduate students with host sites for one day internship/shadowing experiences. You may attend meetings, participate in informational interviews with other staff members or work on small projects.

Career Shuttles

Center-sponsored field trips to employer sites from various industries. Shuttle seats are limited. Students should RSVP early.

Career Courses

PSYC123: The Psychology of Getting Hired • 1-credit
This online asynchronous course introduces students to psychological principles involved in hiring processes. Students pace themselves through modules that combine academic content with hands-on activities, online discussions and deliverable materials. Two in-person activities—a resume review and a mock interview—occur in the Center.

EDCP108I: College and Career Advancement: Concepts and Skills; Academic Transitions to Internships • 1-credit
This half-semester course is recommended for students who have never had an internship and are actively searching for one. The online asynchronous course takes students through key exploratory and preparation activities, including understanding the components of an internship, increasing knowledge about an intended career field, developing a resume and cover letter, and identifying potential internship sites.

University Counseling Center

Shoemaker Building
4281 Chapel Lane
Phone: 301-314-7651
Fax: 301-314-9206
cajoshi@umd.edu
www.counseling.umd.edu (http://www.counseling.umd.edu)

Director: Chetan Joshi, Ph.D.

The Counseling Center which is comprised of four divisions - the Counseling Service, Accessibility and Disability Service, Research Unit, and the Testing Office - provides free and confidential counseling, consultation and treatment services to meet the mental health, academic, and disability access needs of students. To help foster healthy academic, emotional, social, and career development, a variety of services are offered, including cognitive-behavioral workshops, group counseling, short-term individual counseling, career assessment and counseling, and coordination of academic accommodation services provided by the Accessibility and Disability Service. Referral services are offered for students who are best served by community providers.

The Counseling Center is staffed by licensed psychologists and counselors. To schedule an appointment, call 301-314-7651 or visit the first floor of Shoemaker Building. An after-hours counseling service staffed by professional counselors is available for urgent mental health concerns after business hours and during weekends, breaks, and holidays. Call 301-314-7651.

What to expect when seeking counseling services

- Students seeking counseling/therapy will be assessed by a professional counselor to determine the best fit for their needs and our services.
- Following the initial assessment, students may be offered a number of services, such as group counseling, cognitive-behavioral workshops, or individual counseling. Short-term individual counseling is only offered when it is therapeutically appropriate and the best fit for a student's needs.
- During peak service times, students seeking individual counseling may need to wait for a counselor to become available. Limited student availability and requests for specific counselor preferences (race, gender, religion, etc.) may lead to longer wait times. At peak times during the semester, students may be referred to community providers.
- The Counseling Center, staffed by professional counselors, provides training opportunities for graduate level students. Some students may be assigned to work with one of our counselors-in-training. All trainees are under close supervision by an experienced counselor or licensed psychologist.
- The Counseling Service division works in close collaboration with the Behavioral Health Service (BHS) in the University Health Center. When therapeutically appropriate, students are referred to BHS for psychiatric or medication evaluations. The Counseling Center does not prescribe medication.
- The Counseling Center does not provide long-term treatment or highly specialized services such as behavioral analysis, neuropsychology, family therapy, hypnosis, or intensive treatment for eating disorders and chronic mental health conditions. Students with such needs may be referred to community providers.

Counseling Center Services

Group Counseling and Cognitive-Behavioral Workshops

https://www.counseling.umd.edu/cs/clinical/#group

The Counseling Center offers interpersonal psychotherapy groups and weekly theme-specific groups that address a variety of common issues, such as relationships, sexual assault, eating disorders, anxiety/stress, dissertation support, social identity, and stress management. Facilitated by psychologists and counselors, the typical therapy group size is 6 to 8 students. Three (3) hour cognitive-behavioral workshops that teach basic coping skills for managing symptoms of depression and anxiety are also available.

Short-Term Personal and Psychological Counseling

https://www.counseling.umd.edu/cs/

You may be recommended to see a counselor for short-term individual counseling or couples counseling, or join one of the many counselor-led support groups.

Career Assessment and Counseling

https://www.counseling.umd.edu/cs/clinical/#career

Whether you are choosing a major, changing a major, or establishing career goals, it is important to understand how your personality, values, and interests relate to your future professional goals. If you are experiencing problems with choosing a major or career indecision, you can get help with this process at the Counseling Center.

Drop-In Hours

Unscheduled drop-in hours are available daily between the hours of 3:00 to 4:00 p.m. for students of color, LGBTQ students, student veterans, international students, and undocumented students.

Accessibility and Disability Service

https://www.counseling.umd.edu/ads/

The Accessibility and Disability Service (ADS) provides reasonable accommodations to qualified individuals to ensure equal access to services, programs, and activities sponsored by the University of Maryland. The ADS office is staffed by dedicated professionals who are available to assist, consult, support, and advocate on behalf of individuals requesting disability services.

ADS provides a range of accommodations for students with disabilities, including but not limited to:

1. interpreters and transcribing services for deaf or hard-of-hearing students;
2. enlarged print and alternate text format of textbooks and written materials for individuals with print material disabilities (e.g., blind or low vision, learning disabilities and attention deficit disorders, or physical disabilities);
3. extended time and private or reduced distraction testing space for exams; and
4. assistance with access to buildings and facilities on campus as well as registration for the Department of Transportation paratransit service.

You are strongly encouraged to register early by completing a registration application located at http://adsonline.umd.edu/. Once completed, please call the ADS front desk at 301-314-7682 (voice and TTY) to

schedule a registration appointment. For more information, students can email ADS at adsfrontdesk@umd.edu, visit the Accessibility and Disability Service on the Ground Floor of Shoemaker Building (0106 SHM), or view the ADS website at www.counseling.umd.edu/ads (http://www.counseling.umd.edu/ads/).

Research Services

https://www.counseling.umd.edu/research/

The Research Unit produces a variety of research briefs, publishes articles in professional journals, and present study findings at conferences and to the University campus community. Design, implementation, and analyses of the annual University New Student Census and the Withdrawal Survey are the Research Unit's primary responsibilities. Areas of research include: student development & retention; college student basic needs (food & housing security), academic success, & well-being; multiculturalism & inclusiveness; and clinical service delivery.

Support for Parents of College Students

https://www.counseling.umd.edu/cs/familyfriends/#consult

The Parent Warmline is a telephone consultation resource available to parents/guardians/family members concerned about their student's adjustment at college. Counselors help callers address a range of issues and concerns.

Testing office

https://www.counseling.umd.edu/testing (https://www.counseling.umd.edu/testing/)

The Testing Office in the Counseling Center administers career and personality tests for counseling purposes, national standardized educational tests, such as the GRE, LSAT, PRAXIS, TOEFL, and Miller Analogies, and provides proctoring services to UMD students completing courses at other institutions via distance learning. UMD students completing UMD courses for which testing accommodations are needed should contact the Accessibility and Disability Service unit.

Counseling Center Hours

Counseling Service Appointments

301-314-7651 (Crisis counseling available after-hours and during breaks, weekends, and holidays)

Day	Hours
Monday-Thursday	8:30 a.m. to 9:00 p.m.
Friday	8:30 a.m. to 4:30 p.m.
Summer Hours: Monday - Friday	8:30 a.m. to 4:30 p.m.

Accessibility and Disability Service

301-314-7682

Day	Hours
Monday - Friday	8:30 a.m. to 4:30 p.m.

Testing Office

301-314-7688

Day	Hours
Monday - Friday	8:30 a.m. to 4:30 p.m.

Evening and weekend hours for testing purposes

University Health Center (UHC)

Campus Drive, Building 140
301-314-8180
301-405-9755 (fax)

Saturday	9:00 a.m. - 12:00 p.m.
Sunday	Closed

About the University Health Center

The University Health Center (UHC) is a nationally accredited ambulatory health care facility located on Campus Drive (across from STAMP). All registered students living on or off-campus are eligible to use the UHC. The UHC is open during the hours listed above, with varied hours during semester breaks, holidays and summer sessions. Visit the UHC website, health.umd.edu (http://www.health.umd.edu), for up-to-date information. ***For life-threatening or Mental Health Emergencies, call 911 or (301) 405-3333*** (University of Maryland Police Department (http://www.umpd.umd.edu/)). For a list of area hospitals or urgent care centers and their contact information, visit: https://www.health.umd.edu/emergencies (https://www.health.umd.edu/emergencies/). The After Hours Nurse Line (301-314-9386) is available when the University Health Center is closed.

Services*

University Health Center offers comprehensive health services including:

- Campus Advocates Respond and Educate to Stop Violence Program (https://health.umd.edu/CARE/) (https://health.umd.edu/CARE/)
- Health Promotion and Wellness Services (https://health.umd.edu/wellness-advocacy/) (https://health.umd.edu/wellness-advocacy/)
- HIV and STI testing (https://health.umd.edu/wellness-advocacy/sexual-health-and-wellness/)
- International Travel/Allergy/Immunizations Clinic (https://www.health.umd.edu/index.php/medical-behavioral-health/international-travel-clinic/)
- Behavioral Health (https://www.health.umd.edu/index.php/medical-behavioral-health/behavioral-health-services/) Services (https://www.health.umd.edu/index.php/medical-behavioral-health/behavioral-health-services/)
- Men's (https://www.health.umd.edu/index.php/medical-behavioral-health/mens-health/) and Women's (https://www.health.umd.edu/index.php/medical-behavioral-health/womens-health/) Reproductive health care
- Nutrition (http://www.health.umd.edu/nutritionservices/)
- Pharmacy (https://www.health.umd.edu/index.php/pharmacy/)
- Primary Care (https://www.health.umd.edu/index.php/medical-behavioral-health/primary-care/)
- Substance Use Intervention and Treatment (http://www.health.umd.edu/suit/)

- Walk-In Clinic (https://www.health.umd.edu/index.php/medical-behavioral-health/walk-services/)

How to Access Care*

Students are seen by appointment (https://health.umd.edu/about-us/appointments/) for routine care 8:00 a.m. - 4:30 p.m. on weekdays. Medical services are limited after 5:00 p.m. and on Saturdays 9:00 a.m.-12:00 p.m.

- Some appointments can be scheduled online at www.myuhc.umd.edu (http://www.myuhc.umd.edu).
- Same-day appointments are available.
- A Walk-In Clinic is available, though waits tend to be longer for walk-in care. Walk-in patients are triaged and seen based on urgency.
- Fees will be assessed if an appointment is not canceled or rescheduled within:
  - 4 hours for a medical appointment,
  - at least 24 hours for a mental health/physical therapy/travel clinic/nutrition/smoking cessation appointment.
  - You may cancel or change an appointment on-line at www.myuhc.umd.edu (http://www.myuhc.umd.edu) or by calling (301) 314-8184. Please see our cancellation policy (https://health.umd.edu/about-us/appointments/).
- An After Hours Nurseline (301-314-9386) is available for free medical information *when the UHC is closed*.
- *The UHC and the University assume no financial responsibility for care received off campus*.

Paying for Your Care (https://www.health.umd.edu/insurance-billing/)

There are charges for almost all services provided at the University Health Center (UHC). We participate with many insurance plans and can bill those plans for our medical services. Your financial responsibility will vary depending on the type of insurance and service provided. We do allow the option to pay for service directly without using health insurance.

- ***Patients should always bring their health insurance card to the UHC when seeking care.***
- Patients are to check with their health insurance company and not assume that the health plan will pay for services provided at the UHC as some plans **do not** cover services outside their geographic area.
- We are considered out-of-network with Point of Service (POS) plans.
- We cannot bill HMOs (e.g. Kaiser Permanente), Medicare, or out of state Medicaid plans and non-students with Medicaid.
- Charges not covered by insurance are posted to the student's account with Student Financial Services (https://billpay.umd.edu/) or can be paid at the time of visit in the UHC. Charges can be paid by cash, check, credit cards, or Terrapin Express at the UHC.

The University Health Center Pharmacy (https://www.health.umd.edu/pharmacy/) participates with many pharmacy insurance plans.

Behavioral Health (https://health.umd.edu/behavioral-health/) and Nutrition (https://health.umd.edu/wellness-advocacy/nutrition-services/) services are not billed through insurance.

- Behavioral Health Services are available to *registered students only*. There is a fee for each session with a psychiatrist or therapist.
- Nutrition Services are available to students and non-students; there are fees for appointments with the Registered Dietitian.

Please call **(301) 314-9144** if you have further questions about fees or using your health insurance at the UHC. You may also refer to our I (https://health.umd.edu/insurance-billing/)nsurance and Billing (https://health.umd.edu/insurance-billing/) page for more information.

Confidentiality

Students younger than 18 years will need permission (https://health.umd.edu/home/forms/) from a parent or legal guardian to be treated, except for mental health and sexual health services. Treatment and visit information will only be given to parents with the student's consent or through a court-ordered subpoena. *If the visit is billed through an insurance policy, the insurance company may send detailed information concerning a medical visit to the policy holder (i.e. parent).*

Mandatory Health Insurance (https://www.health.umd.edu/HealthInsuranceFAQs/)

The University of Maryland requires ***all undergraduate students enrolled in 6 or more credits to show proof of health insurance.*** This is an active process that must be completed each year.

- *Each year,* students who have health insurance can go directly to our Student Health Insurance (https://health.umd.edu/SHIP/) page to learn more about the Student Health Insurance Plan (https://health.umd.edu/SHIP/) and to **complete the insurance waiver process**.
- Students without coverage or those who wish to purchase the student health insurance plan can enroll through a link provided on our Student Health Insurance Plan (https://health.umd.edu/SHIP/) page.

Additional information on student insurance and Frequently Asked Questions (https://www.health.umd.edu/HealthInsuranceFAQs/) can be found on the University Health Center's web site.

Immunization Requirements

The University of Maryland requires **all** new students, including graduate and transfer students, to provide *proof of two immunization dates for Measles, Mumps, and Rubella (MMR).* The Immunization Record Form (https://health.umd.edu/immunizations/) *must be submitted to the University Health Center at Orientation, but no later than the first day of class.* Completed forms can also be faxed to 301-314-5234.

- **In addition to the above MMR requirement,** *INTERNATIONAL STUDENTS* from selected countries with a high incidence of Tuberculosis must *also* provide documentation of a **Tuberculosis (TB) test** completed within the past six months.
- Maryland State Law requires students living in residence halls to provide proof of vaccination (https://www.health.umd.edu/flu/) against *meningococcal meningitis or a signed waiver* stating that they have chosen not to receive the vaccination.
- Failure to submit a completed Immunization Record Form (https://health.umd.edu/immunizations/) will result in a Registration Block for the future semester and a non-compliance fee may be assessed. The Registration Block will be removed after the Immunization Record has been submitted and processed.

***Information is subject to change. Please visit the University Health Center** website **(**https://health.umd.edu**) for current information on hours of operation, services, access to care, and other details related to health and wellness.*

University Recreation and Wellness

301-226-4500
recwell@umd.edu
www.recwell.umd.edu (http://www.recwell.umd.edu)

Director: Jay Gilchrist

Being physically active as a college student is a crucial component of success in and out of the classroom. Activity helps students manage stress, boosts their immune system against illness, aids sleep, improves mood, increases energy and provides a social connection to other students. Perhaps most importantly, movement primes the brain for learning and makes it easier to focus when studying.

University Recreation & Wellness (RecWell) encourages Terps to make the most of their college experience by incorporating movement and activity into their daily lives. There are many opportunities for students to find an activity they enjoy through RecWell.

Facilities & Membership

Membership with RecWell and access to all its facilities, programs and services are included in the student fee. Students simply need their university ID to enter recreation facilities on campus. Facilities include: the Eppley Recreation Center (ERC), Ritchie Coliseum, Reckord Armory Gym, the fitness studios in Regents Drive Garage, and multiple outdoor playing fields.

The ERC is the largest recreation facility on campus and offers a cardio fitness center, weight rooms, matted room, indoor track, and a functional training studio as well as courts for basketball, racquetball, wallyball, and squash. The ERC also features indoor and outdoor pools for lap swimming and diving, a sauna, and steam room. When school is in session, the ERC is open 6 a.m.–midnight on weekdays, 8 a.m.–10 p.m. on Saturdays, and 10 a.m.– midnight on Sundays for students to enjoy their favorite activity on their own schedule. Weight rooms and cardio fitness centers are also located in Ritchie Coliseum.

Group Fitness Classes & Personal Training

For students motivated by a structured workout in a high-energy group setting, RecWell offers over 100 group fitness classes each week, including yoga, Zumba®, BODYPUMP™, cycling, BODYCOMBAT™, and H.I.I.T. (high intensity interval training). Classes are no additional charge and are drop-in only—there's no need to sign up ahead of time. Students may also take advantage of working with a certified personal trainer to meet their individual fitness goals at a discounted rate for students.

Intramural & Club Sports

Students who enjoy playing sports have many opportunities to do so through RecWell's club and intramural sports programs. These programs are open to everyone and you don't have to consider yourself an athlete to play. Many club sports do compete regionally and nationally against other schools, but they are also a great way to learn a new sport or simply enjoy the comradery that comes from playing for fun. There are 40+ student-led club sports, including ballroom dance, lacrosse, black belt, equestrian, sailing, figure skating, paintball, and soccer. Students can also participate in intramural sports that are open to all members of the university community. Participants select their own level of competition and play in either men's, women's or coed leagues over the course of a weekend, a week or a tournament lasting several weeks. Intramural sports include basketball, flag football, softball, soccer, racquetball, table tennis and more.

Adventure Program

For students who prefer to be active outdoors, RecWell's adventure program offers outdoor adventure trips, clinics, and social bike rides throughout the year. Students can take a day or weekend trip to go backpacking, caving, mountain biking, kayaking, rock climbing, or other various outdoor activities. Students may also use the adventure program resource library and rent gear to pursue their own outdoor adventure. The climbing wall and challenge course are located at the ERC, where students can challenge themselves physically and mentally to increase interpersonal skills and self-confidence. Maryland also has a vibrant cycling community. The RecWell Bike Shop in Cole Field House offers free repairs and maintenance and will teach students how to repair their own bikes.

University of Maryland Golf Course

Whether you're an avid golfer or just getting started, you are welcome at the University of Maryland Golf Course. RecWell maintains a full-service, year-round, 18-hole, par 71 golf course, driving range and putting greens just across University Boulevard from The Clarice. The University of Maryland Golf Course offers discounted student memberships and playing rates, as well as golf lessons, clinics, tournaments, and competitions.

RecWell also offers community programs open to students including swimming lessons, water safety instructor and lifeguard training, and tennis instruction.

Veteran Student Life

0110 Stamp Student Union
301-314-0073
vetstudentlife@umd.edu (https://thestamp.umd.edu/veteran_student_life/)
veterans.umd.edu (http://veterans.umd.edu)

Veteran Student Life (VSL) serves to build and maintain a community of veteran and military-connected students, staff, faculty, and alumni at the University of Maryland that collectively supports the transition from military life to civilian college. Together, the community provides opportunities for development along the 8 Dimensions of Wellness throughout the UMD experience empowering students to develop a renewed sense of purpose and significance during and after their time at the University of Maryland.

Brief overview of what is offered through Veteran Student Life:

Veteran-centered campus events and programs
Veterans Week events and service at Memorial Chapel in November
Support for TerpVets Student Organization
Advocacy for veteran issues on campus
Exclusive veteran resources and opportunities
Veterans-specific New Student Orientation in fall and spring
Veteran-focused career and networking events
Battle Buddy Peer Mentorship Program
Veteran-specific scholarships

Pat Tillman Partnered Institution
Credit bearing university transition courses
Active recruitment of veterans to Maryland

Maryland is one of 15 Centers of Excellence for Veteran Student Success in the nation and received a generous grant through the Fund for the Improvement of Postsecondary Education (FIPSE) to further address the academic, financial, physical and social needs of student Veterans on campus through the U.S. Department of Education.

For more information about programming or overall Veteran Student Life at the University of Maryland, please contact the VSL team at vetstudentlife@umd.edu and visit their website at http://veterans.umd.edu.

Veteran Center

In addition to support and programming, Veteran Student Life offers a Veterans Center, which is available exclusively for UMD veterans and military-connected students located in Cole Field House (Room 1112), thanks to a generous donation from Board of Trustee member and former Secretary of the Navy Gordon England.

This center includes:

- Television
- Computers
- Free Printing
- Free Coffee
- Study Lounge
- Conference Room
- Video Conferencing

If you are a current student veteran or military-connected student that does yet have access to the Vet Center, please go to http://go.umd.edu/vetcenter (http://go.umd.edu/vetcenter/)

ACADEMIC POLICIES AND PROCEDURES

- Academic Advising (p. 61)
- Academic Integrity and Student Conduct Codes (p. 62)
- Academic Records and Regulations (p. 64)
- Degree Information (p. 71)
- Prior Learning Credit (A/S Level, AP, BMT, CLEP, Credit-by-Exam, IB) (p. 73)
- Registration (p. 75)
- Transfer Credit (p. 79)

Academic Advising

Role of Advising

Academic advising is an integral part of each student's educational experience and it takes many forms. Academic advisors provide students with information on academic requirements needed for degree completion, help students plan for future graduate study or a career, and serve as a resource person. Academic advising is a shared responsibility between the student and the advisor.

- **Provide information on academic requirements needed for graduation.** Advisors assist students in developing an academic and career plan, monitor students in the major, and discuss how a course of study fits a particular academic or career interest. Advisors answer questions concerning a specific academic concern, such as problems with a particular class, and guide students through the registration process, including providing information on various registration blocks and what needs to be done to remove them.
- **Help students plan for future graduate study or career.** Advisors discuss how an academic major can prepare a student for his/her career, and what career options are available. Advisors refer students to the Career Center which provides career counseling and workshops on issues such as writing resumes and preparing for job interviews. They also inform students about internship opportunities and how credit can be earned, and provide information on study abroad programs that might enrich a student's academic experience as well as enhance their resume. Advisors inform students about graduate school opportunities and application procedures.
- **Serve as a campus resource.** Advisors assist students in obtaining support from other offices of the university. This includes informing students about possible scholarships or fellowships, and referring students to academic support units that provide tutoring or workshops on study skills, time management, and stress management. They may recommend that students seek counseling for stress, addictions, or trauma that may be affecting their academic work. Advisors inform students with physical and learning disabilities of the support available to them. They also encourage students to enrich their experiences by becoming involved on campus via social, political, academic, ethnic/cultural, sport and/or recreational student organizations and activities.

Some advisors are able to provide information on all of the above. Others specialize in a particular topic or area of concern. For example, a college/department may have a specific career advisor or study abroad coordinator. Students in upper level courses are often advised by faculty members who can assist with graduate school and career issues. Furthermore, some advisors work with specific populations, such as returning students, athletes, students with physical or learning disabilities, and students of color.

If you are not sure where to seek advising, contact your academic college. When requesting to meet with an advisor, specify what topics you wish to discuss to ensure that you are directed to the appropriate individual.

Advising at the University of Maryland is normally a combination of professional advisors, located in many of the college offices, and faculty advisors. Please check your individual college to find out whom you need to see for academic advising. For more information, visit http://studentsuccess.umd.edu/Resources/academicadvising.html.

Academic Advising and Degree Completion

All new students are required to attend Orientation where they will register for classes. During their first semester, students develop a four year plan based on templates provided for each major (see www.4yearplans.umd.edu (http://www.4yearplans.umd.edu)). Each plan includes specific benchmark courses to be completed within a specific period of time. Four year plans must be approved by an advisor in order to register for subsequent semesters.

Students are required to complete the benchmark courses in their major in order to progress to graduation (see *Student Academic Success-Degree Completion Policy* below). Outlined in each four year plan, benchmark courses guide students in a step by step process to degree completion and demonstrate satisfactory progress in the major. Academic units conduct regular reviews of students' progress, and those students who are in danger of falling behind benchmarks will be required to work with an advisor to develop a plan to get back on track. Students who do not make progress may be required to select a new major in which they can be successful.

Many students change their majors over the course of their academic career. When doing so, students must first complete and have approved a new four year plan. Any student who completes ten semesters or 130 credits without completing a degree is subject to mandatory advising prior to registration for any subsequent semester. Students with exceptional circumstances or those who are enrolled in special programs are required to develop a modified graduation plan that is appropriate to their situations. In all cases, students are responsible for meeting progress expectations and benchmarks required for their degree programs.

It is recommended that all students seek advising assistance prior to course registration. Students should also consult with an advisor as circumstances change and four year plans need to be updated. Many colleges have mandatory advising for prior to registering for a new semester.

Students placed on probation are required to consult an academic advisor in their college prior to the beginning of a new semester but no later than the end of the schedule adjustment period. Students will not be allowed to add or drop courses, or to register during any probation semester without the approval of an academic advisor in their college.

Student Academic Success-Degree Completion Policy

The goal of the Student Academic Success-Degree Completion Policy is to promote undergraduate student success. The policy establishes a

structured framework and criteria to guide all students to completion of an undergraduate degree within a reasonable period of time.

Full-time degree seeking students normally are expected to complete the undergraduate program in four years. Within this timeframe, all students are expected to demonstrate continuing progress in their majors by completing prerequisite or required courses with the appropriate grades, and by completing other requirements consistent with graduation progress or benchmarks established by their academic units (see 2, below). It is ultimately the responsibility of the student to meet these requirements. To help students meet these requirements the university will facilitate student progress to degree by providing enhanced student advising through the following measures:

1. Academic units will create 4-year graduation templates that will specify the degree requirements for each major and provide semester-by-semester course schedule models that achieve graduation within four years. Students will prepare individualized plans for completing their degrees in accordance with the academic units' 4-year graduation plans. Students are also encouraged to periodically update their plans with the assistance of their academic advisors.
2. Academic units will establish graduation progress benchmarks for each academic major. These will specify the credit and course criteria that will indicate satisfactory progress to degree. Academic units will establish schedules for regular periodic reviews of student progress, and students who are in danger of falling behind the program benchmarks will be required to consult with an advisor prior to registration.
3. Students who do not achieve the progress expectations or benchmarks will be permitted to continue in the major only upon the approval of the dean of their college. If it becomes necessary for students to change majors, they will be given assistance in identifying and enrolling in a suitable alternative major.
4. When students change majors, they will be required to present an academic plan to the new major unit that demonstrates their ability to complete their degree in a timely manner.

While some students will have valid reasons to take additional time to degree, any student who completes 10 semesters or 130 credits[1] without completing a degree will require mandatory advising in his/her college prior to registration for subsequent semesters. Students with exceptional circumstances, students whose programs include minors, double majors/degrees, enrichment activities or who need to pursue a degree part time will have on record approved plans with approved program benchmarks. Program benchmarks will be developed by the student in consultation with and approved by an advisor.

[1] Degree credits include University of Maryland credits and all applicable transfer credits from other postsecondary institutions. The equivalent semesters applicable to the enrollment limit for transfer credits will be determined by dividing all transfer credits applicable to the degree by 15. However, Advanced Placement (AP) and International Baccalaureate (IB) credits, and credits earned for college courses taken while in high school and prior to matriculation at a postsecondary institution, will not count toward this semester or credit limitation. Such courses may, however, count toward degrees. Summer Session and Winter term will not be included in the semester count. Credits earned during Summer Sessions or Winter terms will be included in the credit count.

(References to the policy: www.ugst.umd.edu/academicsuccess.html (http://www.ugst.umd.edu/academicsuccess.html) and to frequently asked questions: www.ugst.umd.edu/faqs-successpolicy.html (http://www.ugst.umd.edu/faqs-successpolicy.html)).

Academic Integrity and Student Conduct Codes

Academic Integrity

The University of Maryland is an academic community. Its fundamental purpose is the pursuit of knowledge. Like all other communities, the university can function properly only if its members adhere to clearly established goals and values. Essential to the fundamental purpose of the university is the commitment to the principles of truth and academic honesty. Accordingly, the *Code of Academic Integrity* is designed to ensure that the principle of academic honesty is upheld. While all members of the university share this responsibility, the *Code of Academic Integrity* is designed so that special responsibility for upholding the principle of academic honesty lies with the students.

The university's *Code of Academic Integrity* is a nationally recognized honor code, administered by a Student Honor Council. Any of the following acts, when committed by a student, shall constitute academic dishonesty:

- **Cheating:** fraud, deceit, or dishonesty in any academic course or exercise in an attempt to gain an unfair advantage and/or using or attempting to use unauthorized materials, information, or study aids in any academic course or exercise.
- **Fabrication:** unauthorized falsification or invention of any information or citation in any academic course or exercise.
- **Facilitating Academic Dishonesty:** knowingly helping or attempting to help another to violate any provision of this *Code*.
- **Plagiarism:** representing the words or ideas of another as one's own in any academic course or exercise.
- **Self-Plagiarism:** the reuse of substantial identical or nearly identical portions of one's own work in multiple courses without prior permission from the current instructor or from each of the instructors if the work is being submitted for multiple courses in the same semester.

If it is determined that an act of academic dishonesty has occurred, a grade of 'XF' is considered the normal sanction for undergraduate students. The grade of 'XF' is noted on the academic transcript as failure due to academic dishonesty. Lesser or more severe sanctions may be imposed when there are circumstances to warrant such consideration. Suspension or expulsion from the University may be imposed even for a first offense.

Refer to policy for details: *https://www.president.umd.edu/sites/president.umd.edu/files/documents/policies/III-100A.pdf*

Honor Pledge

In 2002, the university adopted an honor pledge. The honor pledge is a reminder that University of Maryland students carry primary responsibility for academic integrity because the value of their degrees depends on it. On all work submitted for assessment that is not

specifically exempted by the instructor, students are encouraged to write and sign the following pledge:

'I pledge on my honor that I have not given or received any unauthorized assistance on this assessment.'

Faculty are urged to emphasize the importance of academic honesty and of the honor pledge as its symbol. Failure to sign the honor pledge is not a violation of the *Code of Academic Integrity (Code),* but neither is it a defense in case of violation of the *Code*. Signing or non-signing of the pledge will not be considered in grading or in student conduct procedures.

For more information regarding the Code of Academic Integrity, the honor pledge, or the Student Honor Council please refer to www.studentconduct.umd.edu ***(***http://www.studentconduct.umd.edu***) or contact the Office of Student Conduct at 301-314-8204.***

Student Conduct

The *Code of Student Conduct* was created to ensure the safety and security of the university community. The Office of Student Conduct seeks to balance the rights and responsibilities of all individuals within the community, while upholding the integrity and values of the university community. The Office fosters a climate of accountability and responsibility for one's actions while educating and supporting students in reaching their full potential as citizens.

Compared to disciplinary systems at many universities, University of Maryland students are given unusual authority and responsibility for management of the campus process. Membership on the University Student Judiciary is an extraordinary educational experience, and opportunity to be of service to the community. Cases that may result in suspension or expulsion are heard by conduct boards, comprised entirely of students from the University Student Judiciary. In such cases, students are accorded substantial procedural protections, including an opportunity for a hearing and an appeal. Less serious cases are resolved in disciplinary conferences conducted by university staff members. Acts of violence, intimidation, disruption, or rioting; substantial theft or vandalism; fraud or forgery; use or distribution of illegal drugs; are forms of misconduct that most frequently result in dismissal from the University. Students accused of violating University disciplinary regulations are encouraged to discuss the allegations with their parents or guardians, an advisor, and with appropriate university staff members.

Prohibited Conduct

A complete list of conduct considered prohibited as well procedures for resolving allegations of misconduct may be found in the *Code of Student Conduct* at www.president.umd.edu/policies (http://www.president.umd.edu/policies/) or through the Office of Student Conduct website at www.studentconduct.umd.edu (http://www.studentconduct.umd.edu).

The following are some examples of what constitutes prohibited conduct by individual students and/or student groups/organizations and are subject to disciplinary action:

- Causing physical harm or apprehension of harm
- Use, possession or storage of any weapon
- Engaging in hazing activities
- Distribution or possession for purposes of distribution of any illegal drug (including cannabis)
- Use or possession of any illegal drug or controlled substances (including cannabis)
- Interfering with the freedom of expression of others
- Use or possession of alcohol under the legal age of consumption
- Provision of alcohol to persons under the legal age of consumption
- Use or possession of false identification
- Theft
- Destruction or damage to property
- Disorderly and disruptive actions

Note: *This* Code *does not apply to student sexual misconduct. The policy and procedures applicable to student sexual misconduct is VI-1.60(A) University of Maryland Sexual Misconduct Policy & Procedures. Refer to Policy for details:* http://www.president.umd.edu/administration/policies/section-vi-general-administration/vi-160a-0 *(*http://www.president.umd.edu/administration/policies/section-vi-general-administration/vi-160a-0*/).*

For more information regarding **student conduct issues**, contact the Office of Student Conduct at 301-314-8204 or visit www.studentconduct.umd.edu (http://www.studentconduct.umd.edu).

Other Policies and Regulations Pertaining to Students

In addition to the *Code of Student Conduct* and the *Code of Academic Integrity* students enrolled at College Park are expected to be aware of, and to abide by, the policies summarized below. Information about where the complete texts may be consulted (other than the *Code of Student Conduct*) follows each summary. Descriptions of these policies are for general information only. Modifications may be made, or other policies added, throughout the year. Please contact the Office of Student Conduct for additional information.

Acceptable Use of Information Technology Resources Policy defines standards for reasonable and acceptable use of university computer resources, including electronic mail. https://president.umd.edu/administration/policies/section-x-miscellaneous-policies/x-100a *(*https://president.umd.edu/administration/policies/section-x-miscellaneous-policies/x-100a/*)*

Campus Parking Regulations cover registration, permits, fees, violations, enforcement, fines, towing and impounding, reviews, carpool programs, special events parking, emergency parking, and a number of other areas. The parking regulations are in effect to help ensure safe and adequate parking for the campus community and are designed to provide parking spaces as equitable as possible for students, faculty, staff and campus visitors. Parking regulations are updated annually and are provided electronically to all who register for parking. For more information visit: http://www.transportation.umd.edu/images/parking/PDFs/parking_regulations.pdf

Event and Guest Services Policies regulate reservation of university facilities, advertising, co-sponsorship, cancellation and postponement, and various other matters relating to programs of student organizations. (Published in the Event and Guest Services Policy Manual. For more information, contact the Center for Campus Life in the Adele H. Stamp Student Union) For more information visit: http://thestamp.umd.edu/

event_guest_services/policies (http://thestamp.umd.edu/event_guest_services/policies/)

Policy on Demonstrations and Leafletting establishes guidelines for demonstrations and picketing. It stipulates that the university will take steps necessary both to protect the right of individuals or groups to demonstrate and to protect the freedom of speech, assembly, and movement of any individual or group. (Adopted by the University Senate, June 2, 1970) For more information visit: http://thestamp.umd.edu/event_guest_services/policies#demonstrationsleafleting (http://thestamp.umd.edu/event_guest_services/policies/#demonstrationsleafleting)

Policy on Hazing defines hazing as recklessly or intentionally:

1. engaging in or enabling an act or situation that subjects another person to the risk of
   a. physical harm;
   b. emotional distress, humiliation, degradation;
   c. harm from unreasonable requirements which interfere with a student's ability to function as a student, including financial requirements outside of membership dues;
   d. diminished physical or mental capacity, or
2. causing or encouraging another person to violate any law or University regulation.

The implied or express consent of another person is not a defense under this section. https://president.umd.edu/administration/policies/section-v-student-affairs/v-100k (https://president.umd.edu/administration/policies/section-v-student-affairs/v-100k/)

Residence Hall Rules define prohibited conduct in and around campus residence halls, buildings, and at Department of Resident Life sponsored activities, in addition to that which falls under the Residence Halls/Dining Services Agreement, *Code of Student Conduct*, and federal, state and local laws. The rules also specify standard sanctions for rule violations, and provide for an adjudication process. For more information, contact the Department of Resident Life or visit www.reslife.umd.edu/communityhandbook/ (http://www.reslife.umd.edu/communityhandbook/).

Sexual Misconduct Policy and Procedures defines prohibited behavior including possible sanctions for violations of the policy, offers guidance for complainants including how to make a formal report to the University and to the police. Additionally, the policy defines confidential resources on campus for reporting. A collection of university and community resources are provided for parties, including possible interim protective measures. For more information contact the Office of Civil Rights and Sexual Misconduct at http://www.ocrsm.umd.edu/

Student Organization Registration Guidelines define student organizations, responsibilities of officers, and registration, and establish types of registration, a registration process, certain privileges of registered student organizations in good standing, sanctions which may result from registration review, and guidelines for constitutions. For more information contact the Student Organization Resource Center located on the ground floor in the Stamp Student Union. For more information visit: https://thestamp.umd.edu/student_org_resource_center_sorc/registration/registration_requirements (https://thestamp.umd.edu/student_org_resource_center_sorc/registration/registration_requirements/)

Academic Records and Regulations

The Office of the Registrar, located on the first floor of the Clarence M. Mitchell Jr. Building, is responsible for maintaining student records and issuing official transcripts.

Absences, Assessment, Attendance, and Syllabus

Absences

Absences from courses in which in-class participation forms a significant part of the work of the course (such as lab or discussion courses) shall be handled by instructors in accordance with the general policies of their academic units.

An excused absence is an absence for which the student has the right to receive, and the instructor has the responsibility to provide, academic accommodation.

Excused absences must be requested promptly and must be supported by appropriate documentation. Excused absences do not alter the academic requirements for the course. Students are responsible for information and material missed on the day of absence. Students are within reason entitled to receive any materials provided to the class during the absence. Students are responsible for determining what course material they have missed and for completing required exercises in a timely manner.

Events that justify an excused absence include:

- religious observances;
- mandatory military obligation;
- illness of the student or illness of an immediate family member;
- participation in university activities at the request of university authorities; and
- compelling circumstances beyond the student's control (e.g., death in the family, required court appearance).

Absences stemming from work duties other than military obligation (e.g., unexpected changes in shift assignments) and traffic/transit problems do not typically qualify for excused absence.

Students claiming excused absence must notify the course instructor in a timely manner and provide appropriate documentation. The notification should be provided either prior to the absence or as soon afterwards as possible. In the case of religious observances, athletic events, and planned absences known at the beginning of the semester, the student must inform the instructor during the schedule adjustment period. All other absences must be reported as soon as is practical. The student must provide appropriate documentation of the absence. The documentation must be provided in writing to the instructor by the means specified in the syllabus.

1. For medically necessitated absences: Students may, one time per course per semester, provide a self-signed excuse as documentation of an absence from a single class (e.g., lecture, recitation, or laboratory session) that does not coincide with a major assessment or assignment due date. For all other medically necessitated absences, students must provide documentation from a physician or the University Health Center, upon request of the course instructor.

2. For all other absences students must provide verifiable documentation upon request (e.g., religious calendar, court summons, death announcement, etc.).

In keeping with USM policy, students shall not be penalized because of observances of their religious holidays and shall be given an opportunity, whenever feasible, to make up within a reasonable time any academic assignment that is missed due to individual participation in religious observances. For all other excused absences, the student must be provided academic accommodation. The accommodation provided should, within reason, neither advantage nor disadvantage either the student or the rest of the class.

If the accommodation is a makeup assessment, it must be timely, at a time and place agreed upon by the instructor and student, cover the same material, and be at the same level of difficulty as the original assessment. In the event that a group of students requires the same makeup assessment, one time and place may be scheduled. The makeup assessment must not interfere with the student's regularly scheduled classes. If makeup work is not feasible, an alternate accommodation for excused absences will be provided. Alternate accommodations will be according to the principles established by the unit offering the course. Students who miss a substantial number of class sessions or course assignments should seek guidance from an academic advisor with respect to academic options.

Extended absences stemming from active military duty are addressed in the USM V-7.00 Policy on Students who are called to Active Military Duty during a National or International Crisis or Conflict. Absences related to a student's disability are addressed in the VI-1.00(D) University of Maryland Disability & Accessibility Policy and Procedures.

Although the university attempts to accommodate the religious beliefs of all of its members, it functions within a secular environment and is limited in the extent to which it can interrupt its normal operations. The president shall determine when it is appropriate for the campus community to restrict rescheduling examinations or other significant assessments on the dates of religious observance.

Assessment

Students can expect to receive a reasonable number of graded assessments or progress reports to permit evaluation of their performance. These assessments shall be returned to the students in a timely manner. Students will have reasonable opportunity to review graded assignments, such as papers and examinations (including the final examination or assessment), after evaluation by the instructor and while materials are reasonably current. Information about assessments and determination of the final course grade will be presented in a course syllabus.

Ordinarily, in-class assessments are given during class hours in accordance with the regularly scheduled time and place of each course. Students are responsible for knowing the information in the syllabus, including dates of assessments and due dates of graded assignments. Assessments may take a variety of forms and need not be classroom-based written examinations.

Final Examination: There shall be a final examination and/or assessment in every undergraduate course. Exceptions may be made with the written approval of the department chair or other appropriate unit administrator.

Each faculty member shall retain, for one full semester (either fall or spring) after a course is ended, the students' final assessments in the appropriate medium. If a faculty member goes on leave for a semester or longer, or leaves the university, the faculty member shall leave the final assessments and grade records for the course with the department chair, the program director, or the dean of the College or School, as appropriate.

All in-class final examinations must be held on the date and at the time listed in the official final examination schedule. Out-of-class final examination or equivalent assessments shall be due on the date and at a time listed in the official final examination schedule. Changes to final examination schedules and locations must be approved by the chair of the department or the dean of the College, or the appropriate designee. However, final examinations or assessments may not be rescheduled to the final week of classes or to Reading Day.

Students may seek to reschedule final examinations so that they have no more than three examinations on any given day. It is the responsibility of the student to initiate the rescheduling or be responsible for taking the examination as originally scheduled. When rescheduling is desired, students should first contact their instructors. Students who encounter difficulty rescheduling examinations with their instructors are advised to contact the dean's office of their academic program for help. Faculty members are expected to accommodate students with legitimate rescheduling requests.

Attendance

Students are expected to take full responsibility for their own academic work and progress. Students, to progress satisfactorily, must meet all of the requirements of each course for which they are registered. Students are expected to attend classes regularly. Consistent attendance offers students the most effective opportunity to gain command of course concepts and materials.

In-class participation may be an ongoing requirement and an integral part of the work of some courses. In-class assessments may occur, sometimes without advance notice. The syllabus will specify expectations about in-class participation and its relationship to the final course grade.

Except in cases where in-class participation forms a significant part of the work of the course, attendance should not be used in the computation of grades; assignment of a course grade on some basis other than performance in the course is prohibited by University policy. Recording student attendance is not required of the faculty.

Syllabus

There shall be a complete course syllabus for the current term made available to students no later than the first day of class at the beginning of each undergraduate course. Any changes to the syllabus made after the first day of class must be announced and must be clearly represented with the date of the revision. The course syllabus will specify in general terms:

- a course description including course objectives;
- the content and nature of assignments;
- the schedule of major graded assessments (e.g., examinations and due dates for projects and papers);
- the examination and/or assessment procedures;
- the mode of communication for excused absences;
- the basis for determining final grades, including if the plus/minus grading system will be used and the relationship between in-class participation and the final course grade;

- reference to the list of course-related policies maintained by the Office of Undergraduate Studies.

Resolution of Problems

Any concerns regarding the syllabus, attendance, absences and assessment should be addressed to the course instructor. In the case of unresolved concerns, students are encouraged to consult the following policies for appropriate resolution.

Relevant University Policies:

Academic Clemency

III-1.30(A) University of Maryland Policy and Procedures on Academic Clemency (Approved by the President August 1, 1991, Amended April 21, 2016)

Undergraduate degree-seeking students who have re-enrolled at the University of Maryland in pursuit of their initial baccalaureate degree are eligible, after a separation of at least five calendar years from the University (determined by the last day of the last attended semester), for academic clemency. Academic clemency is granted one time only, and subsequent requests will be denied.

Application for academic clemency must be filed with the Office of Undergraduate Studies (or designee) as soon as possible, and before the end of the first semester of the student's return to the University. Clemency will be recorded on the student's record following the completion of the student's first semester of re-enrollment. Under clemency, up to 16 attempted credits of D+, D, D-, and F grades from courses previously completed at the University of Maryland will be removed from the calculation of the student's cumulative grade point average (GPA).

Attempted credits and grades for which clemency is granted will:

1. remain on the student's transcript;
2. not be used to satisfy degree requirements;
3. be excluded from the student's cumulative GPA calculation;
4. remain included in the calculation of Latin Honors; and
5. adhere to the institution's repeat guidelines and be included in the student's repeat limits.

The granting of clemency is contingent upon the student's satisfactory completion of the initial semester of re-enrollment, and will be recorded by the university at that time. If the student's first semester of registration upon re-enrollment is canceled, or the student withdraws from the semester, clemency will not be granted (and the student will retain the option of filing for clemency in the future).

Refer to policy for details: http://president.umd.edu/administration/policies/section-iii-academic-affairs/iii-130a (http://president.umd.edu/administration/policies/section-iii-academic-affairs/iii-130a/)

Academic Dismissal and Probation

Consistent with the University of Maryland Student Academic Success - Degree Completion Policy (p. 61), it is the intent of the University that its students make satisfactory progress toward their degree objectives, and achieve academic success. If a student has special circumstances that make it impossible to complete a normal course load, the student must meet with an advisor to discuss the circumstances, the student's plans for continued progress toward a degree, and the implications for continued enrollment.

The following guidelines for retention of students refer separately to semester (Fall and Spring) and Winter or Summer terms:

1. Academic retention is based solely on grade point average (GPA). A minimum of 120 successfully completed course credits is required for graduation in any degree curriculum. Individual colleges, schools, and departments may establish higher requirements for graduation. Students must consult the appropriate college, school, or department for specific information.
2. Satisfactory Performance is defined as the achievement of a cumulative GPA of 2.0 or above. Students whose semester GPA falls below 2.0 are encouraged to meet with their advisors regarding the development of a plan that will appropriately respond to the student's academic difficulties and lead to academic improvement. Individual colleges, schools and departments may establish separate requirements for mandatory advising. Students must consult the appropriate college, school, or department for specific information.
3. Unsatisfactory Performance is defined as the achievement of a cumulative GPA of less than 2.0. Students will be placed on Academic Probation following any semester in which a 2.0 cumulative GPA is not achieved. Normally, students will be placed on Academic Dismissal if they are unable to raise their cumulative GPA to 2.0 or higher at the end of their probationary semester.

Academic Dismissal

1. Students who have earned 60 or more credits will be dismissed if their cumulative GPA remains below 2.0 for two consecutive semesters (excluding winter and summer terms). Students who attain a cumulative GPA of 2.0 in the preceding winter or summer term will not be subject to dismissal.
2. Students who have earned fewer than 60 credits will be dismissed following any probationary semester in which they fail to attain a minimum 2.0 semester GPA and complete the requisite credits detailed under Academic Probation. Students who attain a cumulative GPA of 2.0 in the preceding winter or summer term will not be subject to dismissal.
3. Students who have been academically dismissed and who are reinstated will be academically dismissed again if a cumulative GPA of at least 2.0 is not achieved by the end of the first semester after reinstatement. Reinstated students will not be allowed to add or drop courses, or to register during any semester without the approval of an academic advisor in their college, unless a cumulative GPA of at least 2.0 is achieved.

4. The Office of the Registrar will notify the appropriate University offices when students are academically dismissed and will note the dismissal on the student's academic record.
5. The Student Success Office will notify students via email. The email will include a statement that registration for the next semester (excluding winter or summer terms) will be canceled.

Academic Probation

Students will be placed on academic probation if their cumulative GPA falls below 2.0. Normally, a student is expected to attain a 2.0 cumulative GPA at the end of any probationary semester. Students who fail to achieve a 2.0 cumulative GPA at the end of their probationary semester may be academically dismissed, depending on their credit level as detailed below.

1. Students who have earned 60 credits or more will be dismissed from the University in the event their cumulative GPA remains below 2.0 at the end of their probationary semester. Students who are on probation and attain a cumulative GPA of 2.0 at the end of a winter or summer term will not be subject to dismissal in the subsequent semester.
2. Students who are on academic probation and have earned fewer than 60 credits will be permitted to continue on academic probation if a minimum semester GPA of 2.0 is achieved in each semester of probation.
   a. Full-time students must complete 9 or more credits in each semester of probation. A completed credit is defined as credit for any course in which a student receives a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-. F, P, or S.
   b. Students who meet this requirement will be permitted to continue on probation until the close of the semester (excluding winter and summer terms) in which they attain a cumulative GPA of 2.0.
   c. However, students who are on probation will be dismissed if they have not achieved a cumulative GPA of 2.0 at the end of the semester in which they complete 60 credits.
   d. Students who are on probation and attain a cumulative GPA of 2.0 at the end of a winter or summer term will not be subject to dismissal in the subsequent semester.
3. The Office of the Registrar will notify students when they are placed on academic probation. Such notices will include a requirement that the students consult an academic advisor in their colleges early in the probationary semester and in no event later than the beginning of the early registration period for the next semester. The Office of the Registrar will notify the colleges of students who are placed on academic probation and will note the academic probationary status on the students' academic record.
   a. The academic advisors will assist students in developing appropriate plans for achieving satisfactory academic performance.
   b. Students who are placed on probation will not be allowed to add or drop courses, or register without the approval of an academic advisor in their college.

Application for Academic Reinstatement

1. Students who have been dismissed may apply to the Faculty Petition Board for reinstatement on the grounds of mitigating circumstance.
2. The application for reinstatement must include a written statement explaining the circumstances leading to dismissal and a proposed plan to remedy those circumstances. Students are encouraged to consult with their academic advisors prior to submitting their applications to the Faculty Petition Board.
3. Applications for reinstatement can be completed at http://studentsuccess.umd.edu (http://studentsuccess.umd.edu/)/.

Dismissal of Delinquent Students

The University reserves the right to request at any time the withdrawal of a student who cannot or does not maintain the required standard of scholarship, or whose continuance in the University would be detrimental to his or her health, or the health of others, or whose conduct is not satisfactory to the authorities of the university. Additional information about the dismissal of delinquent students may be found in the Code of Student Conduct.

Faculty Petition Board

1. The Student Success Office is responsible for submitting the reinstatement applications for review to the Faculty Petition Board, which is comprised of faculty appointed by the Senior Vice President for Academic Affairs and Provost. The Board is the sole arbiter of reinstatement applications.
2. The Faculty Petition Board has the discretion to establish the terms for reinstatement, including the requirements for achieving academic improvement and developing an academic plan for success.
3. The Student Success Office will forward the Board's decision to students at the email address supplied on the application.

Computation of Grade Point Average

GPA is computed by dividing the total number of quality points accumulated in courses for which a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, or XF has been assigned by the total number of credits attempted in those courses. Courses for which a mark of P, S, I, NGR or W has been assigned are not included in computing the GPA. Each letter grade has a numerical value: A+=4, A=4, A- = 3.7; B+=3.3, B=3, B- = 2.7; C+=2.3, C=2, C- = 1.7; D+=1.3, D=1, D- = 0.7; F = 0. Multiplying this value by the number of credits for a particular course gives the number of quality points earned for that course.

See Repeat Course Guidelines (p. 70) to determine the effect of repeated courses in the calculation of GPA.

Election to Phi Beta Kappa

Organized in 1776, Phi Beta Kappa is the oldest and most widely respected academic honorary society in the United States. Invitation to membership is based on outstanding scholastic achievement in studies of the liberal arts and sciences. Student members are chosen entirely on the basis of academic excellence; neither extracurricular leadership nor service to the community is considered. Election is held twice a year, once in the fall and once in the spring semester.

The process for election to Phi Beta Kappa involves a review in November for those who graduated the previous August or those who will graduate in December, and a review in March for those graduating in May. For juniors the review occurs in March. The review is conducted by a select committee of faculty members representing the humanities, social sciences, and natural sciences. The committee reviews transcripts of all students with qualifying grade point averages. Whether a student qualifies for membership in Phi Beta Kappa depends on the quality, depth, and breadth of the student's record in liberal courses. The final decision

for election rests with the faculty committee and faculty Phi Beta Kappa members.

Requirements for consideration of membership in Phi Beta Kappa at the University of Maryland, College Park campus chapter include:

1. **Grade Point Average:** For seniors a grade point average of at least 3.75 overall as well as in all liberal arts and sciences courses taken. For juniors the minimum grade point average is at least 3.85. National PBK rules, however, require that no more than 20 percent of the students elected in any one year can be juniors, so the actual minimum grade point average for junior admission may be higher than 3.85.
2. **Residence:** At least 60 credit hours must be taken at the University of Maryland, College Park.
3. **Liberal Courses:** For seniors, at least 90 credit hours in courses in the liberal arts and sciences (where 'liberal' courses are to be distinguished from professional or technical courses), at least 45 of which must be taken at the University of Maryland, College Park. For juniors, at least 75 total credit hours must be completed, at least 60 of which are in courses in the liberal arts and sciences; of these, at least 45 must be taken at the University of Maryland, College Park. Students would ordinarily be majors in one of the programs in the liberal arts and sciences. However, students with the requisite number of liberal credit hours can be admitted if they have completed at least 5 courses (15 credit hours or more) for seniors and for juniors in a single liberal arts and sciences department/program at UMCP.
4. **Required courses:** One semester of mathematics, which must be fulfilled by college-level credit hours (including AP or IB credit, but not exemption by SAT), and two college semesters of the same foreign language at the elementary level, or at least one semester above that level. The language requirement may also be satisfied by completion of four years of the same language other than English at the high-school level or above, or the equivalent. Students with such a foreign language background who wish to be considered for admission to Phi Beta Kappa should notify the Phi Beta Kappa office (2110 Marie Mount Hall) in writing and provide the appropriate documentation (an official high school transcript) prior to the month of consideration. Juniors providing late documentation (after March 1) will be considered only as seniors.
5. **Distribution:** The credit hours presented for Phi Beta Kappa must contain at least nine liberal arts credit hours in each of the three following areas:
   a. arts and humanities,
   b. behavioral and social sciences,
   c. natural sciences and mathematics (including a laboratory science course).
   The laboratory science course cannot be fulfilled by AP or IB credit. All the courses in at least two of the three required areas must be completed at the University of Maryland, College Park, and in the remaining area no more than one AP or IB course can be used to fulfill the requirement. In general, Phi Beta Kappa will accept the General Education classification of courses. AP or IB History courses will be considered as satisfying only the arts and humanities requirement.

Students with more challenging courses and moderately high grade point averages are preferred by the committee to those with higher grade point averages but a narrow range of courses. Minimal qualifications in more than one area may preclude election to Phi Beta Kappa.

Recommended Criteria Include:

- Regular grades (rather than pass/fail) in mathematics, foreign language courses, and distribution areas.
- Some traditional social sciences and humanities courses that require written essays and papers. (Note that internships may be counted as professional courses and not as liberal courses).

Meeting the above requirements does not guarantee election to Phi Beta Kappa. The judgment of the resident faculty members of Phi Beta Kappa on the quality, depth, and breadth of the student's record is the deciding factor in every case. Any questions about criteria for election to Phi Beta Kappa (including equivalency examinations in foreign languages) should be directed to the Phi Beta Kappa Office, Dr. Christina Walter, pbk@umd.edu.

Graduation Applications and Latin Honors

Graduation Applications

Each candidate for a degree or certificate must file a formal application with the Office of the Registrar. The deadline for application is the end of the schedule adjustment period for the semester in which the student plans to graduate, or at the end of the first week of the second summer session for August degrees.

In all cases, graduation applications must be filed at the beginning of the student's final semester before receiving a degree. The graduation applications are available on the internet at www.testudo.umd.edu (http://www.testudo.umd.edu) or at the Office of the Registrar, 1st floor Clarence M. Mitchell Jr. Building.

Latin Honors

Summa cum laude, magna cum laude and cum laude are the highest Latin honors that the University bestows for sustained excellence in scholarship. They generally are awarded to the top 10% of all students graduating in each College or School, and all students receiving at least a 3.9 grade-point average. Summa cum laude is awarded to students with a GPA equal to or greater than the highest two percent of GPAs from the specific College or School averaged over the previous academic year, magna cum laude to the next highest three percent, and cum laude to the following five percent. To be eligible for this recognition, at least 60 semester hours must be earned at the University or at a program in which credit earned is counted as University of Maryland, College Park, resident credit (contact the Office of the Registrar to determine program eligibility). No more than 6 credits taken pass/fail or satisfactory/fail grade modes shall count toward the 60-hour minimum. No student with a grade-point average of less than 3.3 will be considered for a Latin honor. See the Office of the Registrar's website (www.registrar.umd.edu (http://www.registrar.umd.edu)) for a list of minimum GPA cut-offs (for the current year) for each honor designation, published by College or School.

Honors (Dean's List)

Semester Academic Honors (Dean's List) are awarded to students who - within any given semester (excluding winter and summer terms) - complete 12 or more credits with a semester GPA of 3.5 or higher. This recognition is noted on the student's academic record.

Please Note: Courses with grades of P and S are excluded from the calculation.

Incompletes

The mark of 'I' is an exceptional mark that is an instructor option. It is given only to a student whose work in a course has been qualitatively satisfactory, when, because of illness or other circumstances beyond the student's control, he or she has been unable to complete some small portion of the work of the course. In no case will the mark 'I' be recorded for a student who has not completed the major portion of the work of the course.

1. This Incomplete Contract form must be submitted to the dean of the college offering the course within six weeks after the grade submission deadline (if a grade hasn't already been submitted). If any Incomplete Contract isn't completed within the six week period, the instructor will convert the 'I' to the appropriate grade.
2. The student will remove the 'I' by completing work assigned by the instructor; it is the student's responsibility to request arrangements for the completion of the work. The work must be completed by the time stipulated in the contract, usually by the end of the next semester, but in any event, no later than one year. If the remaining work for the course as defined by the contract is not completed on schedule, the instructor will convert the 'I' to the grade indicated by the contract.
3. Exceptions to the stated deadline may be granted by the student's dean (in negotiation with the faculty member or the faculty member's dean) upon the written request of the student if circumstances warrant further delay.
4. If the instructor is unavailable, the department chair, upon request of the student will make appropriate arrangements for the student to complete the course requirements.
5. It is the responsibility of the instructor or department chair concerned to submit the grade promptly upon completion of the conditions of the Incomplete Contract.
6. The 'I' cannot be removed through re-registration for the course or through credit by examination. An 'I' mark is not used in the computation of quality points or cumulative grade point averages.

Marking System

The following symbols are used on the student's permanent record for all courses in which the student is enrolled after the initial registration and schedule adjustment period: A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, XF, I, P, S, W, and AU. These marks remain as part of the student's permanent record and may be changed only by the original instructor on certification, approved by the department chair and the dean, that an actual mistake was made in determining or recording the grade.

- A+, A, A- denotes excellent mastery of the subject and outstanding scholarship. In computations of cumulative or semester averages, a grade of A+ or A will be assigned a value of 4.0 quality points per credit hour. A grade of A- will be assigned 3.7 quality points per credit hour.
- B+, B, B- denotes good mastery of the subject and good scholarship. A grade of B+ is assigned a value of 3.3 quality points per hour. A grade of B is assigned a value of 3.0 quality points per credit hour. A grade of B- is assigned a value of 2.7 quality points per hour.
- C+, C, C- denotes acceptable mastery of the subject. A grade of C + is assigned a value of 2.3 quality points per hour. A grade of C is assigned a value of 2.0 points per credit hour. A grade of C- is assigned a value of 1.7 quality points per credit hour.
- D+, D, D- denotes borderline understanding of the subject, marginal performance, and it does not represent satisfactory progress toward a degree. A grade of D+ is assigned 1.3 points per credit hour. A grade of D is assigned a value of 1.0 quality point per credit hour. A grade of D- is assigned 0.7 quality points per credit.
- F denotes failure to understand the subject and unsatisfactory performance. A grade of F is assigned a value of 0.0 quality points per credit hour.
- XF denotes failure due to academic dishonesty. An XF is treated in the same way as F for the purposes of cumulative average.
- The mark of 'I' is an exceptional mark that is an instructor option. It is only given to a student whose work has been qualitatively satisfactory, when, because of illness or other circumstances beyond the student's control, he or she has been unable to complete some small portion of the work of the course. In no case will the mark 'I' be recorded for a student who has not completed the major portion of the work of the course. For further explanation see 'Incompletes' below.
- The mark of P is a student option mark, equivalent to a grade of D- or better. This grade is not used in any computation of quality points or cumulative average totals at the end of the semester. The student must inform the Office of the Registrar of the selection of this option by the end of the schedule adjustment period. For a full explanation see 'Pass-Fail Policy' below.
- S is a department option mark that may be used to denote satisfactory performance by a student in progressing thesis projects, orientation courses, practice teaching, and the like. In computation of cumulative averages a mark of S will not be included.
- W is used to indicate withdrawal from a course after the end of the schedule adjustment period. For information and completeness, the grade of W is placed on the student's permanent record by the Office of the Registrar. The instructor will be notified that the student has withdrawn from the course. This grade is not used in any computation of quality points or cumulative average totals at the end of the semester.
- AU denotes a student registering to audit a course or courses which have been designated as available under the audit option and in which space is available. The notation AU will be placed on the transcript for each course audited. A notation to the effect that this symbol does not imply attendance or any other effort in the course will be included on the transcript in the explanation of the grading system.

Refer to policy for details: http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600a *(*http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600a/*)*

Additional Record Notations

In addition to the above marks, there are provisions for other record or transcript notations that may be used based on university policy and individual circumstances.

Duplicate Course

DUPLICATE COURSE is used to indicate two courses with the same course content. The second course is counted in the cumulative totals unless an exception is made by the dean.

Acd clemency-removed

ACD CLEMENCY-REMOVED is noted when academic clemency has been granted for a course. Up to 16 credits can be removed from the calculation if the student's cumulative grade point average.

Mid-Term Grades

Mid-Term Grades shall be submitted for undergraduate students as detailed below. These grades are an important component of student success, as they provide timely feedback to students about the University's academic expectations. Mid-term Grades are used to inform students of their performance in the course during roughly the first half of the semester; they are used for advising purposes and are not recorded on the student's academic transcript.

1. Mid-Term Grades must be submitted for all of the following:
   a. Undergraduate students enrolled in their first year (fewer than 30 credits earned at the University of Maryland),
   b. Undergraduate students in all 0xx, 1xx, and 2xx level courses,
   c. Student athletes in undergraduate courses.
2. Mid-Term Grades are due eight (8) weeks after the start of the semester.
3. Department Chair or Unit Head must approve any courses for which Mid-Term Grades cannot be issued.
4. Instructors who have students who require Mid-Term Grades will be prompted to submit Mid-Term Grades. If instructors do not have such students, they will not need to submit Mid-Term Grades.
5. Mid-Term Grades should be issued in the grading mode for the course.
6. Satisfactory/unsatisfactory (S/U) marks may be used.
7. All Mid-Term Grades must be submitted as specified by the Office of the Registrar.

Refer to policy for details: http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600b (http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-600b/)

Pass-Fail Grading

The following Pass-Fail policy was approved by the Board of Regents for implementation beginning with the Spring 1989 semester.

1. To register for a course under the pass-fail option, an undergraduate must have completed 30 or more credit hours of college credit with a GPA of at least 2.0. At least 15 of these credit hours must have been completed at the University of Maryland, College Park with a University of Maryland GPA of at least 2.0.
2. Courses for which this option applies must be electives in the student's program. The courses may not be college, major, field of concentration, or general education program requirements.
3. Only one course per semester may be registered for under the pass-fail option.
4. No more than 12 semester hours of credit may be taken under the pass-fail option during a student's college career.
5. Students may not choose this option when re-registering for a course.
6. When registering under the pass-fail option, a course that is passed will count as hours in the student's record but will not be computed in the grade point average. A course that is failed will appear on the student's record and will be computed both in the overall average and the semester average.
7. Students registering for a course under the pass-fail option are required to complete all regular course requirements. Their work will be evaluated by the instructor by the normal procedure for letter grades. The instructor will submit the normal grade. The grades A+, A, A-, B+, B, B-, C+, C, C-, D+, D or D- will automatically be converted by the Office of the Registrar to the grade P on the student's permanent record. The grade F will remain as given. The choice of grading option may be changed only during the schedule adjustment period for courses in which the student is currently registered.

Repeat Course Guidelines

The following repeat course guidelines apply to ALL courses that may not be repeated for additional credit.

1. The following students are required to follow the repeat guidelines effective Fall 1990:
   a. All new freshmen who began at University of Maryland, College Park Fall 1990 and after.
   b. Transfer students from schools other than Maryland community colleges who began at University of Maryland, College Park, Fall 1990 and after. This includes transfer students from another University of Maryland institution.
2. There is a limit to the number of times a student may repeat a course. Students may have one repeat of any course in which they earned an A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F, P, S, W, NG or Audit; they cannot be registered (after the schedule adjustment period) for any given course more than twice. A student's dean's office may grant an exception allowing an additional course repeat. In this case, students must present a plan for successfully completing the course. All attempts *will* be counted toward the total limit for repeatable credits.

   Note: *Students may not choose the Pass-Fail option when re-registering for a course or re-register for a course in which a grade of 'I' has been noted.*
3. Students may repeat no more than 18 credits. Additionally, if a student withdraws from all courses during a semester, those courses are not included in this limit.
4. The grade point average will include all attempts at a given course that result in a grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, or F. However, to help freshmen and transfer students adjust to the University of Maryland, College Park, the following two exceptions allow for the cumulative GPA to be calculated so that only the higher grade is included:
   a. When the repeated course was taken within the student's first semester at University of Maryland, College Park, or
   b. When the repeated course was taken within the student's first 24 credit hours attempted (including transfer credits) or within the semester during which the student reached the 24th credit hour attempted. Advanced Placement Exam credits do not count toward the 24 credit count.
5. Any grade earned in prior attempts of a repeated course will appear on the student's transcript, regardless of whether the grade is dropped from, or included in, the cumulative grade point average.
6. Repeat by transfer: If a student repeats by transfer a course that was taken before or during the semester in which the student reached 24 credits attempted (including transfer credits) and the transfer grade

is higher, then the original grade in the course will be excluded from the GPA calculation.

a. If the course was taken after the semester in which the student reached 24 credits attempted, the original grade remains in the GPA calculation.

Repeat Guidelines Prior to Fall 1990

The following students follow the previous repeat guidelines:

- Students who began at University of Maryland, College Park, before the Fall 1990 semester (including students who enter University of Maryland, College Park for summer 1990).
- Transfer students who began at a Maryland community college before Fall 1990.
- UMBC College of Engineering students who began before 1990.

The highest grade received in the repeated course is used to calculate the GPA. A student may repeat any course; however no student may be registered for a course more than three times.

If a student repeats a course in which he or she has already earned a mark of A, B, C, D, P, or S, the subsequent attempt shall not increase the total hours earned toward the degree. Only the highest mark will be used in computation of the student's cumulative average. Under unusual circumstances, the student's dean may grant an exception.

Degree Information

Combined Bachelor's/Master's Programs

In a combined bachelor's/master's program, some graduate level courses initially taken for undergraduate credit may also be applied towards the graduate credit requirements for a master's degree program at the University of Maryland. A bachelor's/master's program may be developed for an individual student, or it may be a structured program.

Individual Student Bachelor's/Master's Program

A program may be developed by an individual student in consultation with his/her academic advisor. Such a program is available only to students whose academic performance is exceptional. It is to be developed according to the individual career interests and goals of the student and should be an integrated learning experience rather than merely the completion of a certain number of graduate and undergraduate credits. The program requires the approval of the directors of both the undergraduate and the graduate programs involved and of the Dean for Office of Undergraduate Studies and the Dean of the Graduate School. Normally, no more than nine credits of graduate courses applied to the bachelor's degree may be counted also for graduate credit in an individual student program. Courses to be double-counted must be at the 600-level or above and must be passed with at least a 'B' grade. Individual study courses, internships, or courses given credit by examination are not eligible. The credits to be double-counted will be designated as applicable to the graduate program after the student receives the bachelor's degree and matriculates in the Graduate School. This designation will be canceled if the student withdraws from the graduate program before completing the master's degree.

Structured Bachelor's/Master's Program

A structured bachelor's/ master's program is an articulated curriculum combining an existing undergraduate program and an existing master's program at the University of Maryland, offered by the same or by different departments. Such a program is to be designed for students whose academic performance is exceptional and should be an integrated learning experience rather than merely the completion of a certain number of graduate and undergraduate credits. A proposal for such a program should be submitted by the college(s) housing the academic programs concerned and requires the approval of the Graduate Council, the Graduate Dean, the Senate PCC Committee, and the Provost.

Necessary features of a structured bachelor's/master's program include the following:

1. There must be specific requirements for admission to the combined program that speak to the exceptional performance of the students to be admitted. At a minimum, students accepted for the program must be clearly admissible to the graduate program portion.
2. The program should be designed so as not to unduly delay the student's receipt of their bachelor's degrees. Taking graduate credits should not unduly limit the breadth of the student's experience through premature specialization.
3. All requirements of the bachelor's program and of the master's program must be completed to receive the two degrees. Where appropriate, graduate courses taken while an undergraduate may substitute for courses required in the undergraduate major program.
4. The student may be offered deferred admission to the graduate school at the end of the Junior year program, subject to completion of the senior year program in a timely fashion and with a specified level of achievement. Formal admission to the graduate school will require completion of all requirements for the bachelor's degree.
5. The credits to be double-counted will be designated as applicable to the graduate program after the student receives the bachelor's degree and matriculates in the Graduate School. This designation will be canceled if the student withdraws from the graduate program before completing the master's degree.

A structured bachelor's/master's program may normally include up to nine credits of graduate level courses (600-level and above) that are counted both for the bachelor's program and the master's program. More than nine double-counted credits may be allowed if both of the following conditions are satisfied.

1. The additional graduate credits applied to the undergraduate program do not unduly limit the breadth of the student's experience through premature specialization. This condition may be satisfied, for example, if the graduate credits substitute for courses required in the undergraduate program that would have been taken in any case, but at a less advanced level.
2. The master's program requires substantially more than thirty credits. This condition will be deemed to be satisfied if the combined program, with double-counting, still requires 150 or more credit hours to complete.

Degree Requirements

The requirements for graduation vary according to the character of work in the different colleges, schools, departments and academic units. It is the responsibility of the colleges, schools, departments and other academic units to establish and publish clearly defined degree requirements. Responsibility for knowing and meeting all degree requirements for graduation in any curriculum rests with the student. Specific degree requirements are listed in this catalog under the college and/or department as appropriate.

Each student should check with the proper academic authorities no later than the close of the junior year to ascertain his or her standing with respect to advancement toward a degree. For this purpose, each student should be sure to review their semester grades and unofficial transcript on the Testudo website (www.testudo.umd.edu (http://www.testudo.umd.edu)) at the close of each semester or request a semester grade report.

Completion of Interrupted Degree

Students whose registration at the University of Maryland, College Park, has lapsed for more than 10 years shall be required to complete a minimum of 15 credit hours at College Park after their return to campus in order to earn a baccalaureate degree.

Recommendations about courses needed to satisfy the remaining degree requirements will be made at the department level, with approval of the Dean's Office required. The reason for requiring these credits is that many fields change sufficiently in 10 years to require that students take current courses if they are to be awarded a current degree. Exceptions to the requirement for a minimum of 15 credits earned at College Park upon return to the campus can be recommended by the Deans for approval in the Office of the Vice President for Academic Affairs.

Credit Requirements

No baccalaureate degree will be awarded in instances where fewer than 120 credit hours have been earned. Many undergraduate curricula at the University of Maryland, College Park, require more than 120 credits. It is the responsibility of each student to familiarize himself or herself with the requirements of particular curricula. The student is urged to seek advice on these matters from the departments, colleges, or the Office of the Dean for Undergraduate Studies. To earn a baccalaureate from the University of Maryland, College Park, a minimum of 30 credits must be taken in residence (see below).

Credits in Residence

1. All candidates for undergraduate degrees from the University of Maryland, College Park, must take a minimum of 15 credits in courses numbered 300 or above, including at least 12 credits in the major field.
2. All candidates for undergraduate degrees from the University of Maryland, College Park must take a minimum of 30 credits in residence. Normally these 30 credits will be the final 30 credits counted toward the degree. However, credits from University-approved study abroad and internship programs, and a maximum of 6 credits that are not part of such programs, may be included in the final 30 if approved in advance by the dean of the academic unit from which the student expects to receive the degree.

Enrollment in Majors

A student who is eligible to remain at the University of Maryland, College Park, may transfer among curricula, colleges, or other academic units except where limitations on enrollments have been approved. By the time they complete 60 credits, students are expected to declare a degree-granting major. Students must be enrolled in the major program from which they plan to graduate, when registering for the final fifteen hours of the baccalaureate program. This requirement also applies to the third year of the combined, pre-professional degree programs. Also see information on double majors and double degrees below.

Grade Point Average

A minimum cumulative 2.0 grade point average is required for graduation in all curricula. A higher average may be required by the individual department, college, school, or program.

Students who matriculated to the University in Fall 2012 and after must have a minimum 'C' (2.00) cumulative grade point average across all courses used to satisfy major degree requirements, minor requirements, and undergraduate certificate requirements, respectively. Individual department, college, school, or program requirements may exceed this minimum.

Refer to policy for details: http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-700a *(*http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-700a/*)*

Minors

Minors afford students the opportunity to pursue a limited but structured concentration in a coherent field of study outside their major. The minor may be a truncated version of a major or a distinctive intellectual subset of a discipline. Minors are not offered in every field of study. Students should inquire with departments for current availability of minors or see individual listings on this site.

The structures of minors vary in detail, but, with rare exceptions, they all require no fewer than 15 and no more than 24 credits with at least 9 credits in upper division courses (300-level or above). No more than six credits (or two courses) may be applied to satisfy both the requirements of a minor and a major program. No course may be used to satisfy the requirements of more than one minor. All courses taken for a minor must be completed with a minimum grade of 'C-'. A minimum C (2.00) cumulative grade point average across all courses used to satisfy the minor is also required.

To ensure appropriate academic advising, students who wish to pursue a minor should inform both the college responsible for their major and the unit offering the minor as early as possible, but in no case later than one full academic year before the expected date of graduation. When a student has completed all requirements for the minor, the unit offering the minor shall notify the student's college, which verifies that the student has met all requirements and officially notifies the Office of the Registrar. The completion of a minor is posted on the student's official transcript only when the student completes all requirements for the bachelor's degree.

In February 2004, the University Senate voted to phase out academic citations and replace them with minors. Students pursuing an academic citation should contact the respective department or program for information on this conversion process.

Second Majors and Second Degrees

Post-Baccalaureate Second Degree

Students who matriculate to the University with a bachelor's degree from any regionally accredited college or university will be considered to have satisfied the University's general education requirements, regardless of when the degree was received.

Second Degrees Taken Sequentially

A student who has completed the requirements for, and has received one baccalaureate and who wishes to earn a second degree from the university must satisfactorily complete all of the prescribed requirements for the second degree and enough additional credits so that the total, including all applicable credits earned at the university or elsewhere, is at least 150 credits. At least 18 of the credits applied to one degree must be in course work not applied to the requirements of the other degree program. In no case will a second baccalaureate be awarded to a student who has not completed a minimum of 30 credits in residence at the university.

Second Degrees Taken Simultaneously

A student who wishes to receive two bachelor's degrees simultaneously must satisfactorily complete the regularly prescribed requirements of both degree programs and a minimum of 150 credits. At least 18 of the credits applied to one degree must be in course work not applied to the requirements of the other degree program. As early as possible, but in no case later than one full academic year before the expected date of graduation, the student must file with the department or programs involved, as well as with the appropriate deans, formal programs showing the courses to be offered to meet the major, supporting area, college, and general education programs. If two colleges are involved in the double degree program, the student must designate which college will be responsible for the maintenance of records and certification of general education requirements. Final approval of a double degree program must be obtained from each of the appropriate departments and college(s).

Second Majors

A student who wishes to complete a second major concurrently with his or her primary major of record must obtain written permission in advance from the appropriate departments or programs and colleges. As early as possible, but in no case later than one full academic year before the expected date of graduation, the student must file with the department or programs involved and with the appropriate deans, formal programs showing the courses to be offered to meet requirements in each of the majors and supporting areas as well as those of the college and general education programs. A student who wishes to add a Limited Enrollment Program as a second major must do so at the earliest possible opportunity to assure that specific credit and GPA requirements can be met. In order to obtain approval, students must complete all of the requirements specified for both the primary and secondary major. Courses taken for one major may be counted as appropriate as part of the degree requirements for the general education programs. If two colleges are involved in the double major program, the student must designate which college will be responsible for the maintenance of records and certification of general education requirements. Final approval of a double major program must be obtained from each of the appropriate departments and college(s).

Student Academic Success and Degree Completion

The goal of the Student Academic Success-Degree Completion Policy (http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-800a (http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-800a/)) is to promote undergraduate student success. The policy establishes a structured framework to guide all students to completion of an undergraduate degree within a reasonable period of time. Academic units provide 4-year templates that students can use to develop a program of study that will meet the course requirements for a degree. Students are responsible for developing plans of study, with the assistance of their academic advisers. Academic units monitor student progress and assist students at risk of falling behind benchmarks in their plans. The policy in essence establishes a process to provide a pathway to completion of a degree for each student, initially created and then adjusted over time as needed to meet each student's particular circumstances. The policy is described in more detail in the section on Academic Advising.

(References to the policy: www.ugst.umd.edu/academicsuccess.html (http://www.ugst.umd.edu/academicsuccess.html) and to frequently asked questions: www.ugst.umd.edu/faqs-successpolicy.html (http://www.ugst.umd.edu/faqs-successpolicy.html)).

Prior Learning Credit (A/S Level, AP, BMT, CLEP, Credit-by-Exam, IB)

The University of Maryland provides students with several opportunities to receive undergraduate credit for knowledge and achievements gained through prior learning/competency-based education. Students may earn up to one-half of the credits required for their baccalaureate degree through Prior Learning Credit (PLC). Usually, this is no more than 60 credits. No more than 30 of these credits can be from College Level Examination Program (CLEP).

The University of Maryland recognizes the following as PLC:

- Advanced Level/Advanced Subsidiary Level (A-Level/AS-Level)
- Advanced Placement (AP)
- Basic Military Training (BMT)
- College-Level Examination Program (CLEP)
- Departmental Proficiency Exams (Credit-by-Exam)
- International Baccalaureate (IB)

All PLC that is awarded credit by the University of Maryland, with the exception of Credit-by-Exam, is recorded as prior learning credit at the top of the student's transcript and will be included in the total number of credits earned. Credits earned through Credit-by-Exam are considered resident credit and posted under the semester in which the exam was taken. *Students will not receive credit for both passing an examination and completing an equivalent course.*

Students should inform their advisor they have received or anticipate receiving credit for AP, IB, or A-Level/AS-Level exams. This information may impact placement into courses required for their degree.

Credit for AP, IB, A-Level/AS-Level and CLEP is awarded based on the approval of the department overseeing the course content and is subject to ongoing departmental reevaluation.

Even if a student has already been awarded credit for one of these exams at another institution, the credit will be reevaluated by the University of Maryland. The score received on the exam must be equal to the minimum score the University of Maryland accepted at the time the test was taken, otherwise, the exam will not be awarded PLC. The University of Maryland must receive an official score report directly from the organization/board that administered the exam for PLC to be awarded.

Duplicate credit will not be awarded for passing an exam and completing an equivalent course. ***Credit received in a course at the University of Maryland shall supersede any credit from AP, IB, A-Level/AS-Level, or CLEP.*** A

student who has earned any grade, passing or otherwise, in a course at the University of Maryland shall not subsequently receive credit for that course by AP, IB, A-Level/AS-Level, or CLEP. If a student has been awarded exam credit for an equivalent University of Maryland course in which they have also earned credit, the course from the exam will be marked on their record as being a repeated course and the credits will be removed from the total number of credits earned. *No credit will be awarded for AP, IB, or A-Level/AS-Level exams that are repeated or taken after a student has matriculated to the University of Maryland.*

Information about the Prior Learning Credit, including the acceptance and awarding of credit, along with course equivalency charts, can be found online at http://www.transfercredit.umd.edu/plc.html. The University of Maryland Policy and Procedures Concerning Credit for Prior Learning can be found at http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-141a (http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-141a/). The University System of Maryland Policy on Credit for Competency-Based Education and Prior Learning can be found at https://www.usmd.edu/regents/bylaws/SectionIII/. Questions regarding PLC should be directed to Transfer Credit Services (http://www.transfercredit.umd.edu).

Advanced Level/Advanced Subsidiary Level (A-LEVEL/AS-LEVEL)

The University of Maryland awards credit for A-Level/AS-Level exams taken through Cambridge International Exams (CIE) or one of the other approved boards. All departments reserve the right to reevaluate the content of exams and to change the assignment of credit, minimum required score and course equivalencies. The year in which the student took the A-Level/AS-Level exam will determine how the University of Maryland awards credit. For example, if a student takes an A-Level/AS-Level exam in year 2019, the credit awarded is based on the evaluation of the exam during the 2019 year. Students are not permitted to earn credit for both A-Level and AS-Level exams within the same subject areas. Official scores must be sent by CIE or the approved exam board to the University of Maryland. For additional information about A-Level/AS-Level, visit http://www.transfercredit.umd.edu/plc.html.

Advanced Placement (AP)

The University of Maryland encourages applicants to seek AP credit so that academically successful students may move forward in their programs at an appropriate pace. However, credit is not awarded for all exams offered by College Board. Credits for AP exams are awarded based on departmental approval when the designated minimum score is earned. All departments reserve the right to reevaluate the content of exams and to change the assignment of credit, minimum required score and course equivalencies. The year in which the student took the AP exam will determine how the University of Maryland awards credit. For example, if a student takes an AP exam in year 2019, the credit awarded is based on the evaluation of the exam during the 2019 year. Students need to have their scores sent directly to the University of Maryland from College Board; the University's code is 5814.

Basic Military Training (BMT)

Students who are currently on active duty or former service members in the United States Armed Forces are eligible to be awarded six credits of lower-level general elective credits. The credits are awarded for the completion of basic physical fitness and basic military science as part of basic military training for the United States Armed Forces.

To qualify, students must have been enrolled as an undergraduate student in the Fall 2013 semester or later, along with one of the following:

- Currently serving as an active duty member in the United States Armed Forces.
- Currently serving as a member of a reserve or National Guard branch of the United States Armed Forces.
- Has been Honorably Discharged from service in the United States Armed Forces.
- Has been Honorably Discharged from a reserve or National Guard branch of the United States Armed Forces.

College-Level Examination Program (CLEP)

CLEP recognizes college-level competence achieved outside the college classroom. Two types of CLEP tests are available:

- General Examinations - cover the content of a broad field of study
- Subject Examinations - cover the specific content of a college course
- Credit is not awarded for all CLEP General and Subject Examinations. CLEP credits are awarded when satisfactory scores are attained. All departments reserve the right to reevaluate the content of exams, and to change the assignment of credit, minimum required score and course equivalencies. The year in which the student took the CLEP exam will determine how the University of Maryland awards credit. For example, if a student takes a CLEP exam in year 2019, the credit awarded is based on the evaluation of the exam during the 2019 year. Current University of Maryland students must obtain permission from their advising college prior to taking a CLEP exam. This ensures the CLEP credits are acceptable and will apply toward the student's degree requirements. CLEP exams are administered at approved CLEP testing centers throughout the country. The University of Maryland is an approved CLEP Test Center (Test Center Code: 5814). Students who want to earn credit through CLEP must request their official score reports to be sent to the University of Maryland. The Score Recipient Code is 5814.

Departmental Proficiency Examination (CREDIT-BY-EXAM)

At the University of Maryland, Credit-by-Exam is comparable to a comprehensive final examination in a course. Although the mathematics department receives the most applications for Credit-by-Exam, many departments will provide opportunities for certain courses. Initial inquiry as to whether an examination in a specific course is available should be directed to the academic department which offers the course in question.

Credit-by-Exam may not be taken for courses in which the student has remained registered at the University of Maryland, beyond the Schedule Adjustment Period even with a transcript notation of W.

In order to be considered for Credit-by-Exam, a student must meet the following eligibility criteria:

1. A minimum of 12 (twelve) credit hours completed at the University of Maryland;

2. A minimum grade point average of 2.0;
3. Completion of all prerequisite courses or the approval of the department chairperson (or, in non-departmentalized units, the dean) and the Senior Vice President and Provost.

Note: Requirements 1. and 2. may be waived for students in their first semester at the University of Maryland by the department chairperson and the dean.

The following applies to the grading associated with Credit-by-Exam:

1. A student may cancel application for credit-by-exam at any time prior to the completion of the examination with no entry on the permanent record.
2. The examination instructor shall make the grade available to the student prior to the formal submission of the grade.
3. A grade of "C-" or better must be obtained to establish credit-by-exam.
4. If a student elects not to have the grade posted, a grade of "W" shall be recorded. No course may be attempted more than once using credit-by-exam.
5. Grades earned using credit-by-exam shall be posted on the transcript as resident credit in the semester the examination was taken and used in computing semester and cumulative grade point averages. Such grades shall be accompanied by the notation "By examination" as applicable.

Credit-by-exam will not be accepted for any part of the final 30 (thirty) semester hours without permission of the Senior Vice President and Provost. With such permission, 6 (six) of the final 30 (thirty) credit hours may be by credit-by-exam. Applications for examinations shall be approved on an individual course basis. The instructor must certify on the report of examination that copies of the examination questions and the student's answers shall be retained in accordance with the University of Maryland's Records and Retention and Disposal Schedule.

If an examination for a course is available, the department will provide information regarding when and where the exam is administered, type of examination, and material which might be helpful in preparing for the examination. After making arrangements with the department, students must apply through the Division of Letters and Sciences, 1117 Hornbake Library, 301-405-2793. See http://ltsc.umd.edu/forms.html for additional information regarding Credit-by-Exam.

International Baccalaureate (IB)

The year in which the student took the IB exam will determine how the University of Maryland awards credit. For example, if a student takes an IB exam in year 2019, the credit awarded is based on the evaluation of the exam during the 2019 year. Credit is not awarded for all exams offered by IB and is based on departmental approval. All departments reserve the right to reevaluate the content of exams, and to change the assignment of credit, minimum required score and course equivalencies. Students should have their scores sent directly to the University of Maryland from the International Baccalaureate Results Service. The university's code is 001417.

Other Non-Traditional Experience

There are some instances of prior learning/competency-based education for which the University of Maryland generally does not award credit. These include, but are not limited to: American Council on Education (ACE), Defense Activity for Non-Traditional Education Support (DANTES), Program on Non-Collegiate Sponsored Instruction (PONSI), StraighterLine, departmental credit-by-exam from institutions other than Maryland public institutions of higher education, and life experiences.

Appeals

Students may contact the Office of the Registrar to appeal the acceptance of prior learning experiences. For prior learning credit to be awarded during an appeal, the student must provide evidence that the prior learning experience falls within the level, scope, content and expected learning outcomes of courses offered at the University of Maryland. The determination of the Office of the Registrar shall be final.

Registration

Change of Address

Students are expected to notify the Office of the Registrar of any change in their local, permanent or e-mail address. Change of address can be completed online by updating your contact information at (http://registrar.umd.edu/current/index.html#online-transactions (http://registrar.umd.edu/current/#online-transactions)) or forms are available at the following places:

- Office of Student Financial Services and Cashiering, Room 1115 or 1135, Lee Building
- Office of the Registrar, First Floor, Clarence M. Mitchell Jr. Building

Please be advised that changing your permanent address could affect your residency status for tuition and billing purposes. For further information about these potential implications, please contact Residency Reclassification Services at resclass@umd.edu.

Classification of Students

Official classifications of undergraduate students are based on cumulative credits as follows:

- freshman, 0-29 credit hours;
- sophomore, 30-59 credit hours;
- junior, 60-89 credit hours; and
- senior, 90 or more credit hours.

Refer to policy for details: http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-640a *(*http://www.president.umd.edu/administration/policies/section-iii-academic-affairs/iii-640a/*)*

Courses Taken Through Consortium Agreements

Eligible students may enroll in courses at other universities via the Consortium of Universities of the Washington Metropolitan Area, the University System of Maryland's Inter-Institutional Registration Program, or the Baltimore Student Exchange Program. Courses taken at another institution may not be credited toward a degree program without prior approval of the dean of the college from which the student expects to earn a degree.

Consortium of Universities of the Washington Metropolitan Area

The Consortium of Universities of the Washington Metropolitan Area consists of:

- American University
- The Catholic University of America
- Gallaudet University
- The George Washington University
- George Mason University
- Georgetown University
- Howard University
- Marymount University
- National Defense University
- National Intelligence University
- Trinity Washington University
- Uniformed Services University of the Health Sciences
- University of the District of Columbia

Students enrolled in degree-seeking programs at these institutions are able to attend certain classes at the other campuses and have the credit considered as resident credit at their home institutions. The intention is to allow students to take an occasional course to augment a program rather than to develop an individual program. Payment of tuition for courses will be made to the student's home campus however, special fees may be assessed by the host institution. Comparable courses offered at University of Maryland may not be taken through the consortium.

Currently registered, degree seeking University of Maryland students with at least junior standing may participate in the consortium program according to the stipulations listed in the current edition of the registration guide. Enrollment in courses is available only on a space-available basis. Visiting students are expected to meet prerequisites or other criteria set by the host institution and comply with the host institution's registration procedures and deadlines.

Golden ID students are not eligible to enroll in courses through the consortium with waiver of fees. University of Maryland students may only enroll in courses offered on the campus of the host institution. Students interested in additional information about the consortium program should review the Office of the Registrar website at: http://registrar.umd.edu/current/registration/consortium.html or contact the consortium coordinator by email at dcconsortium@umd.edu or in person on the first floor of the Clarence M. Mitchell Jr. Building.

University System of Maryland Inter-Institutional Registration Program

Currently registered, degree seeking University of Maryland, College Park students have the opportunity to take courses at certain University System of Maryland institutions to augment their degree program at University of Maryland under the Inter-Institutional Registration Program. The provisions for such are contained in the Board of Regents Policy on Student Concurrent Inter-Institutional Registration (BOR III 2.40;III 2.41) found at www.usmd.edu/regents/ (http://www.usmd.edu/regents/). Participating institutions include:

- Bowie State University
- Coppin State University
- Frostburg State University
- Salisbury University
- Towson University
- University of Baltimore
- University of Maryland, Baltimore
- University of Maryland, Baltimore County
- University of Maryland, College Park
- University of Maryland, Eastern Shore.
- University of Maryland, Global Campus*

**University of Maryland College Park undergraduates may not enroll in courses at the University of Maryland Global Campus through this program*. Currently registered, degree seeking University of Maryland students with at least sophomore standing may enroll in courses for credit, and have that credit considered as resident credit at their home institution. Enrollment in courses is available only on a space available basis and visiting students are expected to meet prerequisites or other criteria set by the host institution. Payment of tuition for courses will be made to the student's home campus however special fees may be assessed by the host institution. Students interested in additional information about the Inter-Institutional Registration program should review the Office of the Registrar website at: http://registrar.umd.edu/current/registration/inter-institutional.html or contact the inter-institutional coordinator via email at interinstitutional@umd.edu or in person on the first floor of the Clarence M. Mitchell Jr. Building.

Inter-Institutional Registration is only applicable for the fall and spring semesters.

Baltimore Collegetown: Baltimore Student Exchange Program

Eligible undergraduate students may enroll at other Baltimore Collegetown institutions offering courses that are not available at their home institutions. Students are charged tuition and fees by their home institution and courses are considered resident credit at their home institution. Cross-registration is offered during the Fall and Spring semesters only.

Baltimore Collegetown institutions are:

- Community College of Baltimore County (CCBC)*
- Coppin State University
- Goucher College
- Johns Hopkins University
- Loyola University Maryland
- Maryland Institute College of Art (MICA)
- Morgan State University
- Notre Dame of Maryland University
- Stevenson University
- Towson University
- University of Baltimore
- University of Maryland, Baltimore County (UMBC)

**Cross registration between University of Maryland and CCBC is currently under evaluation.*

For more information on the Baltimore Student Exchange Program, see: https://baltimorecollegetown.org/colleges/crossregistration/index.html (https://baltimorecollegetown.org/colleges/cross-registration/)

Credit Hours and Maximum Semester Credits

No baccalaureate curriculum requires fewer than 120 semester hours. The semester hour, which is the unit of credit, is the equivalent of a subject pursued one period a week for one semester. Two or three hours of laboratory or field work are equivalent to one lecture or recitation period.

In order for undergraduate students to complete most curricula in four academic years, their semester load must range from 12 to 19 hours (30 to 36 hours each year) toward the degree. Undergraduates may not exceed the following maximum credit loads without the prior approval of their Dean:

- 15 week semester: 20 credits (16 credits prior to the first day of classes)
- 6 week session: 8 credits
- 3 week session: 4 credits

Email for Official Communication

The University of Maryland has adopted email as the primary means for sending official communications to students. Academic advisors, faculty, and campus administrative offices use email to convey important information and time-sensitive notices. All enrolled students are provided a university email address. Students are responsible for keeping their email address up to date or for forwarding email to another address. Changes of email address can be completed online at http://registrar.umd.edu/current/index.html#online-transactions (http://registrar.umd.edu/current/#online-transactions). Failure to check email, errors in forwarding email, and returned email due to *mailbox full* or *user unknown* will not excuse a student from missing announcements or deadlines.

Identification Cards

The photo ID card is issued at the time the student first registers for classes. This card is to be used for the entire duration of enrollment. Knowledge of your UID number is required to obtain a UMD ID card. A valid photo ID (i.e., State Driver's License, Passport, etc.) must be presented at the Office of the Registrar Front Counter Services. Students who are not currently registered may not receive a UMD identification card

The photo ID card can be used by students for admission to most athletic, social, and cultural events, to withdraw books from the libraries, and as a general form of identification on campus. Additionally, students who have food service contracts will use this photo identification card to access these services. Contact Dining Services directly for further information.

There is a $20 charge for a replacement ID card in cases where the card is lost, stolen, has intentional damage (e.g. holes punched in the card, snapped in two, etc.), or the cardholder wishes to retake their photo. The replacement fee is waived in cases where the replacement is due to normal wear and tear (i.e. the bar code is no longer visible or the magnetic strip is non-functioning). A replacement ID card can be obtained from the Office of the Registrar, First Floor, Clarence M. Mitchell Jr. Building, Monday - Friday, 8am - 5pm.

It is the responsibility of the cardholder to keep their ID card safe and secure and to deactivate a lost or stolen ID card. You should immediately deactivate your ID card (https://idcard.umd.edu/lost/user (https://idcard.umd.edu/lost/user/)) to prevent use by unauthorized individuals. The university assumes no responsibility for misuse of your card, or for charges to your accounts due to your ID card being lost or stolen.

Once deactivated, you must obtain a new ID card at the Office of the Registrar, First Floor, Clarence Mitchell Building, Monday - Friday, 8am - 5pm. The charge for a new ID card is $20. A deactivated ID card cannot be reactivated.

Refer to policy for details: http://www.registrar.umd.edu/current/Policies/id-cards.html.

Registering for Classes

Office of the Registrar
Clarence M. Mitchell Jr. Building, 301-314-8240
www.registrar.umd.edu (http://www.registrar.umd.edu)

To attend classes at the University of Maryland, it is necessary to process an official registration. Specific registration dates and instructions are available on www.registrar.umd.edu (http://www.registrar.umd.edu).

Newly admitted students are required to attend an orientation session (see Orientation Information (p. 42)). Advising and course registration are part of the orientation process. All newly admitted students must meet with an advisor prior to registration. Likewise, newly admitted freshmen and transfer students are required to provide proof of immunization for measles, rubella, mumps and tetanus/diphtheria. Additionally, Maryland law requires residence hall students to either provide proof of vaccination against meningococcal disease or seek an exemption from this requirement.

Refer to policy for details: http://www.president.umd.edu/administration/policies/section-v-student-affairs/v-100h *(*http://www.president.umd.edu/administration/policies/section-v-student-affairs/v-100h/*)*

Registration Process

Currently enrolled undergraduate students receive a notification email that includes information about early registration, a link to check their registration time, and any registration blocks. Provided students resolve any registration blocks, students can register at, or any time after, their assigned registration appointment date and time. Registration appointments for the fall semester begin in late March, and appointments for the spring semester begin in late October. Registration can be processed on Testudo (http://www.testudo.umd.edu/) or in person. Open registration follows early registration, and continues up to the first day of classes. During this time, students may process an original registration or make schedule adjustments. The schedule adjustment period begins on the first day of classes. All registration transactions, either on-line or in person, are final unless a student processes a cancellation of registration.

Registration information for Summer Term, Winter Term, Freshmen Connection, and Professional Programs may be found at www.oes.umd.edu (http://www.oes.umd.edu).

Registration Cancellation

Students who register and later decide not to attend the university must submit a Cancellation of Registration Form to the Office of the Registrar prior to the official first day of classes: http://www.registrar.umd.edu/current/registration/cancelreg.html.

Failure to cancel registration will result in a financial obligation to the University of Maryland even if a student does not attend class. The university reserves the right to cancel registration for students who fail to meet their financial obligations.

Schedule Adjustment and Drop Period

About the Schedule Adjustment Period

Courses may be added, when space is available, during the schedule adjustment period, and will appear on the student's permanent record. Courses dropped during this period will not appear on the student's permanent record. The schedule adjustment period is the first 10 days of classes for the fall and spring semesters.

For the standard 6-week Summer Sessions I and II, the schedule adjustment period is typically the first 4 days of classes; for the Winter Session and the standard 3-week Summer sessions, the schedule adjustment period is the first day of classes. Complete information on schedule adjustment and drop period for Summer Session, Winter Session, Freshmen Connection, and Professional Programs may be found at www.oes.umd.edu (http://www.oes.umd.edu).

Information on non-standard courses can be found at: http://www.registrar.umd.edu/current/registration/non-standard.htm.

During the schedule adjustment period full-time undergraduates may drop or add courses, or change sections or credit level without financial penalty provided they remain full-time students (registered for 12 or more credits). See 'Penalties for Drops During Schedule Adjustment' (http://registrar.umd.edu/current/registration/ScheduleAdjustment.html) for information and penalties associated with changing from full-time to part-time.

Part-time undergraduates (fewer than 12 credits) may also add, drop and change sections, as well as change credit level, but should consult 'Penalties for Drops During Schedule Adjustment' (http://registrar.umd.edu/current/registration/ScheduleAdjustment.html) to avoid incurring additional charges.

Grading method (including pass-fail) may be changed only during the schedule adjustment period.

After Schedule Adjustment

Courses may not be added without special permission from the student's academic advising college.

All courses for which the student is enrolled shall remain as a part of the student's permanent record. The student's status shall be considered full-time if the number of credit hours enrolled at this time is 12 or more.

Drop Period

The drop period for undergraduate students will begin at the close of the schedule adjustment period and terminate at the end of the tenth week of classes for the fall and spring semesters. Consult the academic calendar at http://registrar.umd.edu/deadlines.html for dates.

Drops during this period will be recorded on the student's permanent record with a notation of W and will not be used in the computation of a student's cumulative grade point average. During this period a student may drop a maximum of four credits. However, if the course carries more than four credits, the student may drop the entire course, or in the case of a variable credit course, reduce the credit level by up to four credits.

Student ID Numbers

University of Maryland assigns all students a unique nine-digit university identification number (UID). The UID is the student identifier for most university transactions. Use of the social security number is limited to necessary business transactions or where it is required by law.

Refer to policy for details: http://www.president.umd.edu/sites/president.umd.edu/files/documents/policies/VI-2600a.pdf

Undergraduate Credit for Graduate Level Courses

Subject to requirements determined by the graduate faculty of the department or program offering the course, undergraduate degree-seeking students may register for graduate-level courses, i.e., those numbered from 600 to 898, with the exception of 799, for undergraduate credit. The student must obtain the prior approval of the department and instructor offering the course.

Students eligible for this option normally will have achieved Junior standing, will have a GPA of at least 3.0, and will have successfully completed the prerequisite courses with a grade of 'B-' or better.

Enrollment in a graduate-level course does not in any way imply subsequent departmental or Graduate School approval for admission into a graduate program, nor may the course be used as credit for a graduate degree at the University of Maryland.

Undergraduate-Graduate Concurrent Registration

An undergraduate degree seeking student at the University of Maryland may, with the approval of his or her Dean, the department and the instructor offering the course, and of the Graduate School, register for graduate courses (600 level and above) that will be recorded as *for graduate credit only* and that may be applied towards an advanced degree at this university or elsewhere. Students eligible for this option normally will have achieved junior standing, will have a GPA of at least 3.0, and will have successfully completed the prerequisite courses with a grade of 'B-' or better. The student must submit a plan of study that shows that taking graduate courses will not unduly delay completion of requirements for the bachelor's degree. The total of graduate and undergraduate credits attempted in any semester may not be more than eighteen. The graduate credits so earned will not count towards any of the requirements for the Baccalaureate degree. A maximum of twelve credits may be taken for graduate credit by a student while enrolled as an undergraduate.

Veterans Benefits

Students attending the university under the Veterans Education Assistance Act (Title 38, U.S. Code) may receive assistance and enrollment certification at the Office of the Registrar, 1113 Clarence

M. Mitchell Jr. Building. Consult www.registrar.umd.edu/veteran-benefits.html (http://www.registrar.umd.edu/veteran-benefits.html) for more information.

Priority Registration

Eligible service members of the United States Armed forces are entitled to priority registration at the University of Maryland as per the 2018 State of Maryland HB1074. An eligible service member is:

1. a currently serving member of any branch of the Armed Forces of the United States, including the National Guard and the Military Reserves, or
2. a veteran of any branch of the Armed Forces of the United States, including the National Guard and the Military Reserves, who has received an honorable discharge, or a certificate of satisfactory completion of military service.

To be granted priority registration, qualifying students need to submit proof of eligibility (i.e. military ID card, DD-214, or certificate of satisfactory completion of military service) to:

University of Maryland
Office of the Registrar
Veterans Certification Services
Clarence Mitchell Jr. Building, Room 1113
College Park, MD 20742

Withdrawal from the University

Students admitted to the University of Maryland are expected to make regular and consistent progress towards the completion of their degree. However, the university understands that in exceptional circumstances a student may find it necessary to completely withdraw from all classes. The university considers such an interruption to be very serious as it delays normal progress towards the degree. Students should not withdraw for frivolous reasons or to avoid the consequences of ignoring their academic responsibilities. Any student considering withdrawal is strongly encouraged to meet with his or her academic college advisor before leaving the university.

Potential Implications

Withdrawing from the university may have serious implications for international students, students receiving financial aid or students residing in on-campus housing. Students are advised to contact the appropriate offices before finalizing withdrawal plans for withdrawing from the university.

- Student Financial Services Office, 1135 Lee Building, 301-314-9000
- Department of Resident Life, 2100 Annapolis Hall, 301-314-2100
- International Student & Scholar Services, 1126 H.J. Patterson Hall, 301-314-7740

Withdrawal

A withdrawal is available anytime between the first and last day of classes. Students must submit the Withdrawal Form to the Office of the Registrar no later than the last day of classes:

Undergraduate: http://www.registrar.umd.edu/current/registration/withdraw.html

Graduate: http://www.registrar.umd.edu/current/registration/withdrawgrad.html

In exceptional cases, a retroactive withdrawal (http://www.registrar.umd.edu/current/registration/retrowithdraw.html) may be granted based on documented requests in which extenuating circumstances significantly impaired the student's ability to complete the semester and officially withdraw by the established semester deadlines. Such circumstances include, but are not limited to, medical or psychological causes. A student's return to the university is contingent upon the conditions outlined in *Return to the University* below.

Return to the University

Normally, a student may withdraw from the university only once during matriculation as an undergraduate. Students who find it necessary to leave the university are required to petition the Faculty Review Board in order to return. Students who have earned a minimum 2.0 cumulative GPA, with no previous withdrawal, are exempt from this requirement. Students who withdraw or take a leave of absence while on academic probation, or those returning from dismissal, are always required to petition the Faculty Review Board. For information on returning to the university, please see www.studentsuccess.umd.edu (http://www.studentsuccess.umd.edu).

Additional Withdrawal Information

The effective date of withdrawal for the purposes of refunds is the date that the notice is received by the Office of the Registrar. Notation of withdrawal and the effective date will be posted to the student's academic record. Instructors and college offices will be notified of all withdrawn students. The deadline date for submitting the withdrawal for each semester is the last day of classes. Students should contact the Student Success Office for re-enrollment information.

The repeat policy will not apply to courses taken during the academic semester from which the student is officially withdrawn.

Military Call-ups

It is the intent of the University of Maryland, College Park, to facilitate the withdrawal or change in registration and the re-enrollment of students who are called to active military duty during the semester. The student (or a representative) should take a copy of the military orders to the Office of the Registrar and process a withdrawal or change in registration papers. Detailed information about this process may be obtained from the Office of the Registrar. Withdrawal for active military service will have no effect on any subsequent request to withdraw from the University.

Transfer Credit

Acceptability of Undergraduate Transfer Credits

Generally, college-level courses completed at regionally-accredited institutions will be acceptable and awarded transfer credit, provided the course is similar in **level, scope, content and expected learning outcomes** to courses offered at the University of Maryland and a grade of 'C-' or higher is earned. Regional accrediting bodies include:

- Middle States Association of Colleges and Schools;
- New England Association of Schools and Colleges;
- North Central Association of Colleges and Schools;
- Northwest Commission on Colleges and Universities;

- Southern Association of Colleges and Schools; and
- Western Association of Schools and Colleges.

The University of Maryland typically does not award undergraduate transfer credit for courses that are pre-collegiate, remedial, vocational, technical, graduate, professional (e.g. law, medicine, dentistry, nursing), or religious in nature. For a transfer course to receive credit, the course must be similar in level, scope, content and expected learning outcomes of courses offered at the University of Maryland. Other types of transfer courses that usually are not awarded transfer credits are independent study, internships, externship, practicum, or co-op work experiences that are not supervised by University of Maryland faculty. In addition, transfer credit is not awarded for these types of experiences completed through other institutions.

The Office of the Registrar at the University of Maryland posts all undergraduate transfer courses to an undergraduate degree seeking student's academic record from regionally-accredited institutions of higher education in the United States and international institutions recognized by their country's Ministry of Education. Only transfer courses that are acceptable and awarded credit by the University of Maryland will be noted on the student's official transcript. The notation will include the course title and number of credits awarded; the grade for a course is not included. Grades from transfer courses are not included in the University of Maryland grade point average calculation.

Transfer courses from non-regionally accredited institutions in the United States will be reviewed for acceptability on an individual basis at the request of the student. Only transfer courses that have been determined to be acceptable for transfer to the University of Maryland will be posted to the student's academic record. For a course to be deemed acceptable for transfer, the course must be similar in level, scope, content and expected learning outcomes to courses offered at the University of Maryland. Transfer courses from international institutions that are not recognized by the country's Ministry of Education are not accepted for transfer and will not be awarded credit by the University of Maryland.

Transfer courses completed at public institutions of higher education in the State of Maryland, in accordance to COMAR (Code of Maryland Regulations) policy 13B.06.01.05 (http://www.dsd.state.md.us/comar/subtitle_chapters/13B_Chapters.aspx), are acceptable for transfer with a grade of "D-" (as of Fall 2012) or higher, unless otherwise noted. The transfer course must be similar in level, scope, content and expected learning outcomes to courses offered at the University of Maryland. In addition, the University of Maryland has direct articulation transfer programs (https://artsys.usmd.edu/) with all Maryland public community colleges. An articulated transfer program is a list of courses that best prepares applicants for a particular program of study at the University of Maryland. *It is important to note that as per University of Maryland academic policies, the minimum grade required to satisfy a degree requirement may be higher than the minimum grade to be awarded transfer credit.*

Transfer of General Education Requirements from Maryland Public Institutions

As directed by the MHEC Policy *(13B.06.01.04)*, transferable courses taken in fulfillment of general education requirements at a Maryland public institution will be applied toward the University of Maryland's general education requirements. Careful planning with an academic advisor will ensure that students take appropriate credit and maximize their credit transfer. The total number of general education credits for a Maryland public institution transfer or post baccalaureate credits will not exceed that required of native students.

- A student transferring from a Maryland public community college with an earned associate's degree has completed general education at the University of Maryland, except for any upper-level requirements and the number of credits required to complete general education (40 credits for GenEd or 43 credits for CORE). An official transcript from the transfer institution must be received by the University of Maryland with a notation that the associate's degree was awarded.
- A student who has completed the general education program at a Maryland public community college has completed general education at the University of Maryland, except for any upper-level requirements and the number of credits required to complete general education (40 credits for GenEd or 43 credits for CORE). The transfer institution must provide documentation on or with the student's official transcript stating the student has completed the general education program.
- A student who earned a baccalaureate degree from the University of Maryland and is pursuing a second degree has completed all general education for the University of Maryland.
- A student who has earned a baccalaureate degree at a Maryland public four-year institution has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation the baccalaureate degree was awarded.
- A student who has completed the general education program at a Maryland public four-year institution has completed all general education at the University of Maryland. The transfer institution must provide documentation on or with the student's official transcript stating that the student has completed the general education program.

Transfer of General Education Requirements from Non-Maryland Public Institutions

Students transferring from non-Maryland public institutions are required to complete all general education requirements at the University of Maryland with the following exceptions:

- A student who has earned a baccalaureate degree from a regionally accredited institution in the United States has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation that the baccalaureate degree was awarded.
- A student who has earned a baccalaureate degree from an international institution that is recognized by that country's ministry of education and the degree has been determined to be equivalent to a baccalaureate degree in the United States has completed all general education at the University of Maryland. An official transcript from the transfer institution must be received by the University of Maryland with a notation the baccalaureate degree was awarded.

Transfer Credit Services

Transfer Credit Services (TCS) is a division of the Office of the Registrar at the University of Maryland. TCS oversees course subject matter

to determine the acceptability and awarding of transfer credit for the University, and consults with the academic departments for course clarifications and guidance. This review is based on a comparison of the transfer course to courses offered for undergraduate degree programs at the University of Maryland.

A course that is accepted for transfer to the University of Maryland will receive one of the following types of evaluations:

- direct equivalency to a University of Maryland course (whether within or outside of the major),
- no direct equivalency, but satisfies a general education requirement, or
- no direct equivalency, but is accepted as a general elective.

TCS provides information and assistance to academic advisors as they work with undergraduate student transfer issues. Students and advisors work together to decide how courses satisfy a student's degree program, while TCS provides information to the campus community on transfer credit and prior learning credit policies, course evaluations, credit reports and articulation through an online course equivalency database at http://www.transfercredit.umd.edu/tclookup.html.

For additional information about Transfer Credit Services, visit http://www.transfercredit.umd.edu.

Transfer Course Preliminary Evaluation

Admitted students can obtain access to their preliminary transfer credit evaluation of domestic transfer courses starting approximately two weeks after the receipt of their admission letter. The preliminary evaluation can be reviewed via their University of Maryland unofficial transcript (http://www.testudo.umd.edu). An official review of transfer courses completed at institutions in the United States will occur automatically upon admission to the University. For courses that have not previously been evaluated or state **NS (Needs Syllabus)** , **NE (Needs Evaluation)** or **N1 /N2 (approved elective, needs further evaluation)** on the student's unofficial transcript, the student needs to request the course be evaluated by following the steps for the Transfer Credit Evaluation Process (http://www.transfercredit.umd.edu/tceval.html). The student will need to provide a detailed syllabus to request a transfer course evaluation. Occasionally, additional information about a course may be required by the departmental evaluator to complete the evaluation. The evaluation of transfer credit is an ongoing process that may continue through the student's first semester at the University of Maryland or as updated transcripts for the student are received.

Students are responsible for submitting all official final transcripts detailing their entire academic record prior to matriculation to the University of Maryland. Credit will post to a student's University of Maryland record only from official transcripts received from the institution at which the credits were earned.

An academic advisor in the student's advising college will review and determine the applicability of the already evaluated courses during orientation. It is important for admitted students to continually monitor their unofficial transcript for updates and to consult with their advisor when updates occur. ***Note: a transfer course CANNOT be applied toward satisfying a degree requirement until the course has been deemed acceptable for transfer by the University of Maryland.***

Transfer Course Level

At the University of Maryland, lower-level courses refer to freshman and sophomore level courses (100 or 200) and upper-level courses refer to junior and senior level courses (300 or 400). *It is important to note that **not** all institutions use the same course numbering system as the University of Maryland to identify lower-level and upper-level courses. Additional research may be needed to make an appropriate determination of course level.*

Generally, courses are transferred to the University of Maryland at the equivalent level in which the course was taken at the transfer institution.

- a lower-level course transfers to UMD as a lower-level course
- an upper-level course transfers to UMD as an upper-level course
- a lower-level course can equate to an upper-level course at UMD, but the course is still considered lower-level
- an upper-level course can equate to a lower-level course at UMD, but the course is still considered upper-level
- **all** courses from a community college are considered lower-level

Students should work with their major and/or advising college to determine how these courses may apply toward satisfying degree requirements at the University of Maryland.

Transfer Credit Conversion to Semester System

The University of Maryland operates on a semester calendar system. Transfer courses taken at institutions on quarter, unit or other types of calendar systems will be converted to semester credit hours. For transfer courses taken on a quarter calendar system, the University awards .67 semester credits per quarter credit hour of study. For transfer courses taken on a unit or other type of credit system, the University bases the number of semester credit hours on the number of units required to earn a degree from the institution. It is important to note the University of Maryland does not round transfer credits up or down to the nearest whole number.

Applicability of Transfer Courses to Degree Requirements

Once a course has been approved as acceptable for transfer to the University of Maryland, the advising college in which the student is enrolled determines which transfer courses are applicable to the student's degree program. In cases when a student is majoring within more than one advising college, the primary advising college is responsible for determining applicability of transfer courses in collaboration with the secondary advising college. It is important to note a transfer course must first be evaluated as being acceptable for transfer to the University of Maryland before the course can be applied toward satisfying any degree requirements. For additional information about the Transfer Credit Evaluation Process, visit http://www.transfercredit.umd.edu/tceval.html.

It is imperative that the advising college makes note of the required semester hours for the degree the student is pursuing. In addition, students should be warned that changing their major could impact the number of transfer credits that may be applied to their degree requirements. If a student changes the degree they are pursuing, the advising college will need to reevaluate the applicability of the transfer

credits and adjust accordingly to ensure the most appropriate transfer courses are being applied toward the degree requirements.

The University of Maryland requires that a ***minimum of 120 semester hours*** be earned to award a baccalaureate degree. In general, the maximum number of transfer credits applicable toward degree requirements at the University of Maryland is as follows:

- No more than ***60 transfer credits*** may be applied toward degree requirements from a ***2-year institution***.
- No more than ***90 transfer credits*** may be applied toward degree requirements from:
  a. a ***4-year institution or any combination of 4-year institutions***.
  b. a combination of ***2-year institutions, 4-year institutions and prior learning credits***.

Regardless of the total number of semester hours required for a degree program, all candidates for undergraduate degrees from the University of Maryland must complete a minimum of 30 credits in residence at the University.

Fundamental Studies Academic Writing Minimum Grade Requirement of C- or higher Starting Fall 2017

In accordance with the Code of Maryland Regulations (COMAR 13B.06.01.03), students who enroll in Fundamental Studies Academic Writing (FSAW) must earn a grade of C- or higher. Students who have completed FSAW with a grade of D- or higher prior to Fall 2017 at a Maryland public institution will have met the Academic Writing General Education requirement.

Prior Learning Credit

Please refer to the Prior Learning Credit (p. 73) section of this catalog for information on credit via A-Levels/AS-Levels, AP exams, basic military training, CLEP, credit-by-exam, or IB.

Permission to Enroll at Another Institution

Obtaining Permission to Enroll at Another Institution (Transfer Credit)

Undergraduate students already enrolled at the University of Maryland must obtain permission **prior** to taking courses at another institution using the following forms:

- *Permission to Enroll at Another Institution* (PTE) form must be submitted to, and approved by, the advising college prior to enrolling at another U.S. institution. This form is available online at http://www.registrar.umd.edu/petitions-forms/PermissionToEnroll.html or in the student's advising college office.
- *Study Abroad Course Approval (SACA)* form must be submitted to, and approved by, the advising college prior to enrolling at an International institution. This form is available through the Education Abroad office (http://globalmaryland.umd.edu/offices/education-abroad (http://globalmaryland.umd.edu/offices/education-abroad/)).

All transfer courses taken away from the University of Maryland must be evaluated for acceptability to the University **prior** to the PTE or SACA form being submitted for approval. See http://www.transfercredit.umd.edu/tceval.html for instructions on how to request a transfer course be evaluated for acceptability.

This permission is required for courses taken away from the University of Maryland in all semesters, summer and winter terms. Failure to obtain permission prior to enrolling in course(s) away from the University of Maryland may result in the course not being accepted for transfer by the University and/or applied to the student's degree requirements.

Upon completion of the course(s), the student must request an official sealed transcript be sent from the institution they attended to the University of Maryland.

The student and advisor will work together to decide how the transfer course(s) are applicable to the student's degree program. The title of the course, term in which the course was taken and the number of transfer credits awarded will be noted on the student's official transcript, but the grade earned will not be displayed. Grades from transferred courses are not included in the University of Maryland grade point average calculation.

Questions regarding the applicability of courses taken at another institution should be directed to the student's advising college: https://www.transfercredit.umd.edu/advcollege.html.

Courses Taken at Other University of Maryland Institutions

For students who began their attendance at the University of Maryland in Fall 1989 or later, all course work taken at any University System of Maryland institution will be posted as transfer credit. For all students who attended the University of Maryland prior to Fall 1989, courses taken at another University System of Maryland institution (UMBC, UMB, UMES, UMUC) prior to Fall 1989 will be included in the cumulative GPA. Courses taken at any other institution may not be credited toward a degree without advance approval.

For information about Consortium or Inter-Institutional Programs, please see Registration Policies (p. 75).

GENERAL EDUCATION

General Education

Office of the Associate Provost and Dean for Undergraduate Studies
2100 Marie Mount Hall, 301-405-9363
Contact: Douglas Roberts, Associate Dean for General Education
www.gened.umd.edu (http://www.gened.umd.edu)
gened@umd.edu

General Education at the University of Maryland

Through the General Education program you will discover that education at the University of Maryland is an experience that reaches from the campus classroom and lab to across the globe. As a student you will engage with that larger universe by acquiring new skills and understandings. General Education exposes you to different disciplines, improves your fundamental academic skills, and strengthens your commitment to using knowledge and abilities to better yourself and others.

The General Education program will assist you in preparing for a new 'multiverse' of learning, and for the demanding and constantly changing world beyond graduation. It provides necessary skills and basic knowledge, complements and expands the University's course offerings, and connects you more fully to the intellectual community of the Washington-Baltimore metropolitan area, the nation, and the world beyond.

General Education Program Goals for all Students

- Develop the skills necessary to succeed in academic careers and in professional lives by establishing habits and understanding of clear writing, effective speaking and presentation, and critical and analytic reasoning.
- Strengthen knowledge in major areas of study.
- Broaden knowledge of civilizations past and present.
- Establish the ability to thrive both intellectually and materially and to support themselves, their families, and their communities through a broad understanding of the world in which they live and work.
- Define the ethical imperatives necessary to create a just society in their own communities and in the larger world.

Important Notes: General Education Courses

- **Must** be selected from the courses coded as meeting General Education requirements. See list of approved General Education courses at Testudo: https://ntst.umd.edu/soc/. Click on the General Education list for the term you wish to explore.
- **May** also be used to satisfy college, major, and/or supporting area requirements
- **May not** be taken on a Pass-Fail basis.

For information about general education requirements prior to the 2012-2013 academic year, see http://www.ugst.umd.edu/core. (http://www.ugst.umd.edu/core/)

Requirements

Elements of the General Education Program

The General Education program is comprised of courses that build foundational skills (Fundamental Studies (p. 83)), courses that expand the breadth of your education (Distributive Studies (p. 83)) and courses that explore and study human, societal and cultural differences (Diversity (p. 84)). At least two of your Distributive Studies courses will delve in to a 'Big Question' as seen through the lens of a particular academic discipline (I-Series (p. 84)).

Fundamental Studies

Master the skills.

The Fundamental Studies portion of the General Education program consists of 5 courses (nominally 15 credits), with one course in each of the following areas:

- Academic Writing (p. 83)[1]
- Analytic Reasoning (p. 83)
- Mathematics (p. 83)[1]
- Oral Communication (p. 83)
- Professional Writing (p. 83)

Academic Writing

The *Academic Writing* requirement prepares students with a foundational understanding of the writing skills needed for success in further studies at Maryland and beyond. All students must earn a grade of C- or better in *Academic Writing* in order to meet this General Education requirement.[1]

Analytic Reasoning

Courses in *Analytic Reasoning* foster a student's ability to use mathematical or formal methods or structured protocols and patterns of reasoning to examine problems or issues by evaluating evidence, examining proofs, analyzing relationships between variables, developing arguments, and drawing conclusions appropriately.

If a student successfully completes an *Analytical Reasoning* course that requires a Fundamental Studies *Mathematics* course as a prerequisite, then the *Mathematics* requirement will also be considered to be fulfilled.

Mathematics

The goal of the *Mathematics* requirement is to convey the power of mathematics, demonstrated by the variety of problems that can be modeled and solved by quantitative means. Ability in mathematics is a critical measure of how well students are prepared to meet the challenges they will face in their lives beyond school.[1]

Oral Communication

Human relationships, from the most formal to the most personal, rest in large measure on skilled listening and effective speaking. Skillful listening and speaking support success in personal relationships, educational undertakings, professional advancement, and civic engagement.

Professional Writing

The *Professional Writing* requirement strengthens writing skills and prepares students for the range of writing expected of them after graduation.

[1] These course must be attempted by 30 credits and successfully completed by 60 credits.

Distributive Studies

Experience a variety of disciplines.

A truly well-rounded education consists not only of courses within your major area of study, but also exposure to a wide variety of subjects and ways of thinking. The General Education program accomplishes this through its Distributive Studies courses. You will be able to follow your interests outside of your major, explore the many different opportunities available at the University, learn new skills and ways of study, and apply existing skills in new contexts. The Distributive Studies requirement consists of 8 courses (nominally 25 credits), with 2 courses in each of the following 4 areas:

- History and Social Sciences (p. 84)
- Humanities (p. 84)
- Natural Sciences (p. 84)
- Scholarship in Practice (p. 84)

History and Social Science

History and Social Science courses introduce students to history and to the social science disciplines, with their combination of qualitative and quantitative methods. They include courses in criminology, economics, history, psychology, sociology, and other social sciences.

Humanities

Humanities courses study the history and the genres of human creativity. They include courses in literatures in any language, art and art history, classics, and music and music history, as well as in the disciplines of linguistics and philosophy, among others.

Natural Sciences

Natural Science courses introduce the concepts and methods of studying the natural world. Courses include the traditional physical and life sciences, environmental science, animal and avian science, and plant science, among others. ***One of the two courses selected must include a substantial, rigorous laboratory experience.***

Scholarship in Practice

Scholarship in Practice courses engage students in applying a body of knowledge to create professional products or works of art. Architecture, business, education, engineering, and journalism offer courses that lead to products such as architectural designs, new technologies, innovative publications, new computer software, business plans, advertising campaigns, educational curricula, and bioengineering. Creative and artistic performance courses lead students to produce writing portfolios, plays, operas, dance productions, art exhibits, and creative media. Scholarship in Practice also includes courses that combine competency in speaking, writing, and translation in a foreign language. ***One of the two Scholarship in Practice courses selected must be outside the student's major requirements.***

I-Series Courses

Explore 'Big Questions' from a unique suite of courses that form the cornerstone of Distributive Studies.

The I-Series is the signature of General Education at the University of Maryland. I-Series courses are lively and contemporary. They speak to important issues that spark the imagination, demand intellect, and inspire innovation. They challenge students to wrestle with big questions, and examine the ways that different disciplines address them. I-Series courses are not surveys of particular fields of knowledge. Instead, I-Series courses provide students with the basic concepts, approaches, and vocabulary of particular disciplines and fields of study as well as an understanding of how experts in those disciplines and fields employ terms, concepts, and approaches. ***Two of the eight courses used to satisfy the Distributive Studies requirement must by I-Series courses.***

Diversity

Explore human, social, and cultural differences.

The Diversity component of the General Education requirement consists of courses in the following two areas:

- Understanding Plural Societies (p. 84)
- Cultural Competence (p. 84)

Understanding Plural Societies

Life in a globally competitive society of the twenty-first century requires an ability to comprehend both theoretical and practical dimensions of human difference. From that perspective, *Understanding Plural Societies* is the centerpiece of the University's Diversity requirement. Courses in this category speak to both the foundations—cultural, material, psychological, historical, social, and biological—of human difference and the operation or function of plural societies.

Cultural Competence

Cultural competence provides opportunities to gain an increased understanding of cultures and cultural practices, while learning to communicate effectively across cultural differences in a diverse society and world. This diversity category reflects a developmental, on-going process through which students learn about the lived experiences of individuals as members of socio-cultural groups and the complex interactions between groups. *Cultural Competence* courses emphasize acquisition of new knowledge, thoughtful consideration of issues of equity and justice, critical thinking, self-reflection, empathy, engaged global citizenship, and the development of skills necessary to work effectively with individuals, groups, and teams from diverse identities and perspectives.

To fulfill the Diversity requirement, students must complete:

- Two *Understanding Plural Societies* courses

  OR

- One *Understanding Plural Societies* course and one *Cultural Competence* course

Courses fulfilling the Diversity requirement may double-count in an approved Distributive Studies category.

agnr.umd.edu (http://agnr.umd.edu)

Dean: Craig Beyrouty
Associate Deans: James Hanson, Adel Shirmohammadi, and Joseph Sullivan
Assistant Deans: Evelyn E. Cooper and Carolyn Fernandez

The College of Agriculture and Natural Resources offers a variety of academic programs that apply science, management, design, and engineering to improve the world in which we live and work. Feeding the world's population, developing scientifically-based land use practices and policies, understanding animal and plant biology, improving nutrition and its effects on human health, conserving and restoring ecosystems, and profitably managing farms and agribusinesses in harmony with the environment are all vital concerns of the college. Integrating the use and protection of natural resources in the production of food and nursery crops is a challenge facing students.

In addition to course work, undergraduates have opportunities to work closely with faculty in state-of-the-art facilities including those for animal sciences, dietetics, environmental science and technology, landscape architecture, plant sciences, and veterinary medicine. The college also serves as the academic home of the Maryland Campus of the Virginia-Maryland Regional College of Veterinary Medicine. Nearby resources such as the U.S. Department of Agriculture's Beltsville Agricultural National Research Center, the National Institutes of Health, the Food and Drug Administration, the Smithsonian Institution and the National Zoo, Maryland's Departments of Agriculture and Natural Resources, and the Patuxent Wildlife Research Center enhance teaching, research, internship, and career opportunities for students. Field study courses offered in Azerbaijan, Brazil, Belize, Costa Rica, Italy, Peru, Russia, and Taiwan expose students to other cultures and environments. Learning opportunities are also strengthened through student involvement in such co-curricular activities as the College Honors Program, AGNR Undergraduate Research Program, career programs, leadership workshops, and student clubs.

Departments
Departments and Units

- Agricultural and Resource Economics (p. 88)
- Animal and Avian Sciences (p. 93)
- Applied Agriculture Certificate (p. 98)
- Environmental Science and Policy (p. 101)
- Environmental Science and Technology (p. 111)
- International Agriculture and Natural Resources Certificate (p. 116)
- Nutrition and Food Science (p. 117)
- Plant Science and Landscape Architecture (p. 119)

Academic Programs
Majors

- Agricultural and Resource Economics Major (p. 89)
- Agricultural Science and Technology Major (p. 120)
- Animal Sciences Major (p. 96)
- Environmental Science and Policy Major (p. 102)
- Environmental Science and Technology Major (p. 112)
- Landscape Architecture Major (p. 123)
- Nutrition and Food Science Major (p. 117)
- Plant Science Major (p. 126)

Minors

- Agricultural Science and Technology Minor (p. 123)
- Global Poverty Minor (p. 92)
- Landscape Management Minor (p. 125)
- Soil Science Minor (p. 116)
- Sustainability Studies Minor (AGNR) (p. 110)

Certificates

- Applied Agriculture Certificate (p. 98)
- International Agriculture and Natural Resources Certificate (p. 116)

Advising

Each student in the college is assigned a faculty advisor to assist in selecting courses, accessing academic enrichment opportunities, and making strategic career decisions. Advisors normally work with a limited number of students and are able to give individual guidance. Both freshmen entering with a definite choice of curriculum and transfer students are assigned to departmental advisors for counsel and planning of all academic programs as soon as possible. Students have access to additional advising through their home department's undergraduate program office and through the college's student services office. AGNR Peer Mentors, academically talented and university-engaged upperclassmen, provide an additional advising resource for students in the college.

Specifics of advisor assignment are available in the undergraduate office of each department.

Opportunities
Living-Learning Programs

The college sponsors, through its Environmental Science and Policy Program, the Environment, Technology and Economy curriculum in College Park Scholars. Admission to College Park Scholars is selective and by invitation only. For further information, see the College Park Scholars Program (p. 441).

Specialized Academic Programs

The Institute of Applied Agriculture offers 60-credit certificate programs designed primarily for professional development. Options offered include Agribusiness Management, Equine Business Management, Golf Course Management, Golf Course Construction Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, Sustainable Agriculture and Turfgrass Management. Some two-year program students continue on in regular four-year programs in the college and several of the college's majors allow limited use of Institute courses in their programs.

Pre-Veterinary Medicine

The College of Agriculture and Natural Resources is the most popular choice for students who wish to pursue veterinary medicine. Two excellent majors not to be missed are housed in the Department of Animal and Avian Sciences. The Agricultural and Veterinary Medicine major offers a student an accelerated academic path with all recommended courses for veterinary school and the opportunity to apply at the end of the junior year. The Sciences/Pre-Professional major offers a student a four year academic path with all recommended courses for veterinary school and the opportunity to apply upon receipt of the bachelor of science (B.S.) degree.

1409 Animal Sciences Center, 301-405-6495
http://ansc.umd.edu/undergraduate/vet-school-faq (http://ansc.umd.edu/undergraduate/vet-school-faq/)
sbalcom@umd.edu

Advising for pre-veterinary students occurs at two levels: initially, Dr. Sarah Balcom, DVM, pre-veterinary advisor in the Department of Animal and Avian Sciences (1409 Animal Sciences Center; 301-405-6495 or email at sbalcom@umd.edu), will advise students, regardless of major, about preparing for veterinary school. During the freshmen and sophomore years, advising is done through spring group advising meetings which cover topics such as coursework, grades, finances, extra-curricular activities, gaining animal and veterinary experience, and securing academic and professional references. For students in the process of applying to veterinary school, Dr. Balcom is available for email and one-on-one consultations. As students progress and establish academic credentials, they should also use the advising resources of the Virginia-Maryland Regional College of Veterinary Medicine, 8075 Greenmead Drive, University of Maryland, College Park, MD 20742-3711. Dr. Nathaniel Tablante (301-314-6810, nlt@umd.edu) is the pre-veterinary advisor for the Regional College at that location.

University of Maryland students in any major may prepare for admission to veterinary school by completing the basic science and other courses required by veterinary colleges. The College of Agriculture and Natural Resources major in Animal Sciences (Science/Pre-professional option) includes many of the commonly required courses; however, students should consult catalogs from the veterinary schools to which they are interested in applying to determine the specific courses required by each. That information is available through the American Association of Veterinary Medical Colleges (http://www.aavmc.org/).

Advising for pre-veterinary students occurs at two levels: initially, Dr. Sarah Balcom, DVM, pre-veterinary advisor in the Department of Animal and Avian Sciences (1409 Animal Sciences Center; 301-405-6495 or email at sbalcom@umd.edu), will advise students, regardless of major, about preparing for veterinary school. During the freshmen and sophomore years, advising is done through spring group advising meetings which cover topics such as coursework, grades, finances, extra-curricular activities, gaining animal and veterinary experience, and securing academic and professional references. For students in the process of applying to veterinary school, Dr. Balcom is available for email and one-on-one consultations. As students progress and establish academic credentials, they should also use the advising resources of the Virginia-Maryland Regional College of Veterinary Medicine, 8075 Greenmead Drive, University of Maryland, College Park, MD 20742-3711. Dr. Nathaniel Tablante (301-314-6810, nlt@umd.edu) is the pre-veterinary advisor for the Regional College at that location.

There is also a active pre-veterinary society (http://agnr.umd.edu/students/clubs-and-organizations/veterinary-science-club) on campus that provides its members with regular speakers, animal volunteering opportunities, networking, and comradery. Pre-veterinary students are strongly encouraged to join.

Pre-veterinary students are asked to read our Pre-veterinary advising guide (http://ansc.umd.edu/undergraduate/vet-school-faq), as it answers many common questions about preparing for and applying to veterinary schools.

Early Admission

Students enrolled in the Combined Degree Option (http://ansc.umd.edu/undergraduate/program-options/combined-ag-veterinary-medicine-1299d (http://ansc.umd.edu/undergraduate/program-options/combined-ag-veterinary-medicine-1299d/)) are eligible for a special degree program that confers a Bachelor of Science degree in Agriculture and Pre-Veterinary Medicine. Students who will have completed 90 undergraduate credits (including all science courses required for veterinary school application and university general education) and who will have met other application criteria for veterinary schools by the end of the junior year, may apply in the Fall of their junior year. If they matriculate in an accredited college of veterinary medicine, they may apply the successful completion of the first thirty hours of their professional training towards the completion of their baccalaureate degree. See the Undergraduate Catalog entry for Animal Sciences for more details.

Applied Agriculture Certificate

Institute of Applied Agriculture (60-credit Certificate in Applied Agriculture)
College of Agriculture and Natural Resources
Glori Hyman, Director
2123 Jull Hall, 301-405-4685
E-mail:iaa-request@umd.edu
www.iaa.umd.edu (http://www.iaa.umd.edu)

Through the Institute of Applied Agriculture (IAA) students earn a UMD Certificate in Applied Agriculture. Students may select one of the following concentrations: Agricultural Business Management, Agricultural Leadership and Communication, General Turfgrass Management, Golf Course Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, and Sustainable Agriculture. The IAA provides students with the entrepreneurial and

technical skills needed to manage and lead successful agricultural enterprises.

The IAA has a separate admission policy which can be found on its website. Upon completion of the program, most students accept job offers. However, students are welcome to transfer to the University of Maryland, College Park; University of Maryland University College; or other schools.

Agriculture Forward at the University of Maryland (Ag Forward) is an accelerated program for first-time university students who are interested in earning dual credentials from the University of Maryland, College Park. Students begin their studies in the Institute of Applied Agriculture (IAA). After successfully completing 30 credits at the IAA with a GPA of at least 3.0., students are eligible to transfer into a bachelor's degree program within the College of Agriculture and Natural Resources. Students continue to earn their Certificate in Applied Agriculture while working on their bachelor's degree.

College Honors Program

Students may apply for admission to the College Honors program after completing 60 credits with a minimum 3.2 GPA in a program within the college. Honors students work with a faculty mentor and must take at least 12 credits of honors courses including a senior thesis. Interested students should contact their faculty advisor.

Approved Student Societies and Professional Organizations

Student participation in professional societies, clubs, and interest groups is extensive in the college, and students find opportunity for varied expression and growth in the following organizations:

AGNR Peer Mentors; AGNR Student Ambassadors; AGNR Student Council; Alpha Zeta; Alpha Gamma Rho; Animal and Avian Sciences Graduate Student Association; Block and Bridle; Collegiate 4-H; ENSPire, Food and Nutrition Club; Horticulture Club, Landscape Architecture Student Association; Natural Resources Management Society; Sigma Alpha; UM Equestrian Club; UM Food Science Club; UM Student Chapter of Golf Course Superintendents Association of America; Minorities in Agriculture and Natural Resources and Related Sciences (MANRRS) and Veterinary Science Club.

Student Engagement and service Units

Virginia-Maryland Regional College of Veterinary Medicine, Maryland Campus

College of Agriculture and Natural Resources

Dr. Nathaniel Tablante, Associate Director, Center for Public and Corporate Veterinary Medicine
1202 Gudelsky Veterinary Center, 301-314-6820

Email: nlt@umd.edu
http://vetmed.umd.edu/

The Virginia-Maryland Regional College of Veterinary Medicine is operated by the University of Maryland and the Virginia Polytechnic Institute and State University. Each year, 30 Maryland and 50 Virginia residents comprise the entering class of a four-year program leading to a Doctor of Veterinary Medicine (DVM).

The first three years are given at Virginia Polytechnic Institute and State University in Blacksburg, Virginia. The final year of instruction is given at several locations, including the University of Maryland, College Park.

A student desiring admission to the college must complete the pre-veterinary requirements and apply for admission to the professional curriculum. Admission to this program is competitive, and open to all Maryland residents. All Maryland residents' applications are processed at the College of Veterinary Medicine, Maryland Campus, University of Maryland, College Park.

Institute of Applied Agriculture (Two-Year Certificate Program)

College of Agriculture and Natural Resources
Glori Hyman, Director
2123 Jull Hall, 301-405-4685
E-mail: iaa@umd.edu
www.iaa.umd.edu (http://www.iaa.umd.edu)

The Institute of Applied Agriculture (IAA) awards academic certificates in Agricultural Business Management, Golf Course Management, Golf Course Construction Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, Sustainable Agriculture and Turfgrass Management. As a two-year program, the IAA has a separate admission policy. Upon completion of the program, students are welcome to transfer to the University of Maryland, College Park; University of Maryland University College; and other schools.

For more information about the IAA, its admissions procedures, and requirements, contact the Institute of Applied Agriculture, 2123 Jull Hall, University of Maryland, College Park, MD 20742-2525.

Financial Assistance

A number of scholarships are available for students entering or already enrolled in the College of Agriculture and Natural Resources. These include:

AGNR Alumni Association Scholarship; AGNR General Scholarship; Arthur M. Ahalt Memorial Scholarship; Attorney General's Agricultural and Natural Resources Scholarship; Professor John Axley Memorial Scholarship; Eileen Barnett Scholarship; Beltsville Garden Club Scholarship; Bruce and Donna Berlage Scholarship; Chester F. Bletch Endowment; Bowie-Crofton Garden Club Scholarship; Frank D. Brown Memorial Scholarship; Joseph Byrd Foundation Scholarship; Jonas and Joan Cash Student Award Scholarship; Chapel Valley Landscape Honorary Scholarship; George Earle Cook, Jr. Scholarship; Ernest T. Cullen Memorial Scholarship; Jaime Dannemann Scholarship; R.F. Davis Memorial Scholarship; Jerry V. DeBarthe Memorial Scholarship; William R. DeLauder Scholarship; Frank J. Duda Turfgrass Scholarship; Mylo S. Downey Memorial Scholarship; Equine Studies Scholarship; Explore AGNR Scholarship; James R. Ferguson Memorial Scholarship; Kenneth S. Fowler Memorial Endowed Scholarship; Thomas A. Fretz Agriculture and Natural Resources Scholarship; James & Sarah Goddard Memorial Scholarship; William D. Godwin Endowed Scholarship; Golf Course Builders of America Association Foundation Scholarship; Manasses J. & Susanna Jarboe Grove Scholarship; Tom Hartsock Animal Management Scholarship; H. Palmer Hopkins Scholarship established by Charles W. Coale, Jr. & Ellen Kirby Coale; Charles & Judy Iager Scholarship; Land Grant Scholarship; James & Gertrude Leamer Scholarship; Donald Leishear International Travel Scholarship; Lee Majeskie Dairy Youth Scholarship; Maryland Greenhouse Growers Association Scholarship; James R. & Patricia M. Miller Outstanding Senior Scholarship; John

and Marjorie Moore International Agriculture & Natural Resources Student Travel Scholarship; James and Dessie Moxley Scholarship; Paul R. Poffenberger Memorial Scholarship; Jennifer Russo Memorial Scholarship; Ross & Pauline Smith Scholarship; J. Herbert Snyder Educational Scholarship; Southern States Cooperative Scholarship; Hiram I. Stine Memorial Scholarship; T.B. Symons Memorial Scholarship; TIC Gums Scholarship; Vansville Farmers Club Scholarship; A.V. Vierheller Scholarship; Siegfried Weisberger, Jr. Memorial Scholarship; Theo & Georgianna Miles Weiss Memorial Scholarship; and the William R. Winslow Scholarship.

The College is privileged to offer additional support in the form of interest-free loans through the Catherine Brinkley Loan Fund which are available to students who are residents of Maryland and progressing in programs within the College of Agriculture and Natural Resources.

Awards

The Agriculture and Natural Resources Alumni Chapter provides recognition each year for the Outstanding Senior in the two-year and four-year programs.

Departments and Centers

Undergraduate credit instruction is offered by the Departments of Animal and Avian Sciences (ANSC), Agricultural and Resource Economics (AREC), Environmental Science and Technology (ENST), Nutrition and Food Science (NFSC), and Plant Science and Landscape Architecture (PSLA). Additionally, the Environmental Science and Policy (ENSP) major is based and administered within the College of Agriculture and Natural Resources; it offers specializations advised within this college as well the colleges of Behavioral and Social Sciences, Chemical, Mathematical and Natural Sciences. Also, the Agricultural Science and Technology major within PSLA offers students the opportunity to double major in Agriculture Education. Additional courses are provided through the 2-year certificate program in the Institute of Applied Agriculture.

Special Advantages and Facilities

Educational opportunities in the College of Agriculture and Natural Resources are enhanced by the proximity of several research units of the federal government. Teaching and research activities in the college are conducted with the cooperation of scientists and professional people in government positions. Of particular interest are the National Agricultural Research Center at Beltsville, the National Agricultural Library, the National Arboretum, and the Food and Drug Administration.

Instruction in the basic biological and social sciences, and landscape design is conducted in modern, technologically-equipped classrooms and laboratories. The application of basic principles to practical situations is demonstrated for the student in numerous ways. In addition to on-campus facilities, the college operates several education and research facilities throughout Maryland. Horticultural and agronomic crops, turf, beef, horses, dairy cattle, and poultry are maintained under practical and research conditions and may be used by our students. These centers, as well as other selected locations on and off campus also serve as living laboratories for environmental studies.

Research Units

Maryland Agricultural Experiment Station

The Maryland Agricultural Experiment Station (MAES) supports research conducted primarily by 120 faculty scientists located within the College of Agriculture and Natural Resources. Faculty use state-of-the-art facilities such as a new Research Greenhouse Complex and Environmental Simulator, as well as 10 off-campus research locations, for research in the science, business, policy, and practice of agriculture. MAES supports research that benefits consumers and producers alike; for example, our significant focus on the environment protects valuable natural resources such as the Chesapeake Bay. Undergraduate students also benefit from mentoring by MAES-supported faculty and instructional use of MAES facilities statewide.

University of Maryland Extension

The University of Maryland Extension educates citizens in the application of practical, research-based knowledge to critical issues in agricultural and agribusiness including aquaculture; natural resources and the environment; human development, nutrition, diet, and health; youth development and 4-H; and family and community leadership. The statewide program includes more than 180 faculty and support staff located in 23 counties, the City of Baltimore, four regional centers, and the University of Maryland's College Park and Eastern Shore campuses. In addition, more than 15,000 volunteers and citizens in Maryland give generously of their time and energy.

Center for Food Safety and Security Systems (CFS ^{3})

The **Center for Food Safety and Security Systems** (CFS3) provides world-class research, education and outreach on issues related to food and water defense, safety and protection. Housed in the Department of Nutrition and Food Science, this new center will provide additional opportunity for students to become involved in issues of significance for homeland security. For information on CFS3, please see http://cfs3.umd.edu/ or call 301-405-0773.

Harry R. Hughes Center for Agro-Ecology, Inc.

The **Harry R. Hughes Center for Agro-Ecology, Inc.** is a private, non-profit 501 (c) 3 organization affiliated with the University of Maryland. The Center brings together diverse interests from the agricultural, forestry, and environmental communities for the purpose of retaining Maryland's working landscapes and the industries they support while protecting and improving the health of the Chesapeake Bay and its tributaries. For further information see http://agresearch.umd.edu/agroecol (http://agresearch.umd.edu/agroecol/) or call at 410-827-6202.

Joint Institute for Food Safety and Nutrition

The **Joint Institute For Food Safety and Nutrition** (JIFSAN), established between the US FDA and the University of Maryland in 1996, is a jointly administered research and education program. For information on JIFSAN, see www.jifsan.umd.edu/ (http://www.jifsan.umd.edu/) or call 301-405-8382.

Northeastern Regional Aquaculture Center

The **Northeastern Regional Aquaculture Center** (NRAC) is one of five Regional Aquaculture Centers established by the U. S. Congress for the United States. Funded by the USDA, and representing 12 states and the District of Columbia, NRAC develops and sponsors cooperative regional research and extension projects in support of the aquaculture industry in the northeastern United States. For further information see https://agresearch.umd.edu/nrac (https://agresearch.umd.edu/nrac/) or call 301-405-6085.

Agricultural and Resource Economics

College of Agriculture and Natural Resources
2200 Symons Hall

301-405-1293
arecumd@gmail.com
www.arec.umd.edu (http://www.arec.umd.edu)

Agricultural and Resource Economics is a world-class department focused on agricultural economics and policy, environmental and natural resource economics, and economic development. The faculty are renowned for their scholarship and research, policy experience, and professional service. Our top-ranked Ph.D. program has a diverse and high-quality student body from the U.S. and countries around the world. Our undergraduate agricultural and resource economics major and global poverty minor allow students to learn from leading scholars in small classes. Policy and public education programs address issues of importance to stakeholders at local, state, national and international levels.

Programs

Major

- Agricultural and Resource Economics Major (p. 89)

Minor

- Global Poverty Minor (p. 92)

Advising

Because the program is flexible, advising is mandatory every semester. Please visit this link for more information: http://www.arec.umd.edu/undergraduate/advising (http://www.arec.umd.edu/undergraduate/advising/)

Opportunities

Undergraduate Research Experiences

Because it is part of a land grant university, the Department also has responsibility for research and technology transfer. During undergraduate study, students are encouraged to conduct independent research in faculty laboratories on campus or at the nearby U.S. Department of Agriculture Beltsville Agricultural Research Center and other area locations.

AREC faculty members provide a unique and rewarding research experience for undergraduates through the UMD First-Year Innovation & Research Experience (FIRE) program. The research agenda is continually updated and is designed to engage multiple focus areas in the department's advanced computational collaborative learning center. Current examples include how species characteristics, ecosystems, markets, technology and trade influence the conservation or overexploitation of natural resources, the impact of renewable energy systems and vehicle ownership on environmental quality and interventions that encourage households and small businesses to invest in cost-effective, energy-saving technologies. Students develop quantitative research skills including: framing research questions for quantitative policy analysis, preparing large data sets for analysis, data analytics and visualization techniques, and preparing research results for presentation, publication and outreach. This opportunity is available to first-year students of all majors. For more information please visit: http://fire.umd.edu/.

Internships

Internship Program

This internship experience is open to current AREC undergraduate students and students in the Global Poverty minor.

Internship Program Description

Students will identify an internship and start the process of getting approval from the Assistant Director. If students need help with identifying an internship, the Assistant Director can provide assistance. Once approval is given and all paperwork is signed, the student will register for the internship course, AREC386. A students must complete the internship in the same semester he/she register for the course.

Please visit this link for additional information: https://www.arec.umd.edu/undergraduate/current-students/internship-program (https://www.arec.umd.edu/undergraduate/current-students/internship-program/)

Scholarships and Financial Assistance

AREC offers scholarships to AREC undergrads. These awards are based on merit and are in addition to any funding received from the campus or from the college. Currently, scholarship awards are available to the full-time AREC majors with the highest GPAs. They are determined on a semester basis and depend on the availability of funds. Scholarship awardees are required to conduct themselves in accordance with the rules and regulations of the University.

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Agricultural and Resource Economics Major

Agricultural and Resource Economics majors complete a set of prerequisite courses, a core of classes offered by the Agricultural and Resource Economics Department, and one or more fields comprised of selected courses from outside the department. The core includes courses in economic reasoning, agribusiness management, environmental and resource policy, agricultural policy, economic development, and analytical methods. The program permits students flexibility in choosing fields to fit their career interests. Majors must complete one and are strongly encouraged to complete two fields. The curriculum balances breadth and depth, and lets students develop academic skills in two or more areas. The program provides a good foundation for careers in economics, resource or environmental policy, agribusiness, and international agriculture. Students are also able to minor in Agricultural and Resource Economics.

Program Learning Outcomes

Upon completion of the degree program, students should have acquired the following knowledge and skills:

1. An understanding of economic terms and concepts.
2. An ability to draw inferences from data.
3. A knowledge of relevant laws, institutions, and policies.

Requirements

Course	Title	Credits
Prerequisite Courses		
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
AREC326	Intermediate Applied Microeconomics	3
ECON321	Economic Statistics	3
or BMGT230	Business Statistics	
MATH120	Elementary Calculus I	3
or MATH140	Calculus I	
STAT100	Elementary Statistics and Probability	3
or MATH107	Introduction to Math Modeling and Probability	
Specialization (from list below)		**24**
Agribusiness		
Agricultural and Resource Economics		
Environmental and Resource Economics		
Total Credits		42

Specializations: Agribusiness

Course	Title	Credits
Select five of the following courses:		**15**
AREC306	Farm Management and Sustainable Food Production	
AREC382	Computer-Based Analysis in Agricultural and Resource Economics	
AREC405	Economics of Production	
AREC422	Econometric Analysis in Agricultural and Environmental Economics	
AREC425		
AREC426	Economic Methods and Food Consumption Policy	
AREC427	Commodity Pricing and Markets	
AREC430	Introduction to Agricultural and Resource Law	
AREC431	Agricultural Water Quality: Policy and Legal Issues	
AREC433	Food and Agricultural Policy	
AREC435	Commodity Futures and Options	
AREC445	Agricultural Development, Population Growth and the Environment	
AREC446	Sustainable Economic Development	
AREC453	Natural Resources and Public Policy	
AREC454	The Economics of Climate Change	
AREC455	Economics of Land Use	
AREC456	Energy and Environmental Economics	
AREC481	Environmental Economics	
AREC489	Special Topics in Agricultural and Resources Economics	
Other upper-level AREC courses with permission of advisor.		
Select three courses from one of the following fields:		**9**
Business Management		
Farm Management and Entrepreneurship		
Student Designed Field		
Total Credits		24

Natural Science		
Social Science		
Total Credits		24

Fields:

Advanced Degree Preparation

Course	Title	Credits
Choose three of the following courses:		
ECON407	Advanced Macroeconomics	
ECON414	Game Theory	
ECON415	Market Design	
ECON422	Econometrics I	
ECON423	Econometrics II	
ECON425	Mathematical Economics	
MATH141	Calculus II	
MATH240	Introduction to Linear Algebra	
MATH241	Calculus III	
STAT401	Applied Probability and Statistics II	
STAT410	Introduction to Probability Theory	
STAT420	Theory and Methods of Statistics	
STAT430	Introduction to Statistical Computing with SAS	
Any other upper-level ECON/MATH/STAT course chosen in consultation with advisor.		

Agricultural Science

Course	Title	Credits
Choose three of the following courses:		
PLSC204	Fundamentals of Agricultural Mechanics	
PLSC100	Introduction to Horticulture	
or PLSC101	Introductory Crop Science	
ENST105		
ANSC101	Principles of Animal Science	
AGRI SCI	Other courses in agricultural science, chosen in consultation with an advisor [1]	

[1] Substitutions to the above listed courses may be made with the permission of advisor.

Business Management

Course	Title	Credits
Choose three of the following courses:		
BMGT340	Business Finance (BMGT340N) [1]	
BMGT350	Marketing Principles and Organization (BMGT350N)	
BMGT364	Managing People and Organizations (BMGT364N)	
BMGT380	Business Law I (BMGT380N)	

[1] Course has prerequisites that do not count toward major requirements.

Farm Management and Entrepreneurship

Course	Title	Credits
Choose three of the following courses:		
ENES140	Discovering New Ventures	
ENES461	Advanced Entrepreneurial Opportunity Analysis in Technology Ventures	
ENES471	Legal Aspects of Entrepreneurship	
INAG103	Agricultural Marketing	
INAG201	Agricultural Human Resources Management	
INAG204	Agricultural Business Management	
INAG205	Analyzing Alternative Enterprises	
BMGT289E	Entrepreneurial Thinking for Non-Business Majors: How Not to Miss Great Opportunities Your Life Throws at You	
or ENES210	Entrepreneurial Opportunity Analysis and Decision-Making in 21st Century Technology Ventures	
or INAG102	Agricultural Entrepreneurship	

Food Production

Course	Title	Credits
Choose three of the following courses:		
PHYS117		
or PHYS121	Fundamentals of Physics I	
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	
BSCI223	General Microbiology	
NFSC100	Elements of Nutrition	
NFSC112	Food: Science and Technology	
NFSC430	Food Microbiology	
NFSC431	Food Quality Control	
Other courses related to food science can be substituted with permission of advisor		
Total Credits		0

Natural Science

Course	Title	Credits
Choose three of the following courses:		
AOSC200 & AOSC201	Weather and Climate and Weather and Climate Laboratory	
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
ENST200	Fundamentals of Soil Science	
ENST214	Introduction to Fish and Wildlife Sciences	
GEOG201 & GEOG211	Geography of Environmental Systems and Geography of Environmental Systems Laboratory	

PHYS121 & PHYS122	Fundamentals of Physics I and Fundamentals of Physics II
Any higher-level lab science course	

Political Process

Course	Title	Credits
GVPT	Any three courses in government and politics, chosen with permission of the advisor.	

Social Sciences

Course	Title	Credits
Choose three of the following courses:		
ANTH222	Introduction to Ecological and Evolutionary Anthropology	
ANTH266	Changing Climate, Changing Cultures	
ANTH305	Archaeological Methods and Practice	
ANTH322	Method and Theory in Ecological Anthropology	
GVPT273	Introduction to Environmental Politics	
GVPT306	Global Environmental Politics	
SOCY200	Human Societies	
SOCY405	Scarcity and Modern Society	
SOCY406	Globalization	
SOCY415	Environmental Sociology	
PLCY301 or AGNR301	Sustainability Sustainability	
Any higher-level social sciences course chose in consultation with advisor		

Student Designed Field

Course	Title	Credits
This field requires a written proposal listing at least three courses totaling at least 9 credits. [1]		18
Total Credits		18

[1] The proposal must be submitted to the Undergraduate Committee of the AREC department. Committee approval must be obtained 30 or more credit hours before graduation. A student designed field may be used to study a foreign language as part of the AREC curriculum.

Other Requirements for the Major

All courses must be passed with a grade of 'C-' or better to count towards prerequisite courses, major core courses, or field requirements. 'C- or better' means any grade for which the University awards 1.7 or more quality points in calculating GPA. Beginning with students matriculating Fall 2012, to be awarded a baccalaureate degree, students must have a minimum (2.00) cumulative grade point average across all courses used to satisfy major degree requirements.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Global Poverty Minor

Agricultural and Resource Economics (AREC)
2200 Symons Hall
www.arec.umd.edu (http://www.arec.umd.edu)

The Global Poverty minor develops an awareness and understanding of the dimensions of global poverty, its causes and consequences, and the scope of policies aimed at poverty alleviation. Students will discover how incentives, resources, and social and political institutions influence the incidence of poverty across and within countries. Students in the minor will explore the relationships between poverty and determinants of human welfare such as hunger, health, education and environmental quality.

Requirements

Students must complete at least 15 credits in the minor from the following categories.

Course	Title	Credits
One (1) Global Poverty Signature Course from the following list:		**3**
AREC345	Global Poverty and Economic Development	
AREC365	World Hunger, Population, and Food Supplies	
One (1) Global Perspectives Signature course from the following list		**3**
ANTH265	Anthropology of Global Health	
GEOG330	As the World Turns: Society and Sustainability in a Time of Great Change	
GVPT200	International Political Relations	
GVPT280	The Study of Comparative Politics	
GVPT282	Politics and the Developing World	
GVPT289A	Appetite for Change: Politics and the Globalization of Food	
GVPT289J	Uncertain Partners: US and China in a Changing World	
GVPT289	Special Topics in Government and Politics (GVPT289L Religions, Beliefs, and World Affairs)	
GVPT306	Global Environmental Politics	
GVPT309	Topics in International Relations	
GVPT354	International Development and Conflict Management	
GVPT359	Topics in Comparative Politics	
ENES269	Topics in Grand Challenges for Engineering in a Global Context	
ENES316	Global Leadership in Engineering, Business, & Technology	
ENES464	International Entrepreneurship and Innovation	
ENES472	International Business Cultures in Engineering and Technology	
ENES474	Global Perspectives of Engineering	
BSST330	Terrorist Motivations and Behaviors	
BSST331	Innovations in Counterterrorism	
BSST334	States of Emergency	
BSST335	Innovations in Countering Violent Extremism	

BSST340	Oral Communication for National Security Careers	
BSST370	Financing Terror and Hate	
BSST372	Terrorist Hostage Taking	
Three (3) Electives		**9**
GEOG130	Developing Countries	
GEOG330	As the World Turns: Society and Sustainability in a Time of Great Change	
GEOG423	Latin America	
AREC345	Global Poverty and Economic Development	
AREC365	World Hunger, Population, and Food Supplies	
AREC360	Global Agriculture: Developing Extension Education & Agriculture Technologies in Africa	
ANTH265	Anthropology of Global Health	
GVPT282	Politics and the Developing World	
ECON314	Economic History, Development and Policy	
ECON315	Economic Development of Underdeveloped Areas	
ECON317	Global Economic Policies	
ECON375	Economics of Poverty and Discrimination	
ECON416	Analysis of Economic Development	
ECON418	Economic Development of Selected Areas	
ENST100	International Crop Production-Issues and Challenges in the 21st Century	
FMSC381	Poverty, Affluence, and Families	
GVPT200	International Political Relations	
GVPT282	Politics and the Developing World	
GVPT289A	Appetite for Change: Politics and the Globalization of Food	
GVPT289J	Uncertain Partners: US and China in a Changing World	
GVPT306	Global Environmental Politics	
GVPT354	International Development and Conflict Management	
HONR228	Honors Seminar (HONR228N Evaluating Global Development Assistance)	
HONR228	Honors Seminar (HONR228R Parenting and Poverty: The Effects of Growing Up Poor on Children's Development)	
NFSC425	International Nutrition	
Up to 3 elective credits can be from the following (optional, and pending advisor approval):		
Study abroad		
Internship		
Experiential learning related to poverty		
Total Credits		15

No course may be used to satisfy the requirements of more than one minor.

A course cannot be used to satisfy two requirements, i.e. a course taken to satisfy either of the signature requirements cannot be used as an elective. However, some of the courses above can be used as electives after signature course requirements are satisfied.

At least 9 credits must be at the 300-400 level.

All courses presented for the minor must be passed with a grade of 'C-' or better. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.00) cumulative grade point average across all courses used to satisfy minor requirements.

Animal and Avian Sciences

College of Agriculture and Natural Resources
1415 Animal Sciences Center
301-405-1373
ansc-chair@umd.edu
http://ansc.umd.edu/

The Department of Animal and Avian Sciences was formed in 1997 through the merger of the Animal Science, Dairy Science and Poultry Science Departments. Animal science is the study of domesticated animals used for food, biomedical research and leisure. Our department fulfills a tripartite mission of research, teaching and extension. Departmental research programs are focused in four areas:

1. Animal Genetics and Cell Biology
2. Nutrient Utilization and Management
3. Animal Reproduction and Development
4. Pathobiology & Infectious Diseases

The Animal Science graduate program offers advanced training in each of these research focus areas. Our undergraduate program offers three options to prepare students for their chosen career. Graduates of our program go on to graduate or professional schools, or go directly to work in the fields of animal biotechnology or animal management in the equine, laboratory animal, livestock or poultry industries. Opportunities are available, both on-campus and off-campus, for hands-on experience with small and large animals.

Our location in the Washington DC metropolitan area offers a wealth of other opportunities for internships and collaborations for undergraduate and graduate students with government agencies such as the USDA, EPA, FDA, and National Zoo. Our University of Maryland Extension efforts provide educational materials and non-degree training for the families and companies working in animal agriculture throughout the State of Maryland. Additional information on all of our efforts and programs can be found through the links on the ANSC website (http://ansc.umd.edu/).

Programs

Major

- Animal Sciences Major (p. 96)

Advising

The Animal Science Department has mandatory advising, which means that a student must fulfill their advising requirement every semester prior to being allowed to register. Students in ANSC currently progress through advising in a system determined to help them explore their goals and get the most accurate information possible in their early advising. We want to help students transition from a typical high school model of advising being about school counselors helping them choose courses to students learning to make their own independent choices regarding education, career, and life, under the mentorship of faculty. We refer to this as a program of "structured independence." Please visit our ANSC website (http://ansc.umd.edu/undergraduate/) for more information on Advising

in ANSC, (http://ansc.umd.edu/undergraduate/advising/) including a detailed Advising Guide FAQ (http://ansc.umd.edu/undergraduate/advising/advising-guide/).

Opportunities

Academic Programs and Departmental Facilities

Our facilities in the Animal Sciences Center include classrooms, an inviting lecture hall, and a large social area for students. The entire building is Wi-Fi accessible, and numerous charging outlets are available for student use. Our teaching facilities also includes two fully-equipped teaching labs and an aquaculture lab, while our animal wing contains animal rooms and a surgery suite.

The Campus Farm (http://ansc.umd.edu/undergraduate/campus-farm/) has been described as a "jewel" to the ANSC undergraduate program activities. It is used extensively in teaching laboratories in undergraduate courses, and includes three barns separately used for horses, sheep, and dairy cows, with temporary occupancy for pigs and beef heifers during short parts of the year. We are one of the few animal science departments with the presence of animals directly on campus. Three student organizations, the Institute for Applied Agriculture, and many "Ag Day" visitors use the farm as well, making it a focal point of our teaching facilities.

Undergraduate Research Experiences

Because it is part of a land grant university, the Department of Animal and Avian Sciences also has responsibility for research and technology transfer to the animal industry throughout Maryland. During undergraduate study, students are encouraged to conduct independent research in faculty laboratories on campus or at the nearby U.S. Department of Agriculture Beltsville Agricultural Research Center. Students interested in a faculty member's research should directly contact that faculty member. Research jobs and opportunities are also frequently posted on the ANSC Undergraduate listserv, to which all ANSC students are subscribed. More information on how to find research opportunities is available on our Current Students (https://ansc.umd.edu/undergraduate/current-students/) webpage.

Internships

Students are encouraged to gain practical hands-on and career experience by pursuing internships. Students have completed internships in locations ranging from the area around the University, to cattle farms in the Midwest, agribusiness firms in California, and places like the National Zoo in DC and the National Aquarium in Baltimore. Many animal sciences students use the summer to gain additional applied experience in animal sciences, veterinary medicine or agribusiness. Students can find information about internships, including the process for gaining academic credit for an internship, on the ANSC website's Internship section (http://ansc.umd.edu/undergraduate/internships/). Internship opportunities are also frequently posted on the ANSC Undergraduate listserv, to which all ANSC students are subscribed.

Honors Program

Students admitted to the AGNR Honors Program (https://agnr.umd.edu/academics/undergraduate-honors/) are eligible to take 3 - 6 credits of ANSC388 within the ANSC Department. Undergraduate honors thesis research is conducted under the direction of an AGNR faculty member in partial fulfillment of the requirements of the College of AGNR Honors Program. The thesis will be defended before a faculty committee.

Student Societies and Professional Organizations

The clubs and organizations affiliated with the Animal Science department allow ample opportunities for leadership, development, hands-on animal experience, and fun!

Alpha Gamma Rho

Alpha Gamma Rho is a social/professional fraternity that has been a training ground for leaders in the agriculture and life sciences community since it was established at College Park in 1928. AGR has a rich tradition of alumni contacts with over 50,000 brothers nationwide, including over 700 brothers in the Washington area alone. AGR men are leaders in various clubs within the college and the fraternity is an active member of both the Inter-fraternity Council (IFC) and the Ag Student Council. Alpha Gamma Rho stresses scholarship, leadership and fellowship, and it is well respected among Greek organizations because of their no pledging, substance free, scholars environment. In addition, the chapter house on Princeton Avenue offers the opportunity to live with brothers who are taking the same classes and share many of the same interests which makes it much easier to find a niche on such a large campus.

Website: http://www.marylandagr.com/home (http://www.marylandagr.com/home/)

Block and Bridle Club

The Animal Husbandry Club at The University of Maryland, provides opportunities for students to gain animal handling experience, build interpersonal relationship skills, and students are given the encouragement to excel! Activities and experiences specifically designed for students of diversified interests in animal agriculture are provided, including experiences with many different domestic species. Membership is open to all undergraduate students interested in getting hands-on experience working with dairy, beef, sheep or swine, and learning more about general animal sciences. Activities include the Ag Day Dairy and Livestock Shows, Harvest Stomp/Fall Festival, fitting of animals for the annual Wye Angus Sale, and other activities working with dairy animals. One can gain further leadership skills by holding an office. Each Spring, elections are held for President, Vice-President, Secretary, Treasurer, and Historian.

Website: http://umdblockandbridle.wix.com/blockandbridle (http://umdblockandbridle.wix.com/blockandbridle/)

MANNRS (Minorities in Agriculture, Natural Resources and Related Sciences)

MANRRS Missions

This club was reinstated on University of Maryland's campus to provide academic and professional advancement by empowering minorities in agriculture, natural resources and related sciences.

MANRRS Activities

MANRRS' purpose is to promote exposure to agricultural related professions including veterinarians, lab animal techs, and jobs in the USDA, along with others to minorities. It lists internship opportunities, and holds annual conferences for its members from all chapters. It also serves as a networking tool for students interested in agriculture and related science professions.

Activities include: Club Meetings once a month; Fundraisers to provide funding for field trips to meetings at possibly University of Maryland at Eastern Shore; annual MANRRS conferences and job fairs; Volunteer Opportunities at SPCA; Guest Speakers in the veterinary medicine, agriculture, and lab animal medicine field.

Maryland Equestrian Club

The Maryland Equestrian Club provides on-campus horseback riding lessons and equine learning opportunities for campus students and faculty at beginner through advanced levels. The ANSC department provides the barn, equipment, riding arenas and horses while the students provide care for the horses. There is a riding fee of $200 per semester for 1 riding lesson a week for the entire semester. Large deductions are easily earned for help with feeding, cleaning stalls or teaching. Club members not riding are strongly encouraged to participate in other club activities, such as educational and fun seminars, field trips and monthly meetings. In the past, MEC members have attended the Columbia Grand Prix and the Washington International Horse Show and taken field trips to the DuPont Veterinary Medical Center in Leesburg, Va. and Days End Horse Rescue Farm in Maryland. Members have also participated in clinics on tack fitting and identifying lameness in horses. Club members, under the leadership of the Executive Board and Directors, make most MEC club decisions. We offer a great opportunity to all students and we're always open to suggestions. We also try to have something for everyone including basic English equitation, Western equitation, dressage, bareback and trail riding, horse and farm management, veterinary care, teaching skills and much more. The MEC is located at the campus horse barn, and our office is in the Shack, right next to the paddocks. There is very limited space in the riding lessons, so e-mail us right away to reserve yourself a spot in the most educational equine club provided by the University of Maryland.

The Pre-Veterinary Society

The primary objectives of the The Pre-Veterinary Society are to: Promote a deeper understanding of the numerous opportunities in veterinary medicine; exchange information on veterinary and animal experiences, and. keep students updated on the latest veterinary school information.

What does the The Pre-Veterinary Society do?

- A variety of guest speakers are invited to club meetings to talk about their specialties or field of interest. A sample of topic include wildlife rehabilitation, laboratory animal medicine, exotic pet care and veterinary ethics.
- Each year, faculty from the Virginia-Maryland Regional College of Veterinary Medicine speak to club members about veterinary medical school. Mock interviews are held in January to prepare our club members for the admissions process.
- Club sponsored trips offer our members the ability to tour various veterinary medical facilities and talk to veterinary students and faculty and to visit local zoos and animal care facilities.
- Each year we participate in the APVMA National Symposium which is held at different veterinary schools annually. This is an excellent opportunity to visit a vet school, plus hear over 30 speakers on numerous topics and participate in a variety of wet and dry lab.
- Volunteer with the Prince George's County Animal Shelter in partnership with PetSmart to help find homes for abandoned animals

Sigma Alpha

Sigma Alpha is a national professional agricultural sorority. The objective of the sorority is to promote its members in all facets of agriculture and to strengthen the friendships among them. Members strive for achievement in scholarship, leadership, service, and to further the development of women pursuing careers in agriculture. Sigma Alpha works to promote agriculture, and women's role, on our campus, in our community and throughout the state. Activities include: attending regional and national conferences/conventions; participating in college events (Fall Bash, ANSC orientation, Cook-Offs); service activities - including teaching agriculture to local elementary students and judging contests for the Maryland FFA; professional Guest speakers, and participating in MD day/Ag day Membership rush is held on a semester basis. To be eligible, potential members must have: 2.25 cumulative GPA, Agriculture major or sincere interest in agriculture, be a member of 1 other group or Enrolled in 18 credits or working 10 hours a week.

Website: https://agnr.umd.edu/student-opportunities/clubs-and-organizations/sigma-alpha-sorority (https://agnr.umd.edu/student-opportunities/clubs-and-organizations/sigma-alpha-sorority/)

University of Maryland Equestrian Team

The University of Maryland Equestrian Team is a sports club that competes in intercollegiate competition through the Intercollegiate Horse Show Association (ihsainc.com (http://ihsainc.com)). Throughout the year we compete against area schools such as Goucher, UMW, American, and many others. Though showing is available to all team members, it is not required. Our team rides once a week at Oatland Stables in Gaithersburg, MD. Additionally, our members have the opportunity to participate in clinics and other horse-related events. Riders ranging from the levels of walk/trot to open jumping (3' courses) are welcome to join our team. Please feel free to send any questions to the email below. Also, like our page 'Terps Equestrian Team' on Facebook (https://www.facebook.com/pages/Terps-Equestrian-Team/112106182178428 (https://www.facebook.com/pages/Terps-Equestrian-Team/112106182178428/))!

Contact: Equiterps@gmail.com

Scholarships and Financial Assistance

The ANSC program administers several scholarships, including:

American Registry of Professional Animal Scientists (ARPAS) Washington, DC Area Chapter Scholarship, Judith E. Brocksmith Pre-Veterinary Scholarship, C.W. England, Tom Hartsock Animal Management Scholarship, the Kinghorne Fund Fellowship, and the Lillian Hildebrandt Rummel Scholarship. For eligibility criteria, visit the ANSC Scholarship page (http://ansc.umd.edu/undergraduate/scholarships/).

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

ANSC Faculty and students have been the recipients of numerous prestigious awards and honors. To read more about our exceptional community, visit our News (https://ansc.umd.edu/news/) page.

Animal Sciences Major

The Department of Animal and Avian Sciences provides a challenging program for academically talented students interested in the application of biology and technology to the care, management and study of domestic and aquatic animals. In addition to emphasizing the traditional farm species of dairy and beef cattle, sheep, swine and poultry, our program includes options for courses in equine science, animal biotechnology, and sciences which prepare students for veterinary or graduate school. Animal sciences majors explore a wide range of subjects - from fundamental biology to animal nutrition, physiology and genetics - while integrating science and economics into animal management. Courses offered by this department may be found under the following acronym: ANSC

Our department offers B.S., M.S., and Ph.D. degrees. Roughly one-third of our animal sciences seniors enter veterinary school, while others go on to graduate school. Our graduates also pursue a variety of careers such as research technicians, sales or marketing representatives, or animal producers.

Admission to the Major

The Animal Science curriculum for all options is a rigorous and science-based programs. Students receive a solid foundation in basic biological sciences and ANSC courses are largely taught on a comparative basis, where students can then apply the knowledge they gain to a variety of species and situations.

Program Objectives

The Department of Animal and Avian Sciences was formed in 1997 through the merger of the Animal Science, Dairy Science and Poultry Science Departments. Animal science is the study of domesticated animals used for food, biomedical research, and leisure. Our department fulfills a tripartite mission of research, teaching, and extension.

Program Learning Outcomes

Graduates of the ANSC undergraduate program will be able to:

1. Articulate the basic housing, husbandry, dietary, and behavioral needs of the common domestic species.
2. Safely handle horses, sheep, cows, pigs, and chickens.
3. Select, understand, and critically evaluate scientific studies in animal sciences disciplines.
4. Apply animal science knowledge to the creation of animal management programs (husbandry, health, reproduction, nutrition, etc).

Requirements

Animal Sciences prepares students for veterinary school, graduate school, and careers in research, sales and marketing, biotechnology, aquaculture, and animal production. The curricula apply the principles of biology and technology to the care, management, and study of dairy and beef cattle, horses, fish, sheep, swine, and poultry. Students complete the Animal Sciences core courses and choose between two broad tracks: Animal Care and Management, for students interested in going directly into a career, or Sciences/Professional Option to prepare for admission to graduate, veterinary, pharmacy, nursing or medical school. Students can customize their program based on their area of interest (emphasis area (https://ansc.umd.edu/undergraduate/prospective-students/)) by selecting courses from that area to fulfill major requirements.

Students pursuing the major should review the academic benchmarks established for this program. See www.4yearplans.umd.edu (http://www.4yearplans.umd.edu) or visit the ANSC Program Requirements (https://ansc.umd.edu/four-year-plans-and-course-requirements/) website. Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Please note: there is a $50 per course fee for Animal Science Laboratory courses.

All undergraduates majoring in Animal Sciences must complete the following course requirements:

Course	Title	Credits
Animal Sciences Core		
ANSC101 & ANSC103	Principles of Animal Science and Principles of Animal Science Laboratory	4
ANSC204 & ANSC205	Anatomy of Domestic Animals and Anatomy of Domestic Animals Laboratory	4
ANSC212 & ANSC214	Applied Animal Physiology and Applied Animal Physiology Laboratory	4
ANSC314	Comparative Animal Nutrition	3
ANSC315	Applied Animal Nutrition	3
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
BSCI223	General Microbiology	4
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
MATH120	Elementary Calculus I	3-4
or MATH140	Calculus I	
AREC250	Elements of Agricultural and Resource Economics	3
or ECON200	Principles of Microeconomics	
Select one of the following specializations:		**31-36**
Animal Care and Management		
Sciences & Combined AG and Vet Sci		
Total Credits		71-77

Specializations: Animal Care and Management

Course	Title	Credits
Required Courses		
ANSC327	Molecular and Quantitative Animal Genetics	3
or ANSC450	Animal Breeding Plans	
ANSC446	Physiology of Mammalian Reproduction	3

ANSC447	Physiology of Mammalian Reproduction Laboratory	1
AREC306	Farm Management and Sustainable Food Production	3
or ANSC270	Animal Enterprise Management	
or INAG204	Agricultural Business Management	
CHEM231	Organic Chemistry I	3
or PLSC275	Fundamentals of Agricultural Chemistry	
Advanced ANSC Electives		
Select 12 credits of the following:		12
ANSC330	Equine Science	
ANSC340	Health Management of Animal Populations	
ANSC359	Internship Experience in Animal and Avian Sciences	
ANSC410	The Gut Microbiome and its Roles in Health and Disease	
ANSC417	Regulatory Issues in Animal Care and Management	
ANSC435	Experimental Embryology	
ANSC437	Animal Biotechnology	
ANSC440	Zoonotic Diseases and Control	
ANSC443	Physiology of Lactation	
ANSC444	Domestic Animal Endocrinology	
ANSC450	Animal Breeding Plans	
ANSC452	Avian Physiology	
ANSC453	Animal Welfare and Bioethics	
ANSC455	Applied Animal Behavior	
ANSC460	Comparative Vertebrate Immunology	
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	
Management Courses		
Select 9 credits of the following:		9
ANSC220	Livestock Management	
ANSC232	Horse Management	
ANSC237	Equine Reproductive Management	
ANSC242	Dairy Cattle Management	
ANSC250	Companion Animal Care and Management	
ANSC255	Introduction to Aquaculture	
ANSC260	Laboratory Animal Management	
ANSC262	Commercial Poultry Management	
ANSC282	Grazing Animal Management	
Total Credits		34

Science/Professional & Combined Ag-Veterinary Medicine

Course	Title	Credits
Required Courses		
ANSC327	Molecular and Quantitative Animal Genetics	3
BCHM463	Biochemistry of Physiology	3-4
or BSCI330	Cell Biology and Physiology	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	4
CHEM271 & CHEM272	General Chemistry and Energetics and General Bioanalytical Chemistry Laboratory	4
PHYS121	Fundamentals of Physics I	4
or PHYS131	Fundamentals of Physics for Life Sciences I	
PHYS122	Fundamentals of Physics II	4
or PHYS132	Fundamentals of Physics for Life Sciences II	
Advanced ANSC Electives		
Plus take 9 credits of the following:		9
ANSC330	Equine Science	
ANSC340	Health Management of Animal Populations	
ANSC359	Internship Experience in Animal and Avian Sciences	
ANSC410	The Gut Microbiome and its Roles in Health and Disease	
ANSC417	Regulatory Issues in Animal Care and Management	
ANSC435	Experimental Embryology	
ANSC437	Animal Biotechnology	
ANSC440	Zoonotic Diseases and Control	
ANSC443	Physiology of Lactation	
ANSC444	Domestic Animal Endocrinology	
ANSC446	Physiology of Mammalian Reproduction	
ANSC447	Physiology of Mammalian Reproduction Laboratory	
ANSC450	Animal Breeding Plans	
ANSC452	Avian Physiology	
ANSC453	Animal Welfare and Bioethics	
ANSC455	Applied Animal Behavior	
ANSC460	Comparative Vertebrate Immunology	
ANSC497	Animal Biotechnology Recombinant DNA Laboratory	
Management Courses		
Select 3 credits of the following:		3
ANSC220	Livestock Management	
ANSC232	Horse Management	
ANSC237	Equine Reproductive Management	
ANSC242	Dairy Cattle Management	
ANSC250	Companion Animal Care and Management	
ANSC255	Introduction to Aquaculture	
ANSC260	Laboratory Animal Management	
ANSC262	Commercial Poultry Management	
ANSC282	Grazing Animal Management	
Total Credits		38-39

**A complete listing of all currently approved Management and Advanced ANSC Elective courses is available from our* ANSC Course Listing *(*http://ansc.umd.edu/undergraduate/course-listing/approved-mgmt-and-adv-ansc-courses/*) page.*

Other Requirements for the Major

Animal sciences majors select one of two options to guide their coursework. Program requirements (https://ansc.umd.edu/four-year-

plans-and-course-requirements/) for all options are available on our website, along with a list of all ANSC courses (https://ansc.umd.edu/undergraduate/current-students/courses/) and when they are offered.

Animal Care & Management (0104A) - Is designed for students whose career plans include animal management, production and the marketing of animal products. The curriculum provides basic courses in genetics, nutrition, physiology and reproduction while allowing students to focus on the management of one particular livestock species. You will be encouraged to supplement academic work with practical experience by completing an internship. Dairy science students, for example, intern at local farms where they participate in decisions about breeding, feeding, health practices, milk production and other aspects of herd management. This option will prepare you for ownership or management positions with dairy, livestock or poultry production enterprises; positions with marketing and processing organizations; breed associations; and positions in agribusiness fields such as sales of feed, pharmaceutical products and agricultural equipment. Graduates also work with state and federal agencies.

Science/Professional (0104E) - Prepares students for admission to veterinary or medical schools and/or graduate school. Graduate school study can open the door to an exciting research career in specialty areas of animal or biological sciences such as genetics, nutrition, physiology or cell biology. The curriculum emphasizes advanced courses in the biological and physical sciences and includes all the pre-veterinary and pre-medicine requirements.

Combined Ag & Vet Sci (1299D) - A combined degree program is available to students who gain admission to veterinary school prior to completing their bachelor's degree. College of Agriculture and Natural Resources students who have completed at least ninety hours, including all college and university requirements, are awarded a bachelor of science degree upon successful completion of at least thirty semester hours in an accredited college of veterinary medicine. Early planning with your advisor is encouraged if you choose this option.

Minimum Grade Policy:

ANSC has a minimum grade policy which states that **ANSC students must earn a "C-" or better in all major required courses, including ANSC courses and required supporting courses in other departments.** Students must also have both a cumulative GPA of at least a 2.0 and a 2.0 cumulative GPA in all major requirements in order to graduate. More information on this policy is available on the ANSC Minimum Grade Policy (https://ansc.umd.edu/undergraduate/current-students/minimum-grade-policy/) page.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Applied Agriculture Certificate

College of Agriculture and Natural Resources

Institute of Applied Agriculture
2123 Jull Hall
301-405-4685
iaa-request@umd.edu
www.iaa.umd.edu (http://iaa.umd.edu)

Director: Glori Hyman

Through the Institute of Applied Agriculture (IAA) students earn a UMD Lower-Division Certificate in Applied Agriculture. Students may select one of the following concentration tracks: Agricultural Business Management, Agricultural Leadership and Communication, General Turfgrass Management, Golf Course Management, Landscape Management, Ornamental Horticulture, Sports Turf Management, and Sustainable Agriculture. The IAA provides students with the entrepreneurial and technical skills needed to manage and lead successful agricultural enterprises. Upon completion of the program, some students join the work force, while others pursue further education. Students who wish to earn a bachelor's degree may apply to transfer into University of Maryland undergraduate degree programs.

The IAA has a separate admission policy (http://iaa.umd.edu/prospective-students/admissions/) which can be found on its website; prospective students apply directly to the IAA.

Agriculture Forward **(**https://iaa.umd.edu/agriculture-forward-0/**) at the University of Maryland** (Ag Forward) is an accelerated program for first-time university students who are interested in earning dual credentials from the University of Maryland, College Park. Students begin their studies in the Institute of Applied Agriculture (IAA). After successfully completing 30 credits at the IAA, completing General Education requirements in English and Math and earning a GPA of at least 3.0, students are eligible to transfer into a bachelor's degree program within the College of Agriculture and Natural Resources. Students continue to earn their Certificate in Applied Agriculture while working on their bachelor's degree. Applications for Agriculture Forward, a competitive program, are accepted each spring until March 15.

Requirements

A **Certificate in Applied Agriculture** requires students to complete 60 credits and a 320-hour internship. Each concentration track requires courses specific to its focus and allows for elective courses so students may pursue their areas of interest. All concentration tracks include the following required elements:

- fundamental studies (math, English, and oral communication)
- fundamental agricultural science (plant, animal, or nutrition)
- applied agriculture and career readiness (soil science; pesticide use and safety; internship; and professional development)
- business management (courses selected from a list that includes agricultural entrepreneurship, marketing, human resources management, finance, business management, alternative enterprises, and business law).

All concentration tracks, aside from Agricultural Leadership and Communication, also require Fundamentals of Agricultural Mechanics. Please see more detailed requirements for each concentration track below. Complete curriculum guides, course descriptions, and two-year plans may be found on our website at iaa.umd.edu/programs (http://iaa.umd.edu/programs/).

Agricultural Business Management

Course	Title	Credits
Fundamental Studies		
ENGL101	Academic Writing	3
INAG110	Oral Communication	3
MATH113	College Algebra and Trigonometry (Or INAG 104, Agricultural Mathematics, or other math course)	3
Fundamental Agricultural Science		
INAG100	Introduction to Plant Science	4
or PLSC100	Introduction to Horticulture	
or PLSC101	Introductory Crop Science	
or ANSC101 & ANSC103	Principles of Animal Science and Principles of Animal Science Laboratory	
or NFSC100	Elements of Nutrition	
Applied Agriculture		
INAG 101 Computer Applications		3
INAG105	Soils and Fertilizers	3
INAG106	Pesticide Use and Safety	2
INAG 240 Professional Development		1
INAG250	Fundamentals of Agricultural Mechanics	3
INAG 299A and 299B Internship		2
Business Management		
INAG102	Agricultural Entrepreneurship	3
INAG103	Agricultural Marketing	3
INAG201	Agricultural Human Resources Management	3
INAG203	Agricultural Finance	3
INAG204	Agricultural Business Management	3
INAG206	Agricultural Business Law	3
Applied Agriculture Electives		
Student will choose 15-16 credits of advisor-approved electives to complete a total of 60 credits for the certificate.		15
Total Credits		60

Agricultural Leadership and Communication

Course	Title	Credits
Fundamental Studies		
MATH113	College Algebra and Trigonometry (Or INAG 104, Agricultural Mathematics, or other math course)	3
ENGL101	Academic Writing	3
INAG110	Oral Communication	3
Fundamental Agricultural Science		
INAG100	Introduction to Plant Science	4
or PLSC100	Introduction to Horticulture	
or PLSC101	Introductory Crop Science	
or ANSC101 & ANSC103	Principles of Animal Science and Principles of Animal Science Laboratory	
or NFSC112	Food: Science and Technology	
Applied Agriculture		
INAG105	Soils and Fertilizers (Students pursuing nutrition-related careers may substitute NFSC100 for INAG105)	3

Environmental Science and Policy

College of Agriculture and Natural Resources
0220 Symons Hall
301-405-8571
abm13@umd.edu
www.ensp.umd.edu (http://www.ensp.umd.edu)

Environmental Science and Policy (ENSP) is a multi-disciplinary undergraduate major co-sponsored by the Colleges of Agriculture and Natural Resources; Behavioral and Social Sciences; and Computer, Mathematical, and Natural Sciences. By combining a challenging multi-disciplinary program with practical experience, ENSP students gain an appreciation for the ways science, social systems, and policy interact; and are prepared to take leadership roles in responding to the world's emerging environmental challenges. Approximately half of ENSP students earn their degree from the College of Agriculture and Natural Resources.

Programs

Major

- Environmental Science and Policy Major (p. 102)

Minor

- Sustainability Studies Minor (AGNR) (p. 110)

Advising

Advising is mandatory for all ENSP students in all areas of concentration, regardless of GPA, concentration, or credit level. We want to help you meet program requirements while achieving your academic and career goals. Refer to the ENSP webpage at www.ensp.umd.edu (http://www.ensp.umd.edu) to find advisor assignments.

Opportunities

Undergraduate Research Experiences

We encourage all interested students to gain research experience. Many beginning ENSP students gain their first research experience by participating in the Maryland Student Researchers Program, which is coordinated by the Maryland Center for Undergraduate Research. More advanced students gain research experience working with their faculty members; in a field assistantship at the USDA - Beltsville Agricultural Research Center or the US FWS - Patuxent Wildlife Research Refuge; or by participating in an NSF-sponsored Research Experience for Undergraduates (REU). Additionally, highly motivated and capable students are encouraged to enroll in Honors-in-ENSP to pursue a self-directed, individual project. Details about all of these opportunities are available on our website.

Internships

Practical experience is an important part of learning. Whether gained by volunteering, clubs, internships, and/or research -- all experience contributes to students' professional development, helps determine

what they enjoy doing, and makes classwork more meaningful. ENSP maintains an extensive list of internship opportunities on its website (www.ensp.umd.edu (http://www.ensp.umd.edu)) and students receive weekly listserv announcements generated from the Advising Blog (http://www.enspadvisingnews.blogspot.com). Six of ENSP's concentrations require an internship; and most ENSP students complete at least two such experiences. To earn credit for an internship, review program requirements on the program webpage and contact the Assistant Director at (301)405-8571 regarding ENSP386.

Honors Program

The Honors Program in Environmental Science and Policy provides energetic and capable undergraduates the opportunity to engage in independent study. Interested students must have 45-75 credits at the time of application; a cumulative GPA of 3.25 or higher; and a 3.5 or higher in all courses required for ENSP. Transfer students with equivalent academic records are also encouraged to apply. All students who meet the application requirements are eligible to apply; they need not have been a member of University Honors Program. The research will be conducted under the supervision of a faculty mentor, usually in the student's area of concentration, and will result in an Honors thesis. More information about admission, program requirements, and academic resources is available on the website (www.ensp.umd.edu (http://www.ensp.umd.edu)).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu)

Student Societies and Professional Organizations

UMD ENSPire: ENSPire is the ENSP Student Advisory board. With representatives from each academic class, ENSPire strives to unite ENSP majors and those with a genuine interest in bettering the environment through academics, professional development, community service, exploration of nature, and social activity.

Environmental Science and Policy Major

Environmental Science and Policy is a broadly multi-disciplinary, undergraduate major, drawing courses and faculty from 9 departments and three Colleges (the Colleges of Agriculture and Natural Resources; Behavioral and Social Sciences; Computer, Mathematical, and Natural Sciences).

New ENSP students begin in the College of Agriculture and Natural Resources, where they will be guided through a structured, exploratory advising process. ENSP students are expected to declare a concentration by the end of their third semester in the program and, once they declare their concentration, will move administratively to the College and department sponsoring the concentration. There, they are advised by a faculty member in their discipline.

The ENSP faculty and staff aspire to provide a strong identity for the students enrolled in this major, and we encourage students to take advantage of the rich resources available at a Research I Public University. Experiential learning through research, internships, and study abroad is strongly encouraged.

Admission to the Major

Incoming students who wish to enter ENSP may do so by selecting ENSP-Undeclared (Science) or ENSP-Undeclared (Policy) on their application for admission. On-campus students may declare ENSP during a meeting with the Assistant Director. Please review the ENSP website at www.ensp.umd.edu (http://www.ensp.umd.edu) to learn about the program and its requirements prior to your first advising meeting.

Program Objectives

The curriculum of Environmental Science and Policy comprises an introductory core of lower-level courses in environmental science, environmental policy, biology, chemistry, earth sciences, geography, economics, calculus, and statistics. This is followed by in-depth and focused training in one of twelve areas of concentration in biological resources, earth systems, or the human dimensions of the field; and two upper-level courses in applied science and policy. The educational philosophy of the program is to train students broadly using a multi-disciplinary approach at the introductory level so that they are exposed to the myriad ways there are to learn about environmental systems and to address human-environment issues. This introductory approach precedes the concentration in which the students are prepared for post-graduate study or work in a discipline-based field. The combination of the lower-level core courses and upper-level depth in a concentration prepares graduates to work and study independently or as members of teams in which they will be asked to be experts in one area, while understanding and using effectively other natural and social science knowledge and investigative approaches.

Program Learning Outcomes

1. Utilize and integrate knowledge and understanding of natural and social sciences.
2. Depth and knowledge in an area of concentration.
3. Readiness for full-time employment and grad school

Requirements

Course	Title	Credits
ENSP Core [1]		**18-19**
ENSP101	Introduction to Environmental Science	
ENSP102	Introduction to Environmental Policy	
ENSP400	Capstone in Environmental Science and Policy ((senior standing))	
Applied Science and Policy (select one) [2, 3]		
ENSP305	Applied Quantitative Methods in Environmental Science and Policy	
ENSP330	Introduction to Environmental Law	
ENSP340	Water: Science, Ethics, and Policy	
ENSP342	Environmental Threats to Oceans and Coasts: Towards an Integrated Policy Response	
ENSP350	Energy Resources: Science and Policy in the 21st Century	
Calculus (select one):		
MATH120	Elementary Calculus I	
MATH140	Calculus I	
Statistics (select one):		

BIOM301	Introduction to Biometrics	
SOCY201	Introductory Statistics for Sociology	
PSYC200	Statistical Methods in Psychology	
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	
ECON321	Economic Statistics	
Select at least one course each from four of the five groups:		12-14
Group 1- Biology:		
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	
Group 2 - Chemistry:		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
Group 3 - Earth Sciences:		
AOSC200 & AOSC201	Weather and Climate and Weather and Climate Laboratory	
ENST200	Fundamentals of Soil Science	
GEOG201 & GEOG211	Geography of Environmental Systems and Geography of Environmental Systems Laboratory	
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Group 4 - Economics:		
AREC240	Introduction to Economics and the Environment	
AREC241	Environment, Economics and Policy	
ECON200	Principles of Microeconomics	
Group 5 - Geography:		
GEOG130	Developing Countries	
GEOG140	Natural Disasters: Earthquakes, Floods, and Fires	
GEOG170	Mapping our Digital World	
GEOG202	Introduction to Human Geography	
Total Credits		30-33

1 Requirements may vary slightly depending on concentration; please refer to complete list of requirements on www.ensp.umd.edu (http://www.ensp.umd.edu)

2 To be taken in the junior or senior year

3 Students should not double-count the Applied Science and Policy requirement with another requirement for their concentration.

GRADING POLICY: Students who entered the Environmental Science and Policy Program (ENSP) in spring 2002, and thereafter, are required to earn grades of 'C-' or higher in all courses taken within the ENSP core, in all required courses, and restricted electives of the selected area of concentration.

Areas of Concentration

Students choose an area of concentration and move administratively to the College and academic department sponsoring the concentration where they receive faculty advising and advanced training and background. See requirements for each Area of Concentration below.

Environment and Agriculture (AGNR)

Course	Title	Credits
Requirements		
Fundamentals and Background		18-19
ANSC101 & ANSC103	Principles of Animal Science and Principles of Animal Science Laboratory	
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	
BSCI222	Principles of Genetics	
or PLSC203	Plants, Genes and Biotechnology	
CHEM131 & CHEM232	Chemistry I - Fundamentals of General Chemistry and Organic Chemistry Laboratory I	
PLSC101	Introductory Crop Science	
Cartography, Remote Sensing, and GIS (6 credits)		6
GEOG475	Computer Cartography	
GEOG372	Remote Sensing	
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOG373	Geographic Information Systems	
or ENST415	Renewable Energy	
GEOG473	Geographic Information Systems and Spatial Analysis	
Internship (3 credits)		
ENSP386	Internship	
Restricted Electives (choose 5 courses in one Area)		**15-19**
Area 1 - Crop production and plant protection		
BSCI361	Principles of Ecology	
BSCI442	Plant Physiology	
PLSC420	Principles of Plant Pathology	
ENST411	Principles of Soil Fertility	
ENST441	Sustainable Agriculture	
ENST423	Soil-Water Pollution	
PLSC453	Weed Science	
Area 2 - Human dimensions		
AREC306	Farm Management and Sustainable Food Production	
AREC365	World Hunger, Population, and Food Supplies	
AREC445	Agricultural Development, Population Growth and the Environment	
ECON315	Economic Development of Underdeveloped Areas	
GEOG312	The United States and Canada	
GEOG431	Culture and Natural Resource Management	
GEOG423	Latin America	
or GEOG413	Migration: Latin America and the United States	
GVPT306	Global Environmental Politics	
ENST440	Crops, Soils and Civilization	
ENST441	Sustainable Agriculture	
PLSC303	Global Food Systems	
SOCY405	Scarcity and Modern Society	
Total Credits		39-44

Environmental Economics (AGNR)

Course	Title	Credits
Economics Foundation - Choose Track 1 or Track 2		**13-14**
Track 1: Preparation for PhD programs in Economics and quantitative careers that produce economic analysis		
ECON201	Principles of Macroeconomics	
MATH141	Calculus II	
ECON321	Economic Statistics	
or STAT400	Applied Probability and Statistics I	
ECON326	Intermediate Microeconomic Analysis	
Track 2: Preparation for Master's programs in Public Policy, Law, and careers that involve decision-making informed by economic analysis		
ECON201	Principles of Macroeconomics	
ECON230	Applied Economic Statistics	
or BMGT230	Business Statistics	
AREC326	Intermediate Applied Microeconomics	
or ECON326	Intermediate Microeconomic Analysis	
Select one of the following courses:		
MATH121	Elementary Calculus II (or Equivalent)	
ECON424	Applied Econometrics	
AREC422	Econometric Analysis in Agricultural and Environmental Economics	
AREC380	Data Science for Environmental and Resource Economics	
AREC382	Computer-Based Analysis in Agricultural and Resource Economics	
ENSP305	Applied Quantitative Methods in Environmental Science and Policy	
ENSP306	Fundamentals of Qualitative Research Methods for Environmental Studies	
Restricted Electives inside Economics		**15**
Choose 4		
AREC446	Sustainable Economic Development	
AREC453	Natural Resources and Public Policy	
AREC454	The Economics of Climate Change	
AREC455	Economics of Land Use	
AREC456	Energy and Environmental Economics	
ECON481	Environmental Economics	
ECON454	Public Finance and Public Policy	
Choose 1		
AREC365	World Hunger, Population, and Food Supplies	
AREC382	Computer-Based Analysis in Agricultural and Resource Economics	
or ENSP305	Applied Quantitative Methods in Environmental Science and Policy	
AREC430	Introduction to Agricultural and Resource Law	
AREC433	Food and Agricultural Policy	
AREC445	Agricultural Development, Population Growth and the Environment	
AREC422	Econometric Analysis in Agricultural and Environmental Economics	
or ECON422	Econometrics I	
ECON456	Law and Economics	
Restricted Electives outside Economics (choose from one Supporting Area below)		**12**
Area 1- Social science (at least 9 credits must be 300- or 400-level)		
ANTH266	Changing Climate, Changing Cultures	
ANTH450	Theory and Practice of Environmental Anthropology	
GEOG335	Population Geography	
GEOG421	Changing Geographies of China	
GEOG422	Changing Geographies of Sub-Saharan Africa	
GEOG423	Latin America	
GEOG331	Introduction to Human Dimensions of Global Change	
GEOG332	Economic Geography	
GEOG373	Geographic Information Systems	
GEOG415	Land Use, Climate Change, and Sustainability	
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	
GEOG431	Culture and Natural Resource Management	
GEOG437	Political Geography	
GVPT200	International Political Relations	
GVPT273	Introduction to Environmental Politics	
GVPT306	Global Environmental Politics	
GVPT406	International Organizations	
HIST405	Environmental History	
SOCY405	Scarcity and Modern Society	
SOCY406	Globalization	
SOCY410	Social Demography	
SOCY415	Environmental Sociology	
Area 2 - Earth Science		
AOSC375	Introduction to the Blue Ocean	
or GEOL375	Introduction to the Blue Ocean	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
ENST200	Fundamentals of Soil Science	
ENST423	Soil-Water Pollution	
ENST430	Wetland Soils	
ENST440	Crops, Soils and Civilization	
ENST441	Sustainable Agriculture	
GEOG301	Advanced Geographical Environmental Systems	
GEOG441	The Coastal Ocean	
GEOL340	Geomorphology	
GEOL451	Groundwater	
GEOL452	Watershed and Wetland Hydrology	
GEOL453	Ecosystem Restoration	
LARC450	Environmental Resources	
Area 3 - Life Science (at least 9 credits must be 300- or 400-level)		
BSCI207	Principles of Biology III - Organismal Biology	
BSCI361	Principles of Ecology	
BSCI363	The Biology of Conservation and Extinction	
BSCI370	Principles of Evolution	
BSCI460	Plant Ecology	
BSCI461		
BSCI462	Population Ecology	

BSCI473	Marine Ecology
ENST214	Introduction to Fish and Wildlife Sciences
ENST314	Fisheries Management and Sustainability
ENST373	Natural History of the Chesapeake Bay
ENST410	Ecosystem Services: An Integrated Analysis
ENST450	Wetland Ecology
ENST460	Principles of Wildlife Management
ENST461	Urban Wildlife Management
ENST479	Tropical Ecology and Resource Management
GEOG441	The Coastal Ocean
PLSC471	Forest Ecology
Area 4 - Preparation for Graduate Work in Environmental Economics	
MATH240	Introduction to Linear Algebra
MATH241	Calculus III
ECON325	Intermediate Macroeconomic Analysis
ECON414	Game Theory
ECON422	Econometrics I
or AREC422	Econometric Analysis in Agricultural and Environmental Economics
STAT401	Applied Probability and Statistics II
Total Credits	40-41

Soil, Water, and Land Resources (AGNR)

Course	Title	Credits
Requirements		**18-22**
Select one:		
GEOG372	Remote Sensing	
Select one:		
GEOL340	Geomorphology	
GEOG340	Geomorphology	
Select one:		
GEOL451	Groundwater	
GEOL452	Watershed and Wetland Hydrology	
ENST417	Soil Physics and Hydrology	
Select two:		
ENST301 & ENST302 & ENST303	Field Soil Morphology I and Field Soil Morphology II and Field Soil Morphology III	
ENST415	Renewable Energy	
ENST423	Soil-Water Pollution	
Select two:		
ENST411	Principles of Soil Fertility	
ENST414	Soil Morphology, Genesis and Classification	
ENST417	Soil Physics and Hydrology	
ENST421	Soil Chemistry	
ENST422	Soil Microbial Ecology	
Restricted Electives (at least 3 courses)		**9**
ENCE310	Introduction to Environmental Engineering	
ENST430	Wetland Soils	
ENST440	Crops, Soils and Civilization	
ENST450	Wetland Ecology	
GEOG373	Geographic Information Systems	
GEOG345	Introduction to Climatology	
GEOG475	Computer Cartography	
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOG473	Geographic Information Systems and Spatial Analysis	
ENSP386	Internship	
Recommended Preparation for Graduate School:		
MATH141	Calculus II	
or MATH241	Calculus III	
PHYS121 & PHYS122	Fundamentals of Physics I and Fundamentals of Physics II	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	

WILDLIFE ECOLOGY AND MANAGEMENT (AGNR)

Course	Title	Credits
Requirements		**25-26**
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	
ENST214	Introduction to Fish and Wildlife Sciences	
BSCI222	Principles of Genetics	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
ENST460	Principles of Wildlife Management	
BSCI361	Principles of Ecology	
PHYS121	Fundamentals of Physics I (Require)	
Internship/Research		**3-6**
ENSP386	Internship	
or ENSP499	Honors Thesis Research	
Restricted Electives - Choose at least 3 courses (9 credits) each in Area 1 and Area 2		**21-22**
Area 1 - Ecological and Taxonomic Dimensions		
BSCI207	Principles of Biology III - Organismal Biology	
BSCI334	Mammalogy	
BSCI335	Mammalogy Laboratory	
BSCI337	Biology of Insects	
BSCI363	The Biology of Conservation and Extinction	
BSCI360	Principles of Animal Behavior	
BSCI370	Principles of Evolution	
BSCI392	Biology of Extinct Animals	
BSCI394	Vertebrate Form and Function	
BSCI442/ PLSC400	Plant Physiology	
BSCI460	Plant Ecology	
BSCI462	Population Ecology	
BSCI473	Marine Ecology	
BSCI481	Insect Diversity and Classification	
BSCI494	Animal-Plant Interactions	
ENST450	Wetland Ecology	

GEOL331	Principles of Paleontology
PLSC253	Woody Plants for Mid-Atlantic Landscapes I
PLSC254	Woody Plants for Mid-Atlantic Landscape II
PLSC471	Forest Ecology
Area 2 - Management	
ANSC252	Introduction to the Diseases of Wildlife
ANSC453	Animal Welfare and Bioethics
ENSP305	Applied Quantitative Methods in Environmental Science and Policy
ENST333	Ecosystem Health and Protection
GEOG373	Geographic Information Systems
ENST314	Fisheries Management and Sustainability
ENST404	Ecological and Natural Resources Ethics
ENST406	Applied Forestry Practices
ENST461	Urban Wildlife Management
ENST462	Field Techniques in Wildlife Management
ENST479	Tropical Ecology and Resource Management
Total Credits	49-54

Culture and Environment (BSOS)

Course	Title	Credits
Requirements		**13**
ANTH222	Introduction to Ecological and Evolutionary Anthropology	
ANTH322	Method and Theory in Ecological Anthropology	
ANTH240 & ANTH340	Introduction to Archaeology and Method and Theory in Archaeology	
or ANTH260 & ANTH360	Introduction to Sociocultural Anthropology and Linguistics and Method and Theory in Sociocultural Anthropology	
Restricted Electives in Anthropology (choose at least 4 courses; at least 6 credits must be 300- or 400-level)		**12**
ANTH265	Anthropology of Global Health	
ANTH266	Changing Climate, Changing Cultures	
ANTH341	Introduction to Zooarchaeology	
ANTH451	Environmental Archaeology

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Sustainability Studies Minor (AGNR)

Co-sponsored by the College of Agriculture and Natural Resources and the School of Public Policy

1118C Taliaferro
susminor@umd.edu
https://spp.umd.edu/your-education/undergraduate/minors (https://spp.umd.edu/your-education/undergraduate/minors/)

The study of sustainability examines each generation's commitment to protect and preserve the quality of the natural environment for the benefit of succeeding generations. The stability of natural systems and the environment, economic progress, and promoting social justice are all

important sustainability goals. Promoting these goals involves choices among competing ends.

The Sustainability Studies Minor at the University of Maryland provides students the opportunity to learn how human relationships, natural resources, and diverse environments can be understood and used to address creatively and positively the global challenges that will affect future human populations and cultures. It will complement any major on campus and provide both intellectual breadth and depth in a challenging area of inquiry that is gaining a high level of interest in businesses, government agencies, and non-governmental organizations. This minor will provide students with the critical thinking and problem-solving skills necessary for them as citizens, employees, or graduate students.

To apply please: 1) complete the application form (electronically) and email it to susminor@umd.edu and 2) schedule a mandatory advising appointment during advising hours. For more information, please visit our page at https://spp.umd.edu/your-education/undergraduate/minors (https://spp.umd.edu/your-education/undergraduate/minors/) or e-mail susminor@umd.edu.

Requirements

15 approved credits, at least 9 of which are 300- or 400-level. All courses taken for a minor must be completed with a minimum grade of 'C-'. A minimum C (2.00) cumulative grade point average across all courses used to satisfy the minor is also required. Notes: No more than 6 credits may overlap between your major and Sustainability Studies, unless otherwise approved by your major. Additionally, courses completed in one minor may not be used to satisfy the requirements in another minor. Students must declare the minor a full academic year before their intended graduation.

Course	Title	Credits
AGNR/PLCY301	Sustainability [1]	3
Select one course from each of the following groups: [2]		9
Science and Technology		
Policy and Institutions		
Social and Human Dimensions		
Select an additional approved course from one of these categories or an approved, credit-bearing experiential learning option for which a grade is earned [3]		3
Total Credits		15

1. This course will introduce you to the normative concepts and new thinking surrounding sustainability. We will use readings, lectures, writing exercises, and small group exercises that address how environmental responsibility, economic health, social equity, and cultural vitality are defined and considered in the sustainability context. The roles of resilience and adaptive management will be examined as key pragmatic dimensions of sustainability and as challenging concepts shaping our environmental ethics today. Guest speakers from the Washington region with research and policy expertise will discuss current policy issues.
2. See web site for a list of approved courses
3. These experiences include internships, study abroad trips, and research projects. The experiential learning option must be linked to sustainability and approved in advance.

Environmental Science and Technology

College of Agriculture and Natural Resources
1459 Animal Sciences Building
301-405-1193
shannonp@umd.edu
www.enst.umd.edu (http://www.enst.umd.edu)

The Department of Environmental Science and Technology (ENST) is The Place for Ecological Discovery and Natural Solutions! Our primary mission is to educate students on the fundamentals of environmental science while instilling a deep fascination and intellectual capacity to work in their chosen area of specialization, whether it is Natural Resources Management, Ecological Design, Soil and Watershed Science, or Ecosystem Health. When our students graduate, we want them to be top-notch environmental stewards with a broad framework from which they can advance professionally, personally, and socially.

ENST faculty with expertise in soil science, ecology, and ecological engineering set the stage for unique, relevant, and attractive courses and an academic program that not only trains students to understand environmental systems and issues but also gives them multidisciplinary quantitative design and analytical tools to address complex environmental problems.

Programs

Major

- Environmental Science and Technology Major (p. 112)

Minor

- Soil Science Minor (p. 116)

Advising

The ENST Department has mandatory advising for each of its concentrations. Students are required to meet with their advisor at least once per semester. Please contact Shannon Pederson at 301-405-1193 or shannonp@umd.edu for more information.

Opportunities

Internships

The ENST curricula consist of a broad set of background courses in environmental science, electives in applications, and upper-level field courses that synthesize the major. Students gain hands-on learning experience during their **required** internship.

Student Societies and Professional Organizations

RESTORE, the ENST student-run club, provides members with the opportunity to participate in educational, service, recreational, and social activities. They gain information that better prepares them for the work force, while making a positive contribution to the field of Environmental Science and Technology as well as the community.

Certifications & Professional Societies

An important aspect of professional development is earning and maintaining certification in your field. The ENST department strives to

provide courses and degrees that prepare you for training programs and certification exams and aid in satisfying other requirements for professional certifications. Some relevant certifications are listed below and details can be found at www.enst.umd.edu (http://www.enst.umd.edu). Membership in professional societies is an excellent method to develop a professional network and stay up to date on developments in your field.

- OSHA HAZWOPER (https://www.osha.gov/html/faq-hazwoper.html)
- LEED Certifications (http://www.usgbc.org/credentials (http://www.usgbc.org/credentials/))
- Soils Field and Laboratory Technician (https://www.wacel.org/technician-certification-program/technician-certification-program-overview/)
- Certified Professional Soil Scientist (https://www.soils.org/certifications/become-certified (https://www.soils.org/certifications/become-certified/))
- Certified Professional Agronomist (https://agronomy.org/certifications (https://agronomy.org/certifications/))
- Certified Crop Advisor (https://www.certifiedcropadviser.org/)
- Certified Ecological Designer (http://www.ecoeng.org/certification/certification.html)
- Professional Wetland Scientist (http://www.wetlandcert.org/overview.html)
- Ecologist (http://www.esa.org/esa/?page_id=181 (http://www.esa.org/esa/?page_id=181/))
- Certified Wildlife Biologist (http://wildlife.org/)
- Certified Fisheries Professional (http://fisheries.org/)
- Certified Forester (https://www.eforester.org/Main/Certification_Education/Certified_Forester/Requirements/Main/Certification/Requirements.aspx (https://www.eforester.org/Main/Certification_Education/Certified_Forester/Requirements/Main/Certification/Requirements.aspx?hkey=7eae8378-e92b-438e-aba9-93e713cb38cc/))
- Certified Natural Resources Manager (https://www.eforester.org/Main/Certification_Education/Certified_Forester/Requirements/Main/Certification/Requirements.aspx (https://www.eforester.org/Main/Certification_Education/Certified_Forester/Requirements/Main/Certification/Requirements.aspx?hkey=7eae8378-e92b-438e-aba9-93e713cb38cc/))
- Erosion and Sediment Control Certification (http://www.sha.maryland.gov/Index.aspx?PageId=56 (http://www.sha.maryland.gov/Index.aspx?PageId=56/))

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Additionally, ENST students are encouraged to apply for internships available to them through the College of Agriculture & Natural Resources. More details can be found here: https://agnr.umd.edu/students/scholarships (https://agnr.umd.edu/students/scholarships/).

Environmental Science and Technology Major

The Environmental Science and Technology major prepares students for graduate study and careers focusing on understanding the natural and built environments and resolving environmental problems and concerns for the benefit of humans and ecosystems. Specifically, the program encompasses impacts of human society on the natural environment, the effects of environmental conditions on humans and ecosystems, science-based management of ecosystems, watershed and soil-related processes related to environmental quality, and designing solutions to sustainably improve environmental quality of air, water, soil, and biological communities. The ENST major is a science- and math-based curriculum leading to a B.S. degree in Environmental Science and Technology with concentrations in Ecological Technology Design, Ecosystem Health, Soil and Watershed Science, or Natural Resources Management. These concentrations share a foundation in science and mathematics, offer specialization through required concentration core courses, and provide flexibility in course selection in concentration depth and technical elective categories. The concentrations are designed to provide students with a fundamental understanding of environmental systems and issues and the multidisciplinary quantitative design and analytical tools necessary to solve complex environmental problems.

For future updates and exciting changes, please visit our website at enst.umd.edu (http://enst.umd.edu//).

Concentrations:

Ecological Technological Design

The ENST concentration in Ecological Technology Design prepares students for integrating natural systems with the built environment to solve environmental problems while achieving economic, ecological and social sustainability. The science and applications of using natural systems, processes and organisms to address environmental issues has evolved during the last few decades to a mature level whereby there are strong employment opportunities for graduates that are cross-educated in ecology and technology. Examples of eco-technological applications include restoration of urban and rural streams, creation of wastewater treatment wetlands, design of raingardens and bioretention systems for low-impact stormwater management, design of eco-industrial parks, life cycle assessment of products for improved environmental performance, bioremediation and phytoremediation of contaminated groundwater, ecological systems for by-product recovery, and filtration of contaminated air with bioreactors. The curriculum consists of a broad set of background courses in environmental science, electives in applications of Ecological Technology Design, and upper-level courses that synthesize the major. Hands-on design experience is included in required internship and practicum courses.

Ecosystem Health

The ecosystem health concentration is a broad and increasingly important field with wide ranging applications in the environmental science and public health fields. The field encompasses environmental factors and ecosystem functions that affect human health and the effects of human activities on the ecosystem products and services we depend on. Example topics within the field include ecological risk analysis, environmental toxicology, environmental impact assessment, chemical fate and transport, human health risk assessment, industrial hygiene, air quality, environmental microbiology, food safety and security, biodiversity and human health, and children's environmental health. The

Ecosystem Health concentration within the Department of Environmental Science and Technology offers a science-based curriculum that includes advanced studies in ecosystem health and environmental protection and the impacts of environmental degradation on human health.

Natural Resources Management

The goal of the Natural Resources Management Concentration is to teach students concepts of the environmentally sound use and management of natural resources. Ecosystems and human societies are linked in complex cycles and relationships between vegetation and wildlife, forests and cities, conservation and development. By learning to participate effectively within these cycles, we will help sustain a harmonious relationship between the environment and human activities. This concentration provides students with the knowledge and skills they need to work in such positions as wildlife biologists, environmental consultants, wetland scientists, forest managers, fisheries biologists, aquatic biologists, and nature interpreters.

Soil and Watershed Science

The Soil and Watershed Science concentration enables students to understand the complex ways in which aquatic and terrestrial ecosystems are influenced by soil properties and processes and land management decisions. The soil performs such critical ecological functions as supplying and purifying water, recycling wastes, nurturing plants, modifying the atmosphere by emitting or sequestering gases and particulates, providing habitat for the most diverse biological communities on Earth, and serving as a medium for human engineering projects.

The concentration in Soil and Watershed Science in ENST provides students with one of the top soil science programs in the nation. The curriculum prepares graduates for work in variety of careers addressing natural resource and environmental issues and provides a rigorous science background for those planning to pursue post-graduate degrees in environmental sciences, soil science, watershed processes, and related fields. Students graduating from this program will make valuable contributions to society as they pursue challenging careers critical to the protection of the environment. In addition to pursuing advanced degrees, graduates may work in both the private and public sectors performing such services as soil mapping, wetland delineation, land conservation planning, forestry, waste management, farm advising, international development, and consulting in environmental, construction, and landscape architecture areas. Graduates from the Soil and Watershed Science concentration will be qualified to take the national exam to become a Certified Professional Soil Scientist (CPSS).

Program Learning Outcomes

1. Science and Technology Application. Students will demonstrate the ability to apply natural science principles and technology methods (particularly in ENST), and be able to express scientific questions and findings in the context of relevant socio-environmental dimensions
2. Quantitative Reasoning. Students will demonstrate the ability to apply basic mathematical and quantitative reasoning in the context of relevant socio-environmental dimensions
3. Written and Oral Communication. Students will be able to communicate clearly, concisely, and effectively in writing and speech to scientific, management, policy, or general audiences
4. Information Literacy. Students will demonstrate information literacy skills that they can successfully apply in and outside their disciplines
5. Technology Fluency. Students will be able to apply technologies to their research and academic efforts in the context of their specific disciplines

Requirements

This program requires a total of 120 credit for a Bachelor of Science, including the general education program course credits, required major credits; Technology and Ecosystem elective credits, and free elective credits. All courses counted toward the major must be completed with a C- or better. An overall GPA of 2.0 in major courses is required for graduation.

Course	Title	Credits
ENST Core for all Areas of Concentration		
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
MATH120	Elementary Calculus I	3
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
ENST200	Fundamentals of Soil Science	4
ENST233	Introduction to Environmental Health	4
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
PHYS121	Fundamentals of Physics I	4
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	3
or BIOM301	Introduction to Biometrics

GEOL453	Ecosystem Restoration	
Total Credits		32-35

1 Any combination of electives can be taken. Courses appear in blocks of related topics to assist students in tailoring their program to particular interests within the concentration. Under some circumstances, other 300 or 400 level electives can be substituted with advisor's approval.

2 Required for Professional Certification as an Associate Wildlife Biologist by The Wildlife Society.

3 Required for Professional Certification as an Associate Fisheries Professional by American Fisheries Society.

[4] Required for Professional Certification as a Wetland Professional in Training (WPIT) by The Society of Wetland Scientists Professional Certification Program (SWSPCP).

[5] Required for Soil Certification Exam.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Soil Science Minor

The Soil Science minor will provide students with a sophisticated understanding of soil resources, its development, characteristics, and principles for its use and management. Building on a basic introduction to the broad field of soil science, the program is completed by adding four or five upper division soils courses balanced between underlying principles and field applications.

Declared majors in the Conservation of Soil, Water and Environment area of concentration of NRSC or the Land and Water option in ENSP may not also minor in Soil Sciences.

Advising system for the minor:
The ENST Department has mandatory advising for each of its major and minor programs. Students are required to meet with their advisor at least once per semester. If you have any questions, please contact Shannon Pederson at shannonp@umd.edu.

Requirements

Course	Title	Credits
Core Requirement		
ENST200	Fundamentals of Soil Science	4
Select 13 credits from Group A and Group B. At least two courses must be from Group A.		**13**
Group A - Underlying Principles:		
ENST411	Principles of Soil Fertility	
ENST414	Soil Morphology, Genesis and Classification	
ENST417	Soil Physics and Hydrology	
ENST421	Soil Chemistry	
ENST422	Soil Microbial Ecology	
Group B - Applications:		
ENST301	Field Soil Morphology I	
ENST302	Field Soil Morphology II	
ENST303	Field Soil Morphology III	
ENST309	Advanced Field Soil Morphology	
ENST423	Soil-Water Pollution	
ENST430	Wetland Soils	
Total Credits		17

Students attempting this minor will need MATH113 or higher. There are a total of 17 required credits in ENST classes, plus a 4 credit CHEM prerequisite. Depending on the pre-requisites needed, and the optional courses selected and pre-requisites, students will take between 17 and 24 credits.

This minor is particularly relevant to students majoring in Agricultural and Resource Economics, Geology, Geography, Environmental Science and Policy, Biology, Biochemistry, Chemistry, Anthropology, Architecture, Agriculture Science and Technology, Animal Science, Landscape Architecture, Bioengineering, Civil Engineering, Environmental Engineering, and Plant Science.

International Agriculture and Natural Resources Certificate

College of Agriculture and Natural Resources
0110 Symons Hall
301-405-2078
tgallman@umd.edu
www.agnr.umd.edu (https://agnr.umd.edu/)

The Certificate in International Agriculture and Natural Resources is designed to enrich a student's major with a global perspective. The required courses focus on: language instruction; international aspects of the environment, agricultural production, development and sustainability, nutrition, and business; an experience abroad; and a capstone course regarding the student's travel abroad. Any student in good academic standing may participate in the certificate program.

Requirements

The certificate requires 19-21 credits that may include courses taken toward other degree and general education requirements. Upon successful completion of the courses, with a grade of 'C-' or better in each course and a recommendation of the Associate Dean of the College of Agriculture and Natural Resources, a certificate will be awarded. A notation of the award of the certificate will be included on the student's transcript. In order to receive the certificate, students must have completed all requirements for a bachelor's degree. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements.

Course	Title	Credits
Foreign Language		
Select 6-8 credits of foreign language		6-8
International Courses		
Select at least nine credits of the following: [1]		9
AREC365	World Hunger, Population, and Food Supplies	
AREC433	Food and Agricultural Policy	
AREC445	Agricultural Development, Population Growth and the Environment	
BMGT390	Designing Innovative Systems	
BMGT392	Introduction to International Business Management	
BSCI365		
ECON440		

ENST100	International Crop Production-Issues and Challenges in the 21st Century	
ENST440	Crops, Soils and Civilization	
GEOG422	Changing Geographies of Sub-Saharan Africa	
GEOG434		
GVPT306	Global Environmental Politics	
NFSC425	International Nutrition	
Travel Study or Travel Abroad		
Three to four credits of travel study or study abroad. Prerequisite: to have completed the foreign language course work. Prerequisite or co-requisite: six credits from the International Courses List. In order to qualify for the certificate, travel study and study abroad experiences require prior approval of Associate Dean of the College of Agriculture and Natural Resources. For approval, travel experience must demonstrate significant learning opportunities in areas related to agriculture and natural resources and cultural immersion.		3-4
Travel Study Seminar		
Travel Study Seminar [2]		1
Total Credits		19-22

1 At least 3 of these courses must be in the College of Agriculture and Natural Resources for students not majoring in a program outside of the College of Agriculture and Natural Resources.

2 Prerequisite: completion of the travel study requirement. This course will require student presentation of their travel experience including a paper, a poster presentation, as well as an oral presentation and discussion.

Nutrition and Food Science

College of Agriculture and Natural Resources
0112 Skinner Building
301-405-4521
www.nfsc.umd.edu (http://www.nfsc.umd.edu)

The Department of Nutrition and Food Science strives to prepare students for careers in the dynamic and global food industry, public health and community nutrition sectors, health care, or biomedical research.

Programs

Major

- Nutrition and Food Science Major (p. 117)

Advising

Department advising is mandatory each semester. When planning a course of study, students must consult the Undergraduate Catalog for the year they entered the program and also see an appropriate departmental advisor. Information on advising may be obtained by calling the department office, 301-405-8980.

Opportunities

Student Societies and Professional Organizations

The NFSC Department has two active undergraduate clubs: the Student Dietetics Association (SDA) (formerly known as Food and Nutrition - FAN club) and the Food Science club, which sponsor outreach activities and speakers on career-related topics, and participate in a variety of social activities. Call 301-405-8980 for more information.

Nutrition and Food Science Major

The department offers three areas of concentration: dietetics, food science, and nutritional science. Each concentration provides for competencies in several areas of work; however, each concentration is designed specifically for certain professional careers.

The Dietetics concentration develops an understanding and competency in food, nutrition, dietetics management, clinical nutritional care, community nutrition, counseling and education. The dietetics concentration is approved by the *Accreditation Council for Education in Nutrition and Dietetics (ACEND).* Dietetics Program graduates must apply and complete a post-baccalaureate internship prior to taking a national exam to become a registered dietitian. The course work in the Dietetics option provides a strong foundation in science. Students share classes with undergraduate students majoring in biology, chemistry, biochemistry, food science; graduate students in nutrition; and those on pre-med or pre-health track.

The Food Science concentration is concerned with the application of the fundamental principles of the physical, biological, and behavioral sciences and engineering to understand the complex and heterogeneous materials recognized as food. The food science concentration is approved by the Institute of Food Technologists and prepares students for careers in food industry and food safety.

The Nutritional Science concentration emphasizes the physical and biological sciences in relation to nutrition and the development of laboratory skills in these areas. Students in this concentration frequently elect to go on to graduate or medical school.

Admission to the Major

The major in Nutrition and Food Science is not a Limited Enrollment Program (LEP). Students may either declare the major at the time of application or transfer into the major at any time thereafter. If interested in transferring into the NFSC major, please contact the departmental office and ask to speak with an advisor.

Requirements

All students are required to earn a grade of 'C-' or better in courses applied toward satisfaction of the major. This includes all required courses with a prefix of NFSC, as well as certain required courses in supporting fields. A list of these courses for each program may be obtained from the department office.

Course	Title	Credits
Base Curriculum for All Concentrations		
NFSC100	Elements of Nutrition	3

- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Plant Science and Landscape Architecture

College of Agriculture and Natural Resources
2139 Plant Sciences Building
301-405-4359
dcortez@umd.edu
www.psla.umd.edu/ (http://www.psla.umd.edu/)

The Department of Plant Science and Landscape Architecture (PSLA) is the home of the Agricultural Science and Technology, Landscape Architecture, and Plant Sciences majors. The Agricultural Science and Technology major is a science based curriculum that allows students to obtain skills in agricultural science, education, and production (Agronomy and Environmental Horticulture). The Landscape Architecture major trains students to become landscape architecture professionals who design and plan built environments that minimize impacts and restore natural ecosystems. The Plant Sciences major trains students in basic and applied plant biology. The Plant Sciences major includes concentrations in plant biology (pathology, ecology, genetics, physiology and development), turf and golf course management, and urban forestry.

Programs

Majors

- Agricultural Science and Technology Major (p. 120)
- Landscape Architecture Major (p. 123)
- Plant Science Major (p. 126)

Minor

- Agricultural Science and Technology Minor (p. 123)
- Landscape Management Minor (p. 125)

Advising

The department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year.

Faculty Advisors

Concentration	Faculty Advisor
AGST: Agronomy	Bill Phillips, billii@umd.edu
AGST: Environmental Horticulture	Diana Cochran, cochrand@umd.edu
AGST: Agricultural and Extension Education	Melissa Welsh, drmwelsh@umd.edu
Landscape Architecture	Dennis Nola, dnola@umd.edu
PLSC: Plant Biology	Gary Coleman, gcoleman@umd.edu
PLSC: Turf & Golf Course Management	Mark Carroll, mcarroll@umd.edu
PLSC: Urban Forestry	Joseph Sullivan, jsull@umd.edu
Agricultural Science & Technology (Minor)	Bill Phillips, billii@umd.edu
Landscape Management (Minor)	Mark Carroll, mcarroll@umd.edu
General Inquiries	Diana Cortez, dcortez@umd.edu

See Diana Cortez, Lecturer & Academic Advisor for Undergraduate Studies, in 2139 Plant Sciences Building (301-405-4359) for additional information.

Opportunities

Undergraduate Research Experiences

Students have abundant opportunities to conduct research with faculty from this department as well as related programs on campus. Research opportunities are also available at government laboratories such as USDA, NIH, etc.

Internships

Internships with scientists are available at nearby federal and state agencies. Numerous internships also exist and can be readily arranged for students interested in private sector employment.

Student Societies and Professional Organizations

Students from this major as well as any interested students on campus may participate in the Horticulture and Agronomy Club sponsored by the Department of Plant Science and Landscape Architecture.

Scholarships and Financial Assistance

Several scholarships and awards are available to PSLA students. Contact the Associate Dean's office at 301-405-2078 for additional information. The department also maintains a listing of scholarships. Contact the executive administrative assistant in 2104A Plant Sciences, 301-405-4356 for additional information.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Agricultural Science and Technology Major

College of Agriculture and Natural Resources
2139 Plant Sciences Building
301-405-4359
dcortez@umd.edu
www.psla.umd.edu (http://www.psla.umd.edu)

Agricultural Science and Technology is an interdisciplinary major focusing on sustainable production of food, feed, fiber, fuel, and ornamentals as well as developing skills to provide agricultural education for all. This major is a science based curriculum that allows students to obtain technological skills while developing critical thinking in a broad area of agricultural studies. Within this major there are three specializations to choose from: Agronomy, Environmental Horticulture, or Agricultural and Extension Education.

Agronomy

Agronomy students will focus on a broad range of agricultural disciplines providing them with a comprehensive education in crop, soil and animal sciences. Students will take courses in animal science, crop science, soil science, agricultural economics and plant protection. This specialization has electives that allows students to design their curriculum and develop knowledge in areas that meet their future goals. Graduates will be prepared to work in the agricultural industry in agricultural extension, management, marketing, regulatory, support services, as well as other opportunities.

Environmental Horticulture

The Environmental Horticulture specialization focuses on the science, technology and management of fruit, vegetable, flower and woody ornamental plant production. The applied aspects of the curriculum include training in plant propagation, greenhouse crop production systems, containerized nursery production, food crop production and controlled environmental systems. Courses are taken in plant science, soil science, plant protection and food safety practices. Graduates of this program pursue careers in urban agriculture, horticultural enterprises and public education programs. Students can prepare for plant science graduate programs by taking additional courses.

Agricultural and Extension Education

The Agricultural and Extension Education specialization provides students with varying coursework in:

- agribusiness & communications;
- animal, food & plant sciences;
- biotechnology;
- environmental & natural resources;
- leadership, youth & career development;
- power, structural & technical systems;
- and foundational pedagogical education courses.

The Agricultural and Extension Education specialization provides students with varying coursework in agribusiness & communications; animal, food & plant sciences; biotechnology; environmental & natural resources; leadership, youth & career development; power, structural & technical systems; and foundational pedagogical education courses. Students practice agricultural literacy techniques throughout their individualized learning experiences to develop mastery in educating using agricultural concepts with diverse audiences. Inclusion within the Terrapin Teachers program provides cross-disciplinary and interdisciplinary opportunities for learning with peers. Graduates focused on formal education may become certified secondary high school agricultural teachers in public or private schools or specialize in an area for career technical education. Those focused as agricultural advocates may seek non-formal education jobs in non-profit agricultural literacy based foundations, become Extension youth educators, Extension agricultural specialists, or work within agricultural industry public relations areas. Proximity to federal agencies provides students with an opportunity to expand their international and regulation agency networking skills.

Undergraduates have two options. First option is to complete a double major in 4 years:

1. The first option is to complete a double major in 4 years: (1) Agricultural Science and Technology, Agricultural and Extension Education specialization and (2) Secondary Sciences Education.

2. The second option is to major in Agricultural Science and Technology, Agricultural and Extension Education specialization with no teacher certification and focus on Extension/Industry internships. Students wanting to complete a master's degree can enroll in the 5-year Integrated Master's with certification program. These students are able to complete additional agricultural content courses due to the majority of their educational courses being completed in the 30 credit master's program.

Program Learning Outcomes

1. Students will develop technical and knowledge-based skills in the required areas of study.
2. Students will use technical and basic learned knowledge to collaborate, solve problems, and then articulate conclusions.
3. Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
4. Students will connect and build relationships with external groups in the appropriate fields of study.

Requirements

Course	Title	Credits
Major Core Courses		
ANSC101	Principles of Animal Science	3
ANSC103	Principles of Animal Science Laboratory	1

BSCI337	Biology of Insects	4
or BSCI497	Insect Pests of Ornamentals and Turf	
AREC250	Elements of Agricultural and Resource Economics	3
or AREC306	Farm Management and Sustainable Food Production	
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
ENST200	Fundamentals of Soil Science	4
MATH113	College Algebra and Trigonometry	3
PLSC201	Plant Structure and Function	4
INAG250	Fundamentals of Agricultural Mechanics	3
Select one of the following:		3-4
PLSC275	Fundamentals of Agricultural Chemistry	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
PLSC420	Principles of Plant Pathology	4
PLSC453	Weed Science	3
Specialization Requirements		**38-71**
Select one of the following specializations:		
Agronomy		
Environmental Horticulture		
Agricultural and Extension Education		
Total Credits		77-111

Specializations: Agronomy

Course	Title	Credits
Agronomy Specialization Requirements		
Accounting, Education, Computer Science or Policy	Restricted Elective	3

TLPL415	Perspectives in Science	3
TLPL425	Learning and Teaching in Science	3
TLPL478	Professional Seminar in Education (TLPL478F: Professional Seminar in Education: Agriculture)	2
TLPL479	Field Experiences in Education (TLPL479F: Field Experience in Science Education)	1
TLPL489	Internship in Education (TLPL489F)	12
TLPL481	Embracing Diversity in the Classroom Community	3
Total Credits		68

Agricultural and Extension education: Extension/Industry

Course	Title	Credits
PLSC100	Introduction to Horticulture	4
or PLSC101	Introductory Crop Science	
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
One of the following courses:		3
ANSC220	Livestock Management	
ANSC242	Dairy Cattle Management	
ANSC232	Horse Management	
ANSC255	Introduction to Aquaculture	3
ANSC227	Eating with Eyes Wide Open	3
AGST442	(Developing Leadership in Youth and Volunteers)	3
PLSC235	Irrigation and Drainage	3
or INAG235	Irrigation and Drainage	
AREC/PLSC/ LARC	Restricted Elective	6
AGST440	(Exploring Maryland Agriculture, Agricultural Industries & Agricultural Literacy)	3
PLSC471	Forest Ecology (or elective focused on Renewable Energy)	3
NFSC112	Food: Science and Technology	3
or PLSC115	How Safe is Your Salad? The Microbiological Safety of Fresh produce	
BSCI121	Beekeeping	2
INAG252	Agricultural Public Relations	3
AGST489	(Internship or Elective Course) [1]	3
AGST489	(Internship) [1]	3
TLPL101	Inquiry Approach to Teaching STEM (Step 1)	1
TLPL102	Inquiry Teaching of STEM in Middle School	2
One of the following courses:		3
TLPL488	Special Topics in Education (TLPL488P: Project Based Instruction)	
TLPL401	Student-Centered Curriculum and Instruction	
TLPL414	Knowing and Learning in Mathematics and Science	3
Total Credits		58

[1] Internship requirement: Students will either do two internships for a total of 6 credits or one internship for 3 credits and take a different elective course for 3 credits.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities Undergraduate Research Experiences

Students are encouraged to take part in faculty mentored research. Please contact an advisor for more information.

Internships

Internships are a part of the required curriculum and can be in private or government sector employment. Formal (K-12 schools) and non-formal (non-profits, industry & Extension) education settings are available for students in the Agricultural & Extension Education specialization.

Student Clubs and Professional Organizations

Faculty in the department advise student clubs. The department also sponsors student teams that participate in regional and national contests. These teams participate in competitions in the following areas: turf and crop science.

Scholarships and Financial Assistance

Several scholarships and awards are available to AGST students. Contact the Associate Dean's office at 301-405-2078 for additional information. The Department also maintains a listing of scholarships. For more information regarding these scholarships contact the Chair's office in 2104A Plant Sciences, 301-405-4356.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Advising

The department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year.

For additional information please see:

Dr. Bill Phillips (https://agnr.umd.edu/about/directory/bill-phillips/), Director and Assistant Clinical Professor, Agronomy Advisor
email: billii@umd.edu | room: PLS 2131 | phone: 301.405.1061

Dr. Diana Cochran (https://agnr.umd.edu/about/directory/diana-renae-cochran/), Assistant Clinical Professor, Environmental Horticulture Advisor
email: cochrand@umd.edu | room: PLS 2133 | Phone: 301.405.4336

Dr. Melissa Leiden Welsh (https://agnr.umd.edu/about/directory/melissa-welsh/), Assistant Clinical Professor, Agricultural and Extension Education Advisor
email: drmwelsh@umd.edu | room: PLS 2130 | Phone: 301.405.6969

Diana Cortez (https://agnr.umd.edu/about/directory/dora-diana-cortez/), Academic Advisor & Lecturer

Agricultural Science and Technology Minor

Agricultural Science & Technology (AGST)
2139 Plant Sciences Building
301-405-4359

Contact us for more information:
Dr. Bill Phillips, Assistant Clinical Professor, billii@umd.edu
Dr. Diana Cochran, Assistant Clinical Professor, cochrand@umd.edu
Diana Cortez, Academic Advisor and Lecturer, dcortez@umd.edu (%20dcortez@umd.edu)

For more information, please visit our website at www.psla.umd.edu/. (https://psla.umd.edu/) You may also want to check out our Minors (https://psla.umd.edu/undergraduate/degrees/minors/) page.

This minor will provide students with an appreciation and understanding of sustainable agricultural crop production. The core courses provide students with a basic foundation in plant science while supporting courses allow students to broaden their focus in different areas of agriculture. Students can select their courses in either agronomy or environmental horticulture.

Requirements

Course	Title	Credits
Core Courses		
PLSC101	Introductory Crop Science	4
or PLSC100	Introduction to Horticulture	
ENST200	Fundamentals of Soil Science	4
PLSC201	Plant Structure and Function	4
PLSC389	Internship	3
or PLSC460	Application of Knowledge in Plant Sciences	
Supporting Courses		**7**
PLSC407	Advanced Crop Science	
PLSC420	Principles of Plant Pathology	
PLSC433	Technology of Fruit and Vegetable Production	
PLSC452	Environmental Horticulture	
PLSC453	Weed Science	
BSCI497	Insect Pests of Ornamentals and Turf	
or BSCI337	Biology of Insects	
Total Credits		22

General Requirements

- All courses presented for the minor must be passed with a grade of 'C-' or better.
- All courses presented for the minor must be taken at the University of Maryland, College Park.
- Students may use a maximum of six credits or two courses to satisfy the requirements of both a major and a minor.
- The Department of Plant Science and Landscape Architecture has mandatory advising for each of its major and minor programs. Students are required to meet with their advisor at least twice a year.
- Students matriculating to this minor will need MATH113 or higher and CHEM131/132 as prerequisites

Landscape Architecture Major

Landscape Architects lead, educate, and participate in the careful stewardship, wise planning, and artful design of our built and natural environments.The Landscape Architecture curriculum is a four-year professional program.

The Bachelor of Landscape Architecture (BLA) degree is accredited by the Landscape Architecture Accreditation Board (LAAB) (www.asla.org/accreditationlaab.aspx#About_LAAB (http://www.asla.org/accreditationlaab.aspx#About_LAAB)). The BLA degree meets the academic requirements for licensure. LAAB standards require that first-professional degree curricula must include the core knowledge skills and applications of landscape architecture: landscape architectural history, philosophy, theory, values, ethics, practice, planning, design, implementation, and management. The program is a site-based design discipline that also deals with regional and larger-scale environmental/social issues. The curriculum, centered on a studio-based design curriculum, integrates ecological and social factors into the design and planning process. Students take a series of lecture and studio design courses, beginning with an introduction to landscape design principles in the first year and culminating in an advanced research and studio design project in the graduating year. Courses include Site Analysis and Ecological Principles, Site Design Studio, Urban Design Studio, and Professional Practice, among others. Digital design studios allow the integration of computer-aided design, GIS, and other analytical and communication tools with fundamental design and drawing skills.

Landscape architects are licensed professionals who analyze, plan, design, manage, and preserve the built and natural environments. The work we do has a significant impact on the health of our communities and our quality of life. In landscape architecture, you will learn how to solve problems in the natural and built environments, lead design teams that include scientists, planners, engineers and architects, and communicate with real clients, contractors, and municipal agency personnel. You will learn the creative skills of problem solving and design, and the technical skills needed to write contracts and build the ideas you put on paper. You will master 3D visualization software and other advanced digital technologies used to gather data, design, and construct major civil projects. Core competencies include design processes and methods, natural and cultural systems analysis, communication (written/oral/visual), technical building materials and site engineering, computer applications, professional practice, and research methods for design.

Career tracks include:

- **Ecological Design** - where you are trained to analyze degraded environmental conditions such as brownfields, strip mines and abandoned urban industrial sites, and restore them to high functioning terrestrial and aquatic ecosystems.
- **Urban Design** - where you examine civic environments and human activity and weave them together into a fabric of streets and open spaces, waterfronts and central parks, historically significant districts

and communities with emerging identities, and neighborhoods that are socially equitable and economically viable.

- **Community Design** - where you address issues of climate change, cultural resource preservation, urban agriculture, redevelopment of vacant properties, crime prevention through environmental design, and a wide range of planning and design activities that embrace the views of community residents.
- **Creative Design** - where you engage in all forms of creativity, including earthworks, soundscapes, lighting design, metal fabricating, woodworking, stonework, sculpture, mosaics, murals and more. Every object in the landscape has the potential for beauty when unlocked by a savvy designer.

Our nationally accredited program is built around a series of technical knowledge and skill-building courses that support a series of six sequential capstone courses (studios). You will practice and master your skill sets in the capstone studios around a set of real-world design projects mentored by expert instructors. You will work with real clients on real sites in Washington, DC, Baltimore, and throughout the mid-atlantic region. Each capstone studio builds upon your prior experiences yet focuses on different scales, issues and project types (ecological design, urban design, community design, etc.).

Courses offered by this department may be found under the following acronyms: PLSC and LARC.

Admission to the Major

Landscape Architecture is an open enrollment program.

Freshman Admission

The program's goal is to have the greater proportion of program majors admitted as freshmen. All entering freshmen will gain admission to the Landscape Architecture program directly from high school, as space permits. Early application is encouraged to ensure the best possible chance for admission.

Transfer Admission

Admission of transfer students is limited by space considerations. Students presenting an acceptable graphic portfolio, evaluated by the landscape architecture faculty, may be exempted from selected courses. Landscape architecture faculty will evaluate all other LARC-equivalent courses transferred from another institution.

The Studio Placement Benchmark Review

Admission into the studio sequence is contingent upon attaining a successful benchmark review of a portfolio to meet content and quality standards as outlined by the LARC program. Students must earn a minimum of 80 points out of 100. Benchmark portfolio reviews occur in the spring semester. The portfolio also requires a Letter of Application to the Landscape Architecture program. Each student must write a one-page letter, addressed to the Landscape Architecture program faculty. The letter must clearly and concisely state his/her reasons for wanting to be in the Landscape Architecture Program.

Other Policies Which Determine a Student's Retention in the Landscape Architecture Program

Appeals

Students who are unsuccessful in passing the Studio Placement Benchmark Review to the Landscape Architecture program and believe they have extenuating or special circumstances which should be considered, may appeal in writing to the BLA Chair. The student will be notified in writing of the appeal decision.

BLA Degree Requirements

The courses and credit hours that define the curriculum leading to the degree of Bachelor of Landscape Architecture (B.L.A.) are described in the next section. The curriculum includes required courses for the major as well as additional general education program requirements and electives. Following the successful Studio Placement Benchmark Review, students must have an overall average of a 'C' (2.0) to be eligible for the B.L.A. degree. Students must also have grades of 'C-' or better in all required courses with the LARC designation.

Program Learning Outcomes

1. Demonstrate an understanding of the design process used in landscape architectural practice.
2. Demonstrate the ability to communicate through visual literacy using hand graphics and computer technology.
3. Connect and build relationships with external groups in the appropriate fields of study.

Requirements

Course	Title	Credits
Requirements for the Major		
ENGL393	Technical Writing	3
ENST200	Fundamentals of Soil Science	4
Select one of the following:		3
ENST444		
GEOG340	Geomorphology	
GEOG372	Remote Sensing	
LARC120	Digital Fundamentals	2
LARC140	Graphic Fundamentals Studio	4
LARC141	Design Fundamentals Studio	4
LARC160	Introduction to Landscape Architecture and Environmental Design	3
LARC221	Digital Design Tools	3
LARC240	Graphic Communication and Design Studio	4
LARC263	History of Landscape Architecture	3
LARC265	Site Analysis and Ecological Principles	3
LARC320	Principles of Site Engineering	3
LARC321	Landscape Structures and Materials	3
LARC340	Site Planning and Design Studio	5
LARC341	Regional Design Studio	5
LARC389	Internship in Landscape Architecture	3
LARC420	Professional Practice	3
LARC440	Urban Design Studio	5
LARC450	Environmental Resources	3
or LARC451	Sustainable Communities	
LARC470	Landscape Architecture Seminar	3
LARC471	Capstone Studio: Community Design	5
MATH113	College Algebra and Trigonometry	3
or MATH115	Precalculus	
PLSC100	Introduction to Horticulture	4
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3

PLSC254	Woody Plants for Mid-Atlantic Landscape II	3
Total Credits		87

Advising

The department has mandatory faculty advising for each of its major and minor programs. Students are required to meet with their faculty advisor at least twice a year. See Diana Cortez, Undergraduate Academic Advisor & Lecturer, in 2139 Plant Sciences Building (301-405-4359, dcortez@umd.edu) for additional information.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Undergraduate Research Experiences

Landscape Architecture faculty members frequently have research opportunities for undergraduate students. Students are encouraged to contact faculty members for any opportunities. Students may also discuss these opportunities with their faculty advisors.

Internships

Internships are available at nearby federal, state and county agencies as well as in private landscape architecture firms. University of Maryland Landscape Architecture participates in the MDASLA Job Shadow Program. A list of participating firms can be found on our Careers (https://larch.umd.edu/about/careers/) page.

Student Societies and Professional Organizations

The Student Chapter of the American Society of Landscape Architects (SASLA) provides students with opportunities to get involved with on-campus activities. The club is chartered by ASLA.

More information can be found online on our Student ASLA (https://larch.umd.edu/people/student-asla/) page.

Scholarships and Financial Assistance

Several scholarships are awarded each year based on merit and need through the Department of Plant Sciences and Landscape Architecture. They include:

Undergraduate Awards

- The Homeland Garden Club of Baltimore Award
- Olmsted Scholar Award
- Landscape Architecture Award of Excellence
- ASLA Honor and Merit Award Nominees
- Spirit of the Studio Award
- Matt Weaver Scholarship

Contact the Associate Dean's office at 301-405-5308 for additional information. The department also maintains a listing of scholarships. Contact the Executive Administrative Assistant in 2104A Plant Sciences, 301-405-4356 for more information.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Landscape Management Minor

Plant Sciences (PLSC)
2139 Plant Sciences Building
301-405-4359

Contact us for more information:
Dr. Mark Carroll, Associate Professor and Director of the Environmental Science and Policy Program, mcarroll@umd.edu
Diana Cortez, Academic Advisor and Lecturer, dcortez@umd.edu (%20dcortez@umd.edu)

For more information, please visit our website at www.psla.umd.edu/. (https://psla.umd.edu/) You may also want to check out our Minors (https://psla.umd.edu/undergraduate/degrees/minors/) page.

The Landscape Management minor provides students with a foundation in plant sciences and business management. The required science courses lead to an integrative understanding of plant growth and development and the plant's responses to its environment. These courses also teach students the skills needed to recommend best management practices and to identify plant abnormalities in the landscape. The business courses in this minor foster an understanding of the business structure, human resource management and financial management associated with landscape management companies.

All courses presented in this minor must be passed with a grade of 'C-' or better. To complete this minor, students will be expected to complete an 18-19 credit course sequence. Students should also be aware that many of the courses in this minor list PLSC100 as a prerequisite.

Requirements

Course	Title	Credits
PLSC205	Introduction to Turf Science and Management	4
PLSC251	Financial Applications for the Green Industry	3
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254	Woody Plants for Mid-Atlantic Landscape II	3
PLSC452	Environmental Horticulture	3
Select two of the following courses:		**6**
PLSC401	Pest Management Strategies for Turfgrass	
PLSC402	Sports Turf Management	
PLSC410	Commercial Turf Maintenance and Production	
PLSC453	Weed Science	
Total Credits		22

- A student may use a maximum of six credits (or two courses) to satisfy the requirements of both a major and a minor. In the event

that more than six credits of coursework listed above are required in the student's major, he or she should contact the Landscape Management faculty advisor for course substitutions.

- This minor is particularly relevant to students who are interested in pursuing a career in the landscape industry. Landscape architecture, environmental science and policy, and life science majors can readily complete these minor requirements within their four-year programs.
- Students from the business school and social sciences who are seeking managerial careers in this rapidly-expanding service industry would also find this minor to be relevant.

Plant Science Major

Plant Sciences combines basic science courses with applied technical classes to prepare students for research, public sector, and industry careers. Students seeking a Plant Sciences degree must complete requirements in one of the following Areas of Concentration: **Plant Biology**, **Turf and Golf Course Management**, or **Urban Forestry**.

- **Plant Biology** is designed to prepare students for graduate or professional schools and/or a career in research. This area provides a strong foundation for postgraduate education and research careers in biotechnology, plant physiology and development, cell biology, molecular biology, plant genetics/genomics, conservation biology, ecology, and plant pathology.

Management Programs:

- **Turf and Golf Course Management** prepares students to succeed as a turfgrass professional in the golf course or sports turf industry, stressing an interdisciplinary approach to this career.
- **Urban Forestry** prepares students to manage urban trees and forests and enhance their sustainability. This program stresses tree biology, forest ecology and forest assessment and management tools and prepares students for careers with municipalities or government agencies as well as private industry such as power companies and the tree-care industry.

- A Landscape Management minor (p. 125) is also available in the department.

Program Learning Outcomes

1. Students will develop technical and knowledge-based skills in the required areas of study.
2. Students will use technical and basic learned knowledge to collaborate, solve problems and then articulate conclusions.
3. Students shall develop effective communication skills and demonstrate the ability to present ideas with clarity to an appropriate audience.
4. Students will connect and build relationships with external groups in the appropriate fields of study.

Requirements

Course	Title	Credits
Requirements for all Areas of Concentration [1]		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
ENGL101	Academic Writing	3
ENGL393	Technical Writing	3
ENST200	Fundamentals of Soil Science	4
MATH113	College Algebra and Trigonometry	3
or MATH115	Precalculus	
PLSC100	Introduction to Horticulture	4
or PLSC101	Introductory Crop Science	
PLSC398	Seminar	1
Select a specialization from the list below:		**48-55**
Plant Biology		
Turf and Golf Course Management		
Urban Forestry		
Total Credits		70-77

[1] With the exception of ENGL101 and ENGL393, a grade of 'C-' or better is required in the courses above.

Specializations: Plant Biology

Course	Title	Credits
Requirements		
BSCI337	Biology of Insects	4
BSCI442	Plant Physiology	4
or PLSC400	Plant Physiology	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	4
MATH140	Calculus I	4
or MATH120	Elementary Calculus I	
PHYS121	Fundamentals of Physics I	4
PLSC201	Plant Structure and Function	4
PLSC202		4
PLSC203	Plants, Genes and Biotechnology	3
PLSC271	Plant Propagation	3
PLSC399	Special Problems in Plant Science	1-3
PLSC420	Principles of Plant Pathology	4
Advanced Plant Science Electives		
Select one of the following:		3-4
PLSC403		
PLSC430	Water and Nutrient Planning for the Nursery and Greenhouse Industry	
PLSC432	Greenhouse Crop Production	
PLSC433	Technology of Fruit and Vegetable Production	
PLSC452	Environmental Horticulture	
PLSC456		
PLSC474		
Advanced Science Electives		
Select one of the following:		3-4
BCHM261		
or BSCI461		
ENST411	Principles of Soil Fertility	
ENST417	Soil Physics and Hydrology	
ENST421	Soil Chemistry	

PHYS122	Fundamentals of Physics II	
Total Credits		49-53

Turf and Golf Course Management

Course	Title	Credits
Requirements		
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
BSCI337	Biology of Insects	4
CHEM104		4
COMM100	Foundations of Oral Communication	3
or COMM107	Oral Communication: Principles and Practices	
ENBE237		1
PHYS117		4
or PHYS121	Fundamentals of Physics I	
PLSC305	Introduction to Turf Management	3
PLSC389	Internship	1-3
PLSC400	Plant Physiology	4
PLSC401	Pest Management Strategies for Turfgrass	3
PLSC402	Sports Turf Management	3
PLSC410	Commercial Turf Maintenance and Production	3
PLSC420	Principles of Plant Pathology	4
PLSC453	Weed Science	3
Total Credits		48-50

Urban Forestry

Course	Title	Credits
Requirements		
AREC240	Introduction to Economics and the Environment	3
BMGT220	Principles of Accounting I	3
BSCI337	Biology of Insects	4
or BSCI497	Insect Pests of Ornamentals and Turf	
Select one of the following:		3
CHEM105		
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
ENST411	Principles of Soil Fertility	3
LARC160	Introduction to Landscape Architecture and Environmental Design	3
PLSC171	Introduction to Urban Forestry	3
PLSC201	Plant Structure and Function	4
PLSC253	Woody Plants for Mid-Atlantic Landscapes I	3
PLSC254	Woody Plants for Mid-Atlantic Landscape II	3
PLSC272	Principles of Arboriculture	3
PLSC361		3
PLSC389	Internship	1-3
PLSC400	Plant Physiology	4
PLSC420	Principles of Plant Pathology	4
PLSC471	Forest Ecology	3
PLSC472	Capstone-Urban Forest Project Management	3
Total Credits		53-55

Suggested General Education Courses and Electives for urban forestry

Course	Title	Credits
BIOM301	Introduction to Biometrics [1]	3
Select one of the following:		3-5
BSCI460	Plant Ecology	
BSCI460 & BSCI461	Plant Ecology and	
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II [1]	4
CHEM271 & CHEM272	General Chemistry and Energetics and General Bioanalytical Chemistry Laboratory [1]	4
COMM107	Oral Communication: Principles and Practices	3
ENST415	Renewable Energy	3
ENST444		3
GEOG201	Geography of Environmental Systems	3
GVPT170	American Government	3
GVPT273	Introduction to Environmental Politics	3
LARC450	Environmental Resources	3

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-agnr.html) for roadmaps for four-year plans in the College of Agricultural and Natural Resources.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

School of Architecture, Planning and Preservation

1200 Architecture Building
301-405-8000
archadvise@umd.edu
www.arch.umd.edu (http://www.arch.umd.edu)

Interim Dean: Donald Linebaugh
Associate Deans: Brian Kelly & Madlen Simon
Assistant Dean: Ingrid Farrell

The undergraduate program in architecture develops critical thinkers, problem solvers and skilled professionals ready to take on the challenges of sustainable design. Our prime location between Washington, D.C., and Baltimore offers many advantages: a faculty of highly respected scholars and practitioners; alumni connections and careers at countless architectural firms; and rich architectural diversity. Begin your journey to a more sustainable and environmentally balanced world right here.

The first two years of the curriculum focus on developing a broad-based and well-rounded liberal education, complemented by courses that introduce you to architecture. You will be exposed to the many resources and opportunities of the university while refining your academic and career interests. We offer you two degree options that are tailored to fit your particular academic and career interests. The **Bachelor of Science** curriculum is centered on design studios, with complementary coursework in architectural history, theory, technology and visual media. The studio courses offer unique experiences where you'll not only have the opportunity to show your design skills but also work with communities to help solve real-world problems.

One unique feature of the **Bachelor of Arts** program is your ability to pursue an academic path that reflect your passions and interests. It is not uncommon for students to discover that their interest in architecture reveals other career aspirations. Earning a Bachelor of Arts in Architecture allows you to build a foundation in architecture while preparing for careers in business, urban planning, real estate development or historic preservation, just to name a few.

Students receive rigorous and comprehensive instruction from a faculty whose members are active in professional practice and research. Their individual areas of expertise include architectural design and theory, history, architectural archaeology, technology, urban design and planning, and historic preservation.

Admission Requirements

http://arch.umd.edu/arch/degree/bachelor-science-architecture (http://arch.umd.edu/arch/degree/bachelor-science-architecture/) for admissions questions.

Freshman Admission. Students from high school gain admission to the Undergraduate Architecture Program through the university's Office of Undergraduate Admissions. Admitted freshmen have access to the necessary advising through their initial semesters to determine if architecture is an appropriate major for their interests and abilities.

Before a student enrolls in either the B.A. or B.S. during their third year of study, they must complete the Degree Placement Review Process. This will determine which degree program best fits their interests and talents, as well as, the duration of their studies until graduation. Students should complete the following courses as prerequisites before beginning their junior year.

- ARCH170 or ARCH171, ARCH225, ARCH226, ARCH200, and ARCH300 with a grade of 'C-'
- MATH120 and PHYS121 with a minimum grade of 'C-' in all three

Transfer Admission Requirements. Transfer students who wish to study architecture must first gain admission to the university and concurrently submit for the Degree Placement Review Process if they wish to be considered for junior standing. Please see above for the requirements. Transfer applicants are strongly encouraged to apply by the priority deadline and should contact the undergraduate architecture advisors as soon as possible at archadvise@umd.edu.

Academic Programs
Major

- Architecture Major (p. 130)

Minors

- Construction Project Management Minor (ARCH) (p. 131)
- History and Theory of Architecture Minor (p. 132)
- Real Estate Development Minor (p. 132)

Advising

Entering students are advised by the undergraduate advisors located in the school's main office. Advising is mandatory for all undergraduate architecture majors each semester. Students must meet with an academic advisor to discuss their academic plan and course selection. Students can make an appointment for advising online by visiting www.arch.umd.edu (http://www.arch.umd.edu). Students may also contact the advising office via archadvise@umd.edu. Walk-in appointments are also available. Students may use the archadvise@umd.edu email at any time. Students should always include their full name, UID and contact information in any email correspondence.

Advising

Advising appointments and school tours are conducted by the Office of Student Services, who can help you navigate admissions, course registration, degree planning and other issues.

Contact Advising by E-mail

Undergraduate Architecture students
Contact archadvise@umd.edu with advising questions.

To schedule an appointment with the advisors, please visit: http://arch.umd.edu/arch/student-services-arch (http://arch.umd.edu/arch/student-services-arch/)

Advising for undergraduates in the school is mandatory each semester.

Opportunities
Academic Programs and Departmental Facilities

Architecture Library

Located on the second floor of the Architecture Building, the Architecture library has planning and architecture books and periodicals, as well as

Urban Studies and Planning studio reports. There is also a slide collection available in the Elizabeth D. Alley Visual Resources Collection on the same floor. Librarians are available by appointment to assist with your research needs.

Visual Resources Center

The VRC consists of more than 400,000 digital images documenting architecture and the urban scene from pre-historic times to the present. Related topics include urban design, historic preservation, real estate development, art, landscape architecture, as well as events around the school. Other visual materials include over 400 DVDs and videotapes, along with lantern slides and photographs. Images are acquired through site photography, scanning materials, commercial vendors, and donations from faculty and students.

Images and other materials may be used for presentations in school classes and for research.

Fabrication Lab

The FabLab at the School of Architecture Planning and Preservation emphasizes the notion of learning to design through the process of making. Our students learn to influence the form and meaning of the built environment by working directly with its material and physical nature. We stress the integration of digital and hand fabrication methods, and explore how traditional technology is affected and transformed by new materials and technique.

Internships

A career fair is organized annually and all internship/career opportunities are handled by the director of career services within the school itself and in conjunction with the University Career Center.

Student Societies and Professional Organizations

The Architecture Student Assembly represents the student body. Assembly members are elected from undergraduate and graduate classes. Representatives attend faculty meetings, serve on committees, and organize the Architecture Program Retrospective at the end of each semester.

The School of Architecture, Planning, and Preservation sponsors a chapter of the American Institute of Architecture Students (AIAS), the national association for architecture students. The AIAS chapter sponsors a variety of activities including an annual Career Fair, Beaux Arts Ball, field trips, conferences, workshops, and other events throughout the academic year.

The University of Maryland chapter of NOMAS is affiliated with the national professional organization NOMA. NOMAS is a group of students from a variety of backgrounds pursuing architecture degrees at the undergraduate and graduate levels, interested in contributing to the UMD School of Architecture, Planning and Preservation by building a sense of community based on shared experiences unique to our diverse student body.

Women in Architecture – In a field that is predominantly male dominated, it is vital to fill the absence of a well-established community to specifically empower women. Through weekly meetings and planned events, members can discuss and understand how to spread the empowerment of all women as well as build a network of aspiring and established female architects and designers. If this is something you are interested in being a part of, please join our professional organization. Both men and women are encouraged to participate and become members of WIA.

Alpha Rho Chi (APX) is the national co-ed fraternity for architecture and the allied arts. Its brotherhood unites men and women for the purpose of fellowship and lifelong friendships, as well as professional development. This is exemplified by the fraternity's motto: Fidelitas, Amor et Artes or 'Fidelity and Love of the Arts.'

Roots Home and Abroad is a student organization working to empower communities, both home and abroad, to create sustainable communities through long term projects. Projects focus on the architectural design of living spaces. At home, we work in communities of Baltimore and Washington D.C. Abroad, we accompany nongovernmental organizations in the journey to improve the communities of Haiti.

Scholarships and Financial Assistance

Many financial awards are offered to freshman upon admission. Any questions about financial aid for freshman admits should be directed to the Office of Undergraduate Admissions and the Office of Student Financial Aid.

Each year, the School of Architecture, Planning and Preservation offers a number of merit-based scholarships to qualifying undergraduate students. Many are offered to students participating in study abroad programs. Interested students are encouraged to apply for these in early Spring. Information is available at www.arch.umd.edu (http://www.arch.umd.edu). Please note that most of these scholarships are reserved for students in the studio sequence of the program.

Please visit our website for scholarship opportunities for current students: http://arch.umd.edu/arch/scholarships. (http://arch.umd.edu/arch/scholarships/)

The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. Freshmen and sophomores are strongly encouraged to visit the OFSA early in their tenure at the University of Maryland to determine any scholarships they may be eligible for in the following years.

For more information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Special Advantages and Facilities

Accreditations

NAAB - In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited

professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Maryland's School of Architecture, Planning and Preservation offers the following NAAB-accredited degree programs:

- M.Arch (pre-professional degree + 60 graduate credits)
- M.Arch (non-pre-professional degree + 109 credits)

Facilities

The school is housed in a modern building providing design workstations for each student, a 300-seat auditorium, and seminar and classroom facilities. The Great Space, an atrium at the center of the school, is the location for collaborative projects, design reviews, critiques, and a variety of events that that bring the architecture program together. Facilities include a well-equipped woodworking and model shop, computer labs, digital output and digital fabrication. The Architecture Library, one of the finest in the nation, offers convenient access to a current circulating collection of more than 34,000 volumes, 8,000 periodicals, and an extensive selection of reference materials. Rare books and special acquisitions include a collection relating to international expositions and the 11,000-volume National Trust for Historic Preservation Library.

Upper level summer programs include travel to Rome, Paris, Turkey, Great Britain, and other countries. Students may earn direct credit doing hands-on restoration work and by attending lectures by visiting architects, preservationists, and scholars. Undergraduate seniors and graduate students may also participate in a Studio Abroad in Florence: Live, study, and learn in the city where Architecture began. You will take classes in Leon Battista Alberti's masterpiece, the Palazzo Ruccellai, and attend studio in a newly renovated building on the banks of the Arno. In addition to learning in the classroom, you will have plenty of opportunity to visit museums, draw in piazzas, learn to speak Italian, and absorb the history of Italy while learning local customs.

Research Units

National Center for Smart Growth Research and Education
1112 Preinkert Fieldhouse, College Park,301-405-6788
www.umdsmartgrowth.org (http://www.umdsmartgrowth.org)
Dr. Gerrit Knaap

The National Center for Smart Growth Research and Education is a non-partisan center for research and leadership training on Smart Growth and related land use issues nationally and internationally. Founded in 2000, the National Center for Smart Growth is a cooperative venture of four University of Maryland schools: Architecture, Planning and Preservation; Public Policy; Agriculture and Natural Resources; and Engineering. The mission of the center is to bring the diverse resources of the University of Maryland and a network of national experts to bear on issues of land development, resource preservation and urban growth -- the nature of our communities, our landscape and our quality of life -- through interdisciplinary research, outreach and education, thereby establishing the university as the national leader in this field.

Architecture Major

The undergraduate program in architecture develops critical thinkers, problem solvers and skilled professionals ready to take on the challenges of sustainable design. Our prime location between Washington, D.C., and Baltimore offers many advantages: a faculty of highly respected scholars and practitioners; alumni connections and careers at countless architectural firms; and rich architectural diversity. Begin your journey to a more sustainable and environmentally balanced world right here.

The first two years of the curriculum focus on developing a broad-based and well-rounded liberal education, complemented by courses that introduce you to architecture. You will be exposed to the many resources and opportunities of the university while refining your academic and career interests. We offer you two degree options that are tailored to fit your particular academic and career interests. The **Bachelor of Science** curriculum is centered on design studios, with complementary coursework in architectural history, theory, technology and visual media. The studio courses offer unique experiences where you will not only have the opportunity to show your design skills but also work with communities to help solve real-world problems.

One unique feature of the **Bachelor of Arts** program is your ability to pursue an academic path that reflect your passions and interests. It is not uncommon for students to discover that their interest in architecture reveals other career aspirations. Earning a bachelor of arts in architecture allows you to build a foundation in architecture while preparing for careers in business, urban planning, real estate development or historic preservation, just to name a few.

Students receive rigorous and comprehensive instruction from a faculty whose members are active in professional practice and research. Their individual areas of expertise include architectural design and theory, history, architectural archaeology, technology, urban design and planning, and historic preservation.

ADMISSION TO THE MAJOR

Freshman applicants:

https://www.admissions.umd.edu/apply/requirements/freshman (https://www.admissions.umd.edu/apply/requirements/freshman/)

Transfer applicants:

http://www.admissions.umd.edu/requirements/TransferStudents.php

Program Objectives

The School's mission is to educate Architects, Planners, Preservationists, Developers and the many allied stakeholders whose work and scholarship focuses on the quality of the built environment and promotes social justice, cultural value, resource conservation and economic opportunity.

We take advantage of our unique location—in a region that features the nation's capital and the post-industrial City of Baltimore, and links the Appalachian Mountains to the Atlantic Ocean while surrounding the Chesapeake Bay. Maryland's opportunities and challenges are found in its diverse communities, explosive growth and extensive historic resources.

Our faculty, students and alumni collaboratively advance their vision and commitment through research, teaching, colloquia, writing, creative design, planning, policy formation and professional work. Our mission is historically rooted in our land grant mandate and enhanced by our regional and international activities.

Program Learning Outcomes

1. Students should be able to demonstrate the ability to think critically about the role of context in design.
2. Students should be able to demonstrate an ability to communicate design intentions, visually and verbally.

3. Students should be able to demonstrate an ability to demonstrate knowledge from the technology course sequence into the design process.
4. Students should demonstrate the ability to design projects that provide healthful environments while conserving resources for future generations.
5. Students should demonstrate an understanding of the ethical issues underpinning the formation of professional judgement in architectural design and practice.

Requirements

All students must complete the following courses:

Course	Title	Credits
MATH120	Elementary Calculus I	3
or MATH140	Calculus I	
PHYS121	Fundamentals of Physics I	4
ARCH171	Design Thinking and Making in Architecture	3
ARCH225	History of World Architecture I	3
ARCH200	Design Media and Representation I	3
ARCH226	History of World Architecture II	3
ARCH300	Design Media and Representation II	3
ARCH201	Elements and Principles of Architecture	1
ARCH462	Methods & Materials of Building Construction	3
ARCH400	Architecture Design Studio I	6
ARCH463	Sustainable Systems in Architecture	3
Total Credits		35

For the Bachelor of Science degree option, students must complete three additional 6-credit design studios and accompanying technical/structures courses.

Course	Title	Credits
ARCH401	Architecture Design Studio II	6
ARCH402	Architecture Design Studio III	6
ARCH403	Architecture Design Studio IV	6
ARCH464	Architectural Structures I	3
ARCH465	Architectural Structures II	3
ARCH466	Environmental Systems in Architecture	3
ARCH474	Integrated Education in Architecture NAAB/IDP	1
ARCH4XX		12
Total Credits		40

For the Bachelor of Arts degree option, students must complete 36 additional credits in upper level Architecture electives and a minimum of 9 additional credits in directed electives inside or outside the major.

Course	Title	Credits
Select 36 additional credits in upper level Architecture electives		36
Select 9 additional credits in directed electives inside or outside the major		9
Total Credits		45

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-arch.html) for roadmaps for four-year plans in the School of Architecture, Planning, and Preservation.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Construction Project Management Minor (ARCH)

A. James Clark School of Engineering
1131 Glenn L. Martin Hall
301-405-0234

School of Architecture, Planning and Preservation
Architecture Building
301-405-8000

A minor in Construction Project Management will prepare students for employment in one of the many careers related to the built environment, such as project management, architectural engineering, design and commercial construction. Students will learn how to manage multiple phases of operation and management in the construction process including building information modeling, cost estimating, project scheduling, construction financing and planning. The Construction Project Management minor is ideal for students in Architecture, Engineering and similar fields. This minor is designed to give students a competitive advantage when applying for a job in the construction industry.

Admission Requirements

This minor is only available to undergraduate students in the A. James Clark School of Engineering and the School of Architecture, Planning and Preservation who have earned at least 60 credit hours (Junior standing), and have a cumulative University of Maryland GPA of 3.0 or higher.

Application Process

Interested students must complete an application to the minor, and obtain approval from his/her major advisor and the CPM minor advisor for his/her school. Students can obtain an application from his/her major advisor or go to: http://pm.umd.edu/program/cpm-minor/ for an online copy.

For more information about this minor, please contact the advisor associated with your College/School:

- Engineering – CPM Minor Advisor- Dr. Qingbin Cui: cui@umd.edu
- Architecture – CPM Minor Advisor - Greg Weaver: gweaver@umd.edu (hbulich@umd.edu)

Requirements

The Minor in Construction Project Management consists of 15 credit hours. Students must complete 5 of the following courses with a grade

of 'C-' or better and have a minimum 2.0 GPA for the minor. Students must also complete an internship in the construction industry.

Course	Title	Credits
Required Courses		
ENCE325	Introduction to Construction Project Management [1]	3
ENCE423	Project Planning, Estimating & Scheduling [1]	3
ENCE424	Communication for Project Managers [2]	3
ENCE426	Construction Documentation and BIM Applications in Engineering and Construction [1]	3
or ARCH472	Building Information Modeling Communication and Collaboration	
Electives		
Select one of the following:		3
ENCE420	Selection and Utilization of Construction Equipment [3]	
ENCE421	Legal Aspects of Architectural and Engineering Practice [4]	
ENCE422	Project Cost Accounting and Economics [2]	
ARCH430	Measuring Sustainability in Architecture [3]	
ARCH462	Methods & Materials of Building Construction [3]	
ARCH467	Integrated Project Delivery [3]	
Total Credits		15

1 Course offered in Fall and Spring
2 Course offered in Fall, Spring and online in the Summer
3 Course offered in the Fall
4 Course offered in the Spring

History and Theory of Architecture Minor

School of Architecture, Planning and Preservation
Architecture Building
301-405-8000
archadvise@umd.edu
ARCH.umd.edu (http://arch.umd.edu/)

The minor in History and Theory of Architecture will provide students who have an interest in architectural history the opportunity to develop an understanding and appreciation of architecture as a basic component of human society. Students will gain an insight of diverse architectural cultures as well as apply diverse research methods in order to understand architectural phenomena in a broad context. The History and Theory of Architecture minor is ideal for students in Architecture and Art History. Students in other majors will be considered on a case-by-case basis.

Program Learning Outcomes

1. Understand diverse historical and global architectural cultures (quizzes, exams).
2. Ability to apply accepted research methods of architectural history (research papers).
3. Ability to analyze and explain architectural phenomena in a broader historical context (research papers).
4. Critically evaluate various theories of architecture in the consideration of particular topics (research papers, participation in discussion).
5. Create and defend a coherent scholarly argument (research papers, final capstone paper).

Requirements

Course	Title	Credits
Prerequisite Courses		
ARCH225	History of World Architecture I	
ARCH226	History of World Architecture II	
Topical History of Architecture Courses		**9**
ARCH420	History of American Architecture	
ARCH422	History of Greek Architecture	
ARCH423	History of Roman Architecture	
ARCH428	Selected Topics in Architectural History (Consult program for eligible courses)	
ARCH433	History of Renaissance Architecture	
ARCH434		
ARCH435	History of Contemporary Architecture	
Architectural History/Theory Seminar [1]		**6**
ARCH427	Theories of Architecture	
ARCH428	Selected Topics in Architectural History (Consult program for eligible seminar courses)	
ARCH481	The Architect in Archaeology	
ARCH482	The Archaeology of Roman and Byzantine Palestine	
ARCH483	Field Archaeology	
Total Credits		15

1 One course must include a capstone paper.

Real Estate Development Minor

School of Architecture, Planning and Preservation
Architecture Building
301-405-8000
archadvise@umd.edu (p. 10)
ARCH.umd.edu (http://arch.umd.edu)

Undergraduates from across campus with an interest in real estate can now complete a minor in real estate development. The minor will provide students with a basic understanding of the essential concepts related to sustainable real estate development. Classes cover the development process; the basics of real estate finance, tax and investment; urban planning and design; and the unique roles played by government and the private sector in real estate development, among others.

Admissions Requirements

This minor is available to all Maryland undergraduate students with a GPA of 2.0 or higher who have completed ARCH271/RDEV250 with a 'C-' or better.

Application Process

Interested students must complete an application and meet with the director of the Real Estate Development minor. See: http://www.arch.umd.edu/arch/minors-arch (http://www.arch.umd.edu/arch/

minors-arch/) for the online application and a scheduling app to make an appointment.

Requirements

The Minor in Real Estate Development consists of 15 credit hours. Students must complete all the required courses with a grade of 'C-' or better and have a minimum UMD GPA of 2.0 for the minor.

Course	Title	Credits
Required Courses		
ARCH271/ RDEV250	People, Planet, and Profit: Building Sustainable Places	3
RDEV270	Tax and Accounting for Real Estate Development [1]	3
RDEV350	Real Estate Development: Introduction to Principles, Process, and Practice	3
RDEV450	Foundations of Real Estate Finance and Investment	3
Elective		
Select one elective [2]		3
Total Credits		15

1 This requirement can also be met in any of the following ways: Equivalent accounting course at another 4-year institution or community college if it qualifies for transfer credit at UMD or BMGT220 (available to all UMD undergraduates).

2 Plus, select one elective from a list of permitted electives that can be found at: http://www.arch.umd.edu/arch/minors-arch (http://www.arch.umd.edu/arch/minors-arch/).

College of Arts and Humanities

1102 Francis Scott Key Hall
301-405-2088
www.arhu.umd.edu (http://www.arhu.umd.edu)

Dean: Bonnie Thornton Dill

The College of Arts and Humanities embraces a heterogeneous group of disciplines that study human experience, thought, expression and creativity. All value the development of critical thinking, fluent expression in writing and speech, sensitivity to ethical and aesthetic issues, and a complex understanding of history and culture. Departments and programs in Arts and Humanities prize vigorous intellectual debate in a diverse community. While they have strong individual identities, they are also involved in interdisciplinary studies. Thus students will find, for example, courses in the Department of English that approach literature in its historical contexts, courses in the Department of History that adopt feminist perspectives, courses in the Department of Art History and Archaeology that study African politics, and so on.

Further examples of the special opportunities available to students in this richly variegated college include an exceptional visual resource center in Art History and Archaeology, the English Department's computer-based writing classroom, and the School of Languages, Literatures, and Culture's Foreign Language Media Lab. Additionally, students may add an international experience to their undergraduate education by participating in an ARHU-sponsored study abroad program in Argentina, Australia, Austria, Cuba, Ecuador, France, Greece, Italy, Mexico, Morocco, Spain, Taiwan, and the United Kingdom. The educational vistas open to students in the School of Music and the School of Theatre, Dance, and Performance Studies are enhanced enormously by the Clarice Smith Center for the Performing Arts, which houses those departments. Students may also participate in one of the College's five living-learning programs: Honors Humanities, College Park Scholars-Arts, Design Cultures & Creativity, Jiménez-Porter Writers' House, and Language House.

Admission Requirements

Freshmen and transfer students interested in applying for admission should refer to the general university admissions information provided in the catalog. Admission to the college's School of Music is a two-step process: undergraduate applicants must apply to both the Office of Undergraduate Admissions and to the School of Music. Visit www.music.umd.edu (http://www.music.umd.edu) for information. Further, students wishing to major in creative or performing arts are encouraged to seek training in the skills associated with such an area prior to matriculation. Applicants to these programs may be required to audition or submit a portfolio as a part of the admission requirements. For more information about the college's academic programs, please contact arhu-admit@umd.edu or 301-405-2108.

- Latin American Studies Certificate (p. 177)
- Lesbian, Gay, Bisexual and Transgender Studies Certificate (p. 227)
- Women's Studies Certificate (p. 228)

College Requirements
Major Requirements

- All students must complete a program of study consisting of a major (a field of concentration) and sometimes supporting courses as specified by one of the academic units of the college. No program of study shall require in excess of 60 semester hours.
- A major shall consist, in addition to the lower-division departmental prerequisites, of 24 to 40 hours, at least 12 of which must be in courses numbered 3xx or 4xx and at least 12 of which must be taken at the University of Maryland, College Park.
- A major program sometimes requires a secondary field of concentration (supporting courses). The nature and number of these courses are determined by the major department.
- No grade lower than 'C-' may be used to fulfill major or supporting course requirements. No course for the major or support module may be taken Pass-Fail.
- Students must earn at least a 2.0 cumulative GPA to graduate from the University of Maryland.
- An overall GPA of 2.0 in the major is required for graduation.
- Students should consult the unit in which they will major for specific details; certain units have mandatory advising.
- Students must take a Foreign Language Placement Assessment (http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/)) prior to adding a major in the College of Arts and Humanities unless the student has fulfilled the required language prerequisites. Students who enter the University as Arts and Humanities majors must take the assessment by the end of their first semester on campus. Bachelor of Music students are exempt from taking the foreign language placement assessment. For more information about Bachelor of Music requirements, please see www.music.umd.edu (http://www.music.umd.edu).

Graduation Requirements

To graduate, all students must earn at least 120 credits and at least a 2.0 cumulative GPA. Additionally, students must complete College of Arts and Humanities requirements.

The following college requirements apply only to students earning Bachelor of Arts degrees from the College of Arts and Humanities. These requirements are in addition to or in fulfillment of campus and

departmental requirements. For information concerning the Bachelor of Music in the School of Music, students should consult a Music advisor.

Students who double major in ARHU and another college on campus must complete the ARHU Global Engagement requirement and 45 hours of 3xx or 4xx-level credit.

All Arts and Humanities freshmen (excluding students in a living-learning program) must take ARHU158, Explorations in the Arts and Humanities, during their first semester on campus.

Distribution: To encourage advanced mastery of material, a minimum of 45 of the total of 120 semester hours must be 3xx-4xx level work.

For more information about the CORE program, please visit www.ugst.umd.edu/core/ (http://www.ugst.umd.edu/core/)

For more information about the General Education program, please visit www.gened.umd.edu/ (http://www.gened.umd.edu/)

The Global Engagement Requirement

To expand ARHU students' understanding of other cultures and language in an increasingly global society, ARHU students must complete the 'Global Engagement Requirement.' Learning a second language produces deep knowledge of cultural as well as linguistic differences while opening pathways for common understanding. The requirement may be satisfied in one of three ways.

Option 1: Study of a Foreign Language

Requirement: Students will take foreign language coursework to the designated level at UMD. Please consult an ARHU advisor for a list of the approved course sequences.

Option 2: Cultural Immersion through Study Abroad

Requirement: Students will participate in a semester long Study Abroad experience in a country where English is not the primary language.

The study abroad experience must include:

1. At least the first year/elementary level language of the host country before or during the experience (or equivalent as determined by the ARHU foreign language placement policy);
2. A reflection component that will challenge students to assess their pre-departure, in country and post study abroad experience;
3. Participation in one of the following pre-approved engagement experiences:
   a. Internship
   b. Service Learning
   c. A living situation involving daily interaction with host nationals (e.g., a pre-approved home stay with a host national family)
   d. Other - an engagement experience approved in advance of departure

Students must develop a learning contract with an ARHU advisor in advance of studying abroad in order for the experience to count for the Global Engagement Requirement. Past study abroad experiences will not be considered retroactively.

Option 3: Individually-designed Engagement Experience

Requirement: Students may also create an individually-designed experience that achieves the learning outcomes of the global engagement requirement.

This option must include:

1. At least the first year/elementary level language of the host country before or during the experience (or equivalent as determined by the ARHU foreign language placement policy);
2. A pre-approved short- or long-term study abroad program that has been deemed appropriate for inclusion in this option by ARHU in conjunction with the Education Abroad Office;
3. Students must develop a learning contract with an ARHU advisor and petition to have the experience approved in advance.

Students proposing study abroad in an English-speaking country must choose to study a language that has significance to the historical or current culture of the host country. Students will need to research and discuss the intersection of the chosen language and culture in their petition.

Important Notes

1. Students already beyond the required language needed to fulfill the Global Engagement Requirement must document their language proficiency by taking a placement assessment or equivalent as determined by the ARHU foreign language placement policy.
2. Students taking a foreign language class at the University of Maryland on or after 9/15/2011 will need to take a foreign language placement assessment. Please see an ARHU advisor for details.
3. Students seeking exemption from the Global Engagement Requirement must take the foreign language placement assessment in an on-campus proctored environment. Please see an ARHU advisor or see https://www.arhu.umd.edu/academics/foreign-language-placement/proctored-flpa (https://www.arhu.umd.edu/academics/foreign-language-placement/proctored-flpa/) for the proctored exam schedule.

For more information, please see an advisor in the ARHU Office of Student Affairs, call 301-405-2108, or visit http://www.arhu.umd.edu/undergraduate/globalengagement (http://www.arhu.umd.edu/undergraduate/globalengagement/).

Advising

Freshmen and new transfer students have advisors in the College of Arts and Humanities, Office of Student Affairs (301-405-2108) who assist them in the selection of courses. Students must see an advisor in their department for assistance in the selection of courses for the major. All first-year students (both freshmen and transfers), students who have completed 45-55 credits, and seniors who have completed 86-100 credits have mandatory advising with both the College and the department. For further information about advising, students should call the ARHU Office of Student Affairs, 301-405-2108.

Secondary Education Teacher Certification

A student interested in a career as a secondary education teacher in a subject represented in this college is encouraged to speak with an advisor in the College of Education Office of Student Services (1204 Benjamin Building) to discuss the different pathways available for certification. The College of Education offers programs that lead to certification for grades PreK-12 in Studio Art and World Language (Chinese, French, German, Italian, Russian, Spanish), and grades 7-12 in English and Social Studies (History). Degree pathways that lead to certification include the following:

1. An undergraduate double major in the content area and secondary education,
2. The five-year integrated master's program, which allows for the content major as an undergraduate degree and completion of certification and graduate degree requirements in a fifth year, or
3. The one-year intensive master's plus certification program.

Opportunities

Internships

Most departments within Arts and Humanities have well-established internship options. For more information on internships taken for academic credit, students should contact their departmental academic advisor. Internship credit is also available directly through the College for students who have fewer than 60 credits, students who are first semester students at UMD, students who have already completed an internship in their major or would like to explore an area outside their major, or students who are doing remote internships or interning in a legislative environment. Typically, students must have a 2.5 GPA. They need to complete an application process and the experience usually lasts for a full semester or over the summer. Students must be enrolled for the internship during the semester in which they intern. Retroactive credit and credit for continuing internships will not be awarded. Internships are not considered to be a 'credit for work' experience. In addition to participating in the on-site experience, students will also fulfill an academic component. Students are eligible to be paid at their internship and still earn academic credit. For assistance in locating an internship, visit the University Career Center at ARHU at 1118 Francis Scott Key Hall. Visit www.arhu.umd.edu/careers (http://www.arhu.umd.edu/careers/) for more information about walk-in hours and appointment scheduling.

Living-Learning Programs

Honors Humanities

Director: Professor Gregory A. Staley
0111 Anne Arundel Hall, 301-405-1537
www.honorshumanities.umd.edu (http://www.honorshumanities.umd.edu)
honorshumanities@umd.edu (www.honorshumanities.umd.edu)

Entering freshmen participate by invitation in Honors Humanities, a two-year living/learning program. Honors Humanities is the University of Maryland's premier undergraduate program for academically talented students who have diverse intellectual ambitions in the humanities and arts or a desire to develop their education on a liberal arts foundation. The program is organized around an integrated and advanced humanities curriculum and a final independent research or creative project (the Keystone Project) that a student designs and executes with the guidance of a faculty mentor. Honors Humanities provides students with stimulating seminars, life-long friendships, a lively home base in Anne Arundel Hall, and opportunities to take advantage of the intellectual, cultural, and artistic riches of the Washington, D.C. region. Upon completion of the program, students earn an Honors Humanities citation, and this prestigious award is recorded on their university transcripts.

College Park Scholars-Arts

Director: Harold Burgess
1110 Bel Air Hall, 301-405-0522
www.scholars.umd.edu (http://www.scholars.umd.edu)

The College Park Scholars Arts Program, sponsored by the College of Arts and Humanities and Undergraduate Studies, fosters an inclusive and collaborative learning environment of students, faculty and artists/scholars from the campus community at large to stimulate thoughtful discourse on the practical and theoretical applications of art in connection to communicating big ideas with imagination and purpose. The Arts program champions artistic exploration, embraces the exchange of creative ideas across social and cultural boundaries, and promotes the role of art as a means to communicate, educate and inspire.

An extraordinary learning community of spirited and creative individuals, the Arts Scholars program attracts a diverse student population from a wide range of academic disciplines. Arts Scholars share common interests in the desire for creative expression and engagement with the arts while being introduced to a broad selection of interdisciplinary topics through thematically inspired colloquia and supporting courses. Beyond the classroom, students participate in service-learning engagements with local schools and arts non-profit organizations, participate in an array of art-making workshops each spring, and attend performances and exhibitions at local and regional cultural institutions each semester. The program nurtures students' familiarity with the creative and artistic processes necessary to develop and present works of art while providing a supportive and fertile environment to build upon their successes (and failures) as a community of engaged learners, creative thinkers and responsible citizens.

Jiménez-Porter Writers' House

Director: Johnna Schmidt
Queen Anne's Hall, 301-405-0671
www.writershouse.umd.edu (http://www.writershouse.umd.edu)

The Jiménez-Porter Writers' House (JPWH) is a living and learning program open to all majors. The program was conceived and developed primarily for upper-division students, but will consider applications from academically talented incoming freshmen who have a solid focus on creative writing. Located in Queen Anne's Hall, the Writers' House creates a campus-wide literary center to study creative writing especially in its cross-cultural dimensions. Participants live in a close community of students who share an interest in creating stories, poems, plays, and screenplays. Students meet with visiting writers, publish a literary magazine, attend special readings and colloquia, attend an annual literary festival, and receive notation upon successful completion of the program. Class sizes are small, and many include one-on-one faculty advising sessions. Admission to the Writers' House is competitive, with only fifty to sixty students living and writing together each year. Applications can be submitted at https://apply.arhu.umd.edu, or by visiting www.writershouse.umd.edu (http://www.writershouse.umd.edu). Final deadline for admission every year is March 1 for currently enrolled University of Maryland students, May 1st for transfer students and incoming freshmen.

Design Cultures & Creativity

Director: Professor Jason Farman
dcc.umd.edu (http://dcc.umd.edu/)
dcc-honors@umd.edu
301.405.2866
Twitter: @umd_dcc

Design Cultures & Creativity (DCC) fosters an open, collaborative, and social environment that encourages students to explore relationships between design, social context, and creative practices. DCC strongly values inclusivity and aims to cultivate a community of life-long learners who are critically engaged thinkers. Our students are the future's makers and doers, able to expand our notions of human potential, not merely

technologically but also socially and creatively. We are passionate about emerging technologies and their impact on the world, and even more importantly, how our designs can change the world. DCC students are innovative thinkers and makers who engage in research and collaborative projects on topics as varied as identity, connectivity, social justice, art, design, and all things creative in an era when digital media links us on a scale unprecedented in human history. DCC encourages students to think beyond disciplinary boundaries and approach problems from multiple perspectives by providing them with the resources to tackle any issue or goal. Our courses, lab facilities, and workshops provide spaces for exploration, thinking through ideas, and experimenting with the processes of building, designing, and creating in the digital age.

Language House

Program Director: Dr. Douglas Glynn
0107 St. Mary's Hall, 301-405-6996
http://sllc.umd.edu/language-house (http://sllc.umd.edu/language-house/)
dglynn@umd.edu

The Language House Immersion Program was the first living-learning program established at UMD and is designed specifically for students wishing to immerse themselves in the study of foreign languages and cultures. A total of 93 students live in one of ten clusters (Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Persian, Russian or Spanish), which are housed in 19 apartments in St. Mary's Hall. Students must commit to speaking their target language as they prepare meals, carry out daily activities, study and socialize together, etc. Faculty Liaisons work with students in each of the language clusters, and a Mentor, a native or near-native speaker of the language, assists students in the immersion environment, as well as plans engaging cluster meetings in which the residents explore many different facets of the target culture(s). The goal of language immersion is further achieved through activities/field trips organized by the Mentors, a language-learning computer lab, an audio-visual multipurpose room, and unlimited access to foreign news and film programs via Internet. All residents in the Language House are required to enroll in the LH Colloquium, a 2 credit course that meets once a week which offers cultural theory and valuable practicums taught by a variety of professors from the different language departments. Language House residents also participate in Language House wide events such as a Talent Show, an Around the World Film Festival, among others, which foster a dynamic, interactive environment as part of the global Language House experience. As well, after 4 semesters of residency in the Language House, students also can carry out a research project and present its result in a research forum to obtain a citation, which will appear on students' transcripts.

College Honors Program

Most departments in the College of Arts and Humanities offer Departmental Honors Programs (DHP). DHPs are upper-division programs within the individual academic units. Students enrolled in Departmental Honors work independently with faculty members in subjects of special interest, develop and deepen their research skills, and, in the process, earn an even stronger degree. Students must have a cumulative GPA of at least 3.0 to be admitted. For further information about individual Departmental Honors Programs and policies, consult with departmental advisors.

Departments and centers

Academic Computing Services

1111 Francis Scott Key Hall, 301-405-2104

Assistant Dean: Kathleen R. Cavanaugh

Academic Computing Services (ACS) supports the use of technology by faculty, staff, and students in the College of Arts and Humanities. ACS provides desktop support services for faculty and staff, support for the use of technology to support teaching and learning, and classroom technology support services.

African American History Culture and Digital Humanities (AADHUM) Initiative

0301 Hornbake Library
http://aadhum.umd.edu
aadhum@umd.edu

Co-Principal Investigators: Bonnie Thornton Dill, Trevor Muñoz, Daryle Williams
AADHum Team: Aleia Brown, Purdom Linblad, T'Sey-Haye Preaster

The African American History, Culture and Digital Humanities (AADHum (http://aadhum.umd.edu)) Initiative is a teaching and research collective based at the Maryland Institute for Technology in the Humanities (MITH (http://mith.umd.edu)). AADHum is excited and inspired by the possibilities that emerge from working with students, faculty, independent scholars, artists, and local community members. While AADHum's community draws on a wide range of disciplines, we are all dedicated to pursuing informed engagement with technology to create new pathways in Black Studies.

University of Maryland Art Gallery

1202 Parren J. Mitchell Art-Sociology Building
3834 Campus Drive
College Park, MD 20742
301-405-2763
www.artgallery.umd.edu (http://www.artgallery.umd.edu)
artgallery@umd.edu

Associate Director: Taras W. Matla

The University of Maryland Art Gallery presents exhibitions, lectures, film series, residencies, and publications focusing on art and visual culture. Opportunities for museum training and arts management experience are available to students through intern and work-study positions.

David C. Driskell Center for the Study of the Visual Arts and Culture of African Americans and the African Diaspora

1214 Cole Student Activities Building, 301-405-6835
www.driskellcenter.umd.edu (http://www.driskellcenter.umd.edu)
driskellcenter@umd.edu

Director: Professor Curlee R. Holton

The David C. Driskell Center for the Study of the Visual Arts and Culture of African Americans and the African Diaspora at the University of Maryland, College Park, honors the legacy of David C. Driskell - Distinguished University Professor Emeritus of Art, Artist, Art Historian, Collector, and Curator - by preserving the rich heritage of African American visual art and culture. Established in 2001, the Center provides an intellectual home for artists, museum professionals, art administrators, and scholars, who are interested in broadening the field of African Diasporic studies. The Driskell Center is committed to collecting, documenting, and presenting African American art as well as replenishing and expanding the field.

Consortium on Race, Gender, and Ethnicity (CRGE)

1208 Cole Student Activities Bldg., 301-405-5223
www.crge.umd.edu (http://www.crge.umd.edu)

Director: Dr. Ruth Enid Zambrana
Program Manager: Ms. Wendy Hall

CRGE was founded in 1998 by a group of pioneers who developed a small but growing and increasingly important area of intersectional scholarship in the contemporary academy. It was the the first national and university-wide interdisciplinary research center of its kind and has been in the forefront of advancing equity, inclusion and intersectional qualitative and mixed-methods research on campus and across the nation. CRGE's mission is to promote intersectional scholarship that examines inequality including the lived experiences of traditionally and historically underrepresented minorities. It provides support through outreach, mentoring, and research experiences along the undergraduate, graduate and early career faculty trajectory. The Consortium's vision is to create a university environment that promotes racial and ethnic inclusion, skill-building, and equitable representation through sponsorship of intersectional research, collaboration across colleges and units, and mentorship of underrepresented minority campus groups. As a first-class intersectional scholarship-driven center, CRGE is dedicated to understanding the intersections of inequality, inequity and social justice and serve as a national example of a thriving and inclusive environment for critically engaged scholars whose research creates and informs solutions to significant social and economic concerns.

Center for Innovative Teaching and Learning (CITL)

1202 Jiménez Hall, 301-405-4925; Fax: 301-314-9752
www.sllc.umd.edu/citl (http://www.sllc.umd.edu/citl/)
langweb@umd.edu

Faculty Director: Dr. Mehl Penrose
Instructional Designer: Janel Brennan-Tillmann

The Center for Innovative Teaching and Learning (CITL) is a unit within the School of Languages, Literatures and Cultures whose mission is to enhance and support excellence in teaching, learning and research. The Center provides equipment, web support, training, and instructional design for SLLC faculty and staff as well as Big 10 Academic Alliance CourseShare courses.

Consultation services are available for course development, assessment, hybrid and blended course redesign, distance learning (via teleconference or WebEx), grant support, and digitization of course and research materials. The Center also maintains a small media library. Fee-based services for non-SLLC faculty include reserving a technology cart or teleconferencing equipment for use in Jimenez Hall and reserving the SLLC Collaborative Technology Classroom for occasional class meetings.

American Studies

College of Arts and Humanities
1328 Tawes Hall
301-405-1354
americanstudies@umd.edu
amst.umd.edu (http://www.amst.umd.edu)

The program in American Studies aims to help students develop knowledge about American society and culture that is critical, contextual, and informed by a high degree of personal awareness. We emphasize two broad themes that inform the department's teaching and research: the social construction of difference and the culture of everyday life. The former speaks to the ways in which people and groups create and sustain their identities and affiliations; the latter focuses on patterns of belief and value that give form and meaning to the lived experience of Americans, past and present.

Programs

Major

- American Studies Major (p. 139)

Minor

- U.S. Latina/o Studies Minor (p. 140)

Advising

Advising in American Studies is mandatory every semester for all majors. Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu (http://www.4yearplans.umd.edu). Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

Majors in American Studies complete a research project for the senior seminars, AMST340 and AMST450. They are encouraged to gain additional research experience by working with individual faculty members and advanced graduate students or participating in one of the Department's Working Groups. See the Department website for more information about research: www.amst.umd.edu (http://www.amst.umd.edu).

Internships

Juniors and seniors with a 2.5 GPA or better may apply 3 credits of internship (AMST386) to the 42 credits required for the major. Students must consult with a faculty advisor about a prospective internship prior to registration and complete and sign an internship contract. All internships must have an approved academic component. For further information, contact the Undergraduate Studies Director.

Honors Program

The departmental honors program offers outstanding students an opportunity to add distinction to their academic records by undertaking an independent research project in an area of particular interest to them.

The program is intended to allow students preparing for graduate study or a professional career to apply and further develop their research, analytic, and writing skills in an independent project of their own design, in consultation with a faculty mentor. Students are encouraged to make use of the rich resources of the Washington-Baltimore area, including major research institutions such as the Smithsonian Institution, the Library of Congress, and the National Archives.

Students in the honors program take two honors-designated courses and two semesters of AMST388 Honors Thesis, a total of twelve credits. Students enrolled in honors are excused from AMST450 Senior Seminar. These requirements fit *within the 42 credits required to complete the major. Participation in honors does not require additional coursework beyond the required 42 credits.*

Eligibility: Students must have at least a 3.0 cumulative GPA at the time of entry into the program, and must maintain a minimum 3.0 GPA overall to remain in good standing. To graduate with honors in American Studies, students must have a 3.0 cumulative GPA and a GPA of 3.2 or higher in their major coursework.

Application: Students who wish to pursue Honors work should contact the Director of Undergraduate Studies at (301) 405.1354 during their junior year to discuss the program and application procedures.

Scholarships and Financial Assistance

The department awards the David Ellis Memorial Scholarship annually. For information and requirements, contact the American Studies office (301-405-1354).

The College of Arts & Humanities also has scholarship opportunities available to students. Learn more here (https://arhu.umd.edu/academicsundergraduate-studies/scholarships-academic-honors/).

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The department recognizes outstanding accomplishments by undergraduates at its commencement ceremony. Monetary prizes are awarded to the graduate with the highest cumulative GPA, to the author of the best Honors thesis, and to a graduate who has provided exceptional service to the campus or the community. The department also awards the Savneet Talwar Best Senior Paper Prize to an undergraduate who has authored an outstanding senior paper.

American Studies Major

American Studies provides students with a flexible, coherent, and interdisciplinary program of study. We focus on the cultures of everyday lives and cultural constructions of identity and difference in Americans' lives, past and present, in a transnational and global framework. The B. A. degree prepares students for graduate work or careers in fields such as law, government and social policy, media, non-profit and social justice organizations, cultural institutions, education, and business. The department provides opportunities for internships, research, study abroad, and departmental honors. Each student meets every semester with a faculty advisor to plan an individualized course of study tailored to each student's interests and goals. American studies is a small department with a friendly atmosphere, faculty dedicated to teaching, and an excellent national academic reputation. Courses offered by the Department of American Studies may be found under the acronym AMST.

ADMISSION TO THE MAJOR

Students interested in declaring the American Studies major should make an appointment with the undergraduate program director.

Program Learning Outcomes

Students are expected to engage fully with the curriculum, faculty, their fellow students, and the opportunities available for learning and research. Upon completion of the degree program, students will have demonstrated an understanding of multiple dimensions of diversity, possess the ability to answer research questions by using appropriate American Studies methodologies, and have acquired the following knowledge and skills:

1. Understanding and applying interdisciplinary theories and methods.
2. Understanding American Studies as a field, including current and emerging issues.
3. Understanding of cultural literacy, including visual, textual and cybercultural literacies.
4. Understanding the political and historical dimensions of culture.
5. Understanding the importance of cultural diversity in American society.
6. An ability to connect classroom and extracurricular learning in fostering active, engaged citizenship.

Requirements

The major in American Studies requires a minimum of 42 credits distributed as follows:

Course	Title	Credits
College Requirement (p. 134)		
AMST101	Introduction American Studies (required of all majors)	3
Select one AMST 1xx or 2xx level course, e.g. the following: [1]		3
AMST202	Cultures of Everyday Life in America	
AMST203	Popular Culture in America	
AMST204	Film and American Culture Studies	
AMST205	Material Aspects of American Life	
AMST207	Contemporary American Cultures	
AMST212	Diversity in American Culture	
AMST260	American Culture in the Information Age	
AMST298	Selected Topics in American Studies	
Select two Americanist Foundation courses from a list of approved choices [1, 2]		6
Select four 3xx or 4xx-level AMST courses		12
AMST340	Introduction to History, Theories and Methods in American Studies [3]	3
AMST450	Seminar in American Studies [3]	3
Select a Focus Area [4]		12
Total Credits		42

1. Some or all of the 2xx-level courses may also fulfill General Education Requirements.
2. Americanist Foundation courses are 1xx or 2xx-level courses in departments such as AASP, ARTH, ENGL, HIST, SOCY, and WMST. (The current list of courses approved for the requirement is posted on the department's web site: www.amst.umd.edu (http://www.amst.umd.edu))

[3] AMST340 and AMST450 constitute a sequence emphasizing independent research based on original sources and culminating in a senior thesis. AMST340 is a prerequisite for AMST450 and must be completed before enrollment in the senior seminar. The sequence is usually taken in the student's senior year.

[4] A Focus Area consisting of four 3xx or 4xx-level courses in another department or university approved minor. (A list of suggested Focus Areas can be found on the department's web site: www.amst.umd.edu (http://www.amst.umd.edu).)

Notes:

- At least twelve of the 3xx or 4xx level credits must be at the 4xx level.
- A grade of C- or better is required in every course submitted in fulfillment of major requirements.
- An overall GPA of 2.0 in the major is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

U.S. Latina/o Studies Minor

College of Arts and Humanities
Department of American Studies
3322 Tawes
301.405.1354
amst.umd.edu/uslt/ (http://amst.umd.edu/uslt/)

The minor, which requires a total of 15 credits, is intended for students who wish to develop a specialization in U.S. Latina/o Studies alongside their degree pursuits. It is advantageous for students engaged in work with U.S. Latina/o communities in a variety of professions and academic fields including American studies, history, literature, education, non-profits, urban studies and planning, health care, social services, business, government, and public policy, among others.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Course	Title	Credits
Foundation Courses		
USLT201	U.S. Latina/o Studies I: An Historical Overview to the 1960's	3
USLT202	US Latina/o Studies II: A Contemporary Overview 1960's to present	3
USLT488	US Latina/o Senior Seminar	3
Elective Courses		
Two 3xx or 4xx level courses [1]		6
Total Credits		15

[1] The elective courses will come from two of the following categories: Humanities, Social Sciences, Languages, and Education. For these electives, students can choose USLT498 Special Topics in U.S. Latina/o Studies and from a list of pre-approved courses offered through other departments or programs. Elective courses will explore the historical, cultural, political, economic, and sociological dimensions of U.S. Latina/o experiences. These courses will be approved by the faculty advisory committee. Additional courses that include comparative U.S. Latino content, such as in LASC or GVPT, would be eligible for inclusion in the minor with the approval of the USLT advisor.

No course grade below the grade of 'C-' may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

Art

College of Arts and Humanities
1211-E Parren J. Mitchell Art-Sociology Building
301-405-7790
artdept@umd.edu
www.art.umd.edu (http://www.art.umd.edu)

The Department of Art offers a Bachelors of Art degree with courses in the areas of painting, sculpture, digital media, printmaking, video, art theory, photography, and graphic design. Students enter the program with an intensive foundations program which focuses on the fundamentals of composition in both two and thee-dimensional applications. Upon completing the foundations courses, students are encouraged to experiment and expose themselves to all of the various media offered by the department, or apply to a limited-enrollment Graphic Design Concentration. All art and design students are expected to develop strong creative voices based upon an understanding of contemporary critical theory as well as an in-depth understanding of the technical skills needed to create compelling contemporary art and design.

In addition, there are numerous opportunities for students in the program to extend their involvement in the major and in the arts. A wide variety of internship opportunities are available, as well as opportunities to work in the Herman Maril Gallery, the department's student-run gallery. These students have the opportunity to organize and curate exhibitions of the work of other students in the department.

Programs

Major

- Studio Art Major (p. 141)

Advising

The Department has a single advisor, Emily Conover (econover@umd.edu). To make an appointment:

Conover's office is located in the Parren J. Mitchell/Art-Sociology Building, 1st mezzanine between 1st & 2nd floors of the studio art classrooms, Rm. 1M322
Phone: 301-405-9408
To schedule an appt:

https://econover714.youcanbook.me (https://econover714.youcanbook.me/)

To schedule an appt. with ARHU advising: go.umd.edu/ARHUscheduling (http://go.umd.edu/ARHUscheduling/)

ARHU Walk-in advising (during the fall and spring semesters; for summer and winter hours, please click on the link above and review the hours there):

Mon/Tues: 1:30-3:30 p.m.

Wed/TR/Fri: 9:30-11:30 a.m.

You can also call Undergraduate Administrative Assistant, Jennifer Flores (301-405-7790) if you have questions. Each second-semester sophomore and first-semester senior is required to meet with their advisor.

Students are strongly encouraged to see their advisor in the department annually.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

A variety of undergraduate research and/or internship experiences are available. Please go to Department of Art Website for more information: www.art.umd.edu (http://www.art.umd.edu)

Fieldwork Opportunities

A variety of undergraduate fieldwork and/or internship opportunities are available. Please go to Department of Art website for more information: www.art.umd.edu (http://www.art.umd.edu).

Internships

Students have worked in a variety of internship settings. These have included assisting professionals with public commissions, commercial or cooperative gallery and exhibition duties, and working in professional artists' workshops in the Baltimore and Washington, D.C. metropolitan areas. The Graphic Design concentration maintains a variety of internship connections with the professional design communities from Baltimore to Washington, DC. Additional information is available in the Department of Art office or on the website www.art.umd.edu (http://www.art.umd.edu).

Honors Program

The Departmental Honors Program provides Art majors with opportunities for in-depth study and enrichment in areas of special and creative interest. Students are admitted to this program by competitive portfolio review. To qualify, students must be Art majors with junior or senior status, a major GPA of 3.2, and an overall GPA of 3.0. The program requires a total of 12 credits in Honors course work, and is completed over the student's senior year. Two courses (3 credits each) may be taken at the 3xx- or 4xx-level, and two courses (3 credits each) at the 4xx-level. There is a thesis component in one of the 4xx-level courses and includes a Thesis Exhibition in the Herman Maril Gallery.

Please consult the department website and/or the Honors Director for additional information.

Student Societies and Professional Organizations

The Student Art League is an active student organization that encourages membership and participation for all majors. Art majors participate in many campus-wide organizations.

Scholarships and Financial Assistance

The Department of Art administers eight Creative and Performing Arts Scholarships (CAPAs) that are available to continuing students as well as entering freshman or transfer students. This is a merit-based scholarship that is awarded on a one-year basis and may be renewed. Additional information is available in the main office of the department. The Van Crews Scholarships and Clarvit Scholarships are designated for outstanding Art majors concentrating in Graphic Design. Further details are available on the department website: www.art.umd.edu (http://www.art.umd.edu)

Awards and Recognition

Each semester the faculty votes for students to receive 1st, 2nd, and 3rd place cash prizes for the James P. Wharton Award, given at graduation. Students are given the awards based on works exhibited in the Graduating Seniors Exhibition in the Herman Maril Gallery.

When funds are available, the department holds a competition for the John Dorsey Prize for Curatorial Excellence. The winner receives a cash award and funds towards the production of a curated exhibition in the Herman Maril Gallery.

Other awards and scholarships are given on an intermittent basis, depending on the funding.

For more information, go to the department website: www.art.umd.edu (http://www.art.umd.edu)

Studio Art Major

The Department of Art provides its students with the technical and conceptual tools needed to make innovative contributions to a visual culture in which traditional boundaries between the visual arts, design, film, video, and architecture have become increasingly blurred. The accomplished faculty members bring their professional experiences to the studio, providing a contemporary context for the development of skills and ideas. The department's creative environment encourages creative problem solving, interdisciplinary experimentation, and the production of images, objects, and experiences that reflect a sophisticated visual literacy. From a shared foundation emphasizing traditional fundamentals of art and design, students move into media concentrations that encourage interdisciplinary interaction, particularly in developing digital technologies. This flexible interaction between traditional and new media is central to the department's vision and the success of its mission.

In a society that increasingly defines itself in visual terms, artists and designers are critical in shaping its future. The creative atmosphere of the Department of Art's studios is a fertile ground for the development of the complex skills and ideas needed to navigate and contribute to an evolving visual culture. Our location, just outside Washington, DC, and less than an hour away from Baltimore provides access to numerous

museums, galleries, embassies and international institutions, which brings important real-world experience to students in our program.

Admission to the Major

The Department of Art offers three tracks to the B.A. degree. Track 1 is an open major, which requires no portfolio review, and requires 48 total credits for completion. All majors enter the department in Track 1.

Tracks 2 and 3 are specialized tracks with portfolio reviews for admission in the junior and senior years, and require 60 total credits for completion. Track 2 is for a B.A. with an Advanced Specialization in Digital Media, Painting, Printmaking, Sculpture, or Intermedia. Track 3 is for a B.A. with a concentration in Graphic Design.

See the department website for more information: www.art.umd.edu (http://www.art.umd.edu)

Placement in Courses

With appropriate AP or IB credit and scores, students may receive credit for ARTT100, ARTT110, or both. Contact department advisors for more information.

Program Learning Outcomes

1. Students will be able to demonstrate fundamental knowledge of visual art and design principles.
2. Students will be able to manipulate form, content, artistic methods and digital technologies when applicable to express coherent concepts.
3. Students will be able to demonstrate interest in and experimentation with inventive uses of media to express compelling concepts.
4. Students will be able to produce visual works that are well crafted and displayed appropriately.
5. Students will be able to produce visual works that demonstrate the students' awareness and interest in contemporary issues in subject matter, content and/or media.
6. Students will be able to articulate their visual works' ideas and concepts in relation to contemporary critical theories and practice.

Requirements

The Department of Art offers three tracks to a Bachelor of Arts degree (B.A.). All majors enter the Department in Track 1, the open B.A., and take a required group of six Foundation courses (18 credits). After completion of the Foundation courses, students may continue in Track 1 without portfolio review, or choose to submit a portfolio of work completed in Track 1 courses for admission into Track 2 or Track 3. Portfolio reviews for both specializations will take place during the Spring semester, usually during late March.

- **Track 1: B.A. in Studio Art.** This is an open program with no portfolio admission requirement. This track provides ample space for outside electives, encourages interdisciplinary interaction, and provides double major or double degree possibilities. The Art Education Curriculum works with Track 1. Credit requirements: 36 credits in Studio Art, and 12 credits in supporting courses in Art History and/or Art Theory, for a total of 48 credits.
- **Track 2: B.A. in Studio Art with Advanced Specialization.** This track is restricted to students admitted by competitive portfolio review, and is aimed at students who envision graduate study or professional careers in art. Students accepted into this track will complete, in addition to the requirements for Track 1, a 12 credit advanced specialization in specific media areas, including ARTT481 Advanced Specialization Seminar. Areas of specialization include: Digital Media, Painting, Printmaking, Sculpture, and Intermedia. Credit requirements: 48 credits listed in Track 1 plus 12 credits in Advanced Specializations, for a total of 60 credits.
- **Track 3: B.A. in Studio Art with a concentration in Graphic Design.** This track is restricted to students admitted into the Graphic Design concentration through a competitive portfolio review. This program provides a pre-professional orientation emphasizing interactive design, graphic design theory, and interdisciplinary research. Students accepted into the Graphic Design program must complete a specific sequence of courses at both the 3xx- and 4xx-level. Graphic Design courses are only available to students who have been admitted to the Graphic Design concentration. Credit requirements: 21 credits in Foundation and studio art electives, and 12 credits in supporting courses in Art History and/or Theory (ARTT361 Design Literacy: Decoding Our Visual Culture, a Graphic Design Concentration requirement, satisfies 3 credits of the supporting area for Graphic Design students) for a total of 60 credits.

Students interested in Track 2 may apply after the completion of at least two 3xx-level courses, plus completion or enrollment in ARTT418. Students may re-apply one time.

Students interested in Track 3 must have completed or be enrolled in the required Foundation courses to apply to the specialization. The strict course requirements in Graphic Design make early application to Track 3 optimal. Students may re-apply one time.

Transfer students who have completed courses equivalent to the Foundation and intermediate courses at UMCP may apply immediately to Tracks 2 or 3 if they choose.

These are competitive programs with a limit of approximately 20 new students per year in the combined Art areas, and approximately 20 students per year in Graphic Design. For information about the Portfolio review process for Tracks 2 and 3 please see the Department of Art website.

No course grade below the grade of C- may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Track 1: B.A. in Studio Art

Course	Title	Credits
College Requirements (p. 134)		
Foundation Courses		
ARTT100	Two-Dimensional Design Fundamentals	3
ARTT110	Elements of Drawing I	3
ARTT150	Introduction to Art Theory	3
ARTT200	Three-Dimensional Art Fundamentals	3
ARTT210	Elements of Drawing II	3
ARTT255	Introduction to Digital Art and Design Processes	3
Intermediate Courses		
Choose three courses total from at least two areas of the following:		9
Painting:		
ARTT320	Elements of Painting	
Sculpture:		
ARTT330	Elements of Sculpture: Metal Casting	
ARTT331	Elements of Sculpture: Steel	

ARTT332		
ARTT333	Elements of Sculpture: Wood and Mixed Media	
Printmaking:		
ARTT340	Elements of Printmaking: Intaglio	
ARTT341	Elements of Printmaking: Woodcut and Relief	
ARTT343	Elements of Printmaking: Screen Printing	
ARTT344	Elements of Printmaking: Lithography	
Digital Media:		
ARTT370	Elements of Digital Media	
Advanced Courses		
ARTT418	Advanced Drawing Studio	3
Select one 3xx-/4xx-level ARTT elective		3
Select one 4xx-level ARTT or Art Theory elective		3
Supporting Area		
ARTH200	Art and Society in Ancient and Medieval Europe and the Mediterranean	3
ARTH201	Art and Society in the West from the Renaissance to the Present	3
Select two 3xx-/4xx-level ARTH or Art Theory electives [1]		6
Total Credits		48

[1] Department recommends ARTH351: Twentieth Century 1945 to present

Track 2: B.A. in Studio Art with an Advanced Specialization

Course	Title	Credits
College Requirements (p. 134)		
Foundation Courses		
ARTT100	Two-Dimensional Design Fundamentals	3
ARTT110	Elements of Drawing I	3
ARTT150	Introduction to Art Theory	3
ARTT200	Three-Dimensional Art Fundamentals	3
ARTT210	Elements of Drawing II	3
ARTT255	Introduction to Digital Art and Design Processes	3

Select one 4xx-level ARTT or Art Theory elective		3
Supporting Area		
ARTH200	Art and Society in Ancient and Medieval Europe and the Mediterranean	3
ARTH201	Art and Society in the West from the Renaissance to the Present	3
Select two 3xx-/4xx-level ARTH or Art Theory electives [1]		6
Select an Advanced Specializaton: [1]		12
Digital Media		
Painting		
Printmaking		
Sculpture		
Intermedia		
Total Credits		60

[1] Advanced media courses ending in 8 or 9 are repeatable up to 12 credits.

Digital Media

Course	Title	Credits
ARTT479	Advanced Digital Media Studio (two repeatable)	6
Select one of the following:		3
ARTT479	Advanced Digital Media Studio [1]	
ARTT353	Elements of Photography	
ARTT449	Advanced Photography Studio	
ARTT34x	An ARTT34x course	
ARTT448	Advanced Printmaking Studio	
ARTT481	Advanced Specialization Seminar [2]	3
Total Credits		12

[1] 3 cr. of ARTT498 may be substituted for ARTT479

[2] Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course.

Painting

Course	Title	Credits
ARTT428	Advanced Painting Studio (three repeatable)	9
ARTT481	Advanced Specialization Seminar [2]	3
Total Credits		12

[1] 3 cr. of ARTT498 may be substituted for ARTT479 cr.

[2] Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course.

Printmaking

Course	Title	Credits
Select one of the following:		3
ARTT34x	An ARTT34x course	
ARTT448	Advanced Printmaking Studio	
ARTT448	Advanced Printmaking Studio (two repeatable)	6
ARTT481	Advanced Specialization Seminar [2]	3
Total Credits		12

1 3 cr. of ARTT498 may be substituted for ARTT448 credit.

2 Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course.

Sculpture

Course	Title	Credits
Select one of the following:		3
ARTT33x	An ARTT33x course	
ARTT418	Advanced Drawing Studio	
ARTT438	Advanced Sculpture Studio	
ARTT438	Advanced Sculpture Studio (two repeatable)	6
ARTT481	Advanced Specialization Seminar [2]	3
Total Credits		12

1 3 cr. of ARTT498 may be substituted for 438 credit.

2 Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course.

Intermedia

Course	Title	Credits
ARTT4xx	Advanced Studios (combination of inter-related courses) [1]	9
ARTT481	Advanced Specialization Seminar [2]	3
Total Credits		12

1 3 cr. of ARTT498 may be used for 4xx credit.

2 Track 2 students only. Students in Department Honors Program may substitute the Honors Seminar for this course.

Track 3: B.A. in Studio Art w/ Concentration in Graphic Design

Intermediate and Advanced Graphic Design courses are restricted to students who have been accepted into the Design Concentration by an application process and competitive portfolio review. All Track 3 students must satisfy the following requirements:

Course	Title	Credits
College Requirements (p. 134)		
Requirements		
Foundation courses listed in Track 1 BA		18
Supporting Area courses listed in Track 1 BA [1]		9
Select six credits of the following:		6
ARTT386	Experiential Learning	
ARTT45x	Graphic Design Electives	
Select six credits ARTT3xx / 4xx Art Electives		6
Graphic Design Required Courses		
ARTT355	Intermediate Graphic Design Principles	3
ARTT356	Graphic Design Processes	3
ARTT357	Interactive Design	3
ARTT454	Advanced Graphic Design Principles: Design in Society	3
ARTT455	Three Dimensional Graphic Design	3
ARTT458	Graphic Design Portfolio	3
ARTT361	Design Literacy: Decoding Our Visual Culture [2]	3
Total Credits		60

1 One course of 3xx-/4xx-level ARTH or Art Theory electives is satisfied by ARTT361 under Graphic Design required courses.

2 Satisfies 3cr. of the Art History or Theory supporting area.

Graphic Design Elective Courses

Not all courses are offered every semester. Some are offered during Summer and Winter terms.

Course	Title	Credits
ARTT386	Experiential Learning (Graphic Design Internship only)	3-6
ARTT456	Motion Design	3
ARTT457	Advanced Interactive Design	3
ARTT459	Advanced Graphic Design Studio	3
ARTT488	Advanced Special Topics in Graphic Design	1-3
ARTT499	Directed Studies in Graphic Design	1-3

Other Requirements for the Major

Please go to Department of Art Website for more information: www.art.umd.edu (http://www.art.umd.edu)

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Art History and Archaeology

College of Arts and Humanities
1211-B Parren J. Mitchell Art-Sociology Building
301-405-1479
cblevins@umd.edu
www.arthistory.umd.edu (http://www.arthistory.umd.edu)

The goal of the department is to develop the student's critical understanding of visual culture in both art historical and archaeological contexts. Undergraduates are offered a diverse selection of courses in the art and archaeology of Africa, the Americas, Asia, and Europe. Students are encouraged to supplement their art historical and archaeological studies with courses in other fields, to participate in internships at local museums and galleries, and to take advantage of Maryland's study abroad programs. Students with GPAs of 3.5 or higher and who have completed a minimum of 60 credits may apply to the department's honors program.

Programs

Major

- Art History Major (p. 146)

Minors

- Archaeology Minor (ARTH) (p. 145)
- Art History Minor (p. 147)

Advising

For advising about the art history major and minor programs, please consult our undergraduate advisor or director of undergraduate studies. For updated details regarding ARTH advising go to: http://arthistory.umd.edu/undergraduate-advising (http://arthistory.umd.edu/undergraduate-advising/)

Departmental advising is mandatory for all majors. Once registration begins, students must come in for departmental advising before the department can remove their registration block. Students should check for registration blocks and advising hours.

Students should consult the department's undergraduate advisor for general and mandatory advising matters including registration and advising block removal, study abroad questions, and museum internships. For specific questions regarding the major and minor programs and requirements, special situations, issues with academic probation, as well as for special permissions, please contact the director of undergraduate studies.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Internships

The location of the University between Washington and Baltimore gives students the opportunity to use some of the finest museums and archival collections in the world for their coursework, independent research and internships. Art History majors are encouraged to supplement their art historical and archaeological studies by applying to internships at local museums and galleries. For more information regarding local museum and gallery internships in the DC-Baltimore region, please consult the departmental website: http://arthistory.umd.edu/internships (http://arthistory.umd.edu/internships/).

Experiential Learning

Students of junior standing or higher may receive academic credit for spring or fall museum/gallery internships via ARTH386. This course may count as one of the seven 3xx/4xx-level ARTH courses required for completion of the ARTH major. Prerequisites: permission of the Department and 60 credit hours completed.

For details outlining the process for securing such credit and for museum internship information, go to: http://arthistory.umd.edu/internships (http://arthistory.umd.edu/internships/)

Students must complete all of the required steps outlined on the website and register for ARTH386 before the end of the schedule adjustment period for that semester. The Department does not give credit for museum and gallery internships that have already been completed.

Honors Program

If you have completed at least 12 credits in Art History and Archaeology courses and if you have an overall GPA of 3.5 or higher (in all course work, not just ARTH courses) you are qualified to work toward departmental honors at graduation. Such honors will be noted on your official transcript. Consult the Director of Undergraduate Studies for details. Among your seven 3xx/4xx-level ARTH courses required for the major, you must take at least one colloquium (ARTH488) and you also must take Methods of Art History (ARTH496). In addition to the regular requirements for the major, you must research and write an Honors Thesis (ARTH499), normally in the year when you will graduate. Before registering for this course you must identify and gain the support of a faculty supervisor. The faculty supervisor must be a regular member of the ARTH Department faculty. Adjunct faculty members do not supervise honors theses.

Student Societies and Professional Organizations

The Department of Art History and Archaeology has an active Undergraduate Art History Association (AHA) and is also affiliated with OrgSync. Interested students should contact the Director of Undergraduate Studies or the undergraduate advisor for more information or go to http://www.arthistory.umd.edu/art-history-association-aha (http://www.arthistory.umd.edu/art-history-association-aha/) and https://www.facebook.com/UmdAHA (https://www.facebook.com/UmdAHA/).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The Department of Art History and Archaeology offers four undergraduate awards each year at spring commencement. The Judith K. Reed Scholarship is awarded to an exemplary ARTH major of junior standing. The Judith K. Reed Commencement Award, the George Levitine Award and the Frank DiFederico Award are granted to outstanding graduating ARTH seniors.

Archaeology Minor (ARTH)

Professor Lillian Doherty
301-405-2022
ldoherty@umd.edu
https://classics.umd.edu/academicprograms/archaeology (https://classics.umd.edu/academicprograms/archaeology/)

Advising will be coordinated in any given year by the faculty member who is teaching the required, cross-listed course. Contact Prof. Lillian Doherty (ldoherty@umd.edu) in the Classics Department for information.

The interdisciplinary minor in Archaeology is intended to introduce students to the global importance of archaeology and its value as a mode of scholarly inquiry.

Requirements

The minor requires a minimum of 15 credits and consists of three elements:

1. A required 3-credit, 3xx-level course, Archaeological Methods and Practice, cross-listed as ANTH305, CLAS305, ARTH305, and

JWST319Y, to be offered once each year. There is a one-course prerequisite, to be chosen from among the following: ANTH240, CLAS180, or ARTH200.

2. 3 to 6 credits in approved courses offering fieldwork experience. There are many options at UMCP, including historical archaeology courses in ANTH that do not require travel abroad. Study-abroad programs at other institutions must be approved in advance by a UMCP faculty member with the appropriate specialization.
3. 6 to 9 credits in supporting courses involving subject matter that includes a significant focus on archaeology (in, e.g., ARCH, ANTH, ARTH, CLAS, HIST, JWST, LARC, RELS). A list of approved courses will be made available to students interested in the minor. The list will be updated as course offerings change.

As required for all minors, at least 9 credits overall must be in courses at the 3xx or 4xx level. The grade point average in the minor must be at least 2.0 and no grade below 'C-' can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

Art History Major

The goal of the Department is to develop the student's critical understanding of visual culture in both art historical and archaeological contexts. The program provides a diverse selection of courses in the art and archaeology of the Americas, Asia, and Europe.

The location of the University between Washington and Baltimore gives students the opportunity to use some of the finest museum and archival collections in the world for their coursework and independent research. Curator/professors, exhibitions in the Art Gallery and Stamp Gallery at the University of Maryland, and the extensive use of study collections bring regional and distant museums into the classroom.

Courses offered by this Department may be found under the following acronym: ARTH.

ADMISSION TO THE MAJOR

Students must meet either with the undergraduate advisor or director of undergraduate studies for admission to the Major. The advisor and student will complete the departmental portion of the *College of Arts and Humanities and Art History Academic Plan Checklist*. The student must take the form to the college and meet with the ARHU advisor. The ARHU advisor will make the official change in the university records.

Program Objectives

The Department of Art History and Archaeology's B.A. program equips its majors with critical knowledge of art history and visual culture. The program promotes visual literacy in the history of art from around the world and from prehistoric times to the present. It cultivates strong research, written, and critical thinking skills and develops students' abilities to synthesize cultural, historical, political, and social information as it bears upon the visual arts.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the B.A. in Art History, students should have acquired the following abilities:

1. An ability to demonstrate knowledge of a large set of artistic monuments, objects, and performances in their cultural, historical, political, and/or social contexts.
2. An ability to communicate effectively about art in writing, using clear and concise prose to advance logical arguments supported by adequate and appropriately cited research materials.
3. An ability to employ the appropriate technologies for conducting research in the history of art, including print sources and/or electronic information.
4. An ability to recognize the methods and theories used to ask and address significant questions about works of art, and understand the values informing them.
5. An ability to demonstrate skills in visual and critical analysis and sensitivity to diversity in comparing works of art across time, geography, and/or culture.

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

The location of the university between Washington and Baltimore gives students the opportunity to use some of the finest museum and archival collections in the world for their course work and independent research. The department encourages students to hold internships at a number of these institutions. Curator/professors, exhibitions in galleries at the University of Maryland, digital technologies, and the extensive use of study collections complement traditional classroom learning.

The department is at the forefront of exploring digital technologies for art historical and archaeological teaching, research, and publication. The Michelle Smith Collaboratory for Visual Culture, located in the department on the fourth floor of the Parren J. Mitchell Art-Sociology Building, is central in creating a nurturing environment for academic research and creative learning. The Collaboratory permits ample workspace for meetings, workshops, forums, and the execution of large-scale digital projects.

Requirements

Requirements for the major in Art History are as follows:

Course	Title	Credits
College Requirements (p. 134)		
Required Courses		
ARTT100	Two-Dimensional Design Fundamentals	3
or ARTT110	Elements of Drawing I	
Select three ARTH courses at the 2xx level, one of which may be an I-Series course [1]		9
Select seven ARTH courses at the 3xx or 4xx level [2]		21
Supporting Area		
Select three courses at the 3xx or 4xx level outside the Art History and Archaeology Department [3]		9
Total Credits		42

[1] These courses, include, but are not limited to, the following: ARTH200, ARTH201, ARTH221, ARTH230, ARTH250, ARTH255, ARTH275, ARTH290, ARTH292

[2] Of those seven courses, at least one must be ARTH488. Enrollment for ARTH488 is limited to

1. majors with at least 75 total credits and at least 9 credits in ARTH at the 3xx level, or
2. those given permission by the faculty/Department.

[3] Courses should cohere around a broad area of study, and must be related to the student's studies in the Department. All supporting courses must be approved by an ARTH advisor.

No course with a grade lower than 'C-' may be used to satisfy major or supporting area requirements.

An overall GPA of 2.0 in the major is required for graduation.

Other Requirements for the Major

In the Department of Art History and Archaeology, 3xx-level and 4xx-level courses are differentiated. 3xx-level courses focus on period or topical surveys and 4xx-level courses highlight content- or theme-based material. Majors should complete the 2xx-level surveys before they enroll in 3xx- or 4xx-level courses. Students are strongly encouraged to take supporting area courses that complement the art history major. No course with a grade lower than "C-' may be used to satisfy major or supporting area requirements.

Limit on Special Courses

- No more than 3 credits total of 269 or 289 (i.e. no more than one 200-level study- abroad course or one 200-level transfer course in a topic that is not fundamentally equivalent to one of our courses).
- No more than 6 credits of 369 (i.e. no more than two 300-level study abroad courses in topics that are not fundamentally equivalent to our 300-level courses).
- No more than 6 credits of 389 (i.e. no more than two 300-level special courses, as transfer credit or here on campus, on topics outside our regularly offered, 'hard-numbered' curriculum)

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Art History Minor

Art History and Archaeology (ARTH)
1211B Parren J. Mitchell Art-Sociology Building
301-405-1479
www.arthistory.umd.edu (http://www.arthistory.umd.edu)

The minor in Art History introduces students to a range of art-historical periods, problems, and methodologies and is intended at once to broaden and deepen the student's knowledge of arts and humanities. A total of 18 credits is required.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Course	Title	Credits
Select three ARTH courses at the 2xx level, one of which may be an I-Series course [1]		9
Select three ARTH3xx or ARTH4xx level courses		9
Total Credits		18

[1] These courses, include, but are not limited to, the following: ARTH200, ARTH201, ARTH221, ARTH230, ARTH250, ARTH255, ARTH275, ARTH290, ARTH290

A total of six (6) credits may be transferred into the minor from other institutions or programs. These transferred credits include those from study-abroad programs. Study-abroad credit requires the prior approval of the Director of Undergraduate Studies.

All courses presented for the minor must be passed with a grade of 'C-' or better.

An overall GPA of 2.0 in the minor is required for graduation.

Classical Languages and Literature

College of Arts and Humanities
1210 Marie Mount Hall
301-405-2013 or 301-405-2014
ldoherty@umd.edu (Chair) or fbarrene@umd.edu (UG advisor)
www.classics.umd.edu (http://www.classics.umd.edu)

The department offers three different undergraduate major tracks and four minors. Classics is a strong pre-professional major for a variety of careers. Many of our courses can also be used to fulfill General Education and/or CORE requirements.

We offer instruction under three different headings: CLAS, GREK, and LATN. CLAS courses deal with various aspects of the ancient world utilizing English language texts and works of Greek and Latin literature in English translation. CLAS courses do not provide instruction in the ancient languages nor will they satisfy the Global Engagement requirement (http://www.arhu.umd.edu/undergraduate/globalengagement/) in the College of Arts and Humanities (http://www.arhu.umd.edu/). GREK and LATN courses utilize English language texts as well as material in Greek or Latin. They are designed to help students to master the Latin or Greek language and can be used to satisfy the College's Global Engagement requirement.

Students who plan to do graduate work in Classics, ancient history, ancient philosophy, or ancient Mediterranean art history and archaeology should choose one of the language major tracks. Those planning to teach Latin at the secondary level should choose the Latin or Latin and Greek track. Students who have other plans after graduation and who major in Classics for the strong liberal arts background it offers may choose any of the major tracks.

Programs

Major

- Classical Languages and Literatures Major (p. 149)

Minors

- Archaeology Minor (CLAS) (p. 148)
- Classical Mythology Minor (p. 150)
- Greek Language and Culture Minor (p. 151)
- Latin Language and Literature Minor (p. 151)

Advising

Departmental advising is mandatory for all majors every semester and is recommended for those seeking minors.

To review the academic plan for this major, go to http://www.arhu.umd.edu/undergraduate/advising/academicplans (http://www.arhu.umd.edu/undergraduate/advising/academicplans/)

Opportunities

Undergraduate Research Experiences

The major culminates in a Capstone Course, in which students develop and present research which has grown out of their work in the field. Majors are encouraged to participate in undergraduate research conferences locally and nationally. The Department enables students to become involved in summer research opportunities and encourages all majors to seek internships.

Fieldwork Opportunities

Classics students have the opportunity to participate in the study of archaeological sites, including fieldwork, through our department and others in the university. Students may also pursue an interdisciplinary minor in archaeology. Contact Prof. Jorge Bravo (jbravo@umd.edu) or Prof. Lillian Doherty (LDoherty@umd.edu) for further information.

Internships

All Classics majors are encouraged to seek internships and there are many opportunities to do so in the Washington area. Classics students have interned at the National Archives, Smithsonian, Library of Congress, and Center for Hellenic Studies, among others.

Student Societies and Professional Organizations

Eta Sigma Phi is the national undergraduate Honor Society in Classics founded in 1914 at the University of Chicago. The University of Maryland's chapter, Zeta Nu, was established in 1994. Students are invited to join in the spring semester. To qualify, a student must be registered in a 3xx- or 4xx-level Greek or Latin course, must have at least a 'B+' average in all language courses, and an overall GPA of 'B' or better.

Students can submit abstracts for papers to be presented at regional and national Classics conferences. They can also join the Society for Classical Studies and the American Classical League, which are the national classics professional organizations, as well as the Classical Association of the Atlantic States, which is our regional classical organization.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The Classics Department awards a number of special scholarships and awards, some reserved for Classics majors and others awarded to them in preference.

For Classics majors only: The Avery Prize is awarded annually to a Latin student of special merit and the Hubbe Prize to a Greek student of special merit. The Mildred Steyer Undergraduate Scholarship is awarded to one or more outstanding majors in Classics. The Odyssey scholarships support students who study abroad and other student needs. To honor the memory of Sylvia Gerber, who taught Latin for many years in the Washington, DC public schools, her son Louis has provided the department with funding to support the training of Latin teachers and Latin pedagogical studies, including an undergraduate award for an aspiring Latin teacher.

Thanks to a generous grant from the National Italian American Foundation, the department now offers a number of full or partial scholarships for its winter term and early summer study abroad programs in Italy. These scholarships are awarded by preference to students majoring in Classics and related fields.

Awards and Recognition

Outstanding students in Greek and Latin are invited to join Eta Sigma Phi, the national undergraduate Honor Society in Classics (see Student Societies and Professional Organizations above).

The department also annually awards the Avery Prize for excellence in Latin, the Hubbe Prize for excellence in Greek, and the Steyer and Gerber Scholarships (see Scholarships and Financial Assistance above).

Archaeology Minor (CLAS)

Professor Lillian Doherty
301-405-2022
ldoherty@umd.edu
https://classics.umd.edu/academicprograms/archaeology (https://classics.umd.edu/academicprograms/archaeology/)

Advising will be coordinated in any given year by the faculty member who is teaching the required, cross-listed course. Contact Prof. Lillian Doherty (ldoherty@umd.edu) in the Classics Department for information.

The interdisciplinary minor in Archaeology is intended to introduce students to the global importance of archaeology and its value as a mode of scholarly inquiry.

Requirements

The minor requires a minimum of 15 credits and consists of three elements:

1. A required 3-credit, 3xx-level course, Archaeological Methods and Practice, cross-listed as ANTH305, CLAS305, ARTH305, and JWST319Y, to be offered once each year. There is a one-course prerequisite, to be chosen from among the following: ANTH240, CLAS180, or ARTH200.

2. 3 to 6 credits in approved courses offering fieldwork experience. There are many options at UMCP, including historical archaeology courses in ANTH that do not require travel abroad. Study-abroad programs at other institutions must be approved in advance by a UMCP faculty member with the appropriate specialization.
3. 6 to 9 credits in supporting courses involving subject matter that includes a significant focus on archaeology (in, e.g., ARCH, ANTH, ARTH, CLAS, HIST, JWST, LARC, RELS). A list of approved courses will be made available to students interested in the minor. The list will be updated as course offerings change.

As required for all minors, at least 9 credits overall must be in courses at the 3xx or 4xx level. The grade point average in the minor must be at least 2.0 and no grade below 'C-' can be counted toward the minor. A maximum of 6 credits may be counted toward both the minor and the student's major. A maximum of 6 credits earned at other institutions may be counted toward the minor.

Classical Languages and Literatures Major

Courses offered by this department may be found under the following acronym(s): CLAS, LATN, and GREK.

Classics is the study of ancient Greek and Roman culture in all its aspects. Greek and Roman culture provided the foundation of western culture, including its literature, ideas, art, politics, and conceptions of the individual. Greek myth is still a shared fund of images and narratives that express human experience. Latin is a major source of English vocabulary, and Greek provides technical language in many fields. Classics explores all of these aspects through over fifteen hundred years of history. It helps us understand the relationship of western culture to other cultural systems and situate ourselves better in the world.

Classics is an intellectually rich and versatile liberal arts major which teaches core skills, including effective communication, critical thinking, and an appreciation of diversity. Because it is interdisciplinary and holistic, a student of classics gets a three-dimensional view of cultures and literatures that are still major forces today. Studying Athenian democracy and the Roman Republic sharpens understanding of competing philosophical and political ideas. Studying Latin not only develops English vocabulary, but makes English grammar comprehensible. Both languages provide excellent analytic training and Classics students score among the top in the Analytic Writing section of the GRE exams.

Classics is a pre-professional major for law school or for graduate school in any aspect of the ancient world. Classics majors have also gone on to medical school and library school. Latin teachers are in demand and numerous students have found rewarding jobs teaching secondary school, with continued involvement in the Classics community. Others have gone into business or gotten jobs in (among other fields) professional writing or editing, archival work, government services, academic administration, information technology, or social services.

ADMISSION TO THE MAJOR

Admission to the major simply requires a meeting with the undergraduate advisor. No prior knowledge of Latin or Greek is required.

PLACEMENT IN COURSES

Students with a score of 4 or 5 in the AP Latin test receive credit for LATN201 (4 credits) and may not take LATN201 or lower for credit. For further information, and for placement in Latin or Greek courses, contact the department's undergraduate advisor. We do not yet have online placement exams for these languages but can place you based on our assessment of your previous course work.

Program Objectives

Classics provides students with a liberal arts education: skills in written and oral use of language, close reading, critical thinking, and the appreciation of art, literature, and culture. The core subject matter of Classics consists of the Greek and Latin languages, the texts originally written in these languages, and the art and material culture of the peoples who spoke them. The program also studies the reception of these works in modern times and their relevance to us today.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. Students must demonstrate the ability to interpret the cultural context of primary sources through a variety of methodological approaches.
2. Majors who take Latin and Greek are expected to demonstrate some level of language proficiency. -Latin majors must be able to read and translate Latin at the advanced level. -Latin and Greek majors must be able to read and translate either Latin or Greek at the advanced level and the other language at the intermediate level. -Classical Humanities majors must be able to demonstrate the ability to assess Classical texts in translation, or primary evidence, through a variety of methodological approaches at the advanced level.

Academic Programs and Departmental Facilities

The Classics Department has its own Classics library as well as a Classics Club for its undergraduate students. It conducts annual study abroad programs in Italy, Greece, and France. These programs abroad are open to non-majors as well as to Classics majors and minors. We also host a chapter of the national Classics honor society, Eta Sigma Phi; students are invited to join when they reach the 3xx level in either Latin or Greek with a B+ average in the language courses and a B average overall.

Requirements

Requirements for the Classics major include the College of Arts and Humanities requirement of 45 3xx- or 4xx-level credits completed.

The College's Global Engagement Requirement will be automatically fulfilled in the process of taking language courses in the Latin, Greek, and Latin and Greek tracks of the major. Students in the Classical Humanities track who elect to study Latin or Greek to the intermediate level (LATN201 or GREK201) will also satisfy the Global Engagement Requirement.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Course	Title	Credits
College Requirements (p. 134)		
Select an Option:		39-42
Option A: Latin		
Option B: Greek		
Option C: Latin and Greek		
Option D: Classics in Translation (Classical Humanities)		
Total Credits		39-42

Option A: Latin

Course	Title	Credits
Select LATN courses at the 2xx/3xx level		18
Select LATN courses at the 4xx level or higher		12
Select supporting courses at any level CLAS, GREK, or related fields such as HIST and ARTH		9-12
Total Credits		39-42

Option B: Greek

Course	Title	Credits
Select GREK courses at the 2xx/3xx level		18
Select GREK courses at the 4xx level of higher		12
Select supporting courses at any level CLAS, LATN, or related fields such as HIST and ARTH		9-12
Total Credits		39-42

Option C: Latin and Greek

Course	Title	Credits
Select an Option:		30
Option 1:		
Select 18 credits in LATN courses		
Select 12 credits in GREK courses [1]		
Option 2:		
Select 18 credits in GREK courses		
Select 12 credits in LATN courses [1]		
Supporting courses [2]		9
Total Credits		39

1. Students with no previous training in the second language may count introductory level courses as part of the 12-hour requirement.
2. For example, CLAS170, HIST110, and a 3xx- or 4xx-level course in Greek or Roman history

Option D: Classics in Translation (Classical Humanities)

Course	Title	Credits
Foundation Courses		
Select 12 credits at the 1xx-2xx level, at least 6 of which must be in Classics (CLAS courses) [1]		12
Advanced Courses		
Select eight courses at the 3xx-level or above, of which four must be in Classics and one must be the following: [2]		24
CLAS409	Classics Capstone Seminar (to be taken in the junior or senior year)	
Total Credits		36

1. The introductory Latin or Greek sequence (LATN101, LATN102, LATN201 or GREK101, GREK102, GREK201), if taken at College Park, fulfills this requirement.
   If LATN120 and LATN201 are taken at College Park, only one additional course at the 1xx-2xx level is required. If no language is taken, four courses in English translation, including at least two in Classics, are required. Students who are capable of working at a higher level may request departmental approval to substitute 3xx or 4xx-level courses for some of the introductory credits.
2. As a special exception, either LATN201 or GREK201, intermediate Latin or Greek, may be counted as one of the advanced courses. Students are still required to fulfill the ARHU requirement of 45 3xx-4xx level credits.

Other Requirements for the Major

Students in the Classical Humanities track should work with their advisor to craft a meaningful set of courses with a focus on some particular aspect of the classical world, such as myth and religion, literature in its historical context, visual and material culture, or classical reception.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Classical Mythology Minor

Classics (CLAS)
1210 Marie Mount Hall
301-405-2022
www.classics.umd.edu (http://www.classics.umd.edu)

This minor will introduce students to classical mythology, its uses within ancient Greek and Roman culture, and its subsequent influence on art and literature. The minor requires 15 credits.

Students interested in pursuing this minor should consult with the undergraduate advisor in the Department of Classics.

Requirements

Course	Title	Credits
Required Courses		
CLAS170	Greek and Roman Mythology	3
CLAS470	Approaches to Greek Mythology	3
Select three courses of the following, two of which must be at the 3xx or 4xx level:		9
CLAS320	Women in Classical Antiquity	
CLAS330	Ancient Greek Religion: Gods, Myths, Temples	

CLAS331	Roman Religion: From Jupiter to Jesus	
CLAS374	Greek Tragedy in Translation	
CLAS419	The Classical Tradition	
Total Credits		15

No course grade below the grade of 'C-' may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation. For more information, see the Department of Classics website: www.classics.umd.edu (p. 10)

Greek Language and Culture Minor

Department of Classics
www.classics.umd.edu (http://www.classics.umd.edu)

This minor may be earned in either the ancient or the modern Greek language (not a combination). In completing it, the student will reach an intermediate or advanced level of proficiency in the language and will also be introduced to the history and culture of Greece.

To make an appointment to explore or declare the minor, contact the department chair, Dr. Lillian Doherty (ldoherty@umd.edu). She will put you in touch with the undergraduate director in Classics or with the instructor of Modern Greek, Dr. Polyvia Parara, for placement.

Requirements

REQUIREMENTS: a total of at least 15 credits, including:

• 9 to 15 credits in ancient OR modern Greek language courses (ALL must be in either ancient OR modern Greek, not a combination); at least one language course must be at the 300 or 400 level.

• 3 to 6 credits in courses taught in English focusing on ancient and/or modern Greek history, literature, and culture.

• At least 9 credits of the total must be at the 300 or 400 level.

The grade point average in the minor must be at least 2.0 and no grade below C- can be counted toward the minor.

Students are encouraged to include courses earned through study abroad that satisfy the requirements. A maximum of six credits earned at other institutions may be counted toward the minor. A maximum of six credits may be counted toward both the minor and the student's major.

Latin Language and Literature Minor

Department of Classics
www.classics.umd.edu (http://www.classics.umd.edu)

This minor introduces students to the Latin language and enables them to read, in Latin, important works of Latin literature.

Students interested in pursuing this minor should consult with the undergraduate advisor in the Department of Classics. The minor is valuable both for the intrinsic interest of the subject and for the related skills that contribute to higher scores on the GRE exam. Those who enjoyed Latin in high school are encouraged to continue their studies at Maryland.

Requirements

For students with no prior experience of Latin, the minor requires 21 credits, consisting of the following courses:

Course	Title	Credits
LATN101	Elementary Latin I	4
LATN102	Elementary Latin II	4
LATN201	Intermediate Latin	4
Select two 3xx level reading courses chosen from the following: Plautus, Petronius, Ovid or Horace and Catullus		6
Select a 4xx level reading course in a major Latin author		3
Total Credits		21

Students who enter with advanced standing in Latin can complete the minor by taking a total of five courses in Latin at the 2xx level and beyond.

Communication

College of Arts and Humanities
2130 Skinner Building
301-405-6519
commadvising@umd.edu
www.comm.umd.edu (http://www.comm.umd.edu)

Communication takes as its subject matter the history, processes, and effects of human communication through speech and its extensions. The departmental curriculum is designed to provide a liberal education in the arts and sciences of human communication as well as preparation for career opportunities in business, government, education, and related fields. Within the curriculum, students may pursue academic courses that emphasize many disciplinary areas, including organizational communication, public relations, intercultural communication, political communication, conflict management, cognition and persuasion, rhetorical theory, history of rhetoric, and criticism of public discourse.

Programs

Major

- Communication Major (p. 152)

Minor

- Rhetoric Minor (COMM) (p. 156)

Advising

Advising is available throughout the year in 2101D Skinner Building. Students should check Testudo (http://testudo.umd.edu/) for their registration date and for any mandatory advising blocks. Advising questions can be sent to commadvising@umd.edu or you may call 301-405-0862.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Academic Programs and Departmental Facilities

The Mark and Heather Rosenker Center for Political Communication and Civic Leadership unites research, education, and public engagement to foster democratic communication by a diverse people. See: www.comm.center.umd.edu (http://www.comm.center.umd.edu).

The Center for Health and Risk Communication (CHRC) advances dialogue and understanding about communication's role in controlling and preventing risk, how publics perceive risk communication, and about the political, economic, and social contexts for risk communication. Scholars associated with the CHRC examine health, food safety, security, and environmental risks. See: www.healthriskcenter.umd.edu (http://www.healthriskcenter.umd.edu).

The department's Oral Communication Center is designed to provide one-on-one tutoring and instructional support to further students' oral communication skills and confidence. The Oral Communication Center is equipped with cameras and recording equipment to tape speeches and presentations for practice and critique.

Undergraduate Research Experiences

Research experiences include assisting on faculty research projects, participating in special team research projects, and working with the department's Mark and Heather Rosenker Center for Political Communication and Civic Leadership and/or the Center for Health and Risk Communication.

Internships

The department's internship program helps communication majors gain professional experience, build a professional portfolio, and take the first steps toward a career. The department structures its internship program around a course, COMM386, which is offered each term.

Honors Program

The Honors Program provides students with an opportunity for intensive study of communication. The program provides participants with opportunities to deepen their understanding of the discipline through supervised research with faculty, graduate-level coursework, and involvement in the intellectual life of the department.

Students interested in the Honors Program apply for the program, ordinarily during the second semester of the sophomore year or the first semester of the junior year. The application is filed with the undergraduate director. Students should have the following qualifications:

- An overall GPA of 3.3 or above.
- Completion of nine semester hours in Communication including COMM250.
- GPA of 3.5 or above in Communication.

Student Societies and Professional Organizations

Social and academic activities are available to students by participating in the following student organizations: the Undergraduate Communication Association, the Lambda Pi Eta Honor Society, and the Maryland chapter of the Public Relations Student Society of America.

Scholarships and Financial Assistance

The department offers the Daniel Cronin Terpstart Endowed Scholarship in Communication; an annual, need-based scholarship awarded to undergraduate communication majors.

Communication Major

Communication takes as its subject matter the history, processes, and effects of human communication through speech and its extensions. The departmental curriculum is designed to provide a liberal education in the arts and sciences of human communication as well as preparation for career opportunities in business, government, education, law, and related fields. Students pursue academic programs that emphasize many disciplinary areas, including intercultural communication, political communication, public relations, negotiation and conflict management, cognition and persuasion, rhetorical theory, risk communication, history of rhetoric, and criticism of public discourse. Departmental advising is mandatory for new majors, second semester sophomores, and seniors.

Admission to the Major

First-time Freshman

All first-time freshmen who designate Communication as a major prior to the end of the final exam period of their first semester will be admitted directly to the program. They must sign a Memorandum of Understanding that states that they understand that by the semester in which they attain 45 University of Maryland credits (excluding AP), they must meet the following gateway requirements:

1. Complete one of the following courses with a grade of 'C-' or better: BMGT230, CCJS200, EDMS451, PSYC200, SOCY201, STAT100, or equivalent.
2. Complete COMM107, COMM200, or COMM230 with a grade of 'C-' or better
3. Complete COMM250 with a grade of 'C-' or better and
4. A GPA of 2.0 or better

Students may repeat only one of the gateway requirements and that requirement may be repeated only once in their attempt to meet the requirements. Students who fail to meet the gateway requirements by the semester in which they attain 45 credits will be dismissed from the program and cannot reapply.

Transfer Students

Internal and external transfer students who meet the gateway requirements specified above must also have a cumulative GPA of 2.70 in all college-level coursework to apply to the program.

Appeals

All students may appeal admission decisions. Students directly admitted as freshmen, who are dismissed because of failure to meet gateway requirements or a failure to be in good academic standing at 45 credits, may appeal directly to the undergraduate director in the Department of Communication. All other students who are denied admission may appeal to the university's Office of Undergraduate Admissions.

Program Learning Outcomes

Upon completion of the degree program in Communication, students should be able to demonstrate the following knowledge and skills:

1. An ability to distinguish among a variety of theoretical approaches in the communication discipline and use them appropriately and effectively in academic and professional work.
2. An ability to conduct research and write research reports employing social scientific and/or humanistic approaches in the communication discipline.
3. An ability to argue clearly and effectively in a speech.

Requirements

The course of study for a Communication major must satisfy all of the following requirements:

Course	Title	Credits
College Requirements (p. 134)		
Oral Communication		
Select one of the following:		3
COMM107	Oral Communication: Principles and Practices	
COMM200	Critical Thinking and Speaking	
COMM230	Argumentation and Debate	
Modes of Communication Inquiry		
COMM250	Introduction to Communication Inquiry	3
Fundamentals of Communication Skills		
COMM130	Professional Communication and Writing	1
Select one of the following:		3
BMGT230	Business Statistics	
STAT100	Elementary Statistics and Probability	
EDMS451	Introduction to Educational Statistics	
CCJS200	Statistics for Criminology and Criminal Justice	
PSYC200	Statistical Methods in Psychology	
SOCY201	Introductory Statistics for Sociology	
Select one of the following specializations:		36
Communication Studies		
Health and Science Communication		
Media and Digital Communication		
Political Communication and Public Advocacy		
Public Relations		
Total Credits		46

Communication Studies

Course	Title	Credits
Communication Theory & Principles

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Rhetoric Minor (COMM)

Department of Communication
Department of English
1128 Tawes Hall
301-405-3825

http://rhetoric.umd.edu

Conceived for undergraduates entering any discipline, field, or career, the vision behind the Rhetoric Minor is to provide students with ways of seeing the world as a place open to change and skills for acting on its possibilities.

The Rhetoric Minor is an interdisciplinary program supported jointly by the Department of Communication and the Department of English. The minor educates students to understand and analyze the history, theory, and criticism of civic discourse and cultural practices. Course offerings feature both applied and theoretical approaches. Knowledge and skills acquired through the minor empower graduates to engage with important social issues and take active leadership roles in their communities and careers.

ENTERING THE MINOR

The College of Arts and Humanities has established a maximum enrollment in the Rhetoric minor. Students wishing to pursue the minor should check the Arts and Humanities minor website: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/).

When enrollment in the minor is open, students should submit the online contact form (https://www.arhu.umd.edu/rhetoric (https://www.arhu.umd.edu/rhetoric/)) to initiate the process of meeting with an advisor and officially declaring the minor. University regulations specify that "to ensure appropriate academic advising, students who wish to pursue a minor should inform both the college responsible for their major and the unit offering the minor as early as possible, but in no case later than one full academic year before the expected date of graduation." We recommend you seek admission to the minor and receive advising within the first six credits of your minor.

Requirements

Fifteen semester hours of coursework are required:

Course	Title	Credits
Select six semester hours from the course list in Rhetorical Theory and Analysis of Discourse		6
Select six semester hours from the course list in Writing and Speaking Skills		6
Select three semester hours in electives from either section of the Rhetoric Course List		3
Total Credits		15

1. At least nine of the fifteen semester hours must at the 3xx-level or higher (including at least six hours at the University of Maryland, College Park)
2. No more than six of the fifteen semester hours may be taken at an institution other than the University of Maryland, College Park
3. No more than six of the fifteen semester hours may count toward the student's major and supporting courses
4. At least 3 semester hours must be taken in the English Department, and at least 3 semester hours must be taken from the Department of Communication
5. No course used to satisfy a Fundamental Studies requirement may count toward the minor
6. No course used to satisfy the requirements of another minor may count toward the rhetoric minor
7. No course grade below the grade of 'C-' may count toward the minor
8. An overall GPA of 2.0 in the minor is required for graduation

Advising

Rhetoric minors receive advising through the English Undergraduate Studies Office. Students are encouraged to communicate with an advisor at least once a semester to verify that all courses they hope to apply to the minor are eligible, to maintain a plan for all minor requirements to be fulfilled, to complete a senior-year audit of minor requirements, and/or to seek answers to other advising questions.

english@umd.edu
www.english.umd.edu (http://www.english.umd.edu)

Our graduates are creative thinkers and global visionaries who put their deep study of literature, writing, rhetoric, and media to work in a range of fields from education, politics, and law to publishing, marketing, and communications. Majors study independently and alongside intellectually and culturally diverse scholars and students to gather, analyze, and disseminate information that connects important civic and cultural topics of our past, present, and future. Students hone their critical and creative reasoning through their chosen specialization in literary and cultural studies; creative writing; media studies; or language, writing, and rhetoric. Our curriculum inspires flexibility and provides unparalleled opportunities to apply what you learn to internships with institutions in the Baltimore-Washington, D.C. area. Graduates develop the following abilities crucial to today's knowledge-based economy:

- Writing expertise in diverse genres relevant to literary, rhetorical, linguistic, and media inquiry
- Identifying and using relevant cultural historical information to situate creative and rhetorical texts in time, place, and tradition
- Selecting and analyzing appropriate information sources, both print and digital, to synthesize, integrate, and credit those sources in their own work
- Suitably analyzing underrepresented experiences and cultural diversity, including structural and institutional inequity, using texts

written by and about those culturally marginalized due to their race, ethnicity, gender, sexuality, class, and/or physical or mental ability.

Students also gain the following abilities in their selected major track:

- Producing close readings of texts that integrate terms and concepts related to literary expression and to literature's function as a historical and cultural force (Literary and Cultural Studies)
- Analyzing the relationship between language, thought, and communication and applying the power of language and other symbol systems to reach audiences and shape social realities (Language, Writing, and Rhetoric)
- Producing media analyses that integrate knowledge of how the material production, technologies, and cultural practices of diverse types of media shape meaning (Media Studies)
- Dexterity in one or more genres of creative writing and an understanding of the history and methods of craft (Creative Writing)

Comparative Literature Program (CMLT)

Courses in Comparative Literature offer students the opportunity to engage in literary and media studies outside of a single national or linguistic range. Students with an interest in multiple languages and cultures may develop their ability to contextualize different literary, media, and artistic traditions within a global rubric. Courses on Global Literature and Social Change, World Literature by Women, Black Diaspora Literature and Culture, Literature of the Americas, and Film Art in a Global Society, among others, cultivate a sense of the transnational nature of cultural production and consumption. Knowledge of a language other than English is not required.

Advising

Academic advising for English majors, English/Secondary Education double majors, Creative Writing minors, Professional Writing minors, and Rhetoric minors is available throughout the year in 1128 Tawes Hall. Departmental academic advising is mandatory for all English majors and English/Secondary Education double majors each semester. Students should check Testudo for their registration date and schedule an advising appointment for at least one week in advance of that date. Advising appointments can be made by calling 301-405-3825 or by visiting the English Undergraduate Studies Office in 1128 Tawes Hall.

To review the academic plans for the English major and English/Secondary Education double major, go to https://www.arhu.umd.edu/academics/advising/academic-plans (https://www.arhu.umd.edu/academics/advising/academic-plans/)

The University Career Center provides advising year-round via a full-time career advisor housed within the College of Arts and Humanities (ARHU). Each semester, both ARHU and the English Department host a variety of events aimed at assisting students in internship and career searches. Examples include resume workshops, networking events, industry-specific career panels, opportunities to intern for a day, and career fairs.

Additionally, the English Department offers an academic course, ENGL 497: English at Work, that helps English majors learn how to apply their academic knowledge and skills to the professional workplace after graduation.

Opportunities

Internships

The department sponsors numerous internships and also offers credit for outside pre-professional internships focused on writing, research, or media. Departmental internships include: Maryland General Assembly Internship, Dickinson Electronic Archives Digital Humanities Internship, Maryland Institute for Technology in the Humanities (MITH) Internship, Writing Center Internship, Undergraduate Teaching Assistants Internship, and English Communications Internship.

Honors Program

The English Honors Program offers lively and challenging seminars, the opportunity to complete a long-term project in an area of special interest, and an intellectual community resembling what one might find at a small liberal arts college. Students work closely with faculty mentors and peers, developing a senior project through both seminars and independent study. Interested students should ask for details from an English Department advisor as early as possible in their college careers. Applications are usually submitted in the fall of the third year. For information, contact the Honors Director, Peter Mallios: mallios@umd.edu (mallios@umd.edu?subject=English%20Honors%20Program).

Scholarships and Financial Assistance

The English department offers two scholarships, the Dawn M. Sisas Scholarship and the Kwiatek Scholarship. The Sisas Scholarship goes to an outstanding English major who attended Southern High School in Anne Arundel County. The Kwiatek Scholarship goes to several outstanding English majors each year to defray academic expenses, for instance, for a study abroad opportunity, an internship, or course tuition.

Beyond the English department, the Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The Writing Center

The Writing Center, 1205 Tawes Hall, 301-405-3785, provides free consultations to undergraduate students with writing assignments. In a supportive atmosphere, trained consultants from a variety of backgrounds and majors assist writers in-person and online throughout all stages of the composition process. The Writing Center also facilitates collaborations and workshops on topics related to writing and teaching writing. Appointments are recommended, but walk-ins are welcome based on the availability of tutors. Appointments can be made by visiting the Writing Center's website: www.english.umd.edu/academics/writingcenter (http://www.english.umd.edu/academics/writingcenter/). Students, faculty, and staff who have quick questions about punctuation,

sentence structure, word choice, or documentation may call the Writing Center's Grammar Hotline at 301-405-3785.

Awards and Recognition

Academic Excellence in English

The English Department Academic Excellence Awards are presented each term to students graduating in English with the most outstanding academic records in their major coursework. Winners receive a certificate and an autographed book written by a department faculty member.

Henrietta Spiegel Creative Writing Award

This award is bestowed each spring to honor undergraduate work in creative writing judged by the Creative Writing faculty to be the most outstanding. It is named for the oldest person ever to complete an undergraduate degree at the University of Maryland (B.A. in English, 1989, at age 92).

Joseph W. Houppert Memorial Prize

This prize, named for a distinguished member of the department who served from 1963 until his death in 1979, is awarded each spring to the undergraduate who has written the best essay on Shakespeare during the academic year.

Joyce Tayloe Horrell Award

This award, in memory of a master teacher in the English Department from 1960 to 1967, is conferred annually on the English major who has demonstrated the highest academic achievement among the graduating class.

Sandy Mack Award for Outstanding Work in English Honors

This prize, which is given each spring to the student with the most outstanding overall record in English Honors, is named for the faculty member who developed the English Honors Program and guided it for many years.

Sara Ann Soper Undergraduate Service Award

This award honors a graduating senior who has volunteered time, energy, and commitment to community service. It memorializes the mother of a 1989 English graduate, Shannon Altman, who endowed it.

Cinema and Media Studies Major (ENGL)

College of Arts and Humanities
3212 Jiménez Hall
301-405-4025
umdfilm@umd.edu
www.film.umd.edu (http://www.film.umd.edu)

Cinema and Media Studies is an interdisciplinary program in the humanities that enables students to explore an influential global art form in its aesthetic, cultural, economic, historical, and technological dimensions. The major takes a critical, textual approach to film, emphasizing scholarly viewing, interpreting, and writing about moving images. It provides students with a solid background in theoretical, critical, and aesthetic aspects of the study of film, including the history of the medium and the analysis of national cinemas, always keeping in view questions of how new media have changed both cinema itself and the study of cinema. The Cinema and Media Studies major brings together courses in cinema from varied nations, languages, and cultures and challenges students to understand the systems of transnational exchange that have characterized this medium from its inception.

Courses offered by this program may be found under the following acronyms: FILM, ENGL, SLLC.

Program Objectives

The major in Cinema and Media Studies teaches the fundamental skills required for a range of professional careers: critical thinking, historical awareness, research, information management, cogent development of ideas, and strong written and oral communication. Students will work toward competence in film analysis, critical viewing and writing, and visual literacy at a time when our culture is becoming increasingly dependent upon visual communication.

Program Learning Outcomes

1. Students will be able to analyze and interpret film aesthetics and technical structures of editing, cinematography, sound, and mise-en-scene.
2. Students will be able to identify and analyze diverse genres and movements in the history of film.
3. Students will be able to situate films produced in various parts of the world in relation to larger historical and cultural developments.
4. Students will understand the various uses of the moving image in its relation to the political, economic, and social history of the world over the past century.
5. Students will be able to conduct research in Cinema and Media Studies and to write persuasively.

Requirements

The Cinema and Media Studies major has four parts: a prerequisite course in Film Form (ENGL245/FILM245), a two-course Film History and Theory Foundation (FILM301 and FILM302), a six-course Film Criticism Core, and four Film Electives. The first two parts of the program assure that students have the necessary analytical tools and historical background to interpret diverse global cinematic traditions. The Film Criticism Core and Film Electives offer students the opportunity to explore genres, themes, and movements across different historical periods and to develop their skills in analysis, writing, and research.

General Policies

- The Cinema and Media Studies major requires 39 credits (13 courses).
- A grade of 'C-' or better is required in each of the courses making up the 39 credits of the major.
- Up to nine (9) credits may be taken at the 2xx-level.
- At least 6 of the 39 credits must be at the 4xx-level.

The Cinema and Media Studies major requires 39 credits, distributed as follows:

Course	Title	Credits
Film Form		
Select one of the following:		3
ENGL/FILM245	Film Form and Culture [1]	
SLLC/FILM283		
Equivalent by permission of department		

Film History and Theory Foundation [2]		
FILM301	Cinema History I: The Silent Era	3
FILM302	Cinema History II: The Sound Era	3
Film Criticism Core Requirement [3]		
Select one course in Film Theories		3
Select two courses in Genres/Auteurs/Movements		6
Select two courses in National and International Cinemas		6
Select one course in Documentary, Animation, Experimental Cinema or other Visual Media		3
Film Electives [4]		
Select an option:		12
Option One:		
Select two courses from the Film Criticism category, any rubric		
Select two courses from the Film Electives category		
Option Two:		
Select four courses in Film Electives that create a coherent emphasis [5]		
Total Credits		39

1 Fulfills Gen Ed req. in Humanities. Cinema and Media Studies majors must take FILM245/ENGL245 before they take other 3xx or 4xx-level Cinema and Media Studies courses. We recommend that it be taken no later than sophomore year.

2 Students may take the two courses in any order.

3 At least one course in this category must be taken at the 4xx-level. For a list of courses that will satisfy each sub-category, please see www.film.umd.edu/major/courses.html (http://www.film.umd.edu/major/courses.html).

4 Up to two courses in this category may be taken at the 2xx-level. At least one must be taken at the 4xx-level. Please consult the full list of courses accepted for the major: www.film.umd.edu/major/courses.html (http://www.film.umd.edu/major/courses.html).

5 The four courses should be selected in consultation with the Cinema and Media Studies Advisor to allow students to explore a specific area of interest or an area related to their future academic or professional plans.

Other Requirements for the Major

FILM245 is a prerequisite for many 3xx-level courses in the major. Students are advised to complete that course early in their academic careers. Successful completion of FILM245 allows students to proceed to two courses required for the major: FILM301 and FILM302.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Advising

Academic advising is available throughout the year. Departmental academic advising is mandatory for all Cinema and Media Studies majors before registration for classes. Students should check Testudo (http://testudo.umd.edu/) for their registration date and schedule an advising appointment for at least one week in advance of their date. Advising appointments can be made via email: filmadvising@umd.edu.

To review the academic plan for this major, go to www.arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Internships

Cinema and Media Studies offers students the opportunity to earn academic credit in connection with an internship, through FILM388 (Experiential Learning). Admission to FILM388 is by application only. See www.film.umd.edu (http://www.film.umd.edu) for more details.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Creative Writing Minor

Department of English
1128 Tawes Hall
(301) 405-3825
english@umd.edu
www.english.umd.edu (http://www.english.umd.edu)

The minor in Creative Writing offers students the opportunity to engage deeply with their own writing and that of their peers in a graduated series of workshops led by professional writers of poetry and prose.

To make an appointment to explore or declare a minor, go to https://www.arhu.umd.edu/academics/undergraduate-studies/minors (https://www.arhu.umd.edu/academics/undergraduate-studies/minors/) and complete a minor contact form, or contact the English Undergraduate Studies Office (1128 TWS, 301-405-3825).

Requirements

The minor in Creative Writing offers students the opportunity to engage deeply with their own writing and that of their peers in a graduated series of workshops led by professional writers of poetry and prose.

The Creative Writing minor's 15 credits consist of the following:

Course	Title	Credits
Select three credits at the 2xx-level of the following:		3
ENGL271	Writing Poems and Stories: An Introductory Workshop	
ENGL272	Writing Fiction: A Beginning Workshop	
ENGL273	Writing Poetry: A Beginning Workshop	

AASP/ ENGL274	Creative Writing Through The Eyes of African Americans: A Beginning Workshop	
Select one of the following:		3
ENGL352	Intermediate Fiction Workshop	
ENGL353	Intermediate Poetry Workshop	
Select two sections of the following:		6
ENGL498	Advanced Fiction Workshop	
ENGL499	Advanced Poetry Workshop	
Select three credits in any upper-level English Literature course		3
Total Credits		15

After admission to the minor, students choose to specialize in either prose (ENGL352, ENGL498) or poetry (ENGL353, ENGL499). Students admitted directly to a 3xx-level workshop must take three workshops (9 credits) at the 4xx-level.

No course grade below the grade of 'C-' may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

English Language and Literature Major

The English major includes five main elements, which are together designed to introduce students: (1) to the basic approaches for studying literature, rhetoric, and media; (2) to the structures and effects of the English language; and (3) to theories and practices of writing from the creative to the professional. The major offers students a foundation in multiple scales of history, from the local to the global, and in forms, methods, and writing—all with a sustained focus on civic and cultural engagement. Students also develop their own area of specialization, choosing from: literary and cultural studies; creative writing; media studies; or language, writing, and rhetoric. The major's flexibility lets students participate liberally in a wealth of experiential- or service-learning opportunities around the department, the university, and the D.C. metro area, as well as to pursue a sustained research or creative project as part of our English Honors Program. These elements and opportunities together allow students to prepare for careers in fields such as education, law, journalism, creative writing, communications, professional writing, game or film development, and information science. Courses offered by the English Department may be found under the acronyms ENGL and CMLT.

Program Learning Outcomes

Our English graduates develop the following abilities crucial to today's knowledge-based economy:

1. Writing expertise in diverse genres relevant to literary, rhetorical, linguistic, and media inquiry
2. Identifying and using relevant cultural historical information to situate creative and rhetorical texts in time, place, and tradition
3. Selecting and analyzing appropriate information sources, both print and digital, to synthesize, integrate, and credit those sources in their own work
4. Suitably analyzing underrepresented experiences and cultural diversity, including structural and institutional inequity, using texts written by and about those culturally marginalized due to their race, ethnicity, gender, sexuality, class, and/or physical or mental ability.
5. Producing close readings of texts that integrate terms and concepts related to literary expression and to literature's function as a historical and cultural force (Literary and Cultural Studies Track)
6. Analyzing the relationship between language, thought, and communication and apply the power of language and other symbol systems to reach audiences and shape social realities (Language, Writing, and Rhetoric Track)
7. Producing media analyses that integrate knowledge of how the material production, technologies, and cultural practices of diverse types of media shape meaning (Media Studies Track)
8. Dexterity in one or more genres of creative writing and an understanding of the history and methods of craft (Creative Writing Track)

English and English Education Double Major

In conjunction with the College of Education, the English Department offers a special 125-credit program for students wishing to double major in English and English Education, allowing them to earn a certificate to teach English at the secondary level. For a list of requirements, contact the English Undergraduate Studies Office (1128 TWS, 301-405-3825).

All courses presented for the major must be passed with a grade of 'C-' or better. An overall GPA of 2.0 in the major is required for graduation.

Requirements

1. The English major requires 36 credits beyond the university's Fundamental Studies requirements in ENGL101 and ENGL391, ENGL392, ENGL393, ENGL394, ENGL395. No more than two courses at the 1xx- or 2xx- level may be counted toward the major, and at least 12 credits must be at the 4xx-level.

2. A grade of C- or better is required to apply a course to the major. Students must maintain a minimum GPA of 2.0 within the major.

3. Up to six credits of ENGL388 (Internship) may be included in the 36 credits, but not all of those credits may come from the same version of ENGL388. In other words, students must enroll in two or more courses with different letter suffixes (e.g., 388W and 388V).

4. No more than three credits of ENGL429 (Independent Study) may be included in the 36 credits.

5. One 3xx- or 4xx- level course in literature, rhetoric, or media in a language other than English, whether in the original language or in translation, may count as an elective.

Course	Title	Credits
Element 1		
ENGL301	This is English: Fields and Methods [1]	3
Element 2: Historical Studies		**12**
All majors take one course in each of the following broad periods:		
Beginning, Medieval, and Early Modern		
Long Eighteenth Century		
Long Nineteenth Century		
Modern and Contemporary		
Element 3: Tracks		**12**

Majors select a track from among those listed below, and take four courses in that track. Restrictions: Courses must be taken at the 2xx-, 3xx-, and/or 4xx-levels. Students cannot overlap their track credits with credits applied to the Rhetoric or Professional Writing minors; students cannot pursue the Creative Writing track and also be a Creative Writing minor. If a course counts toward more than one requirement within a track, it may only be used to fulfill a single requirement.	
Element 4: Electives	**9**
Elective credits may be filled by any English department course or any approved course outside of the department.	
Element 5: Perspectives, Methods, and Writing	
This last element is a set of co-requirements, meaning that these should be fulfilled in the process of completing Elements 2-4 of the major and do not themselves add credits to the degree.	
Restriction: Students cannot count the same course for more than one of these co-requirements.	
Differences and Diasporas	
Methods (must be taken at the 2xx-, 3xx-, or 4xx- level)	
Advanced Writing (must be taken at the 3xx- or 4xx- level)	
Total Credits	36

[1] English majors must take ENGL301 before they take other 3xx or 4xx level English courses or concurrently with taking their first of those courses.

Tracks

Literary and Cultural Studies Track

Course	Title	Credits
Take one course on each of the following topics, leaving the remaining credits open for any literature course:		12
Form, Genres, and Poetics		
National, Transnational, and/or Global Literatures		
Total Credits		12

Language, Writing, and Rhetoric Track

Course	Title	Credits
Take one course on each of the following topics, leaving the remaining credits open for any language, writing, or rhetoric course:		12
History, Analysis, and Theory		
Practice, Performance, and Pedagogy		
Total Credits		12

Media Studies Track

Course	Title	Credits
Take one course in at least two of the following categories (two courses total), leaving the remaining credits open for any media course:		12
Print and Script		
Music and Sound		
Image and Moving Image		
Digital Cultures		
Total Credits		12

Creative Writing Track

Course	Title	Credits
Take one of each of the following course types, leaving the remaining credits open for any creative writing workshop course:		12
2xx-level Creative Writing Workshop		
3xx-level Creative Writing Workshop		
Creative Form and Theory		
Restriction: To enroll in a 3xx-level workshop, students must receive an A or A- in a 2xx-level workshop or must submit an acceptable portfolio of work to the Creative Writing faculty. Students may substitute one approved UMD workshop course taught outside of the English department for their 3xx-level creative writing workshop, but may not take a 4xx-level workshop in the English department without taking a 3xx-level workshop in the department. Students may only count a Creative Form and Theory course once toward their 12 credits for the track.		
Total Credits		12

Academic Benchmarks

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu (http://www.4yearplans.umd.edu). Students will be periodically reviewed to ensure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Professional Writing Minor

Department of English
1128 Tawes Hall
(301) 405-3825
english@umd.edu
www.english.umd.edu (http://www.english.umd.edu/)

For students who wish to specialize in public and professional writing as an area of expertise or who wish to communicate their discipline through writing, the Professional Writing minor offers opportunities to engage deeply with the theory and practice of writing, editing, and designing both print and digital documents for professional workplaces, civic organizations, and community deliberations. Students develop electronic portfolios throughout their minor coursework as a means to showcase their professional writing knowledge and skills. Writing-focused internships are encouraged, although not required, in the later stages of coursework.

Students must be accepted into the minor no later than the start of the semester before the semester in which they plan to graduate. To make an appointment to explore or declare a minor, go to https://

www.arhu.umd.edu/academics/undergraduate-studies/minors (https://www.arhu.umd.edu/academics/undergraduate-studies/minors/) and complete a minor contact form, or contact the English Undergraduate Studies Office (1128 TWS, 301-405-3825). You may also contact pwminor@umd.edu for additional information.

Requirements

Successful completion of the Professional Writing minor requires the following:

Course	Title	Credits
Coursework		
ENGL297	Introduction to Professional Writing	3
Approved courses (at least nine credits at the 3xx- or 4xx-level and three credits at the 4xx-level) [1]		12
Professional Writing Portfolio		
Submission of an electronic professional writing portfolio is required [2]		
Total Credits		15

[1] See http://www.english.umd.edu/minor-pw (http://www.english.umd.edu/minor-pw/) for an up-to-date list of approved courses.

[2] Successful completion of the Professional Writing minor also requires the submission of a writing portfolio during a student's final semester. This portfolio must be submitted electronically to the minor advisor at pwminor@umd.edu by November 1 for fall semester graduation, April 1 for spring semester graduation, or August 1 for summer graduation. The electronic portfolio must contain, at a minimum, the following material:

1. A welcome page
2. Six finished, polished texts written by the student in Professional Writing minor courses; and
3. A reflective essay that analyzes how these documents demonstrate the student's achievement of the minor's learning outcomes.

The minor advisor will confirm that each portfolio meets these minimum requirements.

Notes:

1. Credit toward the minor will be granted for only one of these two courses: ENGL281 or ENGL384.
2. Students cannot count toward the Professional Writing minor the PWP course that they take to fulfill the Fundamental Studies Professional Writing requirement for the University of Maryland General Education Program. Only a second PWP course can be used to fulfill the Professional Writing minor requirement. Advisors will encourage students to select a second PWP course only if it complements the students' academic or professional goals.
3. Students may satisfy up to three credits of the nine-credit 3xx- or 4xx-level coursework requirement through documented writing-intensive internship experience. The internship must be approved by the Professional Writing minor advisor in order to have these three credits count toward their minor.
4. Following university policy, English majors may count two Professional Writing minor courses toward both the requirements for the English major and the Professional Writing minor.
5. Students must be accepted into the minor no later than the start of the semester before the semester in which they plan to graduate.
6. All courses presented for the minor must be passed with a grade of 'C-' or better.
7. An overall GPA of 2.0 in the minor is required for graduation.

Rhetoric Minor (ENGL)

Department of Communication
Department of English
1128 Tawes Hall
301-405-3825
http://rhetoric.umd.edu

Conceived for undergraduates entering any discipline, field, or career, the vision behind the Rhetoric Minor is to provide students with ways of seeing the world as a place open to change and skills for acting on its possibilities.

The Rhetoric Minor is an interdisciplinary program supported jointly by the Department of Communication and the Department of English. The minor educates students to understand and analyze the history, theory, and criticism of civic discourse and cultural practices. Course offerings feature both applied and theoretical approaches. Knowledge and skills acquired through the minor empower graduates to engage with important social issues and take active leadership roles in their communities and careers.

ENTERING THE MINOR

The College of Arts and Humanities has established a maximum enrollment in the Rhetoric minor. Students wishing to pursue the minor should check the Arts and Humanities minor website: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/).

When enrollment in the minor is open, students should submit the online contact form (https://www.arhu.umd.edu/rhetoric (https://www.arhu.umd.edu/rhetoric/)) to initiate the process of meeting with an advisor and officially declaring the minor. University regulations specify that "to ensure appropriate academic advising, students who wish to pursue a minor should inform both the college responsible for their major and the unit offering the minor as early as possible, but in no case later than one full academic year before the expected date of graduation." We recommend you seek admission to the minor and receive advising within the first six credits of your minor.

Requirements

Fifteen semester hours of coursework are required:

Course	Title	Credits
Select six semester hours from the course list in Rhetorical Theory and Analysis of Discourse		6
Select six semester hours from the course list in Writing and Speaking Skills		6
Select three semester hours in electives from either section of the Rhetoric Course List		3
Total Credits		15

1. At least nine of the fifteen semester hours must at the 3xx-level or higher (including at least six hours at the University of Maryland, College Park)
2. No more than six of the fifteen semester hours may be taken at an institution other than the University of Maryland, College Park
3. No more than six of the fifteen semester hours may count toward the student's major and supporting courses
4. At least 3 semester hours must be taken in the English Department, and at least 3 semester hours must be taken from the Department of Communication
5. No course used to satisfy a Fundamental Studies requirement may count toward the minor
6. No course used to satisfy the requirements of another minor may count toward the rhetoric minor
7. No course grade below the grade of 'C-' may count toward the minor
8. An overall GPA of 2.0 in the minor is required for graduation

Advising

Rhetoric minors receive advising through the English Undergraduate Studies Office. Students are encouraged to communicate with an advisor at least once a semester to verify that all courses they hope to apply to the minor are eligible, to maintain a plan for all minor requirements to be fulfilled, to complete a senior-year audit of minor requirements, and/or to seek answers to other advising questions.

History

College of Arts and Humanities
2115 Francis Scott Key Hall
301-405-4265
www.history.umd.edu (http://www.history.umd.edu)

As historians, we take pleasure in the difficulty of our profession. Our gaze falls upon the entire sweep of human experience, and our subject humankind, is the most perplexing of all. As a consequence, the history department in a large American university can often seem to outsiders like a Tower of Babel, or the proverbial Ship of Fools, a place where a variety of approaches, fields of study, and scholarly voices collide. Certainly, this is the case at the University of Maryland. Here in College Park in a single hallway, one can find a specialist in the history of slavery in the U.S. working alongside an environmental historian whose studies have examined the development of the German Autobahn, or a film historian who has explored the rise of modernism in the American cinema. Walking a little farther along this same corridor, one discovers specialists in sixteenth-century Venice, the American Revolution, women's history, the Progressive Era, American legal history, Medieval Iberia, the Atlantic world, African colonialism, Habsburg Vienna, Jewish history, early and medieval Islam, Sufism, the Ottomans, the Modern Middle East and North Africa, Central Asia and Soviet Russia, ancient Rome, and more.

Programs

Majors

Advising

Academic advising is available daily on a walk-in basis in the History Undergraduate Advising Office, 2131C Key Hall. Check the department website for current schedule or contact historyadvising@umd.edu for more information.

To review the academic plan for this major, go to http://www.arhu.umd.edu/undergraduate/advising/academicplans (http://www.arhu.umd.edu/undergraduate/advising/academicplans/)

Opportunities

Internships

Juniors and seniors may take up to 6 hours of credit in historically-related internships, of which three hours may be counted toward the 39 hours in history required for graduation. All internships must have a direct relationship to the work of understanding, interpreting, presenting or preserving history and/or historical evidence. Students must have both a site supervisor at the place of the internship and a history faculty mentor for their internship project. Student internships must be approved by the History Department internship coordinator. Internships are generally only open to students who have an overall GPA of 2.5 or better.

Honors Program

The purpose of the Honors Program in History is to allow promising undergraduates to develop historical and historiographical skills, in an atmosphere that guarantees personal attention and that encourages hard work and excellence. The program is a four-semester sequence, the culmination of which is a senior thesis--a major research paper written under the close supervision of a faculty mentor. There are two phases to the program: in the junior year, students are introduced to the problems of history-writing at a sophisticated level, via two seminars on problems of historiography; in the senior year they complete two supervised courses in the writing of the senior thesis.

Student Societies and Professional Organizations

History majors and other interested students are encouraged to join the History Undergraduate Association (HUA), which sponsors events such as an annual Film Festival and special seminars and activities. History majors edit and publish a web-based journal, *Janus: The University of Maryland Undergraduate History Journal*, which features student writing relevant to history. *Janus* also sponsors an annual conference where undergraduates present their research and are awarded prizes. The department also hosts the Beta-Omega chapter of Phi Alpha Theta, the national history honors society. Information on these organizations can be obtained from the History Undergraduate Office, 2131 Francis Scott Key Hall.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Central European, Russian and Eurasian Studies Major

College of Arts and Humanities
2115 Francis Scott Key Hall
301-405-4284
dolbilov@umd.edu
www.ceres.umd.edu (http://www.ceres.umd.edu/)

The CERES program fosters in-depth knowledge of the region stretching from Prague in the West to Vladivostok in the East. This includes three main areas: Central and Eastern Europe, Russia, and Eurasia (the newly independent states of the former Soviet Union). Our majors prepare for careers and graduate programs in which an in-depth knowledge of Russia, Central Europe, and Eurasia can be applied with great benefit, such as journalism, government service, diplomacy, business, a variety of professional schools, and M.A. and Ph.D. programs in the humanities and social sciences. Our majors take courses in a range of different departments, gaining a firm grounding in the languages, literatures, history, politics, and economics of their area of study. They have the flexibility to do coursework in other fields related to the area as well. Students learn to examine our area of study with the tools of many scholarly fields. Courses that count toward this major may be found under the following acronyms: ARTH, ECON, GEOG, GERM, GVPT, HIST, PHIL, RUSS, SOCY, THET.

ADMISSION TO THE MAJOR

Admission is open to all interested students but should be approved in a meeting with the Director.

PLACEMENT IN COURSES

Placement in language courses is determined by the advisor for a given language. Before you enroll in a Russian or German language class, you must take the on-line 'Foreign Language Placement Assessment': https://www.arhu.umd.edu/undergraduate/flpa (https://www.arhu.umd.edu/undergraduate/flpa/). However, final placement into the correct level will be determined by the advisor for the language you wish to study.

Program Objectives

The program strives to promote interdisciplinary and comparative approaches to studying the languages, history and culture across the vast region of the former Soviet Union and Eastern and Central Europe.

Program Learning Outcomes

Having completed the multi-disciplinary degree program, students are expected to attain the following learning outcomes:

1. Students will demonstrate the ability to communicate effectively in writing in either Russian, German, or a Central/East European language (including Czech, Polish, Hungarian, Serbian and Croatian, Bulgarian, and Romanian); or in a Eurasian language (i.e., a language from a country formerly part of the Soviet Union).
2. Students will demonstrate the ability to conduct research using primary and secondary sources including archival, print and non-print, and web-based texts.
3. Students will demonstrate the ability to apply knowledge and skills from various relevant disciplines, such as history, literary scholarship, sociology, religion studies, and political science, to understanding the area's historical and contemporary complexity.

Requirements

Requirements for the CERES major include the College of Arts and Humanities' mandated completion of 45 3xx or 4xx-level credits. The College's Global Engagement Requirement will be automatically fulfilled in the process of fulfilling the CERES requirement of taking either Russian, German, or a Central/East European language (including Czech, Polish, Hungarian, Serbian and Croatian, Bulgarian, and Romanian). The language requirement may also be fulfilled by a Eurasian language (i.e., a language from a country formerly part of the Soviet Union). Those interested in fulfilling the CERES language requirement through a Central/East European or Eurasian language should consult the director upon entering the program.

Course	Title	Credits
College Requirements (p. 134)		
Select a Language Track:		24
	Russian	
	German	
	Central/East European language	
Select 24 hours of CERES approved courses at the 3xx - level or above [1]		24
Total Credits		48

[1] These 24 hours must be taken in at least four different departments (with the School of Languages, Literatures and Cultures counting as a single department), and may include language-literature courses beyond the required 24 hours. Of the 24 hours, at least 9 hours must be in courses with substantial or specific focus on Central/East Europe (for example, ARTH350 or ARTH488C, GVPT359, GVPT409, HIST319, HIST340, HIST443 and other special courses offered in the CERES area with the approval of the director) and at least 9 hours must be in those CERES courses with substantial or specific Russian/Eurasian focus (for example,GEOG325, GVPT445, GVPT451, GVPT459A, GVPT481, HIST344, HIST424, HIST425, HIST442, SOCY474, THET499, and other special courses offered in the CERES area with the approval of the director).

For a full listing of this year's CERES courses, see the website www.ceres.umd.edu (http://www.ceres.umd.edu), and click on 'Requirements.'

The various cooperating departments also offer special (i.e. non-permanent) seminars and courses in the Russian, East European, and Eurasian fields. HIST237 is recommended as a general introduction to the program but does not count toward the fulfillment of the program's requirements.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Russian Language Track

Students who elect the Russian language track must complete a minimum of 24 credit hours in Russian language and literature selected from among the following courses (or their equivalents):

Course	Title	Credits
RUSS101	Intensive Elementary Russian I	6
RUSS102	Intensive Elementary Russian II	6
RUSS201	Intermediate Russian I	5
RUSS202	Intermediate Russian II	5
RUSS301	Advanced Russian I	3
RUSS302	Advanced Russian II	3
RUSS303	Russian Conversation: Functional Skills	3
RUSS321	Survey of Russian Literature I	3
RUSS322	Survey of Russian Literature II	3
RUSS401	Advanced Russian Composition	3
RUSS402	Practicum in Written Russian	3
RUSS403	Russian Conversation: Advanced Skills	3
RUSS404		3
Total Credits		49

German Language Track

Students interested in specializing primarily on Central/Eastern Europe may opt for the German language track, and must complete a minimum of 24 credit hours in the Department of Germanic Studies from among the following courses (or their equivalents):

Course	Title	Credits
GERM103	Intensive Elementary German	4
GERM203	Intensive Intermediate German	4
GERM301	Conversation and Composition I: The German-Speaking World	3
GERM302	Conversation and Composition II: Current Topics in German-Speaking Society	3

Central/East European Language Track

- Also accepted will be 16 credit hours of Russian or German and the equivalent of 8 credit hours of a Central/East European language.
- Fulfilling the language requirement through a Eurasian language will be decided on a case-by-case basis in consultation with the director.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Advising

Course selection and progress toward programmatic requirements are to be discussed individually through meetings with the CERES director.

Opportunities

Undergraduate Research Experiences

Students are encouraged to pursue research, internship and study abroad experiences. Such opportunities should be discussed individually with the Director.

Internships

Students are encouraged to seek off-campus internships that may be available in the greater DCBaltimore area. Earning academic credit for such experiences should be discussed individually with the Director.

Student Societies and Professional Organizations

CERES majors are eligible for nomination to national honor societies related to their studies, including Dobro Slovo, the National Slavic Honor Society.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu)

East Asian Studies Certificate (HIST)

College of Arts and Humanities
2106D Jimenez Hall
301-405-0038
ly@umd.edu
http://www.ceas.umd.edu/#certificate

The Undergraduate Certificate in East Asian Studies is a 24-credit course of instruction designed to provide specialized knowledge of the cultures, histories, and contemporary concerns of the peoples of China, Japan, and Korea. It will complement and enrich a student's major. The curriculum focuses on language instruction, civilization courses, and electives in several departments and programs of the university. It is designed specifically for students who wish to expand their knowledge of East Asia and demonstrate to prospective employers, the public, and graduate and

professional schools a special competence and set of skills in East Asian affairs.

Upon satisfactory completion of the courses, with a grade of 'C-' or better in each course, and recommendation by the Coordinator of the Certificate Program, a certificate will be awarded. Beginning with Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements. A notation of the award of the certificate will be included on the student's transcript. The student must have a bachelor's degree awarded by Maryland (must be College Park campus) previous to or simultaneously with an award of the certificate.

CORE VALUES OF THE PROGRAM

- Vision: See the U.S. and East Asia as parts of one globalized world with cultural varieties.
- Knowledge: Acquire language skills, spatial and chronological thinking skills, and creative prowess through interdisciplinary study.
- Integrity: Adhere to the University's Code of Academic Integrity and professional ethics.

The Certificate will equip students to develop successful careers through teaching excellence and study abroad programs.

Interested students should contact the Coordinator of the Certificate Program, Dr. Lindsay A. Yotsukura, Department of East Asian Languages and Cultures, 2106D Jimenez Hall, ly@umd.edu (website at http://www.ceas.umd.edu/#certificate).

Requirements

Course	Title	Credits
HIST284	East Asian Civilization I	3
HIST285	East Asian Civilization II	3
Six semester hours of introduction to one of the following East Asian languages: [1]		6
CHINESE:	CHIN101	
JAPANESE:	JAPN101	
KOREAN:	Elementary Korean (KORA101 & KORA102)	
Complete at least 12 hours of electives selected from four regular approved courses on East Asia in such disciplines as:		12
Art History		
Business		
Ethnomusicology		
Government and Politics		
History		
Language, Linguistics, and Literature		
Music		
Plant Science and Landscape Architecture		
Sociology		
Women's Studies		
Total Credits		24

[1] Students with language competence equivalent to these language courses are exempted from the language requirement; such students are required to complete an additional six hours of electives in East Asian courses to fulfill the 24-credit requirement for the certificate.

Additional Requirements

- An overall GPA of 2.0 in the certificate is required for graduation.
- Nine of the 12 hours of electives must be upper division (3xx-4xx level courses).
- A maximum of three credit hours of special topics courses on East Asia will be allowed with the approval of the certificate coordinator.
- No more than nine credits from any one department or from the student's major may be applied toward the certificate.
- No more than nine credits of the courses applied toward the certificate may be transferred from other institutions.
- Students are asked to work with the coordinator in ensuring that the electives maintain an intercollegiate and interdisciplinary focus (at least three disciplines are recommended), as well as a regional distribution to reflect the countries of East Asia. Ideally, students will select electives that, taken together, include China, Japan, and Korea.

History Major

The Department of History seeks to broaden the student's cultural background through the study of history and to provide preparation for those interested in publishing, teaching, museum work, law, journalism, civil service, military, archival and library work, diplomacy, business school, and graduate study.

Undergraduate advisors assist each major in planning a curriculum to meet his or her personal interests. We expect students to meet with a history undergraduate advisor once every semester.

Courses offered by the Department of History may be found under the acronym HIST.

Program Learning Outcomes

1. Students will be able to distinguish among a variety of genres of primary and secondary historical texts (e.g. documents, monographs, letters, novels, film, political cartoons, essays) and use them appropriately and effectively in academic work.
2. Students will demonstrate the ability to conduct research using primary and secondary sources including archival, print and non-print, and web-based texts.
3. Students will demonstrate the ability to define and defend a historical thesis.

Requirements

Requirements for the History major are 39 hours of history course work distributed as follows: 12 hours in 1xx or 2xx-level introductory courses selected from at least two general geographical fields of history and including HIST208; 15 hours in one major field of specialization (see below); nine hours of history in at least two major areas other than the field of specialization; HIST408. All courses for the major must be completed with a minimum grade of 'C-', and 21 hours of the 39 total hours must be at the junior-senior (3xx or 4xx) level. An overall GPA of 2.0 in the major is required for graduation.

At least one course (three credits), must be taken from an approved list of courses on regions outside both Europe and the U.S. The list may be obtained from the History Undergraduate Advisor's Office.

AP and IB credits are accepted.

Course	Title	Credits
College Requirements (p. 134)		
Introductory Courses		
HIST208	Historical Research and Methods Seminar	3
Select at least one course in two geographical fields at the 1xx or 2xx-level [1]		9
Major Field of Specialization		
Select a field of specialization from the following:		15
Geographic		
Thematic		
Select nine hours of History in at least two fields outside the Field of Specialization [2]		9
Capstone		
HIST408	Senior Seminar [3]	3
Supporting Courses Outside History		
Select 9 credits at the 3xx or 4xx - level in appropriate supporting courses [4]		9
Total Credits		48

[1] In considering courses that will fulfill this requirement, students are encouraged to:
- select at least two courses in a sequence
- select at least one course before 1500 and one course after 1500
- sample both regional and topical course offerings. Students will normally take one or more introductory courses within their major field of specialization

[2]
1. Students are encouraged to select mainly 3xx or 4xx-level courses.
2. Students are encouraged to consider regional diversity.

[3] Will be taken in the senior year and may be inside or outside the field of specialization.

[4] To be taken at the 3xx or 4xx-level in appropriate supporting courses; the courses do not all have to be in the same department. Supporting courses should study some aspect of culture and society as taught by other disciplines. A minimum grade of 'C-' is required.

Major field of Specialization

Students may choose a field of specialization that is either geographic or thematic:

- ***Geographic:*** Africa and the African Diaspora; Europe, Britain, and Russia; Global Interaction and Exchange; Latin America and the Caribbean; North Africa, Middle East, and Central Asia; South and East Asia; United States
- ***Thematic:*** Cultural and Intellectual History; Economies, Labor, and Capitalism; Empires and Colonialism; Social Change and Social Movements; Politics, Law, and Government; Race and Ethnicity; Religion and Society; Science, Technology, Medicine, and the Environment; War, Peace, and Society; Women, Gender, and Sexuality; Individualized Pathway

Other Requirements for the Major

HIST208 is a prerequisite for HIST408.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

History Minor

History (HIST)
2115 Francis Scott Key Hall
301-405-4265
http://history.umd.edu/undergraduate/current-students/historyminor (http://history.umd.edu/undergraduate/current-students/historyminor/)

The History Minor is designed to introduce students to the broad field of historical study, both by deepening their knowledge and understanding of the past and by developing their ability to do critical, historically-minded analysis. In working with both primary and secondary texts, students will hone their skills in research methods, critical thinking, and expository/analytical writing. The requirement that courses are distributed across geographic fields and chronological periods ensures that students consider the variety and range of historical experiences. History courses must be completed with a grade of C- or better to count toward the minor. Additionally, a minimum GPA of 2.0 is required across all courses counted toward the minor.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/undergraduate/academics/minors (http://www.arhu.umd.edu/undergraduate/academics/minors/)

Requirements

Participating students must complete 18 credits (6 courses) in History.

- The courses must be distributed in at least 2 geographic fields (Asia, Europe, United States, Middle East, etc.).
- The courses must include at least one course in each of two chronological periods (pre-1750/post-1750).
- A minimum of 9 credits (3 courses) must be taken at the 3xx or 4xx-level.
- No more than 3 credits (1 course) may be taken at the 1xx-level.
- No more than 3 credits (1 course) may be fulfilled by AP, IB, or transfer credit.
- A student may use a maximum of 6 credits (2 courses) to satisfy requirements for both a major and a minor. Courses completed for one minor may not be used to satisfy the requirements for another minor.
- Any student is eligible to pursue the minor, with the exception of a student majoring in History.

Middle East Studies Minor

History (HIST)
2115 Francis Scott Key Hall
301-405-4265

http://history.umd.edu/undergraduate/programs/middleeast (http://history.umd.edu/undergraduate/programs/middleeast/)

The Middle East Studies Minor (MESM) introduces students to the history, culture, and politics of the Middle East since the emergence of Islam. MESM balances coursework in the contemporary period with exposure to the pre-twentieth-century political, intellectual, and religious experience of the region, its ethnic and religious make-up, and the rich culture that these together engendered.

Director: Shay Hazkani
hazkani@umd.edu
301-405-3693

Advisor: mideaststudies@umd.edu
301-405-4306
3107 Taliaferro Hall (http://www.umd.edu/CampusMaps/bld_detail.cfm?bld_code=TLF/)

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

The Minor in Middle Eastern Studies requires 15-18 credits (5 courses; some language courses carry more than 3 credit hours per course). Coursework must be distributed to meet the overlapping requirements below. (For example, HIST120: Islamic Civilization can be used to meet both the pre-modern requirement and the Arab world requirement, but does not count doubly in terms of credit.)

Course	Title	Credits
Area Distribution		
Select at least one course in each of two of the following Area categories: [1]		6
The Arab world		
Iran and the Persian/Iranian world		
(Middle Eastern) Jewish and Israel		
Turkish and Ottoman		
Middle Eastern Diasporas and All Middle East		
Pre-Modern		
Select at least two courses that focus on the pre-modern period (the 7th century through the 19th century) [2]		6
Electives		
Select one course from the list of approved Middle East Studies courses [3]		3
Total Credits		15

1. Other areas of concentration may be considered and require the director's approval.
2. Students may fulfill this requirement through their area distribution or elective courses.
3. A language course of 3 or more credits may be used to satisfy this requirement. Advanced Arabic, Persian, Hebrew, or Turkish language courses that are content courses rather than grammar-based can be used for the Elective category or count toward Area Distribution and/or Pre-Modern, depending on subject matter.

Additional Requirements

- A minimum of 3 courses (9 credits) must be at the upper level (3xx- or 4xx-level).
- All credits must be earned with a grade of 'C-' or above (no Pass/Fail option).
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the academic advisor of the minor and on MESM's webpage.
- Only one 1xx or 2xx-level or grammar based course in Arabic, Hebrew, Persian, or Turkish may be credited toward the Minor.
- At least six credits of 3xx or 4xx-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- A maximum of two courses can count towards both the major and the minor.
- Courses cannot count towards multiple minors.

Jewish Studies

College of Arts and Humanities
4141 Susquehanna Hall
301-405-4975
jwst-contact@umd.edu
www.jewishstudies.umd.edu (http://www.jewishstudies.umd.edu)

The Meyerhoff Center for Jewish Studies offers many opportunities for student engagement with Jewish Studies and related fields. Every year, the center and its programs offer more than 1,500 seats in Jewish Studies, Israel Studies, Religious Studies, and Hebrew. A very few courses are large lecture classes with 100 students or more, while most are much smaller, and we especially value intensive language and seminar classes. For students seeking more than a course or two the center has several academic programs:

- Major in Jewish Studies
- Major in Religions of the Ancient Middle East
- Minor in Jewish Studies
- Minor in Israel Studies
- Minor in Religious Studies
- Minor in Hebrew Studies

In addition, we work closely with faculty in History, English, the School of Languages Literatures and Cultures, and Middle East Studies.

Programs

Major

- Jewish Studies Major (p. 171)
- Religions of the Ancient Middle East Major (p. 175)

Minors

- Hebrew Studies Minor (JWST) (p. 172)
- Israel Studies Minor (p. 173)
- Jewish Studies Minor (p. 174)
- Religious Studies Minor (p. 176)

Advising

Majors in Jewish Studies have mandatory advising every semester. They must meet with the advisor before being allowed to register for classes for the next semester. You can reach the Jewish Studies advisor at jwst-advise@umd.edu.

Please note that Jewish Studies majors must also meet with a College of Arts and Humanities advisor.

- During their first semester
- When they complete 45-55 credits
- When they complete 86-100 credits

Students who wish to minor in Jewish Studies must meet with the advisor at least once, mainly to declare the minor.

What To Expect From Advising

During advising meetings, the advisor will chart a student's progress through the major or minor. The kinds of questions that the advisor will ask include "what courses are you taking," "what courses do you intend to take?," "are you interested in studying abroad?," and "how are you doing in your classes?"

The advisor will make notes and go through the Major or Minor Advising Form to ensure that the student understands the major's or minor's requirements, what courses to take, and when to take them. Every student will get a copy of his or her Major or Minor Advising Form at the end of each meeting for his or her own records.

Note that students who have not yet declared Jewish Studies as their major must meet with the Jewish Studies advisor and then meet with an ARHU advisor. During this first meeting with the Jewish Studies advisor, the student will learn about the Four-Year Plan, which is a schedule of classes developed by ARHU and Jewish Studies for the typical Jewish Studies major to follow. It outlines which courses should be taken during which semesters.

To review the academic plan for this major, go to https://www.arhu.umd.edu/academics/advising/academic-plans

What To Bring To An Advising Meeting

When students come to a meeting with the Jewish Studies advisor, they should bring a list of courses they are thinking about taking, as well as any other requirements they need to fulfill for another major or minor.

Other documents, such as the requirements for another major or minor, descriptions of courses taken abroad, and previous Major or Minor Advising Forms, are also helpful to bring.

Opportunities

Honors Program

The Honors Program in Jewish Studies is designed to encourage Jewish Studies majors with excellent grades and strong academic interests to pursue an individual research project of their own design, in consultation with and under the direction of a faculty advisor. The Program consists of twelve credits taken in a student's Junior and Senior years, culminating in the writing of an honors thesis. Students who complete the Honors Program are deemed to have completed the research seminar requirement for the major, typically completed through JWST409.

Junior Year: Students apply for admission to the Honors Program in the Fall of their Junior year, and, upon admission, enroll in the Honors Seminar (JWST408) (3 credits) in the Spring of their Junior year. During this time students are expected to develop a general research plan to be approved by the prospective thesis advisor. Thesis advisors will generally belong to the regular or affiliate Jewish Studies faculty. Other faculty may serve as thesis advisor with the written permission of the Director of Undergraduate Studies.

Senior Year: In the Fall of their Senior year students select an upper-level course (3 credits) closely related to their research agenda in consultation with the advisor. This may include a regularly offered undergraduate course, independent study, in which case students are encouraged to apply for an Honors Option for that particular course. In addition, students may request permission to enroll in a graduate-level course to complete this part of their requirement. Students who enter the Honors Program with a clearly defined research interest may complete this requirement in their Junior year.

In addition, students take 6 credits of JWST418: Honors Thesis Research, under the direction of their thesis advisor. Typically these will be divided between the Fall and Spring semesters. Students are expected to work out with their advisors clear goals that contribute to the thesis as a whole for each semester of thesis research, and will be graded each semester on the basis of having met those goals. In the second semester, the principal goal will be the completed thesis.

Student Societies and Professional Organizations

Tzabim (Turtles) -- The Jewish Studies Student Organization

The goal of the Jewish Studies Student Organization (Tzabim) is to provide non-curricular support for Jewish Studies majors and minors. Such support includes career guidance, cohort development, networking activities, social events, and other programs designed by the UJSO's members. Led by members, Tzabim responds to students' needs that extend beyond the curricula of the Jewish Studies Program.

All Jewish Studies majors and minors, as well as other students interested in Jewish Studies, are encouraged to attend meetings and get involved.

Scholarships and Financial Assistance

The Joseph and Rebecca Meyerhoff Center and Program for Jewish Studies offers scholarships for study abroad and special domestic study programs that have a clear relationship to Jewish Studies. Students wishing to study in Israel are especially encouraged to apply. Applications for scholarships are accepted once in the Fall and once in the Spring. Specific deadlines, as well as the application form, can be found at www.jewishstudies.umd.edu/scholarships (http://www.jewishstudies.umd.edu/scholarships/). For more information, please call the Center at 301-405-4975.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

STUDY ABROAD

The Jewish Studies program encourages students to study internationally. In addition to programs run by the University, students study at academic programs in Israel, Europe, and elsewhere. In particular, majors studying in Israel gain the opportunity to improve their Hebrew language skills by taking ulpan, the intensive course in Hebrew offered at those universities, and by practicing their Hebrew with Israelis. In addition, students can take courses in Israeli society and politics, Middle East Studies, and other courses not usually offered at College Park. Scholarship funds are available to majors and non-majors. Please see the section on 'Scholarships and Financial Assistance' for more information.

THE LIBRARY

The Jewish Studies program has a large and growing Judaica collection at the University of Maryland Libraries that aims to become a major resource and repository for the entire area. The collection includes materials in Jewish history, Hebrew and Yiddish literature, the Bible, Talmud, medieval philosophy, Jewish women, theater, the Holocaust, and modern Israel. In addition to scholarly books and periodicals written in the English, German, Hebrew, Yiddish, Ladino, Arabic, French, Italian, and Slavic languages, the collection includes rare books, musical scores, video and audio recordings, facsimile copies of historical documents, and manuscripts. Students may work with Dr. Yelena Luckert, the Judaica Librarian, on their projects and assignments.

ISRAEL STUDIES

The Joseph and Alma Gildenhorn Institute for Israel Studies offers a wide array of lectures, programs, courses, and study abroad opportunities, as well as an academic minor. Jewish Studies majors and minors, as well as other students in the university, can benefit from these programs.

RELIGIOUS STUDIES

The Minor in Religious Studies is an 18-credit course of study that provides students with the opportunity to learn about religion in cross-cultural and trans-historical perspectives. A core course introduces students to the study of world religions, while other courses range widely in their focus, allowing students to learn more about sacred texts, traditions, practices, philosophies, and material culture. Courses may focus on a single religious tradition, a region or period of history, or a concentrated approach to the analysis of religion and religious culture. Courses for the minor are drawn from such departments and programs as Anthropology, Art History and Archaeology, Classics, Government and Politics, History, Honors, Jewish Studies, Philosophy, and Women's Studies.

Jewish Studies Major

The Major in Jewish Studies provides undergraduates with a framework for the organized and interdisciplinary study of the history, philosophy, and literature of the Jews from antiquity to the present. Jewish Studies draws on a vast literature in a number of languages, especially Hebrew and Aramaic, and includes the Bible, the Talmud, and medieval and modern Hebrew literature. Yiddish language and literature compose an important sub-field. Courses offered by this department may be found under the following acronym(s): JWST, HEBR, ISRL, and RELS.

Program Objectives

The Meyerhoff Center and Program for Jewish Studies encourages research and provides instruction about the rich history and culture of the Jewish people from earliest times to the present day. Dedicated to the highest standards of scholarship, the program offers a wide array of courses in Hebrew Language and Literature, Jewish History, Bible, Rabbinics, Jewish Philosophy, and Yiddish Language and Literature. These courses form one of the largest undergraduate Jewish Studies programs in North America. In addition, the Jewish Studies program supports faculty research projects and organizes frequent academic conferences and lectures in order to bring the fruits of scholarship to a wider public. The Jewish Studies program seeks to provide undergraduate majors with an appreciation for the interdisciplinary nature of Jewish Studies, understanding that Jewish literary texts, Jewish history, and Jewish culture and thought are, to a large degree, inseparable. Students are expected to master the Hebrew language and acquire facility in reading, understanding, analyzing, and interpreting texts both in Hebrew and in English translation. In addition, students should be able to pursue independent research and to argue coherently and persuasively in writing.

ADMISSION TO THE MAJOR

Hebrew proficiency through Intermediate Hebrew I is a prerequisite for the major, but students can declare the major prior to fulfilling this prerequisite and can take Jewish Studies courses while building their Hebrew skills. Many students may choose to prepare for the Hebrew requirement by studying Hebrew on their own or by enrolling in the University's sequence of beginning and intermediate Hebrew courses.

PLACEMENT IN COURSES

The Foreign Language Placement Assessment in Hebrew is used to determine in which Hebrew course students should enroll. For more information, contact hebrew-advise@umd.edu.

Program Learning Outcomes

The Jewish Studies program seeks to provide undergraduate majors with an appreciation for the interdisciplinary nature of Jewish Studies (understanding that Jewish literary texts, Jewish history, and Jewish culture and thought are to a large degree inseparable). Students who complete the major should acquire the following knowledge and skills:

1. Mastery of modern Hebrew at the advanced level;
2. Mastery of the chronological development and major themes of Jewish history and culture;
3. Ability to read, analyze, and interpret texts in classical (biblical, rabbinic, medieval), and/or modern literary Hebrew; and
4. Ability to conduct independent research and analysis and represent their results in written form, showing mastery of academic tools and formal conventions.

Requirements

The undergraduate major requires 48 semester hours (27 hours minimum at the 3xx-level or above). Students enroll in 39 credits of Jewish Studies courses, and 9 additional credits from a field or fields outside of Jewish Studies. Jewish Studies courses for the major may include courses offered by Jewish Studies or cross-listed with other units.

By satisfying the Hebrew language requirements of the major, Jewish Studies majors will fulfill the Global Engagement Requirement of the

College of Arts and Humanities. A minimum 'C-' is required in all courses offered toward major requirements. An overall GPA of 2.0 or greater in the major is required for graduation.

Language Prerequisites

Please Note: Students can declare the major at any time and take other Jewish Studies courses while they are working to satisfy these prerequisites.

Hebrew language skills corresponding to the second-year level (HEBR211 or the equivalent)

Students may meet the prerequisite through successful completion of the lower-level sequence (HEBR111, HEBR112, and HEBR211, or the equivalent). Students with a background in Hebrew will be placed into the appropriate course by the Hebrew faculty. Students with a strong background may be deemed to have satisfied the Hebrew prerequisites by the Hebrew faculty.

General Requirements

Majors in Jewish Studies complete three core courses and fulfill an additional four requirements for a total of 19 to 22 credits in General Requirements (credit hours for Hebrew language are flexible, as discussed below).

Course	Title	Credits
College Requirements (p. 134)		
History		
JWST233	Why the Jews? Historical and Cultural Investigations	3
Literature		
JWST272	Introduction to Jewish Literature	3
Thought, Religion or Culture		
Select one of the following:		
JWST250	Fundamental Concepts of Judaism	
JWST262	Introduction to the Hebrew Bible/Old Testament	
JWST304	Critical Approaches to Israeli Culture	
JWST452	The Golden Age of Jewish Philosophy	
JWST491	Judaism and the Construction of Gender	
JWST492	Sex, Gender, and Jewish Identity	
Others by petition		
Hebrew Language		
Select 3-6 credits of the following:		3-6
HEBR212	Intermediate Hebrew II	
HEBR313	Conversation and Composition I	
3xx or 4xx-level course that is taught in Hebrew		
Hebrew Text course		
Select any course in which texts are read in Hebrew [1]		3
Research Seminar		
JWST409	Research Seminar in Jewish Studies [2]	3-4
Area of Specialization/Tracks		
Select an area of specialization: [3]		15
Jewish History and Society (JH)		
Jewish Religion and Thought (JR)		
Jewish Literature and Culture (JL)		
Israeli Society, Politics, and Culture (IS)		
Hebrew Language and Texts (HL)		
All Jewish Studies courses fall into at least one (and as many as three) of these areas of specializations. Students may petition to have courses count toward a particular area of specialization.		
Electives		
Select two Jewish Studies courses [4]		6
Supporting Courses		
Students take nine (9) credits in courses outside Jewish Studies [5]		9
Total Credits		45-49

1. Any course in which texts are read in Hebrew. Students who have a sufficient background in other Jewish languages (such as Aramaic, Judeo-Arabic, and Yiddish) may fulfill the text course requirement through one of these courses.
2. Research seminars are taught on a variety of topics within the field of Jewish Studies; seminars are general and methodological in their perspective, designed to bring together interests across a variety of subfields of Jewish Studies. Whenever possible, students should take a research seminar that aligns with their chosen area of specialization
3. In consultation with an advisor, majors select an area of specialization in addition to their general Jewish Studies coursework. Up to six credits of this area of specialization may be at the 1xx or 2xx-level or 3xx or 4xx-level, while the remaining nine credits must be at the 3xx or 4xx-level or above. All Jewish Studies courses fall into at least one (and as many as three) of these areas of specializations. Students may petition to have courses count toward a particular area of specialization.
4. Students take two Jewish Studies courses (6 credits) as electives toward their major. 3 credits must be at the 3xx or 4xx-level.
5. Students take nine (9) credits in courses outside Jewish Studies, of which at least six (6) credits must be at the 3xx-level or above. Supporting courses are determined in consultation with the advisor. They should provide context for the area of specialization

Note: A current listing of the Department's courses and assignment of courses to the above categories may be found on the Jewish Studies website. Students are reminded that, if there is a topic that doesn't figure in the list of courses, they are welcome to propose an independent study.

Mentoring: Students majoring in Jewish Studies will be assigned a faculty mentor from among the faculty specializing in their area of specialization. Students should consult with their faculty mentor as they plan their course of study.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Hebrew Studies Minor (JWST)

College of Arts and Humanities

School of Languages, Literatures, and Cultures
sllc.umd.edu/hebrew (http://sllc.umd.edu/hebrew/)

The minor in Hebrew is an interdisciplinary program offered through the cooperation of the **School of Languages, Literatures, and Cultures (SLLC)** and the **Jewish Studies Program.**

The minor in Hebrew will prepare students to function in a wide variety of communicative situations in Hebrew-speaking settings. Students will hone their skills in reading, writing, listening, speaking and cultural understanding. The minor consists of 16 or more credits from five courses and includes required advanced language courses and electives in topics such as Israeli literature, Israel studies and Zionism, Israeli cinema and Hebrew Bible.

To make an appointment to explore or declare a minor go to: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

PROGRAM LEARNING OUTCOMES

1. Students will demonstrate proficiency in reading, writing, listening and speaking corresponding with the ACTFL definition of advanced-high.
2. Students will show an in-depth understanding of aspects of Israeli culture.

Requirements

The Minor in Hebrew Studies consists of at least 16 credits from five courses.

Additional restrictions:

- Nine credits of the minor must be at the upper level (300/400).
- No more than six credits (two courses) may count toward both the student's major and the Hebrew minor.
- No more than one upper-division course may be taken in English translation.
- Independent study and special courses offered in Winter and Summer terms may be counted toward the Minor with the approval of the Advisor.
- No more than six credits (one or two courses) may be taken at an institution other than the University of Maryland, College Park. All upper-division credits to be applied to the minor must be taken at this university.
- No course with an earned grade below "C-" may count toward the minor.
- An overall GPA of 2.0 in the minor is required for graduation.

Prerequisites

These courses, or similar background experience and Foreign Language Placement Assessment scores are pre-requisites and do not count toward the minor. Please note that course numbers may change, and students may place out of some of the courses.

Course	Title	Credits
HEBR106	Intensive Elementary Hebrew I	4
HEBR107	Intensive Elementary Hebrew II	4
HEBR206	Intermediate Intensive Hebrew I	4

Requirements for the Minor

Course	Title	Credits
Required Courses		
HEBR207	Intensive Intermediate Hebrew II	4
HEBR249	Special Topics in Hebrew Studies (taught in Hebrew)	3
HEBR313	Conversation and Composition I	3
HEBR314	Conversation and Composition II	3
Electives for the Minor [1]		**3**
JWST219	Special Topics in Jewish Studies (JWST219I Introduction to Israeli Cinema)	
JWST262	Introduction to the Hebrew Bible/Old Testament	
ISRL282	Introduction to Israeli Cinema	
JWST319	Special Topics in Jewish Studies (JWST319K Jewry of Muscle: Zionism and Jewish Masculinity)	
JWST319	Special Topics in Jewish Studies (JWST319Q Self and Other in Israeli Culture)	
HEBR381	Introduction to Hebrew Cultural Studies (taught in Hebrew)	
HEBR386	Experiential Learning (taught in Hebrew)	
HEBR499	Independent Study in Hebrew (taught in Hebrew)	
JWST478	Readings in Modern Hebrew (taught in Hebrew)	
HEBR498	Special Topics in Hebrew (taught in English or Hebrew)	
JWST459	Readings in Medieval Hebrew (JWST459D The Study of the Hebrew Bible in the Middle Ages)	
Total Credits		16

[1] Three or more credits required from these previously offered courses, or other relevant courses in Jewish literature, Israeli film, Biblical Hebrew, etc. may be approved by the advisor.
Note: it may be possible to arrange with JWST and ISRL professors to provide course texts and accept assignments in Hebrew rather than English. The language of instruction is often related to the proficiency abilities of the students in the class.

Note: Students who place into the advanced level may take HEBR313, HEBR314, and HEBR249. They must replace HEBR207 (a required course at the intermediate level) with the equivalent number of credits, selected in consultation with, or with the approval of, the Advisor.

Advising

The advisor (Dr. Karpman) meets with minor students when they declare their interest in the minor and again whenever students need to adjust their curricular plan. At the initial meeting, which should occur at least a year before graduation, the advisor helps the student map out a course of study within the program. The advisor is also responsible for assessing the completion of the requirements for the minor.

Israel Studies Minor

https://www.israelstudies.umd.edu/undergrad-minor/

Students doing a Minor in Israel Studies will study the history, culture and political structure of Israel and its place in the Middle East. Students from all majors are encouraged to apply.

To make an appointment to explore or declare a minor go to: www.arhu.umd.edu/undergraduate/academics/minors (http://www.arhu.umd.edu/undergraduate/academics/minors/)

Students should also contact **Prof. Paul Scham**, Israel Studies Advisor
pscham@umd.edu
4141 Susquehanna Hall
College Park, MD 20742
Or visit: www.israelstudies.umd.edu (http://www.israelstudies.umd.edu)

Requirements

The minor consists of 15 credits, and is organized around the following requirements:

Course	Title	Credits
Required Core Courses		
ISRL342/ HIST376	History of Modern Israel [1]	3
ISRL448	Seminar in Israel Studies	3
Select one course in the area of Middle East Studies: [2]		3
ARAB221		
HIST120	Islamic Civilization	
HIST314		
HIST491	History of the Ottoman Empire	
GVPT455		
Elective Courses		
Select six credits of the following:		6
JWST142		
ISRL289	New Explorations in Israel Studies (ISRL289I)	
ISRL448	Seminar in Israel Studies (ISRL448A)	
ISRL448	Seminar in Israel Studies (ISRL448B)	
ISRL449	Advanced Topics in Israel Studies	
HEBR111	Elementary Hebrew I [3]	
HEBR112	Elementary Hebrew II [3]	
HEBR211	Intermediate Hebrew I [3]	
HEBR212	Intermediate Hebrew II [3]	
ARAB104	Elementary Modern Standard Arabic I-II [3]	
ARAB105	Elementary Modern Standard Arabic III-IV [3]	
ARAB107	[3]	
ARAB204	Intermediate Modern Standard Arabic I [3]	
ARAB205	Intermediate Modern Standard Arabic II [3]	
ARAB207	Egyptian Colloquial Arabic II [3]	
ARAB304	Advanced Modern Standard Arabic I	
ARAB305	Advanced Modern Standard Arabic II	
JWST304	Critical Approaches to Israeli Culture	
HEBR313	Conversation and Composition I	
HEBR314	Conversation and Composition II	
HEBR381	Introduction to Hebrew Cultural Studies	
HEBR382		
JWST478	Readings in Modern Hebrew	
JWST471	Modern Hebrew Literature in Translation	
JWST249	[4]	
JWST349	[4]	
JWST449	[4]	
JWST488		
Total Credits		15

1. A comparable course at another university may substitute for this; consult the Minor Advisor
2. To fulfill the Middle East Studies requirement, students must take one of the courses listed below or a comparable course. Courses within ISRL cannot be counted for this requirement. This list is not complete; other courses may be substituted with the approval of the Advisor. Students may also take one additional course from this list as an elective for credit toward the Minor. Other courses in Middle East Studies at UMD or elsewhere may be substituted for those on this list in consultation with the Advisor. HIST, COMM, GVPT, and SLLC all regularly offer special topics courses on the Middle East.
3. No more than 3 credits of language instruction below the 3xx-level may be credited toward the Minor.
4. Special Topics in Israel: (Topics change on an annual/semester basis, generally taught by distinguished visiting faculty.)

Special Topics in recent years have included: The Arab-Israeli Conflict through Film; Introduction to Israeli Cinema; Immigration & Ethnicity in Israel; Israel Politics and Society; Women and Gender in Israel; Public Culture in Israel; Israel Society as Seen Through Literature & Culture; Cultural Diversity and Multiple Identities in Contemporary Israeli Society; Society Politics and Mass Media in Israel; The Theater of Terror: Modern Terrorism and Mass Media; Israeli Politics for Young Leaders, and more.

Other appropriate courses may be taken as electives if approved by the Israel Studies Advisor.

Restrictions

- Coursework must include at least 9 3xx or 4xx-level credits, of which 6 of those credits MUST be taken at University of Maryland. These include credits earned in UM Study Abroad programs.
- A student may use a maximum of 6 credits (two courses) to satisfy requirements for both a major and a minor. Courses completed for one minor, may not be used to satisfy the requirements for another minor.
- No courses with an earned grade below "C-" may count towards the minor.
- An overall GPA of 2.0 in the minor is required for graduation.
- Up to 2 courses may be taken at another university if the courses are approved by the Israel Studies Advisor. These would include credits earned in non-UM Study Abroad Programs.

Jewish Studies Minor

Jewish Studies Program (JWST)
4141 Susquehanna Hall
301-405-4975
jwst-contact@umd.edu
www.jewishstudies.umd.edu (http://www.jewishstudies.umd.edu)

The Minor in Jewish Studies offers a broad overview of the principal aspects of Jewish Studies as a field. Students are encouraged to take courses in a variety of areas through a combination of required fields and general electives.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

15 credits are to be distributed as follows:

Course	Title	Credits
History		3
Literature		3
Thought, Religion, or Culture		3
Electives		6
Total Credits		15

- A minimum of 9 credits must be at the 3xx or 4xx-level.
- All credits must be earned with a grade of 'C-' or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses in each category is available from the Director of the Jewish Studies program.
- Up to 3 credits of 1xx or 2xx-level Hebrew or Yiddish language study may be credited toward the minor. In exceptional cases, students may petition to have other languages included.

Restrictions

- Students enrolled in the Jewish Studies Major are not eligible to enroll in the minor.
- At least 6 credits of 3xx or 4xx-level credit must be taken at the University of Maryland.
- No more than 6 credits may be taken at an institution other than Maryland.
- In keeping with University policy, no more than 6 credits may also be applied to a major.

Religions of the Ancient Middle East Major

The major in Religions of the Ancient Middle East (RAME) (30 cr) offers students the opportunity to explore the world out of which biblical Israel and ancient Judaism, Christianity, and early Islam emerged, as well as the wide array of other religious and cultural beliefs, practices, and institutions that flourished between about 1200 BCE/BC and 850 CE/AD. In *Foundations* courses students take at least one course that addresses a significant question about the nature of religion and religious change or the interplay of religious groups. In addition they must take two courses that survey two geographical, cultural, or chronological sub areas. In addition to *Electives*, all students take an interdisciplinary *Capstone* seminar, typically in their final year.

Language Track (min. 36 cr). Although there are no language requirements for the major, students who wish to incorporate ancient languages into their work are encouraged to pursue a language enhanced track. Students take six credits of language at the second year level as part of their major. They are also are expected to make use of their target languages in completing the research project for the Capstone course.

The University currently offers Arabic, Hebrew, and Greek. The number of credits per course varies by language. Other languages such as Aramaic, Akkadian, or Syriac taken through CourseShare or the Consortium of Universities of the Washington Metropolitan Area may be substituted.

Note: Students pursuing the language track may need to take up to 12 credits in language prerequisites to attain the second year level.

Program Learning Outcomes

1. Demonstrate an understanding of fundamental methodological, historical, and/or comparative approaches to the study of religion and culture in the ancient Near East and apply this understanding to specific relevant examples.
2. Describe and illustrate the development of at least two chronological, geographical, or cultural subareas.
3. Formulate and defend an argument about religion and culture in the ancient near east informed by the modern scholarship and amply illustrated with reference to ancient evidence.
4. Language Track: Demonstrate the ability to use the languages they have studied as a tool for deep engagement with ancient source material.

Requirements

Course	Title	Credits
Foundations		
One approved I-Series course		3
RELS289I	(What is Religion?)	
RELS289M	(Jesus, Mani, and Muhammad)	
JWST289J	(Jerusalem in Antiquity: The History of Sacred Space in a Holy City)	
JWST230	Inventing Traditions: The Making of Rabbinic Judaism	
Three courses in two or more geographical, chronological, or cultural sub-areas		9
HIST120	Islamic Civilization	
RELS264	Introduction to the New Testament	
JWST225	Religions of the Ancient Near East	
JWST231	Jewish Texts and Cultures of the Second Temple Period	
JWST262	Introduction to the Hebrew Bible/Old Testament	
Electives (four must be at the upper level) [1]		**15**
CLAS305	Archaeological Methods and Practice	
HIST110	The Ancient World	
HIST320	Early Christianity: Jesus to Constantine	
HIST428	Selected Topics in History (HIST428R: Transition to Islam: From the Ancient to the Medieval Muslim World)	
JWST324	Biblical History and Culture	
JWST325	Jews and Judaism in Antiquity I: Sixth Century BCE through the First Century CE	
JWST326	Jews and Judaism in Antiquity II: First through Seventh Centuries	
JWST430	Dead Sea Scrolls	
JWST468	Readings in the Hebrew Bible	
JWST469	Readings in Rabbinic Hebrew	
Capstone		**3**

RELS408	Capstone Seminar for Religions of the Ancient Middle East	
Total Credits		30

[1] Other courses by permission.

Tracks

Language Track

- Minimum six additional credits; minimum 36 credits total
- Prerequisite: First year language (6-12 credits)
- Six credits in Hebrew, Arabic, Greek, or other relevant language beyond the first year level
- **Note:** Students who place directly into second year language or above need only complete six credits of language. The number of prerequisite language credits varies by language

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Religious Studies Minor

Jewish Studies Program (JWST)
4141 Susquehanna Hall
301-405-4975
jwst-contact@umd.edu
www.religious-studies.umd.edu (http://www.religious-studies.umd.edu)

Religious Studies is an interdisciplinary field that enables students to study the texts, culture, history, beliefs, and practices of the religions of the world, present and past. The minor in Religious Studies draws from a wide range of departments and programs (including Anthropology, Art History, Classics, English, History, Jewish Studies, and Philosophy) and offers the opportunity for both in-depth and wide-ranging study. A required core course introduces students to religions of the world and to the academic study of religion (students may take either RELS216 or RELS289I). In addition to this course, students are required to take three courses at the 3xx or 4xx-level and another two at the 1xx, 2xx, 3xx, or 4xx-level. Completion of coursework includes fulfillment of a breadth requirement, which demonstrates that students have been exposed to a variety of religious traditions, periods, and geographic regions. Selection of courses in consultation with the advisor will ensure that students complete this breadth requirement.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/).

Many courses are now offered with the RELS prefix. Other regularly-offered courses that may be counted toward the minor are:

Course	Title	Credits
ARTH200	Art and Society in Ancient and Medieval Europe and the Mediterranean	3
ARTH201	Art and Society in the West from the Renaissance to the Present	3
ARTH250	Art and Society in the Ancient American World	3
ARTH290	Art and Society in Asia	3
ARTH314	Gothic Art	3
ARTH376	Living Art of Africa	3
CLAS170	Greek and Roman Mythology	3
CLAS470	Approaches to Greek Mythology	3
ENGL262	Introduction to the Hebrew Bible/Old Testament	3
HIST111	The Medieval World	3
HIST120	Islamic Civilization	3
HIST282	History of the Jewish People I	3
HIST284	East Asian Civilization I	3
HIST306	History of Religion in America	3
HIST332	Renaissance Europe	3
PHIL236	Philosophy of Religion	3
Many courses in JWST and HONR		

Other courses may be taken with the permission of the minor advisor.

Requirements

Course	Title	Credits
RELS216		3
or RELS289I		
Select three courses at the 3xx-level or above [1]		9
Select two additional courses at the 1xx, 2xx, 3xx, or 4xx-level [2]		6
Total Credits		18

[1] These courses can be in any of a variety of subjects, chosen in consultation with an advisor. See Breadth requirement below.

[2] Chosen in consultation with an advisor. See Breadth requirement.

Breadth Requirement

The breadth requirement ensures that students are exposed to a diversity of religious phenomena. Most Religious Studies students will complete this requirement simply by selecting from the wide variety of courses available to them. Students with particular interests (in a single approach, like Art History, or a single setting, like contemporary North America) will need to take at least one course that falls outside their particular focus of interest. Students will need to demonstrate:

1. Exposure to a diversity of religious traditions (understood to include African religions, Buddhism, Christianity, Hinduism, Islam, and Judaism, among others), in coursework that extends beyond a single geographic area (such as the Americas, Asia, or the Mediterranean world).

2. Exposure to diverse temporal periods (including antiquity, the medieval and early modern periods, and modernity).

3. Experience of multiple approaches to religious phenomena or the study of religion (for example, art history, philosophy, historical approaches, and comparative methods).

4. Depth: At least one course must incorporate the focused study of a single religious tradition or cluster of traditions.

Examples: A student with academic focus in religions of the ancient Mediterranean might complete the breadth requirement with a single course on Asian religions. A student concentrating on art historical approaches to religion might take one course in philosophy or literature. A student whose interests run to comparative and cross-cultural coursework might take a course in the focused study of a single tradition.

- A minimum of 9 credits must be at the 3xx or 4xx-level.
- All courses must be passed with a grade of 'C-' or above.
- An overall GPA of 2.0 in the minor is required for graduation.
- A list of qualifying courses is available from the advisor to the RELS program.
- At least six credits of 3xx or 4xx-level credit must be taken at the University of Maryland.
- No more than six credits may be taken at an institution other than Maryland.
- In keeping with University policy, no more than six credits may also be applied to a major.

Latin American Studies Certificate

College of Arts and Humanities
4112 H.J. Patterson Hall
301.405.9626
lasc@umd.edu
www.lasc.umd.edu (http://www.lasc.umd.edu)

The interdisciplinary certificate program in Latin American Studies is open to University of Maryland, College Park, undergraduates in any major who are interested in Latin America and the Caribbean.

Interested students should contact our Director and Program Coordinator by email or phone (lasc@umd.edu, 301-405-9626). Please also visit our web page at www.lasc.umd.edu (http://www.lasc.umd.edu).

Requirements

The undergraduate certificate in Latin American Studies will be awarded to students who have completed 21 credits with a cumulative GPA of 2.0 or better in the following areas:

Course	Title	Credits
Core Curriculum for All Certificate Students		
LASC/SPAN/PORT234	Issues in Latin American Studies I	3
LASC/SPAN/PORT235	Issues in Latin American Studies II	3
Select one of the following:		3
LASC/HIST250	History of Colonial Latin America	
LASC/HIST251	Latin America Since Independence	
LASC/SPAN/PORT/ANTH458	Senior Capstone Course in Latin American Studies	3
Additional Courses in Latin American Studies		
Nine credits of additional courses must be chosen from an approved list and from at least two different departments [1]		9
Foreign Language Competency [2]		
Total Credits		21

1 At least six credits must be at the 3xx- or 4xx-level. See Latin American Studies advisor for details.

2 All certificate students must demonstrate their competence in a language spoken in Latin America or the Caribbean. Competence may be proven with a grade of 'C+' or above in an intermediate-level language course or higher. Fluent speakers of Spanish or Portuguese, or students with extensive experience, should consult with the Latin American Studies advisor for procedures to demonstrate their language competence.

An overall GPA of 2.0 in the certificate is required for graduation.

Latin American Studies Minor

College of Arts and Humanities
4112 H.J. Patterson Hall
301.405.9626
lasc@umd.edu
www.lasc.umd.edu (http://www.lasc.umd.edu)

The interdisciplinary minor program in Latin American Studies is open to University of Maryland, College Park, undergraduates in any major who are interested in Latin America and/or the Caribbean. The minor will help prepare students for careers related to Latin America.

Requirements

The undergraduate minor in Latin American Studies will be awarded to students who have completed 15 credits with a cumulative GPA of 2.0 or better in the following areas:

Course	Title	Credits
LASC/SPAN234	Issues in Latin American Studies I	3
or LASC/SPAN235	Issues in Latin American Studies II	
HIST/LASC250	Colonial Latin America	3
or HIST251	Latin America Since Independence	
LASC486	Internship in Latin American/Caribbean Studies	3
ELECTIVE	Two 300 or 400 level elective courses [1]	6
Total Credits		15

1 Elective courses will contain at least 75% Latin American-related content and will be from two different departments.

Additional Requirement

Additionally, all certificate students must demonstrate their competence in one of the languages of Latin America and the Caribbean, including Spanish or Portuguese. Other languages may be used to fulfill this goal with the permission of the LASC undergraduate advisor. Competency may be proven with a grade of 'C+' or better in an intermediate-level course or higher. Native speakers of Spanish or Portuguese or students with extensive experience in these languages should consult with the Latin American Studies advisor to demonstrate competence through a placement exam.

Linguistics

College of Arts and Humanities

1401 Marie Mount Hall
301-405-7002
www.ling.umd.edu (http://www.ling.umd.edu)

Human beings share a capacity for language, unique to the species. This capacity guides the learning of language in children and constrains the character of the languages we come to have. To study it we pursue various sources of evidence. Among them are the grammars of individual languages; patterns of grammatical variation across languages; the development, normal and abnormal, of language in children; the mental processing of language in use; and the embodiment of language in the brain. But all these perspectives converge on a single natural object, the human language faculty, whose study unifies the work at Maryland Linguistics. Research in our department spans syntax, semantics, phonology, language acquisition, computational linguistics, psycholinguistics and neurolinguistics.

Programs

Major

- Linguistics Major (p. 179)

Minor

- Linguistics Minor (p. 180)

Advising

Linguistics majors have a dual system of advising. The department advisor is a faculty member in the Linguistics Department and advises students about major requirements and courses. For more general advising (about general education requirements, ARHU requirements, etc), students will go to their college (ARHU) advisor. Students may choose to make appointments every semester with either or both advisors, but will have mandatory advising at both the departmental and college level at three different points:

- first semester matriculated in the major
- between 45-55 credits
- between 86-100 credits

Failure to meet with both advisors for mandatory advising will result in being blocked from registering for classes for the following semester.

For more information about the major, advising, and how to contact a Linguistics advisor, visit the Linguistics Department web page at:

http://ling.umd.edu/undergraduate/

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

There are opportunities in the department for undergraduate students to get involved in doing research. Students interested in research in linguistics should submit a resume and/or project proposal to the undergraduate advisor or to an appropriate faculty member. Attempts will be made to match students with appropriate faculty advisors. The possibility of doing research is not guaranteed for every student, but will depend on the student's skills and the availability and willingness of a faculty member to direct the project.

In addition to opportunities during the regular semester to receive course credit for research assistantships, students can also apply for funding to work as a research assistant during the summer through the Linguistics Department Baggett Scholarship program. (More information about the Baggett summer program can be found on the website at: http://www.ling.umd.edu/baggett/).

For research opportunities in specific labs/facilities see the section 'Academic Programs and Departmental Facilities' (below).

Fieldwork Opportunities

Students seeking an in-depth research experience doing fieldwork have an opportunity to participate in the Summer Field School (https://languagescience.umd.edu/beyond-umd/guatemala-field-station (https://languagescience.umd.edu/beyond-umd/guatemala-field-station/)) at UMD's Guatemala Field Station.

Honors Program

Academically talented Linguistics majors with junior standing may petition to become honors candidates in linguistics. Honors students work on a research project under a faculty advisor, write an honors thesis, and present the work in a public forum.

Student Societies and Professional Organizations

The UMD Linguistics Club is active and has regular meetings. Interested undergraduate students can join or express interest by emailing umdlingclub@gmail.com. More information can also be obtained by emailing a linguistics advisor.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Also, students can apply for a Linguistics Department Baggett Scholarship to work (in a paid position) as a research assistant during the summer. See 'Awards and Recognition' below.

Awards and Recognition

The Department of Linguistics offers several Baggett Summer Scholarships every year. These are paid, faculty-mentored summer research positions open to UMD undergraduate students with training in linguistics or cognitive science.

More information can be found on the website at: http://www.ling.umd.edu/baggett/.

Academic Programs and Departmental Facilities

Students can become involved in a wide range of research activities including computer programming and experimental projects in language acquisition (ling.umd.edu (http://ling.umd.edu/languageacquisition/)/(http://www.ling.umd.edu)languageacquisition/ (http://ling.umd.edu/

languageacquisition/)), psycholinguistics (ling.umd.edu/psycholinguistics/ (http://ling.umd.edu/psycholinguistics/)) and neurolinguistics (ling.umd.edu/neurolinguistics/ (http://ling.umd.edu/neurolinguistics/)).

Selected undergraduate students work alongside faculty and graduate students—learning to design, execute, and analyze experiments—within our Cognitive Neuroscience of Language Labs (including the Language Acquisition Lab (ling.umd.edu/research/acquisition_lab/ (http://ling.umd.edu/research/acquisition_lab/)), the EEG/ERP Lab (ling.umd.edu/research/eeg/ (http://ling.umd.edu/research/eeg/)), the Maryland-KIT MEG Lab (ling.umd.edu/research/meg/ (http://ling.umd.edu/research/meg/)), and the Maryland Neuroimaging Center (www.mnc.umd.edu/home (http://www.mnc.umd.edu/home/)).

Students can also take advantage of the department's affiliation with the Language Science Center (languagescience.umd.edu/ (http://languagescience.umd.edu/)) which offers additional resources and programs such as PULSAR (languagescience.umd.edu/education/pulsar-undergraduate-program (http://languagescience.umd.edu/education/pulsar-undergraduate-program/)) (undergraduate certificate program offering interdisciplinary training in language science) and the Guatemala Field Station (languagescience.umd.edu/beyond-umd/guatemala-field-station (http://languagescience.umd.edu/beyond-umd/guatemala-field-station/)).

For more information about ongoing research, lab facilities, and opportunities for undergraduate involvement, go to the following web page (and scroll down for various topics): http://ling.umd.edu/undergraduate/

Linguistics Major

The Linguistics Department offers courses on many aspects of the scientific study of language and an interdisciplinary major leading to a Bachelor of Arts.

Research in linguistics aims to discover how a person's linguistic capacity is represented in the mind, how that knowledge is acquired, what aspects are innate, and how language is processed in the mind and brain. Students learn how to address these questions through various sources of evidence, such as descriptions of individual languages, patterns of grammatical variation and invariance, the development of language in children, the mental processes of language in use, computational models of acquisition and processing, and patterns of physiological activity in the brain.

The major in Linguistics is designed for students who are primarily interested in human language per se, or in describing particular languages in a systematic and psychologically plausible way, or in using language as a tool to reveal some aspect of human mental capacities. Such a major provides useful preparation for further research in linguistics and cognitive science, as well as for professional programs in foreign languages, language teaching, communication, psychology, speech pathology, and artificial intelligence. Because of the emphasis placed on analytic thinking, scientific reasoning, and evidence-based argumentation, the linguistics major also prepares students for a broad range of careers outside of the language sciences.

Program Learning Outcomes

The Department of Linguistics B.A. program seeks to expose majors to fundamental questions about the nature of the human mind, using Language as a vehicle for examining this issue. The program aims to cultivate strong empirical research skills, data analysis, application of scientific methodology, and the ability to communicate clear, logical arguments. By the time students complete the requirements for the major, they can expect to have mastered the following measurable learning outcomes:

1. Students demonstrate the ability to apply scientific methodology to data analysis and to develop effective argumentation skills.
2. Students demonstrate the ability to critically evaluate proposals in the field.
3. Students incorporate scientific writing style in essays, review papers, and research papers.
4. Students demonstrate the ability to provide and defend an analysis of the phonological system in any language, when provided with sufficient data.
5. Students demonstrate the ability to provide and defend a structural analysis for a given sentence in any language, when provided with sufficient data.

Requirements

A grade of at least 'C-' is required in all major courses. An overall GPA of 2.0 in the major is required for graduation. The Linguistics major consists of 39 credits: 24 credits of Linguistics Core classes plus 15 credits from one of the Tracks, as specified below.

Course	Title	Credits
Core Required of All Majors		
LING240	Language and Mind	3
LING311	Syntax I	3
LING321	Phonology I	3
Select two of the following:		6
LING312	Syntax II	
LING322	Phonology II	
LING320	Phonetics	
LING410	Grammar and Meaning	
LING440	Grammars and Cognition	
LING444	Child Language Acquisition	
Three 3xx-4xx level LING electives		9
Track		
Select one of the following tracks:		15
Grammars and Cognition Track		
Language Track		
Total Credits		39

Grammars and Cognition Track

Course	Title	Credits
PSYC100	Introduction to Psychology	3
PHIL170	Introduction to Symbolic Logic	3
LING350	Philosophy of Language	3
or PHIL360	Philosophy of Language	
Select two approved electives in LING, PSYC, HESP, PHIL, or CMSC		6
Total Credits		15

Language Track

Course	Title	Credits
15 credits of a single chosen language [1]		15
Total Credits		15

[1] At least 3 of the 15 credits must be at or above the 2xx level.

There are no requirements for support courses for the Linguistics major.

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu (http://www.4yearplans.umd.edu). Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Other Requirements for the Major

- LING240 must be taken before any other courses in the major; this course serves as a gateway to the major. A grade of 'C-' or better is required in this course before taking further courses in Linguistics. However, a grade of 'B' or higher in LING240 is a relatively good predictor of continued success in the rest of the major (as courses become more difficult). LING240 is offered every semester.
- A grade of 'C-' or better is required in prerequisite courses.
- After LING240, students should take LING311 (Syntax I) and LING321 (Phonology I), as they are prerequisites for other required courses. These courses can be taken together in the same semester. These courses are offered every semester (fall and spring).
- No more than 1 independent study or lab course (3 credits) can be used towards the three 3xx-4xx level LING electives (part of the LING core).
- 3xx-4xx courses beyond LING311 and LING321 are generally offered just once per year. Check Testudo to see when these are offered in a given year (either fall or spring).
- Optional courses for the major are not necessarily offered on a regular basis. Students should check with the undergraduate advisor to find out which courses will be offered and when.
- For the Language Track, the '15 credits of a single chosen language' must be courses that focus on language (and not, for example, history, literature or culture taught in the language).
- The 'structure or history of the language' course is no longer required for the Language Track but such a course can be taken to count towards the 15 credits of the language.
- Note that courses cannot be double-counted for different requirements in the major. All of the 'boxes' must be filled in by different courses such that you reach the required number of credits with all of the categories fulfilled.
- Electives for the Cognition Track must be approved by the linguistics advisor.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Linguistics Minor

1401 Marie Mount Hall
301-405-7002
www.ling.umd.edu (http://www.ling.umd.edu)

The minor in linguistics will introduce students to key concepts that form the basis of modern generative linguistics. Students are introduced to the different sub-areas of linguistics in two introductory courses. Two more advanced courses in syntax and in phonology build on this foundation. One 3xx-4xx level linguistics elective completes the minor. The minor in linguistics will be of relevance to students majoring in Languages, English, Psychology, Philosophy, Education and Computer Science.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/undergraduate/academics/minors (http://www.arhu.umd.edu/undergraduate/academics/minors/).

More information is available at the linguistics website, 'Minoring in Linguistics' at: http://ling.umd.edu/undergraduate/minors/

Requirements

Course	Title	Credits
Required Courses		
LING200	Introductory Linguistics	3
LING240	Language and Mind	3
LING321	Phonology I	3
LING311	Syntax I	3
Select any one 3xx or 4xx level linguistics elective as a fifth course in linguistics		3
Total Credits		15

- A total of 15 credits is required.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students who take LING240 as their first linguistics course will substitute an approved LING elective for LING200
- All courses counting for the minor must be actual 'classroom' courses (i.e., not independent study, research assistantships, or internships).

Philosophy

College of Arts and Humanities
1128 Skinner Building
301-405-5689
lgilman@umd.edu
www.philosophy.umd.edu (http://www.philosophy.umd.edu)

The department offers a varied and challenging undergraduate curriculum that allows students to acquire a solid general education in philosophy or to concentrate in more specialized areas. Studying philosophy provides good preparation for some popular careers. Recent data show that philosophy majors do very well on the Law School Admission Test (LSAT), for example. We don't find this surprising, since

studying philosophy develops capacities to analyze complex arguments and to think critically.

Programs

Major

- Philosophy Major (p. 181)
- Philosophy, Politics, and Economics Major (p. 182)

Minor

- Philosophy Minor (p. 182)

Advising

Philosophy majors must be advised each semester before registration. Contact philadv@umd.edu for more information.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Honors Program

The Philosophy Honors Program allows exceptional students the opportunity to work closely with a member of the Philosophy faculty on a project, typically a 30-40 page philosophical paper (i.e., "Honors Thesis"), during the final two semesters of his/her undergraduate career. The two semesters of independent study with the faculty advisor culminate in the student presenting and defending the Honors Thesis before a committee consisting of 2-3 faculty members in addition to the advisor.

Successful students will graduate with Honors in Philosophy.
Requirements and Procedures

- A prospective honors student should normally have a cumulative GPA of 3.5 and a GPA of 3.75 in philosophy classes with no grade below a 'C' in any philosophy course.
  - A prospective honors student should find a willing faculty advisor in the spring semester before the senior year.[1]
  - The student must present a proposal to the prospective advisor at the end of the spring semester.[1]
  - The proposal will typically include a list of proposed readings, a clear and appropriately narrow topic, and a projected position to be defended in the Honors Thesis.
  - This proposal will then be submitted to the Undergraduate Affairs Committee for approval.
- If the proposal is approved, the student will enroll in 498F (3 credits) the following semester and the student and advisor will agree on a schedule for meetings and the work expected by the end of the semester.
- At the end of the semester, the advisor will evaluate the student's progress and will decide whether the student should continue work on the Honors Thesis for another semester.
- If, at the end of the first semester, the advisor judges that the project should not continue, the student will be given a grade for 498F but will not enroll in 498G in the subsequent semester and will not receive an Honors degree.
- If, at the end of the first semester, the advisor thinks the project should continue, the student will enroll in 498G (3 credits) and the student and advisor will agree on a schedule of meetings and a timeline for completion of the Honors Thesis.
- The student, in consultation with the advisor, will arrange an examining committee of at least 2 faculty members in addition to the advisor. The student will present and defend the Honors Thesis before this examining committee. The faculty advisor determines the grade for 498G but the committee determines whether the student graduates with Honors.

[1] Or, for students graduating in December, the semester prior to the student's next to last semester

Student Societies and Professional Organizations

The Philosophy Club holds weekly meetings during the semester to discuss philosophical topics of interest to members.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The W.E. Schlaretzki Prize is given to the most outstanding graduating senior each year. The Joseph and Beth Duckett Scholarship is given to the most outstanding junior.

Philosophy Major

Philosophy investigates the foundations of reality, knowledge, and value. Students can expect to receive training in these areas, and also in clear thinking, inventive synthesis, and precise expression. For some, this will serve as preparation for graduate studies in philosophy. However, philosophical skills are useful in professions such as law, medicine, government, business management, and in any field that demands intellectual rigor. The department offers a wide range of courses, including courses on historical figures, such as Plato and Kant, traditional philosophical topics, such as the nature of the human mind, free will, and the just society, and several that deal with the philosophy of various disciplines outside philosophy itself, such as philosophy of physics and philosophy of law.

Program Objectives

The philosophy program aims to:

1. Provide students with an understanding of a range of philosophers and philosophical problems, while encouraging as deep a critical engagement with those philosophers and problems as is feasible in the time available.
2. Equip students with the core skills involved in: careful reading; sympathetic interpretation and understanding; critical reflection; rational argumentation; creative problem solving; and the clear and well-organized expression of ideas.
3. Facilitate an awareness of the application of philosophical thought to other academic disciplines or to matters of public interest,

encouraging students to apply philosophical skills more widely where appropriate.

Program Learning Outcomes

By the end of the program of study:

1. Students should be competent in formal techniques, including, but not limited to, formal logic.
2. Students should be able to provide an exegesis of a philosophical argument.
3. Students should be able to articulate a clear, coherent thesis on a philosophical issue and place it in the context of the relevant literature.
4. Students should be able to present a reasoned defense of a philosophical thesis.

Requirements

Course	Title	Credits
College Requirements (p. 134)		
Select 12 courses in philosophy distributed as follows: [1]		36
Four courses at 3xx-level or above		
Two courses at 4xx-level or above		
One course in logic at any level		
Two or more courses at 2xx-level or above in the history of pre-twentieth century philosophy		
Two or more courses at 2xx-level or above in value theory (including aesthetics and political philosophy as well as ethics)		
Two or more courses at 2xx-level or above in metaphysics or epistemology (including philosophy of science, philosophy of mind, and philosophy of religion, as well as metaphysics and theory of knowledge)		
Total Credits		36

[1] Up to nine credits from outside of PHIL may be counted towards the philosophy degree upon departmental approval.

A total of at least 36 credit hours in philosophy (up to three credits of an internship course (PHIL386) can count towards the major). For a course to count toward a student's major, the grade in the course must be 'C-' or above. For students who matriculated in September 2012 or later, the average of all grades counted toward the major must be 2.0 or greater. Therefore, grades of 'C-' will have to be balanced with higher grades. (C- counts as 1.7 toward the GPA.)

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Philosophy Minor

College of Arts and Humanities

1128 Skinner Building
301-405-5689
lgilman@umd.edu
www.philosophy.umd.edu (http://www.philosophy.umd.edu/)

Philosophy investigates the foundations of reality, knowledge, and value. Students can expect to receive training in these areas, and also in clear thinking, inventive synthesis, and precise expression. For some, this will serve as preparation for graduate studies in philosophy. However, philosophical skills are useful in professions such as law, medicine, government, business management, and in any field that demands intellectual rigor. The department offers a wide range of courses, including courses on historical figures, such as Plato and Kant, traditional philosophical topics, such as the nature of the human mind, free will, and the just society, and several that deal with the philosophy of various disciplines outside philosophy itself, such as philosophy of physics and philosophy of law.

Requirements

Course	Title	Credits
Three or more courses at 3xx-level or above in Philosophy [1]		9
One or more courses at 2xx-level or above in the history of pre-twentieth century philosophy		3
One or more courses at 2xx-level or above in value theory (including aesthetics and political philosophy as well as ethics)		3
One or more courses at 2xx-level or above in metaphysics or epistemology (including philosophy of science, philosophy of mind, and philosophy of religion, as well as metaphysics and theory of knowledge)		3
Total Credits		18

[1] Not counting internship courses (PHIL386).

For a course to count toward a student's minor, the grade in the course must be 'C-' or above. For students who matriculated in September 2012 or later, the average of all grades counted toward the minor must be 2.0 or greater. Therefore, grades of 'C-' will have to be balanced with higher grades. ('C-' counts as 1.7 toward the GPA).

Philosophy, Politics, and Economics Major

The Philosophy, Politics, and Economics major brings together insights and methods from several different disciplines to help students think rigorously and creatively about pressing social and political questions. The major not only combines classes from distinct disciplines (Philosophy, Government and Politics, Public Policy, and Economics), it features courses specifically designed to integrate material from them. The skills developed in the major will be useful for careers in law, government, business, or any field that requires rigorous reasoning with a diverse set of insights, tools, and methods.

Program Objectives

The Philosophy, Politics, and Economics program aims to:

1. equip students with methods from the disciplines of philosophy, political science, and economics;

2. encourage students to apply these methods to a diverse array of topics and questions across disciplinary boundaries, especially to normative topics and questions;
3. combine these methods in productive ways to carry out thoughtful, original research;
4. equip students with the ability to write clearly and concisely, read and distill information carefully, and construct arguments in an organized and convincing manner; and
5. inspire a love for learning from a diverse array of scholarly disciplines.

Program Learning Outcomes

1. Students will be able to competently apply basic methods from philosophy, political science, and economics to their reasoning about difficult social and political questions.
2. Students will be able to write and think clearly and in an organized fashion about difficult social and political questions.
3. Students will be able to engage in original research to present convincing arguments for their views on difficult social and political questions.

Requirements

Course	Title	Credits
Disciplinary Foundations		
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3

School of Languages, Literatures, and Cultures

College of Arts and Humanities
1105 Jiménez Hall
301-405-4025
www.sllc.umd.edu (http://www.sllc.umd.edu)

Academic Programs

The School of Languages, Literatures, and Cultures is the primary academic unit devoted to instruction and research in the world's languages, literatures, cinema, and cultures. It consists of the Departments of Arabic, East Asian Languages and Cultures, French and Italian, Germanic Studies, Persian, Russian, and Spanish and Portuguese, as well as the Cinema and Media Studies and Second Language Acquisition programs. It offers undergraduate majors in Arabic Studies, Chinese, Cinema and Media Studies, French Language and Literature, Germanic Studies, Italian Studies, Japanese, Persian Studies, Romance Languages, Russian Language and Literature, and Spanish Language, Literatures, and Cultures. Minors can be earned in Arabic, Chinese Language, French Studies, Germanic Language and Literatures, Hebrew, Italian Language and Culture, Japanese, Korean Studies, Persian Studies, Portuguese Language, Literatures, and Cultures, Russian Studies, Spanish Literature, Linguistics, and Culture, Spanish Language, Culture, and Professional Contexts, and Spanish Heritage Language and Latina/o Culture. The school offers education abroad programs in many countries, both short and long-term. Its Language House, a residential immersion facility for approximately 100 students, is one of the most successful living-learning programs on campus, and offers immersion experiences in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Persian, Russian, and Spanish.

In all SLLC programs, language acquisition courses must be taken sequentially. Once credit has been received in a higher-level language acquisition course, a lower-level course may not be taken for credit. (There may be special circumstances related to particular education abroad programs; please communicate with your SLLC program advisor for additional information.)

Advising

Programs within the School of Languages, Literatures, and Cultures provide a dedicated advisor for all students interested in studying within their program. See the program entries in this catalog or http://sllc.umd.edu for names and contact information.

Opportunities

Undergraduate Research Experiences

SLLC undergraduates are invited to participate in the annual SLLC research forum and award ceremony, an April celebration of inquiry and achievement in the areas of languages, literatures, cinema, and cultures.

Honors Programs

Departmental honors options are available for students pursuing a B.A. in French Language and Literature, Germanic Studies, or Spanish Language, Culture, and Literature.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus, and/or national scholarships and/or academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Arabic Studies

College of Arts and Humanities
3125 Jiménez Hall
301-405-4025
sllc.umd.edu/arabic/ (http://sllc.umd.edu/arabic/)

Arabic Studies at the University of Maryland offers a multidimensional education in Arabic language and culture, tailored for diverse populations of students, while also preparing them for a variety of careers on the global market. The Arabic Department's vision centers on rigorous language instruction that integrates dialects with the formal register of Arabic (*fusHa*) and on developing a nuanced cultural knowledge through a variety of courses that interrogate different aspects of culture and society in the Arabic-speaking world. The Arabic Department offers a B.A. and Minor in Arabic.

The Arabic Flagship Program at UMD (http://www.globalprofessionals.umd.edu/afp-about-our-program/) is an integral part of the Arabic Department. It welcomes UMD students from any major who wish to achieve superior level proficiency in Arabic (both formal register and at least one dialect) and intercultural fluency. In addition to a rigorous academic program, Flagship students take part in a variety of extra-curricular activities, an individual tutoring program, internships, and other professional opportunities. Participation in the Arabic Flagship includes a capstone year in Meknes, Morocco.

Arabic and Persian Departments jointly host the UMD Summer Institute (http://www.globalprofessionals.umd.edu/summer-language-institute/), which offers an intensive language and culture program. Students participating in the Summer Institute are able to complete a full language level/academic year of Arabic. Three levels are offered in the summer: elementary, intermediate, and advanced.

Additionally, the School of Languages, Literatures, and Cultures operates the Language House, including an Arabic cluster, where students live and learn in a semi-immersive environment.

Advising

Advisor: Ahmed Hanafy ahmeda@umd.edu

To review the academic plan for this major, go to http://www.arhu.umd.edu/undergraduate/advising/academicplans (http://www.arhu.umd.edu/undergraduate/advising/academicplans/)

Opportunities

ARABIC FLagship

The Arabic Flagship enables students of any major to reach a professional level of Arabic and advanced intercultural competence by graduation. It consists of a language and culture coursework and co-curricular program at UMD, and a year-long overseas study, leading to Flagship certification. Visit the UMD Arabic Flagship website (http://www.globalprofessionals.umd.edu/afp-about-our-program/) to learn more.

SUMMER INSTITUTE

The University of Maryland's School of Languages, Literatures, and Cultures (SLLC) Summer Language Institute offers language and culture programs for Beginner, Intermediate, and Advanced students of Arabic and Persian. Visit the UMD Summer Institute (http://www.globalprofessionals.umd.edu/summer-language-institute/) website to learn more.

Undergraduate Research Experiences

The Arabic and Persian Departments School have implemented an Annual Arabic and Persian Research Colloquium, which provides a forum for students to present their outstanding and innovative research projects. The Research Colloquium takes place in late April - early May.

Internships

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: http://www.sllc.umd.edu/.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Arabic Minor

The minor in Arabic (21 credits) provides a solid grounding in Modern Standard Arabic and colloquial Arabic. Students who satisfy the requirements of the minor in Arabic can expect to be able to read, write, and communicate orally in Modern Standard Arabic and one of the Arabic dialects at a level that would allow them to interact with native speakers and perform effectively in a daily environment, watch TV and films in Arabic, engage with authentic texts, write short papers in Arabic, and perform other tasks expected from an Advanced Level learner.

The materials used to further language acquisition are culturally rich resources, and students completing the minor will have become familiar with many of the cultural patterns, social issues, historical events, artistic traditions, and elements of daily life of the people whose cultures are rooted in Arabic. Students interested in pursuing the minor in Arabic should contact the undergraduate advisor, who will be responsible for oversight and record keeping.

Students should declare the minor in Arabic at least one year prior to graduation.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Course	Title	Credits
Prerequisites		
ARAB104	Elementary Modern Standard Arabic I-II	6
ARAB105	Elementary Modern Standard Arabic III-IV	6
Total Credits		12

No prerequisites are required for students with equivalent knowledge. Placement testing is mandatory.

All prerequisites imply 'or equivalent knowledge.'

Course	Title	Credits
Courses required for Minor		
ARAB204	Intermediate Modern Standard Arabic I	6
ARAB205	Intermediate Modern Standard Arabic II	6
ARAB304	Advanced Modern Standard Arabic I	3
ARAB305	Advanced Modern Standard Arabic II	3
Additional 3xx or 4xx level course taught in Arabic [1]		3
Total Credits		21

[1] Contact the minor advisor for approved courses

Notes:

- Once credits have been received for a higher-level language focus course, a lower-level course in the same strand may not be taken for credit. (For example, ARAB204 may not be taken after ARAB205).
- In cases where a student has equivalent knowledge, required courses are replaced in consultation with minor advisor. All courses applied to the minor must be taught in Arabic.
- Students who begin their study as heritage speakers must seek the advice and written permission of the advisor before choosing the courses they will use to replace any required minor courses.

- A maximum of 6 credits can be applied to the minor from courses taken at other institutions. No more than 6 credits of the minor may be used to satisfy the requirements of a major. No courses in the minor may count toward another minor.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.

Arabic Studies Major

This 42-credit major in Arabic Studies provides students with a solid background in linguistic, literary, and cultural aspects of the modern Arab World, including the cultural domains of North Africa, Egypt, Arab Middle East, Arab diasporas in the U.S. and Europe, and minority communities in Arab countries (Armenian, Kurdish, Berber, Copts, etc.). The B.A. in Arabic Studies (ARAB) prepares students for a range of professional opportunities, including careers in government, education, business, and international development and communication. Students work toward competence in speaking, reading, writing, and listening. The Arabic Program offers extensive linguistic training in both literary Arabic (*fusHa*) and Arabic dialects (Egyptian and Levantine). Students will achieve cultural fluency by exploring diverse Arab societies and cultural zones and will learn to approach them from a global perspective. Many undergraduates will choose to double major or do a double degree in Arabic and another subject, including arts and humanities majors, business, computer science, and journalism.

PLACEMENT IN COURSES

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Program Learning Outcomes

1. Students will be able to interact at the Advanced level of proficiency in a way that mirrors native-speaker norms in a variety of non-specialist contexts.
2. Students will demonstrate comprehension of authentic written and oral texts intended for a native-speaker audience, including news articles, editorials, and literary texts.
3. Students will produce written texts in Modern Standard Arabic at the advanced level of proficiency.
4. Students will demonstrate awareness of important issues in Middle Eastern culture, and the ability to pursue a topic in depth at a level of analysis appropriate to an area specialist.

Requirements

Course	Title	Credits
Prerequisites		
Students must take the prerequisite courses or satisfy these requirements by placement: [1]		
ARAB104	Elementary Modern Standard Arabic I-II	6
ARAB105	Elementary Modern Standard Arabic III-IV	6
Total Credits		12

[1] Modern Standard Arabic is the formal variety of Arabic used throughout the Arab world, particularly for reading and writing. Egyptian Colloquial Arabic and Levantine Colloquial Arabic are among the major spoken varieties in the Middle East. All Arabic language courses implement the integrated method where Modern Standard Arabic and colloquial Arabic are taught simultaneously, as two registers of the Arabic linguistic discourse. Upon completing four semesters of Arabic (ARAB104, ARAB105, ARAB204, ARAB205), students may choose to take either the Egyptian dialect sequence (ARAB206, ARAB207) or the Levantine dialect sequence (ARAB210, ARAB211) to deepen their knowledge of the dialect and culture.

Course	Title	Credits
College Requirements (p. 134)

ARAB305	Advanced Modern Standard Arabic II	3
Select a dialect sequence of the following: [1]		6
Egyptian Dialect Sequence:		
ARAB206	Egyptian Colloquial Arabic I [1]	
ARAB207	Egyptian Colloquial Arabic II	
Levantine Dialect Sequence:		
ARAB210	[1]	
ARAB211		
Electives		**18**
Select a minimum of 18 credits listed below		
Total Credits		42

[1] Modern Standard Arabic is the formal variety of Arabic used throughout the Arab world, particularly for reading and writing. Egyptian Colloquial Arabic and Levantine Colloquial Arabic are among the major spoken varieties in the Middle East. All Arabic language courses implement the integrated method where Modern Standard Arabic and colloquial Arabic are taught simultaneously, as two registers of the Arabic linguistic discourse. Upon completing four semesters of Arabic (ARAB104, ARAB105, ARAB204, ARAB205), students may choose to take either the Egyptian dialect sequence (ARAB206, ARAB207) or the Levantine dialect sequence (ARAB210, ARAB211) to deepen their knowledge of the dialect and culture.

Once credits have been received for a higher-level language focus course, a lower-level course in the same strand (written or spoken) may not be taken for credit. (ARAB204 may not be taken after ARAB205, for example. ARAB107 may not be taken after ARAB206, etc.)

The Arabic language curriculum is designed for second language acquisition and targets non-native speakers. None of the Arabic language courses are open to fluent and native speakers of Arabic.

Electives

Required 3xx or 4xx level in Arabic (a minimum of 9 credits)

Course	Title	Credits
ARAB321	Arabic Media	3
ARAB386	Experiential Learning	3-6

ARAB398	Special Topics in Arabic Studies	3
ARAB399	Independent Study In Arabic	1-3
ARAB401	Readings in Arabic Literature	3
ARAB402	Arabic English Translation	3
ARAB499	Special Topics in Arabic Studies	3

- Other ARAB courses may be included on written approval of UG advisor.
- All pre-requisites imply 'or equivalent knowledge.' In cases of equivalent knowledge, required language-focus credits are replaced in consultation with, and with the written approval of, the undergraduate advisor.
- The majority of content courses taught in Arabic are not open to fluent and native speakers of Arabic.

Optional Electives in English: a maximum of 9 credits (no prereqs)

Course	Title	Credits
ARAB282	The Arab-Israeli Conflict through Readings in Translation	3
ARAB298	Special Topics in Arabic Studies	1-3
ARAB341	Filming War Zones: Representations of Wars in Iraq and Chechnya	3
ARAB410	Ideology of Stereotyping: American and Middle Eastern Film and Television	3
ARAB499	Special Topics in Arabic Studies	3

Certain courses in Middle Eastern Studies taught in English in other departments (depending on the content of the courses) can be substituted with the approval of the Undergraduate advisor and Program Director.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

For information on study abroad programs see the program advisor and/or the Education Abroad website: www.international.umd.edu/studyabroad (http://www.international.umd.edu/studyabroad/).

Four Year Plan

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors and/or Seniors to display their research projects. The Forum takes place in late April in the Language House (St. Mary's).

Internships

Annual Language Career and Internship Fair

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information see the SLLC website: http://www.sllc.umd.edu/.

Student Societies and Professional Organizations

Individual SLLC departments hold annual induction ceremonies for students who are eligible for honor society membership.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Chinese Language Minor

School of Languages, Literatures, and Cultures (SLLC)

sllc.umd.edu/chinese/ (http://sllc.umd.edu/chinese/)

The 15-credit minor in the Chinese language will provide students with a sophisticated understanding of Chinese linguistic knowledge and intermediate-level Chinese language skill. Students attempting this minor will need a strong background in Chinese at the level of CHIN101 and CHIN102/CHIN103, which are prerequisites for some of the required courses. This minor will be of particular relevance to students with a broad interest in learning the Chinese language. Students interested in taking this minor program should contact the Chinese advisor in the Department of East Asian Languages and Cultures.

To make an appointment to explore or declare a minor, go to: https://arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Course	Title	Credits
Select four of the following language courses:		12
CHIN201	Intermediate Spoken Chinese I	
CHIN202	Intermediate Written Chinese I	
CHIN203	Intermediate Spoken Chinese II	
CHIN204	Intermediate Written Chinese II	
CHIN205	Intermediate Chinese - Accelerated Track	
CHIN301	Advanced Chinese I	
CHIN302	Advanced Chinese II	
CHIN305	Life in China through TV Plays I	
CHIN306	Life in China through TV Plays II	
CHIN321	Classical Chinese I	
CHIN322	Classical Chinese II	
CHIN401	Readings in Modern Chinese I	
CHIN402	Readings in Modern Chinese II	
CHIN408	Selected Readings in Classical Chinese	
CHIN411	Business Chinese I	
CHIN412	Business Chinese II	
CHIN415	Readings in Current Newspapers and Periodicals	
Select one of the following linguistics-oriented courses:		3
CHIN307	Linguistic Landscape of China	
CHIN422	Advanced Chinese Grammar	
CHIN428	Selected Topics in Chinese Linguistics	
Total Credits		15

- Students must receive a 'C-' or better in all courses used for the minor. Of the 15 credits, 9 must be 300 or 400 level courses.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than 6 of the 15 credits toward the minor may be taken at an institution other than UMCP.

Chinese Major

The Chinese major (CHIN) provides the training and cultural background needed for entering East Asia-related careers in such fields as higher education, the arts, business, government, international relations, agriculture, or the media. Students may also consider a double major in Chinese and another discipline such as business, government and politics, economics, or journalism. Chinese students have the option of applying to live in St. Mary's Hall (Language House) and participating in a study abroad program.

PLACEMENT IN COURSES

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Program Learning Outcomes

1. Linguistically, students will reach Intermediate-High to Advanced-Low, as measured by ACTFL (American Council on the Teaching of Foreign Languages) standards, in speaking, listening, reading, and writing Mandarin Chinese.
2. Students will demonstrate a good understanding of the development of Modern Chinese in the 20th and 21st centuries.
3. Students will demonstrate a good understanding of the historical relationship between Modern Standard Chinese and Chinese dialects.
4. Students will demonstrate a good understanding of the characteristics of the Chinese writing system
5. Students will demonstrate a good understanding of the relationship between Chinese and minority languages spoken in China.
6. Literarily and culturally, students will demonstrate critical and close reading skills of classical and modern Chinese literature.
7. Students will demonstrate a good understanding of the inherent relationships between life, society, and fictional representation.
8. Students will demonstrate familiarity with representative works of contemporary Chinese literature and cinema.
9. Students will demonstrate a good understanding of the ability to see how art interacts with, and provides unique perspectives on politics, history, and society at large.

Requirements

The Chinese major requires 39 credits: 18 of language and 18 of non-language electives, as described below.

Course	Title	Credits
College Requirements (p. 134)		
Language Requirements		
Select 18 credits of Chinese Language at 2xx level or above: [1]		18
CHIN201 & CHIN202	Intermediate Spoken Chinese I and Intermediate Written Chinese I (must be taken and passed together)	
CHIN203 & CHIN204	Intermediate Spoken Chinese II and Intermediate Written Chinese II (must be taken together and passed together)	
CHIN301	Advanced Chinese I	
CHIN302	Advanced Chinese II	
CHIN305	Life in China through TV Plays I	
CHIN306	Life in China through TV Plays II	
CHIN401	Readings in Modern Chinese I	
CHIN402	Readings in Modern Chinese II	
CHIN415	Readings in Current Newspapers and Periodicals	
Literature		
Select 3 credits of Chinese Literature electives at 3xx level or above:		3
CHIN313	Chinese Poetry and Prose in Translation	
CHIN315	Modern Chinese Literature in Translation	

CHIN388	Topics in Chinese Literature in Translation	
CHIN418	Special Topics in Contemporary Chinese Fiction and Film	
CHIN441	Traditional Chinese Fiction	
CHIN443	Cultural Histories of Medicine in China	
Linguistics		
CHIN307	Linguistic Landscape of China	3
Select 3 credits of Chinese Linguistics at 3xx level or above:		3
CHIN422	Advanced Chinese Grammar	
CHIN428	Selected Topics in Chinese Linguistics	
EALL300	The Languages of East Asia	
History/Civilization		
Select 6 credits of Chinese history/civilization offered by other departments. Courses accepted include, but are not limited to:		6
HIST284	East Asian Civilization I	
HIST285	East Asian Civilization II	
HIST481	A History of Modern China	
Electives		
Select 6 credits of electives at 3xx level or above, subject to the advisor's approval [2]		6
CHIN321	Classical Chinese I	
CHIN322	Classical Chinese II	
CHIN331	Chinese Calligraphy: Theory and Practice	
CHIN332	Chinese Culture through Traditional Chinese Arts	
CHIN369	Special Topics in Study Abroad III	
CHIN408	Selected Readings in Classical Chinese	
CHIN429	Selected Topics in Chinese Studies	
Total Credits		39

1 Students placing into the program at higher levels should reach at least the level of CHIN302 or CHIN306 but may substitute non-language courses on China-related subjects for some of these 18 credits. (The final decision on what substitute courses may be used for the major rests with the Chinese Program and Chinese Advisor.)

2 In addition to all the specific courses listed under 'Non-language Requirements' above, language courses and independent study may also be used toward this requirement.

'Special Topics' and 'Colloquium' courses (those with variable numbers, ending in 8 or 9 and followed by a letter) may be acceptable depending on the actual title and content of the course at the time it is offered. The final determination is in the hands of the Chinese Program and the Chinese advisor.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Cinema and Media Studies Major (SLLC)

College of Arts and Humanities
3212 Jiménez Hall
301-405-4025
umdfilm@umd.edu
www.film.umd.edu (http://www.film.umd.edu)

Cinema and Media Studies is an interdisciplinary program in the humanities that enables students to explore an influential global art form in its aesthetic, cultural, economic, historical, and technological dimensions. The major takes a critical, textual approach to film, emphasizing scholarly viewing, interpreting, and writing about moving images. It provides students with a solid background in theoretical, critical, and aesthetic aspects of the study of film, including the history of the medium and the analysis of national cinemas, always keeping in view questions of how new media have changed both cinema itself and the study of cinema. The Cinema and Media Studies major brings together courses in cinema from varied nations, languages, and cultures and challenges students to understand the systems of transnational exchange that have characterized this medium from its inception.

Courses offered by this program may be found under the following acronyms: FILM, ENGL, SLLC.

Program Objectives

The major in Cinema and Media Studies teaches the fundamental skills required for a range of professional careers: critical thinking, historical awareness, research, information management, cogent development of ideas, and strong written and oral communication. Students will work toward competence in film analysis, critical viewing and writing, and visual literacy at a time when our culture is becoming increasingly dependent upon visual communication.

Program Learning Outcomes

1. Students will be able to analyze and interpret film aesthetics and technical structures of editing, cinematography, sound, and mise-en-scene.
2. Students will be able to identify and analyze diverse genres and movements in the history of film.
3. Students will be able to situate films produced in various parts of the world in relation to larger historical and cultural developments.
4. Students will understand the various uses of the moving image in its relation to the political, economic, and social history of the world over the past century.
5. Students will be able to conduct research in Cinema and Media Studies and to write persuasively.

Requirements

The Cinema and Media Studies major has four parts: a prerequisite course in Film Form (ENGL245/FILM245), a two-course Film History and Theory Foundation (FILM301 and FILM302), a six-course Film Criticism Core, and four Film Electives. The first two parts of the program assure that students have the necessary analytical tools and historical background to interpret diverse global cinematic traditions. The Film Criticism Core and Film Electives offer students the opportunity to explore genres, themes, and movements across different historical periods and to develop their skills in analysis, writing, and research.

General Policies

- The Cinema and Media Studies major requires 39 credits (13 courses).
- A grade of 'C-' or better is required in each of the courses making up the 39 credits of the major.
- Up to nine (9) credits may be taken at the 2xx-level.
- At least 6 of the 39 credits must be at the 4xx-level.

The Cinema and Media Studies major requires 39 credits, distributed as follows:

Course	Title	Credits
Film Form		
Select one of the following:		3
ENGL/ FILM245	Film Form and Culture [1]	
SLLC/FILM283		
Equivalent by permission of department		
Film History and Theory Foundation [2]		
FILM301	Cinema History I: The Silent Era	3
FILM302	Cinema History II: The Sound Era	3
Film Criticism Core Requirement [3]		
Select one course in Film Theories		3
Select two courses in Genres/Auteurs/Movements		6
Select two courses in National and International Cinemas		6
Select one course in Documentary, Animation, Experimental Cinema or other Visual Media		3
Film Electives [4]		
Select an option:		12
Option One:		
Select two courses from the Film Criticism category, any rubric		
Select two courses from the Film Electives category		
Option Two:		
Select four courses in Film Electives that create a coherent emphasis [5]		
Total Credits		39

1. Fulfills Gen Ed req. in Humanities. Cinema and Media Studies majors must take FILM245/ENGL245 before they take other 3xx or 4xx-level Cinema and Media Studies courses. We recommend that it be taken no later than sophomore year.
2. Students may take the two courses in any order.
3. At least one course in this category must be taken at the 4xx-level. For a list of courses that will satisfy each sub-category, please see www.film.umd.edu/major/courses.html (http://www.film.umd.edu/major/courses.html).
4. Up to two courses in this category may be taken at the 2xx-level. At least one must be taken at the 4xx-level. Please consult the full list of courses accepted for the major: www.film.umd.edu/major/courses.html (http://www.film.umd.edu/major/courses.html).
5. The four courses should be selected in consultation with the Cinema and Media Studies Advisor to allow students to explore a specific area of interest or an area related to their future academic or professional plans.

Other Requirements for the Major

FILM245 is a prerequisite for many 3xx-level courses in the major. Students are advised to complete that course early in their academic careers. Successful completion of FILM245 allows students to proceed to two courses required for the major: FILM301 and FILM302.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Advising

Academic advising is available throughout the year. Departmental academic advising is mandatory for all Cinema and Media Studies majors before registration for classes. Students should check Testudo (http://testudo.umd.edu/) for their registration date and schedule an advising appointment for at least one week in advance of their date. Advising appointments can be made via email: filmadvising@umd.edu.

To review the academic plan for this major, go to www.arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities Internships

Cinema and Media Studies offers students the opportunity to earn academic credit in connection with an internship, through FILM388 (Experiential Learning). Admission to FILM388 is by application only. See www.film.umd.edu (http://www.film.umd.edu) for more details.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

East Asian Studies Certificate (SLLC)

College of Arts and Humanities
2106D Jimenez Hall
301-405-0038
ly@umd.edu
http://www.ceas.umd.edu/#certificate

The Undergraduate Certificate in East Asian Studies is a 24-credit course of instruction designed to provide specialized knowledge of the cultures, histories, and contemporary concerns of the peoples of China, Japan, and Korea. It will complement and enrich a student's major. The curriculum focuses on language instruction, civilization courses, and electives in several departments and programs of the university. It is designed specifically for students who wish to expand their knowledge of East Asia and demonstrate to prospective employers, the public, and graduate and professional schools a special competence and set of skills in East Asian affairs.

Upon satisfactory completion of the courses, with a grade of 'C-' or better in each course, and recommendation by the Coordinator of the Certificate Program, a certificate will be awarded. Beginning with Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy undergraduate certificate requirements. A notation of the award of the certificate will be included on the student's transcript. The student must have a bachelor's degree awarded by Maryland (must be College Park campus) previous to or simultaneously with an award of the certificate.

CORE VALUES OF THE PROGRAM

- Vision: See the U.S. and East Asia as parts of one globalized world with cultural varieties.
- Knowledge: Acquire language skills, spatial and chronological thinking skills, and creative prowess through interdisciplinary study.
- Integrity: Adhere to the University's Code of Academic Integrity and professional ethics.

The Certificate will equip students to develop successful careers through teaching excellence and study abroad programs.

Interested students should contact the Coordinator of the Certificate Program, Dr. Lindsay A. Yotsukura, Department of East Asian Languages and Cultures, 2106D Jimenez Hall, ly@umd.edu (website at http://www.ceas.umd.edu/#certificate).

Requirements

Course	Title	Credits
HIST284	East Asian Civilization I	3
HIST285	East Asian Civilization II	3
Six semester hours of introduction to one of the following East Asian languages: [1]		6
CHINESE:	CHIN101	
JAPANESE:	JAPN101	
KOREAN:	Elementary Korean (KORA101 & KORA102)	
Complete at least 12 hours of electives selected from four regular approved courses on East Asia in such disciplines as:		12
Art History		
Business		
Ethnomusicology		
Government and Politics		
History		
Language, Linguistics, and Literature		
Music		
Plant Science and Landscape Architecture		
Sociology		
Women's Studies		
Total Credits		24

[1] Students with language competence equivalent to these language courses are exempted from the language requirement; such students are required to complete an additional six hours of electives in East Asian courses to fulfill the 24-credit requirement for the certificate.

Additional Requirements

- An overall GPA of 2.0 in the certificate is required for graduation.
- Nine of the 12 hours of electives must be upper division (3xx-4xx level courses).
- A maximum of three credit hours of special topics courses on East Asia will be allowed with the approval of the certificate coordinator.
- No more than nine credits from any one department or from the student's major may be applied toward the certificate.
- No more than nine credits of the courses applied toward the certificate may be transferred from other institutions.
- Students are asked to work with the coordinator in ensuring that the electives maintain an intercollegiate and interdisciplinary focus (at least three disciplines are recommended), as well as a regional distribution to reflect the countries of East Asia. Ideally, students will select electives that, taken together, include China, Japan, and Korea.

French Language and Literature

College of Arts and Humanities
3106 Jiménez Hall
301-405-4025
sllc.umd.edu/french/ (http://sllc.umd.edu/french/)

The Department of French and Italian offers French language instruction at the elementary and intermediate levels, as well as advanced courses in Francophone and French literature, French linguistics, and French and Francophone cultures, cinemas, and societies. Programs offered by the department include a Bachelor of Arts in French language and literature, a Master of Arts in French Studies, and a Ph.D. in Modern French Studies. Faculty expertise encompasses many fields from the Renaissance to the present. Students are strongly encouraged to take advantage of the study abroad programs in Montpellier (short summer program) and Nice (semester or year-long program), taught and administered by the department's faculty. Activities sponsored by the department include French National Week, Francophone Week, Senior Dinner and the Cercle Français events, in partnership with the French Cluster of the Language House.

Programs

Major

Minor

- French Studies Minor (p. 193)

Advising

Advisor: Dr. Erica Cefalo
emcefalo@umd.edu

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors and/or Seniors to display their research projects. The Forum takes place in late April in the Language House (St. Mary's).

Internships

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: http://www.sllc.umd.edu/.

Honors Program

For information, see: http://sllc.umd.edu/french/undergraduate/honors (http://sllc.umd.edu/french/undergraduate/honors/)

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

French Language and Literature Major

The undergraduate major in French (FREN) is centered on the study of the French language and the literatures and cultures of the French and Francophone people. Our faculty members teach a wide variety of courses in culture, literature, linguistics, stylistics, cinema, civilization, the contemporary French and Francophone world, and women's studies.

Students who complete the requirements for the major can expect to be able to speak, read, write, and understand French at a level that would allow them to communicate with native speakers, to recognize and interpret the diverse cultural perspectives and products of the French-speaking world, and to be culturally sensitive members of society.

Students of French have the option of living in the Language House. University faculty-led programs in Nice (semester or year-long) and Montpellier (summer) are offered by the Department, and all students majoring in French are encouraged to participate in either, or both, of these programs as an integral part of their curriculum. Students may also consider a double major in French and another discipline, such as College of Arts and Humanities majors, Business, International relations, Economics, or Journalism.

Students can satisfy the ARHU Global Engagement Requirement by taking the appropriate French language course sequence (103>203), or by taking a higher level French course.

Students must take language acquisition courses sequentially, i.e., 103, 203, 204, 250, etc. Once credit has been received in a higher-level language acquisition or grammar course, a lower-level course may not be taken for credit.

Advanced students of French may substitute 3xx or 4xx level electives for FREN204, FREN250, or FREN301, in consultation with the Advisor.

PLACEMENT IN COURSES

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Program Learning Outcomes

1. Demonstrate knowledge of the institutions, values, and cultural products of France and/or the francophone countries
2. Demonstrate proficiency in oral expression in French
3. Demonstrate proficiency in written expression in French

Requirements

Course	Title	Credits
College Requirements (p. 134)		
FREN204	French Grammar and Composition	3
FREN250	Introduction to Cultural and Textual Analysis	3
FREN301	Composition and Style	3
FREN387	Critical Writing on France and the French-Speaking World	3
FREN302	Translation: French to English	3
or FREN303	Translation: English to French	
Select one of the following:		3
FREN311	Advanced Oral Expression	
FREN312	France Today	
FREN399	Directed Study in French	
FREN351	From Romanticism to the Age of Modernism and Beyond	3
FREN352	From the Age of Epic and Romance to the Enlightenment	3
Select four additional FREN4xx level courses in literature, linguistics, film, and culture, of which only one may be in English		12
Total Credits		36

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Study Abroad

The Maryland-in-Nice program is one of the University of Maryland's oldest study abroad programs. Depending on placement, students studying for a semester in the program Maryland-in-Nice may earn up to 18 credits toward the completion of the major; students studying in Nice for the academic year may earn up to 33 credits. The department also administers a three-week intensive course in Montpellier (France). For information on study abroad programs, please see the program advisor and/or the Education Abroad website: http://globalmaryland.umd.edu/offices/education-abroad (http://globalmaryland.umd.edu/offices/education-abroad/).

language house

The French Cluster at the Language House Immersion Program is a living-learning community that promotes language learning and cultural competency through casual daily communication in French. Guided by a native speaker of French, students make a commitment to speak only in French with their housemates and participate in diverse creative activities. For information on the Language House Immersion Program, please see the program website: https://sllc.umd.edu/language-house (https://sllc.umd.edu/language-house/).

language partner program

SLLC-ISSS Language Partner Program (LPP) offers majors in any SLLC program at UMD the opportunity to meet with international students outside the classroom and practice their target language in an informal yet structured way. Language Partners (LPPs) meet on a regular basis at least once a week for one hour of conversation. For information on the Language Partner Program, please see the program website: https://globalmaryland.umd.edu/offices/international-students-scholar-services/sllc-isss-ea-language-partner-program (https://globalmaryland.umd.edu/offices/international-students-scholar-services/sllc-isss-ea-language-partner-program/).

French Studies Minor

School of Languages, Literatures, and Cultures (SLLC)
sllc.umd.edu/french/ (http://sllc.umd.edu/french/)

This 21-credit minor will provide students with a solid overview of linguistic, cultural, and literary aspects of the study of French.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Course	Title	Credits
Courses required for the minor, in this order, are:		
FREN204	French Grammar and Composition	3
FREN250	Introduction to Cultural and Textual Analysis	3
FREN301	Composition and Style	3
FREN387	Critical Writing on France and the French-Speaking World	3
Select three of the following: [1]		9
FREN302	Translation: French to English	
or FREN303	Translation: English to French	
FREN311	Advanced Oral Expression	
or FREN312	France Today	
FREN351	From Romanticism to the Age of Modernism and Beyond	
FREN352	From the Age of Epic and Romance to the Enlightenment	
Any 4XX-level course/s [1]		
Total Credits		21

[1] Starting in Fall 2013 one 4xx-level elective is required for completion of the minor in French studies.

- All courses must be in French.
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of Maryland in Nice, which allows the transfer of nine (9) credits.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- Students who matriculated in Fall 2012 or later must earn a cumulative GPA of 2.0 within their minor in order to graduate.
- Students who begin their study as native/fluent speakers should seek the advice of the advisor before choosing the courses they will use to replace the core minor courses.

Germanic Studies

College of Arts and Humanities
3215 Jiménez Hall
301-405-4025
https://sllc.umd.edu/german (https://sllc.umd.edu/german/)

We offer German language instruction at the elementary and intermediate levels, as well as advanced courses in German-language literature, culture, and film. Our curriculum also includes English-language courses focusing on the cultures of the German-speaking world, including popular classes on Grimms' Fairy Tales and German Cinema. Faculty expertise includes German literature and culture from the 18th through the 21st centuries, film studies, gender studies, postcolonial studies, and digital humanities. We strongly encourage our students to study abroad at one of our partner universities. Our students participate in a wide-range of programs and activities sponsored by the department, including the German Club, the National Honorary Society Delta Phi Alpha, and events sponsored by the German Cluster of the Language House. Many of our graduates go on to win prestigious fellowships through organizations such as Fulbright and the Congress-Bundestag Youth Exchange.

Germanic Language, Literature and Culture Minor

School of Languages, Literatures, and Cultures (SLLC)

sllc.umd.edu/german/ (http://sllc.umd.edu/german/)

This minor will provide students with an in-depth understanding of German language and literature as a source of culture. Building on these essentials, students can concentrate on language, literature, culture, or a combination of these fields. This will be accomplished by taking 5 courses beyond GERM203 or its equivalent. Students will determine, in close consultation with the German undergraduate advisor, how to constitute their own concentration.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

15 credits - 5 courses beyond GERM203 or its equivalent

- Courses taught in German beyond GERM203 or its equivalent
- 3 of these 5 courses (9 hours) must be 3xx or 4xx level: one language, one literature, and one culture
- Prerequisites: GERM103 and GERM203 are required, or their equivalents as determined through departmental advising
- All courses must be passed with a grade of 'C-' or higher.
- An overall GPA of 2.0 in the minor is required for graduation.

Germanic Studies Major

The 36-credit BA in Germanic Studies is centered on the study of the German language as well as the literatures and cultures of Germanic peoples. Students who complete the requirements for the major can expect to be able to speak, read, write, and understand German at a level that would allow them to communicate with native speakers. Additionally, students will be able to recognize and interpret the diverse cultural perspectives and products of the German-speaking world, in order to be culturally sensitive members of society.

Placement in Courses

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/)

Program Learning Outcomes

1. Students will be able to communicate effectively in writing in German by demonstrating accuracy in use of grammatical structures, using appropriate linguistic register, formulating persuasive arguments supported with appropriate textual evidence and incorporating secondary literature.
2. Students will be able to critically interpret written texts in a variety of genres (literature, realia, correspondence, newspaper and magazine articles, poems, dramas, etc.) and demonstrate knowledge of literary concepts.
3. Students will be able to communicate effectively in spoken German, demonstrating accuracy in use of grammatical structures, using appropriate linguistic register, and demonstrating a fluency in speaking that includes pronunciation that does not interfere with communication.
4. Students will be able to demonstrate knowledge of the institutions, values, and cultural products of Germany and/or the German-speaking world.

Requirements

Prerequisite: 8 credits: GERM103 and GERM203 or equivalent

Course	Title	Credits
College Requirements (p. 134)		
Core Language Sequence		
GERM204	German Grammar Review	3
GERM301	Conversation and Composition I: The German-Speaking World	3
GERM302	Conversation and Composition II: Current Topics in German-Speaking Society	3
Area Requirements [1]		
Select a minimum of 6 credits of the following language courses:		6
GERM315	Practicum in Translation I	
GERM319	Selected Topics in Germanic Language Studies	
GERM402	Advanced Conversation and Composition	
GERM419	Selected Topics in German Language Studies	
GERM473	Variation in Contemporary German Language	
Select a minimum of 6 credits of the following literature courses:		6
GERM320	Survey of German Studies	
GERM322	Highlights of German Literature and Culture	
GERM436	The Usual Suspects: Criminals in German Literature and Film	
GERM439	Selected Topics in German Literature	
GERM442	Gender and Sexuality in German Literature and Society	
GERM443	Literature as Cultural Discourse	
GERM444	The German-Jewish Experience	
GERM458	Literary or Media Genres	
Select a minimum of 6 credits of the following culture courses:		6
GERM255	Once Upon a Time: Fairy Tales of the Brothers Grimm [2]	
GERM289	Selected Topics in the Cultures of the Germanic Speaking Countries	
GERM299	Special Topics in Germanic Studies	
GERM383	The 'Warrior' in German Culture: From Valiant Knights to Brazen Terrorists	
GERM385	German Cinema	
GERM389	Topics in Germanic Culture [2]	
GERM399	Selected Topics in Germanic Studies	
GERM441	Border Crossings and Cultural Transfers	
GERM449	Selected Topics in Germanic Studies	
GERM489	Social Issues in German Culture	
Select two 3xx or 4xx level elective courses		6
Capstone Seminar Course		
GERM488	Capstone Seminar	3
Total Credits		36

1. A minimum of two 3xx or 4xx level courses in each of three areas: language, literature, and culture and 2 electives.
2. Taught in English

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Language of Instruction

No more than 6 credits of the 36 total required may be satisfied by courses taught in English. With the approval of the German Studies advisor, 3 of the 6 credits may be taken outside the department.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Internships

Internships (GERM386) are also encouraged (no more than 6 credits may be applied to the major). GERM386 may not replace the required 6 credits of 3xx or 4xx level courses in any of the three categories.

Study Abroad

For information on study abroad programs see the program advisor and/or the Education Abroad website www.international.umd.edu/studyabroad (http://www.international.umd.edu/studyabroad/).

Hebrew Studies Minor (SLLC)

College of Arts and Humanities
School of Languages, Literatures, and Cultures
sllc.umd.edu/hebrew (http://sllc.umd.edu/hebrew/)

The minor in Hebrew is an interdisciplinary program offered through the cooperation of the **School of Languages, Literatures, and Cultures (SLLC)** and the **Jewish Studies Program.**

The minor in Hebrew will prepare students to function in a wide variety of communicative situations in Hebrew-speaking settings. Students will hone their skills in reading, writing, listening, speaking and cultural understanding. The minor consists of 16 or more credits from five courses and includes required advanced language courses and electives in topics such as Israeli literature, Israel studies and Zionism, Israeli cinema and Hebrew Bible.

To make an appointment to explore or declare a minor go to: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

PROGRAM LEARNING OUTCOMES

1. Students will demonstrate proficiency in reading, writing, listening and speaking corresponding with the ACTFL definition of advanced-high.
2. Students will show an in-depth understanding of aspects of Israeli culture.

Requirements

The Minor in Hebrew Studies consists of at least 16 credits from five courses.

Additional restrictions:

- Nine credits of the minor must be at the upper level (300/400).
- No more than six credits (two courses) may count toward both the student's major and the Hebrew minor.
- No more than one upper-division course may be taken in English translation.
- Independent study and special courses offered in Winter and Summer terms may be counted toward the Minor with the approval of the Advisor.
- No more than six credits (one or two courses) may be taken at an institution other than the University of Maryland, College Park. All upper-division credits to be applied to the minor must be taken at this university.
- No course with an earned grade below "C-" may count toward the minor.
- An overall GPA of 2.0 in the minor is required for graduation.

Prerequisites

These courses, or similar background experience and Foreign Language Placement Assessment scores are pre-requisites and do not count toward the minor. Please note that course numbers may change, and students may place out of some of the courses.

Course	Title	Credits
HEBR106	Intensive Elementary Hebrew I	4
HEBR107	Intensive Elementary Hebrew II	4
HEBR206	Intermediate Intensive Hebrew I	4

Requirements for the Minor

Course	Title	Credits
Required Courses		
HEBR207	Intensive Intermediate Hebrew II	4
HEBR249	Special Topics in Hebrew Studies (taught in Hebrew)	3
HEBR313	Conversation and Composition I	3
HEBR314	Conversation and Composition II	3
Electives for the Minor [1]		**3**
JWST219	Special Topics in Jewish Studies (JWST219I Introduction to Israeli Cinema)	
JWST262	Introduction to the Hebrew Bible/Old Testament	
ISRL282	Introduction to Israeli Cinema	
JWST319	Special Topics in Jewish Studies (JWST319K Jewry of Muscle: Zionism and Jewish Masculinity)	
JWST319	Special Topics in Jewish Studies (JWST319Q Self and Other in Israeli Culture)	
HEBR381	Introduction to Hebrew Cultural Studies (taught in Hebrew)	
HEBR386	Experiential Learning (taught in Hebrew)	
HEBR499	Independent Study in Hebrew (taught in Hebrew)	
JWST478	Readings in Modern Hebrew (taught in Hebrew)	
HEBR498	Special Topics in Hebrew (taught in English or Hebrew)	
JWST459	Readings in Medieval Hebrew (JWST459D The Study of the Hebrew Bible in the Middle Ages)	
Total Credits		16

[1] Three or more credits required from these previously offered courses, or other relevant courses in Jewish literature, Israeli film, Biblical Hebrew, etc. may be approved by the advisor.
Note: it may be possible to arrange with JWST and ISRL professors to provide course texts and accept assignments in Hebrew rather than English. The language of instruction is often related to the proficiency abilities of the students in the class.

Note: Students who place into the advanced level may take HEBR313, HEBR314, and HEBR249. They must replace HEBR207 (a required course at the intermediate level) with the equivalent number of credits, selected in consultation with, or with the approval of, the Advisor.

Advising

The advisor (Dr. Karpman) meets with minor students when they declare their interest in the minor and again whenever students need to adjust their curricular plan. At the initial meeting, which should occur at least a year before graduation, the advisor helps the student map out a course of study within the program. The advisor is also responsible for assessing the completion of the requirements for the minor.

Humanities, Health and Medicine Minor

The ARHU minor in Humanities, Health, and Medicine engages students in an interdisciplinary curriculum that applies the methods, perspectives, and insights of the arts and humanities to health and medical education as well as practice. Through an exploration of human health and medicine using the inter-disciplinary questions and research methods of literary and cultural studies, as well as the arts, philosophy, communication, and history, the minor aims to develop and nurture skills such as empathy, ethical understanding, socio-cultural analysis, self-reflection, and an appreciation of diversity and inclusion that are essential for humane and effective medical care as well as sound health policy. This minor is open to all Undergraduate students on campus, regardless of major.

Program Learning Outcomes

1. Students aspiring to enter the health or medical professions will be able to demonstrate a fundamental understanding of the diverse historical, cultural, ethical, and spiritual dimensions of medicine, human health, disease, and death.
2. Students will be able to demonstrate a critical, interdisciplinary, empathetic, and holistic understanding of the issues and challenges faced by medical and health professionals.
3. Students will be able to analyze and evaluate complex texts relating to the social and cultural aspects of medicine through close reading and critical interpretation of arguments, metaphors, and images.
4. Students will demonstrate knowledge of the fundamentals of 'real world' professional application, research, and communication in the health and medical fields, including the research of resources particular to the health professions.

Requirements

Course	Title	Credits
Required Core Course		
ARHU230	Introduction to Humanities, Health, and Medicine	3
Take one course in three of the following five core areas		9
Arts and Literature of Health, Medicine, Disease, and Death		
Philosophical, Ethical, Religious, or Spiritual Perspectives on Health, Medicine, Disease, and Death		
Health Communication		
Historical Perspectives on Health, Medicine, Disease, and Death		
Cultural, Mental, Gender, or Social Dimensions on Health, Medicine, Disease, and Death		
ENGL395	Writing for Health Professions	3
One Elective [1]		3
Co-requirements: at least one of the above courses must have a Gen Ed diversity (UPS or CC) designation		
Total Credits		18

[1] Preferably a relevant internship experience or any course selected from the list of courses approved for the minor.

Area 1: Arts and Literature of Health, Medicine, Disease, and Death

Course	Title	Credits
ARTH389	Special Topics in Art History and Archaeology (ARTH389A: The Art of Drawing: A Left and Right Brain Experience)	
ARTH389	Special Topics in Art History and Archaeology (ARTH389B: The Art of Color: A Left and Right Brain Experience)	
ARTT100	Two-Dimensional Design Fundamentals	
ARTT110	Elements of Drawing I	
DANC398	Directed Studies in Dance (DANC398Y: Yoga, Improvisation and Embodied Metaphors: Investigating Philosophy through Movement)	
ENGL255	Literature of Science and Technology	
ENGL296	Reading and Writing Disability	
KNES289	Topical Investigations (KNES289W: The Cybernetic Human)	

Area 2: Philosophical, Ethical, Religious, or Spiritual Perspectives on Health, Medicine, Disease, and Death

Course	Title	Credits
ANTH210	Introduction to Medical Anthropology and Global Health	
ANTH221	Introduction to Forensic Sciences	
ANTH265	Anthropology of Global Health	
ANTH413	Health Disparities in the United States	
BMGT289I	Why Good Managers Make Bad Decisions	
CHIN443	Cultural Histories of Medicine in China	
DANC398	Directed Studies in Dance (DANC398Y: Yoga, Improvisation and Embodied Metaphors: Investigating Philosophy through Movement)	
FMSC110	Families and Global Health	
FMSC170	Modern Families	
FMSC190	Man Up! Where Are The Fathers?	
FMSC460	Violence in Families	
HIST329	Special Topics in History (HIST329B: Drugs in the Modern World)	
HIST401	Science and Gender	
HIST406	History of Technology	
HLTH325	Poor in America: Health and Wellbeing	
HLTH424	Lesbian, Gay, Bisexual & Transgender Health	
HLTH460	Minority Health	
HLTH471	Women's Health	
KNES289	Topical Investigations (KNES289W: The Cybernetic Human)	
PHIL140	Contemporary Moral Issues	
PHIL202	Know Thyself: Wisdom Through Cognitive Science	
PHIL203	The Rights and Wrongs of Killing People	
PHIL220	Bioethics: Regulating Right and Wrong	
PHIL250	Philosophy of Science I	
PHIL261	Philosophy of the Environment	
PHIL341	Ethical Theory	
PHIL344	Philosophy of Race	
PSYC301	Biological Psychology	
PSYC318	Community Interventions: Theory and Research (PSYC318D: Domestic Violence)	
PSYC498	Advanced Psychology II (Honors) (PSYC498L: Death, Dying and Grieving)	
SOCY236	Gender and Health	
SOCY335	Sociology of Health and Illness	
SOCY412	Family Demography	
SOCY413	Sociology of Aging	
WMST/ HLTH471	Women's Health	
WMST488	Senior Seminar (WMST488B: Health Inequality and Social Determinants)	

Area 3: Health Communication

Course	Title	Credits
ANTH210	Introduction to Medical Anthropology and Global Health	
ANTH265	Anthropology of Global Health	
ANTH323	Plagues, Pathogens and Public Policy	
ANTH412	Hypermarginality and Urban Health	
BMGT289I	Why Good Managers Make Bad Decisions	
COMM324	Communication and Gender	
COMM382	Essentials of Intercultural Communication	
COMM398	Selected Topics in Communication (COMM398E: Health Communication)	
COMM424	Communication in Complex Organizations	
COMM427	Crisis Communication	
COMM470	Listening	

EDSP376	Fundamentals of Sign Language
EDSP476	Communicating with Sign Language
ENGL297	Introduction to Professional Writing
ENGL390	Science Writing
ENGL393	Technical Writing
FMSC431	Family Crises, Emergencies and Interventions
FREN387	Critical Writing on France and the French-Speaking World
HLTH140	Personal and Community Health
HLTH285	Controlling Stress and Tension
HLTH325	Poor in America: Health and Wellbeing
HLTH424	Lesbian, Gay, Bisexual & Transgender Health
HLTH460	Minority Health
KNES260	Science of Physical Activity and Cardiovascular Health
PLCY359	Contemporary Issues in Political Leadership and Participation (PLCY359M: Leadership in the Information Age)
PSYC354	Multicultural Psychology in the U.S.
PSYC498	Advanced Psychology II (Honors) (PSYC498L: Death, Dying and Grieving)
SOCY236	Gender and Health
SOCY412	Family Demography
SOCY413	Sociology of Aging
SPAN371	Spanish for the Health Professions
WMST471	Women's Health

Area 4: Historical Perspectives on Health, Medicine, Disease, and Death

Course	Title	Credits
AASP189	(AASP189I: HIV/AIDS in a Global Perspective)	
ANTH265	Anthropology of Global Health	
ANTH323	Plagues, Pathogens and Public Policy	
ANTH413	Health Disparities in the United States	
ARTH389	Special Topics in Art History and Archaeology (ARTH389E: Intersections between Science and Visual Culture in the Early Modern World)	
CHIN443	Cultural Histories of Medicine in China	
FMSC170	Modern Families	
FMSC460	Violence in Families	
FREN449	Studies in 18th Century French Literature and Culture	
HIST204	Introduction to the History of Science	
HIST213	History of Sexuality in America	
HIST289	(HIST289Y: Zombies, Fear and Contagion: A Cultural History of Public Health, Medicine and Technology)	
HIST401	Science and Gender	
HIST404	History of Modern Biology	
HIST406	History of Technology	
PERS498	Special Topics in Persian Studies (PERS498M: Sex, Gender, and Sexuality in the Islamic World)	
PHIL250	Philosophy of Science I	
PSYC100	Introduction to Psychology	
WMST298	Special Topics in Women's Studies (WMST298D: Women's Bodies in Contention)	
WMST488	Senior Seminar (WMST488B: Health Inequality and Social Determinants)	

Area 5: Cultural, Mental, Gender, or Social Dimensions on Health, Medicine, Disease, and Death

Course	Title	Credits
AASP189	(AASP189I: HIV/AIDS in a Global Perspective)	
AASP441	Science, Technology, and the Black Community	
AMST260	American Culture in the Information Age	
AMST328	Perspectives on Identity and Culture (AMST328L: Introduction to Comparative Ethnic Studies)	
AMST498	Special Topics in American Studies (AMST498Q: Asian American Psychology)	
ANTH210	Introduction to Medical Anthropology and Global Health

Italian Studies

College of Arts and Humanities
3106 Jiménez Hall
301-405-4025
sllc.umd.edu/italian/ (http://sllc.umd.edu/italian/)

The Italian Program is committed to the promotion of Italian language and culture in Maryland, the United States, and the world. In our academic programs, we strive to provide outstanding and innovative instruction in Italian studies to prepare students to communicate effectively in spoken and written Italian, to gain and transmit knowledge of the cultural perspectives and artistic products of Italy, and to be culturally sensitive members of today's diverse society.

Programs

Major

- Italian Studies Major (p. 200)

Minor

- Italian Language and Culture Minor (p. 199)

Advising

Advisor: Dr. Giuseppe Falvo
gfalvo@umd.edu

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding Juniors and/or Seniors to display their research projects. The forum takes place in late April in the Language House (St. Mary's).

Internships

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: http://www.sllc.umd.edu/.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The Undergraduate Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC Undergraduate Research Forum.

Italian Language and Culture Minor

School of Languages, Literatures, and Cultures (SLLC)
sllc.umd.edu/italian/ (http://sllc.umd.edu/italian/)

The minor in Italian Language and Culture is an official recognition that a student has reached a certain level of proficiency in the target language. The minor will serve as a validation to potential employers of the student's proficiency in Italian.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

18 credits are required for this minor

Prerequisite: Successful completion of ITAL203 Intensive Intermediate Italian

Course	Title	Credits
ITAL204	Review Grammar and Composition	3
ITAL207	Reading and Writing in Italian	3
ITAL211	Intermediate Conversation	3
ITAL301	Italian Composition	3
ITAL311	Advanced Oral Expression: Current Events	3

Select one additional course taught in Italian at the 3xx or 4xx level	3
Total Credits	18

- All courses must be taught in Italian
- A maximum of six (6) credits can be applied to the minor from courses taken at other institutions, with the exception of the Study Abroad Program in Italy, which allows the transfer of nine (9) credits.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students who begin their study as native/fluent speakers should seek the advice of the Italian advisor before choosing the courses they will use to replace the core minor courses.

Italian Studies Major

The language of Italy has long been known as the language of culture. Italian is the language of art, of music, and of poetry. It is also the language of a wealthy, modern industrialized nation now playing an active role in a new United Europe. It is the intent of the Italian program (ITAL) to bring its students to a linguistic and cultural level of understanding so that they are able to participate actively in on-going events, both cultural and technological, in this dynamic country. The Italian program offers a range of courses well suited not only for students who are preparing themselves for graduate study, research or other professional development in the field of the humanities, but also for those who are specifically seeking a teaching career in education.

Program Learning Outcomes

1. Students will be able to communicate effectively in writing in Italian;
2. Students will be able to express knowledge of Italian culture and society orally at intermediate level according to ACTFL Standard scale;
3. Students will be able to summarize, understand and interpret written texts in a variety of genres and topics.

Placement in Courses

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/)

Requirements

Prerequisites: Successful completion of Italian language through intermediate level (ITAL203 or equivalent)

Course	Title	Credits
College Requirements (p. 134)		
Major Core Requirements		
ITAL204	Review Grammar and Composition	3
ITAL207	Reading and Writing in Italian	3
ITAL211	Intermediate Conversation	3
ITAL301	Italian Composition	3
ITAL311	Advanced Oral Expression: Current Events	3
ITAL401	Advanced Composition and Style	3
Additional Requirements		
ITAL251	Introduction to Italian Literature	3
or ITAL261	Cuisine, Culture, and Society in Italy Yesterday and Today	
Select two of the following:		6
ITAL351		
ITAL352		
ITAL361	Survey of Italian Society and Culture: From Fascism to the Seventies	
ITAL362	Survey of Italian Society and Culture: From the 1980s to thePresent Day	
Select three courses at the 4xx level [1]		12
Total Credits		39

[1] N.B. For each course at the 4xx level, Italian majors must register for a 1-credit colloquium (ITAL478)

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Japanese

College of Arts and Humanities
2106 Jiménez Hall
301-405-4025
sllc.umd.edu/japanese/ (http://sllc.umd.edu/japanese/)

The Department of East Asian Languages and Cultures (EALC) promotes a broad knowledge of and deep engagement with the languages, literatures, and cultures of China, Japan and Korea. We emphasize the common inheritance and enduring legacies of these countries, as well as the varied experiences of diverse groups within their ever-changing societies and communities. EALC offers BA programs in Chinese and Japanese, and minors in Chinese, Japanese, and Korean. The Center for East Asian Studies (CEAS) also offers a 24-credit undergraduate certificate program.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding juniors and/or seniors to display their research projects. The forum takes place in late April in the Language House (St. Mary's).

Internships

Annual Language Career and Internship Fair

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information see the SLLC website: http://www.sllc.umd.edu/.

Student Societies and Professional Organizations

Individual SLLC departments hold annual induction ceremonies for students who are eligible for honor society membership. The Japanese program participates in the College Chapter of the Japanese National Honor Society (https://www.aatj.org/jnhs/), which is overseen by the American Association of Teachers of Japanese (AATJ). Eligible students are inducted in the spring semester just prior to their graduation.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu). For information about Japan-specific scholarships for study abroad, please see the 'Opportunities' section of the Japanese major page of the catalog.

Awards and Recognition

The Undergraduate Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC Undergraduate Research Forum.

Japanese Major

The Japanese major provides the training and cultural background needed for entering East Asia-related careers in such fields as the arts, business, government, international relations, higher education, and the media. Students may also consider a double major in Japanese and another discipline, such as art history, business, economics, computer science, international relations, or linguistics. Another option available to students is a 24-credit undergraduate certificate in East Asian Studies.

After completing the prerequisite of one year of language (12 credits - JAPN101 Elementary Japanese I, six hours per week, fall or summer I; and JAPN102 Elementary Japanese II, six hours per week, spring or summer II), students must complete 42 credits for the major course requirements (24 language, 6 civilization/history, 12 elective).

Program Learning Outcomes

1. Upon completion of the core language sequence of JAPN 101-302, students will be able to ask and answer questions, handle topics related to their daily life and autobiographical topics by means of narration and description, engage in conversation in a participatory manner, and disagree by providing supporting reasons about a range of everyday topics, using passable grammar, vocabulary, and speech style(s) appropriate to specific social contexts.
2. Students will be able to read and understand kanji (Chinese characters) and kanji compound vocabulary introduced during the course; grasp the main points in a reading passage, analyze syntactic (grammatical) structures, recognize the function of polite (honorific/humble) language styles, and identify deleted subjects.
3. Upon completion of one or more courses in literary/cultural studies, students will demonstrate strong skills in interpreting a variety of literary, cultural, and historical texts in translation, and indicate a nuanced and deep understanding of the diversity of Japanese literature(s) and culture(s).

Placement in Courses

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Requirements

Students must take language-acquisition courses sequentially, and receive a grade of C- or better to advance to the next level. Once credit has been received in a higher level language acquisition or grammar course, a lower level course may not be taken for credit.

Course	Title	Credits
College Requirements (p. 134)		
Language Requirements		
JAPN201	Intermediate Japanese I	6
JAPN202	Intermediate Japanese II	6
JAPN301	Advanced Japanese I	6
JAPN302	Advanced Japanese II	6
Civilization/History Requirements		
Select an Option:		6
Option I:		

HIST284	East Asian Civilization I	
HIST483	History of Japan Since 1800	
Option II:		
HIST285	East Asian Civilization II	
HIST482	History of Japan to 1800	
Electives [1]		
Courses that fulfill the literature/cultural studies requirement for the major include (3xx-level or above):		3
JAPN314	Edo Text and Context: Origins of Japanese Popular Culture	
JAPN315	Reading Japanese Empire	
JAPN316	Women and Japanese Literature: Japanese Literature in Translation	
JAPN325	Modern Japanese Literature and Film (In Translation)	
JAPN424	Japan From the Margins	
JAPN425	The Atomic Bomb in Literature and Memory	
JAPN498	Special Topics in Japanese Studies	
Courses that fulfill the linguistics requirement for the major include (3xx-level or above):		3
JAPN421	History of the Japanese Language	
JAPN422	Introductory Japanese Linguistics	
JAPN428	Seminar in Japanese Discourse and Conversation Analysis	
JAPN438	Topics in Japanese Pragmatics	
Courses that fulfill general elective requirements (3xx-level or above):		3
JAPN311	Traditional Japanese Language and Culture	
JAPN401	Readings in Modern Japanese Literature	
JAPN402	Readings in Japanese Cultural Studies	
JAPN407	The Art of Translation	
EALL300	The Languages of East Asia	
Pertinent courses at the 3xx or 4xx level in History and Art History can be applied toward the general elective requirements. JAPN courses in literature/cultural studies or linguistics at the 3xx or 4xx level which are not being applied to those categories may also be applied to the general elective category.		3
Total Credits		42

[1] Electives must be in Japanese language, literature, linguistics, or other East Asian subjects (one must be in the area of Japanese linguistics and one in the area of Japanese literature), and are subject to approval by the student's advisor.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)

Opportunities

Internships

Students in the Japanese program have successfully applied for a number of internship opportunities through the Japanese Information and Cultural Center (JICC), The Japan-America Society of Washington, D.C. (JASWDC), and other local organizations. For more information, please see the program advisor.

Study Abroad

The Japanese program offers a number of exchange program opportunities on a semester or yearlong basis with Japanese universities including Keio and Waseda in Tokyo, as well as study abroad opportunities through programs such as the University Studies Abroad Consortium (USAC) in Osaka, Japan. For more information on study abroad programs, see the program advisor and/or the Education Abroad website globalmaryland.umd.edu/offices/education-abroad (http://globalmaryland.umd.edu/offices/education-abroad/).

Students are encouraged to pursue scholarship funding through the Bridging (https://www.aatj.org/studyabroad/japan-bridging-scholarships (https://www.aatj.org/studyabroad/japan-bridging-scholarships/)), Gilman (https://www.iie.org/Programs/Gilman-Scholarship-Program (https://www.iie.org/Programs/Gilman-Scholarship-Program/)), Watanabe (https://www.usjapancouncil.org/watanabe-scholarship/), Freeman (https://www.iie.org/Programs/Freeman-ASIA (https://www.iie.org/Programs/Freeman-ASIA/)), Boren (https://borenawards.org/eligible-programs#countries (https://borenawards.org/eligible-programs/#countries)) and Critical Language Scholarship (https://clscholarship.org/languages/japanese (https://clscholarship.org/languages/japanese/)) programs. We also urge you to seek advice when applying to such programs from UMD's National Scholarships Office (https://www.scholarships.umd.edu/); the staff there offer helpful workshops which can help you to prepare a successful application.

Japanese Minor

School of Languages, Literatures, and Cultures
https://sllc.umd.edu/japanese/undergraduate/minor (https://sllc.umd.edu/japanese/undergraduate/minor/)

This 15-credit minor is designed to provide a concentration in Japanese language and an introduction to the academic fields of Japanese literature, cultural studies, and linguistics. Additionally, the minor will allow Japanese heritage speakers the opportunity to engage in language study for special purposes (such as Business Japanese, Translation, or Classical Japanese) as well as in the study of Japanese linguistics, literature, and cultural studies.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/).

Requirements

Course	Title	Credits
Select 6 credits of Japanese language courses:		6
JAPN202	Intermediate Japanese II (6 credits)	

JAPN301	Advanced Japanese I (6 credits)	
JAPN302	Advanced Japanese II (6 credits)	
JAPN311	Traditional Japanese Language and Culture	
JAPN401	Readings in Modern Japanese Literature (3 credits)	
JAPN402	Readings in Japanese Cultural Studies (3 credits)	
JAPN407	The Art of Translation	
JAPN499	Directed Study in Japanese (3 credits)	
Select one Japanese linguistics course:		3
JAPN421	History of the Japanese Language	
JAPN422	Introductory Japanese Linguistics	
JAPN428	Seminar in Japanese Discourse and Conversation Analysis	
JAPN438	Topics in Japanese Pragmatics	
Select one Japanese literature/cultural studies course:		3
JAPN221	Radical Transformations in Japanese Culture	
JAPN314	Edo Text and Context: Origins of Japanese Popular Culture	
JAPN315	Reading Japanese Empire	
JAPN316	Women and Japanese Literature: Japanese Literature in Translation	
JAPN325	Modern Japanese Literature and Film (In Translation)	
JAPN424	Japan From the Margins	
JAPN425	The Atomic Bomb in Literature and Memory	
JAPN498	Special Topics in Japanese Studies	
Select one additional 3 credit course from the lists above.		3
Total Credits		15

- At least nine of the fifteen hours must be at the 3xx or 4xx level.
- Students must receive a 'C-' or better in all courses used for the minor.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than 6 of the 15 credits toward the minor may be taken at an institution other than UMCP.

Korean Studies Minor

School of Languages, Literatures, and Cultures
sllc.umd.edu/korean/ (http://sllc.umd.edu/korean/)

The Korean Studies Minor will provide students with a basic knowledge of Korea and its language and culture. Five 3-credit courses are required, and three of the five must be at the 3xx or 4xx level. This minor is open to both heritage and non-heritage students alike. Those interested should contact the faculty in the Korean Language Program for advising.

To make an appointment to explore or declare a minor, go to: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

15 credits are required for the minor.

Course	Title	Credits
Korean Language and Language-Related Courses		
Select two courses devoted specifically to Korean language or language-related studies from the following: [1]		6
KORA201	Intermediate Korean I	
KORA202	Intermediate Korean II	
KORA211	Introductory Reading for Speakers of Korean I	
KORA212	Introductory Reading for Speakers of Korean II	
KORA241	History of the Korean Language	
KORA242		
KORA311	Korean for Heritage Speakers, Advanced-Low I	
KORA312	Korean for Heritage Speakers, Advanced-Low II	
KORA345	Korean Language and Linguistics	
Korea-Related Courses		
Select three courses in Korea-related studies from fields such as history, sociology, and art history: [2]		9
HIST319	Special Topics in History (HIST319N Korean History)	
SOCY398	Special Topics in Sociology (SOCY398K Contemporary South Korean Society)	
HIST284	East Asian Civilization I [3]	
HIST285	East Asian Civilization II [3]	
HIST319	Special Topics in History (HIST319C Asian Age in World History)	
EALL300	The Languages of East Asia [2]	
GVPT359	Topics in Comparative Politics (GVPT359C Politics of Japan and Northeast Asia)	
ARTH290	Art and Society in Asia [3]	
Total Credits		15

1 Both must be at the second-year level or above.

2 At least one of these courses must have broad East Asian content to provide breadth to the minor.

3 East Asian courses

- Other Korea-related courses may be used to satisfy the requirements, subject to the approval of the Korean Program advisor.
- Three of the five required courses must be at the 3xx or 4xx level.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- No more than six credits can overlap with the major, and no more than six credits can come from off-campus (study abroad, transfer, etc.).

NOTE: CIC courses through the Big10 courseshare arrangements will be considered for the Korean Studies Minor

Persian Studies

College of Arts and Humanities
3215 Jiménez Hall
301-405-1891
sllc.umd.edu/persian/ (http://sllc.umd.edu/persian/)

Roshan Institute for Persian Studies at the University of Maryland aspires to be the premier center for the learning, understanding, and appreciation

of Persian culture in the United States. Toward this end, the Institute seeks to provide outstanding course offerings and programs in Persian language, literature, history, and culture; to foster communication and community ties among people of Persian heritage and those interested in Persian studies; and to serve as a model for encouraging intercultural communication among peoples of varying backgrounds. In pursuit of these goals, the institute offers a major and a minor in Persian Studies.

Advising

Advisor: Dr. Ali Abasi aabasi@umd.edu

To review the academic plan for this major, go to:

https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding juniors and/or seniors to display their research projects. The forum takes place in late April in the Language House (St. Mary's).

Internships

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: http://www.sllc.umd.edu/.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Persian Studies Major

The 36 credit major in Persian Studies (12 courses, excluding prerequisites) will provide students with a solid background in linguistic, literary, and cultural aspects of the study of Persian. This study will be inclusive of the cultures of Iran, Afghanistan, Persian-speaking Central Asia, and the Persian diaspora. Students work toward competence in speaking, reading, writing, and listening, in addition to studying the evolution of Iranian and Persianate cultures in their diverse perspectives, practices, and products. They will become conversant with the contemporary political and daily life of Persian-speaking peoples, with cultural comparison implicit throughout their 4 years.

The B.A. in Persian Studies (PERS) prepares students for a range of professional opportunities, including careers in government, education, the arts, business, and communication. Many undergraduates will choose to double major or do a double degree in Persian and another subject, including arts and humanities majors, business, computer science, engineering, and journalism.

Placement in Courses

For information about the Foreign Language Placement Assessment, go to: http://www.arhu.umd.edu/undergraduate/flpa (https://arhu.umd.edu/academics/foreign-language-placement/)

Program Learning Outcomes

1. Language Ability: Students develop and improve their language ability in speaking, listening, reading, and writing in Modern Standard Persian. Students demonstrate level-appropriate oral and written skills as assessed by Oral Proficiency Interviews (OPIs) and the University of Maryland Test of Persian Proficiency Test ©. At graduation this is defined as Intermediate High to Advanced levels of proficiency across skills.
2. Cultural Literacy: Students develop and improve their ability to function in relevant cultural, religious, and linguistic contexts and demonstrate cultural awareness through identifying and articulating cultural values and practices, similarities and differences, and successfully handling situations that require intercultural negotiation of meaning.
3. Analytical and Argumentative Skills: Students develop and improve their abilities to analyze various texts (including written, audio, visual) representing different genres and develop and improve their abilities in critical analysis. Students hone their critical thinking and discursive skills by demonstrating the ability to distinguish between opinions and facts and advancing their own reasoned arguments delivered in written or oral format.
4. Disciplinary Knowledge: Students demonstrate curriculum-based familiarity with key figures, texts and events within the social, cultural, and historical contexts of regions of the world where Persian has a significant linguistic or cultural presence.
5. Academic Skills: Students are able to produce and present source-based academic texts (oral and written) in Persian and/or English, display an awareness of various purposes and audiences, and demonstrate analytical skills as described under 3 above.

Requirements

All students planning to pursue the major in Persian Studies should contact the undergraduate advisor for Persian, who will be responsible for placement, oversight, and record keeping.

Course	Title	Credits
College Requirements (p. 134)		
Prerequisites [1]		
PERS101	Elementary Persian I	
PERS102	Elementary Persian II	

Course	Title	Credits
Core Sequence [2]		**18**
PERS201	Intermediate Persian I	
PERS211	Intermediate Conversation	
PERS202	Intermediate Persian II	
PERS212	Intermediate Reading in Persian	
PERS301	Advanced Persian I	
PERS302	Advanced Persian II	
Electives in Persian		
Select six credits of 3xx or 4xx level electives of the following:		6
PERS311	Persian Media	
PERS312	Contemporary Iranian Culture	
PERS386	Experiential Learning	
PERS401		
PERS402	Persian Translation	
PERS452		
PERS498	Special Topics in Persian Studies	
Electives in English		
Select up to 12 credits of the following: [3]		12
PERS251	Modern Iran	
PERS252	Gender and Body in Iran	
PERS283	Iranian Cinema	
PERS353	Iranian Life in Literature and Film	
PERS371	Introduction to Persian Literature in Translation	
PERS398	Special Topics in Persian Studies	
Supporting Area		
Select nine 3xx or 4xx level credits in a single area of study outside Persian Studies as a complement to the major [4]		9
Total Credits		45

1 There are no prerequisites for students with equivalent knowledge.

2 All prerequisites imply 'or equivalent knowledge.' In cases where a student has equivalent knowledge, required language-focus credits are replaced in consultation with undergraduate advisor. This may include courses in Arabic for those students who intend to study Persian literature in Persian, as Arabic is integral to the history of Persian Literature.

3 No prerequisites
Courses in Middle Eastern Studies taught in English outside the Department may be substituted on prior approval of the Undergraduate Advisor.

4 The area of study outside Persian Studies should be cleared with the undergraduate advisor upon declaring a major. Double majors and minors fulfill this requirement.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Scholarships Opportunities for Persian Study

1. Persian Language Flagship Scholarship

Persian Flagship students are eligible to receive need-based funding when it is most necessary – to support intensive domestic summer study at an approved institution (such as the University of Maryland Summer Language Institute), and for the domestic capstone year.

In order to apply for funding through the Flagship Program, students must demonstrate that they have actively pursued other scholarship opportunities. Each student has a **lifetime maximum of $20,000** that they are eligible to receive from The Language Flagship Program.

2. Boren Awards

Boren Scholars and Fellows study a wide range of critical languages (https://www.borenawards.org/eligible-programs/#languages), including **Persian**. Boren Awards are available to students of all proficiency levels who are committed to enhancing their skills.

The Boren Fellowships offer up to **$12,000** for summer intensive language study. If requested, the maximum total combined domestic and overseas award amount is **$30,000**. Domestic study is entirely optional but may be useful preparation for Boren Fellows whose overseas program requires that they arrive in country with strong language skills. See further guidance here (https://www.borenawards.org/eligible-programs/#fellows-domestic).

3. Critical Language Scholarship

The Critical Language Scholarship (CLS) Program is a fully funded summer overseas language and cultural immersion program for American undergraduate and graduate students. With the goal of broadening the base of Americans studying and mastering critical languages and building relationships between the people of the United States and other countries, CLS provides opportunities to a diverse range of students from across the United States at every level of language learning.

The CLS Program is a program of the U.S. Department of State.

Location: Dushanbe, Tajikistan

Requirements: One year of Persian Study before program begins, U.S. Citizenship

Deadline: November

Minimum GPA: N/A

Amount: Full cost of attendance provided. **Visit:** http://clscholarship.org/

4. Middlebury Institute of International Studies-Language Flagship Scholarship

The Middlebury Institute of International Studies at Monterey has partnered with The Language Flagship to provide a guaranteed scholarship of **$16,000** each year to its students. We recognize Language Flagship students and their commitment to language and cross-cultural communication as a valuable part of our campus community and global alumni network.

You may also receive additional **merit and need-based scholarships** depending on the strength of your application or financial situation.

HOW TO APPLY

1. Submit your application **(**http://www.miis.edu/admissions/apply/**)** for one of our degree programs by the next **priority deadline**. Please indicate that you're affiliated with Language Flagship when prompted on the online application.
2. You may also waive your application fee at **go.miis.edu/LFwaiver**.

For a host of other scholarships, please visit:

http://www.globalprofessionals.umd.edu/persian-scholarships (http://www.globalprofessionals.umd.edu/persian-scholarships/)

Persian Studies Minor

School of Languages, Literatures, and Cultures
sllc.umd.edu/persian/ (http://sllc.umd.edu/persian/)

This 15-credit minor (5 courses, excluding prerequisites) will provide students with a background in linguistic, literary, and cultural aspects of the study of Persian, including the cultures of Iran, Afghanistan, Persian-speaking Central Asia, and the Persian diaspora. Students will work toward linguistic competence in speaking, reading, writing, and listening. Additionally, students will be introduced to Iranian culture in its diverse perspectives, practices, and products. The Minor in Persian Studies complements a range of professions, which include careers in education, engineering, government, journalism, the arts, business, and communication.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

- A minimum of 9 credits must be earned through courses taught in Persian.
- Up to 6 may be earned from PERS courses taught in English.
- A minimum of 9 credits must be at the 3xx or 4xx level.
- All courses presented for the minor must be passed with a grade of 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- A maximum of 6 credits may be applied to the minor from courses taken at other institutions.

No courses applied to the minor may count toward another minor.

Prerequisites

Course	Title	Credits

1 All prerequisites imply 'or equivalent knowledge.'
2 No prerequisites

Advising

All students planning to pursue the minor in Persian Studies should contact the undergraduate advisor for Persian, who will be responsible for oversight and record keeping.

Portuguese Language, Literature, and Culture Minor

School of Languages, Literatures, and Cultures
sllc.umd.edu/spanish/portuguese (http://sllc.umd.edu/spanish/portuguese/)

This 15-credit minor will provide students with a solid overview of the linguistic, literary, and cultural aspects of Portuguese-speaking countries, with an emphasis on Brazil.

To make an appointment to explore or declare a minor, go to www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Prerequisite: PORT104 and PORT204 (or equivalent)

Course	Title	Credits
Select 15 credits of the following:		15
PORT205	Intermediate Reading and Conversation in Portuguese I	
PORT224	Brazilian Culture	
PORT228	Selected Topics in Latin American Literature and Society [1]	
PORT311		
PORT320	Survey of Portuguese Literature	
PORT321		
PORT350		
PORT378	[1]	
PORT408	Special Topics in Portuguese Literature	
PORT409	Special Topics in Brazilian Literature	
PORT421		
PORT470		
PORT478	Themes and Movements of Luso-Brazilian Literature in Translation [1]	
Total Credits		15

[1] Portuguese PORT228, PORT378, PORT478 are conducted in English. The majority of written assignments will be in Portuguese for those students in the minor program.

- A maximum of 6 credits may be applied to the minor from courses taken at other institutions.
- A maximum of 9 credits may be applied from a University of Maryland Study Abroad program.
- All courses must be passed with a grade of C- or better.
- An overall GPA of 2.0 in the minor is required for graduation.

Advising

Professor Regina Igel, ri@umd.edu, 301-405-6457.

Please write to Prof. Igel with the following information: whether you have already declared the minor in Portuguese, when you are planning to graduate, which courses you have taken in Portuguese (at UMD or elsewhere), and your reason for declaring the minor in Portuguese.

Romance Languages

College of Arts and Humanities
3106 Jiménez Hall
301-405-4025
sllc.umd.edu/roml/ (http://sllc.umd.edu/roml/)

The Romance Languages Program is intended for students who want to specialize in two of the romance language majors offered in SLLC: French, Italian, and Spanish. Students selecting this major take a total of 45 credits selected from courses in two of the three components. The first four courses listed under each group are required for that particular language component; exceptions or substitutions may be made with the approval of the departmental language advisor only, in consultation with the Romance Languages advisor. 21 credits are taken in each of the two languages, as specified, and three additional credits are taken at the 4xx level in either of the languages chosen. Literature or civilization courses may not be taken in translation. Students who wish to apply for Teacher's Certification should consult the College of Education.

College Requirements (p. 134)		
Requirements		
RUSS201	Intermediate Russian I	5
RUSS202	Intermediate Russian II	5
RUSS301	Advanced Russian I	3
RUSS302	Advanced Russian II	3
RUSS 3xx	One additional course at the 3xx level	3
RUSS401	Advanced Russian Composition	3
RUSS402	Practicum in Written Russian	3
RUSS4xx	Select one additional course at the 4xx level	3
RUSS	Two RUSS electives	6
Select two RUSS3xx or RUSS4xx level electives [1]		6
Total Credits		40

[1] Must be taught in Russian

Notes: One supporting course outside the department (at the 3xx or 4xx level) may be counted toward the major with an advisor's prior approval.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities
Study Abroad

Students majoring in Russian Studies are encouraged to spend a summer or a semester abroad. For information on study abroad programs see http://globalmaryland.umd.edu/offices/education-abroad. (http://globalmaryland.umd.edu/offices/education-abroad/)

Russian Studies Minor

College of Arts and Humanities
School of Languages, Literatures, and Cultures
www.russian.umd.edu (http://www.russian.umd.edu)

The Minor in Russian Studies is a series of five courses to be chosen in consultation with the departmental advisor. The completion of a Minor in Russian Studies provides students with a broad background in Russian language, literature, and culture.

To make an appointment or declare a minor, go to: www.arhu.umd.edu/academics/undergraduate-studies/minors (https://arhu.umd.edu/academics/undergraduate-studies/minors/)

Requirements

Prerequisites for the minor: RUSS102 (Elementary Russian) or the equivalent as determined by the department

Course	Title	Credits
Select fifteen credits/five courses of the following: [1]		15
Courses taught in Russian:		
RUSS201	Intermediate Russian I	
RUSS202	Intermediate Russian II	
RUSS210		
RUSS211		
RUSS301	Advanced Russian I	
RUSS302	Advanced Russian II	
RUSS303	Russian Conversation: Functional Skills	
RUSS307		
RUSS321	Survey of Russian Literature I	
RUSS322	Survey of Russian Literature II	
RUSS381	Russian Civilization (in Russian) I	
RUSS382	Russian Civilization (in Russian) II	
RUSS401	Advanced Russian Composition	
RUSS402	Practicum in Written Russian	
RUSS403	Russian Conversation: Advanced Skills	
RUSS404		
RUSS405	Russian-English Translation I	
RUSS406	Russian-English Translation II	
RUSS407		
RUSS409	Selected Topics in Russian Language Study	
RUSS410		
RUSS411	Linguistic Analysis of Russian I	
RUSS412	Linguistic Analysis of Russian II	
RUSS431		
RUSS432		
RUSS433	Russian Literature of the 20th Century	
RUSS434		
RUSS473		
Courses in English:		
RUSS221	Masterworks of Russian Literature I	
RUSS222	Masterworks of Russian Literature II	
RUSS281		
RUSS282	Contemporary Russian Culture	
RUSS298	Special Topics in Russian Language and Literature	
RUSS327		
RUSS328	19th Century Russian Literature in Translation	
RUSS398	Selected Topics in Russian Language and Literature	
RUSS439	Selected Topics in Russian Literature	
Courses in SLAVIC may also be counted toward the Russian Studies Minor:		
SLAV469		
SLAV475		
SLAV479		
Total Credits		15

[1] Note that in most cases, five courses of 3-credits each will fulfill the 15-credit requirement. However, RUSS201 and RUSS202 are 5 credit courses. If a student chooses to count these two courses as part of the minor, they are still required to complete three additional courses (for a total of five courses).

- Courses taken through Study Abroad programs may be applied.
- A minimum of six credits must be earned from courses in Russian.
- A minimum of nine credits must be at the 3xx or 4xx level.
- Transfer credits (from study abroad or another US institution) may count toward the minor with approval of the department. In most cases, a maximum of six transfer credits will be approved.
- All courses counting toward the minor must be passed with a 'C-' or better.
- An overall GPA of 2.0 in the minor is required for graduation.
- Substitutions of other departmental offerings may be approved by the advisor.

Advising

Oversight of the minor program falls under the normal academic processes of the Russian program in the School of Languages,

Literatures, and Cultures. The undergraduate advisor is responsible for ensuring that students are properly advised and that records are appropriately kept. For information on the Russian program, including advising, please visit http://sllc.umd.edu/russian (http://sllc.umd.edu/russian/).

Spanish Language, Literatures, and Culture

College of Arts and Humanities
2215 Jiménez Hall
301-405-6441
sllc.umd.edu/spanish/ (http://sllc.umd.edu/spanish/)

The signature of our department is its ability to put into play the singularity of literary and linguistic experiences in relation to politics and philosophy. By rethinking conventional historical, cultural and language boundaries across disciplines, our undergraduate and graduate programs critically engage different archives across the Americas, the Latina/o United States, the Luso-Brazilian world, and Spain in its Iberian and transatlantic contexts. Our intellectual agenda involves diverse forms of community and civic engagement. With a hemispheric and international perspective, our program fosters both critical and creative work. Our graduates are prepared for diverse career tracks in education, business, government, law, medicine, the arts, and social work.

Opportunities

Undergraduate Research Experiences

The School of Languages, Literatures, and Cultures has implemented an Annual SLLC Undergraduate Research Forum which allows its outstanding juniors and/or seniors to display their research projects. The forum takes place in late April in the Language House (St. Mary's).

Internships

Each fall semester, SLLC organizes a Language Career and Internship Fair in conjunction with the UMD Career Center. For more information, see the SLLC website: http://www.sllc.umd.edu/.

Honors Program

For information, see http://sllc.umd.edu/spanish/undergraduate/honors (http://sllc.umd.edu/spanish/undergraduate/honors/).

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers a variety of federal, state, and institutional financial assistance programs, and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The UG Committee organizes an annual awards ceremony to celebrate SLLC students who have earned SLLC, campus and/or national scholarships, and academic achievement awards. The awards ceremony takes place in conjunction with the annual SLLC UG Research Forum.

Spanish Language, Literatures, and Culture Major

The undergraduate major in Spanish Language, Literatures, and Cultures consists of 36 credits of coursework beyond the intermediate prerequisite level, with an additional supporting area (nine credits). All students will take a core of four courses and a three-course literature/culture sequence focused on Spain or Latin America. The remaining coursework will come from one of three tracks: (1) Literature, Culture, and Media; (2) Linguistics, Culture, and Education; or (3) Language, Culture, and Professional Contexts.

Placement in Courses

All students new to The School of Languages, Literatures, and Cultures (SLLC) courses must take the online Foreign Language Placement Assessment (FLPA) before registering for classes. Visit http://www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/) for more information.

Double Major/Double Degree

A student may wish to fulfill the major requirements in two chosen fields. If the two majors do not belong to the same college, the requirements of both colleges must be met. The courses for the other major will fulfill the Spanish Supporting Courses requirement. A double major may be earned with completion of all requirements and a total of 120 credits. A double degree may be awarded with completion of all requirements and a total of 150 credits. The student must decide on a primary and a secondary major. Academic decisions for each student are made by the primary college.

Program Learning Outcomes

Students who complete the requirements for the major in Spanish can expect to be able to speak, read, write, and understand Spanish at a level that would allow them to communicate with native speakers, to recognize and interpret the diverse cultural perspectives and products of the Spanish-speaking world, and to be culturally sensitive members of society. Students will acquire the following knowledge and skills:

1. Demonstrate understanding and knowledge of varied aspects of the cultures of the Spanish-speaking world and act in appropriate and culturally sensitive ways.

2. Show competence in speaking, reading, writing, and understanding Spanish as a way to communicate with other cultures.
3. Analyze and interpret a variety of texts and traditions from diverse Spanish-speaking cultures, including that of the United States.
4. Communicate effectively in Spanish both orally and in writing on a range of topics.
5. Conduct research in Spanish in the areas of language, literature, and culture.
6. Demonstrate bilingual functionality and therefore increase their marketability and performance in the work place.

To declare a major in Spanish, students should meet with the undergraduate advisor to begin the process.

Requirements

Prerequisites

11 credits (or equivalent knowledge)

Course	Title	Credits
SPAN103	Intensive Elementary Spanish	4
SPAN203	Intensive Intermediate Spanish	4
SPAN204	Spanish Grammar Review	3
Total Credits		11

Core sequence

Course	Title	Credits
College Requirements (p. 134)		
SPAN207	Reading and Writing in Spanish	3
or SPAN206	Spanish for Heritage Speakers I	
SPAN301	Advanced Grammar and Composition I	3
or SPAN306	Spanish for Heritage Speakers II	
SPAN303	Approaches to Cultural Materials in the Hispanic World	3
SPAN311	Advanced Communication I [1]	3
or SPAN316	Spanish Translation I	
Select one of the following sequences:		**9**
Sequence 1:		
SPAN331	Spanish Culture, Civilization and Literature I: Medieval Times	
SPAN332	Spanish Culture, Civilization and Literature II: Renaissance and Baroque	
SPAN333	Spanish Culture, Civilization and Literature III: Modern Times	
Sequence 2:		
SPAN361	Latin American Literatures and Cultures I: From Pre-Columbian to Colonial Times	
SPAN362	Latin American Literatures and Cultures II: From Independence to Nation Formation	
SPAN363	Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism	
Tracks		**15**
Select one of the following Tracks:		
Track 1: Spanish and Latin American Literature, Culture, and Media		
Track 2: Spanish Linguistics, Culture, and Education		
Track 3: Spanish Language, Culture, and Professional Contexts		
Supporting Area		
Select 9 credits in a single area other than Spanish, 6 of which must be at the 3xx or 4xx level, all with the approval of the Spanish advisor [2]		9
Total Credits		45

1 Not intended for native, near native, or fluent speakers.

2 Students should discuss their choice of supporting area with the Spanish advisor early on in their Spanish studies.

Tracks

Track 1: Spanish and Latin American Literature, Culture, and Media (15 Credits)

This option provides greater expertise in Spanish or Latin American literature, culture, and media. Students will take four 400-level Spanish or Latin American literature, culture, and media courses at a minimum and one class from the offerings in language, culture, and professional contexts as follows:

Course	Title	Credits
Select one of the following:		3
SPAN318	Translation of Technical Texts	
SPAN370	Spanish for Business I	
SPAN371	Spanish for the Health Professions	
SPAN372	Spanish and the Law	
SPAN373	Spanish in the Media	
SPAN374	Spanish in the Community	
SPAN375	Spanish in the Life Sciences	
SPAN470	Spanish for Business II	
Select four 4xx-level courses in Spanish or Latin American Literature, Culture, and Media		12
Total Credits		15

Track 2: Spanish Linguistics, Culture, and Education

This option provides greater expertise in Hispanic linguistics: three upper-level courses in linguistics and two courses from Spanish or Latin American Literature and Culture. It is also the partner program for Secondary Education.[1]

Course	Title	Credits
SPAN325	Hispanic Linguistics I: Phonetics and Phonology	3
SPAN425	Hispanic Linguistics II: Structures of Spanish	3
SPAN426	Hispanic Linguistics III: Language in Use	3
Select two 4xx-level courses in Spanish or Latin American Literature, Culture, and Media		6
Total Credits		15

1 The approved program in Spanish and Secondary Education requires 2 upper-level courses in literature and culture along with the three linguistics courses this option provides.

Track 3: Spanish Language, Culture, and Professional Contexts

This option combines courses in professional areas to provide a better understanding of professional language environments: three upper-level

courses from the language, culture, and professional contexts area and two classes from the offerings in language, culture, and media.

Course	Title	Credits
Select two of the following courses in Spanish in Language, Culture, and Professional Contexts:		**6**
SPAN318	Translation of Technical Texts	
SPAN370	Spanish for Business I	
SPAN371	Spanish for the Health Professions	
SPAN372	Spanish and the Law	
SPAN373	Spanish in the Media	
SPAN374	Spanish in the Community	
SPAN375	Spanish in the Life Sciences	
SPAN470	Spanish for Business II	
Select one of the following:		**3**
SPAN422	Intercultural Communication and Negotiation	
SPAN470	Spanish for Business II	
Select two 4xx-level courses in Spanish or Latin American Literature, Culture, and Media		6
Total Credits		15

Courses for Heritage Learners

Heritage learners and students from homes where Spanish is spoken or who have had in-depth exposure to Spanish take a series of courses designed to enhance their skills:

Course	Title	Credits
SPAN206	Spanish for Heritage Speakers I	3
SPAN306	Spanish for Heritage Speakers II	3
SPAN307	Oral Communication Skills for Heritage Speakers of Spanish	3

- Placement in courses for heritage learners is determined by speaking with the Spanish advisor.
- Native speakers and all others with the ability to begin coursework at a higher level should speak with the undergraduate advisor for course substitutions.

Students must earn a grade of 'C-' or higher in each course applied toward a major or minor in the School of Languages, Literatures, and Cultures. Additionally, an overall GPA of 2.0 in a major or minor is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities
Study Abroad

All students majoring in Spanish are encouraged to study abroad in a Spanish-speaking environment. The program advisor will review all proposed course sequences before the study abroad experience and determine equivalencies after official transcripts have been received by UMD (students should expect to present samples of work done abroad to advisor).

For information on study abroad programs, see the program advisor/website for Spanish http://sllc.umd.edu/education-abroad/spanish (http://sllc.umd.edu/education-abroad/spanish/) and/or the Education Abroad website: globalmaryland.umd.edu/offices/education-abroad (http://globalmaryland.umd.edu/offices/education-abroad/)

Combination of the Spanish Major and Teacher Certification

Students may combine the Linguistics, Culture, and Education track with a second major in Foreign Language Education to earn teacher certification. Students must take the California Achievement Test to become eligible for admission to the College of Education. Information and Declaration of Major forms can be found in room 1210 of the Benjamin Building. A graduate program in Education for teacher certification is available to students who receive a B.A. in Spanish from our department.

Note: All courses must be in Spanish.

Spanish Minor 3: Heritage Language and Latina/o Culture

College of Arts and Humanities
School of Languages, Literatures, and Cultures (SLLC)
sllc.umd.edu/spanish/ (http://sllc.umd.edu/spanish/)

The undergraduate minor in Spanish consists of three options, all of which require 18 credits of coursework beyond the intermediate prerequisite level and one of which the student must choose as a course of study. These three minors are: (1) Spanish Minor 1: Literature, Linguistics, and Culture; (2) Spanish Minor 2: Language, Culture, and Professional Contexts; and (3) Spanish Minor 3: Heritage Language and Latina/o Culture.

To declare a minor in Spanish, students should meet with the undergraduate advisor to begin the process.

PLACEMENT IN COURSES

All students new to SLLC courses must take the online Foreign Language Placement Assessment (FLPA) before registering for classes. For more information visit: www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Requirements

Prerequisites: SPAN103, SPAN203, SPAN204, or equivalent.

Course	Title	Credits
SPAN206	Spanish for Heritage Speakers I	3
SPAN306	Spanish for Heritage Speakers II	3

SPAN303	Approaches to Cultural Materials in the Hispanic World	3
SPAN311	Advanced Communication I	3
or SPAN316	Spanish Translation I	
Select one of the following:		**3**
SPAN307	Oral Communication Skills for Heritage Speakers of Spanish	
SPAN325	Hispanic Linguistics I: Phonetics and Phonology	
SPAN331	Spanish Culture, Civilization and Literature I: Medieval Times	
SPAN332	Spanish Culture, Civilization and Literature II: Renaissance and Baroque	
SPAN333	Spanish Culture, Civilization and Literature III: Modern Times	
SPAN361	Latin American Literatures and Cultures I: From Pre-Columbian to Colonial Times	
SPAN362	Latin American Literatures and Cultures II: From Independence to Nation Formation	
SPAN363	Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism	
Select one of the following:		**3**
One 3xx or 4xx-level course in Language, Culture, and Professional Contexts: [1]		
SPAN318	Translation of Technical Texts	
SPAN370	Spanish for Business I	
SPAN371	Spanish for the Health Professions	
SPAN372	Spanish and the Law	
SPAN373	Spanish in the Media	
SPAN374	Spanish in the Community	
SPAN375	Spanish in the Life Sciences	
SPAN422	Intercultural Communication and Negotiation	
SPAN470	Spanish for Business II	
One 3xx or 4xx-level course in Spanish or Latin American Literature, Culture, and Media		
SPAN425	Hispanic Linguistics II: Structures of Spanish	
or SPAN426	Hispanic Linguistics III: Language in Use	
Cross-listed with USLT and Bilingual Courses		
Total Credits		18

[1] Areas include: Translation, Business, Media, Health, Community Engagement/Education, Law, and Life Sciences.

Note: All courses must be in Spanish

- Heritage learners who place out of SPAN206 can follow the sequence SPAN306 (Spanish for Heritage Speakers II) and SPAN307 (Oral Communication Skills for Heritage Speakers of Spanish).
- Native speakers and all others with the ability to begin coursework at a higher level should speak with the Spanish Undergraduate Advisor for course substitutions.
- It is not permitted for students to take SPAN301 and SPAN303 simultaneously; this is possible only by permission of the Spanish Undergraduate Advisor.
- Two courses (up to six credits) from study abroad may apply toward the minor.

Spanish Minor 2: Language, Culture, and Professional Contexts

School of Languages, Literatures, and Cultures (SLLC)
sllc.umd.edu/spanish/ (http://sllc.umd.edu/spanish/)

The undergraduate minor in Spanish consists of three options, all of which require 18 credits of coursework beyond the intermediate prerequisite level and one of which the student must choose as a course of study. These three minors are: (1) Spanish Minor 1: Literature, Linguistics, and Culture; (2) Spanish Minor 2: Language, Culture, and Professional Contexts; and (3) Spanish Minor 3: Heritage Language and Latina/o Culture.

To declare a minor in Spanish, students should meet with the undergraduate advisor to begin the process.

PLACEMENT IN COURSES

All students new to SLLC courses must take the online Foreign Language Placement Assessment (FLPA) before registering for classes. For more information visit: www.arhu.umd.edu/undergraduate/flpa (http://www.arhu.umd.edu/undergraduate/flpa/).

Requirements

Prerequisites: SPAN103, SPAN203, SPAN204, or equivalent.

Course	Title	Credits
SPAN207	Reading and Writing in Spanish	3
SPAN301	Advanced Grammar and Composition I	3
SPAN303	Approaches to Cultural Materials in the Hispanic World	3
SPAN311	Advanced Communication I	3
or SPAN316	Spanish Translation I	
Select one of the following:		3
SPAN331	Spanish Culture, Civilization and Literature I: Medieval Times	
SPAN332	Spanish Culture, Civilization and Literature II: Renaissance and Baroque	
SPAN333	Spanish Culture, Civilization and Literature III: Modern Times	
SPAN361	Latin American Literatures and Cultures I: From Pre-Columbian to Colonial Times	
SPAN362	Latin American Literatures and Cultures II: From Independence to Nation Formation	
SPAN363	Latin American Literatures and Cultures III: From Modernism to Neo-Liberalism

School of Music

College of Arts and Humanities
2110 Clarice Smith Performing Arts Center
301-405-5549
www.music.umd.edu (http://www.music.umd.edu)

The objectives of the School of Music are:

1. to provide professional musical training based on a foundation in the liberal arts;
2. to help the general student develop sound critical judgment and discriminating taste in the performance and literature of music;
3. to prepare the student for graduate work in the field; and
4. to prepare the student to teach music in the public schools.

Programs

Major

- Music Major (p. 217)

Minor

- Music and Culture Minor (p. 216)
- Music Performance Minor (p. 218)

Advising

Departmental advising is mandatory for all music majors every semester. Please visit www.music.umd.edu (http://www.music.umd.edu) to find your appropriate advisor.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Student Societies and Professional Organizations

- Sigma Alpha Iota International Music Fraternity
- Kappa Kappa Psi National Honorary Band Fraternity
- Tau Beta Sigma National Honorary Band Sorority
- Phi Mu Alpha Sinfonia Fraternity of America
- The National Association for Music Education (NAfME)

Scholarships and Financial Assistance

The School of Music offers merit-based scholarships upon a student's acceptance into the school. Scholarships are based on the quality of the application, which includes the audition.

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The Presser Award is granted each May to a music student with junior standing who demonstrates both performance and scholastic excellence, as determined by the music faculty, and carries with it a significant financial award to help the recipient in his/her senior year.

Academic Programs and Departmental Facilities

The UMD School of Music is located in the Clarice Smith Performing Arts Center, a 318,000 square foot campus facility dedicated to Music, Theatre, Dance and Performance Studies. Completed in 2001, the center includes six state-of-the-art performance venues, the Michelle Smith Performing Arts Library, and specialized classroom and rehearsal spaces.

Music and Culture Minor

The Music and Culture Minor Program offers students from any discipline or major the opportunity to study the ways in which human cultural diversity is represented through music, and to learn how musical practices and values, including those embedded in the teaching and transmission of music, relate to core values in a particular culture or subculture. They will also develop skills in hearing, thinking about, analyzing, discussing, and writing about music and relating it to other aspects of human life.

The Program's curriculum has three components: 1) courses that use the concepts, methods, and theoretical approaches of ethnomusicology (an interdisciplinary field of study that focuses on music in culture and in global contexts) to explore diverse musical cultures and genres; 2) courses that provide more in-depth case studies of particular musical cultures or regions; and 3) world music ensemble courses that complement knowledge about musical practices with embodied knowledge of how they are transmitted and performed.

Requirements

Course	Title	Credits
Any two 2xx-level courses in Musicology and Ethnomusicology including: [1]		**6**
MUSC204	Popular Music in Black America	
MUSC210	The Impact of Music on Life	
MUSC215	World Popular Musics and Identity	
MUSC220	Selected Musical Cultures of the World	
MUSC289I	Exploring the Power of Musical Performance in Social Engagement	
Three 400-level courses, including at least two of the MUSC438 area studies courses. [2]		**9**
Recent offerings include:		
MUSC 438D	Music of Bolivia, Peru, and Ecuador	
MUSC 438E	Music of the Balkans	
MUSC 438K	Music in the Middle East	
MUSC 438M	Mexican and Mexican/American Music	
MUSC 438S	Music of Southeast Asia	
MUSC 438X	Music of China and Japan	
The following courses may also be used to satisfy this requirement:		
MUSC435	Music of North America	
MUSC448	MUSC448F Music and Film in Cross-Cultural Perspectives	
Performance Courses [3]		**4**
Four semesters of World Music Ensembles. The following courses have been approved:		
MUSC129	MUSC129G Ensemble: Balinese Gamelan	
MUSC129	MUSC129K Ensemble: Japanese Koto	
MUSC129	MUSC129L Ensemble: Advanced Japanese Koto	
MUSC129	MUSC129Q Ensemble: Korean Percussion	
Total Credits		19

1 These courses also satisfy General Education requirements, usually in Humanities and Plural Societies.
In consultation with the Coordinator of Ethnomusicology, other courses may be substituted.

2 Each of these courses covers a different geographic area, and their topics vary from semester to semester (at least three different MUSC438 courses are generally offered over any two-year period).

3 Other than in the Advanced Japanese Koto class (or other advanced classes that may be added in the future), none of these classes require any prior performance experience. All of these ensemble courses may be repeated for credit, but students must take ensembles from at least two different culture areas. Other performance courses (including dance) may be substituted on a case-by-case basis. Other courses approved as World Music Ensembles are added.

Policies

No more than six credits may be applied to satisfy both the requirements of this minor and a student's major program. So long as this rule is followed, a student majoring in Music (BM, BME, or BA) may add this minor. No course used to satisfy this minor may be used to satisfy another minor. All courses in the minor must be completed with a

minimum grade of C-. A minimum cumulative grade point average of C (2.00) must be obtained across the courses in the minor.

Music Major

Admission to the Major

Admission to all undergraduate music degree programs (B.M., B.A., B.M.E. and Performance Minor) is based on a required School of Music application and performance audition and/or interview before a faculty committee. An application to the School of Music is also required for admission to the Music and Culture Minor. In some instruments/areas, a pre screen recording is also required. The application, audition dates and requirements are available at www.music.umd.edu (http://www.music.umd.edu/)

Placement in Courses

Required music courses and private lessons are open to music majors who have completed the specified prerequisites or their equivalents. Lessons may be available for qualified non-music majors, if resources (teacher, time, funding, facilities) are available. All large performing ensembles in the School of Music are open by audition to any student at the university.

Program Objectives

Objectives of the School of Music are:

1. Provide professional musical training based on a foundation in the liberal arts
2. Help the general student develop critical sound judgment and discriminating taste in performance and literature of music
3. Prepare the student for graduate school entrance requirements
4. Prepare the student to teach music in the public schools

Program Learning Outcomes

Bachelor of Music

1. Students will understand, analyze, and demonstrate knowledge of fundamental concepts of aural skills.
2. Students will be able to perform a variety of repertoire appropriate for their selected instrument as a soloist and member of an ensemble.
3. Composition track students will compose original works in a variety of media.
4. Jazz Studies track students will demonstrate in-depth knowledge and skills in improvisation in a variety of styles.
5. Music teacher candidates will have in-depth knowledge of music as described by professional, state, and institutional standards. Teacher candidates can effectively plan classroom-based instruction and activities for their roles as teachers. Teacher candidates' knowledge, skills, and dispositions are applied effectively in practice.

Bachelor of Arts

1. Students will understand, analyze, and demonstrate knowledge of fundamental concepts of aural skills.
2. Students will be able to perform a variety of repertoire appropriate for their selected instrument as a soloist and member of an ensemble.
3. Composition track students will compose original works in a variety of media.
4. Jazz Studies track students will demonstrate in-depth knowledge and skills in improvisation in a variety of styles.
5. Music teacher candidates will have in-depth knowledge of music as described by professional, state, and institutional standards. Teacher candidates can effectively plan classroom-based instruction and activities for their roles as teachers. Teacher candidates' knowledge, skills, and dispositions are applied effectively in practice.

Bachelor of Music Education

1. Students will understand, analyze, and demonstrate knowledge of fundamental concepts of aural skills.
2. Students will be able to perform a variety of repertoire appropriate for their selected instrument as a soloist and member of an ensemble.
3. Composition track students will compose original works in a variety of media.
4. Jazz Studies track students will demonstrate in-depth knowledge and skills in improvisation in a variety of styles.
5. Music teacher candidates will have in-depth knowledge of music as described by professional, state, and institutional standards. Teacher candidates can effectively plan classroom-based instruction and activities for their roles as teachers. Teacher candidates' knowledge, skills, and dispositions are applied effectively in practice.

Requirements

The Bachelor of Music Degree (BM)

Designed for qualified students with extensive pre-college training and potential for successful careers in professional music. B.M. degree programs are offered in the following: Piano, Voice, Violin, Viola, Cello, Bass, Flute, Oboe, Clarinet, Bassoon, Saxophone, Horn, Trumpet, Trombone, Tuba, Euphonium, Percussion, Harp, Composition, Jazz Studies and Theory.

The College of Arts and Humanities requirements of 45 3xx or 4xx-level credits and the Global Engagement Requirement are waived for students majoring in B.M. Degree programs.

Bachelor of Music (BM) Requirements

In addition to General Education courses, BM students generally complete the following:

- 8 semesters of private lessons (Senior Recital in final semester)
- 8 semesters of large ensemble participation
- 8 semesters of small ensemble participation
- 4 semesters of music theory
- 2 semesters of music history
- 1 semester of 400 level music history elective
- 2 semesters of class piano (Except Piano Majors)
- 1 semester of form and analysis
- 1 semester of conducting
- 1 semester of music literature
- 1 semester of music pedagogy
- 1 semester of global music
- 3 credits of music electives

The BM programs vary according to instrument or emphasis. Please visit www.music.umd.edu (http://www.music.umd.edu) for specific requirements.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

The Bachelor of Arts Degree in Music (BA)

Designed for qualified students whose interests include a broader liberal arts experience. The College of Arts and Humanities requirement of 45 3xx or 4xx-level credits and the Global Engagement Requirement apply to all B.A. students. B.A. degree programs are offered in the following: Piano, Voice, Violin, Viola, Cello, Bass, Flute, Oboe, Clarinet, Bassoon, Saxophone, Horn, Trumpet, Trombone, Tuba, Euphonium, Percussion, Harp and Jazz Studies.

Bachelor of Arts in Music (BA) Requirements

In addition to General Education courses, BA Music students generally complete the following:

- 5 semesters of private lessons (Senior Recital in final semester)
- 5 semesters of ensemble participation
- 4 semesters of music theory
- 2 semesters of music history
- 1 semester of global music
- 2 semesters of class piano (Except Piano Majors)
- 1 semester of form and analysis
- 6 credits of music electives

The BA programs vary according to instrument or emphasis. Please visit www.music.umd.edu (http://www.music.umd.edu) for specific requirements.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

The Bachelor of Music Education Degree (BME)

Designed for qualified students preparing for careers in PreK-12 teaching of music, the Bachelor of Music Education (BME) offered by the College of Arts and Humanities carries with it a teaching certification from the College of Education. BME degrees are offered with concentrations in either Instrumental Music Education or Choral-General Music Education.

The requirements for a BME are similar to the BM program plus approximately 48 credits in music education. Please visit www.music.umd.edu (http://www.music.umd.edu) for specific requirements.

Bachelor of Music Education (BME) Requirements

In addition to General Education requirements, Music Education students generally complete the following (for a total of 134-140 credits):

Bachelor of Music Education-Instrumental Track

- 7 semesters of private lessons (Senior Recital in final semester)
- 7 semesters of large ensemble participation
- 4 semesters of music theory
- 2 semesters of music history
- 1 semester of 400 level music history elective
- 2 semesters of class piano (Except Piano Majors)
- 1 semester of conducting
- 1 semester of global music
- 27 credits MUED class instruments and field experience
- 6 credits EDHD Human Development
- 3 credits TLPL Education Policy Studies
- 2 credits MUED474 Pre-Student Teaching
- 6 credits MUED484 Student Teaching in Elementary School: Music
- 6 credits MUED494 Student Teaching in Secondary School: Music

Please visit www.music.umd.edu (http://www.music.umd.edu) for specific requirements.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Bachelor of Music Education-Choral/General Track

- 7 semesters of private lessons (Senior Recital in final semester)
- 7 semesters of large ensemble participation
- 4 semesters of music theory
- 4 semesters of class piano (Except Piano Majors who take voice and upper level piano)
- 2 semesters of music history
- 1 semester of 400 level music history elective
- 1 semester of conducting
- 1 semester of global music
- 4 credits MUSC class instrument and vocal diction
- 17 credits MUED class instruments and field experience
- 6 credits EDHD Human Development
- 3 credits TLPL Education Policy Studies
- 2 credits MUED474 Pre-Student Teaching
- 6 credits MUED484 Student Teaching in Elementary School: Music
- 6 credits MUED494 Student Teaching in Secondary School: Music

Please visit www.music.umd.edu (http://www.music.umd.edu) for specific requirements.

No course grade below the grade of 'C-' may count toward the major. An overall GPA of 2.0 in the major is required for graduation.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)

Music Performance Minor

School of Music
2110 Clarice Smith Performing Arts Center
301-405-5549
www.music.umd.edu (http://www.music.umd.edu)

This minor provides students with high-level training in instrumental or vocal performance. Four semesters of individual study are taken concurrently with four semesters of ensemble. MUSC130 and MUSC140

provide basic historical and theoretical background in support of performance studies.

Admission to the minor in music performance is based on a required performance audition before a faculty committee prior to enrolling in the minor. Audition information, including requirements, can be found at www.music.umd.edu (http://www.music.umd.edu).

Students who fulfill minor requirements will receive a minor on the official transcript. Please contact the School of Music office for more information.

Requirements

Course	Title	Credits
MUSP302	Music Performance	2
MUSP303	Music Performance	2
MUSP402	Music Performance	2
MUSP403	Music Performance	2
Select four semesters of ensemble of the following:		4
MUSC129	Ensemble	
MUSC229	Ensemble	
MUSC329	Ensemble	
MUSC130	Survey of Music Literature	3
MUSC140	Music Fundamentals I	3
Total Credits		18

No course grade below the grade of 'C-' may count toward the minor. An overall GPA of 2.0 in the minor is required for graduation.

School of Theatre, Dance, and Performance Studies

College of Arts and Humanities
2806 Clarice Smith Performing Arts Center
301-405-6676
tdps@umd.edu
http://tdps.umd.edu

The unique structure of the School of Theatre, Dance, and Performance Studies provides the opportunities of a larger community in which students can interconnect and collaborate between the different degree programs. While the degree programs in the dance and theatre disciplines retain their individuality, the school affords the inter-disciplinary prospects that enable landmark creativity and scholarship to flourish. Dynamic interaction between faculty, staff, and students encourages innovative ideas and new initiatives.

- Theatre Major (p. 222)

Minor

- Arts Leadership Minor (p. 224)

Advising

Dance

The College of Arts and Humanities has a dual track advising system where students meet with college advisors to discuss their ARHU and general education requirements and meet with departmental advisors to discuss the major requirements. The Dance ajor requires mandatory advising each semester to keep in touch with our student base and assist majors and double majors with curricular and co-curricular choices. Advising procedures and instructions to sign up for an advising appointment can be found on the TDPS website at http://tdps.umd.edu and under the heading 'BA Dance.'

or, you may contact:

Susan Miller, Coordinator of Student Services and Academic Advisor
smille13@umd.edu

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Theatre

The College of Arts and Humanities has a dual track advising system where students meet with college advisors to discuss their general education and college requirements and with departmental advisors to discuss their major requirements. The Theatre major requires mandatory advising each semester to keep in touch with our student base and assist majors and double majors with curricular and co-curricular choices. Advising procedures and instructions to sign up for an advising appointment can be found on the TDPS website at http://tdps.umd.edu and under the heading 'B.A. Theatre.'

Or, you may contact:

Susan Miller, Coordinator of Student Services and Academic Advisor
smille13@umd.edu

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Dance

Internships

Dance majors may register for up to 6 credits of internship work under the DANC286 or DANC386 course number. Internships may be done during the academic year or during the summer. Internships may be done for credit and salary, or, an internship may be done just for credit. Information about the internship procedure may be found on the School of Theatre, Dance, and Performance Studies website. Internships are not required but are strongly encouraged.

Scholarships and Financial Assistance

Scholarships and financial assistance may be awarded to prospective and enrolled students through a number of Creative and Performing Arts (CAPA) scholarships and other Dance Scholarship Award Funds.

For further information, visit the TDPS website at http://tdps.umd.edu and select 'Scholarships and Awards' on the BA Dance page.

Academic Programs and Departmental Facilities

Dance is housed in the Clarice Smith Performing Arts Center, a state-of-the-art performing arts center comprised of ten interconnected structures occupying 318,000 square feet and situated on a 17-acre site at the northwest end of the campus. The center is designed to serve the dance, theatre, music, and programs of the university and also houses the Michelle Smith Performing Arts Library. With 30 classrooms, 50 practice and rehearsal rooms, and fully outfitted costume, electric, scenic production, paint, and properties shops, the center serves more than 5,000 students, 200 faculty and staff, and numerous regional, national, and international audiences and professionals. For further information, visit the Clarice Smith Performing Arts Center website at https://theclarice.umd.edu (https://theclarice.umd.edu/).

Theatre

Internships

Theatre majors may register for up to 6 credits of internship work under the THET286 or THET386 course number. Internships may be done during the academic year or during the summer. Internships may be done for credit and salary, or, an internship may be done just for credit. Information about the internship procedure may be found on the School of Theatre, Dance, and Performance Studies website. Internships are not required but are strongly encouraged.

Scholarships and Financial Assistance

Scholarships and financial assistance may be awarded to prospective and enrolled students through a number of Creative and Performing Arts (CAPA) scholarships, and various Theatre Scholarship/Awards Funds. For further information visit the TDPS website at http://tdps.umd.edu and select 'Scholarships and Awards' on the BA Theatre page.

The Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

At the spring TDPS commencement ceremony, the Charles B. Hale Award is presented to the two members of the senior class who have done the most for the advancement of dramatic art while undergraduates at the University of Maryland.

Academic Programs and Departmental Facilities

Theatre is housed in the Clarice Smith Performing Arts Center, a state-of-the-art performing arts center comprised of ten interconnected structures occupying 318,000 square feet and situated on a 17-acre site at the northwest end of the campus. The center is designed to serve the theatre, music, and dance programs of the university. The center also houses the Michelle Smith Performing Arts Library. With 30 classrooms, 50 practice and rehearsal rooms, and fully outfitted costume, electric, scenic production, paint, and properties shops, the center serves more than 5,000 students, 200 faculty and staff, and numerous regional, national, and international audiences and professionals. For further information, visit the Clarice Smith Performing Arts Center website at https://theclarice.umd.edu (https://theclarice.umd.edu/).

Dance Major

The undergraduate curriculum, which leads toward a B.A. degree in Dance, offers students a solid foundation in the core areas of the discipline as well as insights into cross-disciplinary fields of study.

Coursework is designed to help students become skillful, articulate, and expressive movers; to enable students to find their own voice as creative artists, develop the ability to work effectively in a collaborative environment, and to grow in their conceptual understanding of dance as an art form.

The cornerstones of the curriculum are foundational coursework in the first two years. The project based learning or advanced seminar experiences in the senior year engage students in interdisciplinary and/or cross-cultural work and offer in-depth exploration of a theme from a performance, choreographic, and theoretical perspective. Students select an area of emphasis in performance and choreography, production, or education.

Foundational sequences in technique , creative process, and choreography, which integrate a conceptual understanding of dance as an art form, are at the core of the discipline. Through these fundamental practices of the discipline, students gain, not only necessary skills, but also an embodied knowledge of the field.

The dance faculty is composed of a number of distinguished teachers, choreographers, performers, and scholars, each one a specialist in his or her own field. Visiting artists and guest artists make additional contributions to the program. There are performance and choreographic opportunities for all dance students, ranging from informal workshops to fully mounted concerts both on and off campus.

Courses offered by this department may be found under the following acronym(s): DANC, TDPS

Admission to the Major

An audition is not required to become a dance major. For more information, contact the Coordinator of Student Services, Susan Miller, at smille13@umd.edu.

Program Objectives

Our Mission

The University of Maryland School of Theatre, Dance, and Performance Studies advances and transforms the research and practice of theatre, dance, and performance studies through its commitment to excellence and innovative education in the performing arts.

Our Vision

We envision a school that serves as a national model for collaboration, innovation, and entrepreneurship in the performing arts. The undergraduate curriculum, which leads toward a B.A. degree in Dance, offers students a solid foundation in the core areas of the discipline as well as insights into cross-disciplinary fields of study. Coursework is designed to help students become skillful, articulate, and expressive movers; to enable students to find their own voice as creative artists, develop the ability to work effectively in a collaborative environment, and to grow in their conceptual understanding of dance as an art form in relation to the other arts.

Program Learning Outcomes

1. Develop the knowledge and research skills to explore the dance past in writing, orally, and in performance.
2. Demonstrate growing technical understanding and fluency in dance technique.
3. Participate in the creative process through the creation and interpretation of choreography.
4. Apply interdisciplinary research methods to dance scholarship and choreography.
5. Demonstrate the ability to understand cultural and historical texts in relation to dance forms.
6. Apply musical knowledge to movement and choreography.
7. Design choreographic movement and structures.

Requirements

Students must complete 49 credits. The following courses or areas are required:

Course	Title	Credits
College Requirements (p. 134)		
DANC218	Modern Dance I	3
DANC219	Modern Dance II	3
DANC318	Modern Dance III	3
DANC319	Modern Dance IV	3
DANC109	Choreography I: Improvisation	3
DANC179	Movement Integration	2
DANC207	Choreography II: The Creative Process	3
DANC383	Dance History & Theory	3
DANC304	Dance Education I: Foundations	3
TDPS201	Introduction to Technical Production	3
TDPS479	Production Practicum	1
One of the following:		3
DANC488	Project-Based Learning	
OR		
DANC485	Seminar in Dance	
4 credits of Dance Forms selected from:		**4**
DANC138	Global Dance Forms	
DANC228	Ballet I	
DANC229	Ballet II	
DANC328	Ballet III	
DANC329	Ballet IV	
Area of Emphasis		**12**
Total Credits		49

12 credits of 3xx or 4xx level course work in an area of emphasis in performance and choreography or in production, or education.

Areas of Emphasis

Performance and Choreography

Students in the Performance and Choreography area are expected to enroll in a technique class each semester and to be actively engaged in experiences that transition them from the classroom to the stage. Opportunities for engagement include auditioning for student, faculty, and guest artist works, showing works in progress at monthly open showings, and auditioning works for performances.

Course	Title	Credits
TDPS479	Production Practicum [1]	1
DANC309	Choreography III: Dance Composition	3
DANC468	Dance Repertory	3
Select an additional 5 credits of the following:		5
DANC448	Modern Dance V [2]	
DANC449	Modern Dance VI [2]	
DANC468	Dance Repertory	
DANC420	Partnering	
DANC466	Laban Movement Analysis	
DANC371	Somatics	
DANC310	Dance Lighting	
DANC399	Practicum in Choreography, Production and Performance III	
DANC499	Practicum in Choreography, Production and Performance IV	
DANC489	Special Topics in Dance	
Additional courses approved by the program.		
Total Credits		12

1 This is in addition to the 1 credit required of all majors.

2 A maximum of a total of 6 credits of Dance DANC448 and DANC449 will count toward the 12 credit area requirement.

Production

Course	Title	Credits
TDPS479	Production Practicum [1]	3
Select an additional 9 credits of the following:		9
DANC310	Dance Lighting	
DANC410	Technical Theater Production for Dance	
THET116	Fundamentals of Theatrical Design	
THET284	Stage Costume Construction I [2]	
THET371	Scenic Design I [2]	
THET383	Costume Design I [2]	
THET377	Lighting Design I [2]	
THET373	Rendering for the Theatre I [2]	
THET472	Scene Painting [2]	
THET474	Advanced Stage Management [2]	
Total Credits		12

1 This is in addition to the 1 credit required of all majors.

2 Permission required courses

Education

Course	Title	Credits
DANC405	Dance Education II: Education & Policy	3
DANC371	Somatics	3
DANC466	Laban Movement Analysis (DANC489F::3xx or 4xx level Global Movement Practice)	3
DANC338	Global Movement Practices	2

TDPS479	Production Practicum	1
Total Credits		12

A grade of 'C-' or higher must be attained in all dance courses.

An overall GPA of 2.0 in the major is required for graduation.

Other Requirements for the Major

Mid-Point Assessment

The Mid-Point assessment gives the program a mid-course opportunity for learning outcomes assessment. In preparation for the assessment, students prepare a portfolio that includes a resume, samples of their writing, and a DVD with examples of their work in technique and choreography classes. The Mid-Point assessment is a benchmark requirement in the program. All transfer students, as well as students who declare Dance after their first semester on campus, will be assigned an assessment date when they meet with their Dance advisor to develop an academic plan. Students who do not complete the assessment process in their assigned semester will not be permitted to continue in the major. Completion is defined as submission of a portfolio and participation in a scheduled assessment meeting.

The Dance program has mandatory advising each semester. New, re-entering, and transfer students are expected to contact the program, following their admission to the University, for instructions regarding advising and registration procedures. Although entrance auditions are not required, some previous dance experience is highly desirable.

For additional information about the program contact:

Susan Miller
Coordinator of Student Services and Academic Advisor
2810 Clarice Smith Performing Arts Center
University of Maryland
College Park, Maryland 20742

- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Theatre Major

Small classes, diversity, and a close-knit environment promote a strong sense of community within the Theatre major. An extensive production schedule offers students a myriad of opportunities to practice their craft.

A supportive and stimulating environment fosters creative development and spurs achievement. Our comprehensive curriculum embraces the liberal arts approach to theatre study and cultivates skills - discipline, creativity, self-confidence, and critical thinking - that are valuable in all career fields. Students gain a strong foundation in theatre arts and have the opportunity to tailor the degree to their strengths and interests.

Our performance and design/production faculty members are active in their fields (members of Actors Equity and United Scenic Artists), providing students a vital link to the world of professional theatre. Our history/theory faculty members regularly publish and participate at national and international conferences. Situated in close proximity to the vibrant Washington/Baltimore theatre communities, students have ready access to the best of contemporary and classical productions at more than 80 professional theatres. Through professional affiliations with many of these theatre companies, students enjoy unique opportunities such as internships, workshops, partnership projects, and blended productions.

An audition, portfolio, or interview is not required for admission to the program. Courses offered by this Department may be found under the following acronym(s): THET, TDPS, DANC, AASP, HONR, JAPN, JWST, WMST, ANTH.

Admission to the Major

An audition/portfolio is not required to become a Theatre major. For more information, contact the Coordinator of Student Services Susan Miller at smille13@umd.edu.

PLACEMENT IN COURSES

Many theatre performance and production courses above the sophomore level require an audition, interview, and/or permission of the department.

Program Objectives

Our Mission

The University of Maryland School of Theatre, Dance, and Performance Studies advances and transforms the research and practice of theatre, dance, and performance studies through its commitment to excellence and innovative education in the performing arts.

Our Vision

We envision a school that serves as a national model for collaboration, innovation and entrepreneurship in the performing arts. The theatre program offers a balanced liberal arts education that integrates production, design, and scholarship. The B.A. in Theatre seeks to introduce students to the history, theory, and literature of theatre; to offer them insights into the cultural diversity that has shaped the creation of theatrical forms around the world; to allow them to develop their own aesthetic sensibilities and perspectives as an artist and audience member; and to offer them practical training in the areas of theatre craft, which ranges from design, to directing, and to performance.

Program Learning Outcomes

1. Students will be able to demonstrate fundamental knowledge of theatre performance, design, history, craft and literature analysis.
2. Students will be able to demonstrate critical and creative thinking skills and the ability to communicate with both written and spoken word and artistic vision.
3. Students will develop the ability to interpret and analyze dramatic texts with critical understanding of content and methodology.
4. Students will expand their awareness of the basic methods and principles for creating a dialogue between theory and practice.

5. Students will develop the ability to work effectively within a collaborative environment.

Requirements

Requirements for the College of Arts and Humanities include a minimum of 3xx or 4xx level credits and the Global Engagement Requirement. Students in the Theatre major prior to the Fall 2009 semester should consult the unit for prior curriculum requirements.

Course	Title	Credits
College Requirements (p. 134)		
Foundation Series (16 credits): [1]		
TDPS201	Introduction to Technical Production [2]	3
THET116	Fundamentals of Theatrical Design [2]	3
THET222	Foundations of Acting and Performance [2]	3
THET223	Text and Context in Western Theatre [2]	3
TDPS479	Production Practicum (4-1 credit courses) [2,3]	4
Area Menu		
Students must take courses from each Area as delineated below. Students may enter the Area Menu after completing appropriate prerequisites:		
Performance Area:		3
Select three credits		
Design Area:		6
Select 6 credits; 3 at the 3xx or 4xx level		
History/Theory:		6
THET390	History of Theatre I	
THET391	Theatre History II	
Select 3 credits at 4xx level		3
Supporting Courses		
Select 15 credits of Supporting Courses [4]		15
Total Credits		49

1. Foundation Series courses may be taken in any sequence.
2. THET222, THET223, one credit of TDPS479, and either THET116 or TDPS201 must be completed by the end of the second semester or 30 credits.
3. TDPS479 (4 - 1 credit courses for a total of 4 credit hours) cannot be taken until TDPS201 is completed. TDPS479 must be completed in 3 different areas - costume, scenic, lighting and sound. Students are expected to complete one TDPS479 course by the end of the 2nd semester or 30 credits, and all 4 courses by the end of the 6th semester or 90 credits.
4. 12 credits of THET/TDPS Courses. 12 credits must be 3xx or 4xx level coursework. Supporting course credits may come from the Performance, Design/Production, or History/Theory Area menus OR any combination of the four menus. Students may also petition to their advisor for other suitable courses to be accepted, conditional on course work relating to their area of focus. For course prerequisites contact the Department that is offering the course or check Testudo online (testudo.umd.edu/). For a complete listing of Supporting Courses check the Undergraduate page of the Theatre website at http://tdps.umd.edu/.

Students must take courses from each Area as delineated below. Students may enter the Area Menu after completing appropriate prerequisites.

THET430	Directing II: Working with Actors	3
THET451	Musical Theatre Workshop I [1]	3
THET452	Musical Theatre Workshop II [1]	3

1. Requires an audition

Design/Production Area

Prerequisites: 6 credits required; three at the 3xx or 4xx level

Some courses require departmental or instructor approval

Course	Title	Credits
THET274	Introduction to Stage Management	3
THET282	Stage Makeup	3
THET284	Stage Costume Construction I	3
THET371	Scenic Design I	3
THET372	Stage Property Design	3
THET373	Rendering for the Theatre I	3
THET377	Lighting Design I	3
THET380	Sound Design	3
THET383	Costume Design I	3
THET384	Stage Costume Construction II	3
THET465	History of Fashion for the Theatre	3
THET471	Design Studio in Scenery	3
THET472	Scene Painting	3
THET473	Rendering for the Theatre II	3
THET474	Advanced Stage Management	3
THET475	History of Art, Architecture, and Decor for the Theatre	3
THET477	Design Studio in Lighting	3
THET481	Theatre Graphics II: Computer Assisted Design	3
THET482	Scene Painting II	3

History/Theory Area

Prerequisites: 9 credits required; THET390, THET391, one additional course at 4xx level

Course	Title	Credits
THET390	History of Theatre I	3
THET391	Theatre History II	3
THET408	Seminar: Theory and Performance Studies	3
THET488	Special Topics in Theatre History Before 1800	3
THET489	Special Topics in Theatre History from 1800 to Present	3

All seminars offered at the 4xx/6xx level require undergraduate students to obtain permission from the instructor and to have completed either THET488 or THET489. This includes: THET408/THET608, THET486/THET686, THET498/THET698.

Major requirements include 49 credits of course work in Theatre. Of the 49 credits, at least 28 credit hours must be 3xx or 4xx level. No course with a grade less than 'C-' may be used to satisfy major or supporting area requirements. An overall GPA of 2.0 in the major is required for graduation. No course for the major may be taken Pass/Fail or Audit.

Other Requirements for the Major

As the Area and Supporting Course Menus do not require specific course choices, students may select courses according to their interests and abilities. In consultation with their advisor, students may choose to tailor their degree and create a focus in a specific area of interest to prepare them for the profession or entrance to graduate school.

Four Year Plan

Click here (https://www.arhu.umd.edu/academics/advising/academic-plans/) for roadmaps for four-year plans in the College of Arts and Humanities.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Arts Leadership Minor

The minor in Arts Leadership provides students with the opportunity to acquire the practical and strategic skills to become leaders in the arts, whether it be as artists, as entrepreneurs in the business of the arts, or as cultural leaders in government and non-governmental agencies involved in the arts. The primary emphasis will be on arts leadership in not-for-profit environments. Although primarily intended for students majoring in the Arts and Humanities, the minor in Arts Leadership is designed to meet the needs of any student at the University of Maryland with an interest in arts entrepreneurship, arts administration, and arts activism.

Students minoring in Arts Leadership will learn:

- critical, interdisciplinary, and holistic thinking methods necessary to meet the challenges faced by artists, educators, entrepreneurs, institutions, and organizations in national and international artistic settings.
- the fundamentals of cultural policy, stewardship, heritage, programming, and curation, as well of the legal aspects of arts leadership, including copyright.
- practical skills such as grant writing, marketing, and fundraising.
- an appreciation for the importance of diversity in the arts as well as an understanding of the service role that the performing and visual arts perform in the ecology of small communities to transnational institutions.

Requirements

Course	Title	Credits
ARHU240	Cultural Institutions of the United States	3
ARHU340	Financial Entrepreneurship for Arts Leaders	3
ENGL398	Topics in Professional Writing (ENGL398A: Writing for the Arts)	3
ARHU386	Experiential Learning (ARHU386A or approved equivalent Professional Internship)	3
ARHU440	Arts Leadership Seminar	3
CO-REQUISITES	6 credits taken in creative arts in TDPS, ARTT, MUSC, or ENGL	6
Total Credits		21

Women's Studies

College of Arts and Humanities
2101 Woods Hall
301-405-6877
womensstudies@umd.edu
wmst.umd.edu (http://wmst.umd.edu/)

Women's Studies is an interdisciplinary field of inquiry analyzing structures of power, especially as they are grounded in gender, race, sexuality, ethnicity, nationality, ability, and other inequalities, and as they configure historical and contemporary struggles for social change. The department and faculty enjoy a global reputation for innovative theoretical and methodological interventions and for their attention to curriculum transformation and global women's studies institution building. With a core faculty of eight and more than 80 affiliate faculty from across the campus, the program offers a B.A., M.A./Ph.D., undergraduate and graduate certificates in women's studies, a minor in black women's studies, and an undergraduate minor and certificate in lesbian, gay, bisexual, and transgender studies.

Programs

Major

- Women's Studies Major (p. 228)

Minors

- Black Women's Studies Minor (ARHU) (p. 226)
- Lesbian, Gay, Bisexual and Transgender Studies Minor (p. 227)

Certificates

- Lesbian, Gay, Bisexual and Transgender Studies Certificate (p. 227)
- Women's Studies Certificate (p. 228)

Advising

Advising is mandatory for all majors each semester. Please email womensstudies@umd.edu or call 301-405-6827 for an appointment.

Certificate students and minors are also encouraged to consult with the Department of Women's Studies academic advisor prior to registration each semester.

To review the academic plan for this major, go to https://arhu.umd.edu/academicsadvising/academic-plans (https://arhu.umd.edu/academicsadvising/academic-plans/)

Opportunities

Experiential Learning (WMST/LGBT Scholarship in practice Requirement)

As part of the major, students are required to complete a hands-on, practical learning experience. They may do so through an undergraduate internship, teaching assistantship, or research or creative works assistantship.

The undergraduate internship is designed to provide students with the opportunity to combine theory and practice and get hands on experience with women's, gender, and sexuality issues in a workplace or organizational setting. The course has two components: work at the internship setting developing practical skill sets applicable to that environment and work with a faculty mentor to prepare readings and/or research that provide a framework to think about the internship experience and an opportunity to reflect on the pragmatic and political issues associated with the work of the particular organization. Students seek internship opportunities in local, state and federal governments, non-profit organizations, policy and research institutions as well as agencies committed to social change. Past internship sites have included: League of Women Voters of Maryland, Sinister Wisdom lesbian literary and art journal, National Organization for Women, Jewish Women International, Institute for Women's Policy Research, Asian Pacific Islander Domestic Violence Resource Project, State of Maryland Lt. Governor's Office, D.C. Rape Crisis Center, the District Alliance for Safe Housing, the Gay, Lesbian, Bisexual, Transgender Community Center of Baltimore and Central Maryland, and Calvert OB/GYN Associates.

The Undergraduate Teaching Assistantship (UTA) is an opportunity to work closely supporting a faculty member in an undergraduate Women's Studies or LGBT Studies course. This structure allows UTAs to build expertise, develop pedagogical competencies, and strengthen their knowledge base in the areas of feminist, critical race, and queer pedagogical debates and approaches.

The Undergraduate Research and Creative Works Assistant (URCA) provides an opportunity to work alongside a faculty mentor to develop an enhanced understanding of specific research methods and or creative practices; the overall goal is provide students with an understanding of how field contributions are made, either by crafting their own research contributions, or providing support for a faculty mentor's ongoing research.

Departmental Honors Program

The Honors Program is designed to give students the opportunity to pursue an area of passionate academic interest in greater depth than that allowed by formal classes. Honors students engage in rigorous interdisciplinary research under the close supervision and mentorship of a Women's Studies faculty member. Students can be expected to gain a deeper understanding of some aspect of women's, gender, and/or sexuality studies and to develop habits of self-reliance, individual initiative, and critical analysis. The culminating thesis may be a sustained piece of writing or a substantial creative or activist project.

Student Society: Triota

Iota, Iota, Iota (Triota) is the Women's Studies Honor Society. This student run organization strives to maintain feminist values of egalitarianism and inclusiveness. It celebrates the diversity of experiences that are central to Women's Studies. Triota works to promote student research and activism in socio-political issues that affect all minority groups and aims to recognize and promote the academic achievements of students enrolled in Women's Studies and Lesbian, Gay, Bisexual, and Transgender Studies courses. For more information please visit the Triota page (http://wmst.umd.edu/academics/undergraduate-studies/iota-iota-iota-triota-womens-studies-honor-society/) on the Department of Women's Studies website or email womensstudies@umd.edu.

Scholarships and Financial Assistance

For information about scholarships and financial assistance offered by the Department of Women's Studies, please visit http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/).

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The Women's Studies Department administers a variety of awards and grants to encourage and recognize outstanding scholarship, research, leadership and service.

The Charlotte Brozer Shapiro Scholarship in Women's Studies (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/charlotte-brozer-shapiro-scholarship-in-womens-studies/) is a merit-based scholarship in the amount of $2,000 that will be awarded annually to a student majoring in Women's Studies.

The Rodler/Wood Scholarship (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/rodlerwood-scholarship/) is awarded annually based on one or more of the following criteria: demonstrated financial need, hardship based on sexual orientation, academic interest in LGBT Studies, and extracurricular activities on behalf of LGBT issues. The Rodler/Wood Scholarship is presented at the annual Lavender Graduation ceremony each spring.

Each fall the department funds travel awards to support the participation of undergraduate students in the National Women's Studies Association Annual Conference. Any student in the university who has completed 12 credits of WMST and/or LGBT courses is eligible to apply for the NWSA travel award (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/nwsa-undergraduate-award/).

The department also recognizes graduates who have excelled in academics or in service to the campus and community at the Women's Studies commencement ceremonies.

For information on any of these awards, including how to apply, contact the Department of Women's Studies womensstudies@umd.edu, or go to http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/).

Academic Programs and Departmental Facilities

The Women's Studies Multimedia Studio is a multi-purpose event space and lab dedicated to fostering connections between Women's Studies and digital humanities by engaging issues of identity and difference through art, performance, media activism, and interdisciplinary scholarship.

All students are welcome to gather in the Woods Hall lounge in 2101 Woods Hall to work, study, or gather.

Black Women's Studies Minor (ARHU)

Joint Minor in Black Women's Studies

College of Arts and Humanities
2101 Woods Hall
301-405-6877
wmst.umd.edu (http://wmst.umd.edu/)

College of Behavioral and Social Sciences
2169 Lefrak Hall
www.bsos.umd.edu/aasd (http://www.bsos.umd.edu/aasd/)

The joint minor in Black Women's Studies focuses on the lives and experiences of women of Africa and the African Diaspora. As a specialty in the fields of Women's Studies and African American Studies, it will provide students with tools for understanding the social and cultural contexts in which race, gender, class, sexuality, ethnicity, nation and other dimensions of difference intersect to influence the lives and experiences of Black women.

See African American Studies Department (p. 236) and Women's Studies Department (p. 224) for faculty rosters.

To make an appointment to explore or declare the minor, go to www.arhu.umd.edu/undergraduate/academics/minors (http://www.arhu.umd.edu/undergraduate/academics/minors/)

Students may enroll in the Black Women's Studies Minor through either African American Studies or Women's Studies. Students with a major in the College of Arts and Humanities are advised to enroll through the Department of Women's Studies. Students with a major in the College of Behavioral and Social Sciences are advised to enroll through the Department of African American Studies.

Requirements

Fifteen (15) credits of coursework are required, distributed below. No course with a grade less than 'C-' may be used to satisfy the minor. An overall GPA of 2.0 in the minor is required for graduation. Students will design their program in consultation with the Women's Studies or African American Studies advisor. No more than two courses may count toward a major in African American Studies or Women's Studies. Course lists can be found here: http://wmst.umd.edu/academics/courses (http://wmst.umd.edu/academics/courses/).

Course	Title	Credits
Foundation Courses		
Select one of the following:		3
WMST263/ AASP298I	Introduction to Black Women's Studies	
WMST265/ AASP298B	Constructions of Manhood and Womanhood in the Black Community	
WMST/ LGBT264	Quare/Queer Contentions: Exploration of Sexualities in the Black Community

Electives		**9**
Total Credits		15

- At least two electives must be at the 300 or 400 level.
- One 300 or 400 level course must be Comparative or non-U.S.
- See program for approved electives.

Lesbian, Gay, Bisexual and Transgender Studies

College of Arts and Humanities
2101 Woods Hall
301-405-6877
womensstudies@umd.edu
http://wmst.umd.edu/

The Department of Women's Studies offers an interdisciplinary undergraduate certificate (https://academiccatalog.umd.edu/undergraduate/colleges-schools/arts-humanities/womens-studies/lesbian-gay-bisexual-transgender-studies/lesbian-gay-bisexual-transgender-studies-certificate/) and a minor (https://academiccatalog.umd.edu/undergraduate/colleges-schools/arts-humanities/womens-studies/lesbian-gay-bisexual-transgender-studies/lesbian-gay-bisexual-transgender-studies-minor/) in Lesbian, Gay, Bisexual, and Transgender Studies (LGBT). These programs are designed to examine the lives, experiences, identities and representations of LGBT persons, those who are today described as having a minority sexual orientation or who are gender transgressive.

The university has two scholarships specifically related to LGBT studies and LGBT issues: The Rodler/Wood Scholarship (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/rodlerwood-scholarship/) is awarded annually based on one or more of the following criteria: demonstrated financial need, hardship based on sexual orientation, academic interest in LGBT Studies, and extracurricular activities on behalf of LGBT issues. The Novak Family TerpStart Endowed Scholarship (http://wmst.umd.edu/academics/undergraduate-studies/awards-and-scholarships/novak-family-terpstart-endowed-scholarship-in-lgbt-studies/) is awarded to an undergraduate student participating in the department's Lesbian, Gay, Bisexual, and Transgender Studies Program.

For additional information, or to initiate the process of declaring the certificate or minor, please contact the undergraduate advisor at lgbts@umd.edu or 301-405-6827.

Lesbian, Gay, Bisexual and Transgender Studies Certificate

College of Arts and Humanities
2101 Woods Hall
301-405-6877
lgbts@umd.edu
http://wmst.umd.edu/

See Women's Studies Department for faculty roster.

The Lesbian, Gay, Bisexual, and Transgender Studies Certificate Program provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. Any student in good standing may enroll in the certificate program by declaring their intention to the Women's Studies Department.

For additional information, or to initiate the process of declaring the certificate, please contact the undergraduate advisor at lgbts@umd.edu or 301-405-6827. Students are advised to meet with the department advisor to add the certificate by the time they have reached 75 credits, if not before.

Program Learning Outcomes

1. Students will demonstrate familiarity with major concepts and vocabulary in the field of LGBTQ Studies.
2. Students will understand and be able to critique key developments in LGBTQ thought as strategies of social change and production of knowledge about gender and sexuality in the context of social relations of difference and power.
3. Students will demonstrate critical reasoning and research skills in the field of LGBTQ Studies.

Requirements

Course	Title	Credits
Required Core Curriculum		
Foundation Course		3
LGBT200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	
Capstone Course (select one of the following)		3
LGBT386	Lesbian, Gay, Bisexual, and Transgender Community Organization Internship	
LGBT488	Seminar in Lesbian, Gay, Bisexual, and Transgender Studies	
Elective Courses [1]		15
Total Credits		21

[1] **Elective Courses:** Students must take five elective courses, at least three of which must be upper division. Electives must cover at least three of the following six thematic areas. Courses may be designated by the faculty who are teaching them as covering more than one of these areas. Students may also request that courses be counted as covering one or more areas.

1. Arts, Technology and Cultural Production
2. Transnational Politics and Perspectives
3. Institutions, Politics, and/or social Movements
4. Race, Ethnicity, and Class
5. Transgender Studies
6. Queer and/or Feminist Theory

Consult the department for eligible courses in each area.

Other Program Requirements:

- No course earned with a grade below 'C-' will count toward the certificate in LGBT Studies.
- An overall GPA of 2.0 in the certificate is required for graduation.
- Students may use a maximum of nine credits (or three courses) to satisfy the requirements of both their major and the certificate in LGBT Studies.
- No more than nine of the required credits may be taken at an institution other than the University of Maryland, College Park.

Lesbian, Gay, Bisexual and Transgender Studies Minor

College of Arts and Humanities
2101 Woods Hall
301-405-6877
womensstudies@umd.edu
http://wmst.umd.edu/

See Women's Studies Department for faculty roster. (http://wmst.umd.edu/people/core-faculty/)

The LGBT minor in the Department of Women's Studies is a 15 credit program which provides students an opportunity for interdisciplinary study of the lives, experiences, identities, and representations of LGBT people. This course of study provides solid grounding in the major concepts and methods that define studies of sex, gender, and gender identity today. Any student in good standing in the university may enroll in the LGBT Studies minor. In consultation with the Department of Women's Studies Academic Advisor, students will design a minor program that complements their major field of study.

For additional information, or to initiate the process of declaring the minor, please contact the undergraduate advisor at lgbts@umd.edu or 301-405-6827. Students are advised to meet with the department advisor by the time they have reached 90 credits, if not before.

Program Learning Outcomes

1. Students will demonstrate familiarity with major concepts and vocabulary in the field of LGBTQ Studies.
2. Students will understand and be able to critique key developments in LGBTQ thought as strategies of social change and production of knowledge about gender and sexuality in the context of social relations of difference and power.

3. Students will demonstrate critical reasoning and research skills in the field of LGBTQ Studies.

5. Transgender Studies
6. Queer and/or Feminist Theory

Consult the department for eligible courses in each area.

Other Program Requirements:

- No course earned with a grade below 'C-' will count toward the minor in LGBT Studies.
- An overall GPA of 2.0 in the minor is required for graduation.
- Students may use a maximum of six credits (or two courses) to satisfy the requirements of both their major and the minor in LGBT Studies. However, courses taken to complete the minor in LGBT Studies may not be used to satisfy the requirements of another minor.
- No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park. However, at least six 3xx or 4xx-level credits applied to the minor must be taken at this university.

Women's Studies Certificate

College of Arts and Humanities
2101 Woods Hall
301-405-6827
womensstudies@umd.edu
http://wmst.umd.edu/

See Women's Studies Department for faculty roster.

The Women's Studies Certificate Program consists of an integrated, interdisciplinary curriculum on women and gender that is designed to supplement a student's major. Any student in good standing may enroll in the certificate program by declaring their intention to the Women's Studies Department.

For additional information, or to initiate the process of declaring the certificate, please contact the undergraduate advisor at womensstudies@umd.edu or 301-405-6827. Students are advised to meet with the department advisor to add the certificate by the time they have reached 75 credits, if not before.

Requirements

To qualify for a certificate in Women's Studies, a student will be required to earn 21 credits in Women's Studies courses, twelve of which must be at the 3xx/4xx level. No more than nine credits that are applied toward a major may be included in the certificate program. No more than nine credit hours may be taken at institutions other than the University of Maryland. Each student must obtain a grade of 'C-' or better in each course that is to be counted toward the certificate. An overall GPA of 2.0 in the certificate is required for graduation. A list of courses offered can be found here: http://wmst.umd.edu/academics/courses (http://wmst.umd.edu/academics/courses/). Of the 21 credits, courses must be distributed as follows:

Course	Title	Credits
Foundation Courses:		
One of the following courses:		3
LGBT200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	
WMST200	Introduction to Women's Studies: Women and Society

- Social Justice
- Transnational Politics and Perspectives
- Race, Ethnicity and Class
- Bodies, Genders and Sexualities
- Arts, Technologies, and Cultural Production
- Lesbian, Gay, Bisexual, Transgender and Queer Studies
- Student Designed

Consult the department for eligible courses in each area.

Women's Studies Major

Women's Studies is an interdisciplinary field of inquiry analyzing structures of power, especially as they are grounded in gender, race, sexuality, ethnicity, nationality, ability, and other inequalities, and as they configure historical and contemporary struggles for social change.

The department sees itself as a force for change in the world, change which leads toward intellectual freedom, social justice, and equality for all people. We do this by providing an outstanding education in women, gender, race, and sexuality studies through excellent teaching, engaged mentoring, path-breaking research and scholarship, and dedicated community service.

The Women's Studies major offers students a coherent but flexible program of study examining scholarship and theory on the history, status, contributions, and experiences of women in diverse cultural communities; the lives, experiences, identities, and representations of lesbian, gay, bisexual, and transgender people; the significance of gender as a social construct and as an analytical category; and an understanding of race as a structural and historical formation in the context of power.

The B.A. degree prepares students for work in a wide range of areas, including non-profit management, social justice advocacy, law, health-related fields, student affairs, and government and public policy. We seek to develop a new generation of scholars and leaders who, with us, will work to acknowledge, understand, and critically interrogate human differences.

To achieve these goals each student meets every semester with an academic advisor to plan a course of study tailored to individual interests and goals.

In addition to the B.A. in Women's Studies, the department also offers two certificate programs and two minors.

Courses offered by this department may be found under the following acronyms: WMST, LGBT.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the Women's Studies degree program, students should have acquired the following knowledge, skills, and practices:

1. An ability to critically analyze issues related to women, race/ethnicity, gender, sexuality, and class
2. A demonstrated engagement with the practices of feminist, critical race, and LGBTQ social action
3. An ability to do independent research using appropriate methods
4. An ability to use effective forms of communication

Requirements

Students will earn a total of 37 credit hours, distributed as indicated below. Drawing from approximately fifty courses, many of which are cross-listed with other academic units, students will have the opportunity to design an emphasis within the major relevant to their special interests. A number of courses may count in more than one category. At least 31 credits must be at or above the 3xx level. No course with a grade less than 'C-' may be used to satisfy the major. An overall GPA of 2.0 in the major is required for graduation. Students will design their programs in consultation with a Women's Studies advisor.

Course	Title	Credits
College Requirements (p. 134)		
Introductory Courses		
Select one of the following courses:		3
LGBT200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies

Dean: Gregory Ball
Associate Deans: Katherine Russell, Wayne McIntosh, Jeffrey Lucas
Assistant Deans: Ann Holmes, Mengxue Li, Kim Nickerson, Deborah Rhebergen

---

The College of Behavioral and Social Sciences at the University of Maryland (BSOS) increases understanding of and pursues innovative solutions to the challenges facing our global community. BSOS draws on its Washington, D.C., and worldwide connections to enrich its teaching, research and service. The BSOS community works to enhance international relations, advance global sustainability, understand societies and cultures and improve the human condition.

In all that we do, BSOS aims to **Be the Solution** to the world's great challenges.

Students interested in human behavior and in solving human and social problems will find many exciting opportunities through the programs and courses offered by the College of Behavioral and Social Sciences.

Departments

Departments and Units

- African American Studies (p. 236)
- Anthropology (p. 240)
- Criminology and Criminal Justice (p. 243)
- Economics (p. 246)
- Geographical Sciences (p. 248)
- Government and Politics (p. 253)
- Hearing and Speech Sciences (p. 256)
- Psychology (p. 260)
- Sociology (p. 265)

Academic Programs

Majors

- African American Studies Major (p. 238)
- Anthropology Major (p. 241)
- Criminology and Criminal Justice Major (p. 244)
- Economics Major (p. 246)
- Geographical Sciences Major (p. 250)
- Government and Politics Major (p. 254)
- Hearing and Speech Sciences Major (p. 257)
- Neuroscience Major (BSOS) (p. 261)
- Psychology Major (p. 264)
- Sociology Major (p. 267)

Minors

- African Studies Minor (p. 239)
- Black Women's Studies Minor (BSOS) (p. 240)
- Demography Minor (p. 266)
- Geographic Information Science Minor (p. 250)
- Global Terrorism Studies Minor (p. 252)

- Hearing and Speech Sciences Minor (p. 259)
- International Development and Conflict Management Minor (p. 256)
- Law and Society Minor (p. 259)
- Neuroscience Minor (p. 263)
- Remote Sensing of Environmental Change Minor (p. 252)
- Survey Methodology Minor (p. 268)

Certificate

- African American Studies Certificate (p. 237)

College Requirements

Undergraduate Degree Requirements/ Degree Options

- Each student must complete a minimum of 120 hours of credit with at least a 2.0 cumulative grade point average. Courses must include the credits required in the University's general education requirements and the specific major and supporting course and grade requirements of the programs in the academic departments offering bachelor's degrees.
- Students must have a minimum "C" (2.00) cumulative grade point average across all courses used to satisfy major degree requirements.
- Upon entering BSOS as a freshman, transfer, or by major change, students must complete and submit a graduation plan to the college advising office for review and approval.
- In accordance with university policy, fundamental English and Math requirements must be attempted by 30 credits and successfully completed by 60 credits.
- Students must complete 15 upper level credits in the student's final 30 credits.
- All students are responsible for carefully tracking completion of degree requirements using UAchieve. Students are urged to meet with an academic advisor in their major or college if they have any questions. Advising is especially important two semesters before graduation to discuss final graduation requirements.

Advising

The BSOS Advising Center, located in 2148 Tydings Hall, coordinates undergraduate advising and maintains student records for behavioral and social science students. Advising services are designed to support students from the time they enter the college through graduation. Students may come to the advising center for information concerning university requirements and policies, transfer credit processes, orientation, academic planning, academic support, and career or other post-graduation questions. Appointments are made online (http://bsosundergrad.umd.edu/advising/contact-us (http://bsosundergrad.umd.edu/advising/contact-us/)) or by calling the front desk. Undergraduate advisors for each undergraduate major are located in the department offices. These advisors are available to assist students in selecting courses and guiding educational experiences in their major area of study consistent with major requirements and students' educational goals. For additional information please visit www.bsosundergrad.umd.edu (http://www.bsosundergrad.umd.edu) or call 301-405-1697.

Opportunities

CAREER PLANNING AND ENGAGEMENT

The University Career Center @ BSOS, located in 2148 Tydings Hall, is focused on providing customized services and resources for majors in the College of Behavioral and Social Sciences. Internships and research experiences, education abroad, service learning, and student leadership opportunities round out a student's academic career and personal development beyond what the traditional academic classroom setting can offer. These important experiences allow students to integrate and apply their learning and to build lifelong professional and personal networks of colleagues and friends. Visit the University Career Center @ BSOS website (http://bsosundergrad.umd.edu/your-career/your-career (http://bsosundergrad.umd.edu/your-career/your-career/)) to learn about the resources and upcoming events available for students. Schedule an individual consultation with UCC @ BSOS (http://bsosundergrad.umd.edu/your-career/appointments (http://bsosundergrad.umd.edu/your-career/appointments/)) to take full advantage of the out-of-classroom experiences available at UMD.

DEPARTMENTS AND CENTERS

The college includes the following departments that offer undergraduate degree programs:

- Department of African American Studies
- Department of Anthropology
- Department of Criminology and Criminal Justice
- Department of Economics
- Department of Geographical Sciences (including GIS)
- Department of Government and Politics (including International Relations)
- Department of Hearing and Speech Sciences
- Department of Psychology
- Department of Sociology

In addition, the college is a major contributor to the Environmental Science and Policy Program and sponsors several of its areas of concentration.

*The Department of African American Studies also offers an undergraduate certificate requiring 21 semester hours of coursework.

Departments and Research Centers are linked from the College website homepage at www.bsos.umd.edu (http://www.bsos.umd.edu).

LIVING-LEARNING PROGRAMS

Participating in one of Maryland's living-learning communities is one great way for first and second year BSOS students to share their common interests with each other and with faculty in a small, academic, residential community.

Students who are not in a living-learning program are invited to enroll in a special BSOS one-semester course (UNIV100) in their first semester so that they can work closely with an academic advisor and be part of a small, personalized learning community during their first semester on campus.

BSOS students are members of all of the campus living-learning communities, including Honors College, College Park Scholars, CIVICUS,

Global Communities, and Carillon Communities. The BSOS College is the academic home for four of these living-learning programs.

CIVICUS
0107 Somerset Hall, 301-405-8759
Director: Dr. Korey Rothman
www.CIVICUS.umd.edu (http://www.CIVICUS.umd.edu)

CIVICUS is a two-year living and learning program in the College of Behavioral and Social Sciences. This academic citation program is centered on five themes of civil society: citizenship, leadership, community service-learning, community building in a diverse society, and scholarship. CIVICUS was founded on the belief that to be engaged members of civil society, we have an obligation to be aware of the world outside of the classroom and to act upon issues that affect the world in which we live.

Global Communities
0119 Dorchester Hall, 301-314-7100
www.globalcommunities.umd.edu (http://www.globalcommunities.umd.edu)
globalcommunities@umd.edu
Director: Dr. Virginia Haufler

Global Communities is a two-year living-learning program sponsored by the College of Behavioral and Social Sciences (BSOS). Students participate in a combination of courses, co-curricular opportunities, and residential living organized around the theme of globalization and its challenges and opportunities. The program enriches student understanding of the causes and consequences of the world's interconnectedness, and provides academic and intercultural skills to help them address the issues it raises. We value diversity—cultural, intellectual, and ideological—and seek to provide a tolerant place where differences are celebrated. Participants in the program are part of a network of relationships beyond campus and outside the country.

College Park Scholars, International Studies
1104 Centreville Hall, 301-405-9304
Director: Dr. James Glass
www.scholars.umd.edu/programs/is/ (http://www.scholars.umd.edu/programs/is/)

The International Studies Program brings together undergraduate students from a variety of disciplines who share an interest in global issues, politics, and events. Each entering class of approximately sixty-five students takes courses together during the freshman and sophomore years. The majority of International Studies Scholars reside in Centreville Hall. International Studies was one of the original four College Park Scholars programs launched in 1994, sponsored by the College of Behavioral and Social Sciences (BSOS) and the Department of Government and Politics (GVPT). The Faculty Director and the Teaching Assistants all have their roots in the Department of Government and Politics.

College Park Scholars, Justice and Legal Thought
1121 Cumberland Hall, 301-405-3225
Director: Dr. Robert Koulish
http://www.scholars.umd.edu/programs/jlt (http://www.scholars.umd.edu/programs/jlt/)

The Justice and Legal Thought Program brings together undergraduate students from a variety of disciplines to share an interest in law and justice. Each entering class of approximately seventy-five students takes courses together during the freshman and sophomore years. The majority of Justice and Legal Thought Scholars reside in Cumberland Hall, which is also where the JLT office is located. Justice and Legal Thought is the most recent addition to the College Park Scholars Program and is sponsored by the College of Behavioral and Social Sciences (BSOS). It features faculty from multiple disciplines, including the UMD Carey School of Law. The program is designed for each course to complement the one that preceded it, for example to address big questions in new and more advanced ways. It is also designed to allow students to deepen their classroom learning through experiential projects, field trips and social activities.

COLLEGE HONORS PROGRAM

Departmental Honors Programs are offered in the departments of African American Studies, Anthropology, Criminology and Criminal Justice, Economics, Geography, Government and Politics, Psychology, and Sociology. Students in a Departmental Honors Program are also members of the campus Honors College.

Dean's List. Any student who has passed at least 12 hours of academic work under the regular grading method in the preceding semester, without failure of any course, and with an overall average grade of at least 3.5, will be placed on the Dean's List. The Distinguished Dean's List consists of students who have completed successfully a minimum of 12 credit hours in a semester with a 4.0.

Honor Societies. Students who excel in their academic discipline may be selected for membership in an honorary society. Examples include:

- Alpha Kappa Delta -- Sociology
- Alpha Phi Sigma -- Criminal Justice
- Gamma Theta Upsilon -- Geography
- Pi Sigma Alpha -- The National Political Science Honor Society
- Psi Chi -- Psychology

STUDENT SOCIETIES AND PROFESSIONAL ORGANIZATIONS

Students who are interested in organizations and honor societies related to their fields of study should consult with departmental websites.

For more information about these student organizations or starting a new student group, please contact the Office of Campus Programs, Adele H. Stamp Student Union, 301-314-7174 or http://orgsync.umd.edu.

FINANCIAL ASSISTANCE

The college offers scholarship opportunities to current students on a competitive basis. Each scholarship has eligibility criteria. Scholarship information and applications are available on the scholarships page on the BSOS website: http://bsosundergrad.umd.edu/opportunities/scholarships (http://bsosundergrad.umd.edu/opportunities/scholarships/).

Scholarships are sometimes given at the department level. Check with your departmental advisor or your director of undergraduate programs for more information regarding scholarship opportunities that may be available to you.

The National Scholarship Office at the University of Maryland provides information on nationally competitive scholarships at the undergraduate (and graduate) level. For more information, please visit: www.scholarships.umd.edu (http://www.scholarships.umd.edu).

The Office of Student Financial Aid (OFSA) administers offers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

RESEARCH UNITS

The College of Behavioral and Social Sciences sponsors several special purpose, college-wide research centers. These interdisciplinary centers often offer internships and a selected number of undergraduate research assistant opportunities for interested students. These research experiences offer excellent preparation for future graduate study and/or job opportunities in the private and public sectors. Examples include:

Center for the Study of Business, Ethics, Regulation & Crime (C-BERC) (http://www.rhsmith.umd.edu/centers-excellence/cberc (http://www.rhsmith.umd.edu/centers-excellence/cberc/)) is a diverse unit aimed to generate new ideas and information at the intersection of theory, policy, and practice that will serve as a resource for business leaders, policymakers, and practitioners. The center embraces a unique interdisciplinary approach to the legal and ethical challenges of modern business operations by integrating and extending research in the fields of business ethics, regulation, and criminology.

Center for Substance Abuse Research (CESAR) (http://www.cesar.umd.edu/) works to gather, analyze, and disseminate timely information on issues of substance abuse and monitor alcohol- and drug-use indicators throughout Maryland. CESAR aids state and local governments in responding to the problem of substance abuse by providing the above-stated information, as well as technical assistance and research. CESAR is located at 4321 Hartwick Rd., College Park, MD. Phone: 301-405-9770.

Interindustry Forecasting Project at the University of Maryland (INFORUM) (http://inforumweb.umd.edu/) is dedicated to improving business planning, government policy analysis, and the general understanding of the economic environment. Inforum accomplishes this mission through: Building and using structural economic models of U.S. and other economies; working with government and private sector research sponsors to investigate a variety of issues; serving as a training crucible for University of Maryland graduate and undergraduate students who receive valuable training in empirical economics; and maintaining active and productive ties with a world-wide network of research associates, each of which uses Inforum modeling methods and software. INFORUM is located in the Department of Economics at the University of Maryland, College Park, MD. Phone: 301-405-4609.

Maryland Neuroimaging Center (MNC) (http://www.mnc.umd.edu/home (http://www.mnc.umd.edu/home/)) is the home for neuroimaging research at the University of Maryland. The MNC is an initiative of the university's interdepartmental Neuroscience and Cognitive Science (NACS) Program. MNC is located at 8077 Greenmead Dr., Avrum Gudelsky Bldg #795, University of Maryland, College Park, MD. Phone: 301-405-2092.

Maryland Population Research Center (MPRC) (https://www.popcenter.umd.edu/) draws together leading scholars from diverse disciplines to support, produce, and promote population-related research. The MPRC's members include faculty from the departments of African American Studies, Agricultural and Resource Economics, Anthropology, Criminology and Criminal Justice, Economics, Epidemiology and Biostatistics, Family Studies, Geographical Sciences, Health Services Administration, Human Development, the Joint Program in Survey Methodology, the MD Institute for Applied Environmental Health, Psychology, Behavioral and Community Health, the School of Public Policy, Sociology, and the Consortium on Race, Gender, and Ethnicity. MPRC is located in 0124N Cole Student Activities Building, University of Maryland, College Park, MD. Phone: 301-405-6403.

National Consortium for the Study of Terrorism and Responses to Terrorism (START) (http://www.start.umd.edu/) is a U.S. Department of Homeland Security Center of Excellence, tasked by the Department of Homeland Security's Science and Technology Directorate with using state-of-the-art theories, methods, and data from the social and behavioral sciences to improve understanding of the origins, dynamics, and social and psychological impacts of terrorism. START is located on 8400 Baltimore Avenue, Suite 250, College Park, MD. Phone: 301-405-6600.

Neuroscience and Cognitive Sciences Program (NACS) (http://nacs.umd.edu/) offers research and training opportunities in neuroscience, cognitive neuroscience and computational neuroscience. These research activities are carried out in laboratories housed in six colleges and 17 different departments on the UMD campus. NACS is located in 2131 Biology-Psychology Bldg, University of Maryland, College Park, MD. Phone: 301-405-8910.

Office of International and Executive Programs (OIEP) (http://oiep.umd.edu/) initiates, facilitates and coordinates research, teaching, training and associated activities undertaken jointly between departments of the College of Behavioral and Social Sciences at the University of Maryland with partner universities, agencies and organizations in the United States and abroad. By providing strategic advice, programmatic guidance and administrative support, OIEP fosters innovative international collaborations in the form of degree programs, research projects, student and faculty visitor and exchange programs, short-term training courses and more. OIEP is located in 3106 Morrill Hall, College Park, MD. Phone: 301-405-8443.

The Law in Society Minor and Justice and Legal Thought (MLAW) (http://mlaw.umd.edu/) interdisciplinary and experiential approaches to the study of law and its impact on society. MLAW has its academic home in the College of Behavioral & Social Sciences but partners closely with other departments, offices, programs and schools to offer a full range of rich educational experiences and opportunities for students. MLAW is located in 0101 Taliaferro Hall College Park, MD. Phone: 301-405-3179.

In addition to these college-wide research centers, BSOS hosts several departmental research centers (http://bsos.umd.edu/academics-research/all-centers (http://bsos.umd.edu/academics-research/all-centers/)). Please contact individual departments for more information.

STUDENT ENGAGEMENT AND SERVICE UNITS

DEAN'S STUDENT ADVISORY COUNCIL

The Dean's Student Advisory Council (DSAC) is charged with advising the dean on various topics affecting students and their educational and social experiences at the University of Maryland. Each academic year, the group hosts academic and social events for students, faculty, and alumni, initiates and implements independent and group projects, and hears ideas and concerns from constituent students.

This council consists of representatives from each department in the College of Behavioral and Social Sciences, the living/learning programs, the Student Government Association, University Senate representatives

for the college, and a peer advisor. DSAC members enroll in a credit-bearing course each semester in which they serve on the Council. For more information, contact the Dean's Student Advisory Council: bsos-ugdean@umd.edu

BSOS AMBASSADORS

Ambassadors assist with the planning, coordination and execution of special events hosted by the College of Behavioral and Social Sciences, including all major recruiting events. Ambassadors build a strong knowledge base of the behavioral and social science academic disciplines as well as other programs offered by the college so that they may inform prospective students and the public during special events. Ambassadors will have the opportunity to learn valuable leadership, networking and communication skills. Ambassadors enroll in a credit-bearing course each semester they serve on the committee.

For more information contact the Coordinator for Undergraduate Communications & Recruitment at 301-405-4134 or admitbsos@umd.edu.

BSOS PEER MENTORS

Peer Mentors teach the BSOS Graduation Planning workshops in the BSOS Adivising Center each semester and conduct presentations in BSOS UNIV100 sections. Through the services they provide to fellow students, Peer Mentors gain leadership, presentation, and public speaking skills. In preparation for their required tasks, all Peer Mentors are expected to attend weekly class sessions and serve for at least two semesters. Students will earn 1 credit after successful completion of each semester.

For more information contact the BSOS Advising Center 301-405-1697.

African American Studies

College of Behavioral and Social Sciences
1119 Taliaferro Hall
301-405-1158
www.bsos.umd.edu/aasd (http://www.bsos.umd.edu/aasd/)

The African American Studies Department offers a Bachelor of Arts degree with two highly-regarded options: a general African-American Studies major with a focus on two areas: 1) Cultural and Historical Analysis and 2) Civic Engagement and Social Justice; or the Public Policy Concentration with an emphasis on problem-solving, analytical decision-making, and practical applications of policy analysis and management skills. In addition, students who elect majors in other departments can earn a Certificate in African American Studies. In September 2004, we introduced a minor in Black Women's Studies which is a collaborative program with the University's Department of Women's Studies. Beginning in the Fall of 2019 AASD added a minor in African Studies.

Programs

Major

- African American Studies Major (p. 238)

Minor

- African Studies Minor (p. 239)
- Black Women's Studies Minor (BSOS) (p. 240)

Certificates

- African American Studies Certificate (p. 237)

Advising

The African American Studies Department has mandatory advising for all AASD majors.

Undergraduates in good academic standing may enroll in the African American Studies Department or obtain more information about available options and services by contacting Marshal Washington, the Undergraduate Academic Advisor, via email at lashram9@umd.edu, via phone at 301-405-1161 or in person at the African American Studies Department, 1119 Taliaferro Hall, University of Maryland, College Park, MD 20742. You may also visit https://calendly.com/lahsram9 (https://calendly.com/lahsram9/) to schedule an appointment and get more information.

Opportunities

Undergraduate Research Experiences

African American Studies majors and certificate students have three opportunities to engage in undergraduate research and/or experiential learning opportunities:

- **Research Lab** (required for majors). Students must be an AASD major. Students will work with an AASD faculty member in their research lab. All majors must complete 2 credits of Research Lab.
- AASP386: Experiential Learning. The student must be in good standing and have at least 56 cumulative credit hours to apply. (details below)
- **Undergraduate Teaching Assistant (UTA)**. The student must have received a grade of A- or higher in the course and have at least 56 cumulative credit hours to apply. May also be taken through the TLTC.

Additionally, AASD majors with an overall GPA of 3.0 or above may enroll, with department permission, in the AASP397, Senior Thesis, working with one or more core AASD faculty members.

For more information and details, please call the AASD Academic Advisor at 301-405-1158.

Fieldwork Opportunities

Experiential Learning, AASP386, in African American Studies is an academic seminar for majors and certificate students who are working at internship or service sites and organizations whose mission and goals related to the African American experience. Through course work and class discussions, students are challenged to integrate their experiential experiences with the interdisciplinary study of past and present African American communities. To successfully earn credit for experiential learning students must fulfill the requirements at the internship or service site, participate in a weekly seminar, and complete the assigned projects aimed at bringing together academic research, reflective work, and professional development.

The internship or service portion of the course requires students to work closely with their site supervisors. Students are required to fulfill the job responsibilities and work the number of hours per week that is outlined in their learning proposals. Site supervisors define specific job responsibilities and assignments, monitor their training, and evaluate their performance at the end of the semester by completing an evaluation

form and submitting a letter of recommendation to be included in their portfolios.

Students are also required to participate in a weekly seminar and complete assignments that examine the relationship between classroom, work, and service experiences. The seminar will give students the opportunity to discuss their internships and how their experiences are enhanced by their understanding of African American studies. During the seminar, students will share information about assignments and give each other feedback. Students will evaluate their internship sites and the roles the sites play in black communities and in promoting social change.

Internships

AASP386 was developed to enable majors and certificate students to formally link their academic studies to experiences as undergraduate teaching assistants, undergraduate research assistants, and through external internships, while doing so in a structured learning context.

Undergraduate teaching assistants and undergraduate research assistants work directly with an AASD faculty member who provides supervision and mentoring to the student in all aspects of their undergraduate assistantship.

Student participating in external internships work closely with their site supervisors. Students are required to fulfill the job responsibilities and work the number of hours per week that is outlined in their learning proposals. Site supervisors define specific job responsibilities and assignments, monitor their training, and evaluate their performance at the end of the semester by completing an evaluation form and submitting a letter of recommendation to be included in their portfolios.

All students must participate in a weekly seminar, and complete assigned projects aimed at bringing together academic research, reflective work, and professional development.

Honors Program

AASD offers honors sections for many of our General Education and upper-level elective courses.

AASP397 is a capstone course that offers AASD majors who have a cumulative GPA of 3.0 or higher the opportunity to work with a tenured or tenured-track AASD faculty member in an independent study to complete a senior thesis project.

Senior thesis students have the opportunity to research, write, and orally defend their thesis project before a panel of AASD faculty.

Please make an appointment to see the AASD Academic Advisor about the honors sequence by calling 301-405-1158.

Student Societies and Professional Organizations

AASD majors have the opportunity of being well prepared for leadership positions in campus organizations. AASD majors have historically held notable positions at the University of Maryland in such organizations as the NAACP, Alpha Nu Omega Sorority, Incorporated and The Black Student Union.

The Society of African American Studies is the student-run organization associated with and supported by the department. The Society provides community service in local schools, hosts on-campus programs and events, and annually has supported a local family through its 'Adopt-a-Family' program.

The Society annually sponsors a 'Saturday Freedom School' program which brings middle school children from a local Prince George's County Public School to campus for seven consecutive Saturdays. The program provides mentoring and academic support that seeks to foster the development of positive Black identities in the student participants, while strengthening their academic performance.

Students are recruited from across the UMD campus to serve as mentors to Saturday Freedom School participants.

Please call 301-405-1158 to inquire about the Society of African American Studies.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

Graduating seniors with an overall GPA of a 3.2 who have earned a 3.5 GPA within the major are recognized with departmental honors.

Graduating seniors with an overall GPA of a 3.5 who have earned a 3.7 GPA within the major are recognized with departmental high honors.

African American Studies Certificate

The Certificate in African American Studies offers undergraduate students an excellent opportunity to develop a specialization in African-American issues while pursuing a major in another field. Certificate students learn about the social, economic, political and cultural history of the African-American people through a concentration of courses they plan with the AASD Academic Advisor. Courses taken toward the certificate also may be used to satisfy General Education requirements and electives.

Earning a Certificate in African American Studies gives students a competitive advantage in the job market by adding greater focus to their undergraduate experience.

Requirements

Course	Title	Credits
AASP General Education Courses		
AASP100	Introduction to African American Studies	3
AASP101	Public Policy and the Black Community	3
AASP200	African Civilization	3
or AASP202	Black Culture in the United States	
Upper Division Electives		
AASP	Pre-approved courses 300-level or above in other departments	9
Seminar		
AASP400	Directed Readings in African American Studies	3
or AASP402	Classic Readings in African American Studies	
Total Credits		21

- Students must earn a 'C-' or above in each course applied toward the certificate.
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the undergraduate certificate requirements.
- No more than 9 credit hours applied towards a major may be counted for the certificate.
- No more than 9 credit hours may be taken at institutions other than UMD.

For more information, or to apply, please call the African American Studies Department at 301-405-1158. The AASD office is located in 1119 Taliaferro Hall.

African American Studies Major

The African American Studies Department offers a Bachelor of Arts in African-American Studies or a Bachelor of Arts in African-American Studies with a concentration in Public Policy. All students will take three foundation courses, two methods courses and one of three capstone options. Students choosing the African-American Studies major take five courses in two thematic areas (or clusters): 1) Cultural and Historical Analysis and 2) Civic Engagement and Social Justice. Students choosing the major will take courses that emphasize understanding historical and cultural context, developing problem-solving and critical thinking skills and fostering the capacity to effect change locally, nationally and globally. Courses cover a wide range of topics, including history, literature, health and well-being, family, politics, criminal justice, gender and race, and incorporate both the African-American and African Diasporic experience.

Students who choose the Public Policy Concentration must take six courses in our Public Policy sequence. The Public Policy concentration offers an emphasis on problem-solving, analytical decision-making, and practical applications of policy analysis and management skills. Courses in public policy cover a range of policy areas, including health, criminal justice, reproduction and education, and also address the institutions and processes involved in policy-making. Students have the opportunity to pursue a Joint BA/MPP degree.

Admission to the Major

Students wishing to major in African American Studies must make an advising appointment for an orientation to the major. Students must complete an application and attend a BSOS academic plan workshop.

Please call the AASD office at 301-405-1158 or visit https://calendly.com/lahsram9 (https://calendly.com/lahsram9/) to make an advising appointment.

Program Objectives

The African American Studies Department (AASD) fosters an intellectual environment in which majors learn to critically examine, analyze, interpret and discuss the experiences, culture, traditions, and dynamics of people of the African Diaspora. A primary goal of the program is to develop strong critical thinking, analytical skills, research and writing skills, through our curriculum, such that AASD majors learn the interdisciplinary methods used in examining the socio-economic, historical, and political experiences and contributions of people of African descent. Our curriculum is organized and structured to introduce AASD majors to African American Studies and to ensure that they receive appropriate grounding in the major themes of the field and can place these themes in the historical context of the African Diaspora such that they are better prepared to address the social scientific issues of race, racism, and inequality. The program provides preparation in fundamental research methodology so that AASD majors are able to explore research questions with sufficient rigor.

Relevance of goals to the mission statements and/or strategic plans of the university, college, or program as applicable:

The University of Maryland's stated goals for undergraduates include the ability to learn and develop critical reasoning and research skills; written and oral communications skills; science and quantitative reasoning, and technological fluency. AASD majors are well prepared upon graduation in these areas through the department's curriculum and extensive one-on-one mentoring by the AASD faculty.

Program Learning Outcomes

A primary goal of the African American Studies Department is to develop strong critical thinking, research and writing skills, through our curriculum, such that AASD majors learn the interdisciplinary methods used in examining the socio-economic, historical, and political experiences and contributions of people of African descent. Students should acquire the following knowledge and skills:

1. Describe the social and historical context of the issues in African American and African Diaspora communities related to health and well-being, family functioning, economic development, political participation and contemporary culture.
2. Explain the dynamic interplay between social oppression and resistance in African-American Communities and the African Diaspora
3. Identify critical events and historical periods and analyze their implications for politics, economics, health and psychological functioning in African American and African diaspora communities.
4. Use social science methods and data to analyze social problems and propose solution.
5. Evaluate the validity of claims and conclusions in secular and scientific publications.
6. Identify, compute, and interpret common methods for analyzing quantitative data.
7. Write clearly and speak persuasively.

Requirements

Students must earn a grade of 'C-' or better in each course that is to be counted toward completion of degree requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements. All related or supporting courses in other departments must be approved by an AASP academic advisor. Each semester there will be an approved list of courses for both those choosing the major or the concentration in Public Policy. The academic advisor will review the student's options during their mandatory advising appointment.

African-American Studies Major: 35 Total Credits

Public Policy Concentration: 38 Total Credits

Course	Title	Credits
College Requirements (p. 233)		
Foundation Courses Required for All Majors		
AASP100	Introduction to African American Studies	3

AASP390	(Advanced Qualitative Methods)	
Capstone (Choose One)		**3**
AASP397	Senior Thesis	
AASP4XX	(Study Abroad in Africa or the African Diaspora)	
AASP4XX	(Capstone Seminar and Community Practicum)	
Total Credits		20

[1] Required for Public Policy Concentration Students

[2] Research Practicum is taken for 1 credit per semester.

African-American Studies Major

Course	Title	Credits
Five courses at the 300 or 400 level are required. There must be at least one course in Cluster 1 and one in Cluster 2		**15**
Cluster 1		
AASP321	(Gender, Race and Health)	
AASP340	(Black Children and Youth)	
AASP341	(Diversity in Black Family Life)	
AASP342	(Racial Socialization of Children)	
AASP420	(The Role of Place in Racial/Ethnic Health Disparities)	
AASP430	(Structural Violence and Medical Apartheid in Black Communities)	
AASP432	(Race, Reproduction and Population Policy: An International Perspective)	
AASP442	(Race, Poverty and Transition to Adulthood)	
AASP445	(Reducing Black White Achievement Gaps)	
AASP4XX	(Black Men, Popular Culture and Disability)	
Cluster 2		
AASP361	(Intro to Pan-Africanism)	
AASP362	(African Contributions to History)	
AASP370	(Africa in World Politics)	
AASP371	(Comparative Racial Politics)	
AASP380	(The Commodification and Economics of the Prison Industrial Complex)	
AASP460	(Black Women's Political and Cultural Engagements/Representations of Africa and the Global Diaspora)	
AASP462	(Social Inequality and Social Policy in a Global Perspective)	
AASP480	(Race, GIS and Social Inequalities)	
AASP481	(Negroes with Guns)	
AASP492	(African Americans and Public Policy)	
AASP4XX	(The History of Conservative Black Politics)	
Total Credits		15

Public Policy Concentration

Course	Title	Credits
Analytic Component		
AASP301	Applied Policy Analysis and the Black Community	3
ECON200	Principles of Microeconomics	3
PLCY388	Special Topics in Public Policy	3
or PLCY401	Contemporary Issues in Public Policy	
AASP Policy Electives in African American Studies		9
AASP398	Selected Topics in the African Diaspora	
AASP411	Black Resistance Movements	
AASP441	Science, Technology, and the Black Community	
AASP443	Blacks and the Law	
AASP498	Special Topics in Black Culture	
AASP499	Advanced Topics in Public Policy and the Black Community	
Total Credits		18

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

African Studies Minor

The African Studies Minor focuses on the history, culture, politics and economics of the peoples who populate the continent of Africa. As an interdisciplinary field of study, the minor will provide students with an understanding of the historical and cultural contexts that have and continue to shape political, economic and social development in Africa.

Requirements

The African Studies Minor will include a total of 15 (18 if the student elects to pursue the optional Capstone offering) composed of the following:

Course	Title	Credits
Foundational Course		
AASP200	African Civilization	3
Courses of Choice (two must be at the upper level)		
Area 1: History, Culture, and Language (2 courses)		6
AASP310	African Slave Trade	
AASP361		
AASP362		
AASP461		
CMLT235	Black Diaspora Literature and Culture	
ENGL360	African, Indian and Caribbean Writers	

ENGL368	Special Topics in African American, African, and African Diaspora Literatures (topics vary; must be approved)	
HIST254	African-American History to 1865	
HIST310	History of South Africa	
HIST319	Special Topics in History (The African City: From Ancient Mali to Modern Johannesburg)	
HIST428	Selected Topics in History (HIST428B: Seven Revolutions in Post War Africa)	
LANGUAGE	Any approved African language course [1]	
Area 2: Politics, Society, and Development (2 courses)		6
AASP189I	HIV/AIDS in a Global Perspective	
AASP360	Issues in African Development	
AASP370		
AASP462		
AASP463		
AASP482		
AREC365	World Hunger, Population, and Food Supplies	
ECON315	Economic Development of Underdeveloped Areas	
GEOG130	Developing Countries	
GEOG422	Changing Geographies of Sub-Saharan Africa	
GVPT282	Politics and the Developing World	
Capstone Course (optional)		
AASP400	Directed Readings in African American Studies	
AASP401	Research Directions in African-American Studies	
AASP468	Special Topics in Africa and the Americas (AASP468Z: South Africa Study Abroad Seminar))	
Total Credits		15

1 AASD presently offers introduction and elementary courses in Igbo, Twi and Yoruba, and students may also take courses in Swahili through the Big 10 Alliance.

2 Other relevant courses with permission of the program. Please see the academic advisor in AASD for an approved list of courses.

Black Women's Studies Minor (BSOS)

Joint Minor in Black Women's Studies

College of Arts and Humanities
2101 Woods Hall
301-405-6877
wmst.umd.edu (http://wmst.umd.edu/)

College of Behavioral and Social Sciences
2169 Lefrak Hall
www.bsos.umd.edu/aasd (http://www.bsos.umd.edu/aasd/)

The joint minor in Black Women's Studies focuses on the lives and experiences of women of Africa and the African Diaspora. As a specialty in the fields of Women's Studies and African American Studies, it will provide students with tools for understanding the social and cultural contexts in which race, gender, class, sexuality, ethnicity, nation and other dimensions of difference intersect to influence the lives and experiences of Black women.

See African American Studies Department (p. 236) and Women's Studies Department (p. 224) for faculty rosters.

To make an appointment to explore or declare the minor, go to www.arhu.umd.edu/undergraduate/academics/minors (http://www.arhu.umd.edu/undergraduate/academics/minors/)

Students may enroll in the Black Women's Studies Minor through either African American Studies or Women's Studies. Students with a major in the College of Arts and Humanities are advised to enroll through the Department of Women's Studies. Students with a major in the College of Behavioral and Social Sciences are advised to enroll through the Department of African American Studies.

Requirements

Fifteen (15) credits of coursework are required, distributed below. No course with a grade less than 'C-' may be used to satisfy the minor. An overall GPA of 2.0 in the minor is required for graduation. Students will design their program in consultation with the Women's Studies or African American Studies advisor. No more than two courses may count toward a major in African American Studies or Women's Studies. Course lists can be found here: http://wmst.umd.edu/academics/courses (http://wmst.umd.edu/academics/courses/).

Course	Title	Credits
Foundation Courses		
Select one of the following:		3
WMST263/ AASP298I	Introduction to Black Women's Studies	
WMST265/ AASP298B	Constructions of Manhood and Womanhood in the Black Community	
WMST/ LGBT264	Quare/Queer Contentions: Exploration of Sexualities in the Black Community	
Select one of the following:		3
WMST314/ AASP313	Black Women in United States History	
HIST360/ AASP498I/ WMST498M	Women and the Civil Rights Movement	
AASP398	Selected Topics in the African Diaspora (AASP389G: Gender, Labor, and Racial Identity in Diasporic Communities)	
Electives		**9**
Total Credits		15

- At least two electives must be at the 300 or 400 level.
- One 300 or 400 level course must be Comparative or non-U.S.
- See program for approved electives.

Anthropology

College of Behavioral and Social Sciences
1111 Woods Hall
301-405-1423
anthinquiry@umd.edu
www.bsos.umd.edu/anth (http://www.bsos.umd.edu/anth/)

Anthropology has a strong commitment to preserving and transmitting the knowledge of the past, illuminating the challenges of the present, and contributing to their solutions and shaping the future. We are known for our strong theoretical orientation and are nationally recognized for having

an excellent program in applied anthropology. Our department is prepared to further collaborations within the University, locally, and globally.

Programs

Major

- Anthropology Major (p. 241)

Advising

The primary advisor for students in the Anthropology major is the Undergraduate Advisor. The advisor is available to students during appointments, walk-in hours, and by phone and email. The advisor is responsible for helping students plan their successful completion of the Anthropology major. Students will work with the advisor for an orientation to the department, status on degree progress, administrative approval for special course enrollment, academic audits, and graduation clearance. In addition, students should consider the Undergraduate Advisor a resource for general academic and career advice during their time at Maryland.

The office of the Undergraduate Advisor is supervised and supported by the Director of Undergraduate Studies (a faculty member) in the Department of Anthropology. In addition, all faculty members in the department may serve as faculty advisors to students. For more information, or to contact the Director of Undergraduate Studies or Undergraduate Advisor, please call 301-405-1423 or go to www.bsos.umd.edu/anth (http://www.bsos.umd.edu/anth/).

Opportunities

Academic Programs and Departmental Facilities

The Anthropology department offers beginning and advanced course work in four principal subdivisions of the discipline: archaeology, cultural anthropology, ecological anthropology, and medical anthropology. Within each area, the department offers some degree of specialization and provides a variety of opportunities for research and independent study. Laboratory courses are offered in ecological anthropology. Field schools are offered in archaeology. The interrelationship of all branches of anthropology is emphasized.

The Anthropology department has a total of five laboratories, which are divided into teaching labs and research labs. The department's four archaeology labs, containing materials collected from field schools and research projects of the past several years, serve both teaching and research purposes. The other laboratory is a teaching laboratory in ecological anthropology. The Center for Heritage Research Studies, located in the Department of Anthropology, focuses on research devoted to understanding the cultural characteristics of heritage and its uses.

The undergraduate curriculum is tied to the department's Master in Applied Anthropology (M.A.A.) program; accordingly, preparation for non-academic employment upon graduation is a primary educational goal of the department's undergraduate course work and internship and research components. The department also has a Doctor of Philosophy (PhD) program. Students at the graduate level are asked to focus in one of three areas of faculty expertise: Health, Heritage, and Environment.

Undergraduate Research Experiences

There are several undergraduate research experiences available for students. For more information, please see our website: www.bsos.umd.edu/anth (http://www.bsos.umd.edu/anth/).

Fieldwork Opportunities

The Department of Anthropology encourages students to explore its field school and study abroad opportunities which include, summer archaeology field schools including field schools in Iceland and Ireland, and an ethnographic field school in the Brazilian Amazon.

For more information, see our website: www.bsos.umd.edu/anth (http://www.bsos.umd.edu/anth/).

Internships

All undergraduate students are encouraged to do an internship. There are many non-profit and government agencies in the Baltimore-Washington area that are willing to support Anthropology interns. For more information, please contact the Director of Undergraduate Studies or the Undergraduate Advisor.

Honors Program

The Anthropology department also offers an Honors Program that provides the student an opportunity to pursue in-depth study of his or her interests. Acceptance is contingent upon a 3.5 GPA in anthropology courses and a 3.0 overall average. The Honors Citation is awarded upon completion and review of a thesis to be done within the field of anthropology. For additional information, students should contact the Director of Departmental Honors Program, Dr. Stephen Brighton, 301-405-3700; E-mail: sbrighto@umd.edu.

Student Societies and Professional Organizations

Anthropology Student Association (ASA): An anthropology student association that meets regularly to plan student events and to help coordinate various student and faculty activities. For meeting times contact the Undergraduate Advisor.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Anthropology Major

Anthropology, the study of culture, seeks to understand humans as a whole - as social beings who are capable of symbolic communication through which they produce a rich cultural record. Anthropologists try to explain differences among cultures - differences in physical characteristics as well as in customary behavior. Anthropologists study how culture has changed through time as the human genus has spread over the earth. Anthropology is the science of the biological evolution of human species, and the disciplined scholarship of the cultural development of human beings' knowledge and customary behavior.

Anthropology at the University of Maryland offers rigorous training for many career options. A strong background in anthropology is a definite

asset in preparing for a variety of academic and professional fields, ranging from the law and business, to comparative literature, philosophy and the fine arts. Whether one goes on to a Master's or a Ph.D., the anthropology B.A. prepares one for a wide range of non-academic employment, such as city and public health planning, development consulting, program evaluation, and public archaeology. A Bachelor of Science in Anthropology degree offers more concentrated training including physical science in the areas of archaeology, ecological anthropology and medical anthropology. Courses offered by this department may be found under the acronym ANTH.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. Students shall have an integrated knowledge, awareness and understanding of a culturally and biologically diverse world.
2. Students shall demonstrate an understanding of culture and society.
3. Students shall demonstrate the ability to understand complex research problems, and articulate appropriate methods and theory.

Requirements

Students may seek an undergraduate Bachelor of Arts degree or a Bachelor of Science degree. Every course used to satisfy anthropology major requirements must be completed with a grade of 'C-' or higher. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements.

AnthropOlogy Degree Requirements

All courses are three credits unless otherwise indicated.

Course	Title	Credits
College Requirements (p. 233)		
Foundational Courses		
Select three of the following:		9-10
ANTH210	Introduction to Medical Anthropology and Global Health	
ANTH222	Introduction to Ecological and Evolutionary Anthropology (4 credits)	
ANTH240	Introduction to Archaeology	
ANTH260	Introduction to Sociocultural Anthropology and Linguistics	
Method and Theory Courses		
Select two of the following:		6
ANTH310	Method & Theory in Medical Anthropology and Global Health	
ANTH322	Method and Theory in Ecological Anthropology	
ANTH340	Method and Theory in Archaeology	
ANTH360	Method and Theory in Sociocultural Anthropology	
Anthropology Electives		
Select a minimum of 12 credits offered in Anthropolgy, not double-counted for other Anthropology requirements		12
Applied Field Methods		
Select a minimum of 3 credits of the following:		
ANTH271		
ANTH341	Introduction to Zooarchaeology	
ANTH447	Material Culture Studies in Archaeology	
ANTH451	Environmental Archaeology	
ANTH464	Anthropology of Cultural Heritage	
ANTH467	Researching Environment and Culture	
ANTH468	Special Topics in Cultural Anthropology (ANTH468P - Anthropology, War & Security)

Criminology and Criminal Justice

College of Behavioral and Social Sciences
2220 LeFrak Hall
301-405-4699
ccjsadvising@umd.edu
www.ccjs.umd.edu (http://www.ccjs.umd.edu)

The Department of Criminology and Criminal Justice was established in 1969 and graduated its first doctoral students in 1978/79. The department has grown to be one of the most popular majors on campus, with the #1 ranked doctoral program in the United States (U.S. News and World Report, 2005, 2010, 2019). No longer physically confined to the College Park Campus, CCJS has an undergraduate program in Shady Grove and a Master's degree program in China with Nanjing Normal University Law School.

Programs

Major

- Criminology and Criminal Justice Major (p. 244)

Advising

All majors are strongly encouraged to see an advisor at least once each semester. Advising is available on both a drop-in and appointment basis between 9 am and 4 pm weekdays in 2201 Lefrak Hall. Students must complete all course prerequisites and obtain department permission from CCJS Advising to enroll in most CCJS classes. Call 301-405-4729 or email ccjsadvising@umd.edu.

Opportunities

Internships

Requirements for Internship Placements

The internship must be a learning experience involving work in a criminal justice or criminological setting. Interns are expected to gain valuable information which will add to their overall understanding of the field of criminology and criminal justice. Internship positions must center around gaining new material over the course of the semester and are expected to involve some degree of ongoing training/learning for the intern. Internship placements are subject to the approval of the Internship Director.

Internship Eligibility

Interns must meet the following criteria:

- Interns must be CCJS majors
- Interns must have completed a minimum of 56 credits at the time of application
- Interns must have a cumulative GPA of at least 2.5 at the time of application
- Interns must work 45 hours per credit over the course of the semester
- A maximum of 6 internship credits per semester and a total of 12 internship credits overall will be permitted
- Internship credit will not be approved for current or previously held jobs

Interns must register themselves for the internship prior to the end of the semester's schedule adjustment period. Obtaining Departmental approval for the internship does NOT register the student for the class. Additional information about internships can be picked up from the CCJS advising office in 2201 Lefrak Hall or online.

Honors Program

The Honors Program is a four semester (9 required credit hours) sequence, which a student begins in the fall semester of his or her junior year. CCJS388H, the first course in the sequence, will provide an in-depth understanding of various contemporary criminological issues and the production of criminological research. CCJS388H will only be offered in the fall semester. Students will have the spring semester of their junior year off in order to pursue outside interest such as internships, study abroad, and independent study. In the fall semester of the senior year, students will complete CCJS389H where students will solidify their honors thesis topic and begin preliminary research. In the spring semester of the senior year, students will complete CCJS489H, a writing intensive course, during which the student will complete an honors thesis. At the end of the semester, each student must orally defend his or her honors thesis. Honors students may count their honors courses toward completion of the CCJS Course of Choice major curriculum requirement.

Student Societies and Professional Organizations

There are two Student Societies available for membership for CCJS majors: the Criminal Justice Student Association (CJSA) and Alpha Phi Sigma Honor Society (APS).

The Criminal Justice Student Association (CJSA) is dedicated to supplementing our members' academic experience by providing extracurricular opportunities to further explore critical issues involving criminology and criminal justice. Through a regular program of speakers, agency demonstrations, community service projects and career fairs, the CJSA provides students with valuable information for making decisions about career choices, further graduate level study, and law school. The CJSA provides students with opportunities for academic and social interaction, and access to criminology and criminal justice researchers, teachers, and practitioners representing a variety of government, academic and commercial corporate and non-profit organizations. All graduate and undergraduate students, regardless of major, are eligible for membership in the CJSA. CJSA meetings and programs are held at least monthly during the fall and spring semesters. CJSA does not assess membership dues or fees.

Alpha Phi Sigma (APS) is a National Criminal Justice Honor Society founded 1942 and membership is open to CCJS majors who have completed at least 40 total credits with at least 12 credits in CCJS courses. Undergraduate Applicants must have an overall GPA of at least a 3.2 and a major GPA of at least 3.2. Graduate student applicants must have a 3.4 overall GPA. Applicants must fill out and print the application available at http://www.alphaphisigma.org/applications-1.html Choose Student Member Application (US chapters), submit an official or unofficial transcript, and a check (personal is fine) made out to Alpha Phi Sigma for $75 ($70 of which goes to the National fee and $5 goes to the local chapter). The CCJS degree is a Bachelor of Arts. The name of the local chapter is Omega Iota. Put the completed application, check, and transcript in Nicole Jackson's mailbox inside 2220 Lefrak Hall. Applications are processed once at the beginning of the fall semester and once at the beginning of the spring semester each year, and it generally takes a few months to get official acceptance. Ms. Jackson will notify you when your certificate and pin have been received.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

Each semester the department selects the outstanding graduating senior for the Peter J. Lejins award.

Criminology and Criminal Justice Major

The mission of the Department of Criminal Justice & Criminology is to provide a supportive academic and professional environment for faculty and students. The Department promotes study and teaching concerning crime and delinquency and their prevention and control. The University of Maryland's Department of Criminology and Criminal Justice is a national and international leader in research and criminal justice education, and its Graduate Program is ranked number one in the field. Courses offered by this department may be found under the following acronym: CCJS. Both UMD and Shady Grove offer the CCJS Bachelor of Arts degree.

Admission to the Major

In accordance with university policy, the Department of Criminology and Criminal Justice at UMD has been designated a Limited Enrollment Program (LEP). All first-time freshmen admits who request Criminology

and Criminal Justice will be directly admitted into the major. Other first-time freshman that wish to declare Criminology and Criminal Justice as a major prior to the last day of classes of the first semester in residence will be allowed to do so. The LEP does not apply to the CCJS Shady Grove program.

In order to remain a Criminology and Criminal Justice major, newly admitted freshman will be required to complete the following gateway/entrance requirements on or before the end of the semester in which they attempt 45 University of Maryland credits:

1. Completion of CCJS100 with a grade of 'C-' or higher
2. Completion of CCJS105 with a grade of 'C-' or higher
3. Completion of MATH107 or STAT100 with a grade of 'C-' or higher. A calculus class (MATH120 or MATH130, MATH140 with a grade of 'C-' or higher may be substituted.
4. A minimum cumulative GPA of 2.00

All other students, including both internal and external transfer students, will not be admitted to the program until they have met the following requirements:

1. Completion of CCJS100 with a grade of 'C-' or higher
2. Completion of CCJS105 with a grade of 'C-' or higher
3. Completion of MATH107 or STAT100 with a grade of 'C-' or higher. A calculus class (MATH120 or MATH130, MATH140) with a grade of 'C-' or higher may be substituted.
4. A minimum cumulative GPA based on all previous college-level coursework of 2.50 or higher

Policies for Limited Enrollment Programs

- Only one gateway or performance review course may be repeated to earn the required grade and that course may only be repeated once.
- When more than one course can satisfy a gateway requirement, taking a second course from the list will count as a repeat.
- Students may apply only once to an LEP. Students who are directly admitted and fail to meet the performance review criteria will be dismissed from the major and may not reapply.
- Students must maintain a minimum cumulative GPA of 2.00. Failure to do so will result in dismissal from the major.

Any student denied admission or dismissed from the major may appeal. Dismissed students appeal directly to the director of undergraduate studies in Criminology and Criminal Justice. Internal transfer students appeal to the Office of the Dean for Behavioral and Social Sciences. External transfer students appeal to the Office of Undergraduate Admissions.

Program Learning Outcomes

Having completed the CCJS degree program, students should acquire the following knowledge and skills:

1. Students will demonstrate understanding of the three pillars of our criminal justice system - courts, policing, and corrections
2. Students will demonstrate understanding of the major theories that are used to explain criminal behavior
3. Students will demonstrate competency in the ability to read, interpret, and synthesize (in writing) important research related to criminological theory and the criminal justice system
4. Students will demonstrate understanding of the research methods used in the study of criminology and criminal justice
5. Students will demonstrate competency in apply quantitative skills to criminological concepts

Requirements

The requirements below are in effect for all students who matriculated into the UM system Fall 2015 or later and for students who are currently changing their major to CCJS.

The CCJS major is comprised of 36 credit hours of coursework in the CCJS department and either MATH107 (formerly MATH111) or STAT100. A calculus class (MATH120, MATH130, or MATH140) with a grade of C- or higher may be substituted for MATH107 or STAT100.

Course	Title	Credits
College Requirements (p. 233)		
Required CCJS Courses		
CCJS100	Introduction to Criminal Justice	3
CCJS105	Introduction to Criminology	3
CCJS200	Statistics for Criminology and Criminal Justice	3
CCJS230	Criminal Law in Action	3
CCJS300	Criminological and Criminal Justice Research Methods	3
CCJS Criminal Justice Courses		
Select two of the following:		6
CCJS340	Policing	
CCJS345	Courts and Sentencing	
CCJS342	Corrections	
CCJS Criminology/Theory Course		
Select one of the following:		3
CCJS450	Advanced Juvenile Delinquency	
CCJS451	Crime and Delinquency Prevention	
CCJS454	Contemporary Criminological Theory	
CCJS Courses of Choice		
Select four CCJS courses using one or a combination of the following ways: [1]		12
Complete additional CCJS courses that are not required [2]		
Complete one Independent Study for credit (max 3 credits)		
Complete one Internship for credit (max 3 credits)		
Math Courses for the CCJS LEP Gateway Requirements		
Select one of the following: [3]		3
MATH107	Introduction to Math Modeling and Probability (formerly MATH111)	
STAT100	Elementary Statistics and Probability	
Total Credits		39

1. Two CCJS Courses of Choice must be at the 400 level
2. i.e., CCJS325, CCJS360, CCJS418
3. A calculus class, MATH120 (formerly MATH220), MATH130 or MATH140, with a grade of C- or higher may be substituted

Please keep the following information in mind:

- No grade lower than a C- may be used toward the major
- Students must achieve a combined grade point average of a 2.0 in the CCJS major

Other Requirements for the Major

The CCJS Department enforces all prerequisites and does not oversubscribe students to courses that are closed.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Economics

College of Behavioral and Social Sciences
3114 Tydings Hall
301-405-3266
econadvising@umd.edu
www.econ.umd.edu (http://www.econ.umd.edu)

Economists analyze how people make choices. This statement may seem very simplistic, but it captures the most fundamental aspects of the economics discipline. The range of issues and circumstances that shape peoples' choice are vast and complicated, so economists use conceptual tools to focus on the most important decision-making factors and to predict typical outcomes of peoples' interactions. Economists also use empirical tools to test theory, analyze data, and inform ongoing decision-making. Policymakers in both government and business rely on economists for research findings and advice.

Programs
Major

- Economics Major (p. 246)

Advising

Departmental academic advisors work with current and prospective majors on a walk-in basis, Monday - Friday from 10:00 a.m. - 4:30 p.m. Majors are encouraged to see an advisor at least once an academic year to verify progress in their program requirements. Further information on courses, internships, the department honors program, careers, and graduate schools may be obtained from the advisors.

Location: 3108 Tydings Hall
Phone: 301-405-8367

Opportunities
Honors Program

The Economics Honors Program provides economics majors with the opportunity for advanced study in a seminar format, with faculty supervision of an honors thesis. The Honors Program is designed for students planning to attend graduate school or those seeking an in-depth study of economic theory and its application to economic problems.

For detailed information on the Honors Program, including eligibility requirements, visit the ECON website at http://www.econ.umd.edu/undergraduate/departmental-honors-program (http://www.econ.umd.edu/undergraduate/departmental-honors-program/).

Student Societies and Professional Organizations

The Economics Association of Maryland is an undergraduate club that meets regularly to discuss graduate study in economics and other fields, employment opportunities, and recent economic trends. Please see the undergraduate economics advisors in 3108 Tydings for more information.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

- The Kenneth Bupp Scholarship is awarded to an academically successful economics major with demonstrated financial need.
- The Dudley and Louisa Dillard Award is given to an outstanding economics honors student with one of the best honors thesis.
- The Rupa Duttagupta Fellowship supports an economics major with demonstrated financial need and a solid academic standing.
- The Melanie E. (Lee) Easley Memorial Scholarship supports an economics major with demonstrated financial need and a solid academic standing.
- The Honorable Idamae Garrott Memorial Scholarship supports academically talented majors who demonstrate financial need.
- The Sujon Guha Memorial Award for Academic Excellence and Outstanding Leadership is awarded to an economics honors student with one of the best honors thesis.
- The Martin Moskowitz Award is presented to a graduating senior based on academic excellence and a demonstrated commitment to and philosophy of public service.
- The Moskowitz Family Scholarship is awarded to an academically successful economics major with demonstrated financial need.
- The Peggy Rae and John Sapienza Scholarship is awarded to a junior or senior economics major and is intended to facilitate the education of a hardworking student and encourage him/her toward graduation.
- The Mark C. Sullivan Economics Scholarship is awarded to an economics major who came from the eastern part of the state and has high academic performance.
- The Mark D. Turner and Tracye C. Turner Scholarship in Economics is awarded to an economics major who shows commitment to using their degree to assist minority communities.

Economics Major

Economists study a wide range of phenomena using analytical methods which describe how people and collections of people behave and interact. Many economists define their profession as the analysis of decisions

made in the context of scarcity. Economics can also be described as the study of the production, pricing, and distribution of goods and services within societies. Economists study such issues as inflation, unemployment, poverty, environmental quality, financial markets, and international trade. Economists also apply their methods of analysis to such diverse areas as crime, health care, discrimination, and the problems of developing countries.

Courses offered by this department may be found under the following acronym: ECON. As a large, diverse department, courses are offered in many of the major fields of economic study. Several courses analyze the role of the government policies impacting economic outcomes, while others focus on developing advanced applications of economic theories and methodologies.

Students can learn about the methods of analysis that economists use and about the various fields of inquiry where economists have been most productive. Undergraduate economics majors choose between two curriculums, one leading to a Bachelor of Arts degree and the other to a Bachelor of Science. In the BA track, students learn how to apply economic analysis to a variety of social issues, as well as, the fundamental methodological tools. In the BS track, students focus more attention on the methodology of economic analysis, which requires more emphasis on quantitative skills.

Economics majors have a wide variety of career options, including positions in state and local government, federal and international agencies, business, finance and banking, journalism, teaching, politics and law. Many economics majors pursue graduate work in economics or another social science, law, business or public policy.

Program Learning Outcomes

Students are expected to fully utilize the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

1. Understanding of the key terminology used within the discipline.
2. Ability to use the fundamental methods and tools of the discipline to model economic behavior and to describe and analyze relationships between economic variables.
3. Ability to interpret and apply descriptive and inferential statistics.
4. Ability to analyze the effect of government policies on the economy using both conceptual and quantitative tools.
5. BA track: Ability to articulate how economic analysis can be used to improve decision-making in various situations.
6. BS track: Ability to carry out various techniques for evaluating hypotheses regarding economic phenomena.

Requirements

In addition to the university's general education requirements, students must earn a minimum of 39 credits via a combination of foundation and elective courses in Economics and Math as listed below. Both the Bachelor of Arts and the Bachelor of Science tracks require a sequence of courses starting with introductory micro and macroeconomics, as well as, calculus. Students then proceed to intermediate level courses in theory and statistics. Finally, students take at least one upper-level course focused on quantitative analysis plus several upper-level courses where you explore specific topics in more depth. Both tracks require the same number of courses.

All courses must be passed with a grade of 'C-' or better to count towards the foundation and elective requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major degree requirements. A course used to fulfill one requirement for the major may not count towards any other economics major requirement.

Bachelor of Arts

Course	Title	Credits
College Requirements (p. 233)		
Foundation Courses		
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
MATH120	Elementary Calculus I	3-4
or MATH140	Calculus I	
ECON230	Applied Economic Statistics	3
or BMGT230	Business Statistics	
ECON305	Intermediate Macroeconomic Theory and Policy	3
ECON306	Intermediate Microeconomic Theory & Policy	3
Economics Electives Courses		
Select one of the following: [1]		3
ECON402	Macroeconomic Models and Forecasting	
ECON414	Game Theory	
ECON424	Applied Econometrics	
ECON425	Mathematical Economics	
ECON426	Economics of Cost-Benefit Analysis	
Select two ECON3xx/4xx designated for BA		6
Select three ECON4xx designated for BA		9
Select one of the following:		3
ECON386	Experiential Learning	
Other experiential learning course(s)		
300/400 level ECON course designated for the BA		
Total Credits		39-40

The Economics curriculum may be updated over time, given college and campus approval. Students will be notified as other appropriate courses are approved that fulfill the requirements for the major.

Bachelor of Science

Course	Title	Credits
College Requirements (p. 233)		
Foundation Courses		
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
MATH140	Calculus I	4
MATH141	Calculus II	4
ECON321	Economic Statistics	3
or STAT400	Applied Probability and Statistics I	
ECON325	Intermediate Macroeconomic Analysis	3
ECON326	Intermediate Microeconomic Analysis	3
ECON422	Econometrics I	3
ECON423	Econometrics II	3
ECON406	Advanced Microeconomics	3
or ECON407	Advanced Macroeconomics	

Economics Electives Courses	
Select three 400 level ECON courses designated for the BS	9
Total Credits	41

The Economics curriculum may be updated over time, given college and campus approval. Students will be notified as other appropriate courses are approved that fulfill the requirements for the major.

Other Requirements for the Major

Study Sequences and Plans of Study

Those students planning to pursue graduate study in economics must begin to prepare themselves analytically for graduate work by focusing on theory, statistics, and mathematics in their undergraduate curriculum. These students should consider the full econometrics sequence of ECON422 and ECON423. Mastery of advanced calculus and linear algebra is essential for entrance into graduate schools, and therefore students must take MATH140, MATH141, MATH240, MATH241 and MATH246. Students should also plan on taking MATH410 and MATH411.

Benchmarks

In accordance with the University's policies, the Department of Economics expects students to make timely progress towards graduation. To help measure progress during the early stages of a student's studies in economics, students will have to complete courses designated as benchmarks within a specified number of semesters in order to continue in their major.

Bachelor of Arts

Students must complete the following five courses within two semesters of entering the major:

- ECON200, ECON201, and MATH120 or MATH140 with grades of C- or higher
- One additional GenEd course with a D- or higher
- Academic Writing with a C- or higher

Bachelor of Science

Students must complete the following six courses within two semesters of entering the major:

- ECON200, ECON201, MATH140, and MATH141 with grades of C- or higher
- One additional GenEd course with a D- or higher
- Academic Writing with a C- or higher

These benchmark deadlines may not be appropriate for all incoming students (depending upon credit earned prior to entering the major and math placement). All students complete an individualized benchmark contract with an ECON advisor, either at orientation or in the process of declaring the major. Freshmen wishing to declare an Economics major should see an advisor as soon as possible in order to set appropriate benchmarks and establish a coherent graduation plan.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Geographical Sciences

College of Behavioral and Social Sciences
2181M LeFrak Hall
301-405-4073
geog-advise@umd.edu
www.geog.umd.edu (http://www.geog.umd.edu)

To lead the development of academic, educational, and research directions of human and natural systems, land cover/and land use change and geospatial information science, harnessing the integrative nature of geographic science to answer fundamental questions of global importance.

Programs

Major

- Geographical Sciences Major (p. 250)

Minors

- Geographic Information Science Minor (p. 250)
- Remote Sensing of Environmental Change Minor (p. 252)

Advising

Advising is mandatory for students each semester. The advising office is located at 2181M LeFrak Hall. If you can, please email before you visit us since the schedule can change day to day. We can always be reached via email at geog-advise@umd.edu or voice mail at 301-405-4073.

Opportunities

Fieldwork Opportunities

GEOG418 (Summer/Fall): Field and Laboratory Techniques in Environmental Science
Applied introduction to field methods. This class is built around a two week field trip (mid-August) with a base camp in the headwaters of the Potomac River in the mountains of West Virginia. During the camp the following topics are covers: GPS (global positions system), stream hydrology measurements, vegetation classification and ordination, micrometeorlogical measurements, soils, water quality, remote sensing and GIS, local environmental issues, geomophology and paleohistory, and natural and cultural history.

GEOG330 Beijing, China (Summer): Society and Sustainability
Sustainability is a 21st century buzzword and its definition varies across sectors, scales, and regions. Though all countries share a role in ensuring a sustainable future, given their large populations, GDP, and rates of resource consumption, the United States and China are the most critical actors in this narrative. Join this study abroad program in Beijing, China, to learn about the country's sustainability initiatives through field visits, lectures, professional presentations, and group work with Beijing Normal University college students. You will examine why environmental change is spatially distributed, and how sustainability decisions are made within societies on multiple scales and by multiple cultures. Take this unique opportunity to learn and see the interactions of society and sustainability in China - the country that potentially holds the most peril and promise to

a sustainable global future. http://www.geog.umd.edu/content/study-abroad (http://www.geog.umd.edu/content/study-abroad/)

Internships

The Department of Geographical Sciences offers a one-semester internship program for undergraduates. Students can earn a total of three credits. Students are responsible for finding their own internships and can pursue a wide variety of opportunities in the public private and non-profit sectors. Internships may be on-or off-campus, paid or unpaid. http://www.geog.umd.edu/content/internship-program (http://www.geog.umd.edu/content/internship-program/)

Internship Requirements

- Junior or senior with a minimum of 70 credits
- 2.5 GPA overall

Internship Partners

- NASA Develop
- USDA
- Campus GIS - Facilities Management
- NOAA
- ESRI
- START
- Urban Resources Initiative
- The Maryland National Capital Park and Planning Commission

Honors Program

Students admitted to the Honors program engage in independent research under the guidance of an individual faculty member. Students are eligible upon completion of 30 credits of geography courses including the required courses. Honors students will need to register for 12 credits of which they can substitute for formal coursework. Students must have a 3.2 overall GPA and a 3.5 GPA in Geographical Sciences. http://www.geog.umd.edu/content/honors-geography (http://www.geog.umd.edu/content/honors-geography/)

Student Societies and Professional Organizations

Geography Club

Geography Club is back and better than ever! Join undergrads and grad students for cultural potlucks, international movies, charity events and exploratory trips around the DC metropolitan area!

- Contact the Geography Club at geogclubumd@gmail.com for more information.
- https://geog.umd.edu/content/clubs-and-associations (https://geog.umd.edu/content/clubs-and-associations/)

Gamma Theta Upsilon: The Geography Honor Society

GTU is an international honor society in geography that aims to further professional interest in Geography, strengthen student and professional training and encourage student research. Membership is earned through superior scholarship and therefore it is an honor and a professional distinction.

Members must be in their 4th semester of study, working towards a Geographical Sciences or related degree, have a minimum 3.3 GPA cumulative and in all Geographical Sciences classes and attend meetings and events.

https://geog.umd.edu/undergraduate/associations (https://geog.umd.edu/undergraduate/associations/)

The Association of American Geographers

The Association of American Geographers (AAG) is a nonprofit scientific and educational society founded in 1904. For 100 years the AAG has contributed to the advancement of geography. Its members from more than 60 countries share interests in the theory, methods, and practice of geography, which they cultivate through the AAG's Annual Meeting, two scholarly journals (Annals of the Association of American Geographers and The Professional Geographer), and the monthly AAG Newsletter. http://www.aag.org/

The Sustainability Club

The Department of Geographical Sciences' sustainability club, otherwise known as the Geography Sustainability Task Force (GSTF), seeks to improve the efficiency of our consumption and improve working conditions while at the same time reducing our environmental footprint. We have made small strides such as changing paper usage and reducing power consumption in computer labs, but continue to work on large issues of departmental and building-wide lighting, water, and waste. Through increased education, awareness, and involvement we look forward to big changes in 2012 and beyond. The GSTF has, and continues to, consult and work with the University of Maryland Office of Sustainability (www.sustainability.umd.edu (http://www.sustainability.umd.edu)). Future meetings will be posted here and announced through internal departmental emails.

- Additional information can be obtained from Evan Ellicott (ellicott@umd.edu).
- http://www.geog.umd.edu/content/clubs-and-associations (http://www.geog.umd.edu/content/clubs-and-associations/)

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu)

Awards and Recognition

- James R. Anderson Award For Undergraduate Excellence
- Robert A. Harper Award for Outstanding Undergraduate Research and Writing
- Undergraduate Research Symposium Award
- Outstanding Undergraduate Teaching Assistant Award

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

The Geographical Science Department has two 25-seat computer teaching laboratories that are used in undergraduate coursework, particularly in GIS/Remote Sensing courses. There are different types of equipment for field research and remote sensing, and Global Positioning Systems (GPS) are also available.

Geographic Information Science Minor

Geographical Sciences (GEOG)
2108M LeFrak Hall
301-405-4073
geog-advise@umd.edu
www.geog.umd.edu (http://www.geog.umd.edu)

The Minor Program in Geographic Information Sciences is designed to give students the technical skills needed to acquire, manage and analyze geospatial data. Almost everything we do involves geospatial information such as deciding where to live and travel. Influenced by computer technology, the academic disciplines of geographic information science includes such areas as geospatial visualization, remote sensing, big geospatial data handling, mobile GIS, and web mapping among others, and has evolved dramatically in the past few decades. The fields of GIS-computer systems that manage and analyze different forms of digital geospatial data, and remote sensing-the science of obtaining geographic information from aircraft and satellites, have been growing at an extraordinary rate. Digital cartography has revolutionized traditional cartography to vastly improve map making and visualization of geographic information in a multimedia environment. Students in the minor program will receive extensive training in all of these exciting areas and join the next generation of geospatial scientists. These skills are in great demand in fields such as environmental, sustainable development, urban planning, governmental sectors, military intelligence, engineering, modeling, and computer science related fields.

Requirements

- All credits for the minor must be taken in the Department of Geographical Sciences at the University of Maryland, College Park.
- All courses must be completed with a grade of 'C' or better.
- No more than six credits are to be included in the minor and student's major, supporting courses, and college requirements.
- Must complete 15 credits in Geography

See undergraduate advising office for more information: LeFrak Hall 2108, 301-405-4073.

Course	Title	Credits
Required Courses		
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
Two courses from the following:		6
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	
GEOG473	Geographic Information Systems and Spatial Analysis	
GEOG475	Computer Cartography	
GEOG476	Object-Oriented Computer Programming for GIS	
GEOG498	Topical Investigations (GEOG498I Algorithms for Geospatial Computing)	
Other similar course		
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	3
or BIOM301	Introduction to Biometrics	
or BMGT230	Business Statistics	
or CCJS200	Statistics for Criminology and Criminal Justice	
or ECON321	Economic Statistics	
or EDMS451	Introduction to Educational Statistics	
or GVPT422	Quantitative Political Analysis	
or INST314	Statistics for Information Science	
or JOUR405	Breaking News With Numbers: Statistics for Journalists	
or PSYC200	Statistical Methods in Psychology	
or SOCY201	Introductory Statistics for Sociology	
Total Credits		15

Geographical Sciences Major

How do you see the future? More of everything: food, parks, leisure, personal electronic devices, peace between the nations? Or more people, new diseases, traffic gridlock, and starvation? Will there still be crabs and oysters from the Chesapeake Bay?

The world is changing at unprecedented rates, primarily as a result of human actions. Opportunities for increased well-being of humans and the environment abound. On the other hand, competition for resources such as fresh water and oil is reaching crisis proportions.

The future of humanity depends on skillful management of our environment by planning the social, urban, suburban and rural settings where we work, live and play. Expert care of the environment is needed to maintain supplies of food, natural products, water, and the other resources on which life depends. New insights into the social, economic and urban environment can help control poverty and crime.

Geographical Sciences concerns the relations between people and the natural world, the effects of ecosystems on human beings and vice versa, the choices people make, the effects of past actions on people today, and the effects of today's choices on future generations. Courses offered by this department may be found under the acronym GEOG.

Program Objectives

Mission

To make fundamental contributions to the advancement of geographic science by:

- Conducting disciplinary and integrative research in the physical and social sciences that spans local to global scales, with an emphasis on a geospatial perspective of our changing planet and its sustainability.
- Equipping undergraduate and graduate students to meet the challenges associated with the continuing evolution of geographic science while providing them with vibrant and fulfilling educational experiences.
- Applying geographic science to societal and environmental issues in our state, the nation and the global community.

Vision

To lead the development of academic, educational, and research directions of human and natural systems, land cover/and land use change and geospatial information science, harnessing the integrative nature of geographic science to answer fundamental questions of global importance.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. Possess an understanding of the nature of the physical systems and processes of the Earth's environment and their interactions.
2. Understand the nature of the geographical approach and its value in understanding human-environment relationships.
3. Know the methods and techniques of data collection, display and analysis used in the study of environmental systems.

Requirements

Within any of the specializations available in the geographical sciences program it is possible for students to adjust their programs to fit their individual interests. The geographical sciences major totals 35 semester hours. In addition to the 35 semester hours, the geographical sciences major is required to take an additional 15 semester hours of supporting course work outside of the department. The hours can be either in one department or in an area of specialization. An area of specialization requires that a written program of courses be reviewed and placed on file by the department advisor. Visit or call the Advising Office, Lefrak 2108, 301-405-4073, e-mail geog-advise@umd.edu, or see the web page at www.geog.umd.edu (http://www.geog.umd.edu). Supporting courses generally are related to the area of specialty in geographical sciences. The pass-fail option is not applicable to major or supporting courses. A minimum grade of 'C-' in each course is required for major and supporting courses. Students must have a minimum 2.0 cumulative grade point average across all courses, including the supporting sequence, used to satisfy the major degree requirements.

The required courses for geography majors are as follows:

Course	Title	Credits
College Requirements (p. 233)		
Required Courses		
GEOG201	Geography of Environmental Systems	3
GEOG202	Introduction to Human Geography	3
GEOG211	Geography of Environmental Systems Laboratory	1
GEOG212	Career Planning for Geographical Sciences, GIS, and ENSP Majors	1
Select one upper-level physical geography course		3
Select one upper-level human geography course		3
Select one upper-level geographic techniques course		3
ELECT300/400	Upper-level geography electives [1]	15
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	3
Supporting Courses		
MATH120	Elementary Calculus I	3
Supporting courses approved by GEOG advisor		12
Total Credits		50

[1] At least one upper-level course in physical geography, human geography and geographic technique is required regardless of the specialty of the individual student's program. These courses build on the initial base provided by the Primary Courses, and also serve as the basis for selection of upper-level geography courses.

Introduction to Geography

The 100-level geography courses are general education courses for persons who have had no previous contact with the discipline in high school or for persons planning to take only one course in geography. They provide general overviews of the field or in one of its major topics. Credit for these courses is not applied to the major.

Related Programs

Geographic Information Science/ Computer Cartography Major

The Geographical Sciences Department offers an important area of specialization: GIS and Computer Cartography. The Bachelor of Science degree program in Geographic Information Science and Computer Cartography is designed to give students the technical skills needed to acquire, manage and analyze very large amounts of geographic data. Students will get extensive computer training in digital processing of remote sensing observations and cartographic vector data, spatial analysis, and the display of information products. Almost everything we do involves geographic information, from deciding where to live and travel, to environmental monitoring and urban planning. Influenced by computer technology, the academic disciplines of geographic information science such as remote sensing, geographic information systems (GIS), and computer cartography have evolved dramatically in the past few decades. Remote sensing is the science of obtaining geographic information from aircraft and satellites. GIS technology manages and analyzes different forms of digital geographic data, and this field has been growing at an extraordinary rate. Computer cartography has revolutionized traditional cartography to vastly improve map making and visualization of geographic information in a multimedia environment.

The required courses for GIS majors are as follows:

Course	Title	Credits
College Requirements (p. 233)		
Required Courses		
GEOG201	Geography of Environmental Systems	3
GEOG202	Introduction to Human Geography	3
GEOG211	Geography of Environmental Systems Laboratory	1
GEOG212	Career Planning for Geographical Sciences, GIS, and ENSP Majors	1
Select one upper-level physical geography course		3
Select one upper-level human geography course		3
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	3
Select three credits of upper-level geography electives		3
GEOG372	Remote Sensing	3
GEOG373	Geographic Information Systems	3
GEOG376	Introduction to Computer Programming for GIS	3
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	3
GEOG472	Remote Sensing: Digital Processing and Analysis	3
GEOG473	Geographic Information Systems and Spatial Analysis	3
GEOG475	Computer Cartography	3
GEOG476	Object-Oriented Computer Programming for GIS	3
GEOG477	Mobile GIS Development	3

Supporting Courses		
Supporting courses approved by GEOG advisor [1]		12
MATH120	Elementary Calculus I	3
Total Credits		62

[1] Supporting area courses must be taken from a list provided by the department. All math programs should be approved by a departmental advisor.

Geographical Science and Social Studies Education Double Major

In conjunction with the College of Education/Curriculum and Instruction, the Geographical Sciences Department offers a special 121 credit hours program for students wishing to double major in Geographical Sciences and Social Studies Education - Geography Concentration, allowing them to teach geography at the secondary level. Early examination of requirements is encouraged to reduce the number of additional hours required. In addition to the Geographical Sciences Department's required credits, the program requires 28 credit hours of course work in history and the social sciences. For a list of requirements, contact the Geography Undergraduate Advising Office. Requirements are also listed under the Curriculum and Instruction Social Studies Education - Geography Concentration double major option.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Remote Sensing of Environmental Change Minor

Geographical Sciences (GEOG)
2108M LeFrak Hall
301-405-4073
geog-advise@umd.edu
www.geog.umd.edu (http://www.geog.umd.edu)

The Remote Sensing of Environmental Change minor program (RSEC) is designed to build students' understanding global environmental change in order to assess their impacts on the physical and human landscapes, and to use remote sensing as an analytical tool for identifying the impacts. Students in the minor program will receive technical training in remote sensing to examine how extreme environmental events shape human society and ecosystems from the interdisciplinary perspective afforded by the field of Geography.

Admission to the Program

There are no special requirements for the minor program in Remote Sensing of Environmental Change. The Department of Geographical Sciences welcomes students from every area of study. GIS and ENSP students are also welcome to enroll in this minor.

Requirements

- All credits for the minor must be taken in the Department of Geographical Sciences at the University of Maryland, College Park.
- All courses must be completed with a grade of "C-" or better.
- No more than **six credits** are to be included in the Minor and student's major, supporting courses, and college requirements.

Course	Title	Credits
Foundation Course		
Choose one Foundations Course		3
GEOG140	Natural Disasters: Earthquakes, Floods, and Fires	
GEOG170	Mapping our Digital World	
Technical Geography Courses		
GEOG372	Remote Sensing	3
GEOG472	Remote Sensing: Digital Processing and Analysis	3
Select one Physical Geography Course:		3
GEOG340	Geomorphology	
GEOG301	Advanced Geographical Environmental Systems	
Select one Human Dimension of Global Change Course:		3
GEOG328	Topics in Regional Geography (GEOG328B - China)	
GEOG328	Topics in Regional Geography (GEOG328C - Sub-Saharan Africa)	
GEOG330	As the World Turns: Society and Sustainability in a Time of Great Change	
GEOG331	Introduction to Human Dimensions of Global Change	
GEOG332	Economic Geography	
GEOG423	Latin America	
Select one Advanced Integrated Course:		3
GEOG415	Land Use, Climate Change, and Sustainability	
GEOG416	Conceptualizing and Modeling Human-Environmental Interactions	
GEOG431	Culture and Natural Resource Management	
GEOG441	The Coastal Ocean	
GEOG442	Biogeography and Environmental Change	
Total Credits		18

Global Terrorism Studies Minor

National Consortium for the Study of Terrorism and Responses to Terrorism (START)
START, University of Maryland
PO Box Number 266
5245 Greenbelt Rd,
College Park, MD 20740
301-405-6600
www.start.umd.edu (http://www.start.umd.edu/)

The Global Terrorism Studies program focuses on exploring the origins and motivations of terrorism based on theoretical understandings of individual and group behavior. Students also explore the impacts of the threat of terrorism on individuals and communities as well as strategies for preventing, deterring, mitigating, and responding to terrorist threats.

For more information about the minor, please visit: https://www.start.umd.edu/education/global-terrorism-studies-minor-program (https://www.start.umd.edu/education/global-terrorism-studies-minor-program/)

Requirements

Course	Title	Credits
Minor Requirements		
BSST327	Introduction to Terrorism and the Terrorist Threat	1
BSST330	Terrorist Motivations and Behaviors	3
BSST331	Innovations in Counterterrorism	3
BSST335	Innovations in Countering Violent Extremism	3
BSST386	Experiential Learning in Terrorism Studies (Not repeatable)	3
ELECTIVES	3 additional elective credits from within the Program in Terrorism Studies (BSST) [1]	3
Select one of the following Global Perspective courses:		3
ANTH265	Anthropology of Global Health	
AREC345	Global Poverty and Economic Development	
AREC365	World Hunger, Population, and Food Supplies	
ENES269	Topics in Grand Challenges for Engineering in a Global Context	
ENES316	Global Leadership in Engineering, Business, & Technology	
ENES464	International Entrepreneurship and Innovation	
ENES472	International Business Cultures in Engineering and Technology	
ENES474	Global Perspectives of Engineering	
GEOG330	As the World Turns: Society and Sustainability in a Time of Great Change	
GVPT200	International Political Relations	
GVPT280	The Study of Comparative Politics	
GVPT282	Politics and the Developing World	
GVPT289	Special Topics in Government and Politics (GVPT289A: Appetite for Change: Politics & the Globalization of Food)	
GVPT289	Special Topics in Government and Politics (GVPT289J: Uncertain Partners: US & China in a Changing World)	
GVPT289	Special Topics in Government and Politics (GVPT289L: Religions, Beliefs, and World Affairs)	
GVPT306	Global Environmental Politics	
GVPT309	Topics in International Relations	
GVPT354	International Development and Conflict Management	
GVPT359	Topics in Comparative Politics	
GVPT409	Seminar in International Relations and World Politics (GVPT409J-Multi-Track Diplomacy & Conflict Transformation)	
GVPT409	Seminar in International Relations and World Politics (GVPT409K-Workshop in Multi-Track Diplomacy)	
Total Credits		19

[1] Upon approval from the Director, students may substitute a relevant course outside BSST.

All courses used to satisfy the requirements of the minor must be completed with a grade of 'C-' or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Government and Politics

College of Behavioral and Social Sciences
3140 Tydings Hall
301-405-4156
www.gvpt.umd.edu (http://www.gvpt.umd.edu)

The Department of Government and Politics emphasizes such broad areas as political development, policy analysis, social justice, political economy, conflict, and human rights. These broad conceptual areas are integral components of study in the discipline. The areas are commonly referred to as American government and politics; comparative government; political theory; international relations; public administration; public law; public policy and political behavior.

Programs

Major

- Government and Politics Major (p. 254)

Minor

- International Development and Conflict Management Minor (p. 256)

Advising

Academic advisors are available to assist students with degree planning. Students are encouraged to see an advisor each semester to ensure understanding of major requirements and to review students' progress within the major. All students are required to see an advisor before they register for their senior year of classes, typically between 75 and 89 credits earned.

Academic advising is available daily on a drop-in or appointment basis in the Undergraduate Advising Office located in 3104 Tydings Hall. Walk-in schedules are posted on-line at https://gvpt.umd.edu/undergraduate/undergraduate-advising (https://gvpt.umd.edu/undergraduate/undergraduate-advising/).

Opportunities

Undergraduate Research Experience

Undergraduate GVPT majors are strongly encouraged to participate in independent research with GVPT faculty members. The independent study option provides students opportunities to work one-on-one with a faculty member doing research on a topic of the student's choosing. Students should expect to devote approximately 12 hours per week for 16 weeks to the independent study. Students should also expect to write a final research paper no less than 40 pages in length. GVPT Advisors are available to assist students in identifying appropriate research topics and in selecting the GVPT faculty mentor.

Only six hours of graded GVPT independent study credit will apply toward the 36 hours needed in the major. Independent study opportunities are generally open only to GVPT majors with junior standing and a 3.0 GPA.

Internships

Undergraduate GVPT majors are strongly encouraged to take advantage of the university's close proximity to Washington D.C. and Annapolis by completing at least one internship experience. The GVPT Advising Office advertises internship opportunities weekly on the undergraduate blog (http://umdgvpt.blogspot.com/), and advisors can assist students in identifying other internship opportunities.

The department offers academic credit for approved internships. Detailed information is available on the GVPT website, www.gvpt.umd.edu/undergraduate/internships (http://www.gvpt.umd.edu/undergraduate/internships/).

Only six hours of graded GVPT internship credit will apply toward the 36 hours needed in the major. Internship credit graded on a pass/fail basis may not be used to satisfy the GVPT major requirements. In no cases may more than 12 internship credits be counted towards the 120 credits needed to graduate. Internship credit is generally open only to GVPT majors with junior standing and a 3.0 cumulative GPA.

Honors Program

The aim of the Government and Politics Honors Program is to encourage students with outstanding abilities to accelerate their development and intellectual growth under conditions of greater freedom, greater responsibility, and more individual supervision from their instructors. The program also seeks to provide a community within which students can meet one another and further develop their interests in political science and public affairs.

All students majoring in government and politics may apply for admission to the GVPT Honors Program once they have completed the first semester of their sophomore year. Additional information concerning the Honors Program may be obtained online at https://gvpt.umd.edu/undergraduate/gvpt-honors-program (https://gvpt.umd.edu/undergraduate/gvpt-honors-program/).

Student Societies and Professional Organizations

Pi Sigma Alpha, the National Political Science Honor Society, is the only honor society for college students of political science and government in the United States. The Alpha Zeta chapter of Pi Sigma Alpha was founded in 1938 at the University of Maryland, College Park. Since then, the chapter has hosted a variety of activities and worked closely with the Department of Government & Politics. For more information, please visit https://gvpt.umd.edu/undergraduate/student-organizations (https://gvpt.umd.edu/undergraduate/student-organizations/)

Scholarships and Financial Assistance

GVPT students are encouraged to apply for Government and Politics Departmental Scholarships and outside scholarship opportunities. For more information on these scholarships, please visit https://gvpt.umd.edu/undergraduate/scholarships (https://gvpt.umd.edu/undergraduate/scholarships/).

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit www.financialaid.umd.edu (https://www.financialaid.umd.edu/).

Awards and Recognition

Government and Politics students have had great success in winning campus and national awards. Our students have been chosen as university commencement speaker and university medal winner. Many students are regularly selected for national undergraduate conferences and have won national scholarships for graduate and law school. The Undergraduate Director nominates deserving students for departmental and university awards and recognition, and students are informed through the advising office of new opportunities to apply.

Government and Politics Major

Government and Politics is one of the largest majors on campus with over 1,000 students taking courses in American politics, international relations (official concentration available), comparative politics, political theory, political philosophy, law, public policy, and environmental policy. Its large and diverse group of students are mentored by faculty through a variety of in and out of classroom experiences and have been extremely successful in garnering campus and national awards, acceptance to competitive law and graduate programs, and exciting careers in all levels of government and the private sector. Courses offered by this department may be found under the acronym GVPT.

Admission to the Major

Government and Politics is a Limited Enrollment Program that has special requirements for admission, such as minimum GPA guidelines and required courses; the requirements are detailed on the GVPT website, https://gvpt.umd.edu/undergraduate/admissions (https://gvpt.umd.edu/undergraduate/admissions/). Students planning to transfer into the major should contact the department for details on Limited Enrollment Program requirements. Students admitted as incoming freshmen will undergo an academic review after 45 credits.

Program Objectives

The Department of Government and Politics offers programs for the general student as well as for students who are interested in careers in government, the public sector, foreign assignment, teaching, a variety of graduate programs, and law schools. In addition to the Government and Politics general curriculum, the department offers a formal concentration in International Relations. Satisfactory completion of requirements leads to a Bachelor of Arts degree in Government and Politics.

The study of politics is both an ancient discipline and a modern social science. The origin of the discipline can be traced back to the earliest times when philosophers, statesmen, and citizens studied the nature of government, justice, responsibility, and the consequences of political action. More recently, the study of politics has also emphasized scientific analysis and methods of observations about politics. Today, the discipline reflects a broad effort to collect data about politics and governments utilizing relatively new techniques developed by all of the social sciences.

The Department of Government and Politics combines philosophical and scientific concerns in its overall program as well as in specific courses. It emphasizes such broad areas as political development, policy analysis, social justice, political economy, conflict, and human rights. These broad conceptual areas are integral components of study in the discipline. The areas are commonly referred to as American government and politics;

comparative government; political theory; international relations; public administration; public law; public policy and political behavior.

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. An understanding of basic political science concepts including power, institutions, political systems, theories of the state, political conflict, citizenship, and contending analytical and theoretical approaches
2. Proficiency in research and analytical skills using either quantitative methods and or library skills
3. A basic knowledge of the methods, approaches, or theories used in accumulating and interpreting information applicable to the discipline of political science
4. Effective oral and written communication skills to clearly and coherently present information in the discipline of political science

Requirements

Government and Politics students must complete a minimum 36 credit hours within GVPT, but may take no more than 42 credit hours total within the major. At least 18 of the 36 credits must be in upper-level courses. Students exceeding the 42 credit limit will not be allowed to count additional GVPT credits within the 120 needed to graduate. For every additional GVPT credit, students must complete an additional credit outside of the GVPT major to graduate (AP and IB credits are included in this calculation). A minimum grade of 'B-' is required for GVPT170 (or GVPT241 if student has AP/IB credit for GVPT170); a minimum grade of 'C-' is required in all other major requirements.

Course	Title	Credits
College Requirements (p. 233)		
Required Courses		
GVPT170	American Government	3
Select one of the following:		3-4
MATH107	Introduction to Math Modeling and Probability	
MATH120	Elementary Calculus I	
MATH140	Calculus I	
STAT100	Elementary Statistics and Probability	
GVPT241	The Study of Political Philosophy: Ancient and Modern	3
GVPT201	Scope and Methods for Political Science Research	3
GVPT Electives	Select 27 credits of GVPT courses, 18 credits of which must be at the 300-400 level	27
Skills Requirement		
ECON200	Principles of Microeconomics	3
Completion of a foreign language through the entire elementary level [1]		4-12
Quantitative course from an approved list [1]		3
Intermediate-level foreign language course or additional quantitative course from an approved list [1]		3-4
Supporting Sequence		
Select 15 credits in a department outside of Government & Politics, with at least 6 credits at the 300-400 level [2]		15
Total Credits		67-77

1. See GVPT website for more details, https://gvpt.umd.edu/undergraduate/major-requirements (https://gvpt.umd.edu/undergraduate/major-requirements/).
2. Must be approved by a GVPT Advisor.

All courses used to satisfy these requirements must be completed with a grade of 'C-' or higher (except for the GVPT gateway course which requires a 'B-' or higher).

Requirements for the International Relations Concentration

Course	Title	Credits
College Requirements (p. 233)		
Required Courses		
GVPT170	American Government	3
Select one of the following:		3-4
MATH107	Introduction to Math Modeling and Probability	
MATH120	Elementary Calculus I	
MATH140	Calculus I	
STAT100	Elementary Statistics and Probability	
GVPT241	The Study of Political Philosophy: Ancient and Modern	3
GVPT201	Scope and Methods for Political Science Research	3
GVPT200	International Political Relations	3
GVPT280	The Study of Comparative Politics	3
or GVPT282	Politics and the Developing World	
GVPT Electives	Select 21 credits of GVPT courses, 18 credits of which must be at the 300-400 level [1]	21
Skills Requirements		
ECON200	Principles of Microeconomics	3
Completion of a foreign language through the entire elementary level [2]		3-12
Quantitative course from an approved list [2]		3
Intermediate-level foreign language course [2]		3-4
Supporting Sequence		**15**
Select 15 credits from a department outside of Government & Politics, with at least 6 credits at the 300-400 level [3]		
Total Credits		66-77

1. Additionally, 15 of the 18 upper-level credits must come from an approved list of International Relations or Comparative Politics courses.
2. See GVPT website for more details, https://gvpt.umd.edu/undergraduate/major-requirements (https://gvpt.umd.edu/undergraduate/major-requirements/).
3. Must be approved by a GVPT Advisor.

All courses used to satisfy these requirements must be completed with a grade of 'C-' or higher (except for the GVPT gateway course which requires a 'B-' or higher).

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

International Development and Conflict Management Minor

2117 Chincoteague Hall
301-314-7703
https://cidcm.umd.edu/landing/MIDCM (https://cidcm.umd.edu/landing/MIDCM/)

The minor in International Development and Conflict Management is a 16-credit, undergraduate program of instruction designed for students who aspire to gain theoretical understanding and practical skills necessary to address critical global concerns related to development and conflict -- and at their intersection.

Applications are accepted during the spring and summer semesters and enrolled students begin the program in the subsequent fall semester. Students applying for the program must be entering their sophomore, junior, or senior year of undergraduate study. Applicants must be full-time students in good standing, with a cumulative GPA of 2.5 or better. Up to 70 students are accepted into the program each year.

Advising for the minor is conducted through the Center for International Development and Conflict Management. For more information about the minor and access to application materials, please visit: https://cidcm.umd.edu/landing/MIDCM (https://cidcm.umd.edu/landing/MIDCM/).

Requirements

Requirements for the minor include the following coursework:

Course	Title	Credits
Required Courses		
GVPT354	International Development and Conflict Management	3
GVPT355	Capstone in International Conflict Management	3
GVPT356	Capstone in International Development	3
ELECTIVE	Global Perspectives Elective courses from approved list	3
BSOS388	Behavioral and Social Sciences Special Topics (BSOS388E-Minor Practicum)	1
METHODS	One research methodology course from approved list	3
Total Credits		16

Note: Six credits (or two courses) can be double counted for your major and the minor. Classes must generally be completed after acceptance into the minor program, with the exception of the elective and methods requirements.

All courses used to satisfy the requirements of the minor must be completed with a grade of 'C-' or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Hearing and Speech Sciences

College of Behavioral and Social Sciences
0100 LeFrak Hall
301-405-4213
http://www.hesp.umd.edu

The focus of the Undergraduate Program in Hearing and Speech Science is to prepare students for graduate study by providing the foundation courses needed to continue their education in either speech-language pathology or audiology, These courses include basic sciences, anatomy and physiology, math, statistics, as well as courses specific to the study of human communication and its disorders.

Programs

Major

- Hearing and Speech Sciences Major (p. 257)

Minor

- Hearing and Speech Sciences Minor (p. 259)

Advising

The coursework in Hearing and Speech Sciences requires careful sequencing. Material learned in early courses provides the foundation for later courses and some required courses are only offered during certain semesters. For this reason advising for HESP majors and minors is **MANDATORY**. This means that each student must meet with the department academic advisor each semester prior to registering for classes. Students will be notified by e-mail of their registration date or they may check their registration status by going to Testudo (https://www.testudo.umd.edu/) and clicking on "Appointment and Registration Status". Students should schedule an advising meeting **no sooner** than two weeks prior to their registration date, as this prevents students from having to return for another appointment due to closed classes. Advising appointments may be made by going to https://hespadvisingcalendar.umd.edu/ (http://hespadvisingcalendar.umd.edu/). Advising in the HESP major is crucial, especially for students who are changing into the major late in their academic careers or transferring from a community college. It is important to note that these students may not be able to complete the major in 4 years. Advising is always available to students regarding academic and major choices, career planning, and/or academic concerns.

Opportunities

Undergraduate Research Experience

Undergraduate research experience is invaluable for students in the Hearing and Speech Sciences Department. Direct interaction with a faculty member and participation in a research lab enhances the undergraduate educational experience. Students are encouraged to become involved by exploring research topics listed by faculty members on the HESP website (https://hesp.umd.edu/undergraduate/how-get-involved/#id_research). Students may work with faculty members on a one-to-one basis as a volunteer research assistant or receive credit for their experience. The number of credits that a student may earn is determined by the faculty researcher. Typically the student is expected to work 3 hours for each credit received in a semester. Unless the student is involved in true independent research, they should enroll in HESP499 with the Pass/Fail grade option. Please note that individual professors may

have special requirements for participation in their research program. You will need to contact the professor that you wish to work with before enrolling in HESP499 to obtain their permission and their individual section number needed to register. The HESP academic advisor will remove the registration block so that you can register. The University limit for 499 credits is six.

Internships

Internships (even if they are not directly related to Hearing and Speech) are an excellent way to obtain experience in the workplace. Although internships are not a requirement of the HESP curriculum, students are encouraged to explore related experiences through the College of Behavioral and Social Sciences Internship program. Information about these opportunities can be found on the BSOS website. (https://bsosundergrad.umd.edu/engagement/internships/)

THE HESP Honors Program

The objective of the HESP Honors program is to encourage and recognize superior academic achievement and scholarship by providing opportunities for interested, capable, and energetic undergraduates to engage in independent study. A research project will be conducted under the supervision of a faculty mentor and will result in an Honors thesis. Students DO NOT have to be part of the University Honors Program to participate in the departmental program. Additional information as well as eligibility and application requirements, can be found on the HESP website (https://hesp.umd.edu/undergraduate/honors-hearing-and-speech-sciences-undergraduate-students/).

Student Societies and Professional Organizations

There are two organizations that hearing and speech science majors are invited to join. They are the University of Maryland's Chapter of the National Student Speech-Language and Hearing Association (https://www.nsslha.org/) (NSSLHA) and the Student Academy of Audiology (https://saa.audiology.org/) (SAA). Both organizations are involved in fund raising, sponsoring educational speakers and participating in community service activities. Students can obtain leadership skills by serving as an officer in either organization.

Scholarships and Financial Assistance

The Office of Student Financial Aid (https://financialaid.umd.edu/) (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. Although there is no financial support for undergraduates provided by the department, there is an endowed scholarship that students who are interested in pursuing graduate study in Audiology, may apply for in their junior year. See information about the Karin E. Young Award (https://hesp.umd.edu/undergraduate/karin-e-young-memorial-endowment-award/).

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

The Department of Hearing and Speech Sciences offers students numerous opportunities to interact with faculty in teaching, research and clinical experiences. Faculty welcome the participation of undergraduates in their research laboratories. The Hearing and Speech Clinic (http://hespclinic.umd.edu/) as well as the Language Learning Early Advantage Program (LEAP preschool (http://hespclinic.umd.edu/leap-preschool.html)) in Lefrak Hall provide students the opportunity to see the interaction between clinical and research efforts.

Hearing and Speech Sciences Major

Hearing and speech sciences is an inherently interdisciplinary field, integrating knowledge from the physical and biological sciences, medicine, psychology, linguistics, and education in order to understand human communication and its disorders. The department curriculum leads to the Bachelor of Arts degree. An undergraduate major in this field primarily provides the background for graduate training in Speech-Language Pathology or Audiology. However, it is also an excellent preparation for students who wish to pursue graduate study in other disciplines such as: occupational therapy, physical therapy, special education, or nursing. The student who wishes to work professionally as a speech-language pathologist or audiologist must obtain a graduate degree in order to meet national certification requirements and state licensure laws.

The hearing and speech sciences curriculum is designed in part to provide supporting course work for majors in related fields, so most course offerings are available to both departmental majors and non-majors. Courses offered by this department may be found under the following acronym: HESP. Permission of an instructor may be obtained to waive course prerequisites for non-majors wishing to take hearing and speech courses of personal interest.

Admission to the Major

The undergraduate program in HESP is not a limited enrollment major. The program is structured to provide adequate background for graduate training in Speech-Language Pathology, Audiology and Speech, Language or Hearing Sciences. It is considered to be a pre-professional program. It is important for HESP students to understand that in order to pursue a career as a Speech Language Pathologist or Audiologist, **you must continue on to graduate study.** Further information regarding education and training for these careers can be found on the American Speech-Language Hearing Association (https://www.asha.org/students/) website. Students should be advised that graduate school admissions are **highly competitive**; therefore students must perform to the best of their ability throughout the entire undergraduate curriculum in order to be considered for admittance into any graduate program. The coursework in Hearing and Speech Sciences requires careful sequencing. Material learned in early courses provides the foundation for later courses and some required courses are only offered during certain semesters. **For this reason most HESP courses have required pre-requisites and academic advising is crucial.** This also means that students transferring into the major late in their academic careers or transferring from a community college, may not be able to complete the major in 4 years.

Program Objectives

The Department of Hearing and Speech Sciences strives to provide state-of-the-art teaching, research, and clinical services in the areas of Audiology and Speech-Language Pathology.

Program Learning Outcomes

The undergraduate curriculum in Hearing and Speech Sciences is structured to provide a strong background for graduate training in Speech-Language Pathology, Audiology and Hearing, Language or Speech Sciences. Although required courses at the undergraduate level are identical for all undergraduate majors, emphasis can be given to

individual curricula through the selection of elective courses. Having completed the degree program, students should have acquired the following knowledge and skills:

1. Students will demonstrate application of fundamental concepts of basic sciences (i.e., biological, physical, mathematics/statistics, behavioral and social sciences) to the hearing and speech sciences discipline.
2. Students will demonstrate knowledge of basic communication processes.
3. Students will demonstrate knowledge of speech, language, and hearing disorders and differences, including etiologies and characteristics, prevention, assessment, and intervention.

Requirements

Students majoring in Hearing and Speech Sciences must complete 33 semester hours of required HESP courses in order to complete their degree. In addition to these HESP courses, students must also complete 12 semester hours of supporting courses in psychology, statistics and other related fields. 14 credits in the major also overlap with the University of Maryland's General Education courses.

All courses required for the HESP major must be completed with a grade of 'C-' or better. In addition, when a HESP course has a listed pre-requisite, this pre-requisite must have been completed with a grade of 'C-' or better before registration in the subsequent course will be approved.

Because course sequencing is extremely important, advising for HESP majors is mandatory prior to registration each semester.

Course	Title	Credits
College Requirements (p. 233)		
Required Courses		
HESP120	Introduction to Linguistics (Also fulfills either DSHS or DSSP General Education Requirement)	3
HESP202	Introduction to Hearing and Speech Sciences	3
HESP300	Introduction to Psycholinguistics	3
HESP305	Anatomy and Physiology of the Speech Mechanism (Offered fall semester only)	3
HESP311	Anatomy, Pathology and Physiology of the Auditory System (Offered spring semester only)	3
HESP400	Speech and Language Development in Children	3
HESP403	Introduction to Phonetic Science	3
HESP407	Bases of Hearing Science (Offered spring semester only)	3
HESP411	Introduction to Audiology	3
Select one of the following Disorder Courses:		**3**
HESP402	Language and Phonological Disorders in Children (Offered spring semester only) [4]	
HESP404		
HESP406	Acquired Neurogenic Communication Disorders in Adults [4]	
HESP498	Seminar (in Hearing and Speech Sciences, topics vary)	
Select one of the following Elective Courses		
HESP386	Experiential Learning [1]	
HESP388	Undergraduate Research Externship [1]	
HESP389	LEAP Classroom Internship [1]	
HESP402	Language and Phonological Disorders in Children	
HESP404		
HESP406	Acquired Neurogenic Communication Disorders in Adults	
HESP413	Aural Rehabilitation/Habilitation [4]	
HESP415	Principles and Methods in Speech-Language Pathology [4]	
HESP416	Principles and Methods in Audiology (Offered only in the fall semester) [4]	
HESP417	Principles and Methods in Speech-Language Pathology and Audiology [4]	
HESP418	Clinical Practice in Speech-Language Pathology and Audiology [1]	
HESP422	Neurological Bases of Human Communication [4]	
HESP469	Honor Thesis Research [1]	
HESP498	Seminar (in Hearing and Speech Sciences, topics vary)	
HESP499	Independent Study [1]	
Additional HESP Major Requirements (These may also fulfill General Education Requirements)		
PSYC100	Introduction to Psychology (fulfills DSHS General Education Requirement) [2]	3
Select one of the following Statistic courses: Fulfills FSAR General Education Requirement [2]		3
EDMS451	Introduction to Educational Statistics	
PSYC200	Statistical Methods in Psychology	
BIOM301	Introduction to Biometrics	
Select two courses from Allied/Related Fields. The most recent list of courses fulfilling this requirement can be obtained from the HESP Academic Advisor		6
PHYS102 & PHYS103	Physics of Music and Physics of Music Laboratory [2]	4
BSCI170/171 or BSCI103 OR any Biology course based on the biology of human systems [2,3]		3-4
Total Credits		49-50

1. Internships, clinical or research experiences do not fulfill the Elective Course requirement.
2. These courses also satisfy national certification standards (https://www.asha.org/Certification/Course-Content-Areas-for-SLP-Standards/) for Speech Language Pathology and Audiology.
3. Must be based on the biology of the **human** system and not plants or insects.
4. These courses are not required for the HESP major, however, some of these courses MAY be pre-requisite courses for some graduate programs. Students should consult the websites of the graduate programs in which they are planning to apply, to ensure that they take all the courses which are pre-requisites for those programs.

Other Requirements for the Major

The coursework in Hearing and Speech Sciences requires careful sequencing. Material learned in early courses provides the foundation for later courses and some required courses are only offered during certain semesters. **For this reason most HESP courses have required pre-requisites and academic advising is crucial.** This also means that students transferring into the major late in their academic careers or

transferring from a community college, may not be able to complete the major in 4 years.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Hearing and Speech Sciences Minor

Hearing and Speech Sciences (HESP)
0100 LeFrak Hall
301-405-4213
www.hesp.umd.edu (http://www.hesp.umd.edu)

This course sequence acquaints students with the primary basic science background in the speech, language and hearing sciences, and permits students to select two courses in the specific professional areas of speech language pathology or audiology.

This minor serves two different purposes:

1. A minor in HESP can be used to **compliment** a major in a related field such as Special Education, Human Development, Linguistics, Psychology, Education or a Foreign Language. It allows a student to understand the relationship between speech, language and hearing, normal development, and their related disorders. It also encourages collaboration between this discipline and related ones.
2. This minor can also be utilized for students who are in other majors but have decided to **pursue graduate studies in either Speech-Language Pathology or Audiology.** These courses are widely viewed as potential pre-requisites to such programs and constitute a **proportion, but not all,** of the prerequisites needed for eventual certification with an M.A. in Speech-Language Pathology or an Au. D. in Audiology. Additional coursework would be required by any graduate program and by the American Speech-Language Hearing Association. Any student interested in pursuing a HESP Minor for this purpose is strongly encouraged to meet with the HESP Academic Advisor (http://www.hesp.umd.edu) to ensure that eventual educational goals are properly addressed.

The HESP minor **DOES NOT** qualify an individual to work professionally as a Speech-Language Pathologist, or an Audiologist, but does provide **a proportion but not all** of the coursework required to practice in the State of Maryland as a Speech-Language Pathology Assistant.

Requirements

Course	Title	Credits
Required Courses		
HESP202	Introduction to Hearing and Speech Sciences	3
HESP300	Introduction to Psycholinguistics	3
HESP400	Speech and Language Development in Children	3
HESP403	Introduction to Phonetic Science	3
HESP407	Bases of Hearing Science (Offered spring semester only)	3
Elective Area		
Select two courses in one of the two following elective areas		6
Elective Option 1 (Speech-Language Pathology Focus):		
HESP305	Anatomy and Physiology of the Speech Mechanism (Offered fall semester only)	
In addition to HESP305, select one of the following Disorder classes:		
HESP402	Language and Phonological Disorders in Children (Offered spring semester only)	
HESP404		
HESP406	Acquired Neurogenic Communication Disorders in Adults	
HESP498	Seminar (Topics vary)	
Elective Option 2 (Audiology focus):		
HESP311	Anatomy, Pathology and Physiology of the Auditory System (Offered spring semester only)	
HESP411	Introduction to Audiology	
Total Credits		21

Notes:

- All classes must be completed with a grade of 'C-' or better.
- As with HESP majors, students must obtain a grade of 'C-' or better in a class in order to enroll in any courses that require that class as a prerequisite.
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Law and Society Minor

1117 Chincoteague Hall
301-405-3179
www.mlaw.umd.edu (http://www.mlaw.umd.edu)

The minor in Law and Society focuses on exploring the relationship between law and society. While enrolled in this minor course of study, students will focus on how the law is viewed in a practical and pragmatic way. The intent and the experience that the law brings into various industries and society as a whole is explored and analyzed through a societal lens. The minor is intended for students interested in expanding their knowledge and skills of laws and the effect of laws in any industry. The minor is appropriate for students in preparation for law school, graduate school, and careers in the non-profit, public and private sectors. The program consists of an integrated, interdisciplinary package of courses in research and analytic methods in applied social sciences, law and humanities.

The Law and Society minor is a limited enrollment program. Students are encouraged to apply early and are eligible to reapply if they are not accepted. Applications are accepted on a rolling basis and are found on the minor website.

Program Learning Outcomes

1. Skills to interpret the law through a societal lens
2. Skills to read, interpret, and apply legal cases, statutes, and administrative laws
3. Critical thinking skills that can be applied in any profession

4. Critical thinking skills that can be applied in a social justice context while problem solving
5. Skills to utilize legal reasoning to issue spot and problem solve
6. Skills that help with the foundation of an education focusing on the law

Requirements

Course	Title	Credits
MLAW304	Introduction to Law and Social Inquiry	3
MLAW305	Law and Legal Institutions in Social Context	3
MLAW388	Law and Society Internship	3
MLAW404	Law & Society Capstone: Implications of Technology on Law & Society	3
Law and Society Electives		6
Total Credits		18

Psychology

College of Behavioral and Social Sciences
1121 Biology-Psychology Building
301-405-5862
psycadvising@umd.edu
https://psyc.umd.edu/

Psychology is a remarkably broad field that studies mind and behavior at all levels of analysis ranging from the micro to the macro; from single cells to complex systems; from individuals to groups and cultures; and from invertebrates to humans. Our department is committed to research, teaching/mentorship, and service.

Programs
Major

- Neuroscience Major (BSOS) (p. 261)
- Psychology Major (p. 264)

Minor

- Neuroscience Minor (p. 263)

Advising

The Department of Psychology's Office of Undergraduate Studies has three full-time academic advisors to assist you every step of the way. Advising is not mandatory, but we encourage all students to schedule an appointment at least once a semester, particularly first year freshmen, new psychology majors, and first semester transfer students to take advantage of advising. Advisors are located in the Biology-Psychology Building Room 1121.

Some examples of common advising services include assistance with:

- Strategies for degree completion
- Opportunities in the psychology major
- Department and university policies
- Career and internship opportunities
- Research opportunities
- Social and personal adjustment to university life
- Preparation for graduate study
- Other ways to enrich your undergraduate experience

For assistance via email write PSYCadvising@umd.edu

Walk-in advising: Monday through Friday 10 a.m. - noon, and Monday through Thursday 1 p.m. - 3 p.m. No appointment is necessary.

Appointments: Call **301-405-5866** to schedule appointments.

Contact information for the staff of the Office of Undergraduate Studies can be found on https://psyc.umd.edu/undergraduate/psyc-advising (https://psyc.umd.edu/undergraduate/psyc-advising/)

Opportunities
Undergraduate Research Experiences

Research experience is strongly encouraged for students who wish to pursue graduate training in psychology. The faculty welcome undergraduate research students into their labs, and every semester over 100 students take advantage of these opportunities. The Office of Undergraduate Studies advertises opportunities for students to participate in research. See http://ter.ps/PSYCblog (http://ter.ps/PSYCblog/) and subscribe to receive announcements by email. Many students also find research opportunities on their own by approaching individual faculty members and graduate students with whom they share common research interests.

Freshmen and sophomore students can participate as a Maryland Student Researcher in the Maryland Center for Undergraduate Research. Students participating in this program have the opportunity to work individually with faculty members.

If eligible, students can earn academic credit for research participation (maximum of 9 credits) through PSYC479, Independent Research in Psychology. Applications and requirements for PSYC479 are available here: https://psyc.umd.edu/undergraduate/psyc-forms (https://psyc.umd.edu/undergraduate/psyc-forms/).

Internships

The Washington D.C. Area is rich in offering a variety of high-quality psychological research and practice opportunities. These include research organizations, training and service-delivery agencies, and institutions involved in legal, policy, and legislative concerns that intimately affect the psychological well-being of the nation. Opportunities for field experience exist in all areas of psychology.

Working with psychologists and related professionals in these settings can be a source of considerable enrichment for you. You can apply your classroom learning, test out your interests and skills in psychology, and receive training in a specialized aspect of psychology which is not available on campus.

The Psychology E-News Blog (http://umdpsyc.blogspot.com/), the University Career Center and the President's Promise (https://careers.umd.edu/), and individual organizations in the area are all good sources for you to consult in your search for an internship experience. Some additional tips on finding internships are posted online here: http://psychology.umd.edu/undergraduate/finding-internships (http://psychology.umd.edu/undergraduate/finding-internships/)

If you have identified a psychology-related internship opportunity and would like it to be considered for academic credit, you should download

and submit the PSYC389 contract online (https://psyc.umd.edu/undergraduate/psyc-forms (https://psyc.umd.edu/undergraduate/psyc-forms/)), once you are sure that you meet the requirements.

Honors Program

The Honors Program in Psychology is designed to enrich and accelerate the acquisition of knowledge in the field. The goals of the honors program of the psychology department include:

- Train students to think as independent scholars.
- Provide opportunities for close, scholarly analysis of significant topics in psychology.
- Encourage and provide opportunities for students to undertake independent research.
- Introduce students to a broad range of advanced psychological principles and methodologies.

Details about program eligibility and how to apply are posted here: https://psyc.umd.edu/undergraduate/psyc-honors-program (https://psyc.umd.edu/undergraduate/psyc-honors-program/).

For more information about the Honors Program in Psychology please call 301-405-5866 to schedule an appointment with the Assistant Director of Undergraduate Studies.

Student Societies and Professional Organizations

The University of Maryland chapter of the **Psi Chi International Honor Society in Psychology** provides membership to students who meet the application requirements. Psi Chi members abide by the core values of scholarship, service, and community, receive academic recognition for their achievements in psychology, and have the opportunity to connect and build relationships with other members, faculty members, and professionals. Details and contact information about Psi Chi can be found on the chapter's website: http://umdpsichi.weebly.com

Active Minds at Maryland is a student-run organization that focuses on mental health awareness and advocacy on campus. Members are students interested in psychology, medicine, and public health, students who have friends or family members with a mental illness, and/or students who are struggling with mental illness themselves. To learn more, please visit the Active Minds at Maryland website (http://umdactiveminds.webs.com/) or facebook page (https://www.facebook.com/ActiveMindsAtMaryland/info?tab=overview (https://www.facebook.com/ActiveMindsAtMaryland/info?tab=overview/)).

The **Multicultural Association of Psychology Students (MAPS)** provides networking events and seminars serving the breadth of interests of UMD psychology majors. MAPS activities promote awareness of post-graduate, research, and community outreach opportunities. In addition, MAPS enhances the community through discussions and events emphasizing the full diversity of Psychology students encompassing many cultures and personal identities (including race, gender, sexual orientation, religion, and others).

To learn more about MAPS, please visit http://umdmaps.weebly.com/or https://www.facebook.com/UMDmaps/

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

- The **Mark S. Harper Award for Excellence in Psychology** is given annually at the spring commencement to the graduating senior who best exemplifies the spirit of Mark, a UM Psychology graduate. The top 10 percent of the graduating class are eligible to be nominated by a faculty member for the award.
- The department's **Award for Excellence in Student Leadership** goes to a student nominated by his or her peers for an outstanding commitment to advancing the opportunities and achievements of fellow psychology majors, students and community members.
- The **Harper Travel Award** provides travel support for students presenting their research at professional conferences. Please contact the undergraduate office for more information and an application form.
- The **Award for Outstanding Accomplishments in Psychology** recognizes up to 10 students graduating seniors who have made impactful contributions on the undergraduate program, the field, or their communities.

Academic Programs and Departmental Facilities

State of the art research labs in the Psychology Department provide students with opportunities for studies in clinical and counseling psychology, cognitive and neural systems, developmental psychology, and social, decisional and organizational sciences. Students benefit from a close relationship with the University Counseling Center. The new Maryland Neuroimaging Center makes available facilities for several types of functional brain imaging including fMRI and high-density EEG.

Neuroscience Major (BSOS)

The Neuroscience major is jointly offered by the Departments of **Biology** in the College of Computer, Mathematical, and Natural Sciences and Psychology (p. 260)in the College of Behavioral and Social Sciences.

The Neuroscience major offers rigorous training in the interdisciplinary study of brain and behavior. Students complete a required set of NEUR courses as well as a supporting sequence of coursework in mathematics, biology, chemistry, physics, and psychology. Students then choose an upper-level specialization and coursework in (1) cellular, molecular, and physiological neuroscience or (2) behavioral and cognitive neuroscience. The Neuroscience major prepares students for a broad range of career paths including: scientific research, medicine, clinical psychology, allied health professions, or science-related government, nonprofit, or private sector employment.

Admission to the Major

The Neuroscience major is a Limited Enrollment Program. Information on limited enrollment programs can be found at: lep.umd.edu (http://lep.umd.edu/).

Transfer Admission Requirements

Students beyond their first semester and those off campus wishing to transfer are required to meet the following gateway criteria:

- Completion of MATH130, MATH135 or MATH140 with a minimum grade of C-
- Completion of BSCI170 AND BSCI171 (formerly BSCI 105) and BSCI160 AND BSCI161 (formerly BSCI 106) with a minimum grade of C-
- Completion of CHEM131 AND CHEM132 and CHEM231 AND CHEM232 with a minimum grade of C-

A minimum grade point average of 2.7 in all courses taken at the University of Maryland and all other institutions is required for internal and external transfer students.

Program Learning Outcomes

1. Develop a knowledge base in the field of neuroscience and supporting disciplines: understand the fundamental principles of neuroscience across all levels of analysis – molecular/cellular, circuits, systems, and behavior, understand the principles of evolution, especially as they apply to the nervous system and behavior, develop additional expertise and depth of knowledge in at least one area of neuroscience (molecular/cellular, circuits, systems, and behavior), and be able to address a question in neuroscience by integrating information from multiple levels of analysis
2. Understand the current techniques and strategies in neuroscience research: understand the theory and practice of important current neuroscience research techniques, along with their strengths and limitations, acquire laboratory experience through neuroscience courses or research, develop skills in data analysis using relevant quantitative and programming methods, and obtain training to work comfortably and successfully within a research team or equivalent experience
3. Develop competence in scientific reasoning and critical thinking: be able to critically evaluate scientific literature, including assessment of the problems addressed, methodology used (including statistical analyses), and conclusions drawn, demonstrate skill in innovative and integrative thinking and problem-solving, and demonstrate skill in experimental design and interpretation
4. Develop effective professional communication skills: demonstrate proficiency in clear, concise, and graceful writing, demonstrate proficiency with oral communication in a range of professional situations, and demonstrate proficiency in graphical presentation of information integrated into both written and oral presentations
5. Understand the role of neuroscience in social and cultural contexts as well as the influences of social and cultural context on neuroscience: understand the influences, current and potential, of neuroscience on other fields such as medicine, education, the arts, and the social sciences, recognize the relationships between scientific research and the culture(s) in which it is embedded, and understand and follow ethical practices in academic study, scientific research, and professional life
6. Develop an appreciation of possible career paths available to students proficient in neuroscience: understand the activities, opportunities, and responsibilities of the individual scientist within the scientific community, recognize the range of career opportunities outside academia, and develop and, as far as possible, implement plans for career development

Requirements

Course	Title	Credits
NEUR Required Courses		
NEUR200	Introduction to Neuroscience ((GenEd: NS) Introduction to Neuroscience)	3
NEUR305	(Neuroscience Fundamentals I)	3
NEUR306	(Neuroscience Fundamentals II)	3
NEUR405	(Neurobiology Lab)	4
Required Supporting Courses		
MATH135	Discrete Mathematics for Life Sciences	4
or MATH140	Calculus I	
MATH136	Calculus for Life Sciences	4
or MATH141	Calculus II	
STATISTICS	BIOM301, EPIB300, PSYC200, STAT400, or STAT464	3
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	4
CHEM271 & CHEM272	General Chemistry and Energetics and General Bioanalytical Chemistry Laboratory	4
PHYS131	Fundamentals of Physics for Life Sciences I	4
or PHYS141	Principles of Physics	
PHYS132	Fundamentals of Physics for Life Sciences II	4
or PHYS142	Principles of Physics	
PSYC100	Introduction to Psychology	3
UNIV100	The Student in the University (or equivalent)	1
Concentration Courses [1,2]		**16-20**
Complete at least 5 courses, including at least 3 courses from within one concentration and at least 1 lab course		
MOLECULAR, CELLULAR, AND PHYSIOLOGICAL CONCENTRATION [3]		
BCHM463	Biochemistry of Physiology	
BSCI222	Principles of Genetics [4]	
BSCI330	Cell Biology and Physiology	
BSCI339	Selected Topics in Biology (BSCI339D: Biology of Chemosensory Systems)	
BSCI339	Selected Topics in Biology (BSCI339F: Neurophysiology of Cells and Circuits)	
BSCI402	Genomics of Sensory Systems	
BSCI403	Biology of Vision	
BSCI410	Molecular Genetics	
BSCI415	Molecular Genetics Laboratory	
BSCI430	Developmental Biology	
BSCI440 & BSCI441	Mammalian Physiology and Mammalian Physiology Laboratory	
BSCI446	Neural Systems	
BSCI452	Diseases of the Nervous System	

KNES370	Motor Development
KNES462	Neural Basis of Human Movement
NEUR379	(Neuroscience Research: Molecular and Cellular)
NEUR479	(Neuroscience Research Lab; BSCI399(H, L) may be substituted with permission)
PSYC404	Introduction to Behavioral Pharmacology
SPECIAL TOPICS	BSCI338 or BSCI339 when specifically approved. Check with your advisor.
BEHAVIORAL AND COGNITIVE CONCENTRATION [3]	
BSCI222	Principles of Genetics [4]
BSCI330	Cell Biology and Physiology
BSCI360	Principles of Animal Behavior
BSCI401	Animal Communication
BSCI446	Neural Systems
KNES385	Motor Control and Learning
KNES445	Exercise and Brain Health
NEUR379	(Neuroscience Research: Behavioral and Cognitive)
NEUR479	(Neuroscience Research Lab; BSCI399(H, L) may be substituted with permission)
PHIL202	Know Thyself: Wisdom Through Cognitive Science
PHIL366	Philosophy of Mind
PSYC302	Fundamentals of Learning and Behavior
PSYC341	Introduction to Memory and Cognition
PSYC402	Neural Systems and Behavior
PSYC403	Animal Behavior
PSYC404	Introduction to Behavioral Pharmacology
PSYC406	Neuroethology
PSYC407	Behavioral Neurobiology Laboratory
PSYC413	
PSYC414	Science of Sleep and Biological Rhythms
PSYC442	Psychology of Language
PSYC455	Cognitive Development
PSYC489	Advanced Special Topics in Psychology (PSYC489G: Hormones & Behavior)
Total Credits	76-80

1 Up to 3 pre-approved Neuroscience Research credits can be applied to the major.

2 4 pre-approved NEUR479 credits in the same faculty research laboratory can satisfy the lab requirement.

3 Courses may be occasionally added or removed from this list. Not all courses may be available each semester.

4 Students may not use both ANSC327 and BSCI222 toward filling Neuroscience concentration requirements.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Neuroscience Minor

Department of Psychology
1121 Biology-Psychology Building
301-405-5866
https://psyc.umd.edu

The minor in Neurosciences will give the highly qualified and motivated undergraduate an opportunity to study Neuroscience. The emphasis includes study in systems, cognitive, and computational neuroscience in a manner that crosses the traditional boundaries of Psychology, Biological Sciences, and other related disciplines. The minor is most appropriate for students who already have a background in the biological sciences or psychology.

- All majors are eligible for the minor except students in the Physiology & Neurobiology (PHNB) track in Biological Sciences (BSCI) and the Neuroscience major.
- There are a number of science course prerequisites for the required and elective classes. Students should carefully review the prerequisites for all courses listed for the Neuroscience minor. A student without a sufficient science background may not be able to complete the minor in the allotted credits.
- Students may only count a maximum of two courses (6-8 credits) toward both their major degree requirements and the minor in Neuroscience.

Eligibility and Application to the Minor

In order to apply for the minor in Neuroscience, a student must have:

1. Completed at least 30 college credits and at least 15 credits at UM
2. Earned at least a 'C-' in BSCI170/BSCI171 and CHEM131/CHEM132 or have AP equivalents
3. Earned at least a 'C-' in PSYC301, PSYC202 or BSCI353
4. Be in good academic standing with the University

Applications for the minor in Neuroscience will be considered three times each year on October 1, March 1, and June 1. Students will be notified via email regarding the status of their application within three weeks of the submission deadline so that students will know whether or not they are accepted prior to early registration for the next semester.

Interested students should submit applications electronically via the Psychology Undergraduate Program website at psyc.umd.edu/undergraduate/neuroscience-minor (http://psyc.umd.edu/undergraduate/neuroscience-minor/)

Requirements

There are five required courses (11-14 credits) and two elective courses (6-8 credits) for a total of 17-22 credits to complete the minor. The five required courses and their prerequisites are listed below[1]. All courses used to satisfy the requirements of the minor must be completed with a grade of 'C-' or better. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements.

Course	Title	Credits
Required Courses [1]		
PSYC301	Biological Psychology	3
or BSCI453		
PSYC401	Biological Bases of Behavior Laboratory	1-4
or BSCI454	Neurobiology Laboratory	
PSYC402	Neural Systems and Behavior	3
or BSCI446	Neural Systems	
PSYC403	Animal Behavior	3
or BSCI360	Principles of Animal Behavior	
PSYC409	Topics in Neurosciences Seminar	1
Two elective courses [2]		**6-8**
Total Credits		17-22

1 Course prerequisites can be viewed by clicking on the course.

2 A list of eligible electives can be found on the program website at psyc.umd.edu/undergraduate/neuroscience-minor (http://psyc.umd.edu/undergraduate/neuroscience-minor/).

Psychology Major

The undergraduate major in Psychology provides an introduction to the study of human behavior. This includes an understanding of the neurobiological, developmental, social, and evolutionary factors influencing our thought and behavior. Through that understanding comes the ability to modify behavior in beneficial ways. Courses are organized into three broad themes:

1. Mind, Brain, and Behavior;
2. Mental Health and Interventions; and
3. Social, Developmental, and Organizational Studies.

The program emphasizes a strong foundation in quantitative and research methods. Beyond coursework, students will have opportunities to assist with and conduct research, an important advantage in any career path.

Students who are interested in the biological aspects of behavior tend to choose a program leading to the Bachelor of Science (BS) degree, while those interested primarily in the impact of social factors on behavior tend to choose the Bachelor of Arts (BA) degree. The choice of program is made in consultation with an academic advisor.

Courses offered by this department may be found under the following acronym: PSYC

Admission to the Major

In accordance with university policy, the Department of Psychology has been designated a Limited Enrollment Program (LEP) (https://www.admissions.umd.edu/explore/limited-enrollment-programs (https://www.admissions.umd.edu/explore/limited-enrollment-programs/)).
All first-time freshman who request psychology as a major will be directly admitted into the major. Other first-time freshman who wish to declare psychology as a major prior to the last day of classes of their first semester in residence will be allowed to do so.

In order to remain a psychology major, newly admitted freshman will be required to meet an academic performance review on or before the end of the semester in which they earned 45 University of Maryland credits. This standard includes:

1. Completion of PSYC100 with a grade of 'B-' or higher (if the student has Advanced Placement credit for PSYC100, the student must complete PSYC221 with a grade of 'B-' or higher)
2. Completion of MATH120 or MATH140 with a grade of 'C-' or higher. MATH140 is recommended for students pursuing a B.S. in Psychology.
3. Completion of BSCI170 (Principles of Molecular and Cellular Biology) and BSCI171 (Principles of Molecular and Cellular Biology Lab) with a minimum grade of 'C-' in both courses.
4. A minimum cumulative grade point average of 2.00 in all coursework taken at the University of Maryland.

All other students, including both internal and external transfer students, will be admitted to the program only if they have met the above LEP requirements and also have a minimum cumulative GPA based on all previous college-level coursework of 2.70 or higher.

For a more detailed discussion of LEP policies visit https://www.admissions.umd.edu (https://www.admissions.umd.edu/explore/limited-enrollment-programs/)**and then call 301-405-5866 to consult with one of our academic advisors.**

Any student denied admission or dismissed from the major may appeal to the Director of Undergraduate Studies in Psychology (http://psychology.umd.edu).

Internal transfer students may appeal to the Office of the Dean for Behavioral and Social Sciences (www.bsos.umd.edu (http://www.bsos.umd.edu)).

External transfer students may appeal to the Office of Undergraduate Admissions (www.admissions.umd.edu (http://www.admissions.umd.edu)).

Program Objectives

Students in the B.A. and B.S. programs in psychology will have a broad exposure to the diverse approaches to studying human behavior. They will acquire the tools and experiences necessary for successful careers utilizing their skills in the behavioral and social sciences. Their training will include a foundation in research methods, critical and creative problem solving, and effective communication. Students will also master the primary concepts and ideas representing both the breadth and depth of the fields in psychology.

Program Learning Outcomes

1. Describe key concepts, principles, and overarching themes in psychology (Knowledge base in psychology)
2. Develop a working knowledge of psychology's content domains (Knowledge base in psychology)
3. Describe applications of psychology (Knowledge base in psychology)
4. Use scientific reasoning to interpret psychological phenomena (Scientific inquiry and critical thinking)
5. Engage in innovative and integrative thinking and problem solving (Scientific inquiry and critical thinking)
6. Interpret, design, and conduct basic psychological research (Scientific inquiry and critical thinking)
7. Understand sociocultural factors in scientific inquiry (Scientific inquiry and critical thinking)

8. Understand and follow ethical practices in academic study and scientific research (Ethics)
9. Understand the concepts and practice of ethical principles in a broad range of professional contexts (Ethics)
10. Understand the role of academic, professional, and personal integrity in maintaining a healthy community (Ethics)
11. Understand the socio-cultural influences on human development and behavior (Multiculturalism and diversity)
12. Demonstrate critical awareness of one's own worldview, values, and biases (Multiculturalism and diversity)
13. Exhibit the ability to work respectfully and constructively with individuals of different backgrounds, values, and experiences (Multiculturalism and diversity)
14. Demonstrate the ability to integrate multicultural concepts into psychology research, theory, practice, and service to others (Multiculturalism and diversity)
15. Demonstrate effective writing for different purposes (Communication)
16. Exhibit effective presentation skills for different purposes (Communication)
17. Interact effectively with others (Communication)
18. Professional development (Professional development)
19. Apply psychological content and skills to career goals (Professional development)
20. Refine project management skills
21. Enhance teamwork capacity (Professional development)
22. Develop meaningful professional directions for life after graduation (Professional development)

For more information on the psychology learning outcomes, go to the department website: http://psychology.umd.edu.

Requirements

All students must complete at least 38 credits (12 courses) in Psychology. The required courses include:

Course	Title	Credits
College Requirements (p. 233)		
PSYC100	Introduction to Psychology	3
PSYC200	Statistical Methods in Psychology	3
PSYC300	Research Methods in Psychology Laboratory	4
Select a minimum of two courses from each of the following three thematic areas: [1]		18
Mind, Brain, & Behavior		
Mental Health & Interventions		
Social, Developmental, & Organizational Processes		
Select two 400 level, 3 credit PSYC courses		6
Select one additional 4 credit PSYC lab course		4
Total Credits		38

[1] A detailed list of courses by theme can be found at the following link: https://psyc.umd.edu/undergraduate/courses-syllabi (https://psyc.umd.edu/undergraduate/courses-syllabi/)

- A grade of 'C-' or better must be earned in all 38 credits of psychology courses used for the major, except for PSYC100 (or PSYC221, if AP credit was earned for PSYC100), in which the grade must be 'B-' or higher.
- No course may be used as a prerequisite unless a grade of 'C-' is earned in that course prior to its use as a prerequisite.

Bachelor of Science: Math and Science Requirement

Students pursuing the Bachelor of Science degree option must complete a minimum of 5 courses/17 credits in mathematics and science, as follows:

- At least three courses must be advanced
- At least two courses must contain a lab.
- The 5 courses/17 credits must be completed with at least a 2.0 average.
- MATH140 (highly recommended) or MATH120 (formerly MATH220) and BSCI170 plus BSCI171, may be used to satisfy part of the requirement for the B.S. degree. (MATH130 is acceptable only for declared PSYC/BSCI double majors and for students who have taken the course prior to becoming a PSYC major.)

Students should consult the following website for a list of approved advanced math and science courses for the Bachelor of Science in psychology: https://psyc.umd.edu/undergraduate/degree-requirements (https://psyc.umd.edu/undergraduate/degree-requirements/)

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Sociology

College of Behavioral and Social Sciences
2108 Parren J. Mitchell Art/Sociology Building
301-405-6389
http://www.socy.umd.edu/

From job interviews to first dates to diplomatic meetings, social interactions shape people's lives. At the Department of Sociology at the University of Maryland, we study the micro and macro, from family organization to globalization, to better understanding how society functions. We conduct one-on-one interviews and analyze massive data sets locally and around the world. We're bringing greater clarityto sociological proceses as well as recommendations for policymakers to improve human welfare. Our proximity to Washington, D.C. gives our students rich opportunities to research and intern at government agencies and institutions including the World Bank. The National Science Foundation, the Department of Defense and the National Institutes of Health, among others, fund our research to help veterans returning from war, families struggling in the recession and hurricane victims rebuilding their lives.

Programs
Major

- Sociology Major (p. 267)

Minor

- Demography Minor (p. 266)

Advising

Regular advising is strongly recommended for all majors. Advising is particularly important for those majors who are considering graduate school. Majors are reminded of the importance of taking the required foundation courses (SOCY100, SOCY201, SOCY202, SOCY203, SOCY230 & SOCY441) as soon as possible because these are prerequisite courses for the four 400-level Substantive courses. Degree audits are required of all majors at 60 and 90 credits. Further information on course work, internships, the department honors program, careers, and other topics may be obtained from the Sociology Undergraduate Advisor, 2108 Parren J. Mitchell Art/Sociology Building, 301-405-6389.

Opportunities
Internships

Although internships are not a requirement for the major, students may wish to consider the internship program offered by the department or through the Experiential Learning unit of the University Career Center @ BSOS (https://bsosundergrad.umd.edu/opportunities/opportunities-introduction/). Majors may receive up to six credits in SOCY386 when an internship/volunteer position is combined with an academic project. A prerequisite of 12 credit hours in sociology coursework is required.

Honors Program

The Sociology Honors Program seeks to encourage and recognize superior scholarship by providing an opportunity for interested, capable, and energetic undergraduate students to engage in study in an area of the student's interest under the close supervision of a faculty mentor. The honors program is based upon tutorial study and independent research.

Students who have an overall cumulative grade point average of at least 3.3, a cumulative average of 3.5 in sociology courses, and who have taken at least nine credits in sociology may apply. Transfer students with equivalent academic records at other accredited institutions are also eligible. Admission to the program will be based upon academic performance and the judgment of the Undergraduate Committee whether the applicant has sufficient maturity and interest to complete successfully the requirements for graduation with Honors. Further information on the honors program is available from the Sociology Undergraduate Office.

Student Societies and Professional Organizations

The Sociology Collective, open to all Sociology majors, is organized by a group of interested undergraduates to fill student needs within the sociology community. The collective provides information about topics of interest, including department activities, career planning, and relevant changes within the university, and strives to enhance the sense of community within the department. Representatives of the collective participate in many faculty committees within the department and thereby provide the undergraduate perspective on policy issues.

The Alpha Kappa Delta is the National Honor Society for Sociology majors. Membership is based on sociology GPA (3.3 minimum) and overall GPA (3.3 minimum). Students may apply after they have completed 18 hours of sociology coursework. Application for membership may be made in the Sociology Undergraduate Office and are accepted in both fall and spring semesters.

Scholarships and Financial Assistance

The Tara Lynn Resnick Scholarship is awarded annually to an outstanding female Sociology undergraduate student. This scholarship carries an award of $500 that may be used toward educational expenses for the following fall semester. Applications are accepted during the spring semester. Female students who have earned 60 credits and have a minimum GPA of 3.0 are eligible to apply.

The Parker-Fuller Scholarship is awarded annually to a full-time undergraduate Sociology major in their senior year of study on the basis of need. It provides an annual award of $1,000. Applications for this scholarship are accepted during the spring semester.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Demography Minor

Coursework will explore the ways in which changes in human behavior and access to resources (including health, education and economic well-being), are shaped by social and demographic forces. By examining demographic behaviors within broader historical and cultural contexts, students will gain both micro and macro perspectives on social change. Students will also be trained in a range of demographic techniques used to study these processes.

Requirements

The minor in Demography requires that students complete 18 credits of coursework, including three required courses and three electives to be selected from the list below. The three required courses lay the foundation of demographic knowledge and tools that will then be applied in the substantive elective courses where students will focus on issues relevant to their specific interests.

Course	Title	Credits
Required Courses [1]		
SOCY201	Introductory Statistics for Sociology (or an equivalent course from another department)	4
SOCY410	Social Demography	3
SOCY411	Demographic Techniques	3
Electives [2]		**9**
3 courses selected from the courses below. Up to two electives may be taken from outside of the Sociology Department.		
SOCY Courses		
SOCY335	Sociology of Health and Illness	
SOCY386	Experiential Learning	
SOCY412	Family Demography	

SOCY413	Sociology of Aging
SOCY418	Research in Family & Demography
SOCY428	Research in Inequality
SOCY441	Social Stratification and Inequality
SOCY445	Sex and Love in Modern Society
Non-SOCY courses (maximum of 2)	
AAST222	Immigration and Ethnicity in America
AAST498	Advanced Topics in Asian American Studies (AAST498B-Urban Demography and Community)
ANTH265	Anthropology of Global Health
AREC365	World Hunger, Population, and Food Supplies
ECON315	Economic Development of Underdeveloped Areas
EPIB301	Epidemiology for Public Health Practice
FMSC381	Poverty, Affluence, and Families
GEOG335	Population Geography
NFSC425	International Nutrition
Total Credits	19

[1] Required courses are offered every semester.

[2] The list of electives may be updated over time to reflect changing course offerings. Most elective Sociology courses are offered at least once a year. Up to two electives may be taken from outside of the Sociology Department.

Sociology Major

Sociology is the scientific study of society and its institutions, organizations, and groups. By observing the broad range of activities in society, and exploring topics such as social class, race, gender, deviance, family, religion, the workplace, and demographic trends, sociologists provide important information and perspectives on our social order and the causes and impacts of social change. Sociology provides important information useful both to personal life and public policy decisions. Sociology is among the broadest of the social sciences and is characterized by considerable pluralism in theoretical and methodological approaches, substantive specializations, and in units of analysis.

Students major in Sociology for a variety of reasons. Some emphasize sociology's relevance to understanding a broad range of social issues that interest them out of intellectual curiosity, personal life relevance, or usefulness for ameliorative social change efforts. Other majors emphasize acquisition of sociological knowledge and skills useful in a variety of career paths where understanding societal problems and trends, group dynamics, and personnel issues are critical. For a small core of majors the purpose of the undergraduate program is preparation and training for admissions to graduate programs and eventual careers as sociologists in teaching and research and/or policy development. Majors may also use sociology as a basis for graduate study in related fields, including law, social work, public policy, and human resource management.

Courses offered by this department may be found under the acronym: SOCY.

Program Objectives

The overall goals of the program are:

- To provide meaningful and challenging courses within the university general education program
- To provide meaningful and challenging courses as electives for non-majors
- To provide a coherent program of courses for Sociology majors which enables majors to attain:
  a. general sociological knowledge and understanding of our society
  b. sociological knowledge and skills relevant to a variety of career paths
  c. sociological knowledge and skills relevant to application and success within competitive sociology graduate programs
  d. to provide a Sociology Honors component for selected students who have the capability and motivation to work at the most challenging level

Program Learning Outcomes

Having completed the degree program, students should have acquired the following knowledge and skills:

1. Explain the sociological perspective, broadly defined, use sociological theory to explain social problems and issues, make theoretically informed recommendations to address current social problems, and demonstrate the utility of the sociological perspective for their lives.
2. Demonstrate the ability to interpret, locate, evaluate, generate and use sociologically relevant data to test hypotheses and draw evidence-based conclusions.
3. Integrate sociological theory, research, and data in order to assess various explanations of social phenomena and to assess social policy.

Requirements

As part of the 120 credits and other requirements for a Bachelor of Arts degree, sociology majors must complete a minimum of 32 credits in Sociology and 3 credits in MATH107/MATH111/MATH120/MATH140, or STAT100 All these credits must be completed with a minimum grade of 'C-' or better in each course, and students must earn at least a 2.00 cumulative GPA for all courses in the major. The 35 credits in Sociology must include the following:

Course	Title	Credits
College Requirements (p. 233)		
Foundation Course Requirement		
MATH107	Introduction to Math Modeling and Probability	3
SOCY100	Introduction to Sociology	3
SOCY201	Introductory Statistics for Sociology	4
SOCY202	Introduction to Research Methods in Sociology	4
SOCY203	Sociological Theory	3
SOCY230	Sociological Social Psychology	3
SOCY241	Inequality in American Society	3
or SOCY441	Social Stratification and Inequality	
Substantive Course Requirement: [1]		
Select one 300 or 400 level SOCY course		3
Select one 400 level SOCY course		3
Select two 400 level SOCY Research Courses [2]		6
Total Credits		35

[1] Before taking Substantive Course requirements, students must have completed 6 credits of SOCY courses.

[2] A list of methods or research courses selected from a list maintained by the Sociology Undergraduate Advising Office. Students must take SOCY201 and SOCY202 before taking the required 400 level research courses.

Students should note the following in reference to Sociology requirements:

1. SOCY201 has a prerequisite of MATH107 or higher with a minimum grade of 'C-';
2. Some of the courses necessary to fulfill substantive requirements, and/or the methods/research course requirement may have prerequisites such as SOCY201, SOCY202, and SOCY203;
3. Special topics courses may be repeatable for credit if its content differs from when previously taken;
4. SOCY498 courses may be used to fulfill substantive course requirements; the Sociology Undergraduate Office maintains current lists of special topics courses (SOCY498); and
5. Each course counted as meeting sociology requirements must be passed with a grade of 'C-' or better.

Other Requirements for the Major

Students must earn a minimum grade of 'C-' in MATH107 and all major requirements. Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy major requirements.

Four Year Plan

Click here (https://bsosundergrad.umd.edu/advising/four-year-academic-plans/) for roadmaps for four-year plans in the College of Behavioral and Social Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Survey Methodology Minor

Joint Program in Survey Methodology
1218 LeFrak Hall
301-314-7911
jpsm-contact@umd.edu
http://jpsm.umd.edu

The undergraduate minor in Survey Methodology is a cross-disciplinary program offered by the Joint Program in Survey Methodology (JPSM) within the College of Behavioral and Social Sciences (BSOS). Students in the program will explore the theoretical foundations of survey design and survey data collection, together with the practical application of this theoretical material. Completion of the minor will prepare students to enter careers in the federal statistical system or any of the numerous private sector firms that collect survey data to inform decision-making, as well as for further graduate study in the field of survey methodology. In addition, students aspiring to careers in fields such as marketing, political consulting, economics or the social sciences that rest on the collection and use of survey data will benefit from the understanding of the data collection process that they will acquire.

ELIGIBILITY AND APPLICATION PROCESS

Admission to the minor will be limited to no more than 25 students per year, selected through a competitive application process. This limitation on potential enrollments is necessary because of the small size of the JPSM faculty. Successful applicants will have completed at least 30 semester credits and have demonstrated a high level of academic achievement with a minimum GPA requirement of a 3.2. Students who apply to the program are expected to be able to work independently. Students seeking admission to the minor will be asked to complete an application form made available on the JPSM website, submit a letter of support for their application from a faculty member or advisor, submit a half page statement why this minor interests you and provide a copy of their transcript.

The faculty committee responsible for oversight of the minor will evaluate the applications submitted. In selecting students to the program the committee will emphasize academic achievement including, in particular, evidence of successful completion of courses in quantitative subjects.

Program Learning Outcomes

Whether collecting information from survey respondents or making use of data collected by means of such surveys, individuals in many fields require an understanding of the process of designing surveys and collecting survey data. Requisite knowledge areas include the principles of questionnaire design, selecting survey samples to represent populations of interest, modes of data collection, and the use of weights in the analysis of survey data, among other topics.

Upon completion of the proposed curriculum, students will:

1. Have the knowledge needed to construct a new survey questionnaire or evaluate an existing survey questionnaire in accord with the basic principles of questionnaire design;
2. Know how to identify potential sources of error in survey estimates and suggest strategies for minimizing those errors; and
3. Be aware of various features of the design of sample surveys that may affect the analysis and interpretation of the resulting data.

Requirements

16-19 credits are required for the minor as outlined below:

Course	Title	Credits
Statistics and Research Methods (6-8 credits) [1]		
Select one of the following:		3-4
BIOM301	Introduction to Biometrics	
CCJS200	Statistics for Criminology and Criminal Justice	
ECON230	Applied Economic Statistics	
ECON321	Economic Statistics	
EDMS451	Introduction to Educational Statistics	
GVPT422	Quantitative Political Analysis	
PSYC200	Statistical Methods in Psychology	
SOCY201	Introductory Statistics for Sociology	
STAT400	Applied Probability and Statistics I	
STAT410	Introduction to Probability Theory	
Select one of the following:		3-4
AREC422	Econometric Analysis in Agricultural and Environmental Economics	
ECON422	Econometrics I	

ECON424	Applied Econometrics	
SOCY401	Intermediate Statistics for Sociologists	
STAT401	Applied Probability and Statistics II	
PSYC300	Research Methods in Psychology Laboratory	
STAT420	Theory and Methods of Statistics	
Core Course in Survey Methodology (6 credits)		
SURV400	Fundamentals of Survey and Data Science [2]	3
SURV630	Questionnaire Design and Evaluation	3
Additional Survey Methodology Courses (4-5 credits) [3]		
Select one of the following:		3
SURV621	Fundamentals of Data Collection I	
SURV632	Cognition, Communication and Survey Measurement (Fall)	
SURV625	Applied Sampling (Spring, Summer)	
Any 600 Level 1 or 2 credit Introductory SURV course		1-2
Total Credits		16-19

1 Please refer to the 'Statistics and Research Methods Courses' section below for additional information.

2 Additional information about this course can be found in the 'Core Course in Survey Methodology' section below.

3 Please refer to the 'Additional Survey Methodology Courses' section below for additional information.

Statistics and Research Methods Courses (6-8 credits)

The design of survey samples and the analysis of survey data are inherently quantitative exercises. It is, therefore, important that anyone seeking to work in these fields of endeavor have a solid quantitative background. Students enrolled in the minor will be required to take two courses in statistics and research methods.

There is enormous demand on campus for many of the courses listed as options for fulfilling the statistics/research methods requirement, especially the courses on the first list, and the number of seats available in these classes may be limited. Majors in the department that offers a course may receive priority for enrollment (e.g., CCJS200) or enrollment in a course may be restricted to majors (e.g., ECON321). In addition, there may be prerequisites associated with a particular course. Several of the courses listed in the first set of options require that the student have taken calculus and some of the courses listed in the second set of options require a particular first course as a prerequisite (e.g., STAT420 requires STAT410 as a prerequisite). The fact that a course is listed as an appropriate option for fulfilling the minor requirements does not imply that students necessarily will be able to enroll in that specific course. Students interested in the minor will be asked to consult with their JPSM Advisor about the best way to complete the two course statistics and research methods requirement given their individual circumstances. Courses covering similar material, including courses offered at other institutions, may be accepted as substitutes for the listed courses.

SOCY201 and SOCY401 are 4-credit rather than 3-credit courses. For students choosing these courses to fulfill the requirements of the minor, the minor will be an 18 to 19 credit program. Students admitted to the minor in the spring of their sophomore year who have not yet taken one of the listed statistics/research methods courses ideally will take one in the fall of their junior year and the second in the spring of their junior year.

Core Courses in Survey Methodology (6 credits)

The core course of the minor is SURV400 Fundamentals of Survey Design. This is an existing course that is offered each spring and is taught by a regular member of the JPSM teaching faculty. Students in the minor will be given enrollment priority. SURV400 is designed to provide students with an overview of the entire survey process, from the development of survey objectives to the collection and analysis of the survey data. The textbook for the course was authored by leading scholars in the field, all of whom have taught in the JPSM program. SURV400 will be a prerequisite for the two additional 3 credit SURV courses required for the minor and should be taken in the spring of the junior year. Students completing the minor also will be required to take SURV630 Questionnaire Design, an existing course taken by students pursuing the JPSM Masters in Survey Methodology, in the spring. Successful completion of SURV630 will satisfy the minor requirement. Taking SURV630 could be advantageous for students who later apply for the JPSM Masters degree program, as it is a required course for that program.

Additional Survey Methodology Courses (4-5 credits)

Students taking the minor also will be required to take an additional three-credit 600-level SURV course from the list below. The course options and the semesters when these courses are regularly offered are as follows:

Course	Title	Credits
SURV621	Fundamentals of Data Collection I	3
SURV632	Cognition, Communication and Survey Measurement (Fall)	3
SURV625	Applied Sampling (Spring, Summer)	3

These are existing courses taken primarily by students in the JPSM Masters program. Although these are graduate level courses, we believe they should be accessible to advanced undergraduates with suitable preparation.

Students taking the minor also will be required to take one additional 1-2 credit introductory 600-level SURV course of their choosing. This includes onsite or online SURV courses.

Completion Requirements

In order to complete the minor, students must:

- Complete all 16-18 required credits;
- Achieve a minimum grade of 'C-' or better in all minor courses;
- Students must have a minimum 2.0 cumulative grade point average across all courses used to satisfy the minor requirements;
- Apply no more than two courses from the minor to satisfying the requirements of the student's major;
- Complete no more than two courses for the minor at an institution other than the University of Maryland, College Park.

The minor is designed to be completed during the junior and senior years, but students could apply for admission to the minor as early as the fall of their sophomore year. Courses completed prior to applying for the minor will be accepted to satisfy the minor requirements.

Advising

Interested students should contact JPSM at jpsm-contact@umd.edu. The application form will be posted to the JPSM website at https://jpsm.umd.edu/undergraduate/undergraduate-admissions (https://jpsm.umd.edu/undergraduate/undergraduate-admissions/) and applications for admission will be reviewed each semester. Once admitted to the program, students will work with the program director or an assigned faculty advisor to plan the courses to be taken to complete the minor. Students will be expected to be in touch with their faculty advisor(s) prior to the start of each semester to ensure that they are continuing on track to complete the minor requirements.

Assistant Dean: Brian Horick

The Robert H. Smith School of Business is an internationally recognized leader in management education and research, and its mission is to create knowledge, promote a learning environment that fosters intellectual discovery, and equip current and future leaders to assess complex problems and deliver innovative solutions.

The Smith School is accredited by AACSB International - The Association to Advance Collegiate Schools of Business, the premier accrediting agency for bachelor's, master's and doctoral degree programs in business administration and accounting, www.aacsb.edu (http://www.aacsb.edu).

A student in the Smith School of Business, selects a major(s) in one of the following curricula:

1. Accounting;
2. Finance;
3. Information Systems;
4. International Business;
5. Management;
6. Marketing;
7. Operations Management & Business Analytics; or
8. Supply Chain Management.

Upper-division BMGT programs are offered at College Park and at the Universities at Shady Grove (http://www.shadygrove.umd.edu/) in Montgomery County. For details on the majors offered at Shady Grove visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove (http://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove/).

Admission Requirements

See 'Admission Requirements and Application Procedures' section (p. 23) for general LEP admissions policies.

Freshman Admission

Direct admission to the Smith School is offered on space-available basis to first-time applicants who present the most competitive academic records. All students admitted directly to BMGT as freshmen must demonstrate satisfactory progress.

- All students admitted as freshmen must demonstrate satisfactory progress (2.0 GPA or better) plus completion of gateway courses (BMGT220, BMGT230, and MATH120, MATH130, MATH136 or MATH140 - each with a minimum grade of 'C-' or better) by the semester they reach 45 credits (excluding AP and ESL), at which time they will be reviewed in order to continue in the Smith School major. (Note: Only one repeat of one single course to the set of gateway courses will be accepted to remain in BMGT. Appeals will be considered.)

Transfer Admission for Students from On or Off Campus

All students applying for admission to BMGT as transfer students, whether internal transfers already enrolled at UMCP or external transfer students entering the university for the first time, will be subject to competitive admission for a limited number of spaces in the Smith School of Business program at each program location. Internal and external transfer students may apply to compete for admission to the Smith School of Business in the semester they have earned 45 credits. Below are the current admission standards.

- A minimum grade point average of 3.0 in all college coursework is required for consideration for all internal and external transfer applicants. As of Fall 2019, admitted University of Maryland students applying to Business, who have completed all of the LEP gateway requirements, and have a 3.0 - 3.799 cumulative grade point average across all attempted college coursework will undergo a competitive review for admission to the Business major. Admitted University of Maryland students applying to Business, who have completed all of the LEP gateway requirements, and have a 3.8 or higher cumulative grade point average across all attempted college coursework will be admitted into the Business major.
- Completion of the following gateway courses, all with 'C-' or better.

Course	Title	Credits
Accounting		
BMGT220	Principles of Accounting I	3
Calculus		
MATH120	Elementary Calculus I	3
MATH130	Calculus I for the Life Sciences	4
MATH136	Calculus for Life Sciences	4
MATH140	Calculus I	4
Business Statistics		
BMGT230	Business Statistics [1]	3
BMGT231	[2]	3

1 The following courses are approved substitutes for BMGT230: BIOM301, CCJS200, ECON230, ECON321, EDMS451, GEOG305, INST314, PSYC200, and SOCY201.

2 The following courses are approved substitutes for BMGT231: BIOE372, ENCE302, ENEE324, ENME392, or STAT400

- Co-curricular involvement, leadership experience and honors and awards will also be considered in the admission decision. Students

are strongly encouraged to submit with their applications a resume and letter detailing their accomplishments and experience.

Application Deadlines for Transfer Students: Complete applications and all supporting documents must be received no later than:

Semester	Date
Fall	March 15th
Spring	October 15th

Applicants who have earned 45 credits and completed all required gateway courses at the time of their application will be notified of their admission decision in early April for fall admission and early December for spring admission. Students who are in the process of completing the required gateways or accumulating 45 credits at the time of their application will be notified of their admission decision after the semester has ended and final grades for the semester have been calculated.

For additional details visit http://lep.umd.edu/ and http://lep.umd.edu/bmgt-lep.pdf.

Applications to the Smith School can be accessed at http://www.rhsmith.umd.edu/programs/undergraduate-programs/admissions *(*http://www.rhsmith.umd.edu/programs/undergraduate-programs/admissions*/). For questions, call 301-314-8385 or email* lep@umd.edu.

Any student denied admission or dismissed from the major may appeal to the Associate Dean of the College.

Statement of Policy on Transfer of Credit from Community Colleges

It is the practice of the Smith School of Business to consider for transfer from a regionally accredited community college only the following courses in business administration: an introductory business course, business statistics, or elementary accounting. Thus, it is anticipated that students transferring from another regionally accredited institution will have devoted the major share of their academic effort below the junior year to the completion of basic requirements in the liberal arts. A total of 60 semester hours from a community college may be applied toward a degree from the Smith School of Business.

Other Institutions

The Smith School of Business normally accepts transfer credits from regionally accredited four-year institutions. Junior- and senior-level business courses are accepted from colleges accredited by the Association to Advance Collegiate Schools of Business (AACSB). Junior- and senior- level business courses from other than AACSB-accredited schools are evaluated on a course-by-course basis to determine transferability.

The Smith School of Business requires that at least 50 percent of the business and management credit hours required for a business degree be earned at the University of Maryland, College Park.

Departments

Departments and Units

- Accounting (p. 273)
- Decision, Operations and Information Technologies (p. 275)
- Finance (p. 277)
- Logistics, Business, and Public Policy (p. 278)
- Management (p. 280)
- Marketing (p. 282)

Academic Programs

Majors

- Accounting Major (p. 273)
- Finance Major (p. 277)
- Information Systems Major, Business Specialization (p. 275)
- International Business Major (p. 279)
- Management Major (p. 281)
- Marketing Major (p. 282)
- Operations Management & Business Analytics Major (p. 276)
- Supply Chain Management Major (p. 279)

Minors

- Business Analytics Minor (p. 274)
- General Business Minor (p. 278)
- Innovation & Entrepreneurship Minor (p. 278)

College Requirements

Undergraduate Degree Requirements/ Degree Options

The University of Maryland confers the following degrees: Bachelor of Science (B.S.), Master of Business Administration (M.B.A.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.). Information concerning admission to the M.B.A. or M.S. program is available at www.rhsmith.umd.edu (http://www.rhsmith.umd.edu).

Undergraduate Program

The undergraduate program recognizes the need for professional education in business and management based on a foundation in the liberal arts. In addition, the program's internationally integrated curriculum prepares students to be effective and responsible managers in today's dynamic business environment.

A student in business and management selects a major in one of several curricula:

1. Accounting;
2. Information Systems: Specialization Business;
3. Finance;
4. General Business;
5. International Business;
6. Operations Management & Business Analytics;
7. Marketing;
8. Supply Chain Management.

Summary of Bachelor of Science Degree Requirements (All Curricula)

At least 45 hours of the 120 semester hours of academic work required for graduation must be in business and management subjects. 50% of the required BMGT credit hours must be completed at the University of Maryland, College Park. A minimum of 58 hours of the required 120 hours must be in 300- or 400-level courses. In addition to the requirement of an overall cumulative grade point average of 2.0 ('C' average) in all university

course work, all business majors must earn a 'C-' or better in all required courses, including Economics, Mathematics, and Communication.

Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum 'C' (2.00) cumulative grade point average across all courses used to satisfy major degree requirements. Electives outside the curricula of the school may be taken in any department of the university, if the student has the necessary prerequisites. For additional degree requirement information visit https://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/degree-requirements (https://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/degree-requirements/).

Course	Title	Credits
Freshman-Sophomore School Requirements		
BMGT110	Introduction to the Business Value Chain	3
BMGT220	Principles of Accounting I	3
BMGT221	Principles of Accounting II	3
ECON200	Principles of Microeconomics	3
ECON201	Principles of Macroeconomics	3
MATH120	Elementary Calculus I [1]	3
or MATH140	Calculus I	
BMGT230	Business Statistics	3
or BMGT231		
Select one of the following: [2]		3
COMM100	Foundations of Oral Communication	
COMM107	Oral Communication: Principles and Practices	
COMM200	Critical Thinking and Speaking	
Junior-Senior School Requirements		
BMGT301	Introduction to Information Systems	3
BMGT340	Business Finance	3
BMGT350	Marketing Principles and Organization	3
BMGT364	Managing People and Organizations	3
BMGT367	Career Search Strategies in Business	1
BMGT380	Business Law I	3
BMGT495	Strategic Management	3
Economics Requirement		
0-3 credits of approved upper-level economics courses are required by the Smith School of Business. The specific requirements for each major are listed with the majors' specific requirements.		0-3
Total Credits		43-46

1 MATH130 or MATH136 Calculus for the Life Sciences is an acceptable substitute for MATH120/MATH220/MATH140 if the student completed MATH130 or MATH136 as a part of work toward a previous major, as well as those who were working toward that major while in Letters & Sciences.

2 Any course that fulfills the University's Oral Communication General Education requirement will also satisfy the Smith School's public speaking requirement.

Major Requirements

In addition to the Smith School of Business Bachelor of Science requirements listed above, generally another 18-24 credits are required for each major. See individual major listings under each department's page or visit https://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-majors (https://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-majors/).

A Typical Program for the Freshman and Sophomore Years

Freshman Year

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217, or visit http://www.orientation.umd.edu.

Opportunities

SPECIALIZED ACADEMIC PROGRAMS

The Smith School offers innovative special programs that create small communities of scholars within the larger Smith School community. For more information on the Smith School's special programs please visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/).

COLLEGE HONORS PROGRAM

The Smith School Business Honors program is under review. Visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/) for updated information about this program.

APPROVED STUDENT SOCIETIES AND PROFESSIONAL ORGANIZATIONS

Students may choose to associate themselves with one or more professional organizations offered under the umbrella organization, Smith Undergraduate Student Association (SUSA). For more details, visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/community/clubs-organizations (http://www.rhsmith.umd.edu/programs/undergraduate-programs/community/clubs-organizations/).

AWARDS

SCHOLARSHIPS

For details on available scholarships, please click on the scholarships tab at http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/scholarships (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/scholarships/).

Accounting Major

Accounting, in a limited sense, is the analysis, classification, and recording of financial events and the reporting of the results of such events for an organization. In a broader sense, accounting consists of all financial systems for planning, controlling, and appraising performance of an organization. Accounting includes among its many facets: financial planning, budgeting, accounting systems, financial management controls, financial analysis of performance, financial reporting, internal and external auditing, and taxation. The accounting curriculum provides an educational foundation for careers in public accounting and management, whether in private business organizations, government or nonprofit agencies, or consulting. Two tracks are provided: The Public Accounting Track leading to the CPA (Certified Public Accounting) and the Management Accounting/Consulting Track. ***Please note:*** Currently, only the Public Accounting track is available.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Prepare a multiple-step income statement from a trial balance and supporting documentation.
12. Understand the impact of audit objectives and risk of material misstatement in planning an audit.
13. Define audit engagement procedures and where each procedure is used appropriately.
14. Identify the factors that an auditor should consider in order to determine the correct format and contents of an audit opinion.

[1] Required for CPA in Maryland

In addition to the major requirements listed above, please consult the list of College Requirements (p. 271) or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

The basic educational requirements of the Maryland State Board of Public Accountancy to sit for the CPA examination are a baccalaureate or higher degree with a major in Accounting or with a non-accounting degree supplemented by course work the Board determines to be substantially the equivalent of an Accounting major. Students planning to take the CPA examination for certification and licensing outside Maryland should determine the educational requirements for that state and arrange their program accordingly.

120 credits are required to complete a degree in Accounting; however, students seeking to become a Certified Public Accountant (CPA) must meet the certification requirements for the state in which they wish to practice. Most states, including Maryland, require a minimum of 150 credit hours of college education to fulfill the education requirements to obtain a CPA license. However many of these states, including Maryland, will allow applicants to take the CPA exam prior to earning 150 credits if they have accumulated 120 credits, earned a degree, and meet specified education requirements. In addition, do not assume the course and credit requirements for the accounting major are sufficient for all states. For details on various states' CPA requirements visit www.nasba.org (http://www.nasba.org).

The Accounting major is also offered at The Universities at Shady Grove (https://shadygrove.umd.edu/) in Montgomery County, Maryland. Go here (https://www.rhsmith.umd.edu/programs/undergraduate-programs/shady-grove/) to see more information about the Robert H. Smith School of Business's undergraduate offerings at the Shady Grove campus.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-bus.html) for roadmaps for four-year plans in the Robert H. Smith School of Business.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Business Analytics Minor

The Minor in Business Analytics integrates technology with statistical and quantitative modeling techniques to provide students with the foundation needed for data driven decision making, as well as for graduate study in the field of Business Analytics. Students with these skills are in high demand in a variety of industries and sectors including marketing, finance, information systems, operations, health care and energy.

For more information about this minor visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors/).

undergradinfo@rhsmith.umd.edu
www.rhsmith.umd.edu/undergrad (http://www.rhsmith.umd.edu/undergrad/)

Programs

The Department of Decision, Operations, and Information Technologies offers two majors: Information Systems - Specialization: Business and Operations Management & Business Analytics.

Majors

- Information Systems Major, Business Specialization (p. 275)
- Operations Management & Business Analytics Major (p. 276)

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Information Systems Major, Business Specialization

The Business Area of Concentration in the Information Systems (IS) program prepares students to be effective planners, users, and managers of information technologies and systems in the current environment of the technology-enabled business firm. The IS major focuses on the system design and implementation skills including database and web design, analytical skills for both strategic planning of IT and performance evaluation, and the managerial plus organizational knowledge required to manage information systems and applications based on business and customer requirements. The major's core emphasizes the concepts of systems analysis and design, and the strategic use of information systems. In addition to a broad grounding in the key functional areas of marketing, operations, accounting, and finance, this major develops in-depth knowledge of information systems design and implementation, evaluation and planning of information technology investments, and managing dynamic technology projects.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Utilize database management, queries and data warehousing solutions to support business intelligence and decision making.
12. Design an information system solution to problems of a real business enterprise.
13. Apply information system development methodologies to create, test, and document a functional information system for a real business enterprise.

Requirements

ECON306	Intermediate Microeconomic Theory & Policy	
ECON330	Money and Banking	
ECON340	International Economics	
Total Credits		21

[1] CMSC132 Object-Oriented Programming II is approved substitute

[2] CMSC424 Database Design is approved substitute

[3] repeatable if content differs

Note: Students who have completed either ECON325 or ECON326 can substitute these courses for ECON305 or ECON306 respectively.

In addition to the major requirements listed above, please consult the Summary of Bachelor of Science Degree Requirements (All Curricula) (p. 271) on the College Requirements section or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-bus.html) for roadmaps for four-year plans in the Robert H. Smith School of Business.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Operations Management & Business Analytics Major

The Operations Management & Business Analytics major will provide students with the knowledge and skills necessary to successfully apply quantitative and statistically based modeling techniques to data and advantageously use the information in the data to drive decision making and improve performance in an era with massive amounts of data. Students with these skills are in high demand and career opportunities exist in the public and private sectors in a variety of industries including energy, finance, insurance, health care, logistics and marketing.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Select and justify the best solution option(s) for a given management problem.
12. Classify the sources of uncertainty within a process and apply operations management approaches to manage uncertainty so as to minimize waste and improve efficiency.
13. Describe and effectively use advanced data modeling techniques to predict and infer from real-world data sets.

Requirements

Students interested in graduate work in Operations Management & Business Analytics are strongly advised to complete MATH141, MATH240 and MATH241 in addition to the lower level courses required of all Smith School students.

The course requirements for the junior-senior curriculum concentration in Operations Management & Business Analytics are as follows:

Course	Title	Credits
College Requirements (p. 271)		
Major Requirements		
BMGT332	Quantitative Models for Management Decisions	3
BMGT385	Operations Management	3
BMGT430	Data Modeling in Business	3
BMGT431	Data Analytics	3
BMGT434	Analytics Consulting: Cases and Projects	3
or BMGT435	Business Process Simulation	
Select one of the following:		3
BMGT434	Analytics Consulting: Cases and Projects [1]	
BMGT435	Business Process Simulation [1]	
BMGT372	Introduction to Logistics and Supply Chain Management	
BMGT403	Systems Analysis and Design	

BMGT404	Essential Data Skills for Business Analytics	
BMGT485	Project Management	
BMGT487	Six Sigma Innovation	
BMGT490	QUEST Capstone Professional Practicum (BMGT490H-The Total Quality Practicum) [2]	
Upper Level ECON Requirements		
Select one of the following:		3
ECON305	Intermediate Macroeconomic Theory and Policy	
ECON306	Intermediate Microeconomic Theory & Policy	
ECON330	Money and Banking	
ECON340	International Economics	
Total Credits		21

[1] If not selected in the above requirement

[2] Open only to QUEST students

Note: Students who have completed either ECON325 Intermediate Macroeconomic Analysis or ECON326 Intermediate Microeconomic Analysis can substitute these courses for ECON305 or ECON306, respectively. BMGT341 Financial Markets is an approved substitute for ECON330.

In addition to the major requirements listed above, please consult the Summary of Bachelor of Science Degree Requirements (All Curricula) (p. 271) on the College Requirements section or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-bus.html) for roadmaps for four-year plans in the Robert H. Smith School of Business.

Programs
Major

- Finance Major (p. 277)

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217.

Finance Major

Finance encompasses:

1. Corporate finance: The financial management of corporations
2. Investments: The management of securities and portfolios
3. Financial institutions and markets: The management of financial institutions and the study of their role in the economy

The Finance curriculum is designed to familiarize the student with the institutions, theory, and practice involved in the allocation of financial resources within the private sector. It provides an educational foundation for careers involving corporate financial analysis and management, investment analysis and portfolio management, investment banking, risk management, commercial banking, and international finance; it also provides a foundation for graduate study in business administration, economics, and law.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Apply financial theory to solve a problem where a change in capital structure impacts the cost of equity capital.
12. Analyze capital budgeting using discounted cash flow techniques.
13. Determine the value of a firm with and without leverage.

Requirements

Course	Title	Credits
College Requirements (p. 271)		
BMGT343	Investments	3
BMGT440	Advanced Financial Management	3
Select four of the following courses:		12
BMGT342	Wall Street Finance	
BMGT347	Quantitative Financial Analysis	
BMGT441	Fixed Income	
BMGT442	Advanced Portfolio Management	

BMGT443	Applied Equity Analysis and Portfolio Management	
BMGT444	Futures and Options Contracts	
BMGT445	Banking and Financial Institutions	
BMGT446	International Finance	
BMGT447	Computational Finance	
Intermediate ECON	One intermediate Macro (ECON305/ECON325) or Micro (ECON306/ECON326) course	
In addition, a MAXIMUM OF ONE of the following courses (3cr) may be applied towards this 12 cr requirement:		
BMGT349	Private Equity and Venture Capital	
BMGT448	Special Topics in Finance	
BMGT449	Investment Fund Management: Lemma Senbet Fund	
Select one of the following:		3
BMGT310	Intermediate Accounting I	
BMGT313	Financial Statement Analysis	
BMGT332	Quantitative Models for Management Decisions	
BMGT430	Data Modeling in Business	
BMGT438A Applied Quantitative Analysis (QUEST) and ECON423 Econometrics II (ECON majors) are approved as course substitutes for this major requirement.		
Upper Level Economics Requirements for the Finance major		
ECON330	Money and Banking	3
or BMGT341	Financial Markets	
Total Credits		24

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-bus.html) for roadmaps for four-year plans in the Robert H. Smith School of Business.

General Business Minor

The General Business minor provides the business savvy to complement the depth of knowledge acquired in the students' chosen area of major, so they excel in their careers after graduation. Note: The General Business minor is not open to declared Business majors.

For more information about this minor visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors/).

Requirements

Course	Title	Credits
Core (3 credits each, 4 courses/12 credits required)		
BMGT210	Foundations of Accounting for Non Business Majors [1]	3
BMGT345	Foundations of Financial Management for Non Business Majors [2]	3
BMGT355	Foundations of Marketing for Non Business Majors	3
BMGT364	Managing People and Organizations (Take the 'M' version of this course BMGT364M)	3
Electives (3 credits each, 1 course required)		3
BMGT301	Introduction to Information Systems (Take the 'M' version of this course BMGT301M)	
BMGT372	Introduction to Logistics and Supply Chain Management (Take the 'M' version of this course BMGT372M)	
BMGT360	Strategic Management of Human Capital	
BMGT495	Strategic Management (Take the 'M' version of this course BMGT495M)	
Total Credits		15

1 BMGT220 and BMGT221 will meet the BMGT210 requirement.

2 Prerequisite of BMGT210 required

Innovation & Entrepreneurship Minor

The Innovation & Entrepreneurship minor equips students with the knowledge and skills to ramp up their own businesses, as well as to innovate and think creatively about problem-solving and strategy.

For more information about this minor visit http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/academic-minors/).

Requirements

Course	Title	Credits
BMGT382	Marketing and Innovation for Entrepreneurs	3
or BMGT352 Customer Centric Innovation - Smith Majors only		
BMGT461	Entrepreneurship (Take the 'M' version of 461, BMGT461M)	3
BMGT365	Entrepreneurial Finance and Private Equity [1]	3
BMGT366	Growth Strategies for Emerging Companies [1]	3
BMGT467	Strategic Innovation and Entrepreneurship	3
Total Credits		15

1 Prerequisite required, see Testudo for details

Logistics, Business, and Public Policy

The Robert H. Smith School of Business
1570 Van Munching Hall
301-405-2286
undergradinfo@rhsmith.umd.edu
www.rhsmith.umd.edu/undergrad (http://www.rhsmith.umd.edu/undergrad/)

Programs

Majors

Two curriculum concentrations are offered through the Logistics, Business, and Public Policy Department:

- International Business Major (p. 279)
- Supply Chain Management Major (p. 279)

Advising

General advising for students admitted to the Smith School of Business is available Monday through Friday in the Office of Undergraduate Programs, 1570 Van Munching Hall, 301-405-2286, undergradinfo@rhsmith.umd.edu. It is recommended that students visit this office each semester to ensure that they are informed about current requirements and procedures. Transfer students entering the university can be advised during spring, summer, and fall transfer orientation programs. Contact the Orientation Office for further information, 301-314-8217, or visit http://www.orientation.umd.edu/.

International Business Major

International Business responds to the global interest in international economic systems and their multicultural characteristics. This degree combines the college-required courses with International Business courses and provides students the opportunity to apply a specified upper level foreign language course toward this specialization's requirements. It is strongly recommended that this program be declared in combination with another major in or outside of business in order to assure that graduates will have specialized career focus.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Identify and justify optimal transportation modes given the business needs of the shipper.
12. Given various assumptions, analyze cost-service trade-offs and determine optimal inventory practices based on business needs.
13. Identify and apply supply chain management principles and appropriate information technologies to solve real world problems in a global environment.

Requirements

Course requirements for the junior-senior curriculum concentration in International Business are:

Course	Title	Credits
College Requirements (p. 271)		
BMGT392	Introduction to International Business Management	3
BMGT454	Global Marketing	3
BMGT477	International Supply Chain Management	3
BMGT446	International Finance	3
BMGT463	Cross-cultural Challenges in Business	3
BMGT466	Global Business Strategy	3
Select one of the following:		3
ECON305	Intermediate Macroeconomic Theory and Policy	
ECON306	Intermediate Microeconomic Theory & Policy	
ECON330	Money and Banking	
ECON340	International Economics	
Total Credits		21

Note: Students who have completed ECON325 and ECON326 can substitute these courses for ECON305 and ECON306, respectively. In addition, BMGT341 can substitute for ECON330.

In addition to the major requirements listed above, please see the Roberts H. Smith School of Business under The Colleges and Schools or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-bus.html) for roadmaps for four-year plans in the Robert H. Smith School of Business.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Supply Chain Management Major

The predominance of business activity taking place on a global scale has increased the opportunities for integrated supply chain management to have a profound impact on value chain performance. The supply chain encompasses all organizations involved in the production of a good or service and its ultimate delivery to the end consumer. Supply chain managers oversee many varied but inter-related processes including the flows of materials, funds, and information. The scope of a supply chain manager includes all of the following: demand planning, procurement and supplier management, inventory and production operations, transportation and distribution, warehousing, retail sales, customer relationship management, and reverse logistics. Supply chain managers increasingly incorporate sustainability concepts into their decision processes. Students pursuing a supply chain major will develop theoretical, analytical, and software skills designed to prepare them for careers in a variety of fields.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Identify and justify optimal transportation modes given the business needs of the shipper.
12. Given various assumptions, analyze cost-service trade-offs and determine optimal inventory practices based on business needs.
13. Identify and apply supply chain management principles and appropriate information technologies to solve real world problems in a global environment.

Requirements

Course requirements for the junior-senior curriculum concentration in Supply Chain Management are as follows:

Course	Title	Credits
College Requirements (p. 271)		
BMGT370	Introduction to Transportation	3
BMGT372	Introduction to Logistics and Supply Chain Management	3
BMGT472	Purchasing and Inbound Logistics	3
Select two of the following:		6
BMGT373	Supply Chain Management Internship [1]	
BMGT374	Supply Chain Risk Management	
BMGT471	Supply Chain Consulting Fellows I	
BMGT473	Supply Chain Consulting Fellows II	
BMGT475	Supply Chain Strategy and Network Design	
BMGT476	Technology Applications in Supply Chain Management	
BMGT477	International Supply Chain Management	
BMGT478	Special Topics in Supply Chain Management [2]	
Select one of the following: [3]		3
BMGT302	Designing Applications for Business Analytics	
BMGT332	Quantitative Models for Management Decisions	
BMGT385	Operations Management	
BMGT454	Global Marketing	
BMGT461	Entrepreneurship	
BMGT484	Digital Marketing	
BMGT490	QUEST Capstone Professional Practicum	
Upper Level Economics Requirement		
Select one of the following:		3
ECON305	Intermediate Macroeconomic Theory and Policy [4]	
ECON306	Intermediate Microeconomic Theory & Policy [4]	
ECON330	Money and Banking	
ECON340	International Economics	
Total Credits		21

1. A maximum of 3 credits of BMGT373 can fulfill Supply Chain Management major requirements.
2. A maximum of 6 credits of BMGT478 can fulfill Supply Chain Management major requirements.
3. Or one of the following not selected above: BMGT373, BMGT374. BMGT470, BMGT471, BMGT473, BMGT475, BMGT476, BMGT477BMGT477, or BMGT478 NOTE: a maximum of 3 credits of BMGT373 and a maximum of 6 credits of BMGT478 (if content differs) can fulfill Supply Chain Management major requirements.
4. Students who have completed ECON325 and ECON326 can substitute these courses for ECON305 and ECON306 respectively.

In addition to the major requirements listed above, please see the Roberts H. Smith School of Business under The Colleges and Schools in this catalog or www.rhsmith.umd.edu (http://www.rhsmith.umd.edu) for a listing of additional Smith School degree requirements that apply to all Smith School majors.

Contact the Orientation Office for further information, 301-314-8217, or visit http://www.orientation.umd.edu/.

Management Major

The Robert H. Smith School of Business has long been recognized as a leading undergraduate program in management and entrepreneurship. Both these programs regularly appear highly ranked in a variety of publications. The management major focuses on leadership and entrepreneurship to engage students in critical thinking and problem solving applicable in many careers.

The core of the management major offers two courses in leadership and negotiations. These core courses emphasize skills students need in a changing employment environment. As more jobs become automated, managing people and solving tough problems will become increasingly important to attaining meaningful employment. The core classes in the management major provide education in problem solving, leadership, and effective teamwork. The demanding and fast-paced careers of the future will require students to demonstrate a strong ability to communicate and solve problems in a team under extreme pressure. The core major classes prepare students for careers in areas such as strategy, information technology, operations, healthcare administration, and organizational transformation.

There are a number of potential career paths stemming from the management major, such as consulting analyst, financial advisor, human resource management, nonprofit management, rotational leadership programs, and entrepreneur, including social entrepreneurship. These are grouped into two major areas of focus, leadership & innovation and entrepreneurship. Both areas focus on critical thinking and problem solving, and allow students to create a major tailored to their future goals.

The Management & Organization department has relationships with a number of centers of excellence, including the Dignman Center for Entrepreneurship and the Center for Leadership, Innovation and Change which provide relationships with professors, researchers, and organizations for students interested in enhancing their course of study with co-curriculuar opportunities.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Develop and implement a concrete, relevant, and practical action plan based on a set of leadership approaches and skills selected best for a given management problem.
12. Identify key strengths and weaknesses of students' leadership skills and abilities based on the assessment data and self-reflection.
13. Apply negotiation concepts to prepare for and execute an actual negotiation based on strategic and tactical choices made best for a given situation.
14. Identify key strengths and weaknesses of students' negotiation skills and styles based on the assessment data and self-reflection.

Requirements

Course requirements for the junior-senior curriculum concentration of the Management major are as follows:

Course	Title	Credits
College Requirements (p. 271)		
BMGT363	Leadership and Teamwork in Organizations	3
BMGT362	Negotiations	3
Select four of the following:		12
BMGT360	Strategic Management of Human Capital	
BMGT366	Growth Strategies for Emerging Companies	
BMGT461	Entrepreneurship

Contact the Orientation Office for further information, 301-314-8217, or visit http://www.orientation.umd.edu/.

Marketing Major

The goal of marketing is to satisfy all the stakeholders of the firm - employees, dealers, stockholders, and customers - by seeing that quality goods and services are developed and provided at fair prices and in a way that benefits the community and society. World-class competition has forced businesses to develop marketing programs that are as good as the best. This means getting closer to the customer, joining other organizations to create value for the consumer, and designing integrated distribution and communication programs that provide a seamless flow from producers to consumers. Pricing, communication/promotion, product/service, and distribution activities inherent in the development of marketing programs are applicable to non-profit organizations, business-to-business organizations, and firms that sell to ultimate consumers.

Many types of careers are available to the marketing major. These include, but are not limited to: sales, advertising, retailing, product/service management, and marketing research. Because of the many different employment opportunities in marketing, many marketing electives are offered along with three core courses required of all marketing majors - consumer analysis, marketing research, and marketing strategy.

Admission to the Major

See 'Admission Requirements (p. 270)' on the Robert H. Smith School of Business page.

Program Learning Outcomes

1. Apply elements of critical thinking.
2. Identify common situations in chosen career that could result in ethical dilemma.
3. Analyze ethical scenarios and apply frameworks to develop solutions.
4. Foster and sustain team environments that are inclusive of ideas from all contributing members.
5. Apply leadership skills to motivate and coordinate with other to achieve goals.
6. Write professional-grade business documents.
7. Develop and deliver effective oral presentations.
8. Identify and use appropriate quantitative tools and techniques.
9. Use software applications to analyze and solve problems.
10. Explain how functional areas interact and drive one another.
11. Apply consumer behavior concepts to solve real world issues in marketing.
12. Analyze survey data using appropriate tools and techniques and apply findings to resolve marketing issues.
13. Formulate STP plans and apply the proper alignment of 4Ps of marketing to solve real world problems in business.

Requirements

College of Computer, Mathematical, and Natural Sciences

2300 Symons Hall
301-405-4906
cmnsque@umd.edu
www.cmns.umd.edu (http://www.cmns.umd.edu)

Dean: Amitabh Varshney
Associate Deans: Robert Infantino, Wolfgang Losert, Gerald Wilkinson
Assistant Deans: Joelle Presson, Katerina Thompson, Stacia Woycheck (acting)

Nationally and internationally recognized for our educational programs, research excellence, distinguished faculty and students, the College of Computer, Mathematical, and Natural Sciences (CMNS) (http://cmns.umd.edu/) is a critical educational and scientific resource benefiting the region and the nation. The college offers every student a high-quality, innovative, and cross-disciplinary educational experience. Strongly committed to making studies in the sciences available to all, the college actively encourages and supports the recruitment and retention of women and minorities underrepresented in our disciplines.

Our students participate in the University Honors College (http://www.honors.umd.edu/), College Park Scholars (http://www.scholars.umd.edu/), the First-Year Innovation & Research Experience (FIRE) Program (http://fire.umd.edu/), Quest (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/quest (http://www.rhsmith.umd.edu/programs/undergraduate-programs/academics/fellows-special-programs/quest/)) and the Hinman CEOs programs (http://www.mtech.umd.edu/hinman/), other living learning communities, departmental honors programs, and many other co-curricular opportunities. Our students pursue research projects in faculty laboratories, or in the rich cluster of federal and private research institutions in proximity to our campus; they apply their lab and classroom skills through internships at area companies, non-governmental organizations, and in clinical settings. Excellent advising and career services guide our students through their academic program, and facilitate transition to graduate programs and professional schools, private-sector employment, and public service careers. Our innovative and entrepreneurial graduates pursue careers in a great many fields and professions.

In collaboration with the College of Education, we are working to increase the quality and number of teachers prepared to teach science and mathematics in secondary schools. In our Terrapin Teachers program (http://www.tt.umd.edu/), students gain experience through their science and pedagogy coursework, and make an impact through work in local K-12 schools beginning in their first semester in the program.

- Earth History Minor (p. 311)
- Earth Material Properties Minor (p. 312)
- Geochemistry Minor (p. 312)
- Geophysics Minor (p. 315)
- Hydrology Minor (p. 315)
- Mathematics Minor (p. 325)
- Meteorology Minor (p. 292)
- Paleobiology Minor (BSCI) (p. 298)
- Paleobiology Minor (GEOL) (p. 316)

- Physics Minor (p. 328)
- Planetary Sciences Minor (ASTR) (p. 288)
- Planetary Sciences Minor (GEOL) (p. 317)
- Statistics Minor (p. 325)
- Surficial Geology Minor (p. 317)

Advising

Every student in the college is assigned an academic advisor, who may be a faculty member or a professional staff member of the college or academic department. Advisors work with students to develop their programs and to ensure that they are making required progress toward the degree. Educational and career goals, academic progress, and pre-registration course planning are among the topics discussed during advising sessions. Advisors can also help students connect to valuable opportunities and resources on- and off-campus.

Advising is mandatory for most CMNS students, and all are encouraged to take advantage of this service. Specific information about advising appears on the college website at cmns.umd.edu/undergraduate/advising-academic-planning (http://cmns.umd.edu/undergraduate/advising-academic-planning/).

The University Career Center & The President's Promise (https://careers.umd.edu/) provides a diverse array of resources and opportunities for students to explore and develop career-related aspirations – beginning as new students and even serving Terp alumni. The University Career Center@CMNS is a partnership that provides college-level career services support and activities more focused on the needs of CMNS majors. For more information, contact UCC@CMNS Program Director Rachel Wobrak (rwobrak@umd.edu) 1320 Symons Hall.

Students interested in pursuing careers in the health professions can find additional advising support from the Reed-Yorke Health Professions Advising Office (http://www.prehealth.umd.edu/), 1210 H.J Patterson Hall, 301-405-7805.

Opportunities

Living-Learning Programs

The college sponsors several living-learning programs which offer special academic and co-curricular opportunities to participants.

Advanced Cybersecurity Experiences for Students (ACES) (http://www.aces.umd.edu/) is the newest living learning program in the Honors College (http://www.honors.umd.edu/) (http://www.honors.umd.edu/). It exposes students to the breadth of technical and non-technical aspects of this emerging field, preparing future leaders in the field of cybersecurity through an interdisciplinary curriculum, hands-on experience with real-world problems, and internships with companies and government agencies. Program Director - Dr. Michel Cukier.

The Integrated Life Sciences Program (ILS) (http://www.ils.umd.edu/) in the University Honors College was created to offer students enhanced cross-disciplinary training in the life sciences through an innovative curriculum and research and internship opportunities. The ILS program is directed by Dr. Todd Cooke.

CMNS faculty members also contribute to the course offerings of the Design Cultures & Creativity (http://dcc.umd.edu/) honors program that emphasizes interdisciplinary approaches to exploring emerging technologies and their global impacts.

The college sponsors three programs in the College Park Scholars (CPS) (http://www.scholars.umd.edu/) living-learning program which draw upon the breadth of the academic disciplines and faculty expertise in CMNS. Each of these two-year programs brings students together around a common disciplinary focus through courses, seminars, and experiential learning opportunities. The programs inspire students to develop their interests and intellectual capacity by building a community in which everyone has shared interests in scholarly pursuits, in close contact with faculty who are working at the forefront of their fields of expertise.

CPS - Life Sciences (http://www.scholars.umd.edu/programs/ls (http://www.scholars.umd.edu/programs/ls/))
Director: Dr. Beth Parent
Assistant Director: Mr. Jimmy McClellan

CPS - Science, Discovery & the Universe (http://www.scholars.umd.edu/programs/sdu (http://www.scholars.umd.edu/programs/sdu/))
Director: Dr. Alan C. Peel

CPS - Science and Global Change (http://www.scholars.umd.edu/programs/sgc (http://www.scholars.umd.edu/programs/sgc/))
Director: Dr. Thomas R. Holtz, Jr.
Associate Director: Dr. John Merck, Jr.

Specialized Academic Programs

An important part of the content of CMNS majors is delivered outside the classroom, with the greatest emphasis being on leveraging our strength: research. Our students experience scientific discovery first hand, as conceptual learning in class is integrated and applied. Each major provides access to a variety of research experiences that will provide opportunities to collaborate with faculty members, postdoctoral fellows, graduate, and undergraduate students. Our geographic location also offers many unique opportunities for students to gain research and internship experience in federal laboratories and agencies, private companies, and non-governmental organizations. Employers and graduate schools look for research experience in applicants. Be a part of the science discovery in CMNS, which places the college among the top public and private universities worldwide. More information about research opportunities are provided on the college website (http://cmns.umd.edu/undergraduate/research-internships (http://cmns.umd.edu/undergraduate/research-internships/)), and on departmental webpages.

Pre-Health Professions Advising and Programs

1210 H. J. Patterson Hall, 301-405-7805
www.prehealth.umd.edu/ (http://www.prehealth.umd.edu/)
preprof@umd.edu

Director of Health Professions Advising Office: Ms. Wendy Loughlin
Assistant Director: Nick Celedon
Advisor: Courtney Butler, Kayla Cullum

The Reed-Yorke Health Professions Advising Office (HPAO), part of the College of Computer, Mathematical, and Natural Sciences, serves University of Maryland students and alumni interested in pursuing careers in medicine, dentistry, or allied health fields. For more information, please see Reed-Yorke Health Professions (p. 43).

College Honors Program

In addition to our living learning programs described above, CMNS departments offer research-intensive departmental honors programs to which students may apply. Based on a student's performance in

a multi-semester mentored research project and defense of a written thesis, the department may recommend that candidates receive their bachelor's degree with Departmental Honors or Departmental High Honors. Successful completion of departmental honors is recognized on a student's diploma and transcript. Participation in the University Honors College is not a prerequisite for participation in departmental honors programs. See individual CMNS department websites (http://cmns.umd.edu/departments (http://cmns.umd.edu/departments/)) for more information.

Student Engagement and Service Units

The College Student Services Office coordinates orientation and advising services, reviews dean's exception to policy requests, and fields inquiries about academic regulations, transfer credit review, study abroad, and other undergraduate program matters. Each department is also served by an undergraduate program office which coordinates departmental academic advising

CMNS Student Services Office
1300 Symons Hall
301-405-2080
cmnsque@umd.edu

Financial Assistance

The College Scholarships page (http://cmns.umd.edu/undergraduate/scholarships (http://cmns.umd.edu/undergraduate/scholarships/)) provides a list of scholarships and awards administered at the college level for currently enrolled students, and information about the application process. Students complete an electronic application to be considered for all merit and need-based scholarships administered by the college for which they are eligible. The annual application deadline for scholarship applications for returning students is in May.

See department websites (http://cmns.umd.edu/departments (http://cmns.umd.edu/departments/)) for more information about undergraduate scholarships based in the departments of CMNS.

Awards

See the college website for a complete listing of undergraduate scholarships and awards (http://cmns.umd.edu/undergraduate/scholarships (http://cmns.umd.edu/undergraduate/scholarships/)).

Research Units

In addition to our academic departments, many undergraduate students pursue mentored research projects in the college's research centers and institutes. Contact information for the centers and institutes are provided below. Information about the scope of research in the unit, as well as affiliated faculty, is provided on the website of each center or institute.

Center for Bioinformatics and Computational Biology (http://www.cbcb.umd.edu/)
3115 Biomolecular Sciences Building, 301-405-5936
Interim Director & Professor. Michael Cummings

Center for Health-related Informatics and Bioimaging (http://www.chib.umd.edu/)
2119 A.V. Williams Building, 301-405-6722
Professor and Director: Mihai Pop

Center for Nanophysics and Advanced Materials (http://www.cnam.umd.edu/)
0368 Physics Building, 301-405-8285
Professor and Director: Johnpierre Paglione

Center for Scientific Computation and Mathematical Modeling (http://www.cscamm.umd.edu/)
4149 Computer Science Instructional Center, 301-405-0648
Professor and Director: Pierre-Emmanuel Jabin

Earth System Science Interdisciplinary Center (http://essic.umd.edu/)
5825 University Research Court, 301-405-5599
Professor and Director: Fernando Miralles-Wilhelm

Institute for Advanced Computer Studies (http://www.umiacs.umd.edu/)
2119 A.V. Williams Building, 301-405-6722
Professor and Director: Mihai Pop

Institute for Physical Science and Technology (http://www.ipst.umd.edu/)
4211 Computer and Space Sciences Building, 301-405-4814

Astronomy

College of Computer, Mathematical & Natural Sciences
1208 Physical Sciences Complex
301-405-3001
astro-ug@astro.umd.edu
www.astro.umd.edu (http://www.astro.umd.edu)

The Department of Astronomy aims to achieve excellence in research, education, and outreach in the areas of astronomy and astrophysics. We maintain internationally recognized research programs (https://www.astro.umd.edu/rareas/) that address fundamental questions on all scales from our solar system to the entire universe. Our observations cover the entire electromagnetic spectrum from radio waves to gamma rays, and we make use of telescopes all over the world as well as space telescopes and space missions. Our theoretical work makes use of state-of-the-art computational resources. Both our graduate (https://www.astro.umd.edu/graduate/) and undergraduate (https://www.astro.umd.edu/undergrad/) curricula are continuously revised and updated, and we receive high student evaluations in our introductory courses and courses for majors. Our Observatory Open Houses (https://www.astro.umd.edu/openhouse/) have been enjoyed by the public for over 40 years.

Programs

Major

- Astronomy Major (p. 287)

Minors

- Astronomy Minor (p. 288)
- Planetary Sciences Minor (ASTR) (p. 288)

Advising

Further information about the program can be obtained by calling the Department of Astronomy office at 301-405-3001.

Students who have been away more than two years may find that due to curriculum changes the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Departmental Advisor to make appropriate plans.

Opportunities

Undergraduate Research Experiences

Undergraduates have many research opportunities both on and off campus. More information is available on the department website under 'Undergraduate Research' (http://www.astro.umd.edu/undergrad/ugresearch.html).

Internships

Many undergraduate students do astronomy research internships at the NASA/Goddard Space Flight Center. See the department website under 'Undergraduate Research' (http://www.astro.umd.edu/undergrad/ugresearch.html).

Honors Program

The Honors Program offers students of exceptional ability and interest in Astronomy opportunities for research participation. Honors students work with a faculty advisor on a research project for which academic credit is earned. Certain graduate courses are open for credit toward the bachelor's degree.(Students are accepted into the Honors Program by the Department's Honors Committee on the basis of grade point average or recommendation of faculty.) Honors candidates enroll in ASTR399, complete a research project, write a thesis and do an oral presentation before a committee. Satisfactory grades lead to graduation With Honors (or High Honors) in Astronomy. Further information about the Honors Program can be obtained by calling the Department of Astronomy office at 301-405-3001.

Student Societies and Professional Organizations

AstroTerps is a student club open to all undergraduates with an interest in astronomy. The club invites guest speakers and coordinates many outreach activities, field trips, and special events.

ACE (Astronomy Community Engagement) is a student-led group within the University of Maryland Department of Astronomy. The group aims to facilitate community and access among intersecting groups in undergraduate and graduate students studying astronomy. Alongside broader community events, the group hosts spaces for these discussions where students do not need to be concerned about their well-being and where diverse challenges that scientists in the field face can be discussed. See the ACE webpage (http://ace.astro.umd.edu/) for details.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

For information about external and university awards which our undergraduate students have won, see the department's Fellowships and Prizes webpage (http://www.astro.umd.edu/undergrad/fellowships.html#PreviousWinners).

Academic Programs and Departmental Facilities

The Department of Astronomy is a full partner in the 4.3m Discovery Channel Telescope (DCT) (https://lowell.edu/research/research-facilities/4-3-meter-dct/), one of the largest and most technologically advanced telescopes in the continental U.S. We have joined Caltech and other partners in the Zwicky Transient Facility (http://www.ptf.caltech.edu/ztf (http://www.ptf.caltech.edu/ztf/)), a time-domain survey for studying rare and exotic transient phenomena with first light at Palomar Observatory in 2017. The Department is involved with major space missions, such as NASA's Deep Impact, EPOXI, and Rosetta missions which have explored comets. Additionally, the Department operates a small observatory (http://www.astro.umd.edu/openhouse/) on campus which has four fixed telescopes ranging in aperture from 20' to 7' and six portable 8' telescopes. This facility is used for undergraduate majors' classes and for small-scale research projects,

as well as for an Open House Program for the public. The Department operates a modern computer cluster (http://www.astro.umd.edu/rareas/ctc/#ctcfacilities) for computation-intensive science projects, and we have a new visualization laboratory for state-of-the-art simulations and displays of large datasets. Opportunities are available for undergraduates to become involved in research with all of these facilities. Many of our students also conduct research and instrumentation projects with distinguished scientists at the nearby NASA Goddard Space Flight Center and other sites.

Astronomy Major

The Astronomy Department offers courses leading to a Bachelor of Science in Astronomy as well as a series of courses of general interest to non-majors. Astronomy majors are given a strong undergraduate preparation in Astronomy, Mathematics, and Physics. The degree program is designed to prepare students for positions in government and industry laboratories or for graduate work in Astronomy or related fields. Courses offered by this department may be found under the following acronym: ASTR.

Program Objectives

The Department of Astronomy B.S. program educates majors toward achieving an understanding of modern astronomical concepts, applying physics and mathematics to astrophysical situations, and gaining experience in gathering and reducing data using astronomical instrumentation and computational tools. Completion of this program provides the opportunity for majors to acquire the knowledge and skills necessary for graduate school or employment after graduation.

Program Learning Outcomes

1. Identify basic concepts from the many areas of astronomy, including motions in the sky, gravity, electromagnetic radiation, solar system, stars, and galaxies.
2. Develop mathematical skills, acquire physics knowledge, and practice applying these skills and knowledge in astrophysical situations.
3. Use astronomical telescopes/instruments and reduce astronomical data using modern computational methods.
4. Demonstrate advanced level knowledge in several different areas of astronomy.

For further details, see the department's assessment plan: http://www.astro.umd.edu/academics/astronomyBS.pdf

Requirements

Course	Title	Credits
Required Basic Astronomy Courses		
ASTR120	Introductory Astrophysics - Solar System	3
ASTR121	Introductory Astrophysics II - Stars and Beyond	4
ASTR310	Observational Astronomy	4
ASTR320	Theoretical Astrophysics	3
Advanced Astronomy Courses		
Select any two 400 level Astronomy courses of the following:		6
ASTR406	Stellar Structure and Evolution	
ASTR410	Radio Astronomy	
ASTR415	Computational Astrophysics	
ASTR421	Galaxies	
ASTR422	Cosmology	
ASTR430	The Solar System	
ASTR435	Astrophysics of Exoplanets	
ASTR450	Orbital Dynamics	
ASTR480	High Energy Astrophysics	
Optional Astronomy Seminars:		
ASTR288	Special Projects in Astronomy (ASTR288C-Astronomy Research Techniques)	
ASTR288	Special Projects in Astronomy (ASTR288M-Current Events in Astronomy Research)	
ASTR288	Special Projects in Astronomy (ASTR288I Introduction to the Astronomy Major)	
ASTR288	Special Projects in Astronomy (ASTR288P-Introduction to Astronomical Programming)	
Required Introductory Physics Courses [1]		
PHYS165	Introduction to Programming in the Physical Sciences [2]	3
PHYS171	Introductory Physics: Mechanics and Relativity	3
PHYS174	Physics Laboratory Introduction	1
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
PHYS275	Experimental Physics I: Mechanics and Heat	2
PHYS276	Experimental Physics II: Electricity and Magnetism	2
Advanced Physics Courses		
PHYS371	Modern Physics	3
PHYS373	Mathematical Methods for Physics II	3
PHYS401	Quantum Physics I	4
PHYS404	Introduction to Statistical Thermodynamics	3
Supporting Mathematics/Mathematical Methods Courses		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III	4
PHYS274	Mathematical Methods for Physics I [3]	3
Total Credits		65

1. Also accepted with consent of advisor: PHYS161, PHYS165, PHYS260, PHYS261, PHYS270, PHYS271 (14 credits)
2. For students with experience with computer programming this course can be replaced by PHYS474 Computational Physics or ASTR415 Computational Astrophysics. If students complete ASTR415 for this requirement, it cannot be counted as an advanced astronomy course (400-level course) requirement.
3. Completion of both MATH246 and either MATH240 or MATH461 will be accepted in place of PHYS274.

Grades in all of the above required courses must be "C-" or better.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Astronomy Minor

1208 Physical Sciences Complex
301-405-3001
www.astro.umd.edu (http://www.astro.umd.edu)

This minor is designed to provide students with a background in astronomy that focuses on answering the fundamental questions about our origins that humans have pondered over the ages. Building on an introductory survey of astronomy, students will explore topics in planetary science such as asteroid collisions with the Earth or the science of extrasolar planets as viewed through the lens of science fiction. The upper level requirements will offer students the choice of focusing on the origin and evolution of stars, astronomy in the media, our Solar System, our universe, and life elsewhere in the universe.

A minor in Astronomy may be earned by completing the following with grades of 'C-' or better. An appointment must be made to register for the minor before final 30 credits are taken. Please visit http://www.astro.umd.edu/undergrad/minor.html for complete rules and procedures and contact the department with any questions.

Requirements

Course	Title	Credits
Select one of the following: [1]		3-7
ASTR100	Introduction to Astronomy	
ASTR101	General Astronomy	
ASTR120 & ASTR121	Introductory Astrophysics - Solar System and Introductory Astrophysics II - Stars and Beyond	
ASTR220	Collisions in Space - The Threat of Asteroid Impacts	3
or ASTR230	The Science and Fiction of Planetary Systems	
Select three of the following:		9-10
ASTR300	Stars and Stellar Systems	
ASTR305	Astronomy and the Media	
ASTR315	Astronomy in Practice	
ASTR330	Solar System Astronomy	
ASTR340	Origin of the Universe	
ASTR350	Black Holes	
ASTR380	Life in the Universe - Astrobiology	
ASTR498	Special Problems in Astronomy	
CRSxx	Or a course approved by the department	
Total Credits		15-20

[1] or equivalent transfer course(s)

Planetary Sciences Minor (ASTR)

The minor in Planetary Sciences will provide students with a broad understanding of the application of the methods of astronomy and geology to the study of the Solar System, and develop the students' appreciation of how issues in the study of planets connect with larger issues in those sciences. It is intended for all students with an interest in the study of the Solar System, be it professional or avocational. In addition to Astronomy and Geology majors, it dovetails with the professional goals of Environmental Science and Policy, Environmental Science and Technology, Chemistry, Physics, Physical Sciences, and Secondary Education majors.

Building on a three-course base of fundamental knowledge of astronomy, geology and an introduction to the Solar System, the program is completed by three advanced courses addressing specific topics adding depth to the student's knowledge of planetary astronomy and to the geologic tools of the planetary scientist. Students are required to sample from optional courses from both departments. The Joint Minor in Planetary Sciences does not require significant prerequisite knowledge, however some optional courses may require prerequisites of 100-level courses in chemistry, mathematics, or geology.

An appointment must be made to register for the minor before final 30 credits are taken. Please visit http://www.astro.umd.edu/undergrad/minorPlanSci.html for complete rules and procedures and contact the department with any questions.

Requirements

The minor will require 19-22 credits:

Course	Title	Credits
Required		
Select one of the following: [1]		3-4
ASTR100	Introduction to Astronomy	
ASTR101	General Astronomy	
ASTR120	Introductory Astrophysics - Solar System	
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Select one of the following:		3
ASTR330	Solar System Astronomy	
ASTR430	The Solar System	
GEOL212	Planetary Geology	
Select three from the following: [2]		9-11
ASTR220	Collisions in Space - The Threat of Asteroid Impacts	
ASTR230	The Science and Fiction of Planetary Systems	
ASTR380	Life in the Universe - Astrobiology	
ASTR498	Special Problems in Astronomy	
GEOL322	Mineralogy	
GEOL340	Geomorphology	
GEOL412	Geology of the Terrestrial Planets	
GEOL437	Global Climate Change: Past and Present	
GEOL499	Special Problems in Geology	
ASTR/GEOL	Another appropriate astronomy or geology course approved in advance by the Astronomy or Geology advisor	
Total Credits		19-22

[1] Or equivalent transfer course(s).

[2] At least one choice must be from Geology and one from Astronomy. At least six credits from this list and nine credits overall must be at the 300-400 level.

Atmospheric and Oceanic Science

College of Computer, Mathematical, & Natural Sciences
3417 Atlantic Building
301-405-5391
aosc-advise@umd.edu
www.atmos.umd.edu (http://www.atmos.umd.edu)

The department is particularly strong in atmospheric chemistry and air pollution, mesoscale to global numerical weather prediction, data assimilation, earth sciences and climate, physical oceanography, remote sensing, and dynamics with predictability. These strengths are reinforced by strong collaborations leading to joint research topics with NASA Goddard Space Flight Center, Maryland Departments of the Environment and of National Resources, the National Centers for Environmental Prediction (NCEP) of the National Weather Service, the NOAA Satellite (NESDIS) and Air Research Laboratories, all of which are located near the campus. Interdisciplinary programs with the Departments of Geology, Physics, Chemistry, Mathematics, Computer Sciences, Geography, the Marine-Estuarine Environmental Science, and Hydrology (within the School of Engineering) are also encouraged. The department has two members of the National Academy of Engineering and a member of the Academia Europaea.

Programs

Major

- Atmospheric and Oceanic Science Major (p. 290)

Minors

- Atmospheric Chemistry Minor (p. 291)
- Atmospheric Sciences Minor (p. 291)
- Meteorology Minor (p. 292)

Advising

Advising for Atmospheric and Oceanic Science majors is mandatory every semester. Students who need to make an advising appointment should contact the Director of the undergraduate program in Atmospheric and Oceanic Science (Tim Canty: tcanty@umd.edu).

Opportunities

Undergraduate Research Experiences

Many of our present undergraduate students have sought out and obtained productive internships in the Washington, D.C. area. These experiences (whether at NASA, NOAA, EPA, DOE or other federal or state agencies) are important both to our students' academic careers, as they provide context and generate ideas for independent research projects, and to their professional careers. In light of this importance, we have made an undergraduate senior thesis mandatory for all AOSC majors (see the courses AOSC493 and AOSC498). Our majors have the opportunity and are required to perform research! Non-majors may also participate in undergraduate research through AOSC499 or informally with individual professors and research scientists.

Internships

Internships are an integral part of our program. All AOSC majors must complete and defend a full year research project during their senior year. Many opportunities are available at nearby research facilities such as NASA and NOAA.

Honors Program

Each year, the AOSC Honors Program Committee reviews the academic records of AOSC majors. Students with a minimum 3.00 overall GPA and a minimum 3.30 major GPA will be added to the AOSC Honors List. For students on the AOSC Honors list certain graduate courses are open. To receive a citation of 'with honors in atmospheric and oceanic science' the student must:

- Have earned a 3.00 or higher overall GPA and a 3.30 or higher GPA for all AOSC major required courses at graduation time
- Pass two approved AOSC graduate level classes with a grade of "B-" or better.
- Pass an Honors Oral Examination in his or her senior year.

To receive a citation of 'with high honors in atmospheric and oceanic science' he or she must complete the requirements for honors and receive a high pass for the thesis.

Student Societies and Professional Organizations

The undergraduate program features an active student chapter of the American Meteorological Society.

Scholarships and Financial Assistance

The department maintains awards for highly qualified undergraduate students. Please contact the department for details.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Academic Programs and Departmental Facilities

Our department hosts an undergraduate major, three undergraduate minors, a professional masters and a full academic graduate program. The overlap between the professional masters program and the undergraduate program allows incoming freshman to earn both a bachelors and a masters degree in five years. We believe that research is an essential part of an undergraduate experience, and require all our majors to complete a senior thesis as part of their education!

We maintain computer labs for the use of our students in addition to the computer facilities provided by the university, with all major operating systems represented. Several of our research groups also have their own compute clusters, and those who need to access still more powerful computing resources can use NASA, NOAA and NCAR machines. The department hosts several large disk arrays for local data storage and general-use compute clusters for student use in classes and on small projects. All are accessible from our laboratories. We are in the

process of completing and advance forecasting/data visualization lab for students to prepare forecasts, analyze data, and general classroom use.

We have a state of the art rooftop meteorological laboratory, which currently houses standard meteorological instruments and more than a dozen atmospheric chemistry measurements. This facility also frequently hosts instruments from nearby research laboratories such as NASA and NOAA. A short distance away, our department runs an atmospheric chemistry, precipitation and deposition field site at the Beltsville Agricultural Research Center.

Closely affiliated departments and programs, the Earth System Science Interdisciplinary Center (ESSIC) and the Joint Global Change Research Institute (JGCRI) are in the MSquare development immediately east of the main campus, and numerous world-class federal facilities are a short walk or drive away. The new NOAA Center for Weather and Climate Prediction with 700 NOAA researchers is housed next to ESSIC and JGCRI in the MSquare development just east of US Route 1. NASA's Goddard Space Flight Center is five miles down the road, and the National Institute of Standards and Technology, Naval Research Labs, Environmental Protection Agency, and many more are also located in the Washington, D.C. Metro area. All have hired our graduates and host frequent collaborations with our faculty and students.

Atmospheric and Oceanic Science Major

Fundamental concepts from mathematics, chemistry, physics, and computer science are applied to understand the basic principles that control our weather and climate, from extreme events like tornadoes to the millennial changes of ice ages and the results of human modification of our environment. Coursework in the first two years emphasizes mastery of these fundamentals. Coursework in the last two years provides a comprehensive survey of atmospheric and oceanic science, while specialty courses and guided research allow the student to develop expertise in an area of concentration. The Department has particular strengths in computer modeling and remote sensing of the atmosphere and ocean, atmospheric chemistry, and climate studies. In addition to the Department, nearby research laboratories such as the NOAA National Centers for Environmental Prediction and NASA Goddard Space Flight Center offer the student many research opportunities. Courses offered by this department may be found under the following acronyms: AOSC

ADMISSION TO THE MAJOR

The major in Atmospheric and Oceanic Science is not a limited enrollment program (LEP), so there are no formal requirements for entry into the major. Successful students generally have a solid background, earning good grades in mathematics, physics and chemistry.

Program Objectives

The Atmospheric and Oceanic Science B.S. program seeks to educate majors in the basic principles that control our weather and the interactions between atmosphere and ocean that regulate Earth's climate. Students will be provided with practical experience as researchers and creators of knowledge, and equipped with the requirements for a full range of careers in Atmospheric and Oceanic Science, as well as for related areas in secondary education, graduate school, industry, and public service.

Program Learning Outcomes

1. Students will demonstrate competence in the design and execution of research in Atmospheric and Oceanic Science.
2. Students will demonstrate a competence in the standard media of professional communications in the Atmospheric and Oceanic Sciences, including written manuscripts, oral presentations, and poster presentations.
3. Students will demonstrate the ability to gain in-depth knowledge of a specific area of Atmospheric and Oceanic science in the context of active research.
4. Students will demonstrate competent knowledge of a broad cross-section of Atmospheric and Oceanic science subject material.

Requirements

Course	Title	Credits
Requirements for the Major		
AOSC200	Weather and Climate [1]	3
AOSC201	Weather and Climate Laboratory	1
AOSC431	Atmospheric Thermodynamics	3
AOSC432	Dynamics of the Atmosphere and Ocean	3
AOSC494	Atmospheric and Oceanic Science Seminar	1
AOSC493	Senior Research Project I	3
AOSC498	Senior Research Project II	3
AOSC358	Special Topics in Atmospheric and Oceanic Science (AOSC358L-Computing and Data Analysis: Deciphering Climate Change Clues)	3
AOSC4XX	Upper Level Major Electives [2]	6
Select four of the following:		12
AOSC400	Physical Meteorology of the Atmosphere	
AOSC401	Climate Dynamics and Earth System Science	
AOSC424	Remote Sensing of the Atmosphere and Ocean	
AOSC433	Atmospheric Chemistry and Climate	
AOSC470	Synoptic Meteorology	
CHEM135	General Chemistry for Engineers	3
CHEM136	General Chemistry Laboratory for Engineers	1
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III [3]	4
MATH246	Differential Equations for Scientists and Engineers [3]	3
PHYS161	General Physics: Mechanics and Particle Dynamics [4]	3
PHYS174	Physics Laboratory Introduction [4]	1
PHYS260	General Physics: Vibration, Waves, Heat, Electricity and Magnetism [4]	3
PHYS261	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory) [4]	1
PHYS270	General Physics: Electrodynamics, Light, Relativity and Modern Physics [4]	3
PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory) [4]	1
Total Credits		69

[1] Or another AOSC course at the 200-level

[2] For a detailed list, see our website for AOSC majors

[3] The sequence for math majors may also be used: MATH340, MATH341

[4] The sequence for physics majors may also be used: PHYS171, PHYS174, PHYS272, PHYS275, PHYS273

The program requires that a grade of 'C-' or better be obtained in all courses required for the major. Beginning with students matriculating in Fall 2012, to be awarded a baccalaureate degree, students must have a minimum C (2.0) cumulative grade point average across all courses used to satisfy major degree requirements.

Detailed information on the major can be obtained by consulting our major website and making an appointment with an AOSC advisor.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

Atmospheric Chemistry Minor

Atmospheric and Oceanic Science (AOSC)
3417 Computer and Space Sciences Building
301-405-5391
www.atmos.umd.edu (http://www.atmos.umd.edu)

This minor will provide the students with a general background in meteorology as offered by the lower level required courses, and a background on issues in atmospheric chemistry. This minor track is intended for students who might pursue careers where background in atmospheric chemistry is needed, such as air pollution, atmospheric chemistry, and environmental issues. It is aimed at students that might consider graduate work in atmospheric chemistry, or prepare them for a very favorable job market in the Washington area, where a background in meteorology can be an important asset. Students attempting this minor will need a strong background in mathematics, physics and chemistry at the level of MATH240 or MATH461, PHYS270 and PHYS271, CHEM481 (preferred), CHEM135 or CHEM131, which are prerequisites for the required courses. Students interested in taking this minor program should contact the Undergraduate Advisor in the Department of Atmospheric and Oceanic Science. This minor is not open to students who major in Physical Sciences with a concentration in Meteorology, or who major in Physics within the Meteorology Physics area of concentration.

Requirements

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of 'C-' or better.

Course	Title	Credits
Select two electives from the following:		6
AOSC123	Causes and Implications of Global Change	
AOSC200	Weather and Climate	
Any AOSC 400 level course offered below as elective		
AOSC431	Atmospheric Thermodynamics	3
AOSC433	Atmospheric Chemistry and Climate	3
AOSC434	Air Pollution	3
Select one of the following electives:		3
CHEM474	Environmental Chemistry	
GEOL471	Geochemical Methods of Analysis	
Other 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by Research Scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)		
Courses offered by the Departments of Geography and Geology such as:		
GEOG472	Remote Sensing: Digital Processing and Analysis	
GEOL437	Global Climate Change: Past and Present	
GEOL452	Watershed and Wetland Hydrology	
Total Credits		18

Atmospheric Sciences Minor

Atmospheric and Oceanic Science (AOSC)
3417 Computer and Space Sciences Building
301-405-5391
www.atmos.umd.edu (http://www.atmos.umd.edu)

This minor will provide a general background in meteorology as offered by the lower level courses, and a solid background in atmospheric physics (AOSC431) and atmospheric dynamics (AOSC432), as offered by two required courses. It is aimed at non-majors who might consider graduate work in meteorology, or prepare them for the very favorable job market in the Washington, D.C. area, where a background in meteorology can be an important asset. Students attempting this minor will need a strong background in mathematics, physics and chemistry at the level of MATH240 or MATH461, PHYS270 and PHYS271; CHEM135 (preferred) or CHEM131, which are prerequisites for the required courses. Students interested in taking this minor program should contact the undergraduate advisor in the Department of Atmospheric and Oceanic Science for advising. This minor is not open to students who major in Physical Sciences with a concentration in meteorology, or who major in Physics within the Physics-Meteorology area of concentration.

Requirements

This minor will require 15 credits. All courses presented for the minor must be passed with a grade of 'C-' or better.

Course	Title	Credits
Select two of the following electives:		6
AOSC123	Causes and Implications of Global Change	
AOSC200	Weather and Climate	
AOSC400	Physical Meteorology of the Atmosphere	

The following two courses are required:

AOSC431	Atmospheric Thermodynamics	3
AOSC432	Dynamics of the Atmosphere and Ocean	3
One elective from:		
Other 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by research scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)		3
Courses offered by the Departments of Geology and Geographic Sciences, such as:		
GEOL437	Global Climate Change: Past and Present	
GEOL452	Watershed and Wetland Hydrology	
GEOG472	Remote Sensing: Digital Processing and Analysis	
Total Credits		15

Meteorology Minor

Atmospheric and Oceanic Science (AOSC)
3417 Computer and Space Sciences Building
301-405-5391
www.atmos.umd.edu (http://www.atmos.umd.edu)

This minor will provide the students with a general background in meteorology as offered by the lower level courses, a broader background on a wide range of sub-fields in meteorology, and on current issues in climate research, as provided by the two required courses. This minor is aimed at students who wish to be informed about this field, who may not intend to pursue graduate work in this field, but who might pursue careers where a background in meteorology is important, such as environmental policy, government, and industry. This minor is not open to students who major in Physical Sciences with a concentration in Meteorology, or who major in Physics with the Physics-Meteorology area of concentration.

Requirements

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of 'C-' or better.

Course	Title	Credits
Select two of the following electives:		6
AOSC123	Causes and Implications of Global Change	
AOSC200	Weather and Climate	
Any other 400 level courses offered below as electives		
Two required courses:		
AOSC400	Physical Meteorology of the Atmosphere	3
AOSC401	Climate Dynamics and Earth System Science	3
One additional elective from any 400 level courses offered in the Department of Atmospheric and Oceanic Science on a regular basis, or from a list of non-permanent electives that will be offered by research scientists, regular faculty from Atmospheric and Oceanic Science, or members of the Earth System Science Interdisciplinary Center (ESSIC)		3
Courses offered by the Departments of Geology and Geographic Sciences, such as:		
GEOL437	Global Climate Change: Past and Present	
GEOL452	Watershed and Wetland Hydrology	
GEOG472	Remote Sensing: Digital Processing and Analysis	
Total Credits		15

Biological Sciences Program

- Biological Sciences Major (p. 292)
- Paleobiology Minor (p. 298)

Biological Sciences Major

College of Computer, Mathematical and Natural Sciences
1322 Symons Hall
301-405-6892
estaylor@umd.edu
bsci.umd.edu (http://bsci.umd.edu)

The Biological Sciences major exposes students to the modern experimental disciplines within biology and prepares them for diverse careers in health care, research, policy, teaching, and academia. Upper level courses are organized into specialization areas, aligned with the major research areas in modern biology ranging from molecular and cellular studies to ecosystem studies.

Students in the Biological Sciences major will have the following academic components to their curriculum.

- **Basic program and supporting Courses: 47 - 48 credits**
- **Advanced Program in one of the following specialization area: 27 credits**
  - **Cell Biology and Genetics**
  - **General Biology**
  - **Microbiology**
  - **Ecology and Evolution**
  - **Physiology and Neurogiology**
  - **Individualized Studies requires permission of Assistant Dean**
- **General Education requirements: 27 credits**
- **Electives: 18 - 19 credits**

Total credits required to graduate: 120

The Biological Sciences major is jointly offered by the Departments of **Biology**, **Cell Biology & Molecular Genetics**, and **Entomology** in the College of Computer, Mathematical, and Natural Sciences. The central Biological Sciences Program office in 1322 Symons Hall is staffed by:

- Dr. Joelle Presson, Assistant Dean. jpresson@umd.edu (%20jpresson@umd.edu)
- Dr. Francisca Saavedra, Assistant Director. saavedra@umd.edu
- Ms. Elaine Shaw-Taylor, Office Coordinator. estaylor@umd.edu (%20estaylor@umd.edu)

Departmental contacts for Biological Sciences are:

- Dr. Reid Compton, Undergraduate Director Biology. compton@umd.edu
- Dr. Dave Straney, Undergraduate Director Cell Biology & Molecular Genetics. straney@umd.edu
- Dr. Brett Kent, Undergraduate Director Entomology. kent@umd.edu

Biological Sciences Program Specializations

All Biological Sciences majors complete a common sequence of introductory and supporting courses referred to as the basic program. In

addition, students must complete an advanced program within one of the following specialization areas:

- Cell Biology & Genetics (CEBG)
- Ecology & Evolution (ECEV)
- General Biology (GENB)
- Microbiology (MICB)
- Physiology & Neurobiology (PHNB)
- Individualized Studies (BIVS)

A complete list of specialization area requirements can be found on our website, bsci.umd.edu (http://bsci.umd.edu). Note that the Individualized Studies specialization (BIVS) requires permission of the Assistant Dean of Undergraduate Academic Programs, and involves an approved proposal to do coursework in the College and in other disciplines. Further questions about Biological Sciences can be directed to the Undergraduate Academic Program Office at 301-405-6892.

BIOLOGICAL SCIENCES AT THE UNIVERSITY OF MARYLAND AT SHADY GROVE

The Biological Sciences Program at the University of Maryland offers a degree program at Universities at Shady Grove. The Biological Sciences Program at Shady Grove offers the Advanced Program courses normally taken in the junior and senior years. More information is available at: https://www.shadygrove.umd.edu/academics/degree-programs/bs-biological-sciences (https://www.shadygrove.umd.edu/academics/degree-programs/bs-biological-sciences/).

ADMISSION TO THE MAJOR

The Biological Sciences major is a Limited Enrollment Program. Please see the admission requirements and procedures at: lep.umd.edu (http://lep.umd.edu/).

PLACEMENT IN COURSES

Enrollment in BSCI170&171 and BSCI160&161 requires eligibility to take MATH120 or MATH140, either through direct placement by the Math Placement Exam, or completion of MATH113 or 115. Note that students who are ready to take MATH135 will have an eligibility for MATH140, and thus are eligible to enroll in BSCI160&161 and BSCI170&171.

Students who earn Advanced Placement or International Baccalaureate Placement credit which grants equivalency for BSCI170&171 and/or BSCI161&161 are encouraged not to repeat these courses at UMD, but can continue to courses for which BSCI170&171 and/or 160&161 satisfy prerequisite requirements.

PROGRAM LEARNING OUTCOMES

1. Students should have mastered the critical knowledge at each level in the curriculum that is necessary to move on to the next level in the curriculum.
2. Students should demonstrate an ability to use and apply quantitative methods, especially: interpretation of graphical or tabular data; expression of physical, chemical, or biological process in mathematical form; solving equations to determine the value of physical, chemical, or biological variables.
3. Students at the lower level should demonstrate an ability to carry out key experimental techniques used in the chemical and life sciences disciplines.
4. Students at the lower level should have a basic understanding of how to express questions as a hypothesis, how to design a test of a hypothesis, and how to gather and analyze simple data.
5. Students at the upper level should be able to integrate and apply a relevant body of basic knowledge to the evaluation of existing scientific studies and to design studies to test specific hypotheses that includes design elements typically found in a specific field of the chemical and life sciences.
6. Students should effectively communicate in writing the processes of science and the results of scientific inquiry.

Advising

Information on BSCI advising can be found at: http://bsci.umd.edu/advising/.

All freshmen and new transfer students will be assigned an advisor from the College of Computer, Mathematical, and Natural Sciences Student Services advising staff. Students will be assigned to a departmental faculty advisor once a basic sequence of courses has been successfully completed. The departmental faculty advisors are coordinated by the following persons for the indicated specialization areas. These coordinating advising offices can be contacted for making appointments with an advisor or for any other information regarding that specialization area.

Laboratory research, fieldwork, and internships are valuable co-curricular experiences which add value to a student's academic experience in CMNS disciplines. We encourage students to pursue one or more of these experiences during their undergraduate studies. Please see the College website (http://cmns.umd.edu/undergraduate/research-internships (http://cmns.umd.edu/undergraduate/research-internships/)) for more information about experiential learning for CMNS undergraduates.

Requirements

Course	Title	Credits
Basic Program and supporting courses in Biological Sciences		
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
BSCI207	Principles of Biology III - Organismal Biology	3
BSCI222	Principles of Genetics	4
UNIV100	The Student in the University [1]	1
Supporting Courses [2]		
MATH135 & MATH136	Discrete Mathematics for Life Sciences and Calculus for Life Sciences	8
or		
MATH140 & MATH141	Calculus I and Calculus II	8
Or		
MATH140 & MATH135	Calculus I and Discrete Mathematics for Life Sciences	8
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	4
CHEM271 & CHEM272	General Chemistry and Energetics and General Bioanalytical Chemistry Laboratory	4
PHYS131	Fundamentals of Physics for Life Sciences I	4
or PHYS141	Principles of Physics	
PHYS132	Fundamentals of Physics for Life Sciences II	4
or PHYS142	Principles of Physics	
Please see below for details on the Advanced Program requirements for each specialization area.		

1 Al students who matriculate at UMD as Freshman Biological Sciences majors must take UNIV100 or another approved Freshman Seminar course. See your advisor for details.

2 MATH140 and MATH141 taken together will fulfill the Mathematics Supporting Courses requirement; however, MATH135 and MATH136 were designed specifically for Biological Sciences majors. Students who enter the Biological Sciences major after satisfactorily completing MATH140 should take MATH135 instead of MATH141.

Advanced Program Requirements

All Biological Sciences majors must complete an Advanced Program within one of the specialization areas described below. Students must complete a minimum of 27 credits of Advanced Program study.

For all specialization areas:

- At least two courses designated as lab at the 300 or 400 level must be taken as part of the Advanced Program.
  - Stand alone lab courses require a C- or better in the pre / co-requisite lecture to count as the upper level Lab requirement
- Independent study or research credits, including H and L versions, are acceptable up to a maximum of 3 credits overall in the Advanced Program.
- Multiple semesters in research courses can possibly count for one of the two required lab courses. See your advisor for more details.
- One credit of Departmental Honors Seminar can count toward the Advanced Program major credits. Additional Departmental Honors Seminar credits can count as electives toward the 120 credits required for graduation.
- Special topics courses are approved for specific specialization areas. See testudo.umd.edu (https://www.testudo.umd.edu/) to determine if a particular special topics course is approved for your specialization area.
- All specialization areas except General Biology have an Enrichment category. Enrichment allows students to include a maximum of 3 credits from any 300-level or 400-level BSCI, CHEM, or BCHM course in their Advanced Program. Courses from other departments can be used with permission of advisor. Courses listed in the Advanced Program can be used if they are not used to satisfy any specific Advance program category. Courses counted as Enrichment do not satisfy the requirement to take two 300- or 400-level laboratory courses.

Cell Biology & Genetics 0404A

Course	Title	Credits
Required Courses		**16**
BCHM461	Biochemistry I	3
BCHM462	Biochemistry II	3
BSCI330	Cell Biology and Physiology (Lab)	4
BSCI410	Molecular Genetics	3
BSCI420	Cell Biology Lectures	3
CEBG Area courses. One course from the Cell Biology group and one course from the Genetics group must be taken. Other credits can be taken from any group.		**8**
Cell Biology Courses		
BSCI353	Principles of Neuroscience	3
BSCI404	Cell Biology from a Biophysical Perspective	3
BSCI417	Microbial Pathogenesis [1]	3

BSCI422	Principles of Immunology [1]	3
BSCI423	Immunology Laboratory [1]	2
BSCI430	Developmental Biology	3
BSCI433	Biology of Cancer	3
BSCI442	Plant Physiology (Lab)	4
BSCI443	Microbial Physiology [1]	3
BSCI454	Neurobiology Laboratory [3]	1
Genetics Courses		
BSCI402	Genomics of Sensory Systems	3
BSCI405	Population and Evolutionary Genetics (Lab)	3
BSCI407	Behavioral Genetics	3
BSCI411	Bioinformatics and Integrated Genomics (Lab)	4
BSCI412	Microbial Genetics (Lab) [1]	4
BSCI414	Recombinant DNA Laboratory	3
BSCI415	Molecular Genetics Laboratory	3
BSCI416	Human Genetics	3
BCHM465	Biochemistry III	3
Additional CEBG Courses		
BSCI223	General Microbiology [2]	4
BSCI283	Principles of Microbiology [2]	4
BSCI374	Mathematical Modeling in Biology [3]	4
BSCI425	Advanced Cell Biology Lab Practices	2
BSCI427	Principles of Microscopy	2
BSCI437	General Virology	3
BCHM464	Biochemistry Laboratory	3
BIOM301	Introduction to Biometrics [4]	3
STAT400	Applied Probability and Statistics I [4]	3
STAT464	Introduction to Biostatistics [4]	3
Special Topics Courses		
BSCI328	Special Topics in Entomology	1-4
BSCI338	Special Topics in Biology	1-4
BSCI339	Selected Topics in Biology	1-4
BSCI348	Special Topics in Cell Biology and Molecular Genetics	1-4
Departmental Honors Seminar		
BSCI378H	Cell Biology and Molecular Genetics Department Honors Seminar	1
BSCI398H	Biology Department Honors Seminar	1
Enrichment		**3**

Minimum 3 credits from any 300-level or 400-level BSCI, CHEM, or BCHM course.

1. BSCI223/283 is a pre-requisite for these upper level courses.
2. Credit will be given for either BSCI223 OR BSCI283. Credit cannot be granted for both courses. BSCI223/283 may count in the CEBG Area credits but NOT as an upper level lab.
3. Formerly BSCI474, cross-listed as HLSC374. Credit will be given for either BSCI374, HLSC374 or BSCI474.
4. Only one of these statistics courses will count for the CEBG Area courses.

Ecology & Evolution 0404B

Course	Title	Credits
Required Courses		**10**
BSCI361	Principles of Ecology	4
BSCI370	Principles of Evolution	3
Select one of the following Statistics Courses:		3
BIOM301	Introduction to Biometrics	3
STAT400	Applied Probability and Statistics I	3
STAT464	Introduction to Biostatistics	3
Ecology and Evolution Area Courses.		**14**
300-Level Courses		
BSCI330	Cell Biology and Physiology (Lab)	4
BSCI333	Principles of Paleontology (Lab)	4
BSCI334	Mammalogy	3
BSCI335	Mammalogy Laboratory	1
BSCI337	Biology of Insects (Lab)	4
BSCI360	Principles of Animal Behavior	3
BSCI363	The Biology of Conservation and Extinction	3
BSCI364	Conservation Biology Lab	1
BSCI373	Natural History of the Chesapeake Bay	3
BSCI374	Mathematical Modeling in Biology (Lab) [1]	4
BSCI392	Biology of Extinct Animals	3
BSCI393	Biology of Extinct Animals Laboratory	1
400-Level Courses. At least two 400-level courses must be taken.		
BSCI401	Animal Communication	3
BSCI403	Biology of Vision	3
BSCI405	Population and Evolutionary Genetics (Lab)	3
BSCI407	Behavioral Genetics	3
BSCI410	Molecular Genetics	3
BSCI430	Developmental Biology	3
BSCI460	Plant Ecology [2]	3
BSCI461	[2]	2
BSCI462	Population Ecology	3
BSCI464	Microbial Ecology	3
BSCI465	Behavioral Ecology	3
BSCI467	Freshwater Biology (Lab)	4
BSCI471	Molecular Evolution	3
BSCI473	Marine Ecology	3
BSCI475	Sexual Selection in Nature	3
BSCI480	Arthropod Form and Function (Lab)	4
BSCI481	Insect Diversity and Classification (Lab)	4
BSCI483	Insects, Pathogens, and Public Health	3
BSCI494	Animal-Plant Interactions	3
Special Topics Courses		
BSCI328	Special Topics in Entomology	1-4
BSCI338	Special Topics in Biology	1-4
BSCI339	Selected Topics in Biology	1-4
BSCI348	Special Topics in Cell Biology and Molecular Genetics	1-4
Department Honors Seminar		
BSCI378H	Cell Biology and Molecular Genetics Department Honors Seminar	1

BSCI398H	Biology Department Honors Seminar	1
Enrichment		**3**

Minimum 3 credits from any 300-level or 400-level BSCI, CHEM, or BCHM course.

1 Formerly BSCI474, cross-listed as HLSC374. Credit will be given for either BSCI374, HLSC374 or BSCI474.

2 BSCI460 and BSCI461 count as one required 400-level course. They do not satisfy the two 400-level courses requirement alone.

General Biology 0404C

Course	Title	Credits
Required Courses		
Biochemistry		3
BCHM461	Biochemistry I	3
or BCHM463	Biochemistry of Physiology	
Select one of the following Quantitative Courses:		3-4
BIOM301	Introduction to Biometrics	3
BSCI374	Mathematical Modeling in Biology (Lab) [1]	4
STAT400	Applied Probability and Statistics I	3
STAT464	Introduction to Biostatistics	
MATH240	Introduction to Linear Algebra	4
General Biology Area Courses. At least one course from each area: Genetics & Evolution, Cell Biology, Development, & Physiology, and Ecology, Behavior, & Organismal.		**20-21**
Genetics and Evolution		
BCHM465	Biochemistry III	3
BSCI370	Principles of Evolution	3
BSCI402	Genomics of Sensory Systems	3
BSCI405	Population and Evolutionary Genetics (Lab)	3
BSCI407	Behavioral Genetics	3
BSCI410	Molecular Genetics	3
BSCI411	Bioinformatics and Integrated Genomics (Lab)	4
BSCI412	Microbial Genetics (Lab)	4
BSCI414	Recombinant DNA Laboratory	3
BSCI415	Molecular Genetics Laboratory	3
BSCI416	Human Genetics	3
BSCI471	Molecular Evolution	3
Cell Biology, Development, and Physiology		
BCHM462	Biochemistry II	3
BCHM464	Biochemistry Laboratory	3
BSCI330	Cell Biology and Physiology (Lab)	4
BSCI342	Biology of Reproduction	3
BSCI348	Special Topics in Cell Biology and Molecular Genetics (BSCI348C: Cell Biology Lab)	1-4
BSCI353	Principles of Neuroscience	3
BSCI404	Cell Biology from a Biophysical Perspective	3
BSCI417	Microbial Pathogenesis	3
BSCI420	Cell Biology Lectures	3
BSCI422	Principles of Immunology	3
BSCI425	Advanced Cell Biology Lab Practices (Lab)	2
BSCI423	Immunology Laboratory (Lab)	2
BSCI424	Pathogenic Microbiology (Lab)	4
BSCI430	Developmental Biology	3
BSCI433	Biology of Cancer	3
BSCI437	General Virology	3
BSCI440	Mammalian Physiology	4
BSCI441	Mammalian Physiology Laboratory (Lab)	2
BSCI442	Plant Physiology (Lab)	4
BSCI443	Microbial Physiology	3
BSCI446	Neural Systems	3
BSCI447	General Endocrinology	3
BSCI452	Diseases of the Nervous System	3
BSCI454	Neurobiology Laboratory (Lab)	1
Ecology, Behavior, and Organismal		
BSCI333	Principles of Paleontology (Lab)	4
BSCI334	Mammalogy	3
BSCI335	Mammalogy Laboratory	1
BSCI337	Biology of Insects (Lab)	4
BSCI360	Principles of Animal Behavior	3
BSCI361	Principles of Ecology	4
BSCI363	The Biology of Conservation and Extinction	3
BSCI364	Conservation Biology Lab (Lab)	1
BSCI373	Natural History of the Chesapeake Bay	3
BSCI392	Biology of Extinct Animals	3
BSCI393	Biology of Extinct Animals Laboratory (Lab)	1
BSCI401	Animal Communication	3
BSCI403	Biology of Vision	3
BSCI460	Plant Ecology	3
BSCI461	(Lab)	2
BSCI462	Population Ecology	3
BSCI464	Microbial Ecology	3
BSCI465	Behavioral Ecology	3
BSCI467	Freshwater Biology (Lab)	4
BSCI473	Marine Ecology	3
BSCI480	Arthropod Form and Function (Lab)	4
BSCI481	Insect Diversity and Classification (Lab)	4
BSCI483	Insects, Pathogens, and Public Health	3
BSCI494	Animal-Plant Interactions	3
Additional Courses (Optional)		
BSCI223	General Microbiology [2]	4
or BSCI283	Principles of Microbiology	
Departmental Honors Seminars		
BSCI378H	Cell Biology and Molecular Genetics Department Honors Seminar	1
BSCI398H	Biology Department Honors Seminar	1
Special Topics Courses		
BSCI328	Special Topics in Entomology	1-4
BSCI338	Special Topics in Biology	1-4
BSCI339	Selected Topics in Biology	1-4
BSCI348	Special Topics in Cell Biology and Molecular Genetics	1-4
Department Research Credit		
BSCI379	Cell Biology and Molecular Genetics Department Research	1-3

BSCI389	Entomology Department Research	1-2
BSCI399	Biology Department Research	1-3

1 Formerly BSCI474, cross-listed as HLSC374. Credit will be given for either BSCI374, HLSC374 or BSCI474.

2 Credit will be given for either BSCI223 OR BSCI283. BSCI223/283 is a pre-requisite for some upper level BSCI courses. BSCI223/283 may count in the GENB Area credits but NOT as an upper-level lab

Microbiology 0404D

Course	Title	Credits
Required Courses		
BSCI283	Principles of Microbiology [1]	4
BSCI412	Microbial Genetics (Lab)	4
BSCI443	Microbial Physiology	3
Biochemistry Courses		6
BCHM461 & BCHM462	Biochemistry I and Biochemistry II	6
Or		
BCHM463 & BCHM465	Biochemistry of Physiology and Biochemistry III	6
Microbiology Area Courses		**7**
BSCI411	Bioinformatics and Integrated Genomics (Lab)	4
BSCI417	Microbial Pathogenesis	3
BSCI422	Principles of Immunology	3
BSCI423	Immunology Laboratory	2
BSCI424	Pathogenic Microbiology (Lab)	4
BSCI437	General Virology	3
BSCI464	Microbial Ecology	3
Special Topics Courses		
BSCI338	Special Topics in Biology	1-4
BSCI339	Selected Topics in Biology	1-4
BSCI348	Special Topics in Cell Biology and Molecular Genetics	1-4
Departmental Honors Seminars		
BSCI378H	Cell Biology and Molecular Genetics Department Honors Seminar	1
BSCI398H	Biology Department Honors Seminar	1
Enrichment		**3**

Minimum 3 credits from any 300- or 400-level BSCI, CHEM, or BCHM course.

1 or BSCI223 with permission of Undergraduate Program Director. Students cannot get credit for both BSCI223 and BSCI283.

Physiology & Neurobiology 0404E

Course	Title	Credits
Required Courses		
BCHM461	Biochemistry I	3
or BCHM463	Biochemistry of Physiology	
BSCI330	Cell Biology and Physiology (Lab)	4
BSCI353	Principles of Neuroscience [1]	3
BSCI440	Mammalian Physiology	4
Physiology and Neurobiology area courses		**10**
BCHM462	Biochemistry II	3
BCHM464	Biochemistry Laboratory	3
BCHM485	Physical Biochemistry	3
BSCI360	Principles of Animal Behavior	3
BSCI370	Principles of Evolution	3
BSCI374	Mathematical Modeling in Biology (Lab) [2]	4
BSCI401	Animal Communication	3
BSCI402	Genomics of Sensory Systems	3
BSCI403	Biology of Vision	3
BSCI407	Behavioral Genetics	3
BSCI410	Molecular Genetics	3
BSCI414	Recombinant DNA Laboratory	3
BSCI416	Human Genetics	3
BSCI420	Cell Biology Lectures	3
BSCI422	Principles of Immunology	3
BSCI425	Advanced Cell Biology Lab Practices	2
BSCI423	Immunology Laboratory	2
BSCI430	Developmental Biology	3
BSCI433	Biology of Cancer	3
BSCI434	(Lab)	4
BSCI441	Mammalian Physiology Laboratory	2
BSCI442	Plant Physiology (Lab)	4
BSCI443	Microbial Physiology	3
BSCI446	Neural Systems	3
BSCI447	General Endocrinology	3
BSCI452	Diseases of the Nervous System	3
BSCI454	Neurobiology Laboratory	1
Statistics, one course maximum		
BIOM301	Introduction to Biometrics	3
STAT400	Applied Probability and Statistics I	3
STAT464	Introduction to Biostatistics	3
Special Topics Courses		
BSCI328	Special Topics in Entomology	1-4
BSCI338	Special Topics in Biology	1-4
BSCI339	Selected Topics in Biology	1-4
BSCI348	Special Topics in Cell Biology and Molecular Genetics	1-4
Departmental Honors Seminars		
BSCI378H	Cell Biology and Molecular Genetics Department Honors Seminar	1
BSCI398H	Biology Department Honors Seminar	1
Enrichment		**3**

Minimum 3 credits from any 300- or 400-level BSCI, CHEM, or BCHM course.

1 Starting Fall 2012, only BSCI353 satisfies the Neurobiology course requirement that was previously fulfilled by BSCI446 or BSCI453.

2 Formerly BSCI474, cross-listed as HLSC374. Credit will be given for either BSCI374, HLSC374 or BSCI474.

Individualized Studies 0404

f

The Individualized Studies specialization (BIVS) requires permission of the Assistant Dean of Undergraduate Academic Programs, and involves an approved proposal to do coursework in the College and in other disciplines.

Required Courses

- Six credits in biochemistry and/or quantitative coursework, approved by advisor

Individualized Studies Area Courses

- 21 credits approved by advisor
- Maximum of 4 credits at the 200-level
- At least 3 credits, but a maximum of 6 credits, from courses outside of CMNS, cannot double count as Advanced Program
- Courses taken to satisfy Advanced Program must support BIVS topic
- At least two upper-level labs
- Lab courses offered as separate credit must be successfully completed with lecture as co- or pre-requisite
- Must include two credits for independent research paper related to BIVS topic, written under the direction of advisor

OTHER REQUIREMENTS FOR THE BIOLOGICAL SCIENCES MAJOR

Students receiving a degree in the Biological Sciences from the University of Maryland must earn at least 120 credits with a cumulative minimum GPA of 2.000 in all courses being counted toward the degree as well as in all courses associated with the major. Additionally, all Biological Sciences major courses must have a grade of 'C-' or better.

Opportunities

Internships

See http://cmns.umd.edu/undergraduate/research-internships (http://cmns.umd.edu/undergraduate/research-internships/).

Honors Program

Outstanding students are encouraged to apply to departmental Honors Programs. Through the Honors Programs students will become actively involved in the ongoing scientific research at the university. Information about these honors programs may be obtained from the Undergraduate Academic Programs Office, 1322 Symons Hall, 301-405-6892.

Student Societies and Professional Organizations

Information on Biological Sciences and other CMNS student organizations can be found at http://cmns.umd.edu/sab (http://cmns.umd.edu/sab/).

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

In addition to offering high quality undergraduate specializations in the Biological Sciences, the BSCI program participates in the collaborative program in secondary teaching, Terrapin Teachers, terrapinteachers.umd.edu (http://terrapinteachers.umd.edu). This program allows students to develop their expertise at communicating science to diverse audiences and provides a path toward certification to teach secondary school science or math.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Paleobiology Minor (BSCI)

The minor in Paleobiology will provide students with a broad understanding of the application of the methods of biology and geology to the study of the history of life, and develop students' appreciation of how issues in the study of paleobiology connect with larger trends in those sciences. It is intended for all students with an interest in the study of the history of life, be it professional or avocational.

Requirements

Depending on optional course(s) taken, a total of 21 – 24 credits are required (see prerequisites (p. 299)). All courses presented for the minor must be passed with a grade of C- or better.

Course	Title	Credits
Fundamental Courses		
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
One of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Introductory Life History or Organismal Biology		
One of the following:		3-4
GEOL102	Historical Geology	
GEOL104	Dinosaurs: A Natural History	
GEOL204	Dinosaurs, Early Humans, Ancestors, and Evolution; The Fossil Record of Vanished Worlds of the Prehistoric Past	
BSCI207	Principles of Biology III - Organismal Biology	
BSCI222	Principles of Genetics	
Upper-Level Paleobiology		
One of the following:		4
BSCI333/ GEOL331	Principles of Paleontology	
BSCI392 & BSCI393	Biology of Extinct Animals and Biology of Extinct Animals Laboratory	
Electives		
Two courses (one from Biology and one from Geology) selected from the following:		6-8

BSCI333/ GEOL331	Principles of Paleontology (if not taken to satisfy the requirement above)
BSCI334	Mammalogy
BSCI361	Principles of Ecology
BSCI363	The Biology of Conservation and Extinction
BSCI392 & BSCI393	Biology of Extinct Animals and Biology of Extinct Animals Laboratory (if not taken to satisfy the requirement above)
BSCI370	Principles of Evolution
BSCI399	Biology Department Research [1]
GEOL342	Sedimentation and Stratigraphy
GEOL431	Vertebrate Paleobiology
GEOL436	Principles of Biogeochemistry
GEOL437	Global Climate Change: Past and Present
GEOL499	Special Problems in Geology
Or another appropriate biology or geology course approved in advance by the Entomology or Geology advisor	
Total Credits	21-24

[1] The Paleobiology Minor requires 3 cumulative credits of BSCI399 to count as elective. Research topic must be approved by GEOL or ENTM advisor.

Prerequisites

Required Courses

The following required courses have prerequisites (as indicated in the course description):

- BSCI207 Principles of Biology III - Organismal Biology
- BSCI222 Principles of Genetics
- GEOL102 Historical Geology
- BSCI333 Principles of Paleontology or GEOL331 (cross-listed)
- BSCI392 Biology of Extinct Animals and BSCI393 (lab)

Of these, only BSCI207 and BSCI222 have supporting prerequisites not already required for the minor.

Optional Courses

The following optional courses have prerequisites (as indicated in the course description):

- BSCI333 Principles of Paleontology or GEOL331 (cross-listed)
- BSCI334 Mammalogy
- BSCI361 Principles of Ecology
- BSCI363 The Biology of Conservation and Extinction
- BSCI392 Biology of Extinct Animals and BSCI393 (lab)
- BSCI370 Principles of Evolution
- GEOL342 Sedimentation and Stratigraphy
- GEOL431 Vertebrate Paleobiology
- GEOL436 Principles of Biogeochemistry
- GEOL437 Global Climate Change: Past and Present

Of these, only BSCI334, BSCI361, GEOL342, GEOL436, and GEOL437 have supporting prerequisites not already required for the minor.

Biology

College of Computer, Mathematical, & Natural Sciences
1204A Biology-Psychology Building
301-405-6904
bioundergrad@umd.edu
http://biology.umd.edu/

The Department of Biology is committed to an integrative understanding of organisms ranging from processes occurring at the level of molecules to human impacts on global ecological scales. This integrative approach is evident in the variety of courses we offer. Courses offered by Biology focus on the function of molecules or cells (e.g., Membrane Biophysics, Mammalian Histology, Neurophysiology), on the integration of organ systems (e.g., Vertebrate Form and Function, Mammalian Physiology), on the interaction of organisms with each other and their environment (e.g. Animal Behavior, Plant Ecology, Population Ecology), on evolutionary process and diversification (e.g., Principles of Evolution), and/or on the relationship between humans and their environment (e.g., Biology of Conservation and Extinction). In addition to a strong foundation in basic biology, our faculty provide students interested in medical careers with courses that discuss medical applications (Biology of Cancer, Diseases of the Nervous System) and evolutionary considerations. Our program has particular strengths in neuroscience, evolutionary developmental biology, and ecology. Our diverse faculty and our linkages with other institutions, such as the National Institutes of Health and the Smithsonian Institution, provide students with a wealth of research opportunities to prepare them for careers in medicine, conservation biology, public policy, education, and more.

Courses offered by this department may be found under the following acronym(s): BSCI, BIOL, NACS, and BISI.

The Department of Biology faculty coordinate and advise students who specialize in the following areas:

- Biological Sciences: Ecology and Evolution (ECEV)
- Biological Sciences: Physiology and Neurobiology (PHNB)
- Environmental Science and Policy: Biodiversity & Conservation Biology concentration (ENSP-BIOD)

The requirements for the Biological Sciences major can be found here (p. 294).

ADMISSION TO THE BIOLOGICAL SCIENCES PROGRAM

The Biology Department offers undergraduate courses in the Biological Sciences Program. Biological Sciences is a limited-enrollment program. Specific information about admission requirements for the major can be found at the following link: http://www.lep.umd.edu/cmns-lep.pdf.

Program Learning Outcomes

- Students will master the critical knowledge in biology relevant to the next stage in their career.
- Students will demonstrate an ability to use and apply appropriate quantitative methods in the biological sciences.
- Students will be able to critically evaluate and integrate scientific findings in the biological sciences and apply this understanding to areas of professional and public interest.

- Students will be able to effectively communicate through speaking and writing the processes of science and the results of scientific inquiry.
- Students will master experimental design and laboratory skills relevant to the next stage in their career.

Programs

Majors

- Biological Sciences (p. 292) (Ecology and Evolution-ECEV)
- Biological Sciences (p. 292) (Physiology and Neurobiology-PHNB)
- Environmental Science and Policy (p. 101) (Biodiversity & Conservation Biology-ENSP-BIOD)
- Neuroscience (p. 300) (CMNS-Biology)

Advising

Students are assigned an academic advisor on the basis of their area of specialization. The Department of Biology faculty coordinate and advise students who specialize in the following areas:

- Biological Sciences: Ecology and Evolution (ECEV)
- Biological Sciences: Physiology and Neurobiology (PHNB)
- Environmental Science and Policy: Biodiversity & Conservation Biology concentration (ENSP-BIOD)

Contact the Department of Biology Undergraduate Office, 301-405-6904, for information about advising or to schedule an appointment.

For advising in other Biological Sciences Specialization areas, see the Biological Sciences Major (p. 292) listing in this catalog.

Opportunities

Undergraduate Research Experiences

The Biology Department offers a wealth of undergraduate research opportunities. Students doing undergraduate research with a Biology Department faculty member serving as advisor or co-advisor may sign up for credit under BSCI399, BSCI399L, or BSCI399H or may do research on a volunteer basis. More general information on research opportunities in the Biological Sciences may be found at: http://cmns.umd.edu/undergraduate/research-internships (http://cmns.umd.edu/undergraduate/research-internships/).

Honors Program

The Department of Biology Honors Program offers highly motivated and academically qualified students the opportunity to work closely with a faculty mentor on an original, independent, research project. Students are required to participate in the program for at least three semesters and need not have been previously admitted to the Honors College to participate. Contact the Biology Undergraduate Office (301-405-6904) for more information.

Neuroscience Major (CMNS)

The Neuroscience major is jointly offered by the Departments of **Biology** in the College of Computer, Mathematical, and Natural Sciences and Psychology (p. 260)in the College of Behavioral and Social Sciences.

The Neuroscience major offers rigorous training in the interdisciplinary study of brain and behavior. Students complete a required set of NEUR courses as well as a supporting sequence of coursework in mathematics, biology, chemistry, physics, and psychology. Students then choose an upper-level specialization and coursework in (1) cellular, molecular, and physiological neuroscience or (2) behavioral and cognitive neuroscience. The Neuroscience major prepares students for a broad range of career paths including: scientific research, medicine, clinical psychology, allied health professions, or science-related government, nonprofit, or private sector employment.

Admission to the Major

The Neuroscience major is a Limited Enrollment Program. Information on limited enrollment programs can be found at: lep.umd.edu (http://lep.umd.edu/).

Transfer Admission Requirements

Students beyond their first semester and those off campus wishing to transfer are required to meet the following gateway criteria:

- Completion of MATH130, MATH135 or MATH140 with a minimum grade of C-
- Completion of BSCI170 AND BSCI171 (formerly BSCI 105) and BSCI160 AND BSCI161 (formerly BSCI 106) with a minimum grade of C-
- Completion of CHEM131 AND CHEM132 and CHEM231 AND CHEM232 with a minimum grade of C-

A minimum grade point average of 2.7 in all courses taken at the University of Maryland and all other institutions is required for internal and external transfer students.

Program Learning Outcomes

1. Develop a knowledge base in the field of neuroscience and supporting disciplines: understand the fundamental principles of neuroscience across all levels of analysis – molecular/cellular, circuits, systems, and behavior, understand the principles of evolution, especially as they apply to the nervous system and behavior, develop additional expertise and depth of knowledge in at least one area of neuroscience (molecular/cellular, circuits, systems, and behavior), and be able to address a question in neuroscience by integrating information from multiple levels of analysis
2. Understand the current techniques and strategies in neuroscience research: understand the theory and practice of important current neuroscience research techniques, along with their strengths and limitations, acquire laboratory experience through neuroscience courses or research, develop skills in data analysis using relevant quantitative and programming methods, and obtain training to work comfortably and successfully within a research team or equivalent experience
3. Develop competence in scientific reasoning and critical thinking: be able to critically evaluate scientific literature, including assessment of the problems addressed, methodology used (including statistical analyses), and conclusions drawn, demonstrate skill in innovative and integrative thinking and problem-solving, and demonstrate skill in experimental design and interpretation
4. Develop effective professional communication skills: demonstrate proficiency in clear, concise, and graceful writing, demonstrate proficiency with oral communication in a range of professional

situations, and demonstrate proficiency in graphical presentation of information integrated into both written and oral presentations

5. Understand the role of neuroscience in social and cultural contexts as well as the influences of social and cultural context on neuroscience: understand the influences, current and potential, of neuroscience on other fields such as medicine, education, the arts, and the social sciences, recognize the relationships between scientific research and the culture(s) in which it is embedded, and understand and follow ethical practices in academic study, scientific research, and professional life
6. Develop an appreciation of possible career paths available to students proficient in neuroscience: understand the activities, opportunities, and responsibilities of the individual scientist within the scientific community, recognize the range of career opportunities outside academia, and develop and, as far as possible, implement plans for career development

Requirements

Course	Title	Credits
NEUR Required Courses		
NEUR200	Introduction to Neuroscience ((GenEd: NS) Introduction to Neuroscience)	3
NEUR305	(Neuroscience Fundamentals I)	3
NEUR306	(Neuroscience Fundamentals II)	3
NEUR405	(Neurobiology Lab)	4
Required Supporting Courses		
MATH135	Discrete Mathematics for Life Sciences	4
or MATH140	Calculus I	
MATH136	Calculus for Life Sciences	4
or MATH141	Calculus II	
STATISTICS	BIOM301, EPIB300, PSYC200, STAT400, or STAT464	3
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	4
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	4
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	4
CHEM271 & CHEM272	General Chemistry and Energetics and General Bioanalytical Chemistry Laboratory	4
PHYS131	Fundamentals of Physics for Life Sciences I	4
or PHYS141	Principles of Physics	
PHYS132	Fundamentals of Physics for Life Sciences II	4
or PHYS142	Principles of Physics	
PSYC100	Introduction to Psychology	3
UNIV100	The Student in the University (or equivalent)	1
Concentration Courses [1,2]		**16-20**
Complete at least 5 courses, including at least 3 courses from within one concentration and at least 1 lab course		
MOLECULAR, CELLULAR, AND PHYSIOLOGICAL CONCENTRATION [3]		
BCHM463	Biochemistry of Physiology	
BSCI222	Principles of Genetics [4]	
BSCI330	Cell Biology and Physiology	
BSCI339	Selected Topics in Biology (BSCI339D: Biology of Chemosensory Systems)	
BSCI339	Selected Topics in Biology (BSCI339F: Neurophysiology of Cells and Circuits)	
BSCI402	Genomics of Sensory Systems	
BSCI403	Biology of Vision	
BSCI410	Molecular Genetics	
BSCI415	Molecular Genetics Laboratory	
BSCI430	Developmental Biology	
BSCI440 & BSCI441	Mammalian Physiology and Mammalian Physiology Laboratory	
BSCI446	Neural Systems	
BSCI452	Diseases of the Nervous System	
KNES370	Motor Development	
KNES462	Neural Basis of Human Movement	
NEUR379	(Neuroscience Research: Molecular and Cellular)	
NEUR479	(Neuroscience Research Lab; BSCI399(H, L) may be substituted with permission)	
PSYC404	Introduction to Behavioral Pharmacology	
SPECIAL TOPICS	BSCI338 or BSCI339 when specifically approved. Check with your advisor.	
BEHAVIORAL AND COGNITIVE CONCENTRATION [3]		
BSCI222	Principles of Genetics [4]	
BSCI330	Cell Biology and Physiology	
BSCI360	Principles of Animal Behavior	
BSCI401	Animal Communication	
BSCI446	Neural Systems	
KNES385	Motor Control and Learning	
KNES445	Exercise and Brain Health	
NEUR379	(Neuroscience Research: Behavioral and Cognitive)	
NEUR479	(Neuroscience Research Lab; BSCI399(H, L) may be substituted with permission)	
PHIL202	Know Thyself: Wisdom Through Cognitive Science	
PHIL366	Philosophy of Mind	
PSYC302	Fundamentals of Learning and Behavior	
PSYC341	Introduction to Memory and Cognition	
PSYC402	Neural Systems and Behavior	
PSYC403	Animal Behavior	
PSYC404	Introduction to Behavioral Pharmacology	
PSYC406	Neuroethology	
PSYC407	Behavioral Neurobiology Laboratory	
PSYC413		
PSYC414	Science of Sleep and Biological Rhythms	
PSYC442	Psychology of Language	
PSYC455	Cognitive Development	
PSYC489	Advanced Special Topics in Psychology (PSYC489G: Hormones & Behavior)	
Total Credits		76-80

[1] Up to 3 pre-approved Neuroscience Research credits can be applied to the major.

[2] 4 pre-approved NEUR479 credits in the same faculty research laboratory can satisfy the lab requirement.

[3] Courses may be occasionally added or removed from this list. Not all courses may be available each semester.

[4] Students may not use both ANSC327 and BSCI222 toward filling Neuroscience concentration requirements.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Cell Biology and Molecular Genetics

College of Computer, Mathematical, & Natural Sciences
1109 Microbiology Building
301-405-5435
www.cbmg.umd.edu (http://www.cbmg.umd.edu)

The Department of Cell Biology and Molecular Genetics participates in the teaching and advising of students in the following Biological Sciences Program specialization areas:

- Biological Sciences: Cell Biology and Genetics (CEBG)
- Biological Sciences: Microbiology (MICB)
- Biological Sciences: General Biology (GENB) *advising last names that begin with the letters N through Z*

Our courses are taught in four basic areas that represent faculty research interests and expertise including:

- Cell and Developmental Biology
- Genetics and Genomics
- Microbiology, Microbial Pathogenesis and Immunology
- Plant Biology

The requirements for the Biological Sciences major can be found here (p. 294).

Admission to the Biological Sciences Program

Biological Sciences is a limited-enrollment program. Specific information about admission requirements for the major can be found at the following link: http://www.lep.umd.edu/cmns-lep.pdf.

Programs
Majors

- Biological Sciences (p. 292) (Cell Biology and Genetics-CEBG)
- Biological Sciences (p. 292) (General Biology-GENB) *advising for last names N-Z*
- Biological Sciences (p. 292) (Microbiology-MICB)

Advising

Advising is mandatory for certain students (freshmen, change in major, GPA of 2.5 or below). The Department in coordination with the Student Affairs Office of the College of Chemical and Life Sciences administers the advising of students in the following Biological Sciences specialization areas:

- Biological Sciences: Microbiology (MICB)
- Biological Sciences: Cell Biology and Genetics (CEBG)
- Biological Sciences: General Biology (GENB) *Last names that begin with the letters N through Z*

Advising assignments can be found by contacting the Cell Biology and Molecular Genetics Undergraduate Program Office, 1109 Microbiology (301-405-2766).

For advising in other Biological Sciences Specialization areas, see the Biological Sciences Major (p. 292) listing in this catalog.

Opportunities
Undergraduate Research Experiences

Students may participate in Department hosted research experiences in faculty laboratories or laboratories at off campus locations. Please contact the Cell Biology and Molecular Genetics Undergraduate Office (301-405-2766) for more information or see the site: http://bsci.umd.edu/ under 'Research and Internships'.
Specific courses in the department that offer credit for the research are described at: http://cbmg.umd.edu/undergraduate/undergrad-research/ Areas of research in the CBMG department are described at: http://cbmg.umd.edu/research-areas/ with listing of faculty and their research.

Honors Program

The Departmental Honors Program involves a long term (three semester) independent research project undertaken with a faculty advisor. Students register for BSCI378H (research) and BSCI379H (seminar) each semester. Admission is based upon GPA. Students must arrange the research opportunity prior to application. Please contact the Cell Biology and Molecular Genetics Undergraduate Office for more information or see the site: http://cbmg.umd.edu/undergraduate/undergrad-research/undergrad-honors/.

Student Societies and Professional Organizations

All students interested in microbiology are encouraged to join the University of Maryland Student Chapter of the American Society for Microbiology. Sigma Alpha Omicron is the honors chapter of this group. The groups meet regularly on campus. Information is available through the Undergraduate Program Office.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu)

Awards and Recognition

The department recognizes graduating seniors with awards funded by generous donors. These are listed at http://cbmg.umd.edu/cbmg-home/scholarships-awards/.

Chemistry and Biochemistry

College of Computer, Mathematical & Natural Sciences
0107H Chemistry Building
301-405-1788
chem-web@umd.edu
www.chem.umd.edu (http://www.chem.umd.edu)

The department blends chemistry and biochemistry with cross cutting research programs in energy and environment, biomaterials and nanobiotechnology, advanced materials and quantitative science. Grounded in traditional subfields (analytical, biochemistry, inorganic, organic, and physical chemistry), research in the department extends from molecular biophysics and catalysis to environmental and polymer chemistry, and onto theoretical and computational chemistry. Nationally recognized, award-winning faculty instruct students and provide them with research opportunities that lead to their independent careers. In addition, vigorous collaborative interactions with nearby national labs (including NIH, NIST, and the FDA) expand departmental opportunities and research

Programs

Majors

- Biochemistry Major (p. 303)
- Chemistry Major (p. 305)

Advising

There is mandatory advising for all Chemistry and Biochemistry majors each semester. Advising appointments can be made by contacting the undergraduate office, 1206 Chemistry Building, 301-405-1791. Information can be found at: http://www.chem.umd.edu/undergraduateprogram/current-students/majoradvising (http://www.chem.umd.edu/undergraduateprogram/current-students/majoradvising/)

Opportunities

Honors Program

Students with a GPA of 3.0 or better who have completed at least two semesters of CHEM399 have an opportunity to sign up for CHEM398 in their senior year and be considered for departmental honors. After successful completion of a senior honors thesis and seminar, graduation with honors or with high honors in chemistry or biochemistry can be attained. Details are available here: http://www.chem.umd.edu/undergraduateprogram/current-students/chemistry-biochemistry-honors-program (http://www.chem.umd.edu/undergraduateprogram/current-students/chemistry-biochemistry-honors-program/)

Student Societies and Professional Organizations

Alpha Chi Sigma Chemistry Fraternity is a professional fraternity which recruits men and women students from chemistry, biochemistry, and related science majors during each fall and spring semester. The fraternity holds weekly meetings and provides tutoring for students in lower-level chemistry courses. The office is in Room 2106A Chemistry Building. Dr. Joseph Houck is the faculty advisor (Room 1102 Chemistry Building, 301-405-9289).

The student affiliate program of the American Chemical Society (SA-ACS) is designed to introduce students in chemistry, biochemistry and related fields to a variety of professional activities. Student affiliates will gain skills and make contacts aimed at launching a successful career in science. Activities include networking and meeting with professionals, attending national meetings, and participating in public outreach programs. Affiliates also receive subscriptions to Chemical & Engineering News, the undergraduate career magazine, *in Chemistry*, as well as gaining on-line access to announcements regarding job and intern opportunities. The student affiliate office is located in Room 2112A of the Chemistry Building.

Scholarships and Financial Assistance

The Department awards several scholarships to undergraduate majors with financial need and outstanding academic records, including the Isidore and Annie Adler Scholarship, the Leidy Foundation Scholarship, the G. Forrest Woods Scholarship, the James H. & Patricia H. Rich Scholarship, the Bruce Jarvis Scholarship, the Francesco Barone Scholarship, and the James Stewart Scholarship. Scholarship amounts are contingent on available funds and some may be divided among multiple awardees. Any given scholarship is not necessarily awarded every year. There is no application process; all declared chemistry and biochemistry majors are automatically reviewed annually by the Departmental Awards Committee. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Biochemistry Major

The study of molecular and atomic properties and interactions that encompass Chemistry and Biochemistry are central to many scientific disciplines including biology, geology, astronomy, environmental science, materials science and numerous others. Chemistry and Biochemistry majors continue to graduate or professional school, and obtain employment as educators and technical scientists. Courses offered by this department may be found under the following acronyms: BCHM, CHEM

Admission to the Major

Chemistry and Biochemistry are part of a Limited Enrollment program (LEP) within the College of Computer, Mathematical, and Natural Sciences (CMNS). Current UMCP students who wish to declare in CHEM or BCHM must complete a series of gateway courses (CHEM146/CHEM177 (or CHEM131/CHEM132), CHEM237 (or CHEM231/CHEM232)

and MATH140 and MATH141) prior to applying to the program. Information is available at: http://www.lep.umd.edu.

Placement in Courses

The Department of Chemistry and Biochemistry rigorously enforces all of its prerequisites. Enrollment in CHEM131/CHEM132 or CHEM146/CHEM177 requires placement in calculus (MATH120 or MATH135 or MATH140).

Program Learning Outcomes

1. Students should demonstrate mastery of a body of knowledge represented by the curricula in Chemistry and Biochemistry. Students should have mastered the critical knowledge in each level in the curriculum that is necessary to move on to the next level in the curriculum.
2. The ability to read, evaluate and interpret chemical and numerical information for a novel problem using their foundational knowledge in science.
3. Students should have knowledge of appropriate safe-handling procedures and disposal of chemicals.
4. Students at lower level should demonstrate an ability to carry out key experimental techniques used in the chemical and life sciences disciplines.
5. Students at upper level should be able to design experiment to test specific hypotheses, carry out these experiments using appropriate instrumentation and analyze the results.
6. Students should demonstrate the ability to use the broader scientific literature to select appropriate information to support his/her work.
7. Students should effectively communicate, both verbally and in writing, the processes of science and the results of scientific inquiry using appropriate language and models of chemistry (i.e. equations, symbolism, etc).
8. Students should understand the importance of good ethical practices in scientific research.
9. Students should continue their career in science through gainful employment or entrance into a graduate or professional school.

Requirements

All required chemistry, biochemistry, and upper-level biological sciences courses must be passed with a minimum grade of 'C-'. Required supporting courses, including BSCI170 & BSCI171, must be passed with a 2.0 grade point average.

Course	Title	Credits
UNIV100	The Student in the University	1
Lower-Level CHEM Courses		
CHEM146 & CHEM177	Principles of General Chemistry and Introduction to Laboratory Practices and Research in the Chemical Sciences	5
CHEM237	Principles of Organic Chemistry I	4
CHEM247	Principles of Organic Chemistry II	4
CHEM276 & CHEM277	General Chemistry and Energetics - Majors and Fundamentals of Analytical and Bioanalytical Chemistry Laboratory	5
Supporting Courses		
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	4
PHYS161 & PHYS260 & PHYS261	General Physics: Mechanics and Particle Dynamics and General Physics: Vibration, Waves, Heat, Electricity and Magnetism and General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	7
MATH140	Calculus I	4
MATH141	Calculus II	4
Required Upper Level CHEM/BCHM Courses		
CHEM395	Professional Issues in Chemistry and Biochemistry	1
CHEM425	Instrumental Methods of Analysis	4
CHEM481 & CHEM483	Physical Chemistry I and Physical Chemistry Laboratory I [1]	5
BCHM461	Biochemistry I	3
BCHM462	Biochemistry II	3
BCHM464	Biochemistry Laboratory	3
BCHM465	Biochemistry III	3
BCHM485	Physical Biochemistry	3
Approved biological science courses		6
Total Credits		69

[1] **Note:** All majors and potential majors are encouraged to take MATH241 prior to beginning Physical Chemistry.

- Specific information about course requirements can be obtained in the undergraduate office.
- Students who enroll in the chemistry or biochemistry program at any time following the first semester of study typically will complete all or part of the non-majors introductory sequence (CHEM131,CHEM132, CHEM231/CHEM232, CHEM241/CHEM242 and CHEM271/CHEM272; CHEM132, CHEM232, CHEM242 and CHEM272 are co-requisite laboratory courses). In this situation, completion of an additional approved upper level CHEM or BCHM course may be required to fulfill the lower-level departmental major requirements. Transfer students who wish to pursue chemistry or biochemistry majors will have their previous chemistry course work carefully evaluated for placement in the appropriate courses.
- More information about and requirements for the Biochemistry major can be found at: http://www.chem.umd.edu/undergraduateprogram/current-students/majoradvising (http://www.chem.umd.edu/undergraduateprogram/current-students/majoradvising/).

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Chemistry Major

Computer Science

College of Computer, Mathematical and Physical Sciences
Brendan Iribe Center for Computer Science and Engineering
301-405-2672
ugrad@cs.umd.edu
www.cs.umd.edu (http://www.cs.umd.edu)

The Department of Computer Science is home to myriad research areas and world renowned faculty. Our faculty work in artificial intelligence (AI) and machine learning, augmented and virtual reality, bioinformatics and computational biology, data science, computer vision and graphics, human computer interaction (HCI), theory of computing, and many more. For a more detailed list, please visit our research page at http://www.cs.umd.edu/research (http://www.cs.umd.edu/research/).

Programs

Major

- Computer Science Major (p. 306)

Minor

- Computer Science Minor (p. 308)

Advising

All CS majors must attend an advising session each semester prior to registering for classes. Additional advising information is available at http://undergrad.cs.umd.edu/academic-advising (http://undergrad.cs.umd.edu/academic-advising/).

Opportunities

Honors Program

Students looking for opportunities to enhance their computer science education are encouraged to participate in the Computer Science Undergraduate Honors Program. The program is open to students in the CS major who have earned a GPA of 3.5 in computer science courses and a GPA of 3.25 in overall coursework. Some of the benefits of the program include the following:

1. learning how to conduct research,
2. working closely with faculty members, and
3. increasing preparedness for graduate school.

For more information about the honors program, please visit the CS Honors website: https://undergrad.cs.umd.edu/departmental-honors/

Scholarships and Financial Assistance

There are multiple endowed scholarships available to students majoring in computer science. Additional details can be found at http://undergrad.cs.umd.edu/scholarships (http://undergrad.cs.umd.edu/scholarships/).

Students may find employment as tutors, as undergraduate teaching assistants, or as members of the department's laboratory staff. Professors may also have funds to hire undergraduates to assist in research. Many students also participate in internship experiences, working in the computing industry during the summer after their sophomore and/or junior years.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Computer Science Major

Computer science is the study of computers and computational systems: their application, design, development and theory. Principal areas within computer science include machine learning and data science, cybersecurity and privacy, human-computer interaction, artificial intelligence, programming languages, software engineering, computer systems and networking, algorithms and theory of computing, natural language processing, high-performance and quantum computing, databases systems, bioinformatics, robotics, computer vision, information visualization, and virtual- and augmented-reality systems. A computer scientist is concerned with problem solving. Problems range from abstract questions of what problems can be solved with computers to practical matters such as the design of computer systems that are efficient, secure, and easy for people to use.

Admission to the Major

The Computer Science major is a Limited Enrollment Program. Please see the admission requirements and procedures at lep.umd.edu (http://lep.umd.edu/). (https://lep.umd.edu/)

Placement in Courses

Much of the knowledge at the early stage of the degree program is cumulative. To ensure that transfer and new students start with the appropriate courses, the department offers exemption exams for CMSC131, CMSC132, CMSC216, and CMSC250. Students who have taken CS courses prior to starting at Maryland can visit http://undergrad.cs.umd.edu/exemption-exams (http://undergrad.cs.umd.edu/exemption-exams/) for more information.

Program Learning Outcomes

1. Graduates will be able to create, augment, debug, and test computer software. These skills will be built progressively through the courses in the introductory sequence and in some courses beyond that.
2. Graduates will develop mathematical and reasoning skills that are needed for computer science.
3. Graduates will be able to design and implement programming projects that are similar to those seen in the real world.
4. Graduates will gain skills in communication.
5. Academic Research (Optional): Graduates will be able to work independently on a project.

Requirements

Much of the knowledge at the early stage of the degree program is cumulative. To ensure that transfer students start with the appropriate courses, the department offers exemption exams for CMSC131, CMSC132, CMSC216 and CMSC250. Students who have had CS courses prior to starting at Maryland are encouraged to schedule and take exemption exams.

A 'C-' or better must be earned in all major requirements.

Course	Title	Credits
Required Lower Level Courses (Unless Exempt)		
MATH140	Calculus I (see your advisor)	4
MATH141	Calculus II	4
CMSC131	Object-Oriented Programming I [1]	4
CMSC132	Object-Oriented Programming II [1]	4
CMSC216	Introduction to Computer Systems [1]	4
CMSC250	Discrete Structures [1]	4
Additional Required Courses		
CMSC330	Organization of Programming Languages	3
CMSC351	Algorithms	3
STAT4xx [2]		3
MATH/AMSC/STAT xxx [2]		3-4
Upper Level Computer Science Courses [3]		
Select five 400 level courses from at least three of the following areas with no more than three courses in a given area:		15
Area 1: Systems		
CMSC411	Computer Systems Architecture	
CMSC412	Operating Systems	
CMSC414	Computer and Network Security	
CMSC417	Computer Networks	
Area 2: Information Processing		
CMSC420	Advanced Data Structures	
CMSC421	Introduction to Artificial Intelligence	
CMSC422	Introduction to Machine Learning	
CMSC423	Bioinformatic Algorithms, Databases, and Tools	
CMSC424	Database Design	
CMSC426	Computer Vision	
CMSC427	Computer Graphics	
CMSC470	Introduction to Natural Language Processing	
Area 3: Software Engineering and Programming Languages		
CMSC430	Introduction to Compilers	
CMSC433	Programming Language Technologies and Paradigms	
CMSC434	Introduction to Human-Computer Interaction	
CMSC435	Software Engineering	
CMSC436	Programming Handheld Systems	
Area 4: Theory		
CMSC451	Design and Analysis of Computer Algorithms	
CMSC452	Elementary Theory of Computation	
CMSC456	Cryptography	
CMSC457	Introduction to Quantum Computing	
Area 5: Numerical Analysis		
CMSC460	Computational Methods [4]	
or CMSC466	Introduction to Numerical Analysis I	
Upper Level Concentration Requirement [5]		
Select at least 12 credits of 300-400 level courses from one discipline outside of CMSC		12
Total Credits		63-64

Students also have the option to complete the Cybersecurity Specialization **(**p. 307**),** Data Science Specialization **(**p. 308**), or Machine Learning Specialization**

1. Students may fulfill CMSC131, CMSC132, CMSC216 or CMSC250 course requirements by passing proficiency exams before they start the sequence of classes.
2. This course must have prerequisite of MATH141 or higher; cannot be cross-listed with CMSC.
3. At the upper level, students take five (5) 400 level courses from at least three different areas with no more than three courses in a given area. An additional two (2) electives, totaling 6 credits, for the general computer science degree are also required. If students take more than three courses from an area, they will be counted as electives. Students can count one credit winter courses towards the elective requirement, as well as independent research or study with a faculty member, and other courses at the 300 or 400 level.
4. Credit will only be given for CMSC460 or CMSC466.
5. Students must also take at least 12 credits of 300-400 level courses from one discipline outside of CMSC. No course in or cross-listed with CMSC can be counted. An overall 2.0 average must be earned in these courses. Each course must be a minimum of 3 credits. Only 1 special topics or independent study course may be used.

Cybersecurity Specialization

Students looking to pursue the cybersecurity specialization are required to complete the lower level courses (MATH140, MATH141, CMSC131, CMSC132, CMSC216, CMSC250), the additional required courses (CMSC330, CMSC351, MATH/STATXXX and STAT4xx beyond MATH141), and the upper level concentration requirements as detailed above. The difference in the specialization is the upper level computer science courses. Students must fulfill their computer science upper level course requirements from at least 3 areas.[1]

Students are required to take:

Course	Title	Credits
CMSC414	Computer and Network Security	3
CMSC456	Cryptography	3
Students must choose four courses from:		12-13
CMSC411	Computer Systems Architecture	
CMSC412	Operating Systems	
CMSC417	Computer Networks	
CMSC430	Introduction to Compilers	
CMSC433	Programming Language Technologies and Paradigms	
CMSC451	Design and Analysis of Computer Algorithms	
Upper Level Elective Courses: three credits from CMSC3XX or CMSC4XX excluding CMSC330 and CMSC351 [1]		3
Total Credits		21-22

[1] Students may fulfill an area requirement under the Upper Level Elective Courses requirement. Courses that fall within each area are listed in the General Track degree requirements. The five areas are: Area 1: Systems, Area 2: Information Processing, Area 3: Software Engineering and Programming Languages, Area 4: Theory, and Area 5: Numerical Analysis.

Data Science Specialization

Students looking to pursue the data science specialization are required to complete the lower level courses (MATH140, MATH141, CMSC131, CMSC132, CMSC216, CMSC250), the additional required courses (CMSC330, CMSC351, STAT400 and MATH240), and the upper level concentration requirements as detailed above. The difference in the specialization is the upper level computer science courses. Students must fulfill their computer science upper level course requirements from at least 3 areas.[1]

Students are required to take:

Course	Title	Credits
CMSC320	Introduction to Data Science	3
CMSC422	Introduction to Machine Learning	3
CMSC424	Database Design	3
Select one of the following:		3
CMSC402	Bioinformatic Algorithms and Methods for Functional Genomics and Proteomics	
CMSC420	Advanced Data Structures	
CMSC421	Introduction to Artificial Intelligence	
CMSC423	Bioinformatic Algorithms, Databases, and Tools	
CMSC425	Game Programming	
CMSC426	Computer Vision	
CMSC427	Computer Graphics	
CMSC470	Introduction to Natural Language Processing	
Select one of the following:		
CMSC451	Design and Analysis of Computer Algorithms	3
or CMSC460	Computational Methods	
Select two of the following:		6-7
CMSC411	Computer Systems Architecture	
CMSC412	Operating Systems	
CMSC414	Computer and Network Security	
CMSC417	Computer Networks	
CMSC430	Introduction to Compilers	
CMSC433	Programming Language Technologies and Paradigms	
CMSC434	Introduction to Human-Computer Interaction	
CMSC435	Software Engineering	
Total Credits		21-22

[1] Courses that fall within each area are listed in the General Track degree requirements. The five areas are: Area 1: Systems, Area 2: Information Processing, Area 3: Software Engineering and Programming Languages, Area 4: Theory, and Area 5: Numerical Analysis.

Machine Learning Specialization

Students looking to pursue the machine learning specialization are required to complete the lower level courses (MATH140, MATH141, CMSC131, CMSC132, CMSC216, CMSC250), the additional required courses (CMSC330, CMSC351, STAT4xx beyond MATH141, and MATH240), and the upper level concentration requirements as detailed above. The difference in the specialization is the upper level computer science courses. Students must fulfill their computer science upper level course requirements from at least 3 areas.[1]

Students are required to take:

Course	Title	Credits
CMSC320	Introduction to Data Science	3
CMSC421	Introduction to Artificial Intelligence	3
CMSC422	Introduction to Machine Learning	3
Select two of the following:		6
CMSC426	Computer Vision	
CMSC/ AMSC460	Computational Methods	
or CMSC/ AMSC466	Introduction to Numerical Analysis I	
or MATH401	Applications of Linear Algebra	
CMSC470	Introduction to Natural Language Processing	
CMSC474	Introduction to Computational Game Theory	
CMSC498	Selected Topics in Computer Science (CMSC498F: Robotics and Perception)	
CMSC498	Selected Topics in Computer Science (CMSC498L: Introduction to Deep Learning)	
CMSC498	Selected Topics in Computer Science (CMSC498P: Machine Learning Capstone)	
Upper Level Elective Courses: six credits from CMSC3XX or CMSC4XX excluding CMSC330 and CMSC351 [1]		6
Total Credits		21

[1] Students may fulfill an area requirement under the Upper Level Elective Courses requirement. Courses that fall within each area are listed in the General Track degree requirements. The five areas are: Area 1: Systems, Area 2: Information Processing, Area 3: Software Engineering and Programming Languages, Area 4: Theory, and Area 5: Numerical Analysis.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Computer Science Minor

1119 A.V. Williams Building
301-405-2672

ugrad@cs.umd.edu
www.cs.umd.edu (http://www.cs.umd.edu)

The purpose of the minor in Computer Science is not only to give students a strong foundation in and understanding of algorithmic reasoning, problem solving methods involving computers and computation, as well as a solid base to help students adapt to future changes in technology, but to complement and enhance any student's major program of study.

The Computer Science minor is selective, and students must meet the same entrance requirements as the Computer Science major. Information on how to apply for the minor can be found at https://undergrad.cs.umd.edu/future (https://undergrad.cs.umd.edu/future/).

Requirements

The minor in Computer Science consists of 15-24 credits; all courses must be completed with a grade of 'C-' or better. MATH140 and CMSC131 are pre-requisites for entrance into the curriculum for the minor.

Course	Title	Credits
Requirements		
CMSC132	Object-Oriented Programming II [1]	4
CMSC216	Introduction to Computer Systems [1]	4
CMSC250	Discrete Structures [1]	4
CMSC330	Organization of Programming Languages	3
CMSC351	Algorithms	3
Select two of the following: [2]		6
CMSC411	Computer Systems Architecture	
CMSC412	Operating Systems	
CMSC414	Computer and Network Security	
CMSC417	Computer Networks	
CMSC420	Advanced Data Structures	
CMSC421	Introduction to Artificial Intelligence	
CMSC422	Introduction to Machine Learning	
CMSC423	Bioinformatic Algorithms, Databases, and Tools	
CMSC424	Database Design	
CMSC426	Computer Vision	
CMSC427	Computer Graphics	
CMSC430	Introduction to Compilers	
CMSC433	Programming Language Technologies and Paradigms	
CMSC434	Introduction to Human-Computer Interaction	
CMSC435	Software Engineering	
CMSC436	Programming Handheld Systems	
CMSC451	Design and Analysis of Computer Algorithms	
CMSC452	Elementary Theory of Computation	
CMSC456	Cryptography	
CMSC457	Introduction to Quantum Computing	
CMSC460	Computational Methods	
CMSC466	Introduction to Numerical Analysis I	
Total Credits		24

1 Or acceptable score on the CMSC exemption exam.

2 Note: some of these classes variously have MATH240, MATH241 or PSYC100 as prerequisites.

Notes:

- Students who satisfy all three of CMSC132, CMSC216 and CMSC250 by exemption exam shall take one additional 400 level class from the approved list. This obligation is in addition to all other minor requirements.
- With prior permission of the Undergraduate Director, and at his/her discretion, at most one section (3 credits) of CMSC498, Independent Study, may substitute for one of the two core CS classes at the 400 level. This provision is intended to allow students to pursue unexpected opportunities for study of interdisciplinary topics having a substantial computational component complementing their major.
- Course combinations:
  - Students may not use more than one of CMSC460 or CMSC466 toward the minor.

Entomology

College of Computer, Mathematical, & Natural Sciences
4112 Plant Sciences Building
301-405-3911
umdentymology@umd.edu
www.entm.umd.edu (http://www.entm.umd.edu)

Research, teaching, and extension have been the backbone of the Department of Entomology for more than 100 years. Our faculty, students, and post-doctoral fellows remain committed to these three areas, in addition to outreach and public service. We maintain our historical focus on insects and their relatives, but the department's interests also span a diversity of subdisciplines, including ecology, aquatic biology, molecular and developmental biology, genetics, biological control of insects and weeds, systematics, evolutionary biology, integrated pest management, toxicology, and insect pathology.

Undergraduate students interested in Entomology should declare the General Biology specialization (GENB) within the Biological Sciences Program. (p. 292)Students should also contact the Entomology Director of Undergraduate Studies for information on pursuing a career in Entomology.

The Department of Entomology faculty coordinate and advise students in the following Biological Sciences Program area:

- Biological Sciences: General Biology (GENB) *Last names that begin with the letters A through M*

The requirements for the Biological Sciences major can be found here. (p. 294)

Programs

Majors

- Biological Sciences (p. 292) (General Biology-GENB) *Last names A-M*

Minors

- Paleobiology (https://www.geol.umd.edu/undergraduate/paleobiology.php) (shared jointly with the Geology department)

Advising

Advising is non-mandatory, but recommended in the Biological Sciences Program. The Department of Entomology faculty coordinate and advise students in the following areas:

- Biological Sciences major: General Biology (GENB) *Last names that begin with the letters A through M*
- Paleobiology minor: Shared jointly with the Geology department

Contact the Department of Entomology (301-405-3911) for information about advising or to determine the name of your advisor. To schedule an appointment with your advisor or the Entomology Director of Undergraduate Studies, click on the appropriate appointment link on the Entomology Undergraduate page (https://entomology.umd.edu/undergraduate.html).

For advising on other Biological Sciences Program specializations, see the Biological Sciences Major (p. 292) listing in this catalog.

Undergraduate students interested in Entomology should declare the General Biology specialization within the Biological Sciences Program. (p. 292) Students should also contact the Entomology Director of Undergraduate Studies for information on pursuing a career in Entomology.

Opportunities

Undergraduate Research Experiences

Students in the Biological Sciences Program can engage in research with Entomology faculty either in either departmental or off-campus facilities. Contact the Entomology Director of Undergraduate Students for more information.

Fieldwork Opportunities

Students in the Biological Sciences Program can engage in fieldwork related to either basic or applied research with Entomology faculty. Contact the Entomology Director of Undergraduate Studies for more information.

Honors Program

The Entomology Honors Program provides the opportunity for highly motivated and academically qualified undergraduates to engage in original, independent research under the guidance of an Entomology faculty mentor. The program is open to all Biological Science Program students who have

1. junior standing (including at least twelve credits within the major),
2. a minimum overall GPA and major courses GPA of 3.2, and
3. a Department of Entomology faculty member who has agreed to serve as their mentor.

Contact the Entomology Honors Director, Dr. William Lamp (lamp@umd.edu) for more information. Participants in the Entomology Honors Program are eligible for the Ernest N. Cory Undergraduate Scholarship.

Geology

College of Computer, Mathematical & Natural Sciences
1120 Geology Building
301-405-4082
www.geol.umd.edu (http://www.geol.umd.edu)

The mission of the Department of Geology is to provide high-quality undergraduate and graduate education; to achieve excellence in research; and, through outreach and service, to benefit society by effectively transmitting the products of research in geosciences.

Programs

Major

- Geology Major (p. 312)

Minors

- Earth History Minor (p. 311)
- Earth Material Properties Minor (p. 312)
- Geochemistry Minor (p. 312)
- Geophysics Minor (p. 315)
- Hydrology Minor (p. 315)
- Paleobiology Minor (GEOL) (p. 316)
- Planetary Sciences Minor (GEOL) (p. 317)
- Surficial Geology Minor (p. 317)

Opportunities

Undergraduate Research Experiences

The Professional, Secondary Education, and Geophysics tracks of the Geology major require students to complete a two-semester, six credit senior research thesis (GEOL393 and GEOL394), involving independent original geosciences research under the mentorship of a member of the faculty. Senior thesis students give presentations of proposals, progress, and final results to the entire department.

Combined bs/ms in geology

The Combined B.S./M.S. program is designed to permit a superior student to earn both the Bachelor's and the Master's degrees in as few as five years of study. Although designed to provide an integrated experience of undergraduate and graduate work, the combined B.S./M.S. program is not a course of study separate and distinct from the traditional B.S. and M.S. Students in the combined B.S./M.S. program will, at any given time, be either undergraduate or graduate students. The program provides the opportunity for a superior student to telescope these degrees by taking up to nine graduate credits (600-level or higher) while still an undergraduate and counting them toward both degrees. A grade of 'B' or better must be earned in each of these courses. Under optimal circumstances, one might complete both degrees in five years. Actual completion time will vary depending on one's individual circumstances. The master's thesis may be a continuation of work begun as part of the undergraduate senior thesis.

Acceptance into the combined B.S./M.S. normally would occur after the end of the sophomore year. The minimum requirements for acceptance into this program are identical to those for the geology honors program: an overall GPA of at least 3.0 at the end of the sophomore year and a GPA of 3.0 or better in all courses required for the major. Interested eligible students must provide the following material to be considered:

1. At least three letters of recommendation. At least one must be from a prospective graduate advisor, who must outline the applicant's sources of potential funding.

2. An essay or statement of purpose.
3. An interview with the Undergraduate Honors Director and the Graduate Director.

Based on this, students may be provisionally accepted into the program. Students so accepted will be permitted to enroll in appropriate graduate-level courses. The combined B.S./M.S. program allows 9 credits of graduate courses (600-level or above) to be counted towards both the B.S. and M.S. degrees. A grade of 'B' or better must be earned in each of these courses. Acceptance is provisional pending satisfaction of the following:

1. Completion of the undergraduate curriculum.
2. A GPA of 3.5 or better in GEOL393 and GEOL394.
3. Maintenance of a 3.0 overall GPA and a GPA of 3.0 or better in all courses required for the major.
4. Successful completion of the General GRE exam, usually taken during the fall term of the senior year.
5. Formal application and admission to the Graduate School. Your application for graduate admission is completely separate from your application to the combined B.S./M.S. Your participation in the combined BS/MS as an undergraduate does not give you priority over other graduate applicants.

Upon enrollment as a graduate student, the participant may designate the graduate courses that should be counted toward both degrees.

Honors Program

Admission to the Program will be by invitation of the Honors Committee, normally at the end of the sophomore year and normally will be extended to students with an overall GPA of 3.0 or better and a GPA of 3.0 or better in all courses required for the major.

Graduation with Honors normally requires completion of the curriculum, grades of B- and A- or better in GEOL393 and GEOL394 (i.e., grades for one semester must be at least an A-, and the second semester grade cannot fall below a B-), and maintenance of a 3.0 overall GPA and a GPA of 3.0 or better in all courses required for the major. Maintenance of a general GPA and GPA in geology major courses of 3.5 or above and a grade of A in both GEOL393 and GEOL394 will earn the distinction of Graduation with High Honors.

The curriculum for Honors in Geology follows the University Honors Program Track I: Thesis Option with a 15 credit minimum.

1. The requirement for upper division Honors courses will be met by a minimum of 9 hours as follows:
   a. GEOL497H and
   b. 6 credit hours from the following:
      i. a 3 credit hour graduate-level course approved by the Departmental Honors Committee
      ii. Honors Option project in a three or four credit hour upper-level course from the offerings in the Geology Department
      iii. no more than one Honors College seminar (3 credit hours) addressing a relevant topic in natural sciences. (Typically, this would include seminars offered by faculty in the College of Computer Mathematical and Natural Sciences). The Honors College seminar must be approved in advance by the departmental honors committee.

      The Honors Option Proposal must be approved by the departmental honors committee, the professor teaching the course and the Honors College. A proposal must be approved by the Department and submitted to the Honors College by the 10th day of class in the semester in which the course will be taken and the project completed.
2. The research and thesis requirement will be met by completion of GEOL393 and GEOL394 with grades meeting the criteria outlined above.

Student Societies and Professional Organizations

Sigma Gamma Epsilon, National Honor Society for Earth Sciences, and the Geology Club.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

- Washington Gems & Mineral Scholarship
- Green Scholarship in Environmental Science and Policy
- Marc Lipella Memorial Scholarship

Earth History Minor

Geology (GEOL)
1115 Geology Building
301-405-4365
www.geol.umd.edu (http://www.geol.umd.edu)

The undergraduate minor in Earth History recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of 'C-' or better must be earned in all courses required for the minor.

See www.geol.umd.edu (http://www.geol.umd.edu) for more information.

Requirements

Course	Title	Credits
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
GEOL102	Historical Geology	4
Select three of the following:		9-12
GEOL331	Principles of Paleontology	
GEOL341	Structural Geology	
GEOL342	Sedimentation and Stratigraphy	
GEOL436	Principles of Biogeochemistry	
GEOL437	Global Climate Change: Past and Present	

GEOL499	Special Problems in Geology	
Total Credits		17-20

Earth Material Properties Minor

Geology (GEOL)
1115 Geology Building
301-405-4365
www.geol.umd.edu (http://www.geol.umd.edu)

The undergraduate minor in Earth Material Properties recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of 'C-' or better must be earned in all courses required for the minor.

See www.geol.umd.edu (http://www.geol.umd.edu) for more information.

Requirements

Course	Title	Credits
Required		
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
GEOL322	Mineralogy	4
Select three of the following:		10-12
GEOL341	Structural Geology	
GEOL423	Optical Mineralogy	
GEOL443	Petrology	
GEOL445	High Temperature Geochemistry	
GEOL456	Engineering Geology	
or GEOL457	Seismology	
GEOL499	Special Problems in Geology

GEOL471	Geochemical Methods of Analysis	
GEOL499	Special Problems in Geology	
Total Credits		18-20

[1] If not used to satisfy requirement above

Geology Major

The Department of Geology offers three major tracks addressing key aspects of Geology - the science of Earth. In its broadest sense, geology focuses on the formation and subsequent modification of the planets, emphasizing planet Earth. Geologists study Earth's internal and surface structure and materials and the chemical and physical processes acting within and on it, using the principles of mathematics, physics, chemistry, and biology.

Geological sciences encompass all the physical, chemical, and biological aspects of Earth. Increasingly, geologists are taking a holistic approach in the collection and interpretation of data about Earth, which means that the wider context of the geological sciences is broad and diverse. In studying Earth as a system, geologists address geology and geophysics, hydrology, oceanography and marine science, atmospheric science, planetary science, and soil science. A major in any relevant discipline can lead to a satisfying career within the geological sciences. In general, graduate training is expected for advancement to the most rewarding positions and for academic employment.

Program Objectives

Geologists are employed by governmental, industrial, and academic organizations. They work in exploration for new mineral and energy resources, as consultants on engineering and environmental projects, as teachers and researchers in universities, and in many other challenging positions. For many, the attraction of a career in geology is the ability to divide time between work in the field, the laboratory, and the office. Although the employment outlook within geology varies with the global economic climate, the long-range outlook is good. This is because our dwindling energy, mineral, and water resources, along with increasing concerns about natural hazards and environmental issues, present new challenges for geologists.

Program Learning Outcomes

1. The Geology program at Maryland includes a broad range of undergraduate courses to accommodate both Geology majors and students in the Environmental Science and Policy program. Geology majors are required to complete a senior research theses project under the direction of a faculty advisor. This requirement provides invaluable training in key professional skills including writing of proposals and reports; gathering, analyzing and evaluating data; and delivering results in public presentations. In addition, a Departmental Honors Program and a combined B.S./M.S. Program are available to qualified students.

Requirements
Professional Track

The Geology Professional Track curriculum is designed to meet the requirements of industry, graduate school, and government. For the B.S. degree, students are required to complete departmental requirements, capstones, core discipline options, an elective (58 - 62 credits), and supporting requirements (16 credits) in addition to General Education Program requirements and the completion of at least 120 credits. The department requires that to receive a degree in Geology, students must have a grade of C- or better in all required geology courses, and an average of C- or better in supporting courses.

Courses required for the Professional Track B.S. in Geology are listed below. Some courses require field trips for which students are expected to pay for room (if required) and board. Field camp is taken during the summer at institutions other than the University of Maryland, College Park, that offer camps approved by the department.

Course	Title	Credits
Required Geology Courses		
GEOL100	Physical Geology	3
or GEOL120	Environmental Geology	
GEOL110	Physical Geology Laboratory	1
GEOL102	Historical Geology	4
GEOL322	Mineralogy	4
GEOL341	Structural Geology	4
GEOL342	Sedimentation and Stratigraphy	4
GEOL423	Optical Mineralogy	4
GEOL443	Petrology	4
Geology Capstones		
GEOL393	Geology Senior Thesis I: Proposal	3
GEOL394	Geology Senior Thesis II: Research	3
GEOL490	Geology Field Camp	6
Geologic Core Discipline Options [1]		
Select one of the following Quantitative Reasoning courses:		3
GEOL351	Statistics for Geoscientists	
GEOL447	Observational Geophysics	
GEOL489	Special Topics (GEOL489G-Geosciences Modeling)	
Select one of the following Surface Processes courses:		3-4
GEOL340	Geomorphology	
GEOL451	Groundwater	
Select one of the following Geophysics courses:		3
GEOL412	Geology of the Terrestrial Planets	
GEOL446	Geophysics	
GEOL455	Marine Geophysics	
GEOL457	Seismology	
Select one of the following Geochemistry courses:		3-4
GEOL444	Low Temperature Geochemistry	
GEOL445	High Temperature Geochemistry	
GEOL463	Economic Geology	
Select one of the following Geobiology courses:		3-4
GEOL331	Principles of Paleontology	
GEOL435	Environmental Geochemistry	
GEOL436	Principles of Biogeochemistry	
GEOL437	Global Climate Change: Past and Present	
Geology Elective		
Select any 3-4 credit 300 – 400 level GEOL course not taken to satisfy the above requirements [1]		3-4
Supporting Courses		
CHEM131	Chemistry I - Fundamentals of General Chemistry	
or CHEM135	General Chemistry for Engineers	
CHEM132	General Chemistry I Laboratory	
or CHEM136	General Chemistry Laboratory for Engineers	
MATH140	Calculus I	4
MATH141	Calculus II	4
Select one of the following:		4
PHYS161 & PHYS174	General Physics: Mechanics and Particle Dynamics and Physics Laboratory Introduction	
PHYS171 & PHYS174	Introductory Physics: Mechanics and Relativity and Physics Laboratory Introduction	
Total Credits		70-74

[1] Or appropriate substitution with the approval of the department

Matriculated Geology majors are expected to take all courses on campus unless specific departmental permission is given.

Secondary Education Track

The Geology Secondary Education Track leads to a B. S. degree in Geology with special emphasis on course work that prepares the student for teaching at the secondary school level in a manner consistent with the UTeach Initiative and Common Core standards. Further coursework in Education (including student teaching) will be required in order to obtain Maryland State Teaching Certification. This track also prepares students for work as a geologists in government or industry, or for graduate study, although students primarily intending to attend graduate school in geology are advised to choose the Professional Track. Students seeking professional opportunities in secondary education are urged, also, to consult with advisors in the College of Education.

Compared to the Geology Professional Track, the Secondary Education Track, reduces by three the number of upper-level geology requirements, and adds eight credits of education courses along with requirements for an atmospheric and oceanic science and an astronomy course. To receive a degree in Geology, students must earn a grade of C- or better in required geology courses, and a C- average or better in supporting courses.

Course	Title	Credits
Geology Courses		
GEOL100	Physical Geology	3
or GEOL120	Environmental Geology	
GEOL102	Historical Geology	4
GEOL322	Mineralogy	4
GEOL341	Structural Geology	4
GEOL342	Sedimentation and Stratigraphy	4

GEOL394	Geology Senior Thesis II: Research	3
GEOL423	Optical Mineralogy	4
GEOL443	Petrology	4
GEOL490	Geology Field Camp	6
Select two of the following:		6-8
GEOL212	Planetary Geology	
GEOL331	Principles of Paleontology	
GEOL340	Geomorphology	
GEOL/ AOSC375	Introduction to the Blue Ocean	
GEOL444	Low Temperature Geochemistry	
GEOL445	High Temperature Geochemistry	
GEOL446	Geophysics	
GEOL451	Groundwater	
Supporting Courses		
ASTR100	Introduction to Astronomy	3-4
or ASTR101	General Astronomy	
AOSC123	Causes and Implications of Global Change	3
or AOSC200	Weather and Climate	
CHEM131	Chemistry I - Fundamentals of General Chemistry	3
or CHEM135	General Chemistry for Engineers	
CHEM132	General Chemistry I Laboratory	1
or CHEM136	General Chemistry Laboratory for Engineers	
MATH140	Calculus I	4
MATH141	Calculus II	4
Select one of the following:		4
PHYS161 & PHYS174	General Physics: Mechanics and Particle Dynamics and Physics Laboratory Introduction	
PHYS171 & PHYS174	Introductory Physics: Mechanics and Relativity and Physics Laboratory Introduction	
Introductory Teaching Seminars		
TLPL101	Inquiry Approach to Teaching STEM (Step 1)	1
TLPL102	Inquiry Teaching of STEM in Middle School	2
Education Courses		
Select six credits of the following:		6
EDCI488M - Knowing and Learning		
EDCI488P - Project Based Instruction		
Classroom Interactions		
Reading		
Perspectives Science and Math		
Total Credits		76-79

Geophysics Track

The geophysics curriculum is designed to meet the requirements of industry, graduate school, and government. The B.S. degree requires students to complete introductory geology and physics requirements (39 credits) and upper-level requirements including depth options, context options, and breadth options (30 - 35 credits) in addition to the General Education Program requirements and the completion of at least 120 credits in total. In order to receive a degree in Geophysics, the department requires that students must have a grade of C- or better in the required geology courses.

Courses required for the B.S. in Geology are listed below. Some courses require field trips for which the students are expected to pay for room (if required) and board.

Course	Title	Credits
Required Introductory Physics and Geology		
GEOL100	Physical Geology	3
or GEOL120	Environmental Geology	
GEOL110	Physical Geology Laboratory	1
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III	4
PHYS161	General Physics: Mechanics and Particle Dynamics	3
or PHYS171	Introductory Physics: Mechanics and Relativity	
PHYS165	Introduction to Programming in the Physical Sciences	3
PHYS174	Physics Laboratory Introduction	1
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
PHYS275	Experimental Physics I: Mechanics and Heat	2
PHYS276	Experimental Physics II: Electricity and Magnetism	2
Select one of the following:		6
PHYS274 & GEOL351	Mathematical Methods for Physics I and Statistics for Geoscientists	
MATH240 & MATH246	Introduction to Linear Algebra and Differential Equations for Scientists and Engineers	
Geophysics Upper Level Requirements		
GEOL393	Geology Senior Thesis I: Proposal	3
GEOL394	Geology Senior Thesis II: Research	3
GEOL446	Geophysics	3
Depth Requirements		
Select three of the following:		9
GEOL412	Geology of the Terrestrial Planets	
GEOL447	Observational Geophysics	
GEOL455	Marine Geophysics	
GEOL456	Engineering Geology	
GEOL457	Seismology	
GEOL460	Field Geophysics	
Context Requirement		
Select two of the following:		6-8
AOSC400	Physical Meteorology of the Atmosphere	
AOSC424	Remote Sensing of the Atmosphere and Ocean	

AOSC431	Atmospheric Thermodynamics
AOSC432	Dynamics of the Atmosphere and Ocean
GEOL322	Mineralogy
GEOL340	Geomorphology
GEOL341	Structural Geology
GEOL342	Sedimentation and Stratigraphy
GEOL423	Optical Mineralogy
GEOL443	Petrology
GEOL451	Groundwater
GEOL463	Economic Geology
GEOL472	Tectonics

Breadth Requirement		
Select two of the following:		6-8
PHYS371	Modern Physics	
PHYS373	Mathematical Methods for Physics II	
PHYS401	Quantum Physics I	
PHYS402	Quantum Physics II	
PHYS410	Classical Mechanics	
PHYS411	Intermediate Electricity and Magnetism	
Recommended Courses		
Select one of the following:		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
CHEM135 & CHEM136	General Chemistry for Engineers and General Chemistry Laboratory for Engineers	
Total Credits		69-73

Matriculated Geology majors are expected to take all courses on campus unless specific departmental permission is given.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

Geophysics Minor

Geology (GEOL)
1115 Geology Building
301-405-4365
www.geol.umd.edu (http://www.geol.umd.edu)

The undergraduate minor in Geophysics recognizes concentrated study in this designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director. A grade of 'C-' or better must be earned in all courses required for the minor.

See www.geol.umd.edu (http://www.geol.umd.edu) for more information.

Requirements

Depending on the courses taken, there are a total of 16-17 credits required for the minor in Geophysics (also see prerequisites.)

Course	Title	Credits
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Select two of the following:		6
GEOL446	Geophysics	
GEOL447	Observational Geophysics	
GEOL457	Seismology	
Select two of the following:		6-7
GEOL341	Structural Geology	
GEOL412	Geology of the Terrestrial Planets	
GEOL446	Geophysics [1]	
GEOL447	Observational Geophysics [1]	
GEOL455	Marine Geophysics	
GEOL456	Engineering Geology	
GEOL457	Seismology [1]	
GEOL499	Special Problems in Geology	
Total Credits		16-17

[1] If not used to satisfy requirement above

Hydrology Minor

Geology (GEOL)
1115 Geology Building
301-405-4365
www.geol.umd.edu (http://www.geol.umd.edu)

An undergraduate minor in Hydrology recognizes concentrated study in a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and is administered by the Geology Undergraduate Studies Director.

A grade of 'C-' or better must be earned in all courses required for the minor.

See www.geol.umd.edu (http://www.geol.umd.edu) for more information.

Requirements

Course	Title	Credits
Minor Requirements		
Select one of the following:		4

GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
GEOL451	Groundwater	3
GEOL452	Watershed and Wetland Hydrology	3
Select two of the following:		6-7
GEOL436	Principles of Biogeochemistry	
GEOL444	Low Temperature Geochemistry	
GEOL453	Ecosystem Restoration	
or GEOL435	Environmental Geochemistry	
GEOL499	Special Problems in Geology	
Total Credits		16-17

Paleobiology Minor (GEOL)

The minor in Paleobiology will provide students with a broad understanding of the application of the methods of biology and geology to the study of the history of life, and develop students' appreciation of how issues in the study of paleobiology connect with larger trends in those sciences. It is intended for all students with an interest in the study of the history of life, be it professional or avocational.

Requirements

Depending on optional course(s) taken, a total of 21 – 24 credits are required (see prerequisites (p. 316)). All courses presented for the minor must be passed with a grade of C- or better.

Course	Title	Credits
Fundamental Courses		
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	4
One of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Introductory Life History or Organismal Biology		
One of the following:		3-4
GEOL102	Historical Geology	
GEOL104	Dinosaurs: A Natural History	
GEOL204	Dinosaurs, Early Humans, Ancestors, and Evolution; The Fossil Record of Vanished Worlds of the Prehistoric Past	
BSCI207	Principles of Biology III - Organismal Biology	
BSCI222	Principles of Genetics	
Upper-Level Paleobiology		
One of the following:		4
BSCI333/ GEOL331	Principles of Paleontology	
BSCI392 & BSCI393	Biology of Extinct Animals and Biology of Extinct Animals Laboratory	
Electives		
Two courses (one from Biology and one from Geology) selected from the following:		6-8
BSCI333/ GEOL331	Principles of Paleontology (if not taken to satisfy the requirement above)	
BSCI334	Mammalogy	
BSCI361	Principles of Ecology	
BSCI363	The Biology of Conservation and Extinction	
BSCI392 & BSCI393	Biology of Extinct Animals and Biology of Extinct Animals Laboratory (if not taken to satisfy the requirement above)	
BSCI370	Principles of Evolution	
BSCI399	Biology Department Research [1]	
GEOL342	Sedimentation and Stratigraphy	
GEOL431	Vertebrate Paleobiology	
GEOL436	Principles of Biogeochemistry	
GEOL437	Global Climate Change: Past and Present	
GEOL499	Special Problems in Geology	
Or another appropriate biology or geology course approved in advance by the Entomology or Geology advisor		
Total Credits		21-24

[1] The Paleobiology Minor requires 3 cumulative credits of BSCI399 to count as elective. Research topic must be approved by GEOL or ENTM advisor.

Prerequisites

Required Courses

The following required courses have prerequisites (as indicated in the course description):

- BSCI207 Principles of Biology III - Organismal Biology
- BSCI222 Principles of Genetics
- GEOL102 Historical Geology
- BSCI333 Principles of Paleontology or GEOL331 (cross-listed)
- BSCI392 Biology of Extinct Animals and BSCI393 (lab)

Of these, only BSCI207 and BSCI222 have supporting prerequisites not already required for the minor.

Optional Courses

The following optional courses have prerequisites (as indicated in the course description):

- BSCI333 Principles of Paleontology or GEOL331 (cross-listed)
- BSCI334 Mammalogy
- BSCI361 Principles of Ecology
- BSCI363 The Biology of Conservation and Extinction
- BSCI392 Biology of Extinct Animals and BSCI393 (lab)
- BSCI370 Principles of Evolution
- GEOL342 Sedimentation and Stratigraphy
- GEOL431 Vertebrate Paleobiology
- GEOL436 Principles of Biogeochemistry
- GEOL437 Global Climate Change: Past and Present

Of these, only BSCI334, BSCI361, GEOL342, GEOL436, and GEOL437 have supporting prerequisites not already required for the minor.

Planetary Sciences Minor (GEOL)

The minor in Planetary Sciences will provide students with a broad understanding of the application of the methods of astronomy and geology to the study of the Solar System, and develop the students' appreciation of how issues in the study of planets connect with larger issues in those sciences. It is intended for all students with an interest in the study of the Solar System, be it professional or avocational. In addition to Astronomy and Geology majors, it dovetails with the professional goals of Environmental Science and Policy, Environmental Science and Technology, Chemistry, Physics, Physical Sciences, and Secondary Education majors.

Building on a three-course base of fundamental knowledge of astronomy, geology and an introduction to the Solar System, the program is completed by three advanced courses addressing specific topics adding depth to the student's knowledge of planetary astronomy and to the geologic tools of the planetary scientist. Students are required to sample from optional courses from both departments. The Joint Minor in Planetary Sciences does not require significant prerequisite knowledge, however some optional courses may require prerequisites of 100-level courses in chemistry, mathematics, or geology.

An appointment must be made to register for the minor before final 30 credits are taken. Please visit http://www.astro.umd.edu/undergrad/minorPlanSci.html for complete rules and procedures and contact the department with any questions.

Requirements

The minor will require 19-22 credits:

Course	Title	Credits
Required		
Select one of the following: [1]		3-4
ASTR100	Introduction to Astronomy	
ASTR101	General Astronomy	
ASTR120	Introductory Astrophysics - Solar System	
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
Select one of the following:		3
ASTR330	Solar System Astronomy	
ASTR430	The Solar System	
GEOL212	Planetary Geology	
Select three from the following: [2]		9-11
ASTR220	Collisions in Space - The Threat of Asteroid Impacts	
ASTR230	The Science and Fiction of Planetary Systems	
ASTR380	Life in the Universe - Astrobiology	
ASTR498	Special Problems in Astronomy	
GEOL322	Mineralogy	
GEOL340	Geomorphology	
GEOL412	Geology of the Terrestrial Planets	
GEOL437	Global Climate Change: Past and Present	
GEOL499	Special Problems in Geology	
ASTR/GEOL	Another appropriate astronomy or geology course approved in advance by the Astronomy or Geology advisor	
Total Credits		19-22

1 Or equivalent transfer course(s).

2 At least one choice must be from Geology and one from Astronomy. At least six credits from this list and nine credits overall must be at the 300-400 level.

Surficial Geology Minor

This undergraduate minor recognizes concentrated study in Surficial Geology, a designated field in the College of Computer, Mathematical, and Natural Sciences. The award of a minor will be noted on the student's transcript at the time of graduation.

This minor may be earned by students not majoring in Geology and are administered by the Geology Undergraduate Studies Director. A grade of 'C-' or better must be earned in all courses required for the minor.

Requirements

Course	Title	Credits
Select one of the following:		4
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory	
GEOL120 & GEOL110	Environmental Geology and Physical Geology Laboratory	
GEOL123	Causes and Consequences of Global Change	3
GEOL340	Geomorphology	4
Select two of the following:		6-8
GEOL331	Principles of Paleontology	
GEOL342	Sedimentation and Stratigraphy	
GEOL435	Environmental Geochemistry	
GEOL437	Global Climate Change: Past and Present	
GEOL444	Low Temperature Geochemistry	
GEOL451	Groundwater	
or GEOL452	Watershed and Wetland Hydrology	
GEOL499	Special Problems in Geology	
Total Credits		17-19

Mathematics

College of Computer, Mathematical, & Natural Sciences

4176 Campus Drive
William E. Kirwan Hall
MTH1117
301-405-5053
math-ugadvisor@umd.edu
www-math.umd.edu (http://www-math.umd.edu)

The Department of Mathematics educates its majors in a broad range of modern mathematics while instilling in them a strong ability to solve problems, apply mathematics to other areas, and create rigorous mathematical arguments. The program prepares the majors to further their mathematical education in graduate school, or to teach at the secondary school level, or to work in government or business.

Programs

Major

- Mathematics Major (p. 319)

Minors

- Actuarial Mathematics Minor (p. 318)
- Mathematics Minor (p. 325)
- Statistics Minor (p. 325)

Opportunities

Undergraduate Research Experiences

There are a variety of undergraduate research opportunities in mathematics at Maryland. For detailed information, see http://www-math.umd.edu/undergraduate/opportunities.html?id=102 (http://www-math.umd.edu/undergraduate/opportunities.html?id=102/)

Combined B.S./M.A. Program in Mathematics

The Department of Mathematics offers a combined B.S./M.A. degree program for students with exceptional ability and interest in mathematics. Students enrolled in the Combined Degree Program may count up to 9 credits of coursework taken for their undergraduate degree toward the M.A. degree as well. For further information, please see the Mathematics Department webpage: https://www-math.umd.edu/undergraduate/math-majors.html?id=165 (https://www-math.umd.edu/undergraduate/math-majors.html?id=165/)

Honors Program

The Mathematics Honors Program is designed for students showing exceptional ability and interest in mathematics. Its aim is to give a student the best possible mathematics education. A precise statement of the requirements may be found at http://www-math.umd.edu/departmental-honors.html

The department also offers a special department honors sequence, MATH340-MATH341, for promising freshmen with a strong mathematical background (including calculus). Participants in the Honors College may also enroll in special honors sections of the lower-level mathematics courses (MATH140H, MATH141H, MATH241H, MATH246H). Students in MATH340-MATH341 and the special honors sections need not be Math majors.

The Mathematics departmental honors sequence and the Honors College program are distinct, and enrollment in one does not imply acceptance in the other.

Student Societies and Professional Organizations

There are several student-run groups within the department: the Math Club, Pi Mu Epsilon, the Actuarial Club, and Women in Math.

- Math Club: http://mathclub.math.umd.edu/
- Pi Mu Epsilon: http://www.math.umd.edu/pme/index.html (http://www.math.umd.edu/pme/)
- Actuarial Math Club: http://actuarial.math.umd.edu/
- Women in Math: http://wim.math.umd.edu/

Awards and Recognition

Aaron Strauss Scholarships: One is awarded each spring to an outstanding non-graduating math major. The recipient receives full remission of (in-state) tuition for the following academic year. Applications may be obtained early in the previous spring semester from the Mathematics Undergraduate Office, 1117 Mathematics Building.

Aziz Mathematics Scholarship: The Aziz scholarship is the department's highest award of mathematical excellence for a non-graduating math major. When eligible, the recipient receives a monetary award to cover in-state tuition in the following academic year.

Dan Shanks Award: This award is for an undergraduate student studying computational number theory and related areas, based on merit.

Dan Sweet Scholarship: A one-semester stipend awarded to a math major on the basis of merit.

Higginbotham Prize: A monetary award is made to an outstanding junior math major in the spring.

John and Sabrina Konter Endowed Scholarship: This is an award for an undergraduate math major with an interest in applications to real world problems in business and industry. Take or plan to take probability and statistics and at least 12 credits hours in one or more: economics, business, physics or computer science.

Milton Abramowitz Award: A monetary award is made to an outstanding junior or senior Math major in the spring.

Outstanding Senior Award: A monetary award is made to the outstanding graduating Math major.

Strauss Teaching Assistantship: This is an opportunity for outstanding Math majors to work as an undergraduate TA. Apply in the spring for the following year.

For further information on awards, see http://www-math.umd.edu/undergraduate/math-majors.html?id=166 (http://www-math.umd.edu/undergraduate/math-majors.html?id=166/).

Advising

Advising for Math majors is mandatory. Students are required to sign up for an advising appointment online, beginning the week before early registration. Students who have been away more than two years may find that due to curriculum changes, the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the Department Advisor to make appropriate plans.

Actuarial Mathematics Minor

Mathematics (MATH)
1117 Mathematics Building
301-405-5053
www-math.umd.edu (http://www-math.umd.edu)

The Department of Mathematics offers a minor in Actuarial Mathematics for students whose majors are not mathematics. The goal of the minor in Actuarial Mathematics is to provide the student with an introduction to

statistics in general and actuarial mathematics in particular. This minor is closely related to the minor in Statistics, but its focus is on actuarial mathematics.

The departmental advisor for this program is Ida Chan, Undergraduate Mathematics Advisor (ichan@umd.edu (ichan@math.umd.edu)).

Requirements

16 credits are required for the minor as outlined below:

Course	Title	Credits
MATH241	Calculus III	4
or MATH340	Multivariable Calculus, Linear Algebra and Differential Equations I (Honors)	
Select one of the following pairs of courses:		
STAT400 & STAT401	Applied Probability and Statistics I and Applied Probability and Statistics II	6
OR		
STAT410 & STAT420	Introduction to Probability Theory and Theory and Methods of Statistics	6
OR		
STAT410 & STAT401	Introduction to Probability Theory and Applied Probability and Statistics II	6
MATH461	Linear Algebra for Scientists and Engineers	3-4
or MATH240	Introduction to Linear Algebra	
or MATH341	Multivariable Calculus, Linear Algebra, Differential Equations II (Honors)	
STAT470	Actuarial Mathematics	3
Recommended		
MATH424	Introduction to the Mathematics of Finance	
STAT430	Introduction to Statistical Computing with SAS	

Other issues related to coursework:

- The minor in Actuarial Mathematics is NOT open to Mathematics majors.
- The student will need to achieve at least a 'C-' (1.7) in each minor course and an overall minor GPA of 2.0.
- A student may use a maximum of 2 courses to satisfy the requirements of both a major and a minor in Actuarial Mathematics.
- No more than two of the courses for the minor in Actuarial Mathematics may be taken at an institution other than the University of Maryland, College Park. In addition, only one of the upper-level courses for the minor may be taken at an institution other than the University of Maryland, College Park.

Mathematics Major

The program in Mathematics leads to a degree of Bachelor of Science in Mathematics and offers students training in preparation for graduate work, teaching, and positions in government or industry. Mathematical training is integrated with computer use in several courses. Because a strong mathematical background is important in many fields, over half of UMCP Mathematics majors are double majors. Additional information on these topics and mathematics is available from the departmental website.

PLACEMENT IN COURSES

The Department of Mathematics has a large offering to accommodate a great variety of background, interests, and abilities. The department permits students to take any course for which they have the appropriate background, regardless of formal course work. For example, students with a high school calculus course may be permitted to begin in the middle of the calculus sequence even if they do not have advanced standing. Students may obtain undergraduate credit for mathematics courses in any of the following ways: passing the appropriate CEEB Advanced Placement Examination, passing standardized CLEP examinations, and through the department's Credit-by-Examination. Students are urged to consult with advisors from the Department of Mathematics to assist with proper placements.

Program Objectives

The Department of Mathematics educates its majors in a broad range of modern mathematics while instilling in them a strong ability to solve problems, apply mathematics to other areas, and create rigorous mathematical arguments. The program prepares the majors to further their mathematical education in graduate school, or to teach at the secondary school level, or to work in government or business.

Program Learning Outcomes

1. Students will acquire problem-solving skills in a broad range of significant mathematics.
2. Students will gain an understanding of what constitutes mathematical thinking, including the ability to produce and judge the validity of rigorous mathematical arguments.
3. Students will be able to communicate mathematical ideas and arguments.
4. Students will be prepared to use mathematics in their future endeavors, not only in the discipline of mathematics, but also in other disciplines.

Statistics and Probability and Applied Mathematics

Courses in statistics and probability, and applied mathematics are offered by the Department of Mathematics. These courses are open to non-majors as well as majors, and carry credit in mathematics. Students wishing to concentrate in the above may do so by choosing an appropriate program under the Department of Mathematics.

Requirements

There are four tracks for the major: the traditional track, the applied mathematics track, the secondary education track, and the statistics track. The secondary education track is for students seeking to become certified to teach mathematics at the secondary level. Each mathematics major must complete each required course with a grade of C- or better and with an overall major GPA of 2.0.

Traditional Track

Course	Title	Credits
Introductory Sequence [1]		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4

MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
Select one of the following:		3
MATH246	Differential Equations for Scientists and Engineers	
MATH436	Differential Geometry of Curves and Surfaces I	
MATH462	Partial Differential Equations	
MATH/AMSC/STAT Courses		
Select eight courses of 400-level or higher; must include: [2]		
MATH410	Advanced Calculus I	3
Select one of the following:		3
MATH401	Applications of Linear Algebra	
MATH403	Introduction to Abstract Algebra	
MATH405	Linear Algebra	
Select one of the following:		3
AMSC460	Computational Methods	
AMSC466	Introduction to Numerical Analysis I	
Any 400-level STAT course other than STAT464		3
Select depth requirement; a one year sequence chosen from the following:		3-6
MATH410 & MATH411	Advanced Calculus I and Advanced Calculus II	
MATH403 & MATH404	Introduction to Abstract Algebra and Field Theory	
MATH403 & MATH405	Introduction to Abstract Algebra and Linear Algebra	
STAT410 & STAT420	Introduction to Probability Theory and Theory and Methods of Statistics	
Select electives: 400-level MATH/AMSC/STAT course [3, 4]		6-9
Computer Programming Requirement		
Select one of the following: [5]		3-4
CMSC106	Introduction to C Programming	
CMSC131	Object-Oriented Programming I	
CMSC132	Object-Oriented Programming II	
ENAE202	Computing Fundamentals for Engineers	
ENEE150	Intermediate Programming Concepts for Engineers	
PHYS165	Introduction to Programming in the Physical Sciences	
Supporting three-course sequence [6]		
Select one of eight sequences		9-13
Sequence One (11 credits)		
PHYS161	General Physics: Mechanics and Particle Dynamics	
PHYS260 & PHYS261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism and General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	
PHYS270 & PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics and General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory)	
Sequence Two (9 credits)		
PHYS171	Introductory Physics: Mechanics and Relativity	
PHYS272	Introductory Physics: Fields	
PHYS273	Introductory Physics: Waves	
Sequence Three (9 credits)		
ENES102	Mechanics I	
PHYS161	General Physics: Mechanics and Particle Dynamics	
ENES220	Mechanics II	
Sequence Four (12 credits)		
CMSC132	Object-Oriented Programming II	
CMSC216	Introduction to Computer Systems	
CMSC250	Discrete Structures	
Sequence Five (13 credits)		
CHEM146 & CHEM177	Principles of General Chemistry and Introduction to Laboratory Practices and Research in the Chemical Sciences	
CHEM237	Principles of Organic Chemistry I	
CHEM247	Principles of Organic Chemistry II	
Sequence Six (12 credits)		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	
Sequence Seven (11 credits)		
ECON200	Principles of Microeconomics	
ECON201	Principles of Macroeconomics	
ECON305	Intermediate Macroeconomic Theory and Policy	
or ECON306	Intermediate Microeconomic Theory & Policy	
OR		
ECON325	Intermediate Macroeconomic Analysis	
or ECON326	Intermediate Microeconomic Analysis	
Sequence Eight (9 credits)		
BMGT220	Principles of Accounting I	
BMGT221	Principles of Accounting II	
BMGT340	Business Finance	
Total Credits		55-66

1. Or honors sequence: MATH340-MATH341.Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-MATH341 satisfies the requirement for MATH240-MATH241-MATH246.
2. At least four courses must be taken at College Park.
3. 400 level courses. Students with a strong interest in applied mathematics may, with the approval of the Undergraduate Office, substitute two courses (with strong mathematics content) from outside the Mathematics Department for one upper-level elective course.
4. May not include: MATH461, MATH478, MATH480-MATH484, STAT464
5. A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience.
6. Intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas, comparable to the sequences on this list.)

Applied Mathematics Track

Course	Title	Credits
Introductory Sequence [1]		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
Select one of the following:		3
MATH246	Differential Equations for Scientists and Engineers	
MATH436	Differential Geometry of Curves and Surfaces I	
MATH462	Partial Differential Equations	
MATH/AMSC/STAT Courses		
Select eight 400-level or higher; must include: [2]		
MATH410	Advanced Calculus I	3
STAT410	Introduction to Probability Theory	3
STAT4XX	One additional STAT course other than STAT400, STAT410, STAT464	3
MATH401	Applications of Linear Algebra	3
or MATH405	Linear Algebra	
AMSC460	Computational Methods	3
or AMSC466	Introduction to Numerical Analysis I	
Select one of the following:		3
MATH416	Applied Harmonic Analysis: An Introduction to Signal Processing	
MATH420	Mathematical Modeling	
MATH424	Introduction to the Mathematics of Finance	
MATH431	Geometry for Computer Applications	
MATH452	Introduction to Dynamics and Chaos	
MATH456	Cryptography	
MATH462	Partial Differential Equations	
MATH463	Complex Variables	
MATH464	Transform Methods for Scientists and Engineers	
MATH475	Combinatorics and Graph Theory	
Select depth requirement; a one year sequence chosen from the following:		3
MATH410 & MATH411	Advanced Calculus I and Advanced Calculus II	
MATH416 & MATH464	Applied Harmonic Analysis: An Introduction to Signal Processing and Transform Methods for Scientists and Engineers	
MATH462 & MATH463	Partial Differential Equations and Complex Variables	
STAT410 & STAT420	Introduction to Probability Theory and Theory and Methods of Statistics	
Select electives: 400-level MATH/AMSC/STAT course [3]		
Computer Programming Requirement		
Select one of the following: [4]		
CMSC106	Introduction to C Programming	
CMSC131	Object-Oriented Programming I	
CMSC132	Object-Oriented Programming II	
ENAE202	Computing Fundamentals for Engineers	
ENEE150	Intermediate Programming Concepts for Engineers	
PHYS165	Introduction to Programming in the Physical Sciences	
Supporting Three-course Sequence [5]		
Select one of twelve sequences		9-13
Sequence One (11 credits)		
PHYS161	General Physics: Mechanics and Particle Dynamics	
PHYS260 & PHYS261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism and General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	
PHYS270 & PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics and General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory)	
Sequence Two (9 credits)		
PHYS171	Introductory Physics: Mechanics and Relativity	
PHYS272	Introductory Physics: Fields	
PHYS273	Introductory Physics: Waves	
Sequence Three (9 credits)		
ENES102	Mechanics I	
PHYS161	General Physics: Mechanics and Particle Dynamics	
ENES220	Mechanics II	
Sequence Four (12 credits)		
CMSC132	Object-Oriented Programming II	
CMSC216	Introduction to Computer Systems	
CMSC250	Discrete Structures	
Sequence Five (13 credits)		
CHEM146 & CHEM177	Principles of General Chemistry and Introduction to Laboratory Practices and Research in the Chemical Sciences	
CHEM237	Principles of Organic Chemistry I	
CHEM247	Principles of Organic Chemistry II	
Sequence Six (12 credits)		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II	
Sequence Seven (11 credits)		
ECON200	Principles of Microeconomics	
ECON201	Principles of Macroeconomics	
ECON305	Intermediate Macroeconomic Theory and Policy	
or ECON306	Intermediate Microeconomic Theory & Policy	
OR		
ECON325	Intermediate Macroeconomic Analysis	
or ECON326	Intermediate Microeconomic Analysis	
Sequence Eight (9 credits)		
BMGT220	Principles of Accounting I	
BMGT221	Principles of Accounting II	
BMGT340	Business Finance	

Sequence Nine (12-13 credits)		
BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory	
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab	
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
OR		
CHEM146 & CHEM177	Principles of General Chemistry and Introduction to Laboratory Practices and Research in the Chemical Sciences	
Sequence Ten (10 credits)		
ASTR120	Introductory Astrophysics - Solar System	
ASTR121	Introductory Astrophysics II - Stars and Beyond	
PHYS161	General Physics: Mechanics and Particle Dynamics	
or PHYS171	Introductory Physics: Mechanics and Relativity	
Sequence Eleven (12 credits)		
GEOL100	Physical Geology	
Select Two From:		
GEOL322	Mineralogy	
GEOL340	Geomorphology	
GEOL341	Structural Geology	
GEOL375	Introduction to the Blue Ocean	
Sequence Twelve (10 credits)		
AOSC200 & AOSC201	Weather and Climate and Weather and Climate Laboratory	
Two additional 400-level AOSC courses		
Total Credits		52-56

1. Or honors sequence: MATH340-MATH341.Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-MATH341 satisfies the requirement for MATH240-MATH241-MATH246.
2. At least four courses must be taken at College Park.
3. 400 level courses. May not include: MATH461, MATH478, MATH480-MATH484, STAT464
4. A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience.
5. Intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas, comparable to the sequences on this list.

Secondary Education Track

Course	Title	Credits
Introductory Sequence [1]		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3
Select one of the following:		3-4
MATH246	Differential Equations for Scientists and Engineers	
MATH341	Multivariable Calculus, Linear Algebra, Differential Equations II (Honors)	
MATH401	Applications of Linear Algebra	
MATH420	Mathematical Modeling	
MATH452	Introduction to Dynamics and Chaos	
MATH462	Partial Differential Equations	
AMSC460	Computational Methods	
AMSC466	Introduction to Numerical Analysis I	
MATH/AMSC/STAT Courses [2]		
Select seven courses at the 400-level or higher, must include:		
MATH410	Advanced Calculus I	3
MATH430	Euclidean and Non-Euclidean Geometries	3
MATH402	Algebraic Structures	3
or MATH403	Introduction to Abstract Algebra	
STAT400	Applied Probability and Statistics I	3
or STAT410	Introduction to Probability Theory	
Select one of the following:		3
MATH406	Introduction to Number Theory	
MATH445	Elementary Mathematical Logic	
MATH446	Axiomatic Set Theory	
MATH456	Cryptography	
MATH475	Combinatorics and Graph Theory	
Select electives: 400-level MATH/AMSC/STAT course [3]		
Computer Programming Requirement		
Select one of the following: [4]		3-4
CMSC106	Introduction to C Programming	
CMSC131	Object-Oriented Programming I	
CMSC132	Object-Oriented Programming II	
ENAE202	Computing Fundamentals for Engineers	
ENEE150	Intermediate Programming Concepts for Engineers	
PHYS165	Introduction to Programming in the Physical Sciences	
Education Requirements [5]		
EDCI450	Internship Seminar in Secondary Education: Mathematics	1
EDCI451		12
Supporting Sequence [6]		
Select one of six sequences		7-8
Sequence One (8 credits)		
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory	
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I	
Sequence Two (7 credits)		
PHYS161	General Physics: Mechanics and Particle Dynamics	
PHYS260 & PHYS261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism and General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	
Sequence Three (8 credits)		

BSCI170 & BSCI171	Principles of Molecular & Cellular Biology and Principles of Molecular & Cellular Biology Laboratory
BSCI160 & BSCI161	Principles of Ecology and Evolution and Principles of Ecology and Evolution Lab
Sequence Four (7 credits)	
ASTR120	Introductory Astrophysics - Solar System
ASTR121	Introductory Astrophysics II - Stars and Beyond
Sequence Five (7-8 credits)	
GEOL100 & GEOL110	Physical Geology and Physical Geology Laboratory
GEOL322	Mineralogy
or GEOL340	Geomorphology
or GEOL341	Structural Geology
or GEOL375	Introduction to the Blue Ocean
Sequence Six (7 credits)	
AOSC200 & AOSC201	Weather and Climate and Weather and Climate Laboratory
AOSC4xx Any 400 level AOSC course	
Total Credits	60-63

1 Or honors sequence: MATH340-MATH341.Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-MATH341 satisfies the requirement for MATH240-MATH241-MATH246.

2 At least four courses must be taken at College Park.

3 may not include: MATH461,MATH478, MATH480-MATH484, or STAT464

4 A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience

5 The student-teaching pair EDCI450-EDCI451 is 13 credits and has further prerequisites in the College of Education. In order to take these courses the student must be admitted into the College of Education. A student in the secondary education track of the mathematics major would normally be expected to receive a double major in Mathematics and Mathematics Education.

6 These are intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas, comparable to the sequences on this list.

Statistics Track

Course	Title	Credits
Introductory Sequence [1]		
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH240	Introduction to Linear Algebra	4
MATH241	Calculus III	4
MATH310	Introduction to Mathematical Proof	3

Sequence One (11 credits)		
PHYS161	General Physics: Mechanics and Particle Dynamics	
PHYS260 & PHYS261	General Physics: Vibration, Waves, Heat, Electricity and Magnetism and General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	
PHYS270 & PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics and General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory)	
Sequence Two (9 credits)		
PHYS171	Introductory Physics: Mechanics and Relativity	
PHYS272	Introductory Physics: Fields	
PHYS273	Introductory Physics: Waves	
Sequence Three (9 credits)		
ENES102	Mechanics I	
PHYS161	General Physics: Mechanics and Particle Dynamics	
ENES220	Mechanics II	
Sequence Four (12 credits)		
CMSC132	Object-Oriented Programming II	
CMSC216	Introduction to Computer Systems	
CMSC250	Discrete Structures	
Sequence Five (13 credits)		

CHEM146 & CHEM177	Principles of General Chemistry and Introduction to Laboratory Practices and Research in the Chemical Sciences
CHEM237	Principles of Organic Chemistry I
CHEM247	Principles of Organic Chemistry II
Sequence Six (12 credits)	
CHEM131 & CHEM132	Chemistry I - Fundamentals of General Chemistry and General Chemistry I Laboratory
CHEM231 & CHEM232	Organic Chemistry I and Organic Chemistry Laboratory I
CHEM241 & CHEM242	Organic Chemistry II and Organic Chemistry Laboratory II
Sequence Seven (11 credits)	
ECON200	Principles of Microeconomics
ECON201	Principles of Macroeconomics
ECON305	Intermediate Macroeconomic Theory and Policy
or ECON306	Intermediate Microeconomic Theory & Policy
OR	
ECON325	Intermediate Macroeconomic Analysis
or ECON326	Intermediate Microeconomic Analysis
Sequence Eight (9 credits)	
BMGT220	Principles of Accounting I
BMGT221	Principles of Accounting II
BMGT340	Business Finance
Total Credits	58-63

1 Or honors sequence: MATH340-MATH341.Completion of MATH340 satisfies the requirement for MATH241; completion of MATH340-MATH341 satisfies the requirement for MATH240-MATH241-MATH246.

2 At least four courses must be taken at College Park.

3 except STAT464

4 A student may be exempt from this requirement if (s)he can demonstrate adequate programming knowledge from prior course or work experience

5 Intended to broaden the student's mathematical experience. (Other sequences might be approved by the Undergraduate Office but they would have to make use of mathematical ideas comparable to the sequences on this list.)

Other Requirements for the Major

Areas of Study

Within the Department of Mathematics there are a number of identifiable areas which students can pursue to suit their own goals and interests. They are briefly described below. Note that they do overlap and that students need not confine themselves to one of them.

1. Pure Mathematics

Courses that belong to this area include:

Course	Title	Credits
MATH402	Algebraic Structures	3
MATH403	Introduction to Abstract Algebra	3
MATH404	Field Theory	3
MATH405	Linear Algebra	3
MATH406	Introduction to Number Theory	3
MATH410	Advanced Calculus I	3
MATH411	Advanced Calculus II	3
MATH430	Euclidean and Non-Euclidean Geometries	3
MATH432	Introduction to Topology	3
MATH436	Differential Geometry of Curves and Surfaces I	3
MATH437	Differential Forms	3
MATH445	Elementary Mathematical Logic	3
MATH452	Introduction to Dynamics and Chaos	3
MATH456	Cryptography	3
STAT410	Introduction to Probability Theory	3
STAT420	Theory and Methods of Statistics	3
Students preparing for graduate school in mathematics should include:		
MATH403	Introduction to Abstract Algebra	3
MATH405	Linear Algebra	3
MATH410	Advanced Calculus I	3
MATH411	Advanced Calculus II	3
MATH463	Complex Variables	3
or MATH660	Complex Analysis I	
MATH432	Introduction to Topology (is also desirable)	3
or MATH730	Fundamental Concepts of Topology	

Other courses from the above list and graduate courses are also appropriate.

2. Secondary Teaching

In addition to the courses required by the Secondary Education Track, the following courses are particularly suited for students preparing to teach:

Course	Title	Credits
MATH401	Applications of Linear Algebra	3
MATH406	Introduction to Number Theory	3
MATH445	Elementary Mathematical Logic	3
MATH470	Mathematics for Secondary Education	3
MATH475	Combinatorics and Graph Theory	3

Students who are interested in secondary teaching should contact also the College of Education for certification requirements and other information: www.education.umd.edu/studentinfo (https://academiccatalog.umd.eduHTTP://www.education.umd.edu/studentinfo/).

3 .Statistics

For a student with a Bachelor's degree seeking work requiring some statistical background, the minimal program is STAT400-STAT401. To work primarily as a statistician, one should combine STAT400-STAT401 with STAT430 and at least one more statistics course, most suitably, STAT440. A deeper sequence is STAT410, STAT420, STAT430. This offers a better understanding and wider knowledge of statistics and is a general purpose program (i.e., does not specify one area of application). For economics applications,

MATH424, STAT400, STAT401, STAT430, STAT440 should be considered. To prepare for graduate work, STAT410 and STAT420 give the best background, with STAT430, STAT440 added at some later stage.

4. Computational Mathematics

There are a number of math courses which emphasize the computational aspects of mathematics including the use of the computer. They are:

Course	Title	Credits
AMSC460	Computational Methods	3
AMSC466	Introduction to Numerical Analysis I	3
MATH431	Geometry for Computer Applications	3
MATH456	Cryptography	3
MATH475	Combinatorics and Graph Theory	3
STAT430	Introduction to Statistical Computing with SAS	3

Students interested in this area should take the CMSC supporting sequence as soon as possible.

5. Applied Mathematics

The courses that lead most rapidly to applications are the courses listed above in 3 and 4 and

Course	Title	Credits
MATH401	Applications of Linear Algebra	3
MATH416	Applied Harmonic Analysis: An Introduction to Signal Processing	3
MATH420	Mathematical Modeling	3
MATH452	Introduction to Dynamics and Chaos	3
MATH462	Partial Differential Equations	3
MATH464	Transform Methods for Scientists and Engineers	3

A student interested in applied mathematics should obtain, in addition to a solid training in mathematics, a good knowledge of at least one area in which mathematics is currently being applied. Concentration in this area is good preparation for employment in government and industry or for graduate study in applied mathematics.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Mathematics Minor

1117 Mathematics Building
301-405-5053
www-math.umd.edu (http://www-math.umd.edu)

The Department of Mathematics offers a minor in Mathematics for students majoring in other disciplines. The goal of the minor in Mathematics is to provide the student with significant mathematical skills and a perspective on the discipline.

The departmental advisor for this program is Ida Chan, Undergraduate Mathematics Advisor (ichan@ (ichan@math.umd.edu)umd.edu).

Requirements

The requirements for the minor include at least 22 credits (19 credits if exempted from MATH310) beyond first-year calculus and are outlined below:

Course	Title	Credits
MATH241	Calculus III	4
or MATH340	Multivariable Calculus, Linear Algebra and Differential Equations I (Honors)	
Select one of the following:		3-4
MATH240	Introduction to Linear Algebra	
MATH461	Linear Algebra for Scientists and Engineers	
MATH341	Multivariable Calculus, Linear Algebra, Differential Equations II (Honors)	
MATH310	Introduction to Mathematical Proof (unless exempted)	3
Select one theoretical course from the following:		3
MATH403	Introduction to Abstract Algebra	
MATH405	Linear Algebra	
MATH410	Advanced Calculus I	
Select one algebra course from the following:		3
MATH401	Applications of Linear Algebra	
MATH402	Algebraic Structures	
MATH403	Introduction to Abstract Algebra	
MATH405	Linear Algebra	
MATH406	Introduction to Number Theory	
Select one analysis course from the following:		3
MATH410	Advanced Calculus I	
MATH416	Applied Harmonic Analysis: An Introduction to Signal Processing	
MATH462	Partial Differential Equations	
MATH463	Complex Variables	
MATH464	Transform Methods for Scientists and Engineers	
Select one probability course from the following:		3
STAT400	Applied Probability and Statistics I	
STAT410	Introduction to Probability Theory	
Others as approved by UGO		
Total Credits		22-23

Note: *If additional credits are needed in order to fulfill the 22-credit (19 credits if exempted from* MATH310*) minimum, any 400-level MATH-STAT-AMSC courses except* MATH400, MATH477-MATH478, MATH480-MATH484, MATH489,MATH498, *and* STAT464 *are acceptable.*

Other issues related to the minor in Mathematics:

- The minor in Mathematics is NOT open to Mathematics majors.
- The student will need to achieve at least a 'C-' (1.7) in each minor course and an overall minor GPA of 2.0.
- No more than one of the 400-level courses for the minor in Mathematics may be taken at an institution other than the University of Maryland, College Park.

Statistics Minor

1117 Mathematics Building

301-405-5053
www-math.umd.edu (http://www-math.umd.edu)

The Department of Mathematics offers a minor in Statistics for students whose majors are not Mathematics. The goal of the minor in Statistics is to provide the student with a substantial number of courses that are statistical in nature and involve a substantial amount of mathematics.

The departmental advisor for this program is Professor Paul Smith (pjs@umd.edu (pjs@math.umd.edu)).

Requirements

The requirements entail 16 credits:

Course	Title	Credits
MATH241	Calculus III	4
or MATH340	Multivariable Calculus, Linear Algebra and Differential Equations I (Honors)	
Select one of the following pairs of courses:		
STAT400 & STAT401	Applied Probability and Statistics I and Applied Probability and Statistics II	6
OR		
STAT410 & STAT420	Introduction to Probability Theory and Theory and Methods of Statistics	6
OR		
STAT410 & STAT401	Introduction to Probability Theory and Applied Probability and Statistics II	6
STAT430	Introduction to Statistical Computing with SAS	3
Select one of the following:		
A third course from the pairs above, if not already taken		
STAT440	Sampling Theory	3
or STAT470	Actuarial Mathematics	
or ECON422	Econometrics I	
or other courses as deemed appropriate		

Other issues related to the minor in Statistics:

- The minor in Statistics is NOT open to Mathematics majors.
- The student will need to achieve at least a 'C-' (1.7) in each minor course and an overall minor GPA of 2.0.
- A student may use a maximum of 2 courses to satisfy the requirements of both a major and the minor in Statistics.
- No more than 2 courses for the minor in Statistics may be taken at an institution other than the University of Maryland, College Park. In addition, no more than one upper-level course may be taken at an institution other than the University of Maryland, College Park.

Physics

College of Computer, Mathematical, & Natural Sciences
1309 John S. Toll Physics Building
301-405-5979
ugrad@physics.umd.edu
umdphysics.umd.edu (http://umdphysics.umd.edu)

Housed within a large, diverse research university, Maryland Physics is one of the largest departments in the nation. Exploring more than 30 fields of physics, our faculty and students work together on some of today's most cutting edge physics research. Our laboratories and theoretical centers consistently generate provocative results, and collaborations with peer institutions, government agencies and private industry open up even more opportunities for discovery. From College Park to the South Pole, the University of Maryland is impacting the field of physics worldwide. Along with a rigorous academic curriculum and an ideal Washington D.C. location, this productive research (https://umdphysics.umd.edu/research.html) program forms the foundation of a first-class educational experience. Our undergraduates are sought after by premier graduate schools and a competitive marketplace; and our graduate students advance to challenging careers in government, industry and academia.

Programs

Major

- Physics Major (p. 327)

Minor

- Physics Minor (p. 328)

Advising

Advising for undergraduates is available throughout the year in Room 1309 PHY. For early registration, advising is mandatory; students should check Testudo for their early registration date and email ugrad@physics.umd.edu for information about advising appointments. Students who have been away more than two years may find that due to curriculum changes the courses they have taken may no longer be adequate preparation for the courses required to complete the major. Students in this situation must meet with the departmental advisor to make appropriate plans.

Opportunities

Honors Program

Departmental Honors in Physics

The Departmental Honors Program in Physics was established to recognize and encourage independent and creative scholarship in physics by providing superior undergraduate physics majors the opportunity for advanced and intensive study. The central component of departmental honors in physics is participation in undergraduate research. To earn high honors in physics, students must produce and defend an honors thesis/document based on their own research. The committee's decision whether to award high honors will be based on the quality of the thesis and defense. To earn honors in physics, the student must pass an oral exam probing the depth of their understanding of physics from their courses and research involvement or complete an approved graduate level PHYS course with a grade of B or higher.

Requirements for Graduation with Departmental Honors in Physics

1. Complete at least three credit hours of a Physics Honors version course.
2. Have earned a 3.00 or higher overall GPA and a 3.30 or higher GPA for all physics major required courses at graduation time.
3. Complete one of the following research courses PHYS386 , PHYS389, PHYS399 or PHYS499.
4. For High Honors, students must complete a research project with a Physics faculty member and defend a senior thesis or paper based on their original research. A student's defense committee should include

the following people: the student's research mentor, the chair of the Physics Honors Program, and an additional Physics faculty member.

5. For 'regular' Honors, students must either pass an oral exam given by a committee of at least two Physics faculty members or complete an approved, graduate level PHYS course with a grade of B or higher.

Note: Students who do not meet the criteria in items 1) and 2) above may submit an appeal to the Physics Honors Committee. The Physics Honors Committee may use other considerations (instructor evaluations, research activity, etc.) to award the Honors citation. Students who do not meet the criteria and are not awarded a departmental honors citation will not receive any negative record regarding the Physics Honors Program on any official document.

Student Societies and Professional Organizations

Society of Physics Students (SPS); Sigma Pi Sigma

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu). Departmental scholarships for undergraduates in Physics include the following:

- Angelo Bardasis Memorial Scholarship
- Joseph Helfand Memorial Scholarship in Physics
- Professor William M. MacDonald Physics Scholarship
- Physics PALS Scholarship
- University of Maryland Department of Physics NSF Scholarships in Science, Technology, Engineering and Mathematics

Awards and Recognition

Jerry B. Marion Award

IPST Monroe Martin Prize for Undergraduate Research in Physics

Study Abroad Program

Physics in Florence (https://globalmaryland.umd.edu/offices/education-abroad/program/11619/)

Physics Major

Physics is an exciting and rewarding field of study. Physicists make important discoveries that often change the way we live by examining the way things work, and there are still many discoveries to be made.

At Maryland, physics majors benefit from small class-sizes, outstanding teachers and very talented classmates. However, we believe that the most important physics education occurs outside the classroom, and we encourage all of our majors to participate in cutting-edge research with our internationally recognized faculty. Through participation in research projects, our students learn what it takes to conduct world-class scientific research. Whether students decide to continue to study physics in graduate school or work in fields such as engineering, software development, law, business or education, a bachelor's degree in physics from Maryland provides an excellent foundation.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

1. A thorough knowledge of the core areas of physics, including mechanics, electricity and magnetism, thermal physics, and quantum mechanics at a level compatible with admission to graduate programs in physics at peer institutions.
2. The ability to analyze and interpret quantitative results, both in the core areas of physics and in complex problems that cross multiple core areas.
3. An ability to assess and solve unfamiliar problems in physics using the knowledge and skills acquired.
4. The ability to use contemporary experimental apparatus common to the study of physical phenomena, and have the ability to acquire, analyze and interpret scientific data.
5. The ability to communicate scientific results effectively, both verbally and in writing.

Requirements

Course	Title	Credits
Lower-level Courses		
PHYS165	Introduction to Programming in the Physical Sciences [1]	3
PHYS171	Introductory Physics: Mechanics and Relativity	3
PHYS272	Introductory Physics: Fields	3
PHYS273	Introductory Physics: Waves	3
PHYS274	Mathematical Methods for Physics I	3
PHYS275	Experimental Physics I: Mechanics and Heat	2
PHYS276	Experimental Physics II: Electricity and Magnetism	2
MATH140	Calculus I	4
MATH141	Calculus II	4
MATH241	Calculus III	4
Total Credits		31

Upper Level Courses

Complete either the Professional Physics (p. 327) OR Education Physics (p. 328) Concentraion

Upper-level courses for Professional Physics area of concentration:

Course	Title	Credits
PHYS371	Modern Physics	3
PHYS373	Mathematical Methods for Physics II	3
PHYS375	Experimental Physics III: Electromagnetic Waves, Optics and Modern Physics	3
PHYS401	Quantum Physics I	4
PHYS402	Quantum Physics II	4
PHYS404	Introduction to Statistical Thermodynamics	3
PHYS405	Advanced Experiments [2]	3
PHYS410	Classical Mechanics	4
PHYS411	Intermediate Electricity and Magnetism	4
PHYS4XX	Advanced Physics Elective [3]	3

PHYS4XY	Advanced Physics Elective [3]	3
Total Credits		37

Education Physics area of Concentration:

Course	Title	Credits
Introductory Education Courses		
TLPL101	Inquiry Approach to Teaching STEM (Step 1)	1
TLPL102	Inquiry Teaching of STEM in Middle School	2
Upper-level and Supporting Courses		
EDCI488	(EDCI488W Perspectives in Science)	3
EDCI488	(EDCI488M Knowing and Learning)	3
EDCI488	(EDCI488P Project Based Instruction)	3
EDHD426	Cognitive and Motivational Literacy Content	3
PHYS371	Modern Physics	3
PHYS373	Mathematical Methods for Physics II	3
PHYS375	Experimental Physics III: Electromagnetic Waves, Optics and Modern Physics	3
PHYS410	Classical Mechanics	4
or PHYS411	Intermediate Electricity and Magnetism	
PHYS4xx Advanced Physics Elective		3-4
Total Credits		31-32

The Education Physics area of concentration is designed to accommodate students obtaining a teaching certificate through the College of Education. However, completing all the courses in the Education Physics area of concentration does not in itself satisfy all requirements for obtaining a teaching certificate. Students pursuing the Education Physics area of concentration who want to also obtain a teaching certificate in secondary education must first apply and be admitted to the Secondary Education Program in the College of Education and then complete additional courses in that program.

1 Students with prior programming experience may take an upper-level, computational physics course instead of PHYS165. This advanced course may be used for an Advanced Physics Elective as well. PHYS165 is optional for student pursuing the Education Physics area of concentration

2 PHYS405 in the Professional Physics area of concentration may be replaced by the two course sequence: PHYS499A , PHYS407.

3 Students completing a second major from a CMNS or Engineering department may use an upper-level course from that program in place of one of the Advanced Physics Electives.

Other Requirements for the Major

Students must complete all courses required for the major with a grade of 'C-' or higher.

Four Year Plan

Click here (https://cmns.umd.edu/undergraduate/advising-academic-planning/academic-planning/four-year-plans/four-year-plans-gened/) for roadmaps for four-year plans in the College of Computer, Mathematical, and Natural Sciences.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Physics Minor

1309 Physics Building
301-405-5979
ugrad@physics.umd.edu
umdphysics.umd.edu (http://umdphysics.umd.edu)

This minor provides a rigorous foundation in physics for students who choose not to complete the entire physics major.

Students interested in earning a minor in physics should contact the undergraduate advisor for the Physics Department.

Requirements

The minor begins with a set of two introductory courses (6 credits) in electromagnetic fields PHYS260 or PHYS272) and waves (PHYS270 or PHYS273). As part of this introduction to Physics, the minor also requires a one-credit introductory physics laboratory (PHYS174, PHYS261, or PHYS271) involving techniques of data gathering and analysis. To obtain a deeper understanding of physics, the minor requires three additional upper-level courses (3-4 credits each), which students can select from the list below.

- Other upper level Physics courses can be substituted only with approval from the Department's undergraduate director and the Faculty Minor Advisor.
- All courses must be completed with a grade of 'C-' or better to be counted towards the minor.
- No more than 7 credits in this minor can count toward major requirements. Students with more than 7 credits of overlap must substitute non-overlapping 300 or 400 level courses from the above list to reduce the overlap to no more than 7 credits.
- Physics majors and students majoring in Astronomy are not eligible to complete the Physics Minor due to the large number of overlapping course requirements.

Courses Required for the Minor

Course	Title	Credits
Select one of the following:		1
PHYS174	Physics Laboratory Introduction	
PHYS261	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	
PHYS271	General Physics: Electrodynamics, Light, Relativity and Modern Physics (Laboratory)	
PHYS272	Introductory Physics: Fields	3
or PHYS260	General Physics: Vibration, Waves, Heat, Electricity and Magnetism	
PHYS273	Introductory Physics: Waves	3
or PHYS270	General Physics: Electrodynamics, Light, Relativity and Modern Physics	
Select three of the following:		9-12
PHYS371	Modern Physics	
PHYS373	Mathematical Methods for Physics II	
PHYS375	Experimental Physics III: Electromagnetic Waves, Optics and Modern Physics	

PHYS401	Quantum Physics I	
PHYS402	Quantum Physics II	
PHYS404	Introduction to Statistical Thermodynamics	
PHYS410	Classical Mechanics	
PHYS411	Intermediate Electricity and Magnetism	
PHYS474	Computational Physics	
Total Credits		16-19

Prerequisites

MATH140, MATH141, MATH241, MATH240, MATH246, PHYS171 are prerequisites for some of the courses in this program.

College of Education

1204 Benjamin Building
301-405-2344
www.education.umd.edu/studentinfo (http://www.education.umd.edu/studentinfo/)

Dean: Jennifer King Rice
Associate Deans: Laura Stapleton, Kimberly Griffin
Assistant Dean: Kathleen A. Angeletti

The College of Education is a professional college committed to preparing accomplished beginning and advanced-level professionals who can advance the learning and development of their students and who are ready to become leaders in their fields. The college seeks to foster the learning and development of PK-16 students through our educator preparation programs, leadership, research, advocacy, and partnerships. Educational inequities exist on multiple levels; therefore, we aim to prepare educators with the skills and commitments necessary to ensure equity for all students in the public schools and classrooms they will lead.

The college programs prepare educators, counselors, psychologists, administrators, researchers, and educational specialists. Graduates work with individuals from infancy through adulthood in schools, community agencies, colleges and universities. Educational programs are accredited/approved by the following: National Council for Accreditation of Teacher Education (NCATE), Maryland State Department of Education (MSDE), and the American Psychological Association. Accreditation provides reciprocal certification with most other states that recognize national accreditation.

MSDE issues certificates to teach in the public schools of the state. In addition to graduation from an approved program, MSDE requires satisfactory scores on the state Praxis licensure exams for certification. At the time of graduation, the college informs MSDE of the graduates' eligibility for certification. Under Maryland law, criminal background checks may be required and considered by MSDE in the awarding of teaching certification, and by employers before granting employment in the teaching field. Certification may be denied or revoked for individuals who have been convicted of crimes of violence and/or crimes against children. Additionally, some Maryland counties require a criminal background check prior to placement in an internship.

Admission Requirements

Admission to Teacher Education Professional Course Work

Applicants to the University of Maryland who have declared an interest in education are admitted to a department in the college. All majors must meet the selective admission requirements for full admission into the College of Education in order to enroll in the professional sequence of the teacher education degree programs.

The admission process includes three steps:

1. **Pre-Admission Review:** Candidates must
   a. complete the English and math lower-level fundamental studies (six credits) with a grade of 'C-' or better;
   b. earn 45 semester hours with an overall cumulative grade point average of at least 2.75 on a 4.0 scale;
   c. complete gateway and/or specialization or major requirements for the program area with a minimum 2.70 GPA, and earn at least a 'B' in any Education course identified by the program as a specific gateway prerequisite;
   d. submit a personal goal statement that indicates an appropriate commitment to professional education;
   e. have prior experiences in the education field;
   f. submit three letters of recommendation/reference;
   g. receive satisfactory ratings on the College of Education Foundational Competencies/Model Code of Ethics for Educators (FC/MCEE) on the College of Education FC/MCEE Pre-Admissions Screening Form if formal evaluations have not yet occurred;
   h. submit criminal history disclosure statement; and,
   i. have passing scores on a test of basic skills as determined by the Maryland State Department of Education (currently Praxis CORE, SAT, ACT or GRE).
2. **Program Faculty review** the applications of the candidates who meet the above criteria and rate them on six components:
   a. overall GPA,
   b. GPA in gateway/specialization/major,
   c. rating for prior experience,
   d. rating of recommendations,
   e. rating of application essay,
3. **The faculty sets a minimum cut score for eligibility** based upon several factors (e.g., instructional resource capacity of the program/department, Professional Development School (PDS) placement capacity in the certification area, availability of high quality mentors in the certification area, work force need in the state, etc.). Candidates meeting at least minimum cut scores are scheduled for interviews. Program faculty re-ranks candidates based on aggregate scores from the complete profile - i.e., the five factors in step 2 plus the interview. The highest ranking individuals using the aggregate score are offered admission. [The total number admitted is based on target enrollment guidelines.]

Admission application forms are available online (https://education.umd.edu/student-resources/student-services/undergraduate-studies-student-services/teacher-educationfour-year#professional-teacher-education-application (https://education.umd.edu/student-resources/student-services/undergraduate-studies-student-services/teacher-educationfour-year/#professional-teacher-education-application)). Only those who are admitted are able to enroll in the professional education sequence. An overall grade point average of 2.75

must be maintained after admission to Teacher Education to continue in the professional education programs. The program faculty is able to recommend selected other candidates for Discretionary Admission based on any of a variety of special considerations. Consult the Student Services Office (Room 1204 Benjamin Bldg.) for policies and procedures regarding Discretionary Admission.

Criteria for admission to the Teacher Education program apply to any teacher preparation program offered by the University of Maryland. Thus, undergraduates desiring a major in music education should apply to the College of Education for admission to the professional program in Teacher Education. Individuals who are not enrolled in the College of Education but who, through an established cooperative program with another college are preparing to teach, must meet all admission, scholastic and curricular requirements of the College of Education. The courses in the professional education sequence are restricted to teacher candidates who are enrolled in an approved teacher preparation program and degree-seeking majors who have met College of Education requirements for admission and retention.

Gateway Requirements for Early Childhood, Elementary, and Middle School Math and Science Education Programs
In order to meet the Maryland State Department of Education's (MSDE's) institutional performance criteria for the Redesign (i.e. strong math and science background for early childhood and elementary education teacher candidates), prospective majors in these programs need to fulfill additional performance criteria. In addition to the requirements for admission to teacher education that are listed above, early childhood and elementary education majors must satisfy the following gateway requirements:

1. *Completion of a four-credit general education laboratory physical science, a four-credit general education laboratory biological science, Elements of Numbers and Operations (*MATH212*), and Elements of Geometry and Measurement (*MATH213*) with a minimum grade of 'C-' in each class and a 2.7 cumulative GPA across all four courses.*
2. *Completion of Looking Inside Schools and Classrooms (TLPL251) or Exploring Teaching in Early Childhood (*EDHD220*) with a grade of 'B-' or better.*
3. *Passing scores on a test of basic skills as determined by MSDE: SAT; ACT; GRE; or Praxis CORE: Academic Skills Assessments (Applicants will be required to meet the individual cut-off scores for each of the three Praxis CORE assessments. A composite score is accepted for admission.)*

In keeping with the campus undergraduate admissions policy, the College of Education will admit as many freshmen as possible as 'pre-service' education majors. Internal and external transfers who have completed fewer than 60 credits and who have not yet met the standards required for enrollment in the professional degree programs also will be admitted as 'pre-service' education majors. For directly admitted freshmen, the above admission requirements will serve as the criteria for the sophomore (early childhood, elementary, and special education) or junior (secondary education) level review. For internal and external transfers, these criteria make up the 'gateway.' Teacher candidates who pass the sophomore/junior level review or the gateway will be admitted into the professional degree programs. Transfers with sixty or more credits will be granted permission to enroll as a pre-service major in education, provided they have maintained at least a 2.75 GPA and successfully completed the lower-level fundamental studies with a minimum grade of 'C-' or better. These individuals will be given one semester to meet the requirements for admission to teacher education.

Detailed information regarding admission to the Teacher Education program, including the gateway requirements for Early Childhood, Elementary, or Middle School Math and Science Education, is available in the Student Services Office, Room 1204 Benjamin (301-405-2364).

Majors

- Early Childhood/Early Childhood Special Education Major (p. 341)
- Elementary Education Major (p. 346)
- Elementary/Middle Special Education Major (p. 335)
- Human Development Major (p. 342)
- Middle School Education Major (p. 348)
- Secondary Education Major - Art (p. 351)
- Secondary Education Major - English (p. 352)
- Secondary Education Major - Mathematics (p. 354)
- Secondary Education Major - Science (p. 356)
- Secondary Education Major - Social Studies (p. 357)
- Secondary Education Major - World Language (p. 360)

Minors

- Disability Studies Minor (p. 334)
- Human Development Minor (p. 344)
- Leadership Studies Minor (p. 338)
- Second Language Education Minor (p. 350)
- Secondary Education Minor (p. 362)
- Special Education Minor (p. 339)

Certificates

- Leadership Studies Certificate (p. 337)
- Secondary Education Certificate (p. 350)

College Requirements
Undergraduate Degree Requirements/ Degree Options

The College of Education confers the degrees of Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) depending on the amount of liberal arts study included in a particular degree program. Minimum requirements for graduation are 120 semester hours. Specific departmental program requirements for more than the minimum must be fulfilled.

In addition to the university's general education requirements and the specific requirements for each curriculum, the college requires that all majors complete a Foundations of Education course (e.g., TLPL360) and, depending upon the teacher education major, three to twelve semester hours of reading course requirements. A grade of 'C-' or better is required in all pre-professional and professional course work required for the major. An overall grade point average of 2.75 must be maintained after

admission to Teacher Education. A grade of 'S' is required in the teaching internship. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/ Model Code of Ethics for Educators and attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Detailed information about the Praxis assessments is available in the Student Services Office, Room 1204 Benjamin.

Exceptions to curricular requirements and rules of the College of Education must be recommended by the teacher candidate's advisor and department chairperson and approved by the Dean.

Yearlong Internship

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a collaborating school (i.e., partner school - Professional Development School (PDS)). Each teacher candidate's internship will vary according to the unique attributes of their teacher education program. All internships will provide teacher candidates with the opportunity to integrate theory and practice through a comprehensive, reality-based experience. The yearlong internship is arranged through the College of Education in collaboration with the school site coordinators, PDS Coordinators, and the designated schools in the partnership.

The yearlong internship is a full-time commitment. Interference with this responsibility because of employment or course work is strongly discouraged. Teacher candidates assigned to schools for this internship are responsible for their own transportation and living arrangements and should be prepared to travel to whichever school has been assigned. The student teaching internship requires a special fee. Please consult the course listings within Testudo (http://testudo.umd.edu/) for the current lab fee. During the teaching internship, teacher candidates should be prepared to adhere to the academic schedule/calendar for the school system in which they are placed.

In order to receive a yearlong internship placement, all teacher candidates must make application the semester prior to the internship year. Prospective interns must have been admitted to Teacher Education and have completed all prerequisites. Prior to assignment, all candidates in teacher preparation programs must have:

1. maintained a minimum overall grade point average of at least 2.75 with a minimum grade of 'C-' in every course required for the major;
2. satisfactorily completed all other required course work in their program;
3. received a favorable recommendation from their department;
4. attained qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments;
5. applied for a year-long internship placement through the College of Education during the semester prior to the internship year;
6. received favorable ratings from prior supervised experiences in school settings;
7. received favorable evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators; and
8. submitted a criminal history disclosure statement.

In addition, state law gives the local school to which the intern is assigned the discretion to require a criminal background check prior to placement. Early Childhood Education majors must have a certificate indicating freedom from tuberculosis and proof of immunization.

Note: All registrations in the teaching internship, regardless of whether an intern withdraws or takes a leave of absence, will be counted as an attempt under the campus repeat policy. Only two registrations will be allowed. After two registrations, further attempts at the teaching internship must be approved by the department and the school system professionals involved in the teacher candidate's internship experience.

College of Education Foundational Competencies/Model Code of Ethics for Educators

All candidates in the UMD professional preparation programs are expected to demonstrate that they are prepared to work with children and youth in educational settings. This preparation results from the combination of successful completion of university coursework and field/internship experiences and the demonstration of important human characteristics and dispositions that all educators should possess. These characteristics and dispositions, the College of Education Foundational Competencies/Model Code of Ethics for Educators (FC/MCEE), are aligned with the Interstate Teacher Assessment and Support Consortium Model Core Teaching Standards and based upon the National Association of State Directors of Teacher Education and Certification Model Code of Ethics for Educators. The College of Education's FC/MCEE are grouped into five principles, which broadly define critical dimensions of ethical practice expected of teacher candidates:

- Principle I: Responsibility to the Profession
- Principle II: Responsibility for Professional Competence
- Principle III: Responsibility to Students
- Principle IV: Responsibility to the School Community
- Principle V: Responsible and Ethical Use of Technology and Social Media

The FC/MCEE serve several important functions, including, but not limited to:

1. providing information to those considering pre K-12 and community professional careers that will help such individuals in their career decision-making;
2. advising applicants of non-academic criteria considered in admissions decisions made by the University's pre K-12 and community professional preparation programs;
3. serving as the basis for feedback provided to candidates in these programs regarding their progress toward mastery of all program objectives; and
4. serving as the basis for the final assessment of attainment of graduation requirements and recommendation for certification.

Candidates in the undergraduate teacher preparation programs will be required to achieve satisfactory ratings on the College of Education FC/MCEE (or on the College of Education FC/MCEE Pre-Admissions Screening Form if formal evaluations have not yet occurred) as part of the college's selective admissions review in the sophomore or junior year. Self-assessments of candidates and faculty evaluations on the FC/MCEE also will occur during each field/internship experience. Teacher candidates will be monitored and given feedback throughout the program. At specified points, they will be notified of inadequacies that may prevent them from progressing through their program. Documentation and consensus regarding the teacher candidate's functioning will be sought before any action is taken. Candidates who experience deficiencies in any areas will be encouraged to seek appropriate professional help from the university or other sources. If the problem seems to be beyond remediation, admission and/or continuation

in the professional programs, graduation, or recommendation for certification may be denied.

The COE FC/MCEE may be met with, or without, accommodations. The University complies with the requirements of Section 504 of the Rehabilitation Act and the Americans with Disabilities Act of 1990. Therefore, the College of Education will endeavor to make reasonable accommodations with respect to these standards for an applicant with a disability who is otherwise qualified. For detailed information on the College of Education-Foundational Competencies/Model Code of Ethics for Educators, see https://education.umd.edu/student-resources/student-services/undergraduate-studies-student-services/undergraduate-forms-and (https://education.umd.edu/student-resources/student-services/undergraduate-studies-student-services/undergraduate-forms-and/).

LiveText/Watermark Portfolio Requirement

The college uses a learning electronic portfolio and accreditation management system for its teacher preparation programs. An active subscription to LiveText by Watermark is a requirement for the courses that comprise the professional education curriculum. Teacher candidates will be expected to submit a number of their course and portfolio assignments through LiveText/Watermark.

The LiveText/Watermark account, which can be purchased at the University Book Center, is a one-time purchase that is comparable in price to the cost of a textbook. These accounts will last for a full year after graduation so that education majors can use their electronic LiveText/Watermark portfolios in the job seeking process. For more information about LiveText by Watermark, contact Dr. Kathy Angeletti, Assistant Dean (kangel@umd.edu).

Advising

The Office of Student Services provides academic advising for education majors regarding admission, orientation, registration, graduation, and certification. Advising is mandatory in the College of Education: education majors must be advised prior to registration each semester.

Teacher candidates are required to complete an academic audit in the Office of Student Services upon admission to the professional teacher education degree program. Undergraduates are expected to complete their degree program in a timely manner and to adhere to program benchmarks. Information about program benchmarks and four-year plans is available on the Student Services website at http://www.education.umd.edu/studentinfo/undergraduate_info/index.html (http://www.education.umd.edu/studentinfo/undergraduate_info/).

Opportunities
Specialized Academic Programs

Secondary Education Program options: The College of Education has multiple pathways for individuals who are interested in teaching at the secondary level:

The dual major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling.

The **Certificate Program** requires completion of an academic major - including coursework specific to meet certification standards in the certificate area - and a bachelor's degree in an approved academic content area, plus the completion of a certificate program in secondary education to meet requirements in UMD's approved program for MSDE certification. Selected coursework from the minor in Secondary Education may be taken prior to admission to the Certificate Program option. *(The Certificate Program is currently under review. For additional information, contact the Office of Student Services, 1204 Benjamin.)*

The **Five-Year Integrated Master's with Certification Program** for content majors entering the junior or senior year, is for talented undergraduates with a minimum GPA of 3.0 who seek to combine undergraduate studies in the content area and professional education as a foundation for a focused professional year at the graduate level leading to secondary-level certification in the subject field and the Master of Education degree. Candidates who are admitted to the program complete their baccalaureate degrees with a major in the relevant content area and a minimum of 12 credits in professional education studies related to teacher certification requirements. In their fifth year, they enroll in a full-year internship and complete graduate-level professional studies that make them eligible for teacher certification and the Master of Education degree.

The **Mathematics Education** and **Science Education** programs are part of the Terrapin Teachers program. Terrapin Teachers is an innovative program designed to engage science and mathematics students in the teaching and learning process so that they are prepared by the end of their four undergraduate years to be highly skilled middle and secondary science and mathematics school teachers who can go on to teach and inspire their students, and enable them to not only know about science and math, but to use these disciplines in their everyday lives. For more information about Terrapin Teachers, see http://www.tt.umd.edu

For detailed information about these secondary education program options, contact the Office of Student Services, 1204 Benjamin Building.

College Honors Program

Undergraduate teacher education majors meeting certain scholastic requirements may participate in the College of Education Honors Program. The objective of this program is to examine the field of education at levels of depth and breadth that go beyond that provided by any one teacher preparation sequence. The program consists of three components: group, cross-disciplinary, and individual study. The Honors Program represents an excellent springboard for teacher candidates with aspirations to go on to graduate school. For further information contact the College of Education Office of Student Services (1204 Benjamin).
NOTE: **Program is currently under review.**

Approved Student Societies and Professional Organizations

The college sponsors chapters of Phi Delta Kappa; the Teacher Education Association of Maryland Students (TEAMS), a state/national education association; the College of Education Student Assembly, a student governance organization; and Kappa Delta Pi, an honor society in education.

The Plan of Organization for the College of Education calls for undergraduate student representation on both the College of Education

Assembly and College Senate. These organizations assume a critical role in policy development for the College of Education. The Assembly meets at least once a year during the fall semester for its annual meeting. Senate meetings typically occur once a month during the fall and spring semesters. Nine full-time undergraduates are elected as voting members of the College Assembly. One undergraduate student is elected to serve as a delegate to the College of Education Senate. For further information about the College Assembly or Senate, contact the Office of Student Services, Room 1204 Benjamin.

In several departments there are informal organizations of students. Students should contact the individual departments or, in the case of college-wide groups, the Student Services office, for additional information regarding these organizations.

Student Engagement and Service Units

Student Services Office
1204 Benjamin Building, 301-405-2344
www.education.umd.edu/studentinfo (http://www.education.umd.edu/studentinfo/)

The Student Services Office provides academic advising for education majors regarding admission, orientation, registration, graduation, and certification. Information about the Praxis assessments and the College of Education Scholarships also is available in Student Services.

Educational Technology Services
0234 Benjamin Building, 301-405-3611

Educational Technology Services helps the College advance the effective use of technology in support of student learning. The Center provides a range of technology and media resources and services to faculty and students. For more information about ETS resources and services, see https://education.umd.edu/about-college/administration/ets/.

Career Center
3100 Hornbake Library; 301-314-7225
www.CareerCenter.umd.edu (http://www.CareerCenter.umd.edu)

The Careers4Terps (https://careers.umd.edu/careers4terps/) includes job listings in private and public schools and institutions of higher learning, on-campus interviews with in-state and out-of-state school systems, and resume referral to employers interested in hiring education majors. Information and applications from school systems throughout the country, job search publications, and various employment directories also are available in the Career Center.

Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information (including details regarding TEACH grants), visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

In addition, contributions from the College of Education Alumni and Friends have made it possible to award a number of $1,000 scholarships to deserving teacher education candidates each academic year. These awards are based on the following criteria:

- academic performance
- financial need
- leadership and contributions to the field of education or
- commitment to potential leadership in the field of education
- encouragement of a diverse and multicultural community

Scholarship applications may be obtained in the Office of Student Services (1204 Benjamin). Applications also are available on-line: https://education.umd.edu/admissions/financial-aid-scholarships (https://education.umd.edu/admissions/financial-aid-scholarships/)

For more information about the College of Education Scholarships, including deadlines and application materials, contact the Office of Student Services (1204 Benjamin).

Awards

Maryland Teachers of Promise Program

Each year, the college identifies five to seven of its most promising gifted pre-service educators, who are getting ready to graduate and who plan to teach in the state of Maryland. These individuals become part of a select group of outstanding pre-service and veteran teachers participating in a mentor-protégé program and educational Institute. As part of the program, each teacher candidate is paired with an award-winning veteran teacher mentor (Teacher of the Year, Milken National Educator, Blue Ribbon School Master Teacher, etc.), who provides guidance and support during the transition period into teaching. For more information about this program, contact Dr. Kathy Angeletti, Assistant Dean (kangel@umd.edu).

Departments and Centers

The college includes a number of centers that offer special resources and facilities to students, faculty, and the community, including the following:

- Center for Children, Relationships, and Culture
- Center for Diversity and Inclusion in Higher Education
- Center for Early Childhood Education and Intervention
- Center for Educational Innovation and Improvement
- Center of Integrated Latent Variable Research
- Center for Mathematics Education
- Center for Science and Technology in Education
- Center for Young Children
- Counseling, Assessment, Research, and Educational Services Psychological Center
- Institute for the Study of Exceptional Children and Youth
- Language and Literacy Research Center
- Maryland Assessment Research Center
- Maryland Equity Project
- Maryland Institute for Minority Achievement and Urban Education
- Multilingual Research Center

Special Advantages and Facilities

Students in the College of Education have the opportunity to work with an exemplary faculty. Among our ranks are nationally known faculty researchers who have made significant contributions to advancing theory and improving professional practice. In addition, the college's strategic location provides students with research opportunities that are unparalleled. Teacher candidates can complete their teaching internship and conduct research in school districts with highly diverse populations.

The region also provides access to several research libraries, government agencies, not-for-profit organizations, and educational associations.

The College of Education offers many special resources and facilities to students, faculty, and the community, including the following centers:

- ***The Center for Mathematics Education*** provides a mathematics laboratory for undergraduate and graduate students. Occasionally there are tutoring services for children and adolescents. These services are offered in conjunction with special graduate and undergraduate courses in elementary and secondary school mathematics. Center faculty are engaged in research in mathematics education, serve as consultants to school systems and instructional publishers, and provide in-service teacher education in addition to graduate degree programs.
- **The *Center for Young Children*** is part of the Institute for Child Study/Human Development in the College of Education. It offers a creative learning experience for children three, four, and five years old. The center engages in child study, curriculum development, and teacher preparation. Its research and observation facilities are available to parents, faculty, and other persons concerned with the care and education of young children.

Counseling, Higher Education and Special Education

College of Education
3214 Benjamin
301-405-6515/4
https://education.umd.edu/academics/departments/chse (https://education.umd.edu/academics/departments/chse/)

The Department of Counseling, Higher Education, and Special Education (CHSE) incorporates three outstanding former departments, all with programs having top rankings in U.S. News and World Report, 2020: Counseling and Personnel Services (ranked #2), Higher Education (ranked #13), and Special Education (ranked #12). The Special Education Program is designed to prepare highly qualified teachers at the undergraduate and graduate levels, and to prepare researchers, teacher educators, and leaders at the doctoral level in the field of special education. We promote excellence in education and human services across the spectrum of abilities and individual differences, from birth to adulthood, in a wide range of settings.

Programs

Major

- Elementary/Middle Special Education Major (p. 335)

Minors

- Disability Studies Minor (p. 334)
- Leadership Studies Minor (p. 338)
- Special Education Minor (p. 339)

Certificate

- Leadership Studies Certificate (p. 337)

Advising

Advising is mandatory for all special education majors. For more information or to schedule an advising appointment, contact the Office of Student Services, ed-advising@umd.edu (301-405-2364).

Opportunities

Fieldwork Opportunities

Candidates participate in a number of early field experiences during their junior year. A two-semester internship is arranged for teacher candidates in their senior year. The internship and other field experiences allow teacher candidates to apply concepts and techniques presented in university-based courses in a field placement setting.

Internships

The yearlong, two-semester internship, which is the culminating experience in the teacher preparation program, takes place in a partner school or a Professional Development School (PDS) during the senior year of the program.

Student Societies and Professional Organizations

The Special Education program encourages student participation in extracurricular activities within and outside of the university. Opportunities include the Council for Exceptional Children. For more information, contact the Office of Student Services in 1204 Benjamin Building.

Scholarships and Financial Assistance

The Special Education Endowed Fund in honor of Jean R. Hebeler is devoted to supporting candidates preparing to work with individuals with disabilities. Awards are competitive. Applications are accepted in the spring semester for the following academic year.

In addition, the College of Education offers a number of scholarships. Please visit http://www.education.umd.edu/studentinfo/scholarships.html for more information. The Office of Student Financial Aid (OSFA) administers federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Disability Studies Minor

The Disability Studies minor enhances student understanding and inquiry for an evolving, inclusive, interconnected world by reframing disability as a social construct that exists along a continuum of human diversity.

Program Learning Outcomes

1. Increase cultural competency by critically examining disability as a global societal phenomenon.
2. Acquire an awareness and understanding of the various roles and rights of disability in history and in modern society.
3. Explore the Disability Studies' framework within their field of study and intended profession to enhance advocacy, inclusive best practices, and their role as a change agent.

4. Examine ways in which systems inhibit and promote full participation of people with disabilities.
5. Develop analytical and observation skills and apply inclusive disability frameworks to academic, professional, and personal lives.

Requirements

Course	Title	Credits
Lower Division Foundational Courses [1]		**6**
EDSP289I	(Disability: From Stigma and Side Show to Mainstream and Main Street)	
EDSP220	Disability in Community: Access, Accommodation, and Adaptation	
or HESP202	Introduction to Hearing and Speech Sciences	
Elective Courses [1]		**9**
Select three of the following courses:		
BMGT360	Strategic Management of Human Capital	
COMM382	Essentials of Intercultural Communication	
INST466	Technology, Culture, and Society	
EDHD310	Your Brain on Education: The Neuroscience of Learning and Development	
EDSP220	Disability in Community: Access, Accommodation, and Adaptation	
EDSP470	Introduction to Special Education	
EDSP498	Special Problems in Special Education [2]	
ENGL296	Reading and Writing Disability	
ENME444	Assistive Robotics [3]	
HESP202	Introduction to Hearing and Speech Sciences	
HONR248	Honors Seminar (HONR248H: From Willowbrook to Attica: Delinquency in the Context of Disability)	
HONR218	Honors Seminar (HONR218V: Disability Culture and Life Narratives)	
Total Credits		15

1 All courses listed are 3 credit courses.

2 Students enrolling in EDSP498 must register for 3 credits.

3 Requires permission of the School of Engineering.

Students must pass all courses for the minor with a grade of C or better. No more than six credits can come from off-campus (study abroad, transfer, etc.). Nine of the 15 credits required for the minor must be at the 300 course level or above.

Other elective courses may be included in the DS minor with program advisor's approval.

Elementary/Middle Special Education Major

The Elementary/Middle Special Education Program offers a rigorous undergraduate teacher preparation program that prepares teachers with the necessary skills to assess, plan, teach, and evaluate children with disabilities. The program is nationally ranked, recognized as one of the top preparation programs in the country, and focuses on students with high incidence disabilities and low incidence disabilities. Students who complete the program graduate with a Bachelor of Science in Special Education. The program offers two certification tracks: *Track 1: Severe Disabilities* leads to Maryland Certification in Special Education in Elementary/Middle (Grades 1-8) AND Maryland Endorsement in Severe Disabilities (Birth to Age 21); *Track 2: Inclusive Education* leads to Maryland Certification in Special Education in Elementary/Middle (Grades 1-8) AND Maryland Certification in Elementary Education (Grades 1-6). Program coursework meets state, university, and college requirements and is designed to provide an understanding of human development, including the basic psychological and sociological principles of human behavior. There is an instructional focus on universal design of learning/assistive technology; academic, language, motor, and cognitive development; social and educational needs of individuals with disabilities; diagnostic and educational assessment; evidenced-based instructional procedures and materials; national standards and curriculum development; classroom and behavior management; effective communication and partnership with parents and families of children with disabilities; community resource planning; and local, state, and federal laws and policies concerning children and youth with and without disabilities. The program ends with a required two-semester internship during the senior year that focuses on the application of teaching skills. Courses offered in the special education program may be found under the acronym EDSP.

Note: Please contact an advisor in the Office of Student Services (1204 Benjamin) for additional information

ADMISSION TO THE MAJOR

Prior to formal acceptance as a special education major, undergraduates are required to enroll in a special education introductory course (EDSP210/EDSP470), which provides a survey of the history and current issues in special education. Upon successful completion of the introductory course and 45 semester hours of requirements, teacher candidates apply for formal admission to the professional program by submitting an application with a statement of intent specifying their professional goals. To be accepted as a full special education major, teacher candidates must fulfill the College of Education requirements for admission to Teacher Education, as well as the following program requirements:

1. Completion of course work indicated below:

Course	Title	Credits
EDSP210	Introduction to Special Education	3
STAT100	Elementary Statistics and Probability	3
MATH212	Elements of Numbers and Operations	3
LAB SCIENCE 1	Physical, Biological, or Environmental [1]	
LAB SCIENCE 2	Physical, Biological, or Environmental [1]	
PSYC100	Introduction to Psychology	3
SOCY100	Introduction to Sociology	3
or SOCY105	Introduction to Contemporary Social Problems	
EDHD411	Child Growth and Development	3
HIST200	Interpreting American History: Beginnings to 1877	3
HESP202	Introduction to Hearing and Speech Sciences	3

1 Students must complete two lab sciences from two different categories to be admitted to the program. Students who pursue Track 2 will complete one lab science from each of the following categories for a total of 3 lab sciences: (a) biological lab science, (b) environmental lab science, and (c) physical lab science.

2. Admission is competitive beyond the minimum 2.75 grade point average required for consideration.

3. Submission of an application together with a statement of intent specifying the applicant's professional goals.

4. Submission of two letters of recommendation and a Foundational Competency Review.

5. Completion of College of Education Foundational Competencies Acknowledgment Form.

6. Completion of an interview with a special education faculty member.

Admittance will be based on a variety of criteria, including completion of the required courses, the grade point average, the applicant's experience with persons with disabilities, and the appropriateness and clarity of the professional goal statement. For more information, see the admission section of the College of Education entry.

PLACEMENT IN COURSES

The Special Education program includes both pre-professional and professional education course work. Before teacher candidates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program.

PROGRAM LEARNING OUTCOMES

1. Special Education teacher candidates have in-depth knowledge of the subject matter they teach as described in professional (CEC, ACEI), state (MSDE), and University standards.
2. Special Education teacher candidates practice evidence-based instruction and decision-making through the use of assessment as well as the critical interpretation of research and inquiry to improve educational practice. They accurately assess, plan, and analyze student learning, make appropriate modifications to instruction, monitor student learning, and have a positive effect on learning for all students.
3. Special Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (CEC, ACEI), state (MSDE), and University standards.
4. Special Education teacher candidates competently integrate technology and universal design in learning in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in the Maryland Teacher Technology Standards.

Requirements

Undergraduates who are interested in majoring in Special Education must consult a program advisor as early as possible after matriculation at the university since the curriculum requires an extensive and sequenced program of studies. Individuals accepted as Special Education majors take a two-semester sequence of foundational courses and practicum experiences during the third year (Semesters V and VI). Teacher candidates are provided opportunities to observe and participate in different elementary or middle special education classroom settings during their first semester in the program (Semester V) so they may declare a track of focus, Track 1: Severe Disabilities or Track 2: Inclusive Education, before the start of their second semester (Semester VI). These courses provide the teacher candidate with a solid foundation in theory and practice related to the education of children of their chosen track.

Teacher candidates work directly with children from their chosen track during each semester, leading up to student teaching during the last semester.

Course	Title	Credits
College Requirements (p. 330)		
Complete the following with a B- or better:		
EDSP210	Introduction to Special Education (UP)	3
Complete the following with a C- or better:

EDSP484	Reading and Writing Instruction in Special Education II	3
EDSP487	Family Partnerships in Special Education	3
EDSP404	Education of Students with Autism Spectrum Disorders	3
TLPL321	Curriculum and Instruction in Elementary Education: Science	3
EDSP452	Internship I: Elementary/Middle Special Education	2-4
PROFESSIONAL SEMESTER IV (Spring Only):		
EDSP490	Teacher Candidate Research Seminar in Special Education	3
EDSP495	Internship II: Elementary/Middle Special Education	6-12
Total Credits		155-165

1 May double count for GenEd and major requirement

2 MATH111 will NOT satisfy this requirement

3 Students must complete one lab science from each of the following categories for a total of 3 lab sciences: (a) biological lab science, (b) environmental lab science, and (c) physical lab science.

OTHER REQUIREMENTS FOR THE MAJOR

A minimum overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies and attain qualifying scores for the State of Maryland on a Test of Basic Skills assessment . A Test of Basic Skills assessment is required for admission, and Praxis II Special Education is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a partner school or a professional development school (PDS).

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Leadership Studies Certificate

Counseling, Higher Education and Special Education (CHSE)
3214 Benjamin Building
301-405-8627
leadershipstudies@umd.edu
http://education.umd.edu/leadershipstudies (http://education.umd.edu/leadershipstudies/)

The Leadership Studies Program promotes college student leadership development by educating undergraduate students for and about leadership in a complex world. Both the minor and certificate options prepare students to effectively engage in leadership in both formal and informal ways within campus, local, national, and global contexts.

Leadership Studies students explore leadership theory and practice from a variety of social, historic, and disciplinary lenses and are challenged to think about leadership critically and broadly, beyond dominant narratives of position and authority. Students are also encouraged to identify a working philosophy of leadership that can advance their thinking around ethics, civic engagement, and the importance of working within diverse and multicultural environments. These areas are critical aspects of leadership that require faculty and students to build and critically evaluate existing theoretical, research-based, and practical knowledge of leadership.

Beyond the classroom, leadership studies students can use their knowledge, skills, and competencies gained from this academic program to enhance their sense of self and engagement with others, as well as their practice within their major discipline, future career, and ongoing engagement with communities and organizations.

The Leadership Studies Program is made possible through a partnership between the Department of Counseling, Higher Education & Special Education (https://education.umd.edu/academics/departments/chse/) and the Leadership & Community Service-Learning (https://thestamp.umd.edu/leadership_community_service-learning/) office in the Adele H. Stamp Student Union - Center for Campus Life.

Application and Eligibility

Applications for the leadership studies program (minor and certificate) are made available online during select times each semester. Students may apply to the leadership studies program if they meet the following requirements:

- Student is currently enrolled in HESI217 or has completed HESI217 with a C- or better.
- Student is in good academic standing
- Student has at least one full academic year left before graduating from UMD
- Student has completed no more than 9 credits of leadership studies coursework prior to acceptance into the program.

Requirements

The Leadership Studies Certificate consists of **21 credits**. At least **12 credits** must be at the 300 level or above. Additionally, no more than **6 credits** from a student's minor or certificate program can also be applied to a student's major, and no more than **6 credits** may be taken at an institution other than the University of Maryland, College Park. No course with an earned grade below C- may count towards the minor or certificate.

Course	Title	Credits
Requirements for the Certificate		
HESI217	Introduction to Student Leadership	3
HESI315	Student Leadership in Groups and Organizations	3
HESI320	Social Action Seminar	2
HESI321	Advanced Social Action Seminar	1
HESI417	Advanced Leadership Seminar	3
HESI Leadership Elective (from pre-approved list)		3
Select two elective courses, from our pre-approved elective list		6
Total Credits		21

Leadership Studies Minor

Counseling, Higher Education and Special Education (CHSE)

The Leadership Studies Program promotes college student leadership development by educating undergraduate students for and about leadership in a complex world. Both the minor and certificate options prepare students to effectively engage in leadership in both formal and informal ways within campus, local, national, and global contexts.

Leadership Studies students explore leadership theory and practice from a variety of social, historic, and disciplinary lenses and are challenged to think about leadership critically and broadly, beyond dominant narratives of position and authority. Students are also encouraged to identify a working philosophy of leadership that can advance their thinking around ethics, civic engagement, and the importance of working within diverse and multicultural environments. These areas are critical aspects of leadership that require faculty and students to build and critically evaluate existing theoretical, research-based, and practical knowledge of leadership.

Beyond the classroom, leadership studies students can use their knowledge, skills, and competencies gained from this academic program to enhance their sense of self and engagement with others, as well as their practice within their major discipline, future career, and ongoing engagement with communities and organizations.

The Leadership Studies Program is made possible through a partnership between the Department of Counseling, Higher Education & Special Education (https://education.umd.edu/academics/departments/chse/) and the Leadership & Community Service-Learning (https://thestamp.umd.edu/leadership_community_service-learning/) office in the Adele H. Stamp Student Union - Center for Campus Life.

Eligibility

Applications for the leadership studies program (minor and certificate) are made available online during select times each semester. Students may apply to the leadership studies program if they meet the following requirements:

1. Student is currently enrolled in HESI217 or has completed HESI217 with a C- or better.
2. Student is in good academic standing
3. Student has at least one full academic year left before graduating from UMD
4. Student has completed no more than 9 credits of leadership studies coursework prior to acceptance into the program.

Application Procedures and Forms

Applications will be made available as an online form, during select times each semester, for a period of two weeks. The application will ask eligible students to identify demographic information, a list of (on and off-campus) involvements (if any), and respond to three short-essay questions. Applicants must also provide a resume and an unofficial University transcript.

After the closing application date, applications will be reviewed and applicants will be notified within two to three weeks by email.

Selection Criteria

- Demonstrates a commitment or experience in leadership, either in studying or practicing leadership
- Contributes to the diversity of students in the Minor
- Illustrates capacity to utilize leadership theories and skills
- Exhibits a commitment to intrapersonal and interpersonal growth and development through the study of leadership

Requirements

The Leadership Studies Minor consists of **15 credits**. At least **9 credits** must be at the 300 level or above. Additionally, no more than **6 credits** from a student's minor or certificate program can also be applied to a student's major, and no more than **6 credits** may be taken at an institution other than the University of Maryland, College Park. No course with an earned grade below C- may count towards the minor or certificate.

Contact Leadership Studies at leadershipstudies@umd.edu with questions and interests in the Minor.

Special Education Minor

Note: The minor in Special Education is under review. For further information, please contact the Office of Student Services, 1204 Benjamin Bldg, 301-405-2364 or ed-advising@umd.edu.

The minor in Special Education provides opportunities for undergraduates to enroll in a sequence of education courses to determine if working with students with disabilities is a viable career option. For individuals interested in pursuing this career option, a one-year M.Ed. program, leading to certification as a special educator, is also available.

Minor and M.Ed. Teacher Certification Program

For individuals interested in pursuing special education teacher certification, a one year M.Ed. program is available after completing the 18-hour minor in special education and an undergraduate degree. To be admitted to this M.Ed. Special Education program, program applicants must apply to the graduate school (www.gradschool.umd.edu (http://www.gradschool.umd.edu)) during their senior year and pass the Praxis CORE at scores established by the Maryland State Department of Education https://education.umd.edu/test-scores-2 (https://education.umd.edu/test-scores-2/). All teacher candidates at the University of Maryland must pass Praxis II prior to the teaching internship.

For further information, please contact Office of Student Services, 1204 Benjamin Bldg, 301-405-2364 or ed-advising@umd.edu.

Requirements

- 18 credits are required for this minor
- Two courses (6 credits) may overlap with a student's major
- Individuals pursuing the minor must select one of three age-based specializations: Early Childhood, Elementary, or Secondary Special Education.
- The minor incorporates coursework to meet the *Maryland State Department of Education (MSDE) reading requirements* that are part of the special education teacher certification requirements.
- A cumulative 2.75 GPA and junior status (60 credits) is required for enrollment in all professional education courses (i.e., all courses required for the minor except EDSP210/EDSP470).
- All courses for the minor must be passed with a grade of 'C-' or better.
- No more than two courses (6 credits) may be taken at an institution other than the University of Maryland.

Course	Title	Credits

Human Development and Quantitative Methodology

College of Education
3304 Benjamin Building
301-405-2827
hdqm@umd.edu
education.umd.edu/HDQM (http://www.education.umd.edu/HDQM/)

The core mission of the Department of Human Development and Quantitative Methodology (HDQM) is to advance knowledge and practice through teaching and research related to human development and learning, and to quantitative methodologies critical to measurement, statistics, and evaluation in the educational, behavioral, and social sciences.

Our programs offer exciting courses on topics such as how children learn, prosocial behavior and moral development, socio-cultural contexts of development, educational neuroscience, and sophisticated approaches to data analysis.

Programs

Major

- Early Childhood/Early Childhood Special Education Major (p. 341)
- Human Development Major (p. 342)

Minor

- Human Development Minor (p. 344)

For Advanced Undergraduates

Measurement, Statistics and Evaluation in the College of Education offers a 5th Year M.A. program for undergraduates interested in quantitative methods. The purpose of this program is to allow highly motivated undergraduates the opportunity to develop their skills in quantitative methods. Students complete a B.A. (or B.S.) in their chosen major area along with an M.A. in Measurement, Statistics and Evaluation in just five years. Courses offered by this unit may be found under the following acronym: EDMS.

Advising

Advising is mandatory for all undergraduates desiring acceptance into the Early Childhood/Early Childhood Special Education Teacher Education Program. For more information or to schedule an advising appointment, contact the Office of Student Services at 301-405-2364.

Opportunities

Undergraduate Research Experiences

There are a variety of opportunities for undergraduate students to participate in research in Human Development. Faculty's research focuses on a wide number of topics pertaining to human development and learning.

Fieldwork Opportunities

An integral component of the Early Childhood/Early Childhood Special Education program at the University of Maryland is a series of field placements (N=5) of increasing complexity/responsibility that serve to complement university coursework. Field placements contribute to the programmatic mission of preparing knowledgeable, skilled and reflective practitioners who base their practice on theory, research, and pedagogy appropriate for the developing child. Interns observe, interact and teach children ages 0 (6 weeks per child care licensing) to 8 in authentic settings.

The first of these field placements typically occurs in the sophomore year (and occasionally during spring of the freshman year) and is associated with a course entitled EDHD220, Exploring Teaching in Early Childhood/ Early Childhood Special Education. Early childhood/Early Childhood Special Education candidates experience a semester-long practicum (one half day per week) with both preschool and school age children.

During fall of the junior year, the practicum is linked to EDSP420 Human Development and Learning in School Settings: Infants-Toddlers. Candidates complete selected observations of infants in child care centers, family childcare centers and community-based institutions that care for infants. These observations are followed by an eight-week placement in a child care setting in which candidates observe and interact with toddlers. The culminating early field placement begins in the spring semester of the junior year. Candidates experience a semester-long placement with three, four or five year olds in a Head Start or pre-kindergarten classroom. The candidates spend six hours per week in the classroom plus a full week of half days.

Internships

The capstone experience for the program is a yearlong internship in a public Professional Development School (PDS), which is a Title I school with large populations of students of color, English Language Learners and those who receive free and reduced meals. The internship is divided into two phases, approximately 110 days over the course of two consecutive semesters. For more details, contact the Early Childhood/ Early Childhood Special Education program advisor at 301-405-2364.

Honors Program

Human Development offers two University Honors seminars:

- HONR219Y: Merging the Multiple Me's: The Developmental Origins of the Integrated Young Adult Self
- HONR228R: Parenting and Poverty: The Effects of Growing Up Poor on Children's Development

Scholarships and Financial Assistance

The department offers the Marie Davidson scholarship to two undergraduate EC/ECSE majors each year. The department of Counseling, Higher Education and Special Education offers the Abbey scholarship to one undergraduate in EC/ECSE each year. In addition, the College of Education offers a number of other scholarships. Please visit www.education.umd.edu/studentinfo/scholarships.html (http://www.education.umd.edu/studentinfo/scholarships.html) for more information.

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

Early Childhood/Early Childhood Special Education majors are eligible for the Ordwein Scholarship, the Abbey Scholarship and the Marie Davidson Award. Information is available in the Office of Student Services, Room 1204 Benjamin.

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

Human Development houses the Center for Children, Relationships and Culture, which provides research opportunities for undergraduate students. Faculty in Human Development often provide undergraduates with research experiences in their individual laboratories.

The Center for Young Children provides developmentally appropriate education and care for children aged three through kindergarten. The Center provides research opportunities that involve observing children in their classrooms as part of course requirements in various EDHD undergraduate courses.

The Center for Early Childhood Education and Intervention (CECEI) conducts high-quality research on early childhood education and early intervention programs in order to inform state and federal policy, translate research into scalable education programs and best practices, build

capacity in schools and communities, and promote family engagement in their children's education. CECEI offers varied research opportunities for undergraduates. To apply, please submit a cover letter, unofficial transcript, resume, and writing sample to cecei@umd.edu

Early Childhood/Early Childhood Special Education Major

The Human Development program offers a major in Early Childhood/ Early Childhood Special Education (EC/ECSE) (in collaboration with the Department of Counseling, Higher Education and Special Education). Faculty in the Human Development program also teach courses designed for pre-service and in-service teachers in the College of Education, as well as students from other departments across campus who are seeking an education minor or who desire to work with children and adolescents in school settings. These courses focus on child and adolescent development, language acquisition, cognition, motivation, and reading. In addition, the Human Development program offers undergraduate courses that help students meet other degree requirements. Courses offered by the Human Development program may be found under the following acronym: EDHD.

Faculty in Human Development provide undergraduates with research experiences in their individual laboratories.

The Center for Young Children provides developmentally appropriate education and care for children aged three through kindergarten. The Center provides research opportunities that involve observing children in their classrooms as part of course requirements in various EDHD undergraduate courses.

Graduates of the Early Childhood/Early Childhood Special Education (EC/ECSE) program receive a Bachelor of Science degree and meet the Maryland certification requirements for teaching early childhood special education (birth through grade three) and early childhood general education (preschool through grade three).

Admission to the Major

Application to the Early Childhood/Early Childhood Special Education Professional Teacher Education Program must be made by May 1, prior to beginning professional courses. Admission procedures and criteria are explained on the College of Education, Overview tab (p. 329). The Early Childhood/Early Childhood Special Education program adheres to the college's professional education admissions requirements. In addition to the College of Education selective admissions criteria, EC/ECSE majors must meet the following gateway requirements:

(1) Completion of a four-credit laboratory physical science, a four-credit laboratory biological science, Elements of Numbers and Operations (MATH212), and Elements of Geometry and Measurement (MATH213) with a minimum grade of 'C-' in each class and a 2.7 cumulative GPA across all four courses.

(2) Completion of Exploring Teaching in Early Childhood General and Special Education (EDHD220 or approved equivalent) with a grade of 'B-' or better and EDHD210.

For additional details regarding the professional education admission requirements, see the Overview (p. 329) on the College of Education page. Detailed information regarding the gateway requirements for the EC/ECSE program is available in the Office of Student Services, Room 1204 Benjamin.

Placement in Courses

The EC/ECSE Program has designated pre-professional courses and a specified sequence of professional courses. Before teacher candidates may enroll in courses identified as part of the professional sequence, they must first gain admission to the Early Childhood/Early Childhood Special Education program.

Program Objectives

The mission of the Early Childhood & Early Childhood Special Education program is to prepare knowledgeable and skilled teachers who utilize theory, research and pedagogy, to respectfully and responsively teach and affect the lives of children, with and without disabilities, who come from culturally diverse and low socioeconomic backgrounds.

Program Learning Outcomes

Program learning outcomes for the Early Childhood/Early Childhood Special Education (EC/ECSE) major are driven by the standards of the Council for Exceptional Children (CEC), National Association for the Education of Young Children (NAEYC), Council for the Accreditation of Educator Preparation (CAEP), as well as the Initial certification requirements of the Maryland State Department of Education and the UMD College of Education Conceptual Framework.

1. EC/ECSE teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (National Association for the Education of Young Children – NAEYC; Council for Exceptional Children - CEC), state (MSDE), and institutional standards. They demonstrate their knowledge through inquiry, critical analysis, and synthesis of the subject.
2. EC/ECSE teacher candidates can effectively plan classroom-based instruction or activities for their roles as early childhood educators. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. EC/ECSE teacher candidates accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. EC/ECSE teacher candidates are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (NAEYC and CEC), state (MSDE), and institutional standards.
5. EC/ECSE teacher candidates demonstrate fluency in each of the seven Maryland Teacher Technology Standards (http://www.marylandpublicschools.org/programs/Pages/ITSLM/slm/teacher_standards.aspx/).

Requirements

Pre-Professional Requirements

The following courses are required in the program of studies for Early Childhood and may also satisfy the University's general education requirements. See departmental worksheets and advisors for additional information.

Course	Title	Credits
College Requirements (p. 330)		
PSYC100	Introduction to Psychology	3
SOCIAL SCI	ANTH, ECON, GEOG, GVPT, HIST, SOCY	3
HIST200	Interpreting American History: Beginnings to 1877	3
BIO SCI	Biological Science with Lab	4
PHYS SCI	ASTR, CHEM, GEOL, PHYS with Lab	4
TLPL250	Historical and Philosophical Perspectives on Education	3
or TLPL360	Foundations of Education	
Other Pre-Professional Requirements		
MATH212	Elements of Numbers and Operations	3
MATH213	Elements of Geometry and Measurement	3
CREATIVE ART: One of the following:		2-3
THET120	Introduction to Acting	
MUED155	Fundamentals for the Classroom Teacher	
TLPL202	Good Stories: Teaching Narratives for Peace and Justice	
TLPL331	Teaching Art in the Elementary School	
ARTT100	Two-Dimensional Design Fundamentals	
or ARTT110	Elements of Drawing I	
ARTH221	Color: Art, Science, and Culture	
EDHD210	Foundations of Early Childhood Education	3
EDHD220	Exploring Early Childhood General and Special Education	3
Total Credits		34-35

Professional Courses

The Early Childhood (EC)/Early Childhood Special Education (ECSE) Professional Block I starts only in the Fall semester and is a prerequisite to Professional Block II which is offered only in the Spring semester. Following Professional Block II is Professional Block III, which is taken in the Fall semester of the yearlong teaching internship. A cumulative grade point average of 2.75 must be maintained after admission to the Early Childhood/Early Childhood Special Education program. All pre-professional requirements and professional courses must be completed with a minimum grade of 'C-' and must be completed prior to the yearlong internship. Teacher candidates must obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards. See advisor for program planning. Additional information regarding the requirements for the yearlong internship is included in the Requirements Tab on the College of Education page.

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on a test of basic skills and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for admission to the final, culminating semester of the yearlong internship and for graduation. Students must complete five-semesters of field placement, to include the yearlong internship which takes place in a public Professional Development School (PDS)/collaborating partner school.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Human Development Major

The field of Human Development is concerned with mechanisms of growth and change across the life course. Thus, Human Development Majors will explore the biological, social, emotional, and cognitive

processes of development from conception to old age in diverse social and cultural contexts. Students in the Human Development Major will participate in an integrated set of educational experiences to acquire a comprehensive body of interdisciplinary scholarly knowledge in human development, learning, and research methodology. Introductory and advanced course work, as well as laboratory research apprenticeships or field experiences are essential components of the proposed curriculum.

Program Learning Outcomes

1. Develop a comprehensive knowledge base in human development
2. Understand central questions in the field of human development and the major theoretical approaches to them
3. Describe the sequence of typical development and the underlying processes in the domains of cognitive, linguistic, social, and emotional development
4. Recognize the importance of biology and environment, including context and culture on children's development and learning
5. Understand how human development influences educational practice, and how different educational approaches affect learning and development
6. Appreciate how theory and scientific research are addressed in applied in issues relating to children, family, education, and public policy
7. Develop core critical thinking and scientific literacy skills
8. Formulate answerable questions about important issues in learning and development, as well as generate and evaluate methods for answering those questions
9. Critically evaluate and reason about empirical evidence relevant to important issues in learning and development, and make informed arguments and decisions on the basis of empirical evidence
10. Critically evaluate current policies and clinical/educational approaches that address important societal issues on the basis of evidence
11. Apply these critical thinking and scientific literacy skills across a wide range and intersection of disciplines in development and education, in both research and applied settings
12. Develop understanding of and value ethical and social responsibility
13. Understand and apply ethical standards in research and practice in human development
14. Show awareness of the diversity of race, cultures, and contexts in which humans develop and grow
15. Apply evidence from human development research to improve policy and practice that fosters ethical and social responsibility and promotes social justice
16. Develop key skills for communication and writing
17. Clearly summarize, assess, and cite empirical evidence and theoretical perspectives, including describing methodology, results, limitations, and implications for a broader audience
18. Formulate clear written arguments and substantively defend them with empirical evidence
19. Present clear evidence-based arguments orally in ways that facilitate communication across a range of academic and non-academic audiences
20. Develop key professional skills
21. Apply both specific knowledge in human development as well as general critical thinking, scientific literacy, and communication skills to career goals
22. Organize, execute, and manage complex, multi-step research and writing projects
23. Develop meaningful, purposeful, and realistic career goals for professional life post-graduation

Requirements

Course	Title	Credits
Gateway Courses		
EDHD200	Paradigms and Perspectives in Human Development	3

EDHD445	Guidance of Young Children	
EDHD4DD	(Applied Measurement: Issues and Practices)	
Pro-Seminar and Internship/Field Experience [3]		
To be completed in the final year.		
EDHD4AA	(Pro-Seminar in Human Development)	3
EDHD489	Field Experiences in Education	3 (x2)
Total Credits		39-42

[1] Any core course listed above for which core course credit was not given may serve as an elective. This set of courses should be chosen to align with the student's individual program goals and could include extradepartmental course offerings.

[2] Students may, at the invitation of individual faculty, substitute EDHD498, for three of the required 12 credit elective component. For situations in which students wish to pursue a double major, Family Science Majors may substitute FMSC302 for EDHD306, and Psychology Majors may substitute PSYC300 for EDHD306 and PSYC200 for EDMS451 in the Human Development major

[3] Students may elect to substitute six credits of upper (400 level) electives in place of the internship experience, although internship experience is strongly recommended.

Psychology Electives

Course	Title	Credits
PSYC200	Statistical Methods in Psychology	3
PSYC206	Developmental Biopsychology	3

SOCY442	The Black Middle Class	3
SOCY444	Sociology of Children	3
SOCY467	Sociology of Education	3

Family Science Electives

Course	Title	Credits
FMSC105		3
FMSC290	Family Economics	3
FMSC330	Family Theories and Patterns	3
FMSC332	Children in Families	3
FMSC430	Gender Issues in Families	3
FMSC431	Family Crises, Emergencies and Interventions	3
FMSC460	Violence in Families	3

Other Possible Electives

Electives approved by program advisor from the following departments to satisfy individual students' program goals:

- AASP – African American Studies
- AAST - Asian American Studies
- AMST – American Studies
- ANTH - Anthropology
- BMGT – Business and Management
- CCJS – Criminology and Criminal Justice
- ECON - Economics
- GVPT – Government and Politics
- HESP – Hearing and Speech Sciences
- HLTH - Health LING - Linguistics
- RELS – Religious Studies
- SLLC – School of Languages Literatures and Cultures
- SPHL – Public Health
- STAT – Statistics and Probability
- WMST – Women's Studies

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Human Development Minor

3304 Benjamin Building
301-405-2827
education.umd.edu/HDQM (http://www.education.umd.edu/HDQM/)

The Human Development Undergraduate Minor provides a rigorous foundation in Human Development for students who wish to support their major field of study with knowledge of human growth and development across multiple domains and developmental stages, as well as knowledge related to principles of teaching and learning and/or who desire active participation in human development research under the supervision of Human Development faculty in laboratory settings.

Students with a 2.0 minimum grade point average may seek enrollment in the program, during which they must complete 15-24 credits of coursework. Only courses in which the student has earned a grade of 'C-'or higher will count toward the minor. Students must take EDHD200, EDHD306 and choose other courses from at least two of the other areas of human development study, including Lifespan, Cognitive and Social. Students who have taken FMSC332 will be required to choose a course other than EDHD411 from the list of courses available in Area 4: Lifespan. Students who apply to the Minor and who have taken FMSC302 or PSYC300 may substitute either course for EDHD306. At least nine credits must be at the 300 or 400 level.

Students interested in taking this minor should contact the Office of Student Services in the College of Education. Please email educminors@umd.edu or call 301-405-2364 for more information or to arrange an advising appointment. The Student Services office is located in Room 1204, Benjamin.

Requirements

Course	Title	Credits
EDHD306	Research Methods in Human Development [1]	3
EDHD200	Paradigms and Perspectives in Human Development	3
Select courses from at least two of the following areas: [2]		12-21
Cognitive		
Social		
Research		
Lifespan		
Total Credits		18-27

1 EDHD306 is a required course for the EDHD Minor; students may not substitute any other research course with the exception of Family Science majors who may take FMSC302 or Psychology majors who may take PSYC300.

2 Course selections might include three credits of EDHD228 (Research Experiences in Human Development), EDHD319 (Selected Special Topics in HD), EDHD386 (Experiential Learning), EDHD489 (Field Experiences in Education), or EDHD498 (Special Problems in Education). These courses involve directed study with a faculty advisor.

Area 1: Cognitive

Course	Title	Credits
EDHD201	Learning How to Learn	3
EDHD231	Inside 21st Century Creativity: How Creative Ideas, Concepts, and Products are Generated	3
EDHD310	Your Brain on Education: The Neuroscience of Learning and Development	3
EDHD420	Cognitive Development and Learning	3
EDHD425	Language Development and Reading Acquisition	3
EDHD426	Cognitive and Motivational Literacy Content	3
EDHD436	Cognition and Motivation in Content Area Literacy for Middle-School Students	3
EDHD460	Educational Psychology	3

Area 2: Social

Course	Title	Credits
EDHD221	Aggression and Violence in Everyday Life: Can Violence Be Prevented?	3
EDHD402	Social Development	3
EDHD421	Peer Relations	3
EDHD430	Adolescent Violence	3
EDHD445	Guidance of Young Children	3
HONR219	Honors Seminar (HONR219Y)	1-3
HONR228	Honors Seminar (HONR228R)	1-3

Area 3: Research

Course	Title	Credits
EDMS451	Introduction to Educational Statistics	3

Area 4: Lifespan

Course	Title	Credits
EDHD230	Human Development and Societal Institutions	3
EDHD320	Human Development Through the Life Span	3
EDHD400	Introduction to Gerontology	3
EDHD401	Promoting Optimal Aging	3
EDHD411	Child Growth and Development	3
EDHD412	Infant Development	3
EDHD413	Adolescent Development	3
EDHD414	Development of the Scientific Mind Across the Lifespan	3
EDHD440	Adult Development	3

General Education Designations

Course	Title	Credits
History and Social Science		
EDHD201	Learning How to Learn	3

Teaching and Learning, Policy and Leadership

2311 Benjamin Building
301-405-3324
https://education.umd.edu/academics/departments/tlpl (https://education.umd.edu/academics/departments/tlpl/)

The Department of Teaching and Learning, Policy and Leadership is one of three newly formed departments within the College of Education. It is a union of former units Curriculum and Instruction (EDCI), Education Policy Studies (EDPS) and Organizational Leadership and Policy Studies (OLPS). Interrelated program areas currently include: Art Integration, Curriculum Theory and Development, Education Policy, Elementary Education, English Education, Literacy Education, Mathematics Education, Middle School Education, Minority and Urban Education, Organizational Leadership, Reading Education, Science Education, Second Language/TESOL, Social Studies Education, Professional Development/Teacher Education, and Sociocultural Foundations of Education.

Most of the college's teacher preparation programs (including elementary, middle, and secondary education) are housed in TLPL. Additional departmental programs encourage thoughtful and responsive explorations of education policies, practices and related social issues. Graduate students are prepared to create and critique alternative courses of action to enhance the quality of education for all persons and to redress the social conditions that restrict collective democratic aspirations.

The department offers undergraduate and graduate study leading to the Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Master of Arts (M.A.) (thesis and non-thesis options), Master of Education (M.Ed.), Doctor of Education (Ed.D.) and Doctor of Philosophy (Ph.D.).

Foreign-Language Requirement, Bachelor of Arts Degree

Beginning fall 2011 high school language will no longer place undergraduates in foreign language classes nor exempt individuals from taking the foreign language placement exam. All teacher candidates planning to study a foreign language will be required to take a foreign language placement test. This test is used to determine the appropriate placement prior to course registration. For more information, contact the Office of Student Affairs in the College of Arts and Humanities at arhuadvising@umd.edu or 301-405-2108.

Programs

Majors

- Elementary Education Major (p. 346)
- Middle School Education Major (p. 348)
- Secondary Education Major - Art (p. 351)
- Secondary Education Major - English (p. 352)
- Secondary Education Major - Mathematics (p. 354)
- Secondary Education Major - Science (p. 356)
- Secondary Education Major - Social Studies (p. 357)
- Secondary Education Major - World Language (p. 360)

Minors

- Second Language Education Minor (p. 350)
- Secondary Education Minor (p. 362)

Certificate

- Secondary Education Certificate (p. 350)

Advising

Advising is mandatory for all elementary, middle school math and science and secondary education majors. For more information or to schedule an advising appointment, contact the Office of Student Services (301-405-2364).

Opportunities

INTERNSHIPS

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a public PDS school setting.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The College of Education also offers a number of scholarships. For more information, see http://www.education.umd.edu/studentinfo/scholarships.html.

ACADEMIC PROGRAMS AND DEPARTMENTAL FACILITIES

In addition to the double major program, the Department of Teaching and Learning, Policy and Leadership offers a Five-Year Integrated Master's with Certification Program (IMCP). This program is intended for talented undergraduates with a minimum GPA of 3.0 who seek to combine undergraduate studies in the content area and professional education as a foundation for a focused professional year at the graduate level leading to secondary-level certification in the subject field and the Master of Education degree. As undergraduates, teacher candidates are double majors in both secondary education and their content area. While double majors, undergraduates complete a minimum of 12 credits in professional education studies related to teacher certification requirements. In their junior or senior year they apply to the graduate program. If they are admitted to the graduate program they enroll in a full-year internship. These individuals will also complete graduate-level professional studies that make them eligible for initial teacher certification and the Master of Education degree.

Information about this secondary education program option is available at https://education.umd.edu/Academics/Programs/teacher_education/TECHprograms.html (https://education.umd.edu/Academics/Programs/teacher_education/TECHprograms.html.html).

Elementary Education Major

2311 Benjamin Building
301-405-3324

https://education.umd.edu/academics/departments/tlpl (https://education.umd.edu/academics/departments/tlpl/)

Teaching and Learning, Policy and Leadership offers an undergraduate curriculum in elementary education that leads to the Bachelor of Science. Courses offered in this program may be found under the following acronyms: EDCI, and TLPL. Graduates of the Elementary Education program are prepared to teach grades 1 through 6, and meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education (MSDE).

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria are explained on the College of Education, Overview tab (p. 329).

Placement in Courses

The Elementary Education program includes both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. To be eligible to enroll in professional sequence courses during the fall semester, prospective majors must submit a completed application form by May 1st of the preceding spring semester. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Program Learning Outcomes

1. Elementary Education teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (Association for Childhood Education International, ACEI), state (MSDE), and institutional standards.
2. Elementary Education teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Elementary Education teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Elementary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (ACEI), state (MSDE), and institutional standards.
5. Elementary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven Maryland Teacher Technology Standards.

Requirements

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admission requirements and be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators and to attain qualifying scores for the State of Maryland on a test of basic skills and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience is the yearlong internship, which takes place in a Professional Development School.

TLPL488	Special Topics in Education (TLPL488I Culturally Responsive Language Instruction)	3
Total Credits		112

[1] The 14-16 credits of math and science must be completed with a minimum grade of 'C-' in each course and an overall GPA of 2.7.

[2] Minimum grade, 'B-'

[3] Courses which may satisfy the university's general education requirements and which are required in the Elementary Education program of studies

[4] The Student Services Advising Office has detailed information regarding each area of emphasis. All pre-professional course work must be completed with a 'C-' or better.

Notes:

- All pre-professional and professional courses must be completed with a grade of 'C-' or better.
- All courses must be completed before the year-long internship unless an exception has been approved by the Student Services Advising Office.
- A passing score on Praxis II is required before enrollment in the teaching internship.

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on a test of basic skills and the Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Professional Development School (PDS)/collaborating partner school.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Curriculum and Instruction - Elementary Education (EDCI)

Fieldwork Opportunities

TLPL251 (*Looking Inside Schools and Classrooms*) typically is taken during the sophomore year. This course, which is part of the gateway requirements for admission to the Elementary Education Teacher Education Program, provides an exploration of teaching in the public schools. This course includes a three hour per week field component.

Internships

During the senior year of the program, teacher candidates complete a yearlong internship in a network of professional development school settings (PDS Networks). These sites reflect the linguistic, ethnic and economic diversity that is characteristic of the Greater Baltimore-Washington D.C. region. For additional information about the yearlong internship, see the College of Education entry.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The College of Education also offers a number of scholarships. For more information, see: http://www.education.umd.edu/studentinfo/scholarships.html.

Middle School Education Major

2311 Benjamin Building
301-405-3324
https://education.umd.edu/academics/departments/tlpl (https://education.umd.edu/academics/departments/tlpl/)

Teaching and Learning, Policy and Leadership offers undergraduate curricula in Middle School Education that lead to the Bachelor of Science degree and prepare teachers for teaching in middle schools, grades 4-9.

Graduates of the Middle School Math and Science (grades 4-9) program meet the requirements for certification in Maryland and additional states

that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria are explained in the College of Education Overview (p. 329).

Placement in Courses

The Middle School program includes both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Program Learning Outcomes

1. Middle School teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (Association for Middle Level Education – AMLE); state (MSDE); and, institutional standards.
2. Middle School teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Middle School teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyze student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Middle School teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (AMLE); state (MSDE); and, institutional standards.
5. Middle School teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven Maryland Teacher Technology Standards.

Requirements

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Technical Standards and to attain qualifying scores for the State of Maryland on the Praxis I and Praxis II assessments. Praxis I is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a Collaborating School (i.e., partner school, PDS - Professional Development School).

TLPL488	Special Topics in Education (TLPL488B Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Education)	2
Total Credits		91-92

Other Requirements for the Major

An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators standards and to attain qualifying scores for the State of Maryland on a test of basic skills (http://www.marylandpublicschools.org/about/Pages/DEE/Certification/testing_info/praxis1.aspx) and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a public school PDS setting.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Opportunities

Curriculum and Instruction - Middle School (EDCI)

Internships

The yearlong internship, which is the culminating experience in the teacher preparation program, takes place in a public school setting.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The College of Education also offers a number of scholarships. For more information, see: http://www.education.umd.edu/studentinfo/scholarships.html.

Second Language Education Minor

The minor in Second Language Education provides opportunities for undergraduate subject area majors to complete a sequence of courses that helps them prepare for careers as teachers of English as a second language in US schools and/or prepare them for roles as teachers of English as a foreign language in international settings. If the undergraduate pursuing the minor desires to enter the ESOL teacher preparation track, the candidate may apply for the Five Year Integrated Program option or the one year MCERT Program option; in either case, satisfactorily completed courses in the minor that meet program requirements will be applied to the certification program requirements. Individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with that program.

The minor in Second Language Education includes coursework from Curriculum and Instruction and Human Development. The curriculum provides a foundation in second language learning and pedagogy, adolescent learning, cross-cultural issues and understanding, and curricular and pedagogical issues which support reading and writing in a second language context. A number of the courses include field components that provide candidates with direct experience in working with second language learners. The minor incorporates coursework required for TESOL certification from the Maryland State Department of Education.

Requirements

Courses required for the minor are:

Course	Title	Credits
EDHD413	Adolescent Development	3
TLPL440	Issues in the Education of English Language Learners	3
TLPL441	Pedagogy of Teaching English Language Learners [1]	3
TLPL442	Foundations of Literacy and Biliteracy Development [1]	3
TLPL443	Understanding Cross-Cultural Communication for Teaching English Language Learners	3
TLPL444	English Grammar Pedagogy for Teachers of English Language Learners	3
Total Credits		18

[1] Courses that include required field experiences

Secondary Education Certificate

College of Education

1204 Benjamin Building
301-405-2364
www.education.umd.edu/studentinfo/ (http://www.education.umd.edu/studentinfo/)

The Certificate Program in Secondary Education is currently under review. Please see an advisor in Teaching and Learning, Policy and Leadership (TLPL) for more information on this pathway and other pathways to certification.

Secondary Education Major - Art

Art Education (pre K-12)

The Art Education curriculum is designed to prepare individuals to teach art in elementary through secondary schools. It provides prospective art teachers with a knowledge base about the theories and best practices relevant to effective pedagogy, as well as current education and art education goals and standards. Teacher candidates admitted to Art Education complete the Bachelor of Arts and are required to have an academic content major.

Secondary Education Pathways

The Department of Teaching and Learning, Policy and Leadership offers undergraduate curricula in secondary education that lead to the Bachelor of Science or Bachelor of Arts degree and prepares teachers in various subject areas for teaching in middle schools, secondary schools (grades 7-12), and PreK-12 settings (Art and World Languages).

Multiple pathways are available for individuals who are interested in teaching at the secondary level:

The Dual Major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling;

The five-year Integrated Master's with certification program. See http://www.education.umd.edu/MCERT/.

Graduates of the Secondary Education programs meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Note: The Mathematics Education and Science Education programs are currently under review. For more information, please visit the Terrapin Teachers website http://terrapinteachers.umd.edu/.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria can be found on the College of Education, College Requirements tab (p. 329).

Placement in Courses

The Secondary Education programs include both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program. Admission procedures and criteria are explained in the College of Education entry. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Program Learning Outcomes

1. Secondary Education teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (e.g., National Council of Teachers of English - NCTE, National Council of Teachers of Mathematics - NCTM, etc.); state (MSDE); and, institutional standards.
2. Secondary Education teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Secondary Education teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyzes student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Secondary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (e.g., NCTE, NCTM, etc.); state (MSDE); and, institutional standards.
5. Secondary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven Maryland Teacher Technology Standards.

For more information on the sequence of pre-professional and professional courses, consult the Curriculum and Instruction program advisor.

Requirements

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators (MCEE) standards and to attain qualifying scores for the State of Maryland on a test of basic skills (Praxis CORE, SAT, ACT or GRE) and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a public Collaborating School (i.e., partner school, PDS - Professional Development School).

The department of Teaching and Learning, Policy and Leadership offers a variety of secondary education programs-tracks leading to the Bachelor of Science and Bachelor of Arts degrees. Teacher candidates who

complete a secondary education program at UM meet the Maryland State Department of Education requirements for the Professional Eligibility Certificate. Consult the Curriculum and Instruction program advisor for updated information.

Secondary Math Education and Science Education are part of Terrapin Teachers, an innovative program designed to produce a new generation of highly qualified instructors in STEM subjects. In this program, you can earn a STEM degree PLUS eligibility for certification as a middle or high school teacher. For more information about this program please visit our website at the following link: tt.umd.edu (http://www.tt.umd.edu/).

Secondary Education Major - English

English Education (Grades 7-12)

Undergraduates who complete the English Education curriculum receive the Bachelor of Arts degree and meet the MSDE requirements for the Professional Eligibility Certificate. Teacher education candidates admitted to English Education are required to have an academic content major and must complete the following program requirements. Please check with the ENGL department regarding specific coursework.

Secondary Education Pathways

The Department of Teaching and Learning, Policy and Leadership offers undergraduate curricula in secondary education that lead to the Bachelor of Science or Bachelor of Arts degree and prepares teachers in various subject areas for teaching in middle schools, secondary schools (grades 7-12), and PreK-12 settings (Art and World Languages).

Multiple pathways are available for individuals who are interested in teaching at the secondary level:

The Dual Major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling;

The five-year Integrated Master's with certification program. See http://www.education.umd.edu/MCERT/.

Graduates of the Secondary Education programs meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Note: The Mathematics Education and Science Education programs are currently under review. For more information, please visit the Terrapin Teachers website http://terrapinteachers.umd.edu/.

Secondary Education Major - Science

Science Education (Grades 7-12)

Please check with the science department regarding specific course work.

Teacher candidates may earn credentials in biology, chemistry, geology, physics or agriculture. Undergraduates admitted to the secondary program in science education must complete a major in their area of specialization. Candidates should consult the respective departments for requirements. For more information, please see https://education.umd.edu/academics/programs/undergraduate/science-education-terrapin-teachers-bachelor-science-bs (https://education.umd.edu/academics/programs/undergraduate/science-education-terrapin-teachers-bachelor-science-bs/).

Secondary Education Major - Social Studies

Social Studies Education (Grades 7-12)

The Social Studies Education program is under review. Contact an advisor in 1207 Benjamin Building for updated program information.

Undergraduates in the Social Studies Education program may select an area of concentration in history, geography, or government and politics. Each concentration follows the general requirements of their respective majors in addition to the pre-professional/subject area supporting course work required for certification. Teacher candidates may elect to complete the program for certification in Social Studies by choosing one of three options for completing the program.

Secondary Education Pathways

The Department of Teaching and Learning, Policy and Leadership offers undergraduate curricula in secondary education that lead to the Bachelor of Science or Bachelor of Arts degree and prepares teachers in various subject areas for teaching in middle schools, secondary schools (grades 7-12), and PreK-12 settings (Art and World Languages).

They accurately assess and analyzes student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Secondary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (e.g., NCTE, NCTM, etc.); state (MSDE); and, institutional standards.
5. Secondary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven Maryland Teacher Technology Standards.

Requirements

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators (MCEE) standards and to attain qualifying scores for the State of Maryland on a test of basic skills (Praxis CORE, SAT, ACT or GRE) and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a public Collaborating School (i.e., partner school, PDS - Professional Development School).

The department of Teaching and Learning, Policy and Leadership offers a variety of secondary education programs-tracks leading to the Bachelor of Science and Bachelor of Arts degrees. Teacher candidates who complete a secondary education program at UM meet the Maryland State Department of Education requirements for the Professional Eligibility Certificate. Consult the Curriculum and Instruction program advisor for updated information.

Secondary Math Education and Science Education are part of Terrapin Teachers, an innovative program designed to produce a new generation of highly qualified instructors in STEM subjects. In this program, you can earn a STEM degree PLUS eligibility for certification as a middle or high school teacher. For more information about this program please visit our website at the following link: tt.umd.edu (http://www.tt.umd.edu/).

Option I: History

This option requires completion of the foreign language requirement and is primarily for those teacher candidates earning their initial degree. Requires 68 semester hours of which 39 credit hours must be in history.

Note:The history major requires completion of UNIV101 and a foreign language requirement through the intermediate level. See ARHU advising (p. 135) for details.

Course	Title	Credits
College Requirements (p. 330)		
Pre-Professional/Subject Area Courses		
Introductory Courses:		
HIST200	Interpreting American History: Beginnings to 1877	3
or HIST201	Interpreting American History: From 1865 to the Present	
HIST208	Historical Research and Methods Seminar	3
HIST elective - Latin America, Middle East, East Asia or Africa		3
HIST elective- Britain and Western Erurope OR Eastern Europe and Russia		3
HIST408	Senior Seminar	3
Select 24 credits of History Electives [1]		24
In addition to the required credit hours in history, the social studies education program requires 29 credit hours of course work in geography and the social sciences as outlined below:		
GEOG202	Introduction to Human Geography	3
Select one of the following:		3
ECON111	Thinking Like an Economist	
ECON175	Inequality: Determinants and Policy Remedies	
ECON181	Putting a Price on the Environment: An Economist's Perspective on Sustainability	
ECON200	Principles of Microeconomics	
ECON201	Principles of Macroeconomics	
Lower-level ECON I-series course		
GVPT170	American Government	3
SOCY100	Introduction to Sociology	3
or SOCY105	Introduction to Contemporary Social Problems	
Pre-Professional/Education Courses		
Select one of the following:		3
TLPL250	Historical and Philosophical Perspectives on Education	
TLPL360	Foundations of Education	
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Literacy Content	3
TLPL300	Digital Learning Tools and Communities	1
TLPL488	Special Topics in Education (TLPL488B Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Educaiton)	2
Professional Education Courses		
TLPL470	Knowledge, Reasoning, and Learning in Secondary Social Studies (Fall only, Junior Year)	3
TLPL471	Curriculum, Teaching, and Assessment in Secondary Social Studies (Fall only, Senior Year) [3]	3

TLPL479	Field Experiences in Education (TLPL479B Field Experience in Secondary Social Studies Teaching, Fall only) [2]	2
TLPL478	Professional Seminar in Education (TLPL478B Professional Seminar in Education: Social Studies)	2
TLPL489	Internship in Education (TLPL489B Internship in Secondary Schools)	12
Total Credits		85

[1] 18 credits must be at the junior/senior level,15 credits must be in a concentration, one course must be non-Western

[2] TLPL471 and TLPL479B are taken concurrently

Option II: Geography

This option is primarily for those teacher candidates earning their initial degree and requires 64 credits of Pre-professional/Subject Area course work. Thirty-five credit hours must be in geography. Nine credit hours of 300 level Gateway courses must be taken in physical geography, human geography, and geographic techniques. The remaining 18 credit hours must include a quantitative methods course and 15 credit hours of upper level systematic geography courses.

Course	Title	Credits
College Requirements (p. 330)		
Pre-Professional/Subject Area Courses		
Primary Courses:		
GEOG201	Geography of Environmental Systems	3
GEOG211	Geography of Environmental Systems Laboratory	1
GEOG202	Introduction to Human Geography	3
GEOG212	Career Planning for Geographical Sciences, GIS, and ENSP Majors	1
Gateway Courses:		
GEOG3xx	one 300 level physical geography course	3
GEOG3xx	one 300 level human geography course	3
GEOG3xx	one 300 level technique course	3
GEOG3xx/4xx	Upper Level Geography Electives	15
GEOG306	Introduction to Quantitative Methods for the Geographical Environmental Sciences	3
In addition to the required credit hours in geography, the social studies education program requires 29 credit hours of course work in history and the social sciences as outlined below.		
Select one of the following:		3
ECON111	Thinking Like an Economist	
ECON175	Inequality: Determinants and Policy Remedies	
ECON181	Putting a Price on the Environment: An Economist's Perspective on Sustainability	
ECON200	Principles of Microeconomics	
ECON201	Principles of Macroeconomics	
Lower-level ECON I-series course		
GVPT170	American Government	3
HIST200	Interpreting American History: Beginnings to 1877	3
or HIST201	Interpreting American History: From 1865 to the Present	
HIST208	Historical Research and Methods Seminar	3
HIST elective - Latin America, Middle East, East Asia or Africa		3
HIST elective - Britain and Western Europe or Eastern Europe and Russia		3
SOCY100	Introduction to Sociology (OR)	3
or SOCY105	Introduction to Contemporary Social Problems	
Pre-Professional/Education Courses		
Select one of the following:		3
TLPL250	Historical and Philosophical Perspectives on Education	
TLPL360	Foundations of Education	
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Literacy Content	3
TLPL488	Special Topics in Education (TLPL488B Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Eductation)	2
Professional Education Courses		
TLPL470	Knowledge, Reasoning, and Learning in Secondary Social Studies	3
TLPL471	Curriculum, Teaching, and Assessment in Secondary Social Studies (Fall only, Senior Year) [1]	3
TLPL479	Field Experiences in Education (TLPL479B Field Experience in Teaching Social Studies, Fall only) [1]	2
TLPL300	Digital Learning Tools and Communities	1
TLPL478	Professional Seminar in Education (TLPL478B Professional Seminar in Secondary Education: Social Studies)	2
TLPL489	Internship in Education (TLPL489B Internship in Secondary Schools)	12
Total Credits		90

[1] TLPL471 and TLPL479B are taken concurrently

Option III: Government and Politics

The Government and Politics program is under review. Please check with the Government Department regarding specific course work.

This option is primarily for those teacher candidates earning their initial degree. Requires a minimum of 65 credit hours of preprofessional/ subject area course work. Thirty-six hours must be in GVPT. At least eighteen of the thirty-six credit hours must be upper-level courses.

All GVPT majors must also complete an approved skills option (a foreign language or three quantitative courses from a select list - see GVPT advising office.)

In addition, the GVPT program is a Limited Enrollment Program (LEP). See GVPT advisor for specific admission requirements.

Course	Title	Credits
College Requirements (p. 330)		
Pre-Professional/Subject Area Courses		
Introductory Courses:		
GVPT170	American Government	3
GVPT201	Scope and Methods for Political Science Research	3
GVPT241	The Study of Political Philosophy: Ancient and Modern	3
Electives	GVPT Electives	9
GVPT3xx/4xx	GVPT Upper Level Courses	18

Social Science Quantitative Courses or Foreign Language (see GVPT advisor)		
In addition to the required credit hours in GVPT, the social studies education program requires 29 credit hours of course work in history and the social sciences as outlined below.		
HIST200	Interpreting American History: Beginnings to 1877	3
or HIST201	Interpreting American History: From 1865 to the Present	
HIST208	Historical Research and Methods Seminar	3
HIST elective - Latin America, Middle East, East Asia or Africa		3
HIST elective - Britain and Western Europe or Eastern Europe and Russia		3
Select one of the following:		3
ECON111	Thinking Like an Economist	
ECON175	Inequality: Determinants and Policy Remedies	
ECON181	Putting a Price on the Environment: An Economist's Perspective on Sustainability	
ECON200	Principles of Microeconomics	
ECON201	Principles of Macroeconomics	
Lower-level ECON I-series course		
GEOG202	Introduction to Human Geography	3
SOCY100	Introduction to Sociology	3
or SOCY105	Introduction to Contemporary Social Problems	
Pre-Professional Education Courses		
Complete one of the following		3
TLPL250	Historical and Philosophical Perspectives on Education	
TLPL360	Foundations of Education	
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Literacy Content	3
TLPL488	Special Topics in Education (TLPL488B Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Eductation)	2
Professional Education Courses		
TLPL470	Knowledge, Reasoning, and Learning in Secondary Social Studies (Fall only, Junior Year)	3
TLPL471	Curriculum, Teaching, and Assessment in Secondary Social Studies (Fall only, Senior Year) [1]	3
TLPL479	Field Experiences in Education (TLPL479B Field Experience in Secondary Social Studies Teaching. Fall only) [1]	2
TLPL300	Digital Learning Tools and Communities	1
TLPL478	Professional Seminar in Education	2
TLPL489	Internship in Education	12
Total Credits		91

[1] TLPL471 and TLPL479B are taken concurrently

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Secondary Education Major - World Language

World Language Education (Grades 7-12)

The World Language (WL) Education curriculum is designed for prospective world language teachers in grades 7-12 who have been admitted to the TLPL Teacher Education Program. Currently, admission is open to qualified candidates seeking teacher certification in Spanish, French, Russian, Italian, Chinese and German. Other languages might be added later for teacher certification. Teacher candidates enrolled in world language education are required to have an academic content major. Consult with an advisor in Curriculum and Instruction for further information.

Secondary Education Pathways

The Department of Teaching and Learning, Policy and Leadership offers undergraduate curricula in secondary education that lead to the Bachelor of Science or Bachelor of Arts degree and prepares teachers in various subject areas for teaching in middle schools, secondary schools (grades 7-12), and PreK-12 settings (Art and World Languages).

Multiple pathways are available for individuals who are interested in teaching at the secondary level:

The Dual Major option, which is designed for incoming freshmen or sophomores, leads to the Bachelor's degree with a major in an academic content area plus a second major in secondary education. All secondary majors are required to have an academic content major which satisfies the requirements of the academic department and meets the standards for teacher certification. Candidates who follow the proposed sequencing of courses can complete both majors in four years with careful advisement and scheduling;

The five-year Integrated Master's with certification program. See http://www.education.umd.edu/MCERT/.

Graduates of the Secondary Education programs meet the requirements for certification in Maryland and additional states that are affiliated with the Interstate Reciprocity Agreement through the Maryland State Department of Education.

Note: The Mathematics Education and Science Education programs are currently under review. For more information, please visit the Terrapin Teachers website http://terrapinteachers.umd.edu/.

Admission to the Major

Admission to the Teacher Education Professional Program is competitive. Admission procedures and criteria can be found on the College of Education, College Requirements tab (p. 329).

Placement in Courses

The Secondary Education programs include both pre-professional and professional education course work. Before undergraduates may enroll in courses identified as part of the professional sequence, they must complete the selective admissions requirements and be fully admitted to the College of Education's Teacher Education program.

Admission procedures and criteria are explained in the College of Education entry. Teacher candidates will not be permitted to enroll in professional sequence courses -- including the yearlong internship -- prior to completion of the selective admissions requirements and full admission to the College of Education.

Program Learning Outcomes

1. Secondary Education teacher candidates have in-depth knowledge of the subject matter that they teach as described in professional (e.g., National Council of Teachers of English - NCTE, National Council of Teachers of Mathematics - NCTM, etc.); state (MSDE); and, institutional standards.
2. Secondary Education teacher candidates can effectively plan classroom-based instruction or activities for their roles as teachers. Candidates' knowledge, skills, and dispositions are applied effectively in practice.
3. Secondary Education teacher candidates practice evidence-based decision-making through the use of assessment as well as the critical interpretation of research and inquiry in order to improve educational practice. They accurately assess and analyzes student learning, make appropriate adjustments to instruction, monitor student learning, and have a positive effect on learning for all students.
4. Secondary Education teacher candidates demonstrate understanding of learners and their social and cultural contexts with a global perspective and intentional sensitivity to other cultures. They are able to work with students, families, and communities in ways that reflect the dispositions expected of professional educators as delineated in professional (e.g., NCTE, NCTM, etc.); state (MSDE); and, institutional standards.
5. Secondary Education teacher candidates competently integrate technology in instruction to support student learning and develop data-driven solutions for instructional and school improvement. They demonstrate proficiency in each of the seven Maryland Teacher Technology Standards.

Requirements

All Teacher Education Programs have designated pre-professional courses and a specified sequence of professional courses. Before undergraduates may enroll in professional education course requirements they must be fully admitted to the College of Education's Teacher Education Program. An overall grade point average of 2.75 must be maintained after admission to Teacher Education. All teacher candidates are required to obtain satisfactory evaluations on the College of Education Foundational Competencies/Model Code of Ethics for Educators (MCEE) standards and to attain qualifying scores for the State of Maryland on a test of basic skills (Praxis CORE, SAT, ACT or GRE) and Praxis II assessments. The test of basic skills is required for admission, and Praxis II is required for the teaching internship and graduation. The culminating experience of the program is the yearlong internship, which takes place in a public Collaborating School (i.e., partner school, PDS - Professional Development School).

The department of Teaching and Learning, Policy and Leadership offers a variety of secondary education programs-tracks leading to the Bachelor of Science and Bachelor of Arts degrees. Teacher candidates who complete a secondary education program at UM meet the Maryland State Department of Education requirements for the Professional Eligibility Certificate. Consult the Curriculum and Instruction program advisor for updated information.

Secondary Math Education and Science Education are part of Terrapin Teachers, an innovative program designed to produce a new generation of highly qualified instructors in STEM subjects. In this program, you can earn a STEM degree PLUS eligibility for certification as a middle or high school teacher. For more information about this program please visit our website at the following link: tt.umd.edu (http://www.tt.umd.edu/).

The following requirements must be met with the WL Education program:

Course	Title	Credits
College Requirements (p. 330)		
Pre-Professional/Subject Area Courses [1]		
Primary WL Area	Intermediate (200 level) courses	6
Primary WL Area	Reading Strategies	3
Primary WL Area	Grammar and Composition (300-400 levels)	6
Primary WL Area	Survey of Literature (300-400 levels)	6
Primary WL Area	Conversation (300-400 levels)	3
Primary WL Area	Literature (400-above levels)	6
Primary WL Area	Culture and Civilization	6
Select one of the following:		3
Primary WL Area:Applied Linguistics		
LING200	Introductory Linguistics [2]	
ELECTIVES: Select a minimum of three elective courses in Supporting Area/WL-Related Courses		9
Pre-Professional/Education Courses [3]		
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Literacy Content	3
TLPL462	Reading in the Secondary School	3
Select one of the following:		3
TLPL360	Foundations of Education	
TLPL250	Historical and Philosophical Perspectives on Education	
Professional Education Courses		
TLPL445	Methods I: K-12 World Language Methods and Technology [4]	3
TLPL450	Advanced K-12 World Language Methods and Technology [4]	3
TLPL479	Field Experiences in Education (TLPL479J Field Experience in Second Language Education) [4]	1
TLPL478	Professional Seminar in Education (TLPL478K Student Teaching Seminar in Secondary Schools: World Language)	1
TLPL489	Internship in Education (TLPL489J Teaching Internship in Secondary Schools: World Language)	12
TLPL488	Special Topics in Education (TLPL488B Teaching Academically, Culturally, and Linguistically Diverse Students in Secondary Education)	1-3
Total Credits		81-83

1 In almost all instances, Primary WL Area courses must have been completed prior to the Teaching Internship. Any substitutions for the above must be pre-approved by a WL Education Advisor.

2 Applied Linguistics in the Primary WL Area if available; otherwise LING200 may satisfy this requirement; check with your advisor.

[3] The pre-professional courses vary by subject area. Consult the academic department for the specific course requirements for each language area.

[4] Fall only

Note: *The pre-professional courses vary by subject area. Consult the academic department for the specific course requirements for each language area.*

A minimum of six hours of intermediate-level language course work in the major language must precede the required 300-400 level courses. The latter are comprised of a minimum of 30 hours of prescribed course work that includes the areas of reading strategies, grammar and composition, conversation, literature, civilization and culture, and linguistics. Teacher candidates must also take a minimum of nine hours (three courses) of electives in a related area. The second area of concentration must be approved by a FL advisor.

In addition to all coursework, teacher candidates must earn an Advanced Low score on the ACTFL oral proficiency exam in their corresponding foreign language. Majors in Russian, Italian, and Chinese must also earn an Advanced Low score on the ACTFL written proficiency test.

Four Year Plan

Click here (http://www.gened.umd.edu/for-students/forstudents-4yearplans-educ.html) for roadmaps for four-year plans in the College of Education.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Secondary Education Minor

The minor in Secondary Education provides opportunities for undergraduate subject area majors to enroll in a sequence of education courses that helps them to determine if teaching is a viable career option for them. The 15-18 credit minor may be taken prior to admission into a teacher preparation program. If an undergraduate student pursuing the minor desires to enter an education track, the candidate may apply for the dual major program to obtain certification as a secondary education classroom teacher through completion of a Maryland State Department of Education (MSDE) approved program option. Some of the courses undergraduates take to complete the Minor in Secondary Education may also be applicable toward certification options at the post-baccalaureate level offered through TLPL. These individuals should consult with an advisor in Student Services to identify the most appropriate option leading to teacher certification and to review the specific admission requirements associated with these programs.

The secondary education minor includes coursework from Teaching and Learning, Policy and Leadership. The curriculum provides a foundation in adolescent development and education policy and includes an introductory pedagogy course in one of the core secondary areas: English, Social Studies, Mathematics, Science, World Languages. The minor also incorporates coursework to meet the MSDE reading requirements that are part of secondary subject area teacher certification.

Requirements

Course	Title	Credits
EDHD413	Adolescent Development	3
EDHD426	Cognitive and Motivational Literacy Content	3
TLPL462	Reading in the Secondary School	3
Select one of the following foundation courses:		3
TLPL250	Historical and Philosophical Perspectives on Education	
TLPL360	Foundations of Education	
Select one of the following secondary education introductory methods:		3
TLPL451	Teaching and Learning in Secondary Education: English	
TLPL445	Methods I: K-12 World Language Methods and Technology	
TLPL413	Teaching and Learning Middle School Mathematics	
TLPL420	Knowledge, Reasoning, and Learning in Science	
TLPL470	Knowledge, Reasoning, and Learning in Secondary Social Studies	
Other Electives (optional):		
TLPL251	Introduction to Teaching	
EDCI386	Experiential Learning	
Total Credits		15

A total of 15 credits is required. All courses presented for the minor must be passed with a grade of 'C-' or better. A cumulative GPA of 2.75 is required for enrollment in the secondary education introductory methods courses (TLPL445, TLPL420, TLPL451, TLPL470, TLPL413). No more than six of the required credits (or two courses) may be taken at an institution other than the University of Maryland, College Park.

A. James Clark School of Engineering

3110 Jeong H. Kim Engineering Building
301-405-8335
www.eng.umd.edu (http://www.eng.umd.edu)

Interim Dean: Robert Briber
Associate Deans: Hugh Bruk, Ken Kiger, Min Wu, Jelena Srebric

The University of Maryland's A. James Clark School of Engineering is a premier program, ranked among the top 20 in the world. Located just a few miles from Washington, D.C., the Clark School is at the center of a constellation of high-tech companies and federal laboratories, offering students access to unique opportunities to prepare for and launch rewarding careers.

We combine rigorous classroom learning with opportunities for hands-on educational experiences, including the autonomous vehicle project in freshman year and capstone courses in junior and senior years; participation in numerous national and international engineering competitions in which the school is consistently successful; a vibrant entrepreneurial ecosystem; and extensive internship opportunities.

We offer students the chance to engage in cutting-edge research, whether in the many labs run by prominent faculty members in state-of-the-art facilities, or with potential employers in nearby federal research

labs and corporations. Research enables students to dig deeper into their majors or explore new areas of possible interest.

With one of the nation's most active chapters of Engineers Without Borders, Clark School students can apply their skills and energies in the service of others all around the world. Service options closer to home are available through the many student societies, alternative spring breaks and targeted initiatives started by fellow students.

It is this range of opportunities that makes the Clark School so valuable to talented, ambitious students who want a deeper university experience. We encourage you to explore further by visiting www.eng.umd.edu (http://www.eng.umd.edu).

Admission Requirements

Freshmen Admission

Direct Admissions Requirements

Admission to the A. James Clark School of Engineering is limited. Freshmen applicants are reviewed and will be admitted directly on a competitive basis. Evaluation is based on high school grades, standardized test scores, activities, leadership and demonstrations of potential to succeed. An applicant may apply to any of the majors offered within the School. An applicant also has the option of entering as an Undecided Engineering major and will typically choose a degree program in the first year.

Directly admitted freshmen will be subject to an academic review at the end of the semester in which they attain 45 University of Maryland credits. In order to successfully complete the review, students must have an overall GPA of at least 2.0 and have completed ENES100, Fundamental Studies English, and the following sequence of gateway requirements: MATH141, PHYS161, and either CHEM135 or CHEM271 or CHEM134 with a minimum grade of 'C-.' (Students who take CHEM134 must also have completed CHEM131 with a minimum grade of 'C-').

Only one repeat of a single gateway course, either at the University of Maryland or at any other university or college, will be considered to meet the review requirements. A course in which a grade of 'W' (withdrawn) is earned is counted as an attempt. Students who fail to meet these requirements by the semester in which they attain 45 University of Maryland credits may be dismissed from the Clark School and may not reapply. Dismissed students may appeal in writing directly to the Associate Dean for Undergraduate Affairs in the Clark School.

Transfer Admission

Direct Admissions Requirements

Internal and external transfer students will be directly admitted to the Clark School if they meet the following Gateway requirements: MATH141 with a 'B-' or higher, PHYS161 with a 'B-' or higher, either CHEM135 or CHEM271 or CHEM134 with a minimum grade of 'C-' or higher (Students who take CHEM134 must also have completed CHEM131 with a minimum grade of 'C-'). Students must also have a minimum cumulative GPA of 3.0 in all college-level coursework, and have not previously been admitted to the Clark School of Engineering. Only one repeat of a single Gateway course, either at the University of Maryland or at any other university or college, will be considered to meet the review requirements. A course in which a grade of 'W' (withdrawn) is earned is counted as an attempt. Students should wait until all gateway requirements are complete before applying for admission to the School.

TRANSFER ADMISSION Appeal Process

All students denied admission to the Clark School may appeal the decision in writing directly to the Associate Dean of Undergraduate Student Affairs in the Clark School.

Maryland Community College Transfer Students

Students who complete an associate's at a Maryland community college may be prepared to enter into the sophomore or junior year in engineering at the University of Maryland if they have completed the required engineering coursework. To ensure that you are enrolling in the correct courses to transfer, please consult the Engineering four-year plans and the Transfer Credit Services website. There may be some courses which are not offered at Maryland community colleges. Students should investigate the feasibility of completing these courses during the summer session at the University of Maryland before starting their junior course work in the fall semester. A maximum of one-half of the degree credits (approximately 60 semester hours) may be transferred from a two-year community college program.

College Requirements

Undergraduate Degree Requirements

Structure of Engineering Curricula: The section below describes the requirements and the prescribed credit hours leading to the Bachelor of Science degrees awarded in the Clark School of Engineering. The courses in each curriculum may be classified in the following categories:

1. Courses in the General Education Program;
2. Courses in Basic Sciences (mathematics, chemistry, and physics);
3. Related technical courses, engineering sciences and other courses approved for one curriculum but offered by another department;
4. Courses in the major department. The courses in each engineering curriculum, as classified below, form a sequential and developmental pattern in subject matter. In this respect, curricula in engineering may differ from curricula in other colleges. Some regulations which are generally applicable to all students may need clarification for purposes of orderly administration among engineering students (see Academic Regulations (p. 64)). Moreover, the Clark School of Engineering establishes policies that supplement university regulations.

School Regulations

1. The responsibility for proper registration and for satisfying stated prerequisites for any course must rest with the student as does the responsibility for proper achievement in courses in which the student is enrolled. Each student should be familiar with the provisions of this catalog, including the Academic Regulations.
2. Required courses in mathematics, physics, and chemistry have highest priority. It is strongly recommended that every engineering student register for mathematics and chemistry or mathematics and physics each semester until the student has fully satisfied requirements of the Clark School of Engineering in these subjects.
3. To be eligible for a bachelor's degree in the Clark School of Engineering, a student must have an overall cumulative grade point average of at least a 2.0 and a 'C-' or better in all engineering degree requirements (including all technical coursework but not limited to courses taken in MATH, PHYS, CHEM). Students matriculating to UMD in the fall of 2012 or after must also have a 2.0 cumulative GPA in their major courses, minor courses and classes used to satisfy certificate programs.
4. A course taken at UMD in which a grade has been earned may not be repeated via transfer from another institution.
5. Students in the Clark School of Engineering must have a minimum 2.0 University of Maryland GPA to enroll in courses at another institution.
6. All students are required to complete a number of general education courses and must follow the university's requirements regarding completion of the General Education Program. Consult the Academic Regulations section of this catalog for additional information. Engineering students are required to complete Technical Writing, (ENGL393) for the Professional Writing requirement.
7. All degree programs in the Clark School of Engineering require a minimum of 120 credits plus satisfaction of all department, School, and University general education program requirements (Aerospace Engineering majors are required to complete a minimum of 124 credits). Students should be aware that, for all currently existing engineering programs, the total number of credits necessary for the degree exceeds 120 by some number that depends on the specific major.

Curricula for the various engineering departments are given in this catalog to illustrate how the programs may be completed in four years. These curricula are rigorous and relatively difficult. It is not uncommon for a student to extend their curriculum; this may be necessary or desirable for a variety of reasons. However, students should seek academic advising in order to ensure that courses are taken in the proper sequence.

Another factor impacting the academic plan is the math placement exam. For entering freshmen, the math placement is determined solely by performance on the University math placement exam and not on the Math SAT score. Placement in MATH115 or lower will delay eligibility to take certain engineering courses by a semester.

All students are encouraged to utilize the university's degree auditing system, uAchieve, and to review the audit with their departmental advisor throughout the course of their academic career. The purpose of the audit is to discuss academic progress and to confirm that graduation requirements are met.

Departments and Degrees

The Clark School of Engineering consists of eight academic departments and offers the degree of Bachelor of Science in the following fields of study: Aerospace Engineering, Bioengineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Embedded Systems and Internet of Things, Fire Protection Engineering, Materials Science and Engineering, and Mechanical Engineering. All of the above programs are accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org) (with the exception of Embedded Systems and Internet of Things).

Entering freshmen may enroll in the Clark School as Undecided Engineering. Students declared as Undecided Engineering are advised by the Undergraduate Advising & Academic Support Office. No later than their third semester a student should select an academic degree program. The student's newly declared major department assumes the responsibility for the student's academic guidance, counseling, and program planning from that point until the completion of the degree requirements. For the specific requirements, see the curriculum listing in each engineering department.

Freshmen-Sophomore Years

The freshmen and sophomore years in engineering are designed to lay a strong foundation in mathematics, physical sciences, and the engineering sciences upon which the student will later develop a professional program during the upper division (junior and senior) years. During the first two years, students are introduced to the concepts of engineering design and work in multidisciplinary teams. The Clark School course requirements for the freshmen and sophomore years are similar for all students, regardless of their intended academic program, thus affording the student maximum flexibility in choosing a specific engineering specialization.

Engineering Sciences

Engineering Science courses represent a common core of basic material offered to students of several different departments. All freshmen and sophomore students of engineering are required to take ENES100. Other ENES courses, ENES102, ENES220, ENES221, and ENES232 are

specified by the different departments. The responsibility for teaching the engineering science courses is shared among faculty from different departments by means of the Keystone Program. In addition to the core courses noted above, several courses of general interest to engineering or non-engineering students have been given ENES designations.

Advising

Advising is mandatory prior to registration each semester for all students in the Clark School. Each engineering department has a representative who advises students in their respective discipline. Undecided Engineering students are advised by the Undergraduate Advising & Academic Support Office until they have declared a major, typically in their first year. Refer to the individual program for additional advising information.

During orientation to the university, all students will receive advising from the Undergraduate Advising & Academic Support Office in collaboration with departmental advising representatives.

Opportunities

Living-Learning Programs

Flexus: The Dr. Marilyn Berman Pollans Women in Engineering Living & Learning Community
Women in Engineering Program (http://www.wie.umd.edu/)
1131 Glenn L. Martin Hall
301-405-3931
Acting Director: Mary Bowden

Flexus: The Dr. Marilyn Berman Pollans Women in Engineering (WIE) Living & Learning Community is a two-year living and learning community with the goal of promoting diversity and inclusion in the field of engineering. In alignment with the mission of the Women in Engineering Program, Flexus aims to shift the culture of engineering to be more inclusive of underrepresented groups, including, but not limited to, women. Open to incoming first-year engineering students, Flexus is for students who are looking for community, academic support, and ways to develop as future engineers outside of technical courses. The Flexus community works close with the Virtus Community.

Virtus: A Living and Learning Community for Success in Engineering
1131 Glenn L. Martin Hall
301-405-3931
Acting Director: Mary Bowden

The Virtus Living and Learning Program is a two-year living and learning community designed for male engineering students. The primary focus of Virtus is on promoting community and inclusivity within the Clark School and the field of engineering. Virtus seeks to emphasize the importance of diversity and inclusion in the field of engineering and empower students to shift the culture of engineering to be more inclusive of underrepresented groups in the field of engineering, including, but not limited to, women. Through the promotion of social, intellectual, and leadership development, Virtus seeks to provide the resources and structure for first- and second- year engineering students to be successful through graduation, positively impacting the retention and graduation of undergraduate students in the A. James Clark School of Engineering. To do so, Virtus provides Living and Learning experiences that promote community, critical reflection, and creation of change. The Virtus community works closely with Flexus: Dr. Marilyn Berman Pollans' Women in Engineering Living and Learning Community.

College Park Scholars - Science, Technology, and Society
1125 Cumberland Hall
301-405-7219; https://scholars.umd.edu/programs/sts (https://scholars.umd.edu/programs/sts/)
Director: David Tomblin

Co-sponsored by the Clark School of Engineering, the Science, Technology and Society (STS) program is one of 12 living-learning programs offered by the College Park Scholars Program. This 2-year program for academically talented freshmen and sophomores welcomes all majors, who live together in Cambridge Hall. While building close relationships with program faculty, STS explores the influential social, ethical, and political relationships that drive research and innovation. The program delves into the challenges of living and innovating in a world where emerging science and technologies are becoming increasingly interconnected, pervasive, and powerful. The program's primary goal is to give students career development and analytical skills that help connect science and technology to broader social needs. STS pursues this goal through individual research projects, collaborative problem solving activities, user-centered design projects, and service-learning.

STS students participate in a number of field trips to further their understanding of the program themes and objectives. Sites include the National Institute of Standards and Technology, NASA Goddard Spaceflight Center, United States Patent and Trademark Office and the National Building Museum. Students also have the opportunity to engage in service actives related to the program such as volunteering for Maryland Robotics Day, Women In Engineering's annual DREAM Conference, Maryland Regional Science Bowl, the Science and Engineering Festival, and BitCamp.

STS features three rewarding practicum opportunities:

1. Robotics service-learning program, students explore innovative ways of encouraging STEM education in Prince Georges County schools;
2. Infrastructure and Society, students work with professional engineers on a service-learning project that assesses the safety and viability of infrastructure;
3. Sustainability and Design: Work with real clients from local communities to design the implementation of sustainable technologies.

Specialized Academic Programs

Science, Technology and Society Certificate

1125 Cumberland Hall, 301-405-7219
https://sts.umd.edu/
Director, David Tomblin, dtomblin@umd.edu

The undergraduate University Certificate program in Science, Technology, and Society (STS) enables students to learn about the dynamic, interactive and creative relationships among science, technology, and society. This 21-credit program helps structure a student's general education and elective requirements into a unifying theme. The end product of the program is a research project of the student's own choosing, which is developed under faculty mentorship. The STS University Certificate is especially helpful to students who are seeking jobs that require understanding policy decisions as they relate to scientific and engineering endeavors, those students hoping to seek a graduate degree that integrates science, technology, and policy, or students simply interested in developing a greater understanding of social issues related to science and technology.

STS is an interdisciplinary field that has been taught for more than 30 years at universities in the United States and Europe, notably in those with strong engineering and public policy programs. In recent years, STS University Certificate students have chosen to write their capstone term papers about timely topics, including the interactions among science, technology and society related to nanotechnology, fuel cell applications, physics research funding, climate change modeling, religious principles as a basis for climate action, integration of SONAR into underwater vehicles, nuclear power in developing countries, and interpersonal impacts of social networking.

Courses:

The STS program requires 9 credits of Lower Level (100-200) and 9 credits of Upper Level courses (300-400) and ENES440. Students must obtain prior approval of the director before counting courses toward their individualized STS curriculum. Many of these credits may overlap with major and minor requirements. For guidance, see the website for a list of approved courses, and note that students may ask the director to approve a course not listed on the website.

Lower Level (100- and 200-level) Courses (9 credits):

Three courses that relate science to society, technology to society, or science to technology; one of the courses should be CPSS225

Upper Level (300- and 400-level) Courses (12 credits):

These courses have an interdisciplinary orientation that demonstrates inter-relationships between science and society, between technology and society, or between science and technology. Students choose three courses and the fourth course is ENES440.

Joining the Program and Program Requirements:

Students interested in STS should contact the director to obtain advice and approval prior to enrolling in courses that fulfill the program. Students record their progress with the STS program office as they complete requirements, participate in a semi-annual advising meeting, and write a brief evaluation upon completing the program. Students must earn a minimum grade of 'C-' in each course they wish to credit toward the STS University Certificate. A student's individual course of study may not exceed these maximums: 9 credits of courses applied to the student's major; 3 credits of Special or Selected Topics courses; 9 credits of courses taken outside UMCP; and 6 credits of courses with the AREC, ECON and GVPT prefixes. Once all requirements are met and the director affirms that the student has completed the program, the Registrar includes a notation of this University Certificate on the student's transcript.

College Honors Program

Students in the A. James Clark School of Engineering may participate in the University's Honors College, College Park Scholars, Quest, and/or departmental honors programs (see the individual department section for details).

Clark School Engineering Honors Program (https://eng.umd.edu/engineering-honors-program/)

The Clark School offers an Engineering Honors Program that provides eligible students the opportunity to pursue an enriched program of studies that will broaden their perspectives and increase the depth of their knowledge. Engineering students meeting all of the following criteria are eligible to apply:

1. Upper fourth of engineering juniors and seniors;
2. Junior standing or 60 applicable credits;
3. Completion of at least one semester at UMD.

The requirements for completing the program are as follows:

1. An Honors Research Project which often can be used as a technical elective, a written report, and an oral presentation to a faculty panel of the EHP;
2. Successful completion of both Engineering Honors Seminars ENES480 and ENES481;
3. Maintenance of a GPA to remain in the upper third of the class.

For more information see http://www.eng.umd.edu/current/honors-program (http://www.eng.umd.edu/current/honors-program/).

Student Societies and Professional Organizations

Professional Societies

Each of the engineering departments sponsors student chapters or student sections of a national engineering society. The student chapters sponsor a variety of activities including technical meetings, social gatherings, and School or University service projects. All students are strongly encouraged to join one or more of these chapters.

These organizations are: American Institute of Aeronautics and Astronautics; American Institute of Chemical Engineers; American Nuclear Society; American Society of Civil Engineers; American Society of Heating, Refrigeration, and Air Conditioning Engineering; American Society of Mechanical Engineers; ASM International; Black Engineers Society; BMES-UMD (Biomedical Engineering Society, UMD chapter); Engineers Without Borders; Institute of Electrical and Electronics Engineers; Material Advantage (American Ceramic Society, ASM International and TMS joint chapters); Materials Research Society; Mechanical Contracting Association (MCA); National Fire Protection Association (NFPA); Society of Asian Engineers; Society of Automotive Engineers; Society of Fire Protection Engineers; Society of Hispanic Engineers; Society of Manufacturing Engineers; Society of Women Engineers; and The Vertical Flight Society.

Honor Societies

The Clark School of Engineering and each of the engineering departments sponsor honors societies. Nominations or invitations for membership are usually extended to junior and senior students based on scholarship, service, and/or other selective criteria. Some of the honors organizations are branches of national societies; others are local groups: Tau Beta Pi (College Honorary); Alpha Eta Mu Beta (Biomedical Engineering); Alpha Nu Sigma (Nuclear Engineering); Alpha Sigma Mu (Materials Science and Engineering); Chi Epsilon (Civil Engineering); Eta Kappa Nu (Electrical and Computer Engineering); Omega Chi Epsilon (Chemical Engineering); Pi Tau Sigma (Mechanical Engineering); Salamander (Fire Protection Engineering); and Sigma Gamma Tau (Aerospace Engineering).

Student Engagement and Service Units

Undergraduate Advising and Academic Support
1131 Glenn L. Martin Hall, 301-405-9973
Director: Suzanne Ashour-Bailey

www.eng.umd.edu/advising (http://www.eng.umd.edu/advising/)
engrhelp@umd.edu

The Undergraduate Advising and Academic Support Office provides a broad variety of services to assist students during their collegiate careers. Individual advising may focus on a number of student related issues including: schedule planning, course selection, university policy interpretations, career choices, social and personal adjustments, as well as support for students with specific academic concerns. The office also provides orientation to new students, certifies students for graduation, and is instrumental in helping students process administrative forms. The staff works closely with other campus offices to identify resources that address the various needs of our students.

Engineering Career Services
1131 Glenn L. Martin Hall, 301-405-3863
Director: Heidi Sauber
CareerEngr@umd.edu, https://eng.umd.edu/careers (https://eng.umd.edu/careers/)

The Engineering Career Services Office assists students in finding cooperative education (co-op), internship, and post-graduation positions. Co-op and internship positions complement classroom learning and provide students with professional level experience, mentoring relationships, integration of theory and practice, confirmation of career choices, and financial compensation. To assist students in their job search we offer a wide variety of workshops on topics such as effective resumes, interview strategies, professionalism, career fair preparation, salary negotiation, and advanced job search techniques. We also provide one-on-one resume critiques, career advising appointments, mock interviews, job-search handouts, an e-newsletter, and a jobs database called Careers4Engineers. In addition, students have the opportunity to meet employers by participating in career fairs, networking events. employer information sessions, and special job search presentations conducted by engineering recruiters.

Office of Global Engineering Leadership
1131 Glenn L. Martin Hall, 301-405-3857
Director: Jane F. Fines
eng.umd.edu/global (http://eng.umd.edu/global/)

The Office of Global Engineering Leadership is responsible for creating experiences for engineering students to study and practice global leadership, intercultural communication, managing global teams, and working effectively across differences. Services include advising engineering students studying abroad and students completing the Minor in Global Engineering Leadership, developing faculty-led programs abroad, advising the engineering alternative spring break service program, and leadership development programs for engineering students.

Undergraduate Recruitment
1131 Glenn L. Martin Hall, 301-405-0287
Director: Erin Wessell
eng.umd.edu/prospective-students (https://eng.umd.edu/prospective-students/)

The Office of Undergraduate Recruitment and Outreach is responsible for outreach and new student recruitment activities in the A. James Clark School of Engineering. Services include undergraduate recruitment, meeting with prospective students, providing K-12 and community college outreach activities, and administering Clark School scholarships for new students.

The Center for Minorities in Science and Engineering
1131 Glenn L. Martin Hall, 301-405-3878
Director: Rosemary L. Parker
www.cmse.umd.edu (http://www.cmse.umd.edu)

The Center is dedicated to increasing the enrollment and graduation rates of African American, Latinx/Hispanic, Native American and Alaskan Native/Pacific Islander students majoring in engineering. The Center provides a complete package of services designed to assist students from pre-college through completion of the PhD. Services include academic advising, tutorial assistance, scholarship information, outreach programs, job information and support of student organizations; and the Louis Stokes Alliances for Minority Participation (LSAMP) BRIDGE Program, the LSAMP Transfer Connections Program, and the LSAMP Undergraduate Research Program.

Women in Engineering Program
1131 Glenn L. Martin Hall, 301-405-3931
Acting Director: Mary Bowden
https://eng.umd.edu/women (https://eng.umd.edu/women/)

The Women in Engineering (WIE) Program in the Clark School of Engineering at the University of Maryland is dedicated to promoting the role of women in the field of engineering. Our focus is on the recruitment of prospective women engineering students and the retention of current undergraduate and graduate women engineering students.

Services offered include community-building and networking events, information listserv, website, living and learning communities, first year peer mentoring program, professional development opportunities, outreach programs, speakers, a student advisory board, and support of women engineering organizations.

Financial Assistance

The Clark School offers scholarships to talented undergraduate engineering students. Scholarship awards are competitive and are awarded based on merit, financial need, and a variety of other factors. Scholarship awards are available to both incoming and continuing students.

New freshmen are automatically considered for most Clark School scholarships if they apply to the University of Maryland by the November 1 early action deadline and complete the FAFSA by January 1. Current students and new transfer students must complete the Clark School's online scholarships application by May 31st for best consideration. Visit the website https://eng.umd.edu/scholarships (https://eng.umd.edu/scholarships/) for more information. The Office of Student Financial Aid (OFSA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Within the Clark School, the Clark Foundation Scholarship Programs (https://eng.umd.edu/clark-scholarship-programs/) oversees three scholarship programs funded by the A. James & Alice B. Clark Foundation:

- The Clark Scholars Program
- The Clark Opportunity Transfer Scholars Program
- The A. James Clark Scholarships, which include the Clark Legacy, William Barotti, Clark Enterprises, Richard Getsinger, and Benjamin T. Rome scholarships.

A. James Clark Scholars Program

The A. James Clark Scholars Program is the A. James & Alice B. Clark Foundation's signature academic program, combining engineering, business, leadership and community service. This need-based scholarship program supports up to 10 new state of Maryland freshmen each year. The minimum scholarship award amount will be $7,500 annually for four years (eight semesters) of study, and may be higher based on financial need from the FAFSA and other financial aid resources.

Clark Opportunity Transfer Scholars Program

The Clark Opportunity Transfer Scholars Program offers a scholarship for four semesters of study covering in-state tuition, mandatory fees, and differential tuition (if applicable). It also includes comprehensive academic, career, and research support. The program supports up to 20 new transfer students who previously attended state of Maryland community colleges each year.

Clark Legacy Scholarships

The A. James Clark Legacy Scholarship is awarded to entering freshmen based on both financial need and merit. The Clark Legacy Scholarship is typically a $5,000 scholarship renewable for an additional year, provided the recipient is an undergraduate engineering student, maintains good academic standing, and makes progress toward an engineering degree.

Benjamin T. Rome Scholarship

The Benjamin T. Rome Scholarship is awarded to one entering freshman student each year based on merit. The Rome Scholarship covers all expenses (tuition and fees, room and board) plus a book allowance and a stipend. The award is renewable for up to three additional years provided the recipient is an undergraduate engineering student, maintains good academic standing, and makes progress toward an engineering degree.

William Barotti and Richard Getsinger Scholarships

The William Barotti Scholarship and the Richard Getsinger Scholarship honor two of Mr. Clark's longtime employees. Each year, the William Barotti and the Richard Getsinger Scholarships provide a $7500 scholarship for two entering freshmen engineering students based on merit. Awards are renewable for up to three additional years, provided the recipient is an undergraduate engineering student, maintains good academic standing, and makes progress toward an engineering degree.

Undergraduate Research Programs

Undergraduate research programs allow qualified undergraduate students to work with research laboratory directors in departments, thus giving students a chance for a unique experience in research and engineering design. Projects in engineering allow undergraduate students to do independent study under the guidance of faculty members in an area of mutual interest. For more information, contact the department or research center you are interested in performing research.

Engineering Information Technologies (EIT)

2125 J.M. Patterson Building; 301-405-3885
Assistant Dean, Strategic Operations and IT: Jim Zahniser
zahniser@umd.edu
www.eit.umd.edu (http://www.eit.umd.edu)

Keeping pace with the latest developments in the area of information technologies worldwide, the Clark School of Engineering provides a state of-the-art computing environment that will be the standard for engineers in the years ahead. Faculty and students have access to computer workstations with a wide range of engineering software and technology enabled classrooms with the latest presentation capabilities. In addition, EIT provides access and support on the latest tools and services for online collaboration, presentation technologies, and infrastructure services.

EIT, Instructional Technologies

2125 J.M. Patterson Bldg, 301-405-4907; Fax: 301-314-9639
Director: Marty Ronning, 301-405-4899
www.dets.umd.edu (http://www.dets.umd.edu)

Instructional Technologies provides distance education technology and AV support service to the A. James Clark School of Engineering and the UMCP campus. We serve over 1000 students per year by providing graduate and undergraduate courses in engineering and other related fields. In addition, we also provide technical services to the campus such as video conferencing, video capturing, satellite services and more.

Aerospace Engineering

A. James Clark School of Engineering
3179 Glenn L. Martin Hall
301-405-2376
aero_undergrad@umd.edu
www.aero.umd.edu (http://www.aero.umd.edu)

Aerospace engineering is concerned with the design, construction, and science of aircraft and spacecraft. It is divided into two major and overlapping branches: aeronautical engineering and astronautical engineering. The former deals with craft that stay within Earth's atmosphere, and the latter with craft that operate outside it.

Aerospace engineers design, develop, and test aircraft, spacecraft, and missiles, and supervise their manufacture. Those who work with aircraft are called aeronautical engineers, and those working specifically with spacecraft are called astronautical engineers. Aerospace engineers develop new technologies for use in aviation, defense systems, and space exploration, often specializing in areas such as structures, propulsion systems, vehicle movement and control, communications, and overall vehicle design.

Programs

Major

- Aerospace Engineering Major (p. 369)

Advising

Advising is mandatory each semester. First year students and first semester transfer students are primarily advised by the Student Services staff members. After the first year, students are assigned to a faculty advisor whose permission is required for course registration each semester. The list of advisor assignments is available on the department's website.

Opportunities

Undergraduate Research Experiences

Students can be employed and perform research in any of the department's research labs, centers, or facilities. Participation in an on or off campus internship, co-op, or other experiential learning opportunity is strongly encouraged. See the aerospace engineering undergraduate studies staff for information on performing research in a department lab and contact the Engineering Career Services office for assistance in obtaining off campus positions or experiences.

Honors Program

The Aerospace Engineering Honors Program at the University of Maryland provides a rigorous and comprehensive education for a career in technical leadership and scientific or engineering research. Honors coursework encompasses the required curriculum for all University of Maryland Aerospace Engineering students at an advanced level.

At the end of their first academic year, each aerospace student is evaluated and students are invited to join the program based on their University of Maryland cumulative grade point average and progress toward their degree in Aerospace Engineering. Honors sections of ENAE283, ENAE311, and ENAE423 (designated by an 'H' following the course number) are offered as part of this program, in addition to an honors research project, ENAE398H, which culminates in a scholarly paper and presentation at a professional conference. Students who complete the honors curriculum graduate with Aerospace Honors at the time of commencement.

Student Societies and Professional Organizations

The Department is home to student chapters of the American Institute of Aeronautics and Astronautics, Society for Advancement of Materials and Process Engineering, Sigma Gamma Tau aerospace engineering honors society, and Vertical Flight Society.

Scholarships and Financial Assistance

The Department offers academic scholarships, and recipients are chosen based on merit. All admitted and current students in the department are automatically considered for these awards. No separate application is required. The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

The Department offers the following awards: Alfred Gessow Academic Achievement Awards for the seniors with the highest overall academic average at graduation; R.M. Rivello Scholarship Award and the Joseph Guthrie Memorial Award for highest overall academic average through the junior year; Chair Award for leadership and service to the department, Sigma Gamma Tau Outstanding Achievement Award for scholarship and service to the student chapter and the department; American Institute of Aeronautics and Astronautics Outstanding Achievement Award for scholarship and service to the student chapter and the department; Women in Aeronautics and Astronautics Outstanding Achievement Award for scholarship and service to the student organization and the department; John D. Anderson Scholarship in Aerospace Engineering to enable a rising senior to engage in summer research under the mentorship of a faculty member.

Academic Programs and Departmental Facilities

The Aerospace Engineering Department has a number of facilities to support education and research across a range of special areas. The department has subsonic wind tunnels with test sections ranging from a few inches up to 7.75 feet by 11.00 feet as well as a supersonic tunnel with a 6 inch by 6 inch test section. There are a number of structural test machines with capabilities up to 220,000 pounds for static loads and 50,000 pounds for dynamic loads. The department also has experimental facilities to test helicopter rotors in hover, in forward flight, and in vacuum to isolate inertial loads from aerodynamic loads. There is an anechoic chamber for the investigation of noise generated by helicopters, and an autoclave and other facilities for manufacturing and inspecting composite structures. The neutral buoyancy facility, which investigates the assembly of space structures in a simulated zero gravity environment, is supported by robots and associated controllers. There are also many computers and workstations that provide local computing capability and extensive network access to campus mainframes, supercomputing centers, and all the resources of the Internet.

Aerospace Engineering Major

Aerospace engineering concerns processes involved in design, manufacture and operation of aerospace vehicles within and beyond planetary atmospheres. Vehicles range from helicopters and other vertical takeoff aircraft at the low-speed end of the flight spectrum, to spacecraft traveling thousands of miles per hour during launch, orbit, trans-planetary flight or re-entry at the high-speed end. Between are general aviation and commercial transport aircraft flying at speeds well below and close to the speed of sound, and supersonic transports, fighters and missiles. Although each speed regime and each vehicle poses its special problems, all aerospace vehicles can be addressed by a common set of technical specialties or disciplines.

Sub-disciplines of Aerospace Engineering are: aerodynamics, flight dynamics, propulsion, structures, and design. Aerodynamics addresses the flow of air and associated forces, moments, pressures, and temperature changes. Flight-dynamics addresses the motion of vehicles including trajectories, rotational dynamics, sensors, and control laws required for successful accomplishment of missions. Propulsion addresses the engines that have been devised to convert chemical (and occasionally other forms) energy into useful work to produce the thrust needed to propel aerospace vehicles. Structures addresses material properties, stresses, strains, deflection, and vibration along with manufacturing processes required to produce very light weight and rugged elements needed in aerospace vehicles. Aerospace design addresses the process of synthesizing vehicles and systems to meet defined missions and more general needs. This process draws on information from other sub-disciplines while embodying its own unique elements. The Aerospace Engineering program is designed to provide a firm foundation in various sub-disciplines.

Courses offered by this department may be found under the acronym: ENAE

The Bachelor of Science in Aerospace Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

1. Our graduates will be successful in their professional careers, including industry, government service, and academia, in the State of Maryland and beyond.
2. Our graduates will contribute to the creation of useful new products, or the generation of original research, by analyzing and implementing solutions to relevant problems in the component disciplines of Aerospace Engineering.
3. Our graduates will contribute effectively when part of an integrated team, clearly communicating with team members, supervisors, and clients.
4. Our graduates will understand the societal context in which their profession is practiced, and will successfully adapt to future developments in both technology and the employment market.

Program Learning Outcomes

As a result of completing our undergraduate program, our students should have developed the following skills:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Requirements

A minimum of 124 credits are required for an Aerospace Engineering degree:

Freshman Year

First Semester	Credits	Second Semester	Credits
ENES100[1]	3	MATH141	4
ENAE100	1	PHYS161	3
CHEM135	3	ENES102[1]	3
MATH140	4	ENAE202	3
General Education Program Requirements	3	General Education Program Requirements	3
	14		16

Sophomore Year

First Semester	Credits	Second Semester	Credits
ENES220	3	ENAE200	1
ENAE283	3	ENES232	3
MATH241	4	MATH246	3
PHYS260 & PHYS261	4	MATH461 or 240	3-4
General Education Program Requirements	3	PHYS270 & PHYS271	4
		General Education Program Requirements	3
	17		17-18

Junior Year

First Semester	Credits	Second Semester	Credits
ENAE311	3	ENAE324	4
ENAE301	3	ENAE432	3
ENAE362	3	ENGL393	3
ENAE380	3	General Education Program Requirements	3
General Education Program Requirements	3	ENAE414 or 404[2]	3
	15		16

Senior Year

First Semester	Credits	Second Semester	Credits
ENAE423	3	ENAE464	3
General Education Program Requirements	3	ENAE Elective[3]	3
Complete all 3 courses from one of the following tracks:	9	Technical Elective[4]	3
AERONAUTICAL TRACK		Select one course based on track:[5]	3
ENAE403		ENAE482 (AERONAUTICAL TRACK)	
ENAE455		ENAE484 (SPACE SYSTEMS TRACK)	
ENAE481		General Education Program Requirements/ Elective[6]	2-3
SPACE SYSTEM TRACK			
ENAE441			
ENAE457			
ENAE483			
	15		14-15

Total Credits 124-126

1. Can be taken first or second semester
2. Select ENAE414 for Aeronautical Track, or ENAE404 for Space System Track
3. Only ENAE398H, or an approved 400 level ENAE course not required for the student's specific track, may be used for this elective.
4. One 300/400 level course in Engineering, Mathematics, or Physical Sciences that has been approved for this purpose by the Undergraduate Program Director.
5. Select ENAE482 for Aeronautical Track, or ENAE484 for Space System Track

[6] Students may take an additional General Education or elective course to help bring them to the 124 credit minimum required to graduate.

Minimum Degree Requirements

The fulfillment of all department, school, and university requirements. A minimum of 124 credits are required for an Aerospace Engineering degree.

Students must select a track. All courses in either the Aeronautical or Astronautical track must be completed. Students in either track who wish to gain a broader education across the aeronautical or space application areas can take courses required in the other track as electives.

Academic Benchmarks

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu (http://www.4yearplans.umd.edu). Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Aerospace Electives

The department offers a range of electives. The following courses have recently been offered as electives for the undergraduate degree:

Course	Title	Credits
ENAE398	Honors Research Project (ENAE398H - Honors Research)	1-3
ENAE415	Helicopter Theory	3
ENAE425	Mechanics of Composite Structures	3
ENAE471	Aircraft Flight Testing	3
ENAE488	Topics in Aerospace Engineering (ENAE488B - Intro to Computational Structural Dynamics)	3
ENAE488	Topics in Aerospace Engineering (ENAE488M - High Speed Aerodynamics)	3
ENAE488	Topics in Aerospace Engineering (ENAE488P - Product Design)	3
ENAE488	Topics in Aerospace Engineering (ENAE488R - Hybrid Rocket Design)	3
ENAE488	Topics in Aerospace Engineering (ENAE488W - Design of Remotely Piloted Vehicles)	3
ENAE499	Elective Research [1]	3

[1] Repeatable to 6 credits

Other Requirements for the Major

See https://courseleaf.umd.edu/undergraduate/colleges-schools/engineering/ (p. 362) for minimum grade requirements in key prerequisite courses for engineering students. Students should follow the sequence of courses as outlined in the aerospace engineering degree requirements and four-year plan.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Chemical and Biomolecular Engineering

A. James Clark School of Engineering
2113 Chemical and Nuclear Engineering Building
301-405-1935
www.chbe.umd.edu (http://www.chbe.umd.edu)

The Department of Chemical and Biomolecular Engineering, established in 1937 at the University of Maryland, provides students with a fundamental understanding of physical, chemical and biological processes and the ability to apply molecular and biomolecular information and methods of discovery into products and the processes by which they are made. Our undergraduate and graduate programs provide the unique interdisciplinary academic foundation and scholarly training needed to address complex engineering problems with an emphasis on the advancing fields of biological engineering and nanotechnology. Our undergraduate program is ABET accredited. For more information on our accreditation, **please follow this link**.

Programs

Major

- Chemical Engineering Major (p. 372)

Advising

All students choosing Chemical and Biomolecular Engineering as their primary field must see their assigned undergraduate faculty mentor and advisor each semester. Please contact Kathy Gardinier (Lopresti) at 301-405-5888 or lopresti@umd.edu or Amanda Alicea at 301-405-1885 or aalicea@umd.edu for your assigned advisor information.

Opportunities

UNDERGRADUATE RESEARCH EXPERIENCES

A unique aspect of the department's undergraduate program is its high level of students' participation in cutting-edge research. Approximately half of our students graduate with significant lab experience and most find it to be one of the high points of their undergraduate education.

Honors Program

The A. James Clark School of Engineering hosts a chapter of the Omega Chi Epsilon National Honor Society for chemical engineering, as well as a chapter of the engineering honor society, Tau Beta Pi.

Student Societies and Professional Organizations

Students operate a campus student chapter of the professional organization, the American Institute of Chemical Engineers. Omega Chi

Episilon is the honorary Chemical Engineering Society. OXE is our Honors Society.

Scholarships and Financial Assistance

Financial assistance based upon need is available through the Office of Student Financial Aid (https://www.financialaid.umd.edu/). A number of scholarships are available through the A. James Clark School of Engineering. The department offers opportunities for research and other part-time employment.

Awards and Recognition

Annual awards are given to recognize scholarship and outstanding service to the department, college, and university.

Chemical Engineering Major

Students in the Department of Chemical and Biomolecular Engineering at the University of Maryland learn to use a combination of mathematical, physical, chemical, and biological science concepts within a rigorous engineering design framework, graduating with a unique set of skills highly valued by a wide range of employers in industry, academia, and the government. The wide breadth of this profession and the Department's unique strengths in nanotechnology and biotechnology prepare our students for outstanding careers.

Because of the wide range of ultimate applications, the chemical engineer finds interesting and diverse career opportunities in such varied fields as chemical (inorganic and organic), food processing and manufacturing, metallurgical, polymer, energy conversion, environmental engineering, petroleum (refining, production, or petrochemical), and pharmaceutical industries. Additional opportunities are presented by the research and development activities of many public and private research institutes and all government agencies. Our graduates have taken jobs with companies like DuPont, ExxonMobil, Proctor & Gamble, the Food and Drug Administration, and the Department of Defense. On top of all the options and opportunities, chemical and biomolecular engineers have traditionally ranked at or near the top of starting salaries among all of the engineering professions.

Courses offered by this department may be found under the following acronyms: ENCH & CHBE

The Bachelor of Science degree in Chemical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

The objectives of the Chemical Engineering degree program are to produce graduates who:

- Succeed in professional chemical engineering practice and in the pursuit of advanced degrees.
- Excel in traditional chemical engineering careers and diverse areas such as biotechnology, nanotechnology, medicine, law or business.
- Adapt to new technologies, with a strong ethical foundation that serves them throughout their careers.

Program Learning Outcomes

Students are expected to fully engage with the curriculum and the opportunities presented for learning and research. Having completed the degree program, students should have acquired the following knowledge and skills:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Requirements

Important: This section contains requirements for incoming freshman or transfer students entering the B.S. program in Chemical and Biomolecular Engineering Fall 2018 and later. For students entering the program before Fall 2018 see requirements here (http://www.chbe.umd.edu/undergraduate/fall2010tospring2012/program/).

The undergraduate program is designed to be completed in four years. It is important to follow the sample program as closely as possible, as nearly all CHBE classes are offered only once a year. All Chemical and Biomolecular Engineering students must participate in an advising session prior to registering each semester. Students are assigned a faculty advisor at the start of their first semester in the major. Questions about the undergraduate program may be sent to Kathy Lopresti at lopresti@umd.edu or Amanda Alicea at aalicea@umd.edu.

Courses appearing in bold are offered by the Department of Chemical and Biomolecular Engineering.

Civil and Environmental Engineering

A. James Clark School of Engineering
1173 Glenn L. Martin Hall
301-405-7768
www.cee.umd.edu (http://www.cee.umd.edu)

Civil and environmental engineers are problem solvers, innovators, and global leaders. Their work is all around you—the buildings we live in, the roads we travel on, the systems that treat our water, the pollution controls that protect our health, and the strategies that help us plan and recover from disasters. Stronger global communities, economies, and ecosystems depend on dedicated civil and environmental engineers.

Programs

Major

- Civil Engineering Major (p. 374)

Minors

- Construction Project Management Minor (ENGR) (p. 377)
- Project Management Minor (p. 377)

Advising

All Civil and Environmental Engineering majors are advised by the following department faculty and staff:

1. Dr. Dimitrios Goulias, Director Undergraduate Program, 0147A Glenn L. Martin Hall, dgoulias@umd.edu, 301-405-2624).
2. Alan Santos, Director of Undergraduate Student Services, 0147C, Glenn L. Martin Hall, asantos@umd.edu, 301-405-1977.
3. Dr. Isabella Cooper, Academic Advisor, 0147E, Glenn L. Martin Hall, icooper@umd.edu, 301-405-0431.

Opportunities

Undergraduate Research Experiences

Department faculty frequently have research opportunities for undergraduate students. Students are encouraged to contact faculty members whose research specialties are of interest. For further information, students are encouraged to contact the Department's advising staff (https://cee.umd.edu/undergraduate/current-students/advising-support/).

Internships

Career fairs are organized regularly throughout the academic year by the American Society of Civil Engineers (ASCE) (http://www.ascemaryland.org/) and the Chi Epsilon student chapters, and the Engineering Career Services Office (https://eng.umd.edu/careers/).

STUDY ABROAD Programs

The Department offers three short-term programs with a focus on sustainability and infrastructure. These courses count as one of the upper tech elective in the civil engineering major and are approved tech electives for the sustainability minor. https://cee.umd.edu/undergraduate/current-students/study-abroad (https://cee.umd.edu/undergraduate/current-students/study-abroad/)

Co-op Programs

Several excellent co-op opportunities are available for Civil and Environmental Engineering students. See the A. James Clark School of Engineering's Engineering Career Services Office (https://eng.umd.edu/

careers/students/internships/) for more information on these opportunities.

Honors Program

The Clark School offers an Engineering Honors Program (https://eng.umd.edu/engineering-honors-program/) that provides eligible students the opportunity to pursue an enriched program of studies that will broaden their perspectives and increase the depth of their knowledge.

Student Societies and Professional Organizations

- American Society of Civil Engineers
- Chi Epsilon Civil Engineering Honor Society (by invitation)
- Engineers Without Borders
- ITS Student Chapter

Scholarships and Financial Assistance

The Department of Civil and Environmental Engineering awards a number of academic scholarships. These awards are designated primarily for junior and senior students and are listed on the Department web site at https://cee.umd.edu/undergraduate/current-students/scholarships (https://cee.umd.edu/undergraduate/current-students/scholarships/)

The Department evaluates scholarship applications each year. See the School of Engineering web site for further information and application instructions on this scholarship application.

Awards and Recognition

The Department of Civil and Environmental Engineering assigns awards to students for excellence in academics, leadership, and service. The awards are listed on the Department web site: https://cee.umd.edu/undergraduate/current-students/awards (https://cee.umd.edu/undergraduate/current-students/awards/)

Civil Engineering Major

The Bachelor of Science in Civil Engineering requires a total of 122 credit hours with emphasis in basic science (mathematics, chemistry, and physics), engineering science (mechanics of materials, statics, and dynamics), and basic civil and environmental engineering core courses (computations, materials, fluid mechanics, probability & statistics, and Geographic Information Systems). By the Junior year, each student chooses one of three tracks: Geotechnical and Structural Engineering, Environmental and Water Resources, or Transportation/Project Management. Each track specifies junior- and senior-level requirements. All three tracks include technical electives that may be selected from a combination of the six Civil Engineering specialties and other approved courses (the six specialty areas are: Environmental, Geotechnical, Project Management, Structural, Transportation, and Water Resources). The curriculum provides a sensible blend of required courses and electives, permitting students to pursue their interests without the risk of overspecialization.

The Bachelor of Science degree in Civil Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Admission to the Major

See the entrance requirements for the A. James Clark School of Engineering (p. 362) in the Colleges and Schools section of this site.

Mission

The mission of the Department of Civil and Environmental Engineering is threefold:

1. Provide a high quality, challenging education that encompasses breadth and depth; and prepare graduates to be proficient in both analysis and synthesis facets of civil engineering design;
2. Maintain a strong research program that is recognized for excellence in major areas of civil and environmental engineering;
3. Provide service to the university, the civil engineering profession, and the community at large.

The department provides an educational program of basic and specialized engineering knowledge necessary for its graduates to be proficient in recognized specialties of civil engineering. This preparation provides graduates with the tools needed for successful practice in the period following graduation. In addition to general and technical education, the educational program stresses professional and ethical responsibilities, an awareness of societal issues, and the need for life-long learning.

The department contributes to the advancement of knowledge through research on important engineering problems. The research results are communicated through recognized channels of knowledge dissemination.

The department serves the needs of the community by emphasizing global and societal issues. The department addresses these issues through university and professional channels and contributes to their solutions.

Program Educational Objectives

The Department of Civil and Environmental Engineering has established the following program educational objectives:

- To understand, apply and develop fundamental knowledge in science, technology, engineering and mathematics.
- To attain advanced qualification in both specialization and breadth.
- To understand and apply business sensitive criteria in meeting professional responsibilities.
- To incorporate societal sensitive criteria into professional decisions.
- To develop forward-thinking attitudes that enhance communication and exemplary practice.

Program Learning Outcomes

In addition to ensuring technical competency of all graduates in the broad discipline areas of civil engineering, the department must encourage the development of skills and abilities that will enhance the marketability of its graduates and provide them with the best possible opportunity for success in the work place. As a result, the faculty has agreed to develop the following abilities and skills within each graduate and has approved the following Student Outcomes:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science and mathematics

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Additional outcomes as per ASCE criteria are:

- Breadth in civil engineering areas
- Technical specialization
- Project management
- Public policy
- Business and public administration
- Leadership
- Attitudes

Requirements

The Department offers a program of study leading to an ABET-accredited Bachelor of Science in Civil Engineering (BSCE) degree. Each student specializes in one of three tracks: Geotechnical and Structural Engineering, Environmental and Water Resources Engineering, or Transportation Systems and Project Management. A total of 122 credit hours are required for a BSCE degree with emphasis in basic science (mathematics, chemistry, and physics), engineering science (mechanics of materials, statics, and dynamics), basic civil and environmental engineering courses; required courses in the selected track; technical electives; and a senior capstone design course. The curriculum provides a sensible blend of required courses and electives, permitting students to pursue their interests without the risk of overspecialization.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Construction Project Management Minor (ENGR)

A. James Clark School of Engineering
1131 Glenn L. Martin Hall
301-405-0234

School of Architecture, Planning and Preservation
Architecture Building
301-405-8000

A minor in Construction Project Management will prepare students for employment in one of the many careers related to the built environment, such as project management, architectural engineering, design and commercial construction. Students will learn how to manage multiple phases of operation and management in the construction process including building information modeling, cost estimating, project scheduling, construction financing and planning. The Construction Project Management minor is ideal for students in Architecture, Engineering and similar fields. This minor is designed to give students a competitive advantage when applying for a job in the construction industry.

Admission Requirements

This minor is only available to undergraduate students in the A. James Clark School of Engineering and the School of Architecture, Planning and Preservation who have earned at least 60 credit hours (Junior standing), and have a cumulative University of Maryland GPA of 3.0 or higher.

Application Process

Interested students must complete an application to the minor, and obtain approval from his/her major advisor and the CPM minor advisor for his/her school. Students can obtain an application from his/her major advisor or go to: http://pm.umd.edu/program/cpm-minor/ for an online copy.

For more information about this minor, please contact the advisor associated with your College/School:

- Engineering – CPM Minor Advisor- Dr. Qingbin Cui: cui@umd.edu
- Architecture – CPM Minor Advisor - Greg Weaver: gweaver@umd.edu (hbulich@umd.edu)

Requirements

The Minor in Construction Project Management consists of 15 credit hours. Students must complete 5 of the following courses with a grade of 'C-' or better and have a minimum 2.0 GPA for the minor. Students must also complete an internship in the construction industry.

Course	Title	Credits
Required Courses		
ENCE325	Introduction to Construction Project Management [1]	3
ENCE423	Project Planning, Estimating & Scheduling [1]	3
ENCE424	Communication for Project Managers [2]	3
ENCE426	Construction Documentation and BIM Applications in Engineering and Construction [1]	3
or ARCH472	Building Information Modeling Communication and Collaboration	
Electives		
Select one of the following:		3
ENCE420	Selection and Utilization of Construction Equipment [3]	
ENCE421	Legal Aspects of Architectural and Engineering Practice [4]	
ENCE422	Project Cost Accounting and Economics [2]	
ARCH430	Measuring Sustainability in Architecture [3]	
ARCH462	Methods & Materials of Building Construction [3]	
ARCH467	Integrated Project Delivery [3]	
Total Credits		15

1 Course offered in Fall and Spring
2 Course offered in Fall, Spring and online in the Summer
3 Course offered in the Fall
4 Course offered in the Spring

Project Management Minor

Civil and Environmental Engineering (ENCE)
1173 Engineering Classroom Building
301-405-7768
http://pm.umd.edu/program/undergraduate-minor-in-project-management/

The Minor in Project Management is open to all students in the A.J. Clark School of Engineering or the School of Architecture, Planning & Preservation that have earned at least 60 credit hours and have a GPA of 3.0 or higher.

A basic understanding of project management is becoming increasingly important for engineers. Such knowledge enables them to contribute immediately to employers, and to advance their careers. In addition to a strong engineering background, there is significant need for engineers to understand the fundamentals of managing projects in order to effectively participate as members of project teams. Students who successfully

complete minor requirements will receive a notation on their official transcript.

Requirements

A total of 15 credits are required. All courses for the minor must be passed with a grade of 'C-' or better.

Course	Title	Credits
Core Courses		
ENCE320	Introduction to Project Management	3
ENCE422	Project Cost Accounting and Economics	3
ENCE423	Project Planning, Estimating & Scheduling	3
ENCE424	Communication for Project Managers	3

Electrical and Computer Engineering

A. James Clark School of Engineering
2426 A.V. Williams Building
301-405-3685
eceadvise@umd.edu
www.ece.umd.edu (http://www.ece.umd.edu)

The Department of Electrical and Computer Engineering (ECE) at the University of Maryland, College Park offers one of the strongest and most highly-ranked programs in the nation. Led by 89 full-time and affiliate faculty members and 50 research faculty and postdocs, the research programs within the department cover a wide spectrum of activities in the areas of:

- Communications and Networking
- Signal Processing
- Control, Robotics, and Dynamical Systems
- Computer Engineering
- Optics and Photonics
- Circuits and Systems
- Electronic Materials and Devices
- Bioelectronics and Systems
- Applied Electromagnetics

Programs

Majors

- Computer Engineering Major (p. 379)
- Electrical Engineering Major (p. 381)
- Embedded Systems and Internet of Things Major (p. 383)

Minor

- Computer Engineering Minor (p. 381)

Advising

All ECE students have mandatory advising every single semester, provided by the professional advising staff of the ECE Undergraduate Studies Office. Departmental permission is required in order for students to register and for all courses in the major. The Department's Undergraduate Studies Office (2426 A.V. Williams Building, 301-405-3685) is the primary point of contact for undergraduates with advising questions and detailed curriculum requirements, registration information, and advising and mentoring procedures can be found on the ECE Undergraduate Advising website: http://www.ece.umd.edu/undergrad/advising (http://www.ece.umd.edu/undergrad/advising/).

Opportunities

UNDERGRADUATE RESEARCH EXPERIENCES

The Department of Electrical and Computer Engineering is affiliated with more than 40 specialized laboratories, supporting activities including: speech and image processing, high performance systems, mobile computing and multimedia, communication networks, robotics, control systems, neural systems, systems integration, VLSI design and testing, experimental software engineering, semiconductor materials and devices, photonics, fiber optics, ion beam lithography, real-time systems, human-computer interaction, and virtual reality. Undergraduate students are encouraged to engage in research at some point during their education. Active participation in research not only allows students to apply what they have learned in class, it also gives them greater insight into a specific area within ECE and an appreciation for the subtleties and difficulties associated with the production of knowledge and fundamental new applications. Research experience also prepares students for the demands of graduate school and the work force. Information on participating in undergraduate research can be found at http://www.ece.umd.edu/undergrad/courses/400-level/enee499 (http://www.ece.umd.edu/undergrad/courses/400-level/enee499/).

INTERNSHIPS

Information on internships can be found at https://eng.umd.edu/careers (https://eng.umd.edu/careers/). Other internships are advertised by the ECE Department's Office of External Relations and Office of Undergraduate Studies.

CO-OP PROGRAMS

Participation in a Cooperative Education Program or internship with private industry or a government agency is strongly encouraged. See the A. James Clark School of Engineering catalog entry for details.

JOB OPPORTUNITIES

Electrical and computer engineers were primarily responsible for the recent revolutions in the music, telecommunications and medical device industries. They remain at the forefront of cutting edge developments and innovations in nanotechnology, robotics, and other technologies. Electrical engineers also have wide ranging employment opportunities in other fields including electronics, microelectronics, communications and signal processing, power systems, electrophysics, computer architecture, circuits, and control systems. Specific jobs include developing fiber optic technology, lasers for biomedical applications, software for robots, electronic weapons systems, advanced wireless networks, and neuron-like sensors for various applications.

HONORS PROGRAM

The Electrical and Computer Engineering Honors Program (www.ece.umd.edu/undergrad/honors (http://www.ece.umd.edu/undergrad/honors/)) is intended to provide a more challenging and rewarding undergraduate experience for students pursuing the baccalaureate in Electrical or Computer Engineering. Please visit the ECE Honors website for program course requirements. Students completing all program requirements with a 'B' average (3.0 on a 4.0 scale) and a cumulative GPA of 3.0 for all undergraduate work will have their participation noted on their B.S. diploma. Students with the necessary academic qualifications are invited to apply to the program, typically after the completion of their sophomore year.

STUDENT SOCIETIES AND PROFESSIONAL ORGANIZATIONS

The ECE Department has an active student chapter of the Institute of Electrical and Electronics Engineers (IEEE). Information and instructions for joining can be found on their website (http://umd.orgsync.com/org/ieee/home (http://umd.orgsync.com/org/ieee/home/)). Equally active is the Gamma Xi chapter of Eta Kappa Nu honor society which is dedicated to recognizing excellence in electrical and computer engineering. Information on eligibility can be obtained by visiting their website (http://ece.umd.edu/hkn/).

SCHOLARSHIPS AND FINANCIAL ASSISTANCE

Several scholarships are administered through the department and many others through the Clark School of Engineering. To be considered for these awards, students must submit an application by May 31st of each year for the following academic year. For more information visit: www.ursp.umd.edu/scholarships/index.html (http://www.ursp.umd.edu/scholarships/).

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

AWARDS AND RECOGNITION

The Department of Electrical and Computer Engineering offers the following awards:

1. Outstanding academic performance award presented to a junior for academic excellence;
2. Service Award to the graduating senior who has shown a commitment of service to fellow students; and
3. Chair's Award for outstanding academic performance to a graduating senior.

Computer Engineering Major

The computer engineering major combines the strengths of both the Department of Electrical and Computer Engineering and the Department of Computer Science to prepare students for careers in the computer industry. The program encompasses the study of hardware, software, and systems questions that arise in the design, development, and application of computers and embedded systems. Specifically, computer engineering students will have a knowledge of hardware systems (electrical networks, electronics, and VLSI); a knowledge of software systems (algorithms, data structures, and operating systems); and a knowledge of how these two domains interact (digital logic, signal and system theory, computer architectural and performance analysis). Computer Engineering students will learn about everything that goes into digital and computing systems, from solid state physics to CMOS VLSI design, to computer architecture to programming, and from operating systems to compiler and language theory. Courses offered by this department may be found under the following acronym: ENEE and CMSC.

The Computer Engineering undergraduate program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

Broadly stated, the **Program Educational Objectives (PEOs)** for the undergraduate major in computer engineering pertain to the accomplishments and performance of our students 3-5 years after graduation. These objectives are determined in consultation with the various constituencies of the computer engineering program and agreed upon and approved by a consensus of the faculty.

1. Advance to a leadership position in a reputable industry or government institution
2. Earn a graduate degree from a top ranked graduate program in Computer Engineering or related field.
3. Have our graduates become an innovator and/or entrepreneur in a Computer Engineering or related space.

Program Learning Outcomes

A comprehensive set of Student Learning Outcomes (SLOs) has been derived from the Program Educational Objectives (PEOs). These SLOs comprise the knowledge and skills all Computer Engineering students are expected to possess by the time they graduate so the PEOs can be accomplished. The SLOs are:

1. An ability to apply knowledge of mathematics, science, and engineering
2. An ability to design and conduct experiments, as well as analyze and interpret data
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. A recognition of the need for, and an ability to engage in, life-long learning
10. A knowledge of contemporary issues
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
12. Program specific outcome: an ability to apply knowledge of probability and statistics in computer engineering

Requirements

As in all engineering degrees, the student starts out with a core curriculum in mathematics and basic science. Subsequent years of study involve courses covering a balanced mixture of hardware, software, hardware-software trade-offs, and basic modeling techniques used to represent the computing process. Courses covering algorithms, data structures, digital systems, computer organization and architecture, software and hardware design and testing, operating systems, and programming languages will be included. Elective courses must include electrical engineering and computer science courses and technical courses outside the departments. ***Students must earn a grade of 'C-' or higher in all engineering, mathematics, and science courses as well as the prerequisites for these courses.*** A sample program is shown below.

Freshman Year

Semester 1	Credits	Semester 2	Credits
CHEM135	3	ENES100[1]	3
CMSC131	4	CMSC132[2]	4
ENEE101[1]	3	PHYS161	3
MATH140	4	MATH141	4
General Education[3]	3	General Education[3]	3
	17		17

Sophomore Year

Semester 1	Credits	Semester 2	Credits
ENEE244	3	ENEE222	4
MATH246	3	ENEE205	4
PHYS260 & PHYS261	4	CMSC216	4
CMSC250	4	ENEE245	2
General Education[3]	3	General Education[3]	3

Major Technical Elective Category F	3	Major Technical Elective	3
General Education[3]	3	ENGL393	3
	15		15

Total Credits 128

1. ENEE101 and ENES100 cannot be taken in the same semester. Students may take these courses consecutively within their first year in the order of choice.
2. Students may need to take CMSC131 or the computer science exemption exam before taking CMSC132.
3. Note: Please see www.4yearplans.umd.edu (http://www.4yearplans.umd.edu)
4. Some category C, D, and E courses require ENEE324 as a prerequisite.
5. Course selection will determine courses taken in Category C, D, and E courses.

Technical Elective Requirements

Computer Engineering Majors are required to complete 26 credits of computer engineering technical electives. These electives must be selected from the six following categories, each of which has minimum credit requirements.

Category	Electives	Credits
Category A	Mathematics and Basic Science Electives	minimum of 6
Category B	Computer Science Theory and Applications	minimum of 3
Category C	Electrical Engineering Theory and Applications	minimum of 6
Category D	Advanced Laboratory	minimum of 2
Category E	Capstone Design	minimum of 3
Category F	General Technical Electives	minimum of 3

Please read carefully, and make a note of the following special cases and other items:

1. General Technical Electives. They may be any upper-level course (300 level or higher) from the math, engineering, and basic science disciplines whose courses start with the following prefixes and who do not appear on the list of unacceptable courses available from the Undergraduate Studies Office: AMSC, BCHM, BIOE, BSCI, CHEM, CMSC, ENAE, ENCE, ENCH, ENEE, ENES, ENFP, ENMA, ENME, ENNU, ENRE, MATH, PHYS, and STAT. Students may use an upper level course (300 level or higher) whose prefix is not given in the list above, assuming they received approval to use such courses and the following conditions are met: (i) a student selects two or more such courses which are closely related by a theme and (ii) the student demonstrates how these courses complement their professional goals. The most up-to-date list of approved and unacceptable courses will always be available from the Undergraduate Studies Office and on the ECE website. Students have the option of taking an additional ENEE or CMSC course to fulfill this requirement (these ENEE or CMSC courses cannot be courses used to fulfill other Computer Engineering major requirements).
2. Additional Computer Engineering Technical Electives (3 Credits). In order to meet the required 26 credits of Computer Engineering Technical Electives, students may take an additional course from

Categories A-F. The additional Technical Elective Course cannot be a course already used to satisfy any of the categories. Students opting to take a second Category D or E course should note the registration restrictions the ECE Department has on second advanced lab and/or capstone design courses (see your advisor for details).

3. Two credits of ENEE499 may be used to satisfy the Advanced Laboratory requirement subject to approval by the faculty supervisor and the Associate Chair. The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements if five.
4. Additional Capstone Design courses can be used as substitutes for the required Electrical Engineering Theory and Applications course, and/or the required Advanced Laboratory course, provided one of the following is completed: ENEE408A, ENEE408B or ENEE408C.
5. Courses may not be counted for two different Technical Elective categories.
6. Disciplinary foundation CMSC or ENEE courses (i.e. CMSC412, ENEE447, CMSC330, CMSC351, ENEE303, ENEE322, ENEE350, and ENEE446) may not be used to fulfill any Technical Elective Categories.
7. Courses listed in the prohibited course list may not be used for any technical electives category.
8. If you have any questions on how these requirements affect your current selection of technical electives, please contact an advisor.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Computer Engineering Minor

The minor in Computer Engineering is a program offered by the Department of Electrical and Computer Engineering. The minor will introduce students to core hardware concepts, such as computer architecture, digital logic design, and digital circuit design, as well as core software concepts, such as algorithms, discrete mathematics, and programming. Students will also learn how hardware and software interact at the interface, for example in embedded systems. With a minor in computer engineering, students will not only receive preparation for entry into the computer industry, but they will also become more effective at applying computing in their primary field of study.

Requirements

The Computer Engineering minor has 18 required credits of coursework. All students in the minor will be required to satisfy the two prerequisites, ENEE150 and MATH141, with grades of 'B-' or higher. Students in the Electrical Engineering major will have satisfied these prerequisites as part of their program.

In order to complete the minor, students must complete all 18 required credits of the minor with a minimum grade of 'C-' in each minor course

Course	Title	Credits
ENEE244	Digital Logic Design	3
ENEE245	Digital Circuits and Systems Laboratory	2
ENEE350	Computer Organization	3
ENEE351	Algorithms and Data Structures	4
Select two of the following elective courses:		6
ENEE359	Intermediate Topics in Computer Engineering (ENEE359F Hardware FPGA Design with Verilog)	
ENEE359	Intermediate Topics in Computer Engineering (ENEE359X Introduction to System Programming)	
ENEE440	Microprocessors	
ENEE446	Digital Computer Design	
ENEE459	Topics in Computer Engineering (ENEE459C Computer Security)	
ENEE459	Topics in Computer Engineering (ENEE459E Cryptology)	
ENEE459	Topics in Computer Engineering (ENEE459P Parallel Algorithms)	
Total Credits		18

Electrical Engineering Major

Electrical engineers create innovative technology solutions in a wide range of areas, from handheld communications to solar panels; from cardiac pace makers to autonomous robots; from wireless networks to bio-engineered sensors that detect dangerous pathogens; and intelligent surveillance systems that perform face and motion recognition. Employers visiting campus seek out electrical engineering students for recruitment more than any other major at the University of Maryland.

Electrical engineers have been uniquely responsible for developing many of the innovations that have brought us modern life and are urgently needed today to help solve a variety of global problems, including challenges related to energy, communications, health care, global warming, and national security. Electrical engineering underpins all other engineering disciplines, encompassing biomedical devices technology, micro- and nanoelectronics, information systems, wireless communications and signal processing, power systems, lasers and optics, electronic devices, computer software-hardware integration, and control systems. Electrical engineers led revolutions in the music and telecommunications industries, and are poised to lead the next revolutionary innovations in nanotechnology, robotics, and other advanced technologies.

The Bachelor of Science degree in Electrical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

Broadly stated, the **Program Educational Objectives (PEOs)** for the undergraduate major in electrical engineering pertain to the accomplishments and performance of our students 3-5 years after graduation. These objectives are determined in consultation with the various constituencies of the electrical engineering program and agreed upon and approved by a consensus of the faculty.

1. Advance to a leadership position in a reputable industry or government institution.

2. Earn a graduate degree from a top ranked graduate program in Electrical Engineering or related field.
3. Have our graduates become an innovator and/or entrepreneur in an Electrical Engineering or related space.

Program Learning Outcomes

A comprehensive set of Student Learning Outcomes (SLOs) has been derived from the Program Educational Objectives (PEOs). These SLOs comprise the knowledge and skills all Electrical Engineering students are expected to possess by the time they graduate so the PEOs can be accomplished. The SLOs are:

1. An ability to apply knowledge of mathematics, science, and engineering
2. An ability to design and conduct experiments, as well as analyze and interpret data
3. An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. An ability to function on multi-disciplinary teams
5. An ability to identify, formulate, and solve engineering problems
6. An understanding of professional and ethical responsibility
7. An ability to communicate effectively
8. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. A recognition of the need for, and an ability to engage in, life-long learning
10. A knowledge of contemporary issues
11. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice
12. Program specific outcome: an ability to apply knowledge of probability and statistics in electrical engineering

Requirements

Requirements for the Electrical Engineering major include thorough preparation in mathematics, physics, chemistry, and engineering science. Elective courses must include both Electrical Engineering courses and technical courses outside the department. Students must earn a grade of 'C-' or higher in all engineering, mathematics, and science courses, as well as the prerequisites for these courses. A sample program is shown below.

MATH4xx - Advanced Elective Math[5]	3	General Education[3]	3
	14		15

Total Credits 126

1 ENEE101 and ENES100 cannot be taken in the same semester. Students may take these courses consecutively within their first year in the order of choice.

2 Students must complete ENEE140 or pass the exemption exam or AP CS exam before taking ENEE150.

3 Note: Please see www.4yearplans.umd.edu (http://www.4yearplans.umd.edu).

4 Must come from list of courses approved for general technical electives with at least two elective EE courses taken from the same specialty area.

5 Must come from list of approved Math courses within general technical elective list.

TECHNICAL ELECTIVE REQUIREMENTS

Effective Fall 2008, all entering BSEE students must:

1. Distribute their 13 credits of EE technical electives among the following course categories:

Category	Electives	Credits
Category A	Advanced Theory and Applications	minimum of 3 credits
Category B	Advanced Laboratory	minimum of 2 credits
Category C	Capstone Design	minimum of 3 credits

Note: ENEE499, Senior Projects in Electrical and Computer Engineering, may be used to satisfy either the Category A or the Category B requirement subject to approval by the faculty supervisor and the Associate Chair; it cannot be used as a Category C course.
The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements is five.

2. Distribute their 9 credits of general technical electives as follows:

a. They may be any upper-level course (300 level or higher) from the math, engineering, and basic science disciplines whose courses start with the following prefixes and who do not appear on the list of unacceptable courses available from the Undergraduate Studies Office: AMSC, BCHM, BIOE, BSCI, CHEM, CMSC, ENAE, ENCE, ENCH, ENEE, ENES, ENFP, ENMA, ENME, ENNU, ENRE, MATH, PHYS, and STAT. The most up-to-date list of approved and unacceptable courses will always be available from the Undergraduate Studies Office and on the ECE website.
b. They may be any upper-level course (300 level or higher) whose prefix is not given in the list above, assuming that the student:
   i. completes the application to allow the course to count as a general elective,
   ii. demonstrates how this course complements the student's professional goals, and
   iii. receives the signed approval of the Associate Chair for Undergraduate Education. If more than one course is taken via this option, all of those courses must have a closely-related theme.

3. Have two courses from the same ENEE specialty area. A list of courses grouped according to specialty area is available from the Undergraduate Studies Office and on the ECE website.

If you have any questions about how these requirements affect your current selection of senior EE electives, please contact an advisor.

Technical electives for students admitted Spring 2001 - Spring 2008:

The 13 credits of EE technical electives among the following course categories:

Category	Electives	Credits
Category A	Advanced Theory and Applications	minimum of 3
Category B	Advanced Laboratory	minimum of 2
Category C	Capstone Design	minimum of 3

Please read carefully, and make a note of, the following special cases and other items:

1. Two credits of ENEE499, Senior Projects in Electrical and Computer Engineering, may be used to satisfy the Advanced Laboratory requirement subject to approval by the faculty supervisor and the Associate Chair. The maximum number of ENEE499 credits that may be applied towards EE technical elective requirements is five.
2. Additional Capstone Design courses can be used as substitutes for
   - the required Advanced Theory and Applications course; and/or
   - the required Advanced Laboratory course, provided one of the following is completed:ENEE408A, ENEE408B, ENEE408C, or ENEE408F.
3. Completion of ENEE408A and ENEE459A satisfies both the Capstone Design and Advanced Laboratory requirements.
4. If you have any questions on how these requirements affect your current selection of senior EE electives, please contact an advisor.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Embedded Systems and Internet of Things Major

The Bachelor of Science in Embedded Systems will provide students with a solid foundation in key emerging technologies of the Internet of Things (IoT), the ability to integrate devices into complete IoT systems, and an understanding of how IoT fits within the wider context of information and communications technology, including data analytics and cloud computing. At the senior level, students will be able to specialize in one of the following tracks: Hardware, Computational, or Security track. It is expected that graduates will be in high demand in such occupational areas as computer developers, computer systems analysts, network architects and administrators, information security analysts, information systems analysts and computer programs.

Admission to the Major

As an undergraduate program within the A. James Clark School of Engineering, the Embedded Systems major is a Limited Enrollment Program (LEP). Admission to this program will follow the School of Engineering's admissions criteria found on the LEP website: http://www.lep.umd.edu.

Beyond the LEP gateway criteria, students will need to fulfill the following requirements to gain admission to the Embedded Systems major:

- Completion of all first and second year required major courses with a minimum grade of a 'C-.'
- Completion of all lower-level University General Education requirements.
- Completion of 60 credits.

A minimum grade point average of 3.0 in all courses taken at the University of Maryland and all other institutions is required for internal and external transfer students.

Due to the similarity in curriculum content and the physical location of course offerings, students in the Electrical Engineering, Computer Engineering, and Computer Science programs at UMD will not be eligible to add Embedded Systems as a second major or degree.

This program is mainly intended for students transferring from a Maryland public community college. While students at the College Park campus can pursue the program, they will not be able to seek admission into the School of Engineering and the Embedded Systems major until they have completed the Engineering LEP gateway courses, required first and and second year major courses, lower-level General Education requirements, and have earned at least 60 credits. The junior and senior years would take place at the Shady Grove campus.

Program Objectives

The program education objective of this program is to produce a well-trained workforce in the emerging technologies of internet of things. The

Bachelor of Science in Embedded Systems and Internet of Things will produce engineering graduates who:

- Use their hardware and software engineering design training and problem-solving skills to contribute professionally in an industrial, research and applications environment;
- Demonstrate initiative, leadership, teamwork, and continued professional development;
- Demonstrate understanding of the impact of their professional activities on society.

Program Learning Outcomes

1. An ability to apply knowledge of computing and mathematics appropriate to the program's student outcomes and to the discipline;
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution;
3. An ability to design, implement, and evaluate a computer#based system, process, component, or program to meet desired needs;
4. An ability to function effectively on teams to accomplish a common goal;
5. An understanding of professional, ethical, legal, security and social issues and responsibilities;
6. An ability to communicate effectively with a range of audiences;
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society;
8. Recognition of the need for and an ability to engage in continuing professional development;
9. An ability to use current techniques, skills, and tools necessary for computing practice.

Requirements

First & Second Year

Prior to being admitted to the embedded system major, students should have completed the Engineering LEP gateway courses, basic math/science courses, lower-level General Education requirements, and at least 60 credits.

Course	Title	Credits
MATH140	Calculus I	4
MATH141	Calculus II	4
ENGL101	Academic Writing	3
CHEM135	General Chemistry for Engineers	3
PHYS161	General Physics: Mechanics and Particle Dynamics	3
PHYS260	General Physics: Vibration, Waves, Heat, Electricity and Magnetism	3
PHYS261	General Physics: Vibrations, Waves, Heat, Electricity and Magnetism (Laboratory)	1
Programming Requirement [1]		2-4
ENES100	Introduction to Engineering Design	3

Fire Protection Engineering

A. James Clark School of Engineering
3106 JM Patterson Building
301-405-3992
www.fpe.umd.edu (http://www.fpe.umd.edu)

Students interested in protecting people and the environment, conducting computer simulations, designing systems, creating products, and developing fire-safe materials can all pursue their interests by earning a B.S. and working in fire protection engineering.

Our students begin their undergraduate career with a strong engineering education grounded in the fundamental concepts of physics, mechanics, dynamics, fluid mechanics, thermodynamics and heat transfer. Combine these skills with the application and design of engineering systems, and the fire protection engineer will learn how to protect people, homes, workplaces, the environment and the economy from the devastating effects of fires. In their junior and senior years, students will focus on:

- Suppression and detection
- Fire-resistant materials
- Fire dynamics and behavior
- Smoke, soot and gases
- Human behavior and life safety
- Computer modeling of fire, smoke, suppression and evacuation

Programs
Major

- Fire Protection Engineering Major (p. 386)

Advising

Advising is required for all undergraduate students each semester prior to registering for classes. Please refer to the academic advising section of our website for more information, available at: https://fpe.umd.edu/undergraduate/current-students/advising-support (https://fpe.umd.edu/undergraduate/current-students/advising-support/).

Opportunities
Undergraduate Research Experiences

Many FPE undergraduates perform original research under the direction of a faculty member. These include analytical, experimental, and computational studies. The topics are chosen in discussions between the student and a faculty member. Students can perform research as a volunteer, for pay, or for credit (e.g., ENFP429 or ENFP489).

Fieldwork Opportunities

Information about fieldwork and summer employment is available in the department office, or visit https://fpe.umd.edu/careers. (https://fpe.umd.edu/careers/)

Internships

Information about internships is available in the department office, or visit https://fpe.umd.edu/careers (https://fpe.umd.edu/careers/).

Co-op Programs

Information about co-op employment is available in the department office, or visit https://fpe.umd.edu/careers. (https://fpe.umd.edu/careers/)

Honors Program

Qualified students in the department are eligible for participation in the Clark School's Engineering Honors Program (https://eng.umd.edu/engineering-honors-program/) and may be invited to the Salamander Honorary Society of the Department of Fire Protection Engineering.

Student Societies and Professional Organizations

The University of Maryland student chapter of the Society of Fire Protection Engineers is an active professional society open to all interested FPE students. The department honor society, Salamander, is open to academically eligible juniors and seniors. Student membership in the National Fire Protection Association is also available. Information on these organizations may be obtained from the department office or at https://fpe.umd.edu/undergraduate/current-students/student-groups. (https://fpe.umd.edu/undergraduate/current-students/student-groups/)

Scholarships and Financial Assistance

Numerous scholarships and grants are available to students in the department from organizational and corporate sponsors. Information is available on eligibility, financial terms, and retention criteria in the department office. The majority of the scholarships are for junior and senior students, but some scholarships are available for first- and second-year students. Additional information is available at https://fpe.umd.edu/undergraduate/current-students/scholarships. (https://fpe.umd.edu/undergraduate/current-students/scholarships/)

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state, and institutional financial assistance programs and, in cooperation with other University offices, participates in the awarding of scholarships to deserving students. For more information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

Awards and Recognition

Academic achievement awards are sponsored by the department, student and professional societies along with the honor society. These awards are presented at various Department events and also at the annual A. James Clark School of Engineering Honors and Awards ceremony. Eligibility criteria for these awards are available in the department office.

Academic Programs and Departmental Facilities

Our laboratories provide hands-on experience with standardized ASTM test procedures, more fundamental experiments, and large scale burn tests. Our computer laboratory has workstations enabled with the latest software for modeling fires, structures, and human behavior. Our student lounge is frequently used for student meetings and study sessions.

Fire Protection Engineering Major

Fire Protection Engineering is concerned with the applications of scientific and technical principles to the dynamics, mitigation, and suppression of fire. This includes the effects of fire on people, on structures, on commodities, and on operations. The identification of fire hazards and their risk, relative to the cost of protection, is an important aspect of fire safety design.

The fire protection engineering student receives a fundamental engineering education involving the subjects of mathematics, physics, and chemistry. The program builds on other core engineering subjects of materials, fluid mechanics, thermodynamics and heat transfer with emphasis on principles and phenomena related to fire. Fluid mechanics includes applications to sprinkler design, suppression systems, and smoke movement. Heat transfer introduces the student to principles of evaporation for liquid fuels. The subject of combustion is introduced involving premixed and diffusion flames, ignition and flame spread, and burning processes. Laboratory experience is gained by being exposed to standard fire tests and measurements. Design procedures are emphasized for systems involving suppression, detection, alarm, and building safety requirements. The background and application of codes and standards are studied to prepare the student for practice in the field. System concepts of fire safety and methods of analysis are presented. A senior design or research project is required which gives the student an opportunity to explore issues beyond the normal classroom environment.

The Bachelor of Science in Fire Protection Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

The educational objectives of the undergraduate program in Fire Protection Engineering are to produce graduates who:

1. Practice fire protection engineering regionally, nationally and internationally in a broad range of modern professional settings;
2. Pursue advanced studies in fire protection engineering or related fields;
3. Actively participate in the development of engineering decisions on societal, environmental, economic and safety issues at the local or global levels;
4. Achieve professional certification and licensure; and
5. Maintain continual professional competency and practice ethically.

The practice of fire protection engineering has developed from the implementation and interpretation of codes and standards directed at fire safety. These safety codes contain technical information and prescriptions derived from experience and research. Research has also led to quantitative methods to assess aspects of fire and fire safety. Thus, fire protection engineers need to be versed in the current technical requirements for fire safety and in the scientific principles that underlie fire and its interactions.

Program Learning Outcomes

Students graduating from the Department of Fire Protection Engineering will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements

In general, the curriculum is designed to give the student a grounding in the science and practice of fire safety. The field touches on many disciplines and its scientific basis is expanding. It is an engineering discipline that is still growing, and offers a variety of excellent career opportunities. These cover a wide spectrum involving safety assessment

reviews, hazards analysis and research, loss prevention and regulatory issues.

[1] Technical electives must include the following:
- at least 3 credits of: MATH or STAT 400+;
- at least 3 credits of: ENFP 400+; and
- at least 6 credits of: Engineering coursework 300+, CHEM 400+, or PHYS 400+.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Fischell Department of Bioengineering

A. James Clark School of Engineering
3102 A. James Clark Hall
301-405-8268
bioe-undergrad@umd.edu
www.bioe.umd.edu (http://www.bioe.umd.edu)

The Fischell Department of Bioengineering at the University of Maryland is the home of an emerging academic discipline, exciting interdisciplinary degree programs, and faculty and students who want to make a difference in human health care through education, research, and invention.

Health care is changing rapidly, moving toward more technological approaches to diagnosis (such as body scanners and biosensors), treatment (including targeted therapy, minimally invasive surgery, and implantable devices), personalized and regenerative medicine, and the extensive use of information technology. Biomedical engineering is steadily becoming the world's largest industrial sector, and as a result, there is an increasing demand both for doctors who are technically competent and for engineers who are properly trained in basic medical science.

To help meet these needs, we take advantage of the A. James Clark School of Engineering's location in a metropolitan area that is home to an expansive number of health care facilities, medical schools, biomedical research centers, and federal regulatory agencies. We have established relationships with the National Institutes of Health (including the National Institute of Biomedical Imaging & Bioengineering and the National Cancer institute), the National Science Foundation, and the U.S. Food and Drug Administration, as well as educational institutions such as the University of Maryland Baltimore (UMB) Schools of Medicine, Dentistry, and Pharmacy, and other universities locally and nationally. Our growing interdisciplinary faculty is dedicated to expanding our research collaborations.

We are also dedicated to the vision of engineering entrepreneurship —getting science out of the lab and into the hands of doctors, care providers and consumers. For example, we are a founding member of the FDA-funded Maryland Center of Excellence in Regulatory Science and Innovation (http://www.bioe.umd.edu/research/fda/), which focuses on modernizing and improving the ways drugs and medical devices are reviewed and evaluated.

We have a view of the human condition that is unlike many bioengineering and biomedical engineering departments in the country. Our thoughts and ideas are grounded first in biology. Our faculty and students think about biological systems: how they work, how they function, and how they interact with their environments. They think about how nature organizes information and materials into molecules, cells, tissues, organisms and ecosystems that sense and respond to physical and chemical cues. They try to understand processes that go astray, like those involved in disease. Armed with this knowledge, they use

engineering principles to develop new technologies and devices that will change lives and improve human health throughout the world.

Programs

Major

- Bioengineering Major (p. 389)

Advising

The Fischell Department of Bioengineering is committed to student advising and aims to provide comprehensive curricular support to all of its students towards their academic success. Students will find that at various points during their academic careers, they may need a certain kind of guidance. Students may always begin by addressing their questions to bioe-undergrad@umd.edu, and we will point you in the right direction. Generally, advising is handled by one or a combination of the following: faculty advisor, departmental advisor, and/or college advisor.

Faculty Advising

All bioengineering majors are assigned to a faculty advisor. Students are required to meet with their faculty advisors at least once per semester. For currently enrolled majors, the mandatory advising period occurs in the weeks prior to registration for the next semester. The advising meeting with the faculty member generally covers the following: course selection for upcoming semester, four-year planning, and career goals. Students should prepare for every advising meeting by completing and updating the BIOE Advising Worksheet.

Freshmen will be assigned to faculty advisors and notified during their first semesters. All other students may contact bioe-undergrad@umd.edu if they are not sure who their advisor is. For faculty contact information, please see the faculty list (http://www.bioe.umd.edu/faculty (http://www.bioe.umd.edu/faculty/)).

Departmental Advising

Bioengineering majors and prospective transfer students may also need to meet with a departmental (staff) advisor. Some examples of departmental advising include: Benchmarks (academic progress), planning for study abroad, C.A.R.E (academic probation), double-major/double-degree planning, graduation audit (seniors), and additional help with four-year planning.

For departmental advising, please send an email including your name, UID, and general question to bioe-undergrad@umd.edu. All students seeking advising should read and make sure that they understand the policies and requirements stated in the BIOE Undergraduate Handbook (http://www.bioe.umd.edu/undergraduate/advising/references (http://www.bioe.umd.edu/undergraduate/advising/references/)).

College Advising

The Clark School of Engineering's Undergraduate Advising and Academic Support Office (UA&AS) (https://eng.umd.edu/undergraduate-advising-academic-support-uaas/) (http://www.eng.umd.edu/advising (http://www.eng.umd.edu/advising/)) also provides a broad range of services and support for engineering students. Some policies are the oversight of the College, so your faculty or departmental advisor may at times refer you to a Clark School advisor. For example, transfer admission/transfer credit, 45-credit benchmark review, and permission to enroll at another institution are handled by the College.

Opportunities

Undergraduate Research Experiences

The Bioengineering Department offers a two-year research based **Bioengineering Undergraduate Honors Program**. Interested students should apply to the honors program in the spring of their sophomore year. Those accepted into the program will begin research in their junior year. For more information please see: bioe.umd.edu/undergraduate/honors (http://bioe.umd.edu/undergraduate/honors/)

The Maryland Center for Undergraduate Research also assists students in finding on and off campus research opportunities www.ugresearch.umd.edu (http://www.ugresearch.umd.edu).

Honors Program

The Fischell Department of Bioengineering Undergraduate Honors Program is a research-oriented, thesis-based enrichment experience that serves to augment the curriculum by providing practical, hands-on learning opportunities. The primary goal of the Honors program is to develop BIOE graduates who will be among the most competitive applicants for graduate and medical school programs, as well as industry jobs. Toward this end, the program provides exceptional undergraduate students with training in academic and professional pursuits while offering a formal mechanism to be recognized for scholarly achievements.

For more information, including program admission and completion requirements, see bioe.umd.edu/undergraduate/honors (http://bioe.umd.edu/undergraduate/honors/)

Student Societies and Professional Organizations

BMES-UMD is the University of Maryland, College Park chapter of the Biomedical Engineering Society (BMES). BMES-UMD's mission is to unite and promote the future of the biomedical engineering profession; and to offer rising biomedical engineers the chance to establish leadership, publish their work, and participate in a wide range of activities that will enhance their careers. For more information, visit umdbmes.weebly.com (http://umdbmes.weebly.com)

Alpha Eta Mu Beta (AEMB) is the National Biomedical Engineering Honor Society, and the University of Maryland Fischell Department of Bioengineering established its chapter in spring 2015. For more information, visit umdaemb.weebly.com (http://umdaemb.weebly.com).

The UMD chapter of the Society for Biomaterials was established in 2018. The Society for Biomaterials is a national organization that seeks to unite professionals from different disciplines under the common goal of advancing biomaterials research.

The Engineering World Health Chapter at the University of Maryland seeks to inspire and mobilize the biomedical engineering community to improve the quality of healthcare in vulnerable communities. For more information, visit ewhatumd.com (http://ewhatumd.com/).

Scholarships and Financial Assistance

The University and the A. James Clark School of Engineering offer a range of financial support to talented undergraduate students enrolled at the School. Offerings include the A. James Clark Endowed Scholarship fund and the Benjamin T. Rome Scholarship. Our program is competitive, with awards made on the basis of merit, financial need, and other factors.

For more information on a variety of scholarships, please visit the Clark School of Engineering (https://eng.umd.edu/)'s website.

In addition, the Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, please visit financialaid.umd.edu (http://www.financialaid.umd.edu)

We also have several departmental annual awards and scholarships for which students may apply and be selected based on their scholastic achievements, service to the department and the profession. These awards are open to juniors and seniors in the program. Information on these annual awards and scholarships may be obtained from the faculty advisors in the department.

Awards and Recognition

- Fischell Dept of Bioengineering Outstanding Junior Award
- Fischell Dept of Bioengineering Outstanding Senior Award
- Fischell Dept of Bioengineering Outstanding Research Award
- Fischell Dept of Bioengineering Outstanding Leadership Award
- Fischell Dept of Bioengineering Outstanding Citizen Award
- Seymour & Faye Wolfe Scholarship: Bioengineering student
- Jeffrey C. and Sandra W. Huskamp Scholarship: Bioengineering student

B.S./M.S. Program

The Fischell Department of Bioengineering's combined B.S./M.S. program provides undergraduate students the opportunity to complete the Bachelor of Science (B.S.) and Master of Science (M.S.) degrees in approximately five and a half years by double counting graduate coursework toward the B.S. and M.S. degrees. Ideal candidates for this program are high achieving, research-oriented undergraduate students interested in pursuing and developing research projects that will translate to the graduate level and, ultimately, into a master's thesis. For more information, visit www.bioe.umd.edu/undergraduate/bs-ms-program (http://www.bioe.umd.edu/undergraduate/bs-ms-program/)

Bioengineering Major

Bioengineering is a field rooted in physics, chemistry, mathematics, and the life sciences. These areas are applied in quantitative and integrative ways to approach problems in the biological systems, medical research, and clinical practice. The objective is to advance fundamental concepts, create knowledge from the molecular to organ to system levels, and develop innovative processes for the prevention, diagnosis, and treatment of disease. In short, bioengineering seeks to improve the health and life of humankind on many levels.

Bioengineers specialize in those products and processes made from, used with, or applied to biological organisms. In addition to engineering science and design, bioengineers study cell biology, physiology, bioinformatics, bioimaging, and biomechanics. The synthesis of engineering and biology gives bioengineers unique capabilities in our modern world.

For more information about the Bioengineering major, please visit www.bioe.umd.edu/undergraduate (http://www.bioe.umd.edu/undergraduate/).

The Bachelor of Science degree in Bioengineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

The undergraduate program in the Fischell Department of Bioengineering provides students with a broad and fundamental education relating engineering with the biological sciences. The program has focuses in biomedical devices, human health, biotechnology, and ecosystems. These focuses all contain components of fundamental sciences, design, and communications skills. The students' educational achievements all contribute to enabling a wide range of career paths after graduation.

Our graduates are grounded in fundamentals that will serve them throughout their professional careers. They will have an understanding of human behavior, societal needs and forces, and the dynamics of human efforts and their effects on human health and that of our environment. With these underpinnings and abilities, we have defined several Program Educational Objectives we expect our graduates to attain in 3-5 years after graduation:

1. Produce graduates with the educational depth, technical skills, and practical experiences to be competitive for placement in bioengineering careers or post-graduate educational pursuits;
2. Produce graduates with an awareness of their field and an understanding of how they can address the biomedical and biotechnological challenges facing society in both the near and long term;
3. Produce graduates with a foundation in professional ethics who will actively seek to positively impact their profession, community, and society.

Program Learning Outcomes

Maryland bioengineers gain a broad-based education in which engineering approaches are used to understand and improve living systems and their environments. We educate students to excel in the field of bioengineering and carry out research, development, and commercialization of bioscience systems and tools that will improve the lives of people throughout the world. The specific student outcomes detailed by the Bioengineering Program are detailed below.

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.
8. Applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, mathematics (through differential equations), and statistics.
9. Solving bio/biomedical engineering problems, including those associated with the interaction between living and non-living systems.
10. Analyzing, modeling, designing and realizing bio/biomedical engineering devices, systems, components, or processes.
11. Making measurements on and interpreting data from living systems.

Requirements

Following is the list of the course requirements for the Bioengineering Undergraduate Program. Each student following the course template should be able to graduate in four years. Each student will meet with his/her Faculty Advisor every semester to plan the schedule of courses for the subsequent semester. Some of the students in the bioengineering program may elect to pursue professional degrees such as Medical, Dental, Law, etc., thus they may need certain courses that those professional schools require and should discuss their plans with their Faculty Advisor. Some of these courses may count as electives towards the major. Students interested in health professions may also view the requirements at www.prehealth.umd.edu (http://www.prehealth.umd.edu).

Total Credits 132

[1] See http://bioe.umd.edu/undergraduate/electives (http://bioe.umd.edu/undergraduate/electives/) for details on courses approved for BIOE Foundational courses and for BIOE, Biological Science, and Breadth electives. Students are advised to take advantage of Gen Ed courses that double-count for more than one distributive studies requirement

Students pursuing the major should review the academic benchmarks established for this program. See: www.4yearplans.umd.edu (http://www.4yearplans.umd.edu). Students will be periodically reviewed to insure they are meeting benchmarks and progressing to the degree. Students who fall behind program benchmarks are subject to special advising requirements and other interventions.

Four Year Plan

Global Engineering Leadership Minor

A.James Clark School of Engineering (ENGR)
1131 Glenn L Martin Hall

https://eng.umd.edu/global/coursework (https://eng.umd.edu/global/coursework/)

The engineering industry requires leadership to be exercised at all layers of an organization. Today's engineers need to lead with a global vision and have the skills and knowledge to effectively manage and work in diverse teams. The Global Engineering Leadership minor will position students to be more competitive in the job market by engaging them in active learning and relevant coursework that focuses on intercultural and interpersonal communication, leadership approaches, self-awareness, global understanding, project management, and productively working with others.

The minor in Global Engineering Leadership consists of 16 credit hours. A maximum of six credits may also count toward the student's major, and no more than six credits may be taken at an institution other than the University of Maryland, College Park. All courses counted toward the minor must be completed with a 'C-' or better. See the 'Requirements' tab above for course requirements.

Contact the minor advisor, Natasha Chapman (chapman3@umd.edu) or visit eng.umd.edu/global (https://eng.umd.edu/global/) for more information.

Requirements

The minor in Global Engineering Leadership consists of 16 credit hours. A maximum of six credits may also count toward the student's major, and no more than six credits may be taken at an institution other than the University of Maryland, College Park. All courses counted toward the minor must be completed with a 'C-' or better. The following courses are required:

Course	Title	Credits
ENES317	Introduction to Engineering Leadership (DSSP)	3
ENES472	International Business Cultures in Engineering and Technology (DVCC)	3
ENES424	Engineering Leadership Capstone	3
EDHI338	Teaching and Learning about Cultural Diversity through Intergroup Dialogue	1
ELECTIVE	Global Perspectives Elective	3
ELECTIVE	Leadership Elective	3
Total Credits		16

Materials Science and Engineering

A. James Clark School of Engineering
2135 Chemical and Nuclear Engineering Building
301-405-5240
mseundergrad@umd.edu
www.mse.umd.edu (http://www.mse.umd.edu)

Materials Science and Engineering (MSE, MatSci) is a multidisciplinary field focused on developing and characterizing materials and materials systems that provide the underpinnings for advancing technology and science into the future. The development of many major advances in science and technology has been predicated on advances the underlying materials systems. MSE is leading the effort in continuing this growth for the benefit of society.

Programs

Major

- Materials Science and Engineering Major (p. 392)

Advising

Students choosing Materials Science and Engineering as their major should contact Adaire Parker, Program Director, Room 1111, Chemical and Nuclear Engineering Building, at 301-405-5989 or mseundergrad@umd.edu. Adaire Parker can direct students to their advisor. Faculty advisors include Professors Al-Sheikhly, Lloyd, Cumings, Martinez-Miranda, Foecke, Salamanca-Riba, Takeuchi, and Mo. Any questions about the program should be directed to mseundergrad@umd.edu.

Opportunities

Undergraduate Research Experiences

The department strongly supports undergraduate students who wish to pursue research opportunities. The student should discuss their interest with their advisor or with Adaire Parker (Program Director) or Professor Isabel Lloyd (Undergraduate Program Director). See www.mse.umd.edu/research (http://www.mse.umd.edu/research/)

Internships

The department strongly encourages students to pursue internships as part of their undergraduate experience. They should discuss an internship with their advisor as they develop their academic plan. The department will forward information about internships to our undergraduate students. Students may also receive information on internships from the Clark School's Engineering Career Services Office. See https://eng.umd.edu/careers (https://eng.umd.edu/careers/).

Co-op Programs

The Materials Science and Engineering program works with the A. James Clark School of Engineering Co-op Program. For more information, students should speak with their advisor regarding their interest in a co-op experience and consult the college's web page at https://eng.umd.edu/careers/students/internships (https://eng.umd.edu/careers/students/internships/).

Student Societies and Professional Organizations

Undergraduate Societies

The Materials Engineering Society, or MatES, is a student society primarily for Materials Science and Engineering majors at the University of Maryland College Park. MatES is the University of Maryland's Material Advantage Student Chapter. It includes recognition by several professional societies including ASM International, The Minerals, Metals, and Materials Society (TMS), the American Ceramic Society (ACerS) and the Association for Iron and Steel (AIST). More information is available on the on the student society web site at www.mse.umd.edu/mates/ (http://www.mse.umd.edu/mates/).

Materials Research Society (MRS)

The Materials Research Society (MRS), a professional research society for the field has a student chapter in the department. The chapter organizes student research presentations, invites prospective employers for discussions and collectively provides a forum for student-faculty interactions. More information is available by contacting Professor Salamanca-Riba at riba@umd.edu.

Alpha Sigma Mu

Alpha Sigma Mu is the International Professional Honor Society for Materials Science and Engineering. Students with outstanding scholarship are nominated for membership and are eligible to be nominated for scholarships. If you have any questions, contact Professor Ray Phaneuf at phaneuf@umd.edu.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

The department holds an open house in both the fall and spring semesters. Participants in these open houses may apply for a $2000 Top Terp scholarship. Other scholarships are available through the A. James Clark School of Engineering's office of Undergraduate Recruitment and Scholarships Programs (https://eng.umd.edu/scholarships/). There are also research internships available for students to work with faculty in the Department.

Awards and Recognition

Each year, the department selects outstanding students for the following awards:

- Chair's Outstanding Senior Award
- Outstanding Materials Student Service Award
- Materials Science and Engineering Student Research Award
- Materials Science and Engineering Advocate Award

The professional materials oriented societies sponsor awards to recognize outstanding scholarship and undergraduate research.

- ASM International www.asminternational.org/ (http://www.asminternational.org/)
- The Minerals, Metals, and Materials Society (TMS) www.tms.org/TMSHome.html (http://www.tms.org/TMSHome.html)
- American Ceramic Society (ACerS) www.ceramics.org/ (http://www.ceramics.org/)
- Materials Research Society (MRS) www.mrs.org (http://www.mrs.org)

All students enrolled in the Materials Science and Engineering program are encouraged to work with their advisor who in their junior and senior years will guide them towards nomination for these awards.

Academic Programs and Departmental Facilities

The department's research facilities are available to undergraduates interested in pursuing research opportunities. Interested undergraduates are encouraged to work with a faculty member and his or her research team. Specific information on the facilities is available on the website: http://www.mse.umd.edu/research/labs (http://www.mse.umd.edu/research/labs/)

A partial list of facilities available to the students in the department include:

- The modern Engineering Materials Instructional Lab www.memil.umd.edu/ (http://www.memil.umd.edu/)
- The Keck Laboratory for Combinatorial Nanosynthesis and Multiscale Characterization www.nanocenter.umd.edu/labs/Keck/index.php (http://www.nanocenter.umd.edu/labs/Keck/)
- Advanced Imaging and Microscopy Laboratory (AIMLab) https://www.nanocenter.umd.edu/aimlab/
- Laboratory for Advanced Materials Processing (LAMP) www.mse.umd.edu/LAMP/ (http://www.mse.umd.edu/LAMP/)
- Laboratory for Plasma Processing of Materials
- Functional Macromolecular Laboratory fml.umd.edu/ (http://fml.umd.edu/)
- The FabLab Micro and Nano Fabrication Laboratory run by the University of Maryland NanoCenter https://nanocenter.umd.edu/fablab (https://nanocenter.umd.edu/fablab/)

Materials Science and Engineering Major

The development, production and use of novel materials has become a major issue in all fields of engineering. Materials which are strong and light at the same time are needed for space structures; faster electro-optical switching materials will result in improved mass communications; and stronger high temperature plastics would improve the efficiency of transportation systems. Students will have the opportunity to work with faculty and industry on complex problems through projects, internships, and research and co-op experiences. A wide variety of careers are open to graduates of this program ranging from production and quality control in the traditional materials industries to the molecular construction of electronic materials in ultra-clean environments, and to the applications of materials in electronic packages. The application of materials to solve environmental, biomedical, energy, and reliability problems are also career options.

Students majoring in Materials Science and Engineering will receive a Bachelor of Science upon successful completion of the program. Courses offered by this department may be found under the acronym ENMA.

The Bachelor of Science in Materials Science and Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Program Objectives

The mission of the Materials Science and Engineering Department at the University of Maryland is to provide a quality engineering education, research at the forefront of the field, and leadership to the Materials and Engineering communities. Our educational programs will have the following objectives:

- Produce high quality alumni who will be successful in their chosen careers in industry, government or academia, in the State of Maryland, the nation and the world.

- Produce alumni who demonstrate the ability define and solve engineering and science problems in the field of Materials Science and Engineering throughout their careers.
- Produce alumni who demonstrate the ability to relate basic physics, math, chemistry and engineering principles to the field of Materials Science and Engineering so they can function professionally as materials engineers and scientists.
- Produce alumni who design and engineer materials and materials systems for future generations of products and demonstrate a continuous upgrading their knowledge to address and impact the rapid pace of technological advances.

The department will support our students with an educational program that has sufficient breadth in both fundamental and specialized engineering topics to insure our graduates meet the current and future needs of society. In the area of research, the department conducts a range of scientific research programs and establishes partnerships with government and industry, both in Maryland and elsewhere, to accomplish this goal.

Program Learning Outcomes

The overall educational outcomes of the Materials Science and Engineering Program are to provide undergraduate engineering students:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Requirements

Requirements for the Materials Science and Engineering major include thorough preparation in mathematics, chemistry, physics, and engineering science as well as the required university general education requirements. All students will be required to select an area of specialization, an upper-class science elective, and two technical electives. A minimum of 122 credits is required for a bachelor's degree. A sample program follows:

Freshman Year

First Semester	Credits	Second Semester	Credits
CHEM135	3	ENEE140	2
ENES100	3	MATH141	4
MATH140	4	PHYS161	3
ENGL101	3	GenEd	3
CHEM136	1	GenEd	3
ENMA180	1		
	15		15

Sophomore Year

First Semester	Credits	Second Semester	Credits
MATH241	4	MATH246	3
PHYS260	3	PHYS270	3
PHYS261	1	PHYS261	1
ENMA300	3	Select one of the following:[1]	3-4
Oral Communication	3	CHEM231 & CHEM232	
MATH206	1	CHEM481	
		ENMA301	3
		GenED	3
	15		16-17

Junior Year

First Semester	Credits	Second Semester	Credits
ENMA312 (Or Upper Level Science Elective)	3	ENMA312 (Or Upper Level Science Elective)	3
ENMA362	3	ENMA465	3
ENMA460	3	ENMA461	3
Scholarship in Practice[2]	3	Specialization Elective	3
Specialization Elective	3	ENMA470	3
	15		15

Senior Year

First Semester	Credits	Second Semester	Credits
ENMA441	3	Technical Elective (at or above 300 level)	3
ENMA471	3	Specialization Elective	3
Specialization Elective	3	Specialization Elective	3
ENGL393	3	GenED[2]	3
ENMA487	1	ENMA490	3
Technical Elective (at or above 300 level)	3		
	16		15

Total Credits 122-123

1 CHEM231/CHEM232 is required for students focusing on polymers and biomaterials.

2 All students must complete two Distributive Studies courses that are approved for I-series courses. The Understanding Plural Societies (UP) and Cultural Competence (CC) courses may also fulfill Distributive Studies categories.

Other Requirements for the Major

Students majoring in Materials Science and Engineering must follow the academic policies developed by the A. James Clark School of Engineering. Students must achieve a 'C-' or better on all coursework in their major (including required non-engineering courses such as chemistry and physics). Students must achieve a minimum cumulative GPA of 2.0 and completion of all degree requirements to graduate. Students are encouraged to visit the Department webpage for a

curriculum guideline. A multi-year academic plan will be developed in conjunction with their advisor. All Materials Science and Engineering students must be mentored by three different faculty members, preferably during their freshman and sophomore years (once per semester) to assist them in choosing their specialization area and to plan for post graduation.

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Mechanical Engineering

A. James Clark School of Engineering
2181 Glenn L. Martin Hall
301-405-2410
ENMEundergrad@umd.edu
www.enme.umd.edu (http://www.enme.umd.edu)

Mechanical Engineering includes the study of the following areas:

- Design and Reliability of Systems,
- Thermal, Fluid, and Energy Sciences
- Mechanics, Materials, and Manufacturing.

In addition, to the learning opportunities provided through a vibrant curriculum of undergraduate and graduate offerings, students are also provided extensive experiential learning opportunities through the Terps Racing Program (https://www.facebook.com/terpsracing/), Solar Decathlon (http://2011.solarteam.org/), and other competition teams, and undergraduate research experiences. Students are also provided opportunities to make a difference worldwide with programs such as Engineers Without Borders (http://www.ewb.umd.edu).

Programs

Major

- Mechanical Engineering Major (p. 394)

Minor

- Nuclear Engineering Minor (p. 396)

Advising

Mechanical engineering students are required to meet with a departmental adviser each semester prior to registering for the following term. Mechanical Engineering has a team of faculty and staff academic advisors. Please contact the department's Undergraduate Advising Office, 2182-2188 Glenn L. Martin Hall, at 301-405-2199, for more information or review resources including office hours and the appointment process, on-line at meugrad.umd.edu (http://meugrad.umd.edu).

Opportunities

Co-op Programs

Participation in the Cooperative Education Program (https://eng.umd.edu/careers/students/internships/) through the Engineering Career Services Office (https://eng.umd.edu/careers/) is encouraged. See Clark School of Engineering under Colleges and Schools on this site.

Honors Program

The Engineering Honors Program (https://eng.umd.edu/engineering-honors-program/) is administered through the Clark School of Engineering.

Individual honors and awards are presented based on academic excellence and extracurricular activities.

Student Societies and Professional Organizations

Student chapters of professional societies include the American Society of Mechanical Engineers, the Society of Automotive Engineers, the Mechanical Contractors Association and the American Society of Heating, Refrigeration and Air Conditioning Engineers. The mechanical engineering honor society is Pi Tau Sigma. Information regarding these societies may be obtained at 2186 Glenn Martin Hall.

Scholarships and Financial Assistance

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information, visit: www.financialaid.umd.edu (http://www.financialaid.umd.edu).

A limited amount of scholarship aid is available through the Department of Mechanical Engineering. Information may be obtained in the Mechanical Engineering Undergraduate Advising Office. Information about Clark School of Engineering scholarships and Department of Mechanical Engineering scholarships is also available on-line at https://eng.umd.edu/scholarships (https://eng.umd.edu/scholarships/)

Mechanical Engineering Major

Mechanical engineering is the broadest of the engineering disciplines. It is concerned with the design, manufacture, and operation of a wide range of components, devices, or systems. The field comfortably encompasses applications ranging from micro-mechanical surgical systems to internal combustion engines for Formula One racecars or giant turbines for renewable energy wind farms. A fitting adage for the discipline would be ***turning ideas into reality.***

Graduates of the program will possess the skills and the knowledge base critical for success in today's marketplace, with the problem solving expertise and flexibility necessary to adapt as technology and society evolve. Students must be proficient in the traditional fundamentals of mechanical engineering such as solid and fluid mechanics, thermodynamics, transfer processes, materials engineering, electronic instrumentation and measurements, controls, and design. However, they will also explore new/emerging areas through a variety of electives such as smart structures, machine learning, additive manufacturing, Lean Six Sigma, and medical robotics.

Attributes such as teamwork, ethics, and leadership are emphasized in the curriculum. The program is designed to integrate out-of-classroom experiences, helping students explore career options and apply what they are learning in the real world. Students can work with faculty on research projects, serve as teaching fellows, pursue leadership opportunities through clubs, and participate in national competitions such as the Formula SAE/Baja SAE teams or the DOE Solar Decathlon. The flexibility of the curriculum, and frequent offering of required courses, allows many of our students to participate in study abroad or cooperative education opportunities.

The Bachelor of Science degree in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (http://www.abet.org).

Courses offered by this department may be found under the following acronym: ENME

Program Objectives

1. Graduates will provide value in their chosen career path, whether for mastery of the disciplines central to mechanical engineering or for the broader analytical skills, critical thinking, innovation and/or creative abilities provided by their engineering education.
2. Students will utilize skills in teamwork, leadership, and communication gained in their program of study, and act in a professional and ethical manner in the area in which they apply their degree.
3. Graduates will show a commitment to on-going professional development, whether through graduate study, research programs, training courses, or leadership opportunities thereby adapting to an evolving, competitive global work environment.

Program Learning Outcomes

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Total Credits 124

[1] Can be taken 1st or 2nd semester

A minimum of 120 credits are required for a degree.

Sample Elective Topics

- Waste Technology
- Bio-Inspired Robotics
- Computer-Aided Design & Manufacturing
- Packaging of Electronic Systems
- Energy Conversion
- Engineering Management
- Environmental Engineering
- Flexible Macro-electronics

- Automotive Design
- Micro-nano Robotics
- Manufacturing
- Medical Robotics
- Fiber Optics
- Micro-Electro-Mechanical Systems
- Nuclear Reactor Engineering

Four Year Plan

Click here (https://eng.umd.edu/four-year-plans/) for roadmaps for four-year plans in the A. James Clark School of Engineering.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

Nuclear Engineering Minor

Mechanical Engineering (ENME)
2181 Engineering Classroom Building, 301-405-2410
www.enme.umd.edu/undergraduate/degrees/minor-nuclear-engineering (https://enme.umd.edu/undergraduate/degrees/minor-nuclear-engineering/)

Contact Dr. G.A. Pertmer (pertmer@umd.edu) for further information.

The minor in Nuclear Engineering provides the engineering student with the understanding of nuclear engineering and its application to many different fields, such as power generation, reactor operation, and industrial uses. Students in the minor will learn the fundamentals of nuclear reactor engineering, radiation interactions and measurement, power plant design concepts, and reactor safety. The minor is open to any student in the Clark School of Engineering.

Requirements

To successfully complete the minor in nuclear engineering, a student must complete a total of 15 credits (5 3-credit courses). All courses must be completed with a grade of 'C-' or higher. A maximum of two of the required five courses can be used to satisfy requirements of the student's major (with approval of the major department).

Course	Title	Credits
All students pursuing the minor will be required to take the following four courses:		
ENME430	Fundamentals of Nuclear Reactor Engineering	3
ENME431	Nuclear Reactor Systems and Safety	3
ENME432	Reactor and Radiation Measurements Laboratory	3
ENME472	Integrated Product and Process Development	3
Select a fifth course. Some possible choices include: [1]		3
ENME488	Special Problems	
ENME489	Special Topics in Mechanical Engineering [2]	
ENRE447	Fundamentals of Reliability Engineering	
ENMA422	Radiation Effects of Materials	
ENEE474	Power Systems	
Total Credits		15

1. The fifth course for the minor will be selected, with the help of the student's minor advisor, based on student interest.
2. Student would select an appropriate course from a number of special topics courses taught each semester in the Mechanical Engineering Department

Students who fulfill minor requirements will receive a notation on their official transcript.

Nanoscale Science and Technology Minor

Maryland NanoCenter
Kim Engineering Building
www.nanocenter.umd.edu/education/nano-minor/ (https://www.nanocenter.umd.edu/education/nano-minor/)

Continued growth in the field of nanometer scale science and technology (NS&T) has led in the past several years to many technological advances in devices and materials structured at the nanometer scale. The Interdisciplinary Minor Program of Study in Nanoscience and Technology is intended to prepare participating students for a career in this rapidly developing field. This program draws upon the considerable expertise in nanoscience at the University of Maryland, in departments distributed among two schools: The Clark School of Engineering, and the College of Computer, Mathematics and Natural Sciences. Students take courses in Fabrication/Synthesis and Characterization, which emphasize the experimental side of NS&T, as well as Fundamental Science and Specialization Electives, which teach the underlying principles and directions, and include underlying theory and the motivations for NS&T.

Visit the web site https://mse.umd.edu/undergraduate/degrees/minor-nano (https://mse.umd.edu/undergraduate/degrees/minor-nano/) for more information.

Requirements

- The minor requirement will consist of a total of five courses (at least 15 credits).
- At least two of the courses (6 credits) must be from the list of NanoFabrication/Nanosynthesis and/or NanoCharacterization electives.
- At least two of the courses (6 credits) must be from the list of Fundamental Science and/or Nanoscience Electives. At least one of these must be listed as a NanoApplication / Specialization elective.
- Up to two courses (6 credits) may be double counted, i.e. used both toward satisfying the requirements of the major and the NS&T minor.
- Three of the courses (9 credits) must be from outside the individual major. Cross listed courses (e.g. ENMA460/PHYS431) which are offered by the major department do not qualify as being outside the major.
- At least three of the courses (9 credits) must be at the 400 level or above.
- No more than two courses (6 credits) from any one department will be credited toward the NS&T minor.
- A grade of 'C-' or above is required in all courses to be credited toward the NS&T minor.
- Students wishing to participate in the NS&T minor must declare participation formally. Declaration of participation in the NS&T minor must follow a meeting with the individual department representative to the NS&T committee who will help the student develop a program

of courses suitable for the minor and a schedule for taking those courses. Students from outside participating departments will consult with one of the MSE representatives to develop a program of courses and declare participation.

Science, Technology and Society Certificate

1125 Cumberland Hall
301-405-7219
Director, David Tomblin, dtomblin@umd.edu
Science, Technology and Society Certificate (https://sts.umd.edu/certificate-in-science-technology-and-society-sts/)

The undergraduate University Certificate program in Science, Technology, and Society (STS) enables students to learn about the dynamic, interactive and creative relationships among science, technology, and society. This 21-credit program helps structure a student's general education and elective requirements into a unifying theme. The end product of the program is a research project of the student's own choosing, which is developed under faculty mentorship. The STS University Certificate is especially helpful to students who are seeking jobs that require understanding policy decisions as they relate to scientific and engineering endeavors, those students hoping to seek a graduate degree that integrates science, technology, and policy, or students simply interested in developing a greater understanding of social issues related to science and technology.

STS is an interdisciplinary field that has been taught for more than 30 years at universities in the United States and Europe, notably in those with strong engineering and public policy programs. In recent years, STS University Certificate students have chosen to write their capstone term papers about timely topics, including the interactions among science, technology and society related to nanotechnology, fuel cell applications, physics research funding, climate change modeling, religious principles as a basis for climate action, integration of SONAR into underwater vehicles, nuclear power in developing countries, and interpersonal impacts of social networking.

Requirements

The STS program requires 9 credits of Lower Level (100-200) and 9 credits of Upper Level courses (300-400) and the ENES440. Students must obtain prior approval of the director before counting courses toward their individualized STS curriculum. Many of these credits may overlap with major and minor requirements. For guidance, see the website for a list of approved courses, and note that students may ask the director to approve a course not listed on the website.

Course	Title	Credits
Lower Level Courses		
CPSS225	College Park Scholars Capstone: Science, Technology, and Society	3
Select 6 additional credits of Lower Level (100- and 200-level) Courses [1]		6
Upper Level Courses		
ENES440	Science, Technology and Society: Certificate Program Capstone	3
Select 9 additional credits of Upper Level (300- and 400-level) Courses [2]		9
Total Credits		21

1. Three courses that relate science to society, technology to society, or science to technology.
2. These courses have an interdisciplinary orientation that demonstrates inter-relationships between science and society, between technology and society, or between science and technology. Students choose three courses.

Joining the Program and Program Requirements

Students interested in STS should contact the director to obtain advice and approval prior to enrolling in courses that fulfill the program. Students record their progress with the STS program office as they complete requirements, participate in a semi-annual advising meeting, and write a brief evaluation upon completing the program. Students must earn a minimum grade of 'C-' in each course they wish to credit toward the STS University Certificate. A student's individual course of study may not exceed these maximums: 9 credits of courses applied to the student's major; 3 credits of Special or Selected Topics courses; 9 credits of courses taken outside UMCP; and 6 credits of courses with the AREC, ECON and GVPT prefixes. Once all requirements are met and the director affirms that the student has completed the program, the Registrar includes a notation of this University Certificate on the student's transcript.

Technology Entrepreneurship Minor

A firm grasp of the entrepreneurial process benefits every person engaged in developing innovations, from startups to established companies and organizations. The goal of the Minor in Technology Entrepreneurship is to infuse students with that knowledge and its accompanying skills. Armed with an entrepreneurial mindset and skill set, innovators can better drive economic growth by launching successful ventures and bringing new products and services to market. Students earn the minor by completing coursework that may include entrepreneurial opportunity analysis, strategies for managing innovation, marketing high-technology products, financing and leading new ventures, and international entrepreneurship.

For details and contact information, visit http://www.mtech.umd.edu/educate/minor/

Requirements

The 15-credit undergraduate minor is completed from a subset of 17 courses. At least nine credits must be completed at the 400-level to earn the minor. While course options are available, application of 100 and 200-level courses is limited to a total of six credits.

Course	Title	Credits
ENES140	Discovering New Ventures	3
ENES210	Entrepreneurial Opportunity Analysis and Decision-Making in 21st Century Technology Ventures	3
ENES460	Fundamentals of Technology Start-Up Ventures	3
ENES461	Advanced Entrepreneurial Opportunity Analysis in Technology Ventures	3

ENES462	Marketing High-Technology Products and Innovations	3

College of Information Studies, Maryland's iSchool

0217 Hornbake North
301-405-2038
infosci@umd.edu
http://infosci.umd.edu/

Dean: Keith Marzullo
Associate Deans: Brian Butler, Doug Oard, Susan Winter
Assistant Dean: Melekte Truneh

The University of Maryland College of Information Studies (UMD iSchool) is a leading research and teaching college in the field of information science. Our faculty, staff, and students are expanding the frontiers of how people access and use information and technology an evolving world – in government, education, business, and more. We offer five academic degree programs and lead cutting-edge research, specializing in library sciences, curation, data analytics and visualization, human-computer interaction, youth experience, computational linguistics, smart cities and connected communities, social computing, cybersecurity and privacy, diversity and inclusion, and the future of work. Located just outside of Washington, D.C., our faculty, staff, and students have unmatched research, internship, and career opportunities.

Academic Programs

Major

- Information Science Major (p. 400)

Advising

Advisors will help you make informed decisions and feel confident about your plans, which will assist you in meeting your program goals. Your advisor will assist in helping you understand your degree requirements and your options, but you make the decisions, you are in charge of your education!

Advising is mandatory for all new InfoSci students. Students have access to an advisor during their remaining time in the program, and are encouraged to complete a senior audit roughly a year out from graduation. This review will ensure students are progressing through the major in a satisfactory manner. We encourage all InfoSci students to schedule regular advising meetings and make sure you are on track to meet your academic and professional goals.

For more information on the program, including courses and policies, please visit the InfoSci website (https://ischool.umd.edu/infosci-collegepark/). For any other inquiries please contact the InfoSci Program Office at InfoSci@umd.edu.

Opportunities

UNDERGRADUATE RESEARCH EXPERIENCES

Opportunities for undergraduate research experience in the iSchool's research centers become available from time to time. Participation in an on- or off-campus internship, co-op, or other experiential learning opportunity is strongly encouraged. See the Information Science program staff for information on performing research in an iSchool center or lab and contact the Campus Career Services office for assistance in obtaining off-campus positions or experiences.

INTERNSHIPS

Students are strongly encouraged to complete at least one internship during their course of study. The iSchool hosts an internship and networking fair in Fall and Spring semesters year to help students find internship sites. Students should also consult the Career Center (http://www.careercenter.umd.edu) for additional internship opportunities.

SCHOLARSHIPS AND FINANCIAL ASSISTANCE

The Office of Student Financial Aid (OSFA) administers all types of federal, state and institutional financial assistance programs and, in cooperation with other university offices, participates in the awarding of scholarships to deserving students. For information visit their website (https://financialaid.umd.edu/).

AWARDS AND RECOGNITION

Dean's Award for an Outstanding iSchool Project
The Dean's Award for an Outstanding iSchool Project will be presented to an iSchool student or a group of students (which includes at least one iSchool student) for an outstanding design or development project completed for an iSchool course. Projects must be nominated by a faculty member(s) and must represent outstanding work that furthers understanding by offering new insights into development or design or displays excellence in applying existing state-of-the-art methods and knowledge.

Laurence B. Heilprin Award
The Laurence B. Heilprin Award will be presented to an iSchool student or a group of students (which includes at least one iSchool student) for an outstanding paper on a topic in library and information science which has been written for an iSchool course. Papers must be nominated by faculty and must represent outstanding work that furthers understanding by offering new insights, incorporating original research, and/or analyzing existing information in new ways.

Dr. Joan Giesecke Best Student Paper on Health Informatics Award
The Dr. Joan Giesecke Best Student Paper on Health Informatics Award will be presented to a graduate student or a group of graduate students for an outstanding paper which has been written for an iSchool course and which focuses on any aspect(s) of Health Informatics. The iSchool

defines Health Informatics broadly, including any work that focuses on health information management; health information technologies; health data analytics; health-related information needs or behaviors; health librarianship, etc. Papers must be nominated by faculty and must represent outstanding work that furthers understanding by offering new insights on issues relating to Health Informatics, incorporating original research, and/or analyzing existing information in new ways.

Dean's Award for Outstanding Undergraduate Research Achievement
The Dean's Award for Outstanding Undergraduate Research Achievement will be presented to an undergraduate student or a group of undergraduate students for an outstanding research paper or project that has been completed for an iSchool course. Projects/papers must be nominated by a faculty member(s) and must represent outstanding work that furthers understanding by offering new insights into development or design or displays excellence in applying existing state-of-the-art methods and knowledge.

SPECIAL ADVANTAGES AND FACILITIES

At the iSchool, faculty and students are exploring how people access and use information. From developing smart city technology to creating new archival methods, we seek to improve the individual experience as well as to foster connected communities. At our research centers and labs, we enable discovery, creativity, problem solving, and fun while tackling real-world challenges and developing impactful solutions.

The college operates six research centers: the Center for Advanced Study of Communities and Information (CASCI), the Computational Linguistics and Information Processing Lab (CLIP), the Digital Curation Innovation Center (DCIC), the Human-Computer Interaction Lab (HCIL), the Information Policy and Access Center (iPAC), the Trace Research and Development Center.

iSchool faculty and doctoral students also participate in or have affiliations with the University of Maryland Institute for Advanced Computer Studies (UMIACS), and the Maryland Institute for Technology in the Humanities (MITH) as well as the Departments of Computer Science, English, and Sociology, the Robert H. Smith School of Business, and the College of Education.

RESEARCH UNITS

The iSchool is home to a number of research centers and labs:

THE CENTER FOR THE ADVANCED STUDY OF COMMUNITIES AND INFORMATION (CASCI)

Hornbake Bldg, South Wing, College Park, 301-405-2033
https://casci.umd.edu/
Co-Directors: Dr. Jessica Vitak, Dr. Susan Winter

The Center for the Advanced Study of Communities and Information (CASCI) is a multidisciplinary research network, based at University of Maryland. CASCI exists to facilitate research and education that advances our understanding of the technology, information, and organization approaches needed to realize the potential of 21st century communities to support learning, facilitate innovation, transform science and scholarship, promote economic development, and enhance individual and civic well-being.

COMPUTATIONAL LINGUISTICS AND INFORMATION PROCESSING (CLIP)

301-405-6722
https://wiki.umiacs.umd.edu/clip/index.php (https://wiki.umiacs.umd.edu/clip/)
Director: Dr. Jordan Boyd-Graber

The Computational Linguistics and Information Processing Lab (CLIP) at Maryland creates and evaluates systems that allow computers to effectively and efficiently use human language - together with large-scale information networks - to perform tasks such as search, translation, summarization and ontological reasoning. It is a part of the broader language science initiative at Maryland and of the University of Maryland Institute for Advanced Computer Studies (UMIACS).

DIGITAL CURATION INNOVATION CENTER (DCIC)

4110 Hornbake Bldg, South Wing, College Park, 301-405-2033
http://dcic.umd.edu/
dcic.ischool@umd.edu
Director: Dr. Richard Marciano
Assistant Director: Noah Dibert
Digitization Lab Director: Dr. Ken Heger
ARC Lab Director: Dr. Ricky Punzalan

The Digital Curation Innovation Center (DCIC) was founded to lead research and education in digital curation and foster interdisciplinary partnerships using Big Records and archival analytics through public / industry / government partnerships. DCIC sponsors interdisciplinary projects that explore the integration of archival research data, user-contributed data, and technology to generate new forms of analysis and historical research.

THE HUMAN-COMPUTER INTERACTION LAB (HCIL)

2117 Hornbake Bldg, South Wing, College Park, 301-405-2769
http://hcil.umd.edu/
hcil-info@cs.umd.edu
Director: Dr. Niklas Elmqvist
Associate Director: Dr. Jessica Vitak
Associate Director of Research: Dr. Catherine Plaisant
Assistant Director of Technology: Dr. Evan Golub

The Human-Computer Interaction Lab (HCIL) transforms the experience people have with new technologies. From understanding user needs to developing and evaluating the technologies that support users' needs, the lab's faculty, staff, and students have been leading the way in HCI research and teaching for over 30 years. It is critical to understand how the needs and dreams of people can be reflected in future technologies. To this end, the HCIL develops advanced user interfaces and design methodology. The primary activities include collaborative research, publication and the sponsorship of seminars and brown bag talks, workshops and an annual symposium. The HCIL, though referred to as a lab, is actually a research center that is jointly administered by the iSchool and UMIACS, and has multiple labs, faculty, and students associated with it.

THE INFORMATION POLICY AND ACCESS CENTER (IPAC)

4121 Hornbake Bldg, South Wing, College Park, 301-405-9445
ipac.umd.edu (http://ipac.umd.edu)
Co-Directors: Dr. John Bertot, Dr. Paul Jaeger, Dr. Mega Subramaniam

The Information Policy & Access Center (iPAC) is a response to the pressing need for research on the processes, practices, policies, and social issues that govern access to information in our increasingly digital information society. We at iPAC are committed to studying what policies and/or technologies lead to equitable and inclusive information access, a digitally-ready population, an informed and engaged public, access

to Internet-enabled resources and technologies, or preservation of the cultural record, among key examples.

TRACE RESEARCH AND DEVELOPMENT CENTER

Room 2117 Hornbake Bldg, South Wing, College Park, 301-405-2043
http://trace.umd.edu/
trace-info@umd.edu
Director: Dr. Gregg Vanderheiden

The Trace Center's purpose is to apply engineering, computer science, disability studies, public policy, and information science to prevent the barriers to, and capitalize on the opportunities presented by, current and emerging information and communication technologies. Our vision is of a world that is accessible and usable by people of all ages and all abilities – each experiencing ICT in a way they can understand and use. Founded in 1971, Trace has been a pioneer known for high-impact research and development, including access features implemented in computer operating systems, leadership in development of Web Content Accessibility Guidelines and many other accessibility standards, and techniques used to increase the accessibility of self-service kiosks in post offices, train stations, and airports. Trace is currently a leader in the development and large-scale deployment of a Global Public Inclusive Infrastructure that combines cloud computing, web, and platform services to make online information and services available for people facing accessibility barriers.

Information Science Major

The field of information science, particularly in the iSchool, is a field concerned with the intersections of information, people, and technology. Information science is an interdisciplinary field, drawing from other areas of study such as computer science, management, social science, education, and the humanities, but with a focus on individual and institutional users of information and their information needs. In our program students gain the knowledge and the skills for creating information systems, resources, and services that help address society's pressing needs in a variety of contexts and in a variety of private and public sector positions, ranging from financial services to healthcare; from information technology to consulting; and from education to cultural institutions.

Admission to the Major

Students who are accepted to the university and list Information Science (InfoSci) as their preferred major will start directly in our program. Students currently in the University who are interested in declaring Information Science must complete our Change of Major process. For more information please visit the InfoSci website (https://ischool.umd.edu/infosci-collegepark/) or email InfoSci@umd.edu.

Program Objectives

InfoSci students gain the knowledge and the skills for creating information systems, resources, and services that help address society's greatest needs. Through coursework, internships, extracurricular projects, and networking, InfoSci students build careers that will place them in leadership roles in information management, information technology, user-centered design, and data analytics.

Program Learning Outcomes

At the completion of this program, students will be able to:

1. Demonstrate an understanding of information design and management: the interrelationships among information consumers or creators, information content, and the conduits through which information flows.
2. Apply basic principles to the design, development and management of information to meet the needs of diverse users.
3. Assess the impact of existing or emerging technologies on information practices and the flow of information.
4. Employ state-of-the-art tools and techniques to create, manage, and analyze information.
5. Demonstrate an understanding of critical issues including the security, privacy, authenticity, and integrity of information.

Requirements

Students must earn a 'C-' or better in all major requirements and an overall average of 2.0.

Course	Title	Credits
Benchmark Courses		
MATH115	Precalculus	3
PSYC100	Introduction to Psychology	3
STAT100	Elementary Statistics and Probability	3
INST126	Introduction to Programming for Information Science [1]	3
Major Core Requirements		
INST201	Introduction to Information Science	3
INST311	Information Organization	3
INST314	Statistics for Information Science	3
INST326	Object-Oriented Programming for Information Science	3
INST327	Database Design and Modeling	3
INST335	Organizations, Management and Teamwork	3
INST346	Technologies, Infrastructure and Architecture	3
INST352	Information User Needs and Assessment	3
INST362	User-Centered Design	3
INST490	Integrated Capstone for Information Science	3
Major Elective Requirements		
Select ONE of the following options:		15
1. Complete at least 15 credits of INST-coded major electives [2]		
2. InfoSci Specialization: Data Science, Cybersecurity and Privacy, Digital Curation (See below for more information)		
Total Credits		57

1. Other courses exist which fulfill this requirement. Please check with your advisor to make sure that a particular course fulfills this requirement before registering.
2. Check Testudo for currently available INST elective courses.

Data Science Specialization

The original specialization in the InfoSci program allows students develop understanding and skills for managing, manipulating, and mobilizing data to develop insight, create value, and achieve organizational goals in a wide range of sectors. The two career streams students aim for after completing this specialization are data analysts - focusing on analyzing and reporting data - and data stewards - focusing

on extracting, manipulating, and preparing data for quicker and more efficient analysis.

Course	Title	Credits
INST354	Decision-Making for Information Science	3
INST377	Dynamic Web Applications	3
INST414	Data Science Techniques	3
INST447	Data Sources and Manipulation	3
INST462	Introduction to Data Visualization	3
Total Credits		15

CYBERSECURITY AND PRIVACY SPECIALIZATION

This specialization is based on the perspective that a comprehensive and effective understanding of issues surrounding cybersecurity should encompass both technological and human aspects. In the hyper-connected world of today, cybersecurity and privacy are fundamentally problems of human interaction with technology, rather than purely technical problems to solve. As a result, the science and technology deployed to protect and defend our information and critical infrastructure must consider human, social, organizational, economic and technical factors, as well as the complex interaction among them. This specialization helps students equip themselves with human-centered cybersecurity skills and perspectives, and prepare to launch careers in the cybersecurity field with particular emphasis on management, policy, and governance-related functions.

DIGITAL CURATION SPECIALIZATION

This specialization prepares students for jobs where they collect, digitize, appraise, curate, and disseminate information assets effectively and efficiently. Information is at the heart of our society's ability to learn, conduct business, recreate, and manage complex scientific, technological, industrial, and information infrastructures. It is critical that there are qualified professionals with the technical, intellectual, and social awareness required to manage large and complex collections of digital information in a variety of organizational settings. Students finishing this specialization will play critical roles in preserving a vast and varied body of information for posterity.

Four Year Plan

Click here (http://infosci.umd.edu/sites/default/files/bsis_program_plan_0.pdf) for roadmaps for four-year plans in the College of Information Studies.

Additional information on developing a four-year academic plan can be found on the following pages:

- 4yearplans.umd.edu (http://4yearplans.umd.edu/)
- the Student Academic Success-Degree Completion Policy (p. 61) section of this catalog

The Philip Merrill College of Journalism

1100 Knight Hall
301-405-2399
alljourundergrad@umd.edu
www.merrill.umd.edu (http://www.merrill.umd.edu)

Dean: Lucy Dalglish
Associate Dean: Rafael Lorente
Assistant Deans: Katie Aune, Joshua Madden, Vanessa Nichols-Holmes

Admission Requirements

Journalism is a Limited Enrollment Program (LEP). See the Admissions section on general LEP admission policies. (p. 23)

Freshman Admission and the 45-Credit Review

First-time entering freshmen will gain admission to the Philip Merrill College of Journalism directly from high school on an available basis. Early application is encouraged. Freshmen admitted to the program will have access to the necessary advising through their initial semesters to help them determine if Journalism is an appropriate area for their interests and abilities. Academic and career advising is provided to journalism students throughout their academic career by qualified academic counselors and the College's faculty.

Freshmen who are admitted directly to Journalism will be subject to a performance review by the time they have completed 45 credits. To meet the provisions of the review, these students must complete:

1. The two, first-year Fundamental Studies courses: FSAW and FSMA;
2. JOUR201 with a grade of 'C-' or higher (JOUR181, JOUR200 and FSAW are prerequisites for enrollment); and
3. a minimum cumulative GPA of 2.0. Students must prove grammar skills competency through attainment of a minimum of a 'C-' in JOUR181 or an 80 or higher on the grammar competency exam offered in JOUR181.

Students who do not meet these requirements will not be allowed to continue in the LEP and will be required to select another major. In addition, freshmen are expected to complete JOUR200 by the end of their first year.

Transfer Admission

These requirements apply to new transfer students to the University as well as on-campus students.

Note: No more than 12 transfer credits of communications courses from an accredited journalism program may be approved by the College to be applied toward the degree. Transfer students who wish to receive credit for JOUR201 based on work done in a non-accredited journalism program must pass a proficiency exam.

In order to be admitted to Journalism, transfer students will be required to meet the following set of gateway requirements:

1. The two, first-year Fundamental Studies courses: FSAW and FSMA;
2. JOUR201 with a grade of 'C-' or higher (JOUR181, JOUR200 and FSAW are prerequisites for enrollment); and
3. attainment of a 2.8 GPA for all college-level work attempted.

Appeals

Students who are unsuccessful in gaining admission to Journalism at the freshman or transfer level, and believe they have extenuating or special circumstances that should be considered, may appeal in writing to the Office of Undergraduate Admissions. The student will be notified in writing of the appeal decision.

Students admitted to Journalism as freshmen that do not pass the 45-credit review but believe they have special circumstances that should be considered, may appeal directly to the College.

For further information, contact the College's Student Services office at 301-405-2399.

Academic Programs

Major

- Journalism Major (p. 407)

Advising

The Office of Student Services provides academic advising to journalism majors on an appointment basis. It is located at 1100 Knight Hall, 301-405-2399.

Opportunities

Fieldwork Opportunities

Internships

Supervised internships are essential. Adrianne Flynn is the Internships and Career Development Director, 3105A Knight Hall, 301-405-7247.

Professional Experience Opportunities

Capital News Service

Capital News Service is a student-powered news organization run by the Philip Merrill College of Journalism. For more than two decades, we have provided deeply reported, award-winning coverage of issues of import to Marylanders.

With bureaus in College Park, Annapolis and Washington run by professional journalists, we deliver news in multiple multimedia formats via partner news organizations, a destination website, a nightly on-air television newscast and affiliated social media channels. We provide breaking news coverage, in-depth investigative and enterprise journalism, and serve as a laboratory for students to test and develop innovative new methods of reporting and telling stories.

UMTV

For students interested in broadcast news, opportunities to gain experience with cable news programs are presented in the curriculum and by volunteering at the campus television station, UMTV.

Student-Run Campus Media Outlets

Students can gain broadcast news and sports reporting experience through the campus radio station, WMUC. There are numerous student-run publications on campus. These include, The Diamondback, an independent daily newspaper that appears in print and online. The Diamondback is one of the most-read campus dailies in the nation. Among the many campus publications there are literary magazines, newspapers and websites of interest to special populations. These include the Eclipse, La Voz Latina, The Mitzpeh, Public Asian, Stories Beneath the Shell, and Unwind magazine.

Living-Learning Programs

College Park Scholars - Media, Self & Society

Dr. Kalyani Chadha, Director, Media, Self & Society Program

Co-sponsored by the Philip Merrill College of Journalism, the Media, Self and Society Program is one of the living/learning programs offered by the College Park Scholars Program (CPSP). This two-year program for incoming freshmen is designed to give students the opportunity to undertake a critical examination of media organizations, institutions and practices as well as gain practical experience through involvement in a media-related activity of their choice. For more information, see the College Park Scholars Program entry in the 'Office of Undergraduate Studies' section under 'The Colleges and Schools.'

Honors Program

Although no departmental honors program currently exists within the college, academically outstanding students are recognized through Kappa Tau Alpha, the Journalism academic honor society.

Student Societies and Professional Organizations

The college sponsors student chapters of the Society for Professional Journalists, the National Association of Hispanic Journalists, and the National Association of Black Journalists. These organizations provide students with opportunities to practice skills, establish social relationships with other students both on and off campus, and meet and work with professionals in the field.

For information on the organizations listed, contact the Student Services Office, 1100 Knight Hall, 301-405-2399.

Financial Assistance

The College is committed to enrolling the most qualified students, regardless of ability to pay. Toward that end, the college, through donor-sponsored awards, gives annual scholarships to undergraduates. Additionally, the university awards scholarships and financial aid including low-interest loans, grants and work-study opportunities.

Sources for Incoming Students

All incoming freshman are automatically considered for scholarships granted by the college.

Baltimore Sun Diversity in Journalism Scholarship

Established by the Times Mirror Foundation, this non-renewable award is granted to an incoming freshman with high academic achievement in high school and wide-ranging cultural and economic background, who resides in the Baltimore Sun's circulation area.

Frank R. Cormier White House Correspondents' Association Scholarship

Established in 1991 by the White House Correspondents' Association, this award was renamed in 1994 to honor the memory of Frank R. Cormier, who for two decades exemplified the best qualities of White House correspondents with a blend of gentleness, humor and professionalism that endeared him to the readers of his dispatches for The Associated Press. This renewable scholarship is awarded to one undergraduate student from Washington, D.C. or Prince George's County, Maryland on the basis of financial need.

William Randolph Hearst Scholarship

Established in honor of William Randolph Hearst's 82nd birthday, these are among the college's first scholarships. A limited number of non-renewable awards are granted to outstanding students who are residents of Maryland.

William C. Huffman Scholarship
This fund was established by Diana L. Huffman, the Baltimore Sun Distinguished Lecturer at Merrill College, in honor of her father, Dr. William C. Huffman (1910-1988), and his commitment to education and philanthropy. This renewable scholarship is awarded to an incoming freshman at the Philip Merrill College of Journalism who is in good academic standing and remain so throughout the term of the award, demonstrate financial need, and is a resident of Washington, D.C. or Prince George's County, Maryland. Students are eligible to re-apply for the award in subsequent years as long as they still qualify for the award criteria.

Jonathan Ledecky Sports Journalism Scholarship
Funded by New York Islanders minority owner Jonathan Ledecky to support scholarships for students in the Philip Merrill College of Journalism who have interest in sports journalism. Recipients must have an expressed interest in sports journalism, be accepted for full-time enrollment, and maintain good academic standing.

Sources for Current Students
Students are selected on a basis of need, merit, donors' intent or a combination of these factors. Below is a selection of scholarships students may apply for:

The Steven C. Affens Broadcast Journalism Scholarship
This scholarship is awarded to an undergraduate broadcast student. Recipients shall be selected from applications that include evidence of the student's on-air TV work.

Carolyn A. and Howard F. Ahrens Scholarship
